FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

Rules and Regulations

Federal Register
Vol. 57, No. 185
Wednesday, September 23, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 94

[Docket No. 91-153-2]

Transit of Animal Products From Restricted Countries Through the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are allowing certain animal products to be moved through the United States from countries that are declared free of foot-and-mouth disease but that are subject to certain restrictions, and from countries that are considered free of swine vesicular disease but that are subject to certain restrictions, even if the animal products do not originate in establishments approved by the United States Department of Agriculture. We have determined that this action will provide shippers in foreign countries additional cargo routes to foreign destinations, without increasing the risk of introducing animal diseases into the United States.

EFFECTIVE DATE: September 16, 1992.

FOR FURTHER INFORMATION CONTACT: Dr. John Gray, Senior Staff Veterinarian, Import-Export Products Staff, VS, APHIS, USDA, room 756, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-7885.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 9 CFR part 94 (referred to below as the regulations) regulate, among other things, the importation into the United States of certain animals, meat, and animal products. These regulations are designed, among other things, to prevent the introduction into the United States of rinderpest, foot-and-mouth disease, African swine fever, hog cholera, swine vesicular disease, and velogenic viscerotropic Newcastle disease.

The regulations in § 94.11 list countries in which rinderpest and foot-and-mouth disease are not considered to exist, but that, because of importation practices or geography, present some risk of exporting products contaminated by those diseases. Similarly, the regulations in § 94.13 list countries in which swine vesicular disease is not considered to exist, but that, because of importation practices or geography, present some risk of exporting products contaminated by that disease.

The regulations include provisions allowing certain meat and meat products to be imported from these countries, provided they are prepared and imported under certain conditions. One of these conditions is that the meat and meat products be prepared in inspected establishments that are eligible to have their products imported into the United States under the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the regulations in 9 CFR 327.4. Additionally, the meat and meat products must be accompanied by certification relating to standards promulgated by the Food Safety and Inspection Service (FSIS), United States Department of Agriculture.

On June 23, 1992, we published in the **Federal Register** (57 FR 27951-27953, Docket No. 91-153) a proposal to allow certain meat and meat products to be imported into the United States, for transit through the United States for immediate export, even if those articles are not prepared in the inspected establishments described above. We also proposed to remove the requirement that the meat and meat products be accompanied by certification relating to FSIS standards.

Comments on the proposed rule were required to be received by the Animal and Plant Health Inspection Service on or before July 23, 1992. We received three comments by that date. The comments were from a shipping line, a foreign ministry of agriculture, and food supply company. Two of the commenters supported the proposal as written. The third commenter supported the proposal, but requested two clarifications, as discussed below.

The commenter requested clarification as to whether the proposed regulation would apply to all animals, rather than just to ruminants and swine as written. The requirements we are eliminating, that certain meat and meat products from the countries in question be prepared in FSIS-approved establishments and that specified certification accompany the articles, apply only to meat and meat products from swine and ruminants. There are no equivalent requirements for products from other animals. Therefore, there was no need to address products from other animals in the proposal.

Our proposal defined "immediate export" as "the period of time determined by APHIS, based on shipping routes and timetables, to be the shortest practicable interval of time between the arrival in the United States of an incoming carrier and the departure from the United States of an outgoing carrier, to transport a consignment of products." One commenter requested that we clarify whether overland shipments, such as those through the United States to Canada or Mexico, would be allowable under this definition of "immediate export." We recognize that in certain cases it will be most cost effective for shipments to move overland through the United States. The intent of the regulations as written is to allow such overland shipments, provided they are carried out within the shortest time practicable.

Therefore, based on the rationale in the proposed rule and in this document, we are adopting the proposed rule with one nonsubstantive change.

Effective Date

Mr. Robert Melland, Administrator of the Animal and Plant Health Inspection Service, has determined that this rulemaking proceeding should be expedited by making this rule effective upon signature. This rule relieves certain restrictions on the importation into the United States of animal products for transit to another country, if those animal products come from countries that are free of rinderpest and foot-and-mouth disease but that are subject to certain restrictions, or from countries that are free of swine vesicular disease but that are subject to certain restrictions. This rule will open up additional trade routes for certain products currently not eligible to transit

the United States. It will benefit shipping handlers at United States ports, exporters of animal products, shipping lines, domestic specialized transport companies, and domestic brokerage houses.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

In accordance with 5 U.S.C. 604, we have prepared a Final Regulatory Flexibility Analysis, set forth in the following paragraphs, regarding the impact of this rule on small entities.

In accordance with 21 U.S.C. 111, the Secretary of Agriculture is authorized to promulgate regulations to prevent the introduction into the United States from a foreign country of any contagious, infectious, or communicable disease of animals. We are revising sections of 9 CFR part 94 to allow animal products from certain countries to transit the United States in order to be shipped to third countries for which they are destined, even if the animal products are not prepared in inspected establishments that are eligible to have their products imported into the United States under the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the regulations in 9 CFR 327.2, and are not accompanied by the USDA-approved foreign meat inspection certificate prescribed in 9 CFR 327.4. We believe these changes will open up additional trade routes for animal products not prepared in the described establishments or accompanied by the described certification, without increasing the risk of the introduction of disease into the United States.

This rule will create no new restrictions. We are aware that implementation of this rule may generate the transit of additional shipments of animal products through United States ports. In particular, we are aware of a large volume of intended shipments originating from European countries (specifically, Great Britain and Northern Ireland), and destined for Caribbean countries and Mexico, that are likely to transit the United States. This is because major shipping lines use the United States and its ports as a major shipping hub.

There will be a beneficial impact from any increase in the volume of shipments handled at United States ports. The exporters of animal products, shipping lines, consumers in recipient countries, domestic specialized transport companies, and domestic brokerage houses will also benefit from this action.

As an alternative to the changes made by this rule, we considered making no changes to the regulations. We rejected this alternative because it would have continued to impose unnecessary restrictions on the movement of certain animal products.

Executive Order 12778

This final rule has been reviewed under Executive Order 12778, Civil Justice Reform. This rule: (1) Preempts all State and local laws and regulations that are in conflict with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging its provisions.

Paperwork Reduction Act

This rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 9 CFR Part 94

Animal diseases, Imports, Livestock, Meat and meat products, Milk, Poultry and poultry products, Reporting and recordkeeping requirements.

Accordingly, 9 CFR part 94 is amended as follows:

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, HOG CHOLERA, AND BOVINE SPONGIFORM ENCEPHALOPATHY; PROHIBITED AND RESTRICTED IMPORTATIONS

1. The authority citation for part 94 continues to read as follows:

Authority: 7 U.S.C. 147a, 150ee, 161, 162, 450; 19 U.S.C. 1306; 21 U.S.C. 111, 114a, 134a, 134b, 134c, and 134f; 31 U.S.C. 9701; 42 U.S.C. 4331, 4332; 7 CFR 2.17, 2.51, and 371.2(d).

2. Section 94.0 is amended by adding a definition of "Immediate export", in alphabetical order, to read as follows:

§ 94.0 Definitions.

* * * * *

Immediate export. The period of time determined by APHIS, based on shipping routes and timetables, to be the shortest practicable interval of time between the arrival in the United States of an incoming carrier and the departure from the United States of an outgoing carrier, to transport a consignment of products.

* * * * *

3. Section 94.15 is amended by adding a new paragraph (c) to read as follows:

§ 94.15 Animal products and materials; movement and handling.

* * * * *

(c) Meat and other products of ruminants or swine from countries listed in § 94.11(a) and pork and pork products from countries listed in § 94.13 that do not meet the requirements of § 94.11(b) or § 94.13(a) may transit through the United States for immediate export, provided the provisions of paragraph (a) of this section are met, and provided all other applicable provisions of this part are met.

Done in Washington, DC, this 16th day of September 1992.

Robert Melland,

Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 92-22948 Filed 9-22-92; 8:45 am]

BILLING CODE 3410-34-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

Integrated Schedules; Policy Statement

AGENCY: Nuclear Regulatory Commission.

ACTION: Final policy statement on integrated schedules.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its Final Policy Statement on Integrated Schedules. This policy statement describes the policy the Commission intends to use to promote voluntary implementation of licensee integrated schedules for regulatory requirements and other activities at nuclear power plants. The primary focus of the policy addresses the way licensees may establish realistic integrated schedules and the ways the Commission intends to interact with these licensees. It also documents the Commission's support for the establishment of integrated schedules at each nuclear power plant.

Integrated schedules for plant modifications and activities will permit the NRC, the nuclear industry, and the public to focus on safety issues while forecasting and maintaining long-term schedules and will permit more effective use of licensee resources to implement these plant changes and NRC resources to review them.

EFFECTIVE DATE: November 23, 1992.

FOR FURTHER INFORMATION, CONTACT: Claudia M. Abbate, Policy Development and Technical Support Branch, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555; Telephone (301) 504–1281.

SUPPLEMENTARY INFORMATION:

Background

On November 27, 1987, the "Proposed Policy Statement on Integrated Schedules for Implementation of Plant Modifications" was published in the **Federal Register** (52 FR 45345). The proposed policy statement described the policy the Commission intended to use to promote the development of voluntary integrated schedules for implementing regulatory requirements and other improvements in nuclear power plants. The comment period ended on January 25, 1988. The staff received and evaluated 19 sets of comments. Seven facilities implemented the proposed policy on integrated schedules.

On December 27, 1990, the NRC requested comments on SECY–90–347, "Regulatory Impact Survey Report," in the **Federal Register** (55 FR 53220). SECY–90–347 included a discussion of the proposed integrated regulatory requirements implementation schedule (IRRIS) concept. The staff developed IRRIS to better manage the impact on licensees of implementing generic requirements. During the 30-day comment period, the NRC received and evaluated 22 sets of comments that addressed IRRIS.

On June 7, 1991, SECY–91–172, "Regulatory Impact Survey Report—Final," was issued which stated that the staff would not go forward with the IRRIS program, but would revise the 1987 proposed policy by integrating the proposed integrated schedule policy, the IRRIS program, as well as the experience gained from licensees that have implemented integrated schedules.

Summary of Public Comments

All but two comments received regarding the proposed policy on integrated schedules were from licensees. Most comments opposed the policy statement as written for several reasons. First, some respondents stated that too much emphasis was placed on incorporating integrated schedules into the operating license through a license condition. There was a concern that licensees not requesting a license condition would not receive equal consideration of schedular issues as licensees that did request a license condition. Second, respondents indicated that development of a negotiated integrated schedule by licensees with good regulatory compliance records is neither necessary nor appropriate. The respondents believe an amendment to the operating license would require additional resources on their part as well as the NRC and would not significantly enhance the effort to complete licensing activities. Third, respondents indicated that all work efforts should be included in the schedule rather than just NRC-initiated tasks as was discussed in the proposed policy statement. Respondents felt that only including part of the tasks in the schedule may not show that regulatory requirements are receiving timely attention.

Respondents submitting comments regarding the IRRIS program as proposed in SECY–90–347 stated that IRRIS would only address the symptoms of cumulative generic requirements and would not address the problem of management of generic requirements at the front-end of the process. The respondents commented that the IRRIS program should: (1) Include all regulatory actions and information requests; (2) be implemented through a pilot program with appropriate guidelines and evaluation of the pilot program, (3) have provisons to eliminate low priority items, and (4) remove the freeze on the schedule one year before an outage.

Operational Experience

The licensees for seven operating facilities (including two multi-unit sites) have implemented integrated schedules. The licensees include all activities above a certain threshold (such as number of person-hour or cost) in the integrated schedule. Such items would include NRC-mandated items, commitments to NRC generic letters and bulletins, significant actions to resolve items from NRC inspection reports and licensee event reports (LERs), and licensee-initiated actions. Most of these licensees implement a two- or three-tier approach with NRC rules being one tier and the other tiers consisting of commitments and licensee-initiated projects.

The licensees submit integrated schedules to the NRC semi-annually. The priorities are determined by different methodologies, but are based upon general considerations such as safety significance, cost, availability of the plant and of resources. One licensee used the integrated schedule to delay implementation of items indefinitely. In a few cases the NRC has disagreed with the licensees' priority of certain items. However, the process has generally benefitted both the NRC and the licensees.

The proposed policy statement was revised as a result of the comments and feedback from licensees' experience in implementing the integrated schedule. Although the Commission believes that integrated schedules should be developed, licensees are not required to participate in the program or incorporate an integrated schedule into the operating license. Licensees may voluntarily develop and coordinate an integrated schedule with the NRC. Those licensees already implementing an integrated schedule may continue with their current program or adopt a program consistent with the final policy.

Final Commission Policy

The Commission believes the implementation of integrated schedules on a plant-specific basis will provide a systematic method of coordinating, managing, and scheduling major modifications and activities initiated by both the NRC and licensees. Integrated schedules could enhance timely compliance with regulatory requirements and accommodate licensee-initiated activities. The integrated schedule provides a major benefit in its flexibility to assign or reassign resources in recognition of the safety significance.

The integrated schedule program, including the prioritization methodology, the schedule, and periodic schedule updates will be determined by the licensee and submitted to the NRC for review. The major elements of an integrated scheduling program should include the following:

1. A systematic process for identifying and defining those activities to be scheduled;

2. A process for prioritizing and a process for scheduling the individual actions, taking into account factors such as safety, plant availability, radiation exposure, procurement requirements, and costs;

3. A plan for maintaining and updating implementation schedules;

4. A provision for NRC review of the prioritization and scheduling process, the initial schedule and updates;

5. A provision for requesting schedular relief on NRC-initiated schedules; and

6. A process for evaluating a licensee's maintenance of schedules through the issuance of periodic reports on actions completed, schedules for new actions, and schedule changes that result from new actions or implementation problems.

Licensees who volunteer will develop a program which will result in an integrated schedule containing three levels. Items contained in level 1 of the integrated schedule will be those items with specific implementation dates to be implemented in response to a rule, order, or license condition, including Technical Specifications and amendments. These items will be included in the integrated schedule to provide a complete view of the items that the NRC requires to be implemented. The licensee cannot change the implementation schedules for these items through the integrated schedule program. The licensee must request schedule changes for these items in accordance with standard procedures for applications for license amendments or exemptions.

Items contained in level 2 of the integrated schedule will result from licensee commitments of NRC actions, including generic communications (generic letters and bulletins). Licensees will have the flexibility to establish and revise their schedular commitments for level 2 items. When an NRC communication is issued, licensees with an integrated schedule will review the recommended implementation date, will include the item in the integrated schedule, and will prioritize the item among other NRC items in the integrated schedule. The licensee will then provide the NRC with the proposed implementation date in the initial response to the NRC communication. If other items of more significance to safety prevent the licensee from scheduling the newly-initiated item by the date recommended in the NRC correspondence, the licensee will submit to the NRC the justification for the proposed schedule in the initial response to the NRC communication.

The licensee with an integrated schedule program will be able to substitute licensee-initiated safety enhancements in place of NRC-recommended initiatives in those instances in which the licensee's initiatives yield an equivalent safety benefit. The licensee will submit the proposed schedule for the licensee-initiated item and the justification for the substitution.

The NRC staff will have 90 days to review the proposed schedule for implementing level 2 items (90-day negative consent). If the schedule cannot be agreed upon by both parties and if the staff believes that a significant safety concern exists, the staff at any time can issue an order to implement such items. The staff can take this action whether or not a licensee has an integrated schedule.

The licensee can request relief from implementing specific NRC items in level 2 that have not been implemented over a number of years because of their low safety significance. The licensee will need to obtain specific NRC approval for removal of these items. The 90-day negative consent process does not apply.

Items contained in level 3 of the integrated schedule will be other activities such as licensee-initiated projects, LER follow-up, and INPO or NUMARC initiatives. The licensee will identify items to include in level 3 and the threshold above which level 3 tasks will be included in the integrated schedule. The integrated schedule will include only those items above the threshold. Licensees will schedule items in level 3 consistent with commitments and other items in the schedule. Level 3 activity schedules will be submitted to the NRC, but no formal review will be performed by the staff on these items. They are included so the staff can obtain a complete overview of licensee activities.

The licensee will not be required to incorporate the integrated schedule into the operating license as a license condition. Licensees who volunteer for the program will develop and submit the integrated schedule program, the detailed integrated schedule for a fuel cycle, and a less detailed schedule for future fuel cycles to the NRC. Thereafter, the licensee will submit the detailed integrated schedule for the upcoming fuel cycle and a less detailed schedule for items to be implemented in future fuel cycles. The staff will have a 90-day negative consent period to respond to the integrated schedule proposed by the licensee.

A fundamental premise of integrated schedules is that plant tasks can and should be prioritized. This can also apply to design engineering and analysis efforts that require substantial resources for an extended period of time. The prioritization of these projects can provide a consistent and defensible basis for the initial implementation schedule and for negotiating future changes or additions.

As the prioritization method will be based on a number of factors, many of which will be plant specific, the Commission has concluded that the licensee should select the prioritization methodology, except to the extent that items in level 1 may have to be implemented by specific dates in accordance with the regulation, order, or license condition. Although integrated schedules will be developed and proposed by the licensee, the licensee is obligated to describe the process comprehensively to the NRC. The Commission must understand the planning and scheduling practices and have an overview of ongoing activities at the plant to ensure that licensees are establishing realistic and timely implementation schedules.

The NRC's Divisions of Reactor Projects in the Office of Nuclear Reactor Regulation will manage the implementation of the integrated schedule program. The staff will work with the licensees and other NRC offices, such as the responsible regional office, to develop mutually acceptable schedules.

Licensees currently implementing an integrated schedule may continue their program or adopt the program outlined above. Licensees may withdraw from the program upon notifying the NRC.

This policy statement contains information collection requirements that are subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). These requirements were approved by Office of Management and Budget approval number 3150–0168, which expires August 31, 1995.

Public reporting burden for this collection of information is estimated to average 300 hours annually per licensee. In addition, there is a one-time burden of 300 hours per licensee for submittal of the initial program and a one-time burden of 40 hours for termination of the program. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Information and Records Management Branch (MNBB–7714), Division of Information Support Services, Office of Information and Resources Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555; and to Ronald Minsk, Office of Information and Regulatory Affairs (3150–0168), NEOB–

3019, Office of Management and Budget, Washington, DC 20503.

Dated at Rockville, MD, this 17th day of September, 1992.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

FEDERAL RESERVE SYSTEM

12 CFR Parts 208 and 225

[Regulations H and Y; Docket No. R-0776]

Capital; Capital Adequacy Guidelines

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Interim rule.

SUMMARY: The Board is proposing to modify its risk-based capital guidelines for state member banks and bank holding companies to include the European Bank for Reconstruction and Development, the International Finance Corporation, and the Nordic Investment Bank in the list of named multilateral lending institutions that are eligible for a 20 percent risk weight. This proposed modification would conform the Board's risk-based capital guidelines more closely to interpretive guidance adopted by the other G-10 countries that are signatories to the Basle Accord.

DATES: The interim rule is effective as of September 23, 1992. Comments must be received by October 23, 1992.

ADDRESSES: Comments, which should refer to Docket No. R-0776, may be mailed to the Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue, NW., Washington, DC 20551, to the attention of Mr. William W. Wiles, Secretary. Comments addressed to Mr. Wiles may also be delivered to the Board's mail room between 8:45 a.m. and 5:15 p.m., and to the security control room outside of those hours. Both the mail room and the security control room are accessible from the courtyard entrance on 20th Street between Constitution Avenue and C Street, NW. Comments may be inspected in Room B-1122 between 9:00 a.m. and 5:00 p.m. weekdays, except as provided in § 261.8 of the Board's Rules Regarding Availability of Information, 12 CFR 261.8.

FOR FURTHER INFORMATION CONTACT: Rhoger H Pugh, Assistant Director (202/728-5883), Kelly S. Shaw, Supervisory Financial Analyst (202/452-3054), Norah Barger, Supervisory Financial Analyst (202/452-2402), Division of Banking Supervision and Regulation; and Brian E. J. Lam, Attorney (202/452-2067), Legal Division, Board of Governors of the Federal Reserve System. For the hearing impaired *only*, Telecommunication Device for the Deaf (TDD), Dorothea Thompson (202/452-3544), Board of Governors of the Federal Reserve System, 20th and C Streets, NW., Washington, DC.

SUPPLEMENTARY INFORMATION: Under the risk-based capital framework established by the Basle Accord, claims on, and claims guaranteed by, multilateral lending institutions and regional development banks in which G-10 countries are shareholding members may be accorded, at national discretion, a 20 percent risk weight. Like the Basle Accord, the Board's risk-based capital guidelines specify five multilateral lending institutions and regional development banks[1] that are eligible for the 20 percent risk weight. The guidelines further state that other multilateral lending institutions and regional development banks may be accorded a 20 percent risk weight if the U.S. government is a shareholder or contributing member.

The Board has received a number of requests concerning the risk weight of claims on, and investments in securities issued by, the European Bank for Reconstruction and Development (EBRD), the International Finance Corporation (IFC), and the Nordic Investment Bank (NIB). In response to these requests, the Board is proposing to clarify that bank holding companies and state member banks may assign a 20 percent risk weight to claims on, or guaranteed by, the EBRD or the IFC. The U.S. is a contributing shareholder of the EBRD, but it was established after the original publication of the capital adequacy guidelines. Since the IFC is a subsidiary of the World Bank, an organization that the guidelines specifically name as an institution eligible for the 20 percent risk weight, it already implicitly is included in the 20 percent risk category. However, since numerous inquiries have been received with regard to the appropriate risk category for the IFC, the Board is proposing to include it in the list of multilateral lending institutions and regional development banks specifically named in the guidelines as eligible for the 20 percent risk weight.

The Board is also proposing to permit bank holding companies and state member banks to assign a 20 percent risk weight to claims on, or guaranteed by, NIB. Under the current guidelines, NIB would not qualify for a 20 percent risk weight as the U.S. is neither a shareholder nor a contributing member. However, the Basle Committee on Banking Supervision has interpreted the criteria in the Basle Accord for assigning a multilateral lending institution to the 20 percent risk category to mean that any country may include NIB in this preferential risk category since Sweden, a G-10 country, is a shareholder in NIB. Thus, adding NIB to the list of named multilateral lending institutions eligible for a 20 percent risk weight would serve to conform the Board's risk-based capital guidelines more closely to the interpretative guidance adopted by the other G-10 countries that are signatories to the Basle Accord.

The proposed modifications to the risk-based capital guidelines would have the effect of allowing claims collateralized by securities issued by the EBRD, IFC, and NIB to be included in the 20 percent risk category.

The Board is seeking comment on the proposed change to its risk-based capital guidelines. Because the Board wishes to implement in an appropriate and expeditious manner guidance adopted by the G-10 countries in connection with the Basle Accord, and because the proposed revision would reduce rather than expand the regulatory burden on state member banks and bank holding companies, the Board is implementing the proposed change immediately as an interim rule.

Regulatory Flexibility Act Analysis

The Federal Reserve Board does not believe adoption of this proposal would have a significant economic impact on a substantial number of small business entities (in this case, small banking organizations), in accord with the spirit and purposes of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). In this regard, the proposed revision would reduce certain regulatory burdens on bank holding companies as it would reduce the capital charge on certain transactions. In addition, because the risk-based capital guidelines generally do not apply to bank holding companies with consolidated assets of less than $150 million, this proposal will not affect such companies.

System. Reporting and recordkeeping requirements, Securities.

12 CFR Part 225

Administrative practice and procedure, Banks, banking, Federal Reserve System, Holding companies, Reporting and recordkeeping requirements, Securities.

For the reasons set forth in the preamble, and pursuant to the Board's authority under section 5(b) of the Bank Holding Company Act of 1956 (12 U.S.C. 1844 (b)), and section 910 of the International Lending Supervision Act of 1983 (12 U.S.C. 3909), the Board is amending 12 CFR parts 208 and 225 as follows:

PART 208—MEMBERSHIP OF STATE BANKING INSTITUTIONS IN THE FEDERAL RESERVE SYSTEM

1. The authority citation for part 208 is revised to read as follows:

Authority: Sections 9, 11(a), 11(c), 19, 21, 25, and 25(a) of the Federal Reserve Act, as amended (12 U.S.C. 321-338, 248(a), 248(c), 461, 481-486, 601 and 611, respectively); sections 4, 13(j), and 18(o) of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1814, 1823(j), and1828(o), respectively); section 7(a) of the International Banking Act of 1978 (12 U.S.C. 3105); sections 907-910 of the International Lending Supervision Act of 1983 (12 U.S.C. 3906-3909); sections 2, 12(b), 12(g), 12(i), 15(c) (5), 17, 17A, and 23 of the Securities Exchange Act of 1934 (15 U.S.C. 78b, 78l(b), 78l(g), 78l(i), 78o-4(c) (5), 78q, 78q-1, and 78w, respectively); section 5155 of the Revised Statutes (12 U.S.C. 36) as amended by the McFadden Act of 1927; and sections 1101-1122 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 3310 and 3331-3351).

2. Appendix A to part 208 is amended by revising the second sentence of the second paragraph in III.C.2 to read as follows:

Appenix A to Part 208—Capital Adequacy Guidelines for State Member Banks: Risk-Based Measure

* * * * *

III. * * *

C. * * *

2. ***In addition, this category also includes claims on, and the portions of claims that are guaranteed by, U.S. government-sponsored[32] agencies and claims on, and the portions of claims guaranteed by, the International Bank for Reconstruction and Development (World Bank), the International Finance Corporation, the Interamerican Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Nordic Investment Bank, and other multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member.***

* * * * *

[32] For this purpose, U.S. government-sponsored agencies are defined as agencies originally established or chartered by the federal government to serve public purposes specified by the U.S. Congress but whose obligations are *not explicitly* guaranteed by the full faith and credit of the U.S. government. These agencies include the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), the Farm Credit System, the Federal Home Loan Bank System, and the Student Loan Marketing Association (SLMA). Claims on U.S. government-sponsored agencies include capital stock in a Federal Home Loan Bank that is held as a condition of membership in that Bank.

PART 225—BANK HOLDING COMPANIES AND CHANGE IN BANK CONTROL

1. The authority citation for part 225 is revised to read as follows:

Authority: 12 U.S.C. 1817(j) (13), 1818(b), 1828(o), 1831i, 1843(c) (8), 1844(b), 1972(l), 3106, 3108, 3907, 3909, 3310, 3331-3351, and sec. 306 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (Pub. L. 102-242, 105 Stat. 2236 (1991)).

2. Appendix A to part 225 is amended by revising the second sentence of the second paragraph in III.C.2 to read as follows:

Appendix A to Part 225—Capital Adequacy Guidelines for Bank Holding Companies: Risk-Based Measure

* * * * *

III. * * *

C. * * *

2. ***In addition, this category also includes claims on, and the portions of claims that are guaranteed by, U.S. government-sponsored[35] agencies and claims on, and the portions of claims guaranteed by, the International Bank for Reconstruction and Development (World Bank), the International Finance Corporation, the Interamerican Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Nordic Investment Bank, and other multilateral lending institutions or regional development banks in which the U.S. government is a shareholder or contributing member.***

* * * * *

[35] For this purpose, U.S. government-sponsored agencies are defined as agencies originally established or chartered by the federal government to serve public purposes specified by the U.S. Congress but whose obligations are *not explicitly* guaranteed by the full faith and credit of the U.S. government. These agencies include the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), the Farm Credit System, the Federal Home Loan Bank System, and the Student Loan Marketing Association (SLMA). Claims on U.S. government-sponsored agencies include capital stock in a Federal Home Loan Bank that is held as a condition of membership in that Bank.

Board of Governors of the Federal Reserve System, September 16, 1992.

William W. Wiles,

Secretary of the Board.

BILLING CODE 6210-01-F

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92-NM-115-AD; Amendment 39-8373; AD 92-19-15]

Airworthiness Directives; Boeing Model 707 and 720 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to certain Boeing Model 707 and 720 series airplanes, that currently requires inspections of the inboard engine nacelle strut attach structure to detect cracks, and repair, if necessary. This amendment requires improved repetitive inspections to detect cracks in the inboard nacelle strut midspar fittings, and replacement, if necessary. In addition, this AD significantly decreases the repetitive inspection intervals. This amendment is prompted by two recent reports of engine and pylon separations on Model 707 series airplanes and numerous reports of cracks found in the midspar fittings. The actions specified in this AD are intended to prevent separation of an inboard engine from an airplane.

DATES: Effective on October 8, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 8, 1992.

Comments for inclusion in the Rules Docket must be received on or before November 23, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-115-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW.,

Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Stanton R. Wood, Aerospace Engineer, Seattle Aircraft Certification Office, Airframe Branch, ANM-120S, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone (206) 227-2772; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: On October 31, 1988, the FAA issued AD 88-24-10, Amendment 39-6063 (53 FR 46434, November 17, 1988), to require inspections of the inboard engine nacelle strut attach structure to detect cracks, and repair, if necessary. That action was prompted by a report of an engine separating from an airplane. The actions required by that AD are intended to prevent separation of an inboard engine from an airplane.

Since the issuance of that AD, there have been two recent reports involving the separation of the number 3 engines and pylons from Model 707 series airplanes. One report indicated that the number 3 engine and pylon separated from the airplane, impacting the number 4 engine upon separation. Subsequently, the number 4 engine and pylon also separated from the airplane, and a fire occurred in the wing area where the number 3 pylon broke off. Investigation revealed that the number 3 pylon separated from the airplane as a result of the failure of the inboard midspar fitting, which attaches the pylon to the wing. Analysis indicates that the inboard midspar fitting failed due to fatigue cracking. Failure to detect and repair cracks in this area could lead to the separation of an inboard engine from an airplane.

While these two reports occurred on airplanes that had been modified in accordance with Supplemental Type Certificate (STC) SA2699NM to include engine "hush kits," numerous cracks have been found in the midspar fittings on unmodified Model 707 and 720 series airplanes as well. This AD addresses certain unmodified Model 707 and 720 series airplanes, in addition to airplanes that have been modified in accordance with the aforementioned STC (SA2699NM) and two STC's that are of similar design, SA3595NM and SA4015NM.

The FAA has reviewed and approved Boeing Service Bulletin 3183, Revision 4, dated July 8, 1992, which describes improved procedures to perform repetitive close visual inspections to detect cracks in both midspar fittings on each inboard strut.

The Boeing Company has designed a replacement fitting, which, if installed, would correct the fatigue cracking problem addressed in this AD. This replacement fitting is described in Boeing Service Bulletin 3183, Revision 1, dated May 17, 1977, and Revision 2, dated January 28, 1988, and is included as an optional terminating action in this AD. The FAA plans further rulemaking to require installation of the midspar fittings with these improved fittings as terminating action for the repetitive inspections on all Boeing Model 707 and 720 series airplanes. Therefore, this AD is considered to be interim action.

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of this same type design, this AD supersedes AD 88-24-10 to require improved repetitive inspections to detect cracks in the inboard nacelle strut midspar fittings, and replacement, if necessary. This AD also decreases the repetitive inspection intervals based on recent service history of these airplanes in order to ensure that cracks are detected and repaired in a timely manner.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and opportunity for prior public comment hereon are impracticable, and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this action is in the form of a final rule that involves requirements affecting flight safety and, thus, was not preceded by notice and an opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified under the caption "**ADDRESSES.**" All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-NM-115-AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is an emergency regulation and that it is not considered to be major under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption "**ADDRESSES.**"

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing amendment 39-6063 (53 FR 46434, November 17, 1988), and by adding a new airworthiness directive (AD), amendment 39-8373, to read as follows:

92-19-15. Boeing: Amendment 39-8373. Docket 92-NM-115-AD. Supersedes AD 88-24-10, Amendment 39-6063.

Applicability: Model 707 and 720 series airplanes; line numbers 1 through 906, inclusive; including Model 707 and 720 series airplanes that have been modified in accordance with Supplemental Type Certificates (STC's) SA2699NM, SA3595NM, or SA4015NM; certificated in any category.

Compliance: Required as indicated, unless accomplished previously. To prevent separation of an inboard engine from an airplane, accomplish the following:

(a) Perform a close visual inspection of the midspar fittings to detect cracks in accordance with Boeing Service Bulletin 3183, Revision 4, dated July 8, 1992, unless accomplished previously in accordance with Boeing Service Bulletin 3183, Revision 2, dated January 28, 1988, at the times specified in paragraph (a)(1), (a)(2), (a)(3), or (a)(4), of this AD, as applicable.

(1) For Model 707-300B/C series airplanes modified by installation of a "hush kit" in accordance with Supplemental Type Certificate (STC) SA2699NM, at the later of the times specified in paragraph (a)(1)(i) or (a)(1)(ii) of this AD:

(i) Prior to the accumulation of 12,000 flight hours; or

(ii) Within 650 flight hours or 250 flight cycles after the effective date of this AD, whichever occurs first.

(2) For Model 707-100B and 720B series airplanes modified by installation of a "hush kit" in accordance with STC SA3595NM or SA4015NM, at the later of the times specified in paragraph (a)(2)(i) or (a)(2)(ii) of this AD:

(i) Prior to the accumulation of 12,000 flight hours; or

(ii) Within 650 flight hours or 325 flight cycles after the effective date of this AD, whichever occurs first.

(3) For Model 707-300, 707-400, and 707-300B/C series airplanes, at the later of the times specified in paragraph (a)(3)(i) or (a)(3)(ii) of this AD:

(i) Prior to the accumulation of 12,000 flight hours; or

(ii) Within 1,100 flight hours or 400 flight cycles after the effective date of this AD, whichever occurs first.

(4) For Model 707-100, 707-100B, 707-200, 720 and 720B series airplanes, at the later of the times specified in paragraph (a)(4)(i) or (a)(4)(ii) of this AD:

(i) Prior to the accumulation of 12,000 flight hours; or

(ii) Within 1,100 flight hours or 550 flight cycles after the effective date of this AD, whichever occurs first.

(b) Repeat the inspection required by paragraph (a) of this AD thereafter at the intervals specified in paragraph (b)(1), (b)(2), (b)(3), or (b)(4) of this AD, as applicable, in accordance with Boeing Service Bulletin 3183, Revision 4, dated July 8, 1992.

(1) For Model 707-300B/C series airplanes modified by installation of a "hush kit" in accordance with STC SA2699NM: At intervals not to exceed 750 flight hours or 300 flight cycles, whichever occurs first.

(2) For Model 707-100B and 720B series airplanes modified by installation of a "hush kit" in accordance with STC SA3595NM or SA4015NM: At intervals not to exceed 750 flight hours or 375 flight cycles, whichever occurs first.

(3) For Model 707-300, -400, and -300B/C series airplanes: At intervals not to exceed 1,200 flight hours or 450 flight cycles, whichever occurs first.

(4) For Model 707-100, 707-100B, 707-200, 720, and 720B series airplanes: At intervals not to exceed 1,200 flight hours or 600 flight cycles, whichever occurs first.

(c) If any cracks are found in the midspar support fittings as a result of the inspections required by paragraph (a) or (b) of this AD, prior to further flight: Conduct an eddy current inspection, replace both midspar support fittings, and modify or repair all other structure specified in the service bulletin, in accordance with Boeing Service Bulletin 3183, Revision 1, dated May 13, 1977, or Revision 2, dated January 28, 1988. If a currently-installed fitting is replaced by a new fitting of the same part number, that new fitting must be inspected in accordance with the compliance times and procedures required by paragraphs (a) and (b) of this AD.

(d) Replacement of the fittings with new, improved fittings, in accordance with Boeing Service Bulletin 3183, Revision 2, dated January 28, 1988, constitutes terminating action for the repetitive inspections required by this AD.

(e) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Seattle ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Seattle ACO.

(f) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(g) The inspections, replacement, and modification or repair shall be done in accordance with Boeing Service Bulletin 3183, Revision 4, dated July 8, 1992, Boeing Service Bulletin 3183, Revision 1, dated May 13, 1977, and Boeing Service Bulletin 3183, Revision 2, dated January 28, 1988. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124-2207. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(h) This amendment becomes effective on October 8, 1992.

Issued in Renton, Washington, on August 27, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

DEPARTMENT OF COMMERCE

15 CFR Part 29b

[Docket No. 911200-2073]

RIN 0605-AA07

Audit Requirements for Institutions of Higher Education and Other Nonprofit Organizations

AGENCY: Department of Commerce.

ACTION: Affirmation of interim final rule.

SUMMARY: This rule adopts as final, Department of Commerce interim regulations amending 15 CFR part 29b, "Audit Requirements for Institutions of Higher Education and Other Nonprofit Organizations," to incorporate new guidance from the Office of Management and Budget (OMB). As a result of this final rule, the Department of Commerce is requiring educational institutions and other nonprofit organizations that receive Federal assistance to follow the provisions of OMB's "Compliance Supplement for Audits of Institutions of Higher Education and Other Nonprofit Institutions" when performing the organization-wide audits currently required under this part.

DATES: The provisions of this final rule became effective February 7, 1992, and apply to audits of educational and nonprofit institutions initiated after March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Barbara Lambis, Director, Office of Federal Assistance, U.S. Department of Commerce, HCHB Room 6054, 14th Street and Constitution Avenue NW., Washington, DC 20230, (202) 377-5817.

SUPPLEMENTARY INFORMATION: On February 7, 1992, the Department of Commerce published an interim final rule amending part 29b (57 FR 4715), and allowed interested persons 30 days to comment. No comments were received and the Department of Commerce is adopting the amendment as a final rule without change.

This is not a major rule within the meaning of Section 1 of Executive Order

12291. It will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, state or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Because this rule relates to public property, loans, grants, benefits and contracts, it is exempt from the requirements of notice and opportunity to comment and the 30-day delayed effective date (5 U.S.C. 553(a)(2)). No other law requires that notice and opportunity for comment on this final rule be given.

Since notice and opportunity to comment are not required to be given for this final rule under Section 553 of the Administrative Procedure Act or any other law, no initial or final Regulatory Flexibility Analysis has to be or will be prepared for purposes of the Regulatory Flexibility Act.

This final rule does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 12612.

Paperwork Reduction Act

This final rule contains a collection of information subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). This collection has been approved by OMB under control number 0991–0003. The public reporting burden for this collection of information is estimated to average five (5) hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

List of Subjects in 15 CFR Part 29b

Accounting, Colleges and universities, Grant programs, Nonprofit organizations, Reporting and recordkeeping requirements.

Under authority of 5 U.S.C. 301, the interim final rule published at (57 FR 4715) amending Part 29b to Title 15, Subtitle A of the Code of Federal Regulations is adopted as final without changes.

Sonya G. Stewart,

Director for Federal Assistance and Management Support.

RIN 1545-AN09

Certain Elections Under the Technical and Miscellaneous Revenue Act of 1988 and the Redesignation of Certain Other Temporary Elections Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final and temporary regulations.

SUMMARY: This document contains final regulations relating to the time and manner for making certain elections under the Technical and Miscellaneous Revenue Act of 1988. It also redesignates certain other temporary elections regulations that were issued pursuant to various other tax acts. These final and temporary regulations provide guidance to taxpayers making the elections.

EFFECTIVE DATES: The provisions relating to § 301–9100–8 formerly § 5h.6 are effective November 10, 1988. All other provisions are effective on September 23, 1992.

FOR FURTHER INFORMATION CONTACT: Grace Matuszeski at 202–622–4930 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collections of information requirements contained in these final regulations have been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3504(h)), under control number 1545–1112. The estimated annual burden per respondent varies from 15 minutes to 2 hours, depending on individual circumstances, with an estimated average of .28 hour.

These estimates are approximations of the average time expected to be necessary for a collection of information. They are based on such information as is available to the Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Attn: IRS Reports Clearance Officer T:FP, Washington, DC 20224, and to the Office of Management and Budget, Attention: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

Background

On September 22, 1989, the Internal Revenue Service published in the **Federal Register** (54 FR 38979) temporary regulations (T.D. 8267) relating to certain elections under various sections of the Internal Revenue Code of 1986 (Code) and the Technical and Miscellaneous Revenue Act of 1988, 102 Stat. 3342. A contemporaneous cross-reference notice of proposed rulemaking was published at 54 FR 39002. This Treasury decision adopts those temporary regulations as final regulations, subject to minor modifications, and moves them from part 5h of the Code of Federal Regulations to part 301. In addition, many of the other temporary regulations that relate to various other elections are redesignated for the purpose of moving them to part 301 as well.

With respect to the temporary regulations that were published on September 22, 1989, no request for a public hearing was received; therefore, none was held.

Explanation of Provisions

Temporary regulations § 5h.6 are adopted as final regulations and are redesignated § 301.9100.8. Temporary regulations §§ 5c.0, 5f.0, 5h.4, 5h.5, 6.1, 6.2, 6.3, 7.0, 7a.1, 7a.2, 7a.3, 10.2, 13.0, 13.1, 14.1–1, and 19.2–1 are given redesignations that move them to § 301.9100 also. The following table illustrates the new section numbers:

Old section number	Redesignation
§ 5c.0	§ 301.9100–4T
§ 5f.0	§ 301.9100–5T
§ 5h.4	§ 301.9100–6T
§ 5h.5	§ 301.9100–7T
§ 5h.6	§ 301 9100–8
§ 6.1	§ 301.9100–9T
§ 6.2	§ 301.9100–10T
§ 6.3	§ 301.9100–11T
§ 7.0	§ 301.9100–12T
§ 7a.1	§ 301.9100–13T
§ 7a.2	§ 301.9100–14T
§ 7a.3	§ 301.9100–15T
§ 10.2	§ 301.9100–16T
§ 13.0	§ 301.9100–17T
§ 13.1	§ 301.9100–18T
§ 14.1–1	§ 301.9100–19T
§ 19.2–1	§ 301.9100–20T

References and citations within title 26 of CFR to any of the redesignated sections have been updated to reflect the redesignations.

Special Analyses

It has been determined that these regulations are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, a final Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, the notice of proposed rulemaking for the final regulations was submitted to the Administrator of the Small Business Administration for comment on their impact on small business.

Drafting Information

The principal author of the final regulations is Grace Matuszeski, Office of the Assistant Chief Counsel (Income Tax and Accounting), Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in their development.

List of Subjects

26 CFR 1.61–1 through 1.194–4

Income taxes, Reporting and recordkeeping requirements.

26 CFR 1.401–0 through 1.419A–2T

Bonds, Employee benefit plans, Income taxes, Pensions, Reporting and recordkeeping requirements, Securities, Trusts and trustees.

26 CFR 1.451–1 through 1.458–10

Accounting, Income taxes, Reporting and recordkeeping requirements.

26 CFR 1.636–1 through 1.636–4

Income taxes, Mineral resources.

26 CFR 1.701–1 through 1.709–2

Income taxes.

26 CFR 1.856–0 through 1.858–1

Income taxes, Investments, Trusts and trustees.

26 CFR Part 5c

Accounting, Banks, Banking, Income taxes, Reporting and recordkeeping requirements, Savings and loan associations.

26 CFR Part 5f

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 5h

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 6

Banks, Banking, Holding companies, Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 7

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 7a

Bankruptcy, Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 10

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 13

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 14

Income taxes, Small business.

26 CFR Part 14a

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 18

Income taxes, Reporting and recordkeeping requirements.

26 CFR Part 19

Income taxes.

26 CFR Part 301

Administrative practice and procedure, Alimony, Bankruptcy, Child support, Continental shelf, Courts, Crime, Employment taxes, Estate taxes, Excise taxes, Gift taxes, Income taxes, Investigations, Law enforcement, Oil pollution, Penalties, Pensions, Reporting and recordkeeping requirements, Statistics, Taxes.

26 CFR Part 602

Reporting and recordkeeping requirements.

Adoption of Final Regulations and Redesignation of Temporary Regulations

Accordingly, parts 1, 5c, 5f, 5h, 6, 7, 7a, 10, 13, 14, 14a, 18, 19, 301, and 602 of title 26 of the Code of Federal Regulations are amended as follows:

PART 301—PROCEDURE AND ADMINISTRATION

Paragraph 1. The authority citation for part 301 is amended by adding the following citations:

Authority: 26 U.S.C. 7805 * * * Section 301.9100–4T also issued under 26 U.S.C. 168(f)(8)(G). Section 301.9100–7T also issued under 26 U.S.C. 42(f)(1), 42(g)(1), 42(i)(2), 42(j)(5), 48(b)(2), 56(f)(3)(B), 83(c)(3), 141(b)(0), 142(d)(1), 142(d)(4)(B), 143(k)(9)(D)(iii), 145(d), 147(b)(4)(A), 165(l)(1), 168(b)(5), 168(f)(1), 168(g)(7), 168(h)(6)(F)(ii), 216(b)(3), 263(i), 263A(d)(3), 382(l)(5)(H), 448(d)(4), 453C(b)(2)(B), 453C(e)(4), 468B, 469(j)(9), 474, 585(c)(3)(A)(iii)(I), 585(c)(4), 616(d), 617(h), 1059(c)(4), 2632(b)(3), 2652(a)(3), 3121(w)(2), 4982(e)(4), and 7701(b). Section 301.9100–7T also issued under the Tax Reform Act of 1986, 100 Stat. 2746, sections 203(a)(1)(B), 204(e), 243(a), 243(b), 311(d)(2), 646, 801(d)(2), 806(e)(2)(C), 905(c), 1704(b), 1801(a), 1802(a), and 1804(e)(4). Section 301.9100–8 also issued under 26 U.S.C. 1(i)(7), 41(h), 42(b)(2)(A)(ii), 42(d)(3), 42(f)(1), 42(g)(3), 42(i)(2)(B), 42(j)(5)(B), 121(d)(9), 142(i)(2), 165(l), 168(b)(2), 219(g)(4), 245(a)(10), 263A(d)(1), 263A(d)(3)(B), 263A(h), 460(b)(3), 643(g)(2), 831(b)(2)(A), 835(a), 865(f), 865(g)(3), 865(h)(2), 904(g)(10), 2056(b)(7)(c)(ii), 2056A(d), 2523(f)(6)(B), 3127, and 7520(a); the Technical and Miscellaneous Revenue Act of 1988, 102 Stat. 3324, sections 1002(a)(23)(B), 1005(c)(11), 1006(d)(15), 1006(j)(1)(C), 1006(t)(18)(B), 1012(n)(3), 1014(c)(1), 1014(c)(2), 2004(j)(1), 2004(m)(5), 5012(e)(4), 6161(c)(2), and 6277; and under the Tax Reform Act of 1986, 100 Stat. 2746, section 905(a). Sections 301.9100–9T, 301.9100–10T and 301.9100–11T also issued under 26 U.S.C. 1103 (g) and (h) and 6158(a). Sections 301.9100–13T, 301.9100–14T and 301.9100–15T also issued under 26 U.S.C. 108(d)(8) and 1017(b)(3)(E). Section 301.9100–16T also issued under 26 U.S.C. 463(d).

Par. 2. Section 301.9100–21 is added to read as follows:

§ 301.9100–21 References to other temporary elections under various tax acts.

Regulations regarding elections under various other tax acts are found at the following sections in title 26 of the Code of Federal Regulations:

Section of 26 CFR	Description of election
5c.168(f)(8)–2	Election to characterize transaction as a section 168(f)(8) lease, under the Economic Recovery Tax Act of 1981.
5c.1256–1	Election with respect to property held on June 23, 1981, under section 508(c) of the Economic Recovery Tax Act of 1981.
5c.1256–2	Election with respect to taxable years beginning before June 23, 1981, and ending after June 22, 1981, under section 509 of the Economic Recovery Tax Act of 1981.
7.48–1	Election to have investment credit for movie and television films determined in accordance with previous litigation, under the Tax Reform Act of 1976.
7.48–2	Election of forty-percent method of determining investment credit for movie and television films placed in service in a taxable year beginning before January 1, 1975, under the Tax Reform Act of 1976.

Section of 26 CFR	Description of election
7.48–3	Election to apply the amendments made by sections 804 (a) and (b) of the Tax Reform Act of 1976 to property described in section 50(a) of the Code.
7.57(d)–1	Election with respect to straight line recovery of intangibles, under the Tax Reform Act of 1976.
11.402(a)(4)(B)–1	Election to treat an amount as a lump sum distribution, under the Employee Retirement Income Security Act of 1974.
11.410–1	Election by church to have participation, vesting, funding, etc., provisions apply, under the Employee Retirement Income Security Act of 1974.
11.412(c)–7	Election to treat certain retroactive plan amendments as made on the first day of the plan year, under the Employee Retirement Income Security Act of 1974.
11.412(c)–11	Election with respect to bonds, under the Employee Retirement Income Security Act of 1974.
11.415(c)(4)–1	Special elections for section 403(b) annuity contracts purchased by educational institutions, hospitals and home health service agencies, under the Employee Retirement Income Security Act of 1974.
12.4	Election of Class Life Asset Depreciation Range System (ADR), under the Revenue Act of 1971.
12.7	Election to be treated as a DISC, under the Revenue Act of 1971.
12.8	Elections with respect to net leases of real property, under the Revenue Act of 1971.
12.9	Election to postpone determination with respect to the presumption described in section 183(d), under the Revenue Act of 1971.
15.1–1	Elections to deduct, relating to exploration expenditures in the case of mining.
15.1–2	Revocation of election to deduct, relating to exploration expenditures in the case of mining.
15.1–3	Elections as to methods of recapture, relating to exploration expenditures in the case of mining.
18.1361–1	Election to treat qualified subchapter S trust as a trust described in section 1361(c)(2)(A)(i), under the Subchapter S Revision Act of 1982.
18.1362–1	Election to be an S corporation, under the subchapter S Revision Act of 1982.
18.1362–3	Revocation of election, under the subchapter S Revision Act of 1982.
18.1362–5	Election not to have new passive income rules apply during 1982, under the subchapter S Revision Act of 1982.
18.1371–1	Election to treat distributions as dividends during certain post-termination transition periods, under the subchapter S Revision Act of 1982.
18.1377–1	Election to terminate year, under the subchapter S Revision Act of 1982.
18.1379–2	Special rules for all elections, consents, and refusals, under the subchapter S Revision Act of 1982.
22.0	Certain estate taxes elections under the Economic Recovery Tax Act of 1981.
23.1	Election and eligibility to treat interests in property held jointly on December 31, 1976, as qualified joint interests, under the Revenue Act of 1978.

PART 5c—TEMPORARY INCOME TAX REGULATIONS UNDER THE ECONOMIC RECOVERY TAX ACT OF 1981

Par. 3. The authority citation for part 5c continues to read as follows:

Authority: Secs. 168(f)(8)(G) and 7805 of the Internal Revenue Code of 1954 (95 Stat. 216; 26 U.S.C. 168(f)(8)(G), and 68A Stat. 916; 26 U.S.C. 7805), unless otherwise noted.

§ 5c.0 [Redesignated as § 301.9100–4T]

Par. 4. Section 5c.0 is redesignated § 301.9100–4T.

PART 5f—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX EQUITY AND FISCAL RESPONSIBILITY ACT OF 1982

Par. 5. The authority citation for part 5f continues to read in part:

Authority: 26 U.S.C. 7805 * * *

5f.0 [Redesignated as § 301.9100–5T]

Par. 6. Section 5f.0 is redesignated § 301.9100–5T.

PART 5h—TEMPORARY REGULATIONS—ELECTIONS UNDER VARIOUS PUBLIC LAWS

§§ 5h.4, 5h.5, and 5h.6 [Redesignated as §§ 301.9100–6T, 301.9100–7T, and 301.9100–8]

Par. 7. Sections 5h.4, 5h.5, and 5h.6 are redesignated §§ 301.9100–6T, 301.9100–7T, and 301.9100–8, respectively.

PART 5h—[REMOVED]

Par. 8. Part 5h is removed.

PART 301—[AMENDED]

§ 301.9100–8 [Amended]

Par. 9. In newly designated § 301.9100–8(a)(1) table, the fourth column ("Availability of election") is amended as follows:

1. For the 3rd item, the first column of which reads "1002(1)(1)(A)", the language "and before January 1, 1990 (before January 1, 1992, for buildings described in section 42(h)(1)(E) of the Code)," is removed.

2. For the 4th item, the first column of which reads "1002(1)(2)(B)", the language ", and before January 1, 1990 (after December 31, 1987, and before January 1, 1992, for buildings described in section 42(h)(1)(E) of the Code)" is removed and "." is added in its place.

3. For the 5th item, the first column of which reads "1002(1)(4)", the language ", and before January 1, 1990 (after December 31, 1987, and before January 1, 1992, for buildings described in section 42(h)(1)(E) of the Code)." is removed and "." is added in its place.

4. For the 6th item, the first column of which reads "1002(1)(12)", the language ", and before January 1, 1990 (after December 31, 1987, and before January 1, 1992, for buildings described in section 42(h)(1)(E) of the Code)." is removed and "." is added in its place.

5. For the 7th item, the first column of which reads "1002(1)(19)(B)", the language ", and before January 1, 1990 (after December 31, 1987, and before January 1, 1992, for buildings described in section 42(h)(1)(E) of the Code)." is removed and "." is added in its place.

6. For the 15th item, the first column of which reads "1010(f)(2)", the language "Effective January 1, 1963." is removed and the language "Available for taxable years beginning after December 31, 1986." is added in its place.

7. For the 28th item, the first column of which reads "4004(a)", the language "and before January 1, 1990 (after December 31, 1987, and before January 1, 1992, for buildings described in section 42(h)(1)(E) of the Code)." is removed.

8. For the 31st item, the first column of which reads "5031(a)", the language following the first sentence is removed and the following language is added in its place: "The election is made by attaching a statement to the last income, estate, or gift tax return filed before the due date, or if a timely return is not filed, the first return filed after the due date. The statement shall contain the following: (1) A statement that an election under section 7520(a) is being made; (2) the transferor's name and taxpayer identification number as they appear on the return; (3) a description of the interest being valued; (4) the recipients, beneficiaries, or donees of the transferred interest; (5) the date of the transfer; (6) the Applicable Federal Midterm rate that is used to value the

transferred interest and the month to which the rate pertains."

9. For the 32nd item, the first column of which reads "5033(a)(2)", the following language is added at the end: "However, elections made on or after May 5, 1991, may not be made on any return filed more than one year after the time prescribed for filing the return (including extensions)."

§ 301.9100–8 [Amended]

Par. 10. Newly designated § 301.9100–8(a)(4)(ii) is amended by adding "5031(a) (Code section 7520(a))," between "2004(j)(1)," and "6026(c)".

§ 301.9100–7T [Amended]

Par. 11. In newly designated § 301.9100–7T(f), first sentence, "§ 5h.6(d)" is removed and "§ 301.9100–8(d)" is added in its place.

PART 6—TEMPORARY INCOME TAX REGULATIONS UNDER THE BANK HOLDING COMPANY TAX ACT OF 1976

§§ 6.1, 6.2, and 6.3 [Redesignated as §§ 301.9100–9T, 301.9100–10T and 301.9100–11T]

Par. 12. Sections 6.1, 6.2, and 6.3 are redesignated §§ 301.9100–9T, 301.9100–10T, and 301.9100–11T, respectively.

PART 6—[REMOVED]

Par. 13. Part 6 is removed.

PART 7—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1976

Par. 14. The authority citation for part 7 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

§ 7.0 [Redesignated as § 301.9100–12T]

Par. 15. Section 7.0 is redesignated § 301.9100–12T.

PART 7a—TEMPORARY INCOME TAX REGULATIONS UNDER THE BANKRUPTCY TAX ACT OF 1980

§§ 7a.1, 7a.2, and 7a.3 [Redesignated as §§ 301.9100–13T, 301.9100–14T and 301.9100–15T]

Par. 16. Sections 7a.1, 7a.2, and 7a.3 are redesignated §§ 301.9100–13T, 301.9100–14T, and 301.9100–15T, respectively.

PART 7a—[REMOVED]

Par. 17. Part 7a is removed.

PART 10—TEMPORARY INCOME TAX REGULATIONS UNDER PUBLIC LAW 93–625

§ 10.2 [Redesignated as § 301.9100–16T]

Par. 18. Section 10.2 is redesignated § 301.9100–16T.

PART 10—[REMOVED]

Par. 19. Part 10 is removed.

PART 13—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1969

Par. 20. The general authority for part 13 is revised to read as follows:

Authority: 26 U.S.C. 7805.

§§ 13.0 and 13.1 [Redesignated as §§ 301.9100–17T and 301.9100–18T]

Par. 21. Sections 13.0 and 13.1 are redesignated §§ 301.9100–17T and 301.9100–18T, respectively.

PART 14—[REMOVED] REGULATIONS UNDER ACT OF APRIL 14, 1966, RELATING TO ELECTING SMALL BUSINESS CORPORATIONS

§ 14.1–1 [Redesignated as § 301.9100–19T]

Par. 22. Section 14.1–1 is redesignated § 301.9100–19T.

PART 14 [REMOVED]

Par. 23. Part 14 is removed.

PART 19—TEMPORARY REGULATIONS UNDER THE REVENUE ACT OF 1964

Par. 24. The general authority for part 19 is revised to read as follows:

Authority: 26 U.S.C. 7805.

§ 19.2–1 [Redesignated as § 301.9100–20T]

Par. 25. Section 19.2–1 is redesignated § 301.9100–20T.

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Par. 26. The authority for part 1 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

§ 1.162–10T [Amended]

Par. 27. In § 1.162–10T, A–1, last sentence, "§ 10.2" is removed and "§ 301.9100–16T" is added in its place.

§ 1.169(j)–1T [Amended]

Par. 28. In § 1.169(j)–1T, A–10, fifth sentence, "§ 5h.4(a)" is removed and "§ 301.9100–6T(a)" is added in its place.

§ 1.404(a)–1T [Amended]

Par. 29. In § 1.404(a)–1T, A–1, last sentence, "§ 10.2" is removed and "§ 301.9100–16T" is added in its place.

§ 1.404(b)–1T [Amended]

Par. 30. In § 1.404(b)–1T, A–1, last sentence, "§ 10.2" is removed and "§ 301.9100–16T" is added in its place.

§ 1.404(d)–1T [Amended]

Par. 31. In § 1.404(d)–1T, A–1, last sentence, "§ 10.2" is removed and "§ 301.9100–16T" is added in its place.

§ 1.453C–3T [Amended]

Par. 32. In § 1.453C–3T(c)(4), last sentence, "26 CFR 5h.5" is removed and "§ 301.9100–7T of this chapter" is added in its place.

§ 1.453C–8T [Amended]

Par. 33. In § 1.453C–8T(a)(1), first sentence of the concluding language, "26 CFR 5h.5" is removed and "§ 301.9100–7T of this chapter" is added in its place.

§ 1.636–4 [Amended]

Par. 34. In § 1.636–4(c)(2), fourth sentence, the language "part 13 of this chapter (Temporary Income Tax Regulations Under the Tax Reform Act of 1969) is not required to amend statements previously furnished which meet the requirements of paragraph (b)(1)(ii) of § 13.0 of part 13" is removed and "§§ 301.9100–17T and 301.9100–18T of this chapter are not required to amend statements previously furnished which meet the requirements of § 301.9100–17T(b)(1)(ii) of this chapter" is added in its place.

§ 1.702–3T [Amended]

Par. 35. In § 1.702–3T(c), "§ 5h.5" is removed and "§ 301.9100–7T of this chapter" is added in its place.

§ 1.856–9 [Amended]

Par. 36. In § 1.856–9(d)(2), first sentence, "§ 7.0(c)(1)" is removed and "§ 301.9100–12T(c)(1)" is added in its place.

PART 14a—TEMPORARY INCOME TAX REGULATIONS RELATING TO INCENTIVE STOCK OPTIONS

Par. 37. The general authority for part 14a is revised to read as follows:

Authority: 26 U.S.C. 7805.

§ 14a.422A–1 [Amended]

Par. 38. In § 14a.422A–1, A–4, the first, second and third sentences, "§ 5c.0(d)" is removed and "§ 301.9100–4T(d) of this chapter" is added in its place.

PART 18—TEMPORARY INCOME TAX REGULATIONS UNDER THE SUBCHAPTER S REVISION ACT OF 1982

Par. 39. The authority citation for part 18 is revised to read as follows:

Authority: 26 U.S.C. 7805 and sec. 6(c)(3)(B)(iii) of the Subchapter S Revision Act of 1982 (96 Stat. 1669).

§ 18.1366–5 [Amended]

Par. 40. In § 18.1366–5(c), "§ 5h.5" is removed and "§ 301.9100–7T of this chapter" is added in its place.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 41. The authority citation for part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

§ 602.101 [Amended]

Par. 42. The table of control numbers in § 602.101(c) is amended by removing the following entries: "5c.0 * * * 1545–0016, 1545–0042, 1545–0074, 1545–0129, 1545–0172, 1545–0619",
"5h.4 * * * 1545–0872",
"5h.5 * * * 1545–0982, 1545–0999, 1545–1016", "5h.6 * * * 1545–1112",
"6.3 * * * 1545–0123", "7.0 * * * 1545–0026, 1545–0074, 1545–0172, 1545–1027",
"7a.1 * * * 1545–0046",
"7a.2 * * * 1545–0046",
"7a.3 * * * 1545–0046", and
"10.2 * * * 1545–0152".

§ 602.101 [Amended]

Par. 43. The table of control numbers in § 602.101(c) is amended by adding in numerical order the following entries: "301.9100–4T * * * 1545–0016, 1545–0042, 1545–0074, 1545–0129, 1545–0172, 1545–0619", "301.9100–6T * * * 1545–0872", "301.9100–7T * * * 1545–0982, 1545–0999, 1545–1016", "301.9100–8 * * * 1545–1112", "301.9100–11T * * * 1545–0123", and "301.9100–12T * * * 1545–0026, 1545–0074, 1545–0172, 1545–1027", "301.9100–13T * * * 1545–0046", "301.9100–14T * * * 1545–0046", "301.9100–15T * * * 1545–0046", and "301.9100–16T * * * 1545–0152".

RIN 1545–AP56

Limitations on Percentage Depletion in the Case of Oil and Gas Wells

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains amendments to final regulations that clarify the circumstances under which percentage depletion is available in the case of oil and gas wells. The final regulations in this document reflect changes to the applicable law that were made by the Tax Reduction Act of 1975, the Tax Reform Act of 1976, the Energy Tax Act of 1978, the Technical Corrections Act of 1982, the Subchapter S Revision Act of 1982, the Tax Reform Act of 1984, the Tax Reform Act of 1986, and the Revenue Reconciliation Act of 1990.

DATES: These regulations are effective for taxable years beginning after May 13, 1991, except as provided below. A partnership may elect to apply the provisions relating to the reallocation of partnership basis, for taxable years beginning on or before May 13, 1991. Certain of these provisions apply to transfers of proven property after May 13, 1991, but a taxpayer may elect to apply these rules to transfers occurring after October 11, 1990, and on or before May 13, 1991.

FOR FURTHER INFORMATION CONTACT: Brenda M. Stewart, 202–622–3120 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collection of information requirement contained in this final regulation has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)) under control number 1545–1251. The estimated annual burden per respondent varies from 10 minutes to 30 minutes, depending on individual circumstances, with an estimated average of 20 minutes.

These estimates are an approximation of the average time expected to be necessary to collect information. They are based on the information available to the Internal Revenue Service. Individual respondents may require more time or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Attn: IRS Reports Clearance Officer TR:FP, Washington, DC 20224; and to the Office of Management and Budget, Paperwork Reduction Project, Washington, DC 20503.

Background

Proposed regulations under section 613A clarifying the circumstances under which percentage depletion is available in the case of oil and gas wells were published in the **Federal Register** on May 13, 1991. The provisions concerning oil and gas property held by partnerships were published as proposed regulations in the **Federal Register** on May 13, 1991 (56 FR 21965 (May 13, 1991)) because the partnership provisions in the 1991 proposed regulations under section 613A differ substantially from the partnership provisions in the 1977 proposed regulations. Other amendments proposed on May 13, 1991 reflect changes to the applicable law after the issuance of the 1977 proposed regulations under section 613A. These final regulations conform the regulations to section 501 of the Tax Reduction Act of 1975, section 2115(c) of the Tax Reform Act of 1976, section 403(a)(2)(B), (b), and (c) of the Energy Tax Act of 1978, sections 202(d)(2) and 203(b)(3)(B) of the Technical Corrections Act of 1982, section 3(a) of the Subchapter S Revision Act of 1982, sections 25(b) and 722(e)(1) of the Tax Reform Act of 1984, section 412(a)(1) of the Tax Reform Act of 1986, and sections 11521 and 11522 of the Revenue Reconciliation Act of 1990.

Explanation of Provisions

I. Reallocation of Partnership Basis

Proposed § 1.613A–3(e)(3)(ii) provides that in the case of an entry of a new partner (or an additional contribution by an existing partner), a partnership must allocate to the new partner the partner's share of the aggregate of the partners' adjusted bases in each partnership oil or gas property. Concurrently, each existing partner is required to reduce the partner's basis in each partnership oil or gas property by the percentage of the partnership's aggregate basis in the property that has been allocated to the new partner. Proposed § 1.613A–3(e)(iii) provides that the partnership may determine the partners' aggregate bases by using data submitted by partners or by using certain assumptions.

If a partner does not inform the partnership of the partner's basis in an oil or gas property, the partnership must use the following assumptions to

determine the basis: (1) The partner deducted the partner's share of deductions under section 263(c) in the first year in which the partner could claim a deduction for such amounts, unless the partnership elected to capitalize such amounts, (2) the partner was not subject to the 65 percent-of-taxable income limitation of section 613A(d)(1) with respect to the partner's depletion allowance under section 611, and (3) the partner was not subject to the taxable income limitation of section 613(a), the depletable quantity limitations of section 613A(c), or the limitations of section 613A)(d) (2), (3), and (4), except to the extent the limitation is applied at the partnership level.

Use of the assumptions may result in the loss of a portion of the partners' collective basis in partnership property upon reallocation to an entering partner. A partnership may avoid the loss of any portion of the collective basis, however, by using written data submitted by partners.

In the case of the withdrawal of a partner, the withdrawing partner's adjusted basis in each oil and gas property must be allocated to the remaining partners. If assumptions are used to determine the withdrawing partner's basis in the oil and gas property, a portion of the partners' collective basis may also be lost.

Commentators have argued that a withdrawing partner may have little or no incentive to provide the partnership with the necessary data. Therefore, the partnership would be forced to use the assumptions set forth in proposed § 1.613A–3(e)(3)(iii)(C). The commentators suggested that a partnership be permitted to rebut the assumptions by showing that the use of the assumptions would result in inequitable treatment and a loss of partnership basis.

The final regulations reflect the commentators' suggestion that a partnership be permitted to rebut the assumptions in the case of a withdrawing partner. However, the final regulations limit the opportunity to rebut the assumptions to the assumption relating to the status of the withdrawing partner as a retailer or refiner. A partnership may rebut the assumption that the withdrawing partner is not a retailer or a refiner by demonstrating that the withdrawing partner is a retailer or refiner. The opportunity to rebut the assumptions is limited to the retailer or refiner assumption because this is the only assumption rebuttable with the use of information in the public domain. See § 1.613A–3(e)(3)(iv)(B).

II. Transfers After October 11, 1990

Proposed § 1.613A–3(i)(2) reflects the repeal by section 11521 of the Revenue Reconciliation Act of 1990 of section 613A(c)(9), the "transfer rule," which made transferred proven properties ineligible for percentage depletion. Proposed § 1.613A–3(i)(2)(ii) interpreted the term "transfer," for purposes of determining whether a transfer occurs following the effective date of the repeal, in the same manner as it was interpreted under prior law. The repeal of the transfer rule is effective for transferees of proven properties transferred after October 11, 1990. Under proposed § 1.613A–3(i)(2)(ii) the term "transfer" has the same meaning as under § 1.613A–7(n), which defines "transfer" under repealed section 613A(c)(9).

Commentators expressed concern that the rules set forth in proposed § 1.613A–3(i)(2) regarding the repeal of the transfer rule are too restrictive and suggested that a facts and circumstances test would best implement the intent of Congress. Specifically commentators suggested a rule that would provide that a transfer after October 11, 1990 will restore percentage depletion on a proven property if the transfer is undertaken for: (1) A valid business purpose, (2) another valid non-tax reason (e.g., transfer at death), or (3) the purpose of lowering the income tax liability of the transferee if the transfer was undertaken with the expectation that it would encourage better utilization of the percentage depletion benefit.

The commentators' suggestion was not adopted because it would treat a disposition of property as a transfer even if the beneficial interest in the property is still retained by the transferor (e.g., the transfer of property to a partnership for a partnership interest). Had Congress intended to permit the restoration of percentage depletion without the transfer of the beneficial interest in property, the repeal of the transfer rule would have been effective as of a certain date, without regard to any transfer. Moreover, Congress provided a definition of the term "transfer" in repealed section 613A(c)(9). Because Congress also used the term "transfer" in the effective date of the repeal of section 613A(c)(9), it is reasonable to interpret the term as having the same meaning. Accordingly, proposed § 1.613A–3(i)(2)(ii) remains unchanged in the final regulations.

III. Transfer of Proven Property in Exchange for Stock

Under former section 613A(c)(10), a transfer of proven property by an individual to a qualified transferee corporation solely in exchange for stock of that corporation was excepted from the transfer rule. If the transferor of the property disposed of the stock at any time during the transferor's lifetime, however, the depletable quantity of the transferee corporation would be reduced by an amount bearing the same ratio to the total depletable quantity as the fair market value of the stock disposed of bore to the aggregate fair market value of the stock of the corporation.

Commentators have requested that the regulations make clear that for purposes of transfers of property occurring before October 12, 1990 under section 613A(c)(10), prior to its repeal, the transfer of stock after October 11, 1990 by a transferor will not result in a reduction in the depletable quantity of the transferee corporation.

The comments are consistent with the intention of the final regulations that no transaction after October 11, 1990 will cause a property to become ineligible for percentage depletion. Accordingly, the final regulations provide that the disposition of stock received in exchange for proven property will not result in a reduction of the transferee corporation's depletable quantity under section 613A(c)(10)(F) (prior to its repeal). See § 1.613A–3(i)(2).

IV. Bonuses and Advanced Royalties

Consistent with *Commissioner* v. *Engle*, 464 U.S.C. 206 (1984) (which holds that section 613A was not intended to disallow percentage depletion on a lease bonus or advanced royalty payment even when there is no actual production in the year of receipt), the final regulations under section 613A provide rules allowing percentage depletion for lease bonuses and advanced royalties received or accrued before August 17, 1986. However, section 412(a)(1) of the Tax Reform Act of 1986 added section 613A(d) (5) to the Code which overrules *Engle*. Thus, proposed § 1.613A–3(j)(1) provides that any advanced royalty (to the extent that actual production during the taxable year is insufficient to earn such royalty), lease bonus, or other amount payable without regard to production that is received or accrued after August 16, 1986, is not taken into account in computing the percentage depletion allowance pursuant to section 613A(c). This provision remains unchanged in the final regulations.

V. Conforming Changes to Section 1.705–1(a)(4)

Proposed § 1.705–1(a)(4) provided that the basis of any oil or gas property was decreased (but not below zero) by the amount of the partner's deduction for depletion allowable under section 611 for any partnership oil or gas property. Commentators noted that this provision did not reflect the changes to section 705(a)(3) by section 722(e)(1) of the Tax Reform Act of 1984.

Accordingly, § 1.705–1(a)(4) of the final regulations provides that the basis of any oil or gas property is decreased (but not below zero) by the amount of the partner's deduction of depletion of any partnership oil and gas property to the extent the deduction does not exceed the proportionate share of the adjusted basis of the property allocated to the partner under section 613A(c)(7)(D).

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, an initial Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, these regulations have been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Drafting Information

The principal author of these regulations is Walter H. Woo, Office of the Assistant Chief Counsel (Passthroughs and Special Industries), Internal Revenue Service. However, personnel from other offices of the IRS and Treasury Department participated in their development.

List of Subjects

26 CFR 1.611–0 through 1.617–4

Income taxes, Natural resources, Reporting and recordkeeping requirements.

26 CFR 1.701–1 through 1.771–1

Income taxes, Reporting and recordkeeping requirements.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR parts 1 and 602 are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for part 1 continues to read in part as follows:

Authority: 26 U.S.C. 7805 * * *

Par. 2. Paragraph (a) of § 1.613–1 is amended by revising the second sentence to read as follows:

§ 1.613–1 Percentage depletion; general rule.

(a) * * * The deduction shall not exceed 50 percent (100 percent in the case of oil and gas properties for taxable years beginning after December 31, 1990) of the taxpayer's taxable income from the property (computed without regard to the allowance for depletion). * * *

* * * * *

§ 1.613A–0 [Amended]

Par. 3. Section 1.613A–0 is amended as follows:

1. The entry for § 1.613A–3(e) is amended by removing the language "[Reserved]" and adding new paragraph headings to read as set forth below.

§ 1.613A–3(f) [Amended]

2. The entry for § 1.613A–3(f) is amended by removing the language "[Reserved]".

§ 1.613A–3(i)(2) [Amended]

3. The entry for § 1.613A–3(i)(2) is amended by removing the language "[Reserved]" and adding new paragraph headings to read as set forth below.

§ 1.613H–3(j)(1) [Amended]

4. The entry for § 1.613A–3(j)(1) is amended by removing the language "[Reserved]".

§ 1.613A–7(e) [Amended]

5. The entry for § 1.613A–7(e) is amended by removing the language "[Reserved]".

§ 1.613A–0 Limitations on percentage depletion in the case of oil and gas wells; table of contents.

Par. 4. Section 1.613A–2 is amended by revising paragraph (a)(3), redesignating paragraphs (b) and (c) as paragraphs (c) and (d), respectively, and adding a new paragraph (b), to read as follows:

§ 1.613A–2 Exemption for certain domestic gas wells.

(a) * * *

(3) Any geothermal deposits in the United States or in a possession of the United States that is determined to be a gas well within the meaning of former section 613(b)(1)(A) (as in effect before enactment of the Tax Reduction Act of 1975) for taxable years ending after December 31, 1974, and before October 1, 1978 (see section 613(e) for depletion on geothermal deposits thereafter).

(b) For taxable years ending after September 30, 1978, the allowance for depletion under section 611 shall be computed in accordance with section 613 with respect to any qualified natural gas from geopressured brine (as defined in paragraph (e) of § 1.613A–7), and 10 percent shall be deemed to be specified

in section 613(b) for purposes of section 613(a).

* * * * *

§ 1.613A-3 [Amended]

Par. 5. Section 1.613A–3 is amended as follows:

1. The text of paragraphs (e) and (f) is added as set forth below.

2. Paragraph (h)(1) is amended by revising the last sentence to read as set forth below.

3. The text of paragraph (i)(2) is added as set forth below.

4. The text of paragraph (j)(1) is added as set forth below.

§ 1.613A–3 Exemption for independent producers and royalty owners.

* * * * *

(e) *Partnerships*—(1) *General rule.* In the case of a partnership, the depletion allowance under section 611 with respect to production from domestic oil and gas properties shall be computed separately by the partners and not by the partnership. The determination of whether cost or percentage depletion is applicable is to be made at the partner level. The partnership must allocate to each partner the partner's proportionate share of the adjusted basis of each partnership oil or gas property in accordance with the provisions of paragraphs (e)(2) through (e)(6) of this section. This allocation of the adjusted basis of oil or gas property does not affect a partner's adjusted basis in his or her partnership interest.

(2) *Initial allocation of adjusted basis of oil or gas property among partners*—(i) *General rule.* Each partner shall be allocated his or her proportionate share of the adjusted basis of each partnership domestic oil or gas property. The initial allocation of adjusted basis is to be made as of the later of the date of acquisition of the oil or gas property by the partnership or January 1, 1975.

(ii) *Allocation methods.* Except as otherwise provided in paragraph (e)(5) of this section, the provisions of this paragraph (e)(2)(ii) govern the determination under paragraph (e)(2)(i) of this section of a partner's proportionate share of the adjusted basis of oil or gas property. Each partner's proportionate share is determined in accordance with the partner's proportionate interest in partnership capital at the time of the allocation unless both—

(A) The partnership agreement provides that a partner's share of the adjusted basis of one or more properties is determined in accordance with his or her proportionate interest in partnership income; and

(B) At the time of allocation under the partnership agreement the share of each partner in partnership income is reasonably expected to be substantially unchanged throughout the life of the partnership, other than changes merely to reflect the admission of a new partner, an increase in a partner's interest in consideration for money, property, or services, or a partial or complete withdrawal of an existing partner.

If the requirements of paragraph (e)(2)(ii) (A) and (B) of this section are met, a partner's proportionate share is determined in accordance with his or her proportionate interest in partnership income. The partners' shares of adjusted basis are determined on a property-by-property basis. Accordingly, the basis of one property may be allocated in proportion to capital and the basis of another property may be allocated in proportion to income. See §§ 1.613A–3(e)(5) and 1.704–1(b)(4)(v) for special rules concerning allocation of the adjusted basis of oil and gas properties.

(3) *Adjustments by partnership to allocated adjusted bases*—(i) *Capital expenditures by partnership.* Appropriate adjustments shall be made to the partners' adjusted bases in any domestic oil and gas property for any partnership capital expenditures relating to such property that are made after the initial allocation. These adjustments shall be allocated among the partners in accordance with the principles set forth in paragraph (e)(2)(ii) of this section.

(ii) *Admission of a new partner or increase in partner's interest*—(A) *In general.* Upon a contribution of money, other property, or services to the partnership by a new or existing partner ("contributing partner") as consideration for an interest in the partnership, the partnership shall allocate, in accordance with paragraph (e)(3)(ii)(B) of this section, a share of the partnership's basis in each existing oil and gas property to the contributing partner, and each existing partner shall reduce, in accordance with paragraph (e)(3)(ii)(C) of this section, his or her share of the partnership's basis in such property.

(B) *Allocation of basis to contributing partner.* The partnership shall allocate to a contributing partner his or her proportionate share (determined under paragraph (e)(2)(ii) of this section in accordance with the partner's proportionate interest in partnership capital or income) of the partnership's adjusted basis in each existing partnership oil or gas property. For purposes of this allocation, the partnership's adjusted basis in such property equals the aggregate of its partner's adjusted bases in the property, as determined under paragraph (e)(3)(iii) of this section.

(C) *Reduction of existing partners' bases.* Each existing partner's basis in each existing partnership oil or gas property is reduced by the percentage of the partnership's aggregate basis in the property that is allocated to the contributing partner. Thus, if one-third of the partnership's aggregate basis in a property is allocated to a contributing partner because the contributing partner has a one-third interest in partnership capital, after the admission of the contributing partner each existing partner's basis (including the contributing partner's pre-existing basis if such partner is also an existing partner) in each property equals the partner's basis (prior to the admission) reduced by one-third.

(iii) *Determination of aggregate of partners' adjusted bases in the property*—(A) *In general.* To determine the aggregate of its partners' adjusted bases for purposes of this paragraph (e)(3), the partnership must determine each partner's adjusted basis under either paragraph (e)(3)(iii)(B) (written data) or paragraph (e)(3)(iii)(C) (assumptions) of this section. The partnership is permitted to determine the bases of some partners under paragraph (e)(3)(iii)(B) of this section and of others under paragraph (e)(3)(iii)(C) of this section. For this purpose, a partner's basis in an oil or gas property does not include any basis adjustment under section 743(b).

(B) *Written data.* A partnership may determine a partner's basis in an oil or gas property by using written data provided by a partner stating the amount of the partner's adjusted basis or depletion deductions with respect to the property unless the partnership knows or has reason to know that the written data is inaccurate. In determining depletion deductions, a partner must treat as actually deducted any amount disallowed and carried over as a result of the 65 percent-of-income limitation of section 613A(d)(1). If a partnership does not receive written data upon which it may rely, the partnership must use the assumptions provided in paragraph (e)(3)(iii)(C) of this section in determining a partner's adjusted basis in an oil or gas property.

(C) *Assumptions.* Except as provided in paragraph (e)(3)(iv)(B) of this section, a partnership that does not use written data pursuant to paragraph (e)(3)(iii)(B) of this section to determine a partner's basis must use the following assumptions to determine the partner's

adjusted basis in an oil and gas property:

(*1*) The partner deducted his or her share of deductions under section 263(c) in the first year in which the partner could claim a deduction for such amounts, unless the partnership elected to capitalize such amounts;

(*2*) The partner was not subject to the 65 percent-of-income limitation of section 613A(d)(1) with respect to the partner's depletion allowance under section 611; and

(*3*) The partner was not subject to the following limitations, with respect to the partner's depletion allowance under section 611, except to the extent a limitation applied at the partnership level: the taxable income limitation of section 613(a); the depletable quantity limitations of section 613A(c); the prohibition against claiming percentage depletion on transferred proven property under section 613A(c)(9), prior to its repeal; or the limitations of section 613A(d) (2), (3), and (4) (exclusion of retailers and refiners).

(iv) *Withdrawal of partner or decrease in partner's interest*—(A) *In general.* Upon a distribution of money or other property to a withdrawing partner as consideration for an interest in the partnership, the withdrawing partner's adjusted basis in each domestic oil or gas property that continues to be held by the partnership is allocated to the remaining partners in proportion to their proportionate interest in partnership capital or income after taking into account any increase or decrease as a result of the event giving rise to the reallocation. A similar rule shall apply in the case of a diminution of a continuing partner's interest in the partnership.

(B) *Special rule for determining a withdrawing partner's basis in the property.* If a partnership is required to determine a withdrawing partner's adjusted basis using the assumptions under paragraph (e)(3)(iii)(C) of this section, the partnership may rebut the assumption in paragraph (e)(3)(iii)(C)(*3*) of this section that the withdrawing partner was not subject to the limitations of sections 613A(d) (2), (3), and (4) exclusion of retailers and refiners) by demonstrating that the withdrawing partner was subject to the limitations of sections 613A(d) (2), (3), or (4).

(v) *Effective date.* The provisions of § 1.613A–3(e)(3) (i) through (iv) are effective for taxable years beginning after May 13, 1991. However, a partnership may elect to apply these provisions to taxable years beginning on or before May 13, 1991.

(4) *Determination of a partner's interest in partnership capital or income.* For purposes of this paragraph (e), a partner's interest in partnership capital or income is determined by taking into account all facts and circumstances relating to the economic arrangement of the partners. See the factors listed in § 1.704–1(b)(3)(ii).

(5) *Special rules on allocation of adjusted basis to partners.* An allocation or reallocation of the adjusted basis of oil or gas property is pursuant to this paragraph (e) of this section deemed to be in accordance with the partner's proportionate interest in partnership capital or income for purposes of this paragraph (e) where so provided in § 1.704–1(b)(4)(v). In addition, in connection with a revaluation described in § 1.704–1(b)(2)(iv)(*f*), the basis of an oil or gas property is allocated among the partners based on the principles used under § 1.704–1(b)(4)(i) of allocating tax items to take into account variations between the adjusted basis of the property and its fair market value. In the case of an oil or gas property contributed to a partnership by a partner, section 704(c) is taken into account in determining the partner's share of the adjusted basis.

(6) *Miscellaneous rules*—(i) Each partner must separately keep records of his or her share of the adjusted basis in each domestic oil or gas property of the partnership, adjust his or her share of such basis pursuant to section 1016 (including adjustments for any depletion allowed or allowable with respect to such property), and use that adjusted basis each year in the computation of his or her cost depletion or in the computation of his or her gain or loss on the disposition (including abandonment) of the property by the partnership.

(ii) The adjusted basis of a partner's interest in a partnership is decreased (but not below zero) pursuant to section 705(a)(3) by the amount of the depletion deduction allowed or allowable to the partner with respect to a domestic oil or gas property to the extent such deduction does not exceed the proportionate share of the adjusted basis of such property allocated to the partner under section 613A(c)(7)(D), as adjusted by the partner after the initial allocation. Section 705(a)(1)(C) does not apply to depletion deductions that are not included in a partner's distributive share under section 702. Accordingly, the adjusted basis of a partner's interest in a partnership is not increased under section 705(a)(1)(C) with respect to depletion of oil or gas properties. See § 1.705–1(a)(2)(iii).

(iii) Upon the disposition of an oil or gas property by the partnership, each partner must subtract the partner's adjusted basis in the property from his or her allocable portion of the amount realized from the sale of the property to determine gain or loss. The partner's allocable portion of amount realized must, except to the extent governed by section 704(c) (or related principles under § 1.704–1(b)(4)(i)), be determined in accordance with § 1.704–1(b)(4)(v). Except as otherwise provided (e.g., section 751), the sale of a partnership interest is not treated as a sale of an oil and gas property.

(iv) In the case of a transfer of an interest in a partnership, the transferor partner's adjusted basis in each partnership oil or gas property carries over to the transferee partner. If an election under section 754 (relating to optional adjustment to the basis of partnership property) is in effect, such basis is adjusted in accordance with section 743.

(v) For purposes of section 732 (relating to basis of distributed property other than money) and section 734(b) (relating to optional adjustment to basis of partnership property), the partnership's adjusted basis in oil and gas property is an amount equal to the aggregate of its partners' adjusted bases in the property as determined under the rules provided in paragraph (e)(3) of this section.

(7) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example 1. A, B, and C have equal interests in capital in Partnership ABC. On January 1, 1990, the partnership acquired a producing domestic oil property. The partnership's basis in the property was $90x. The partnership allocated the adjusted basis of the property to each partner in proportion to the partner's interest in partnership capital. Accordingly, each partner was allocated an adjusted basis of $30x. Each partner must separately compute his or her depletion allowance. The amount of percentage depletion allowable for each partner for 1992 was $10x. On January 1, 1993, each partner's adjusted basis in the property was $20x ($30x minus $10x). On January 1, 1993, the oil property was sold for $150x. Each partner's gain was $30x ($50x allocable share of amount realized minus the partner's adjusted basis of $20x). Each partner must adjust the partner's adjusted basis in his or her partnership interest to reflect the gain.

Example 2. The facts are the same as in *Example 1* except that on January 1, 1993, the property was not sold but transferred by the partnership to partner A. A's basis in the property was $60x (the sum of A's, B's, and C's adjusted bases in the property).

Example 3. The facts are the same as in *Example 1* with the exception that in 1990 C was a retailer of oil and gas and was only entitled to a cost depletion deduction of $5x. C's gain from the sale of the mineral property

on January 1, 1993, was $25x ($50x allocable share of amount realized minus C's adjusted basis of $25x ($30x minus $5x)).

Example 4. D, a calendar year taxpayer, is a partner in Partnership DEF which owns a domestic producing oil property. On January 1, 1993, the partnership's adjusted basis in the property was $900x. On January 1, 1993, D's adjusted basis in D's partnership interest was $300x and D's adjusted basis in the partnership's oil property was $300x. D's allowable percentage depletion for 1993 with respect to production from the oil property was $50x. On January 1, 1994, D's adjusted basis in D's partnership interest was $250x and D's adjusted basis in the partnership's oil property was $250x ($300x minus $50x).

Example 5. On January 1, 1993, G has an adjusted basis of $5x in partnership GH's proven domestic oil property, which is the sole asset of the partnership. On January 1, 1993 G sells G's partnership interest to I for $100x when the election under section 754 is in effect. I has a special basis adjustment for the oil property of $95x (the difference between I's basis, $100x, and I's share of the basis of the partnership property, $5x). I is not entitled to percentage depletion with respect to I's distributive share of the oil property income because I is a transferee of an interest in a proven oil property. However, I is entitled to cost depletion and for this purpose I's interest in the oil property has an adjusted basis to I of $100x ($5x, plus I's special basis adjustment of $95x).

Example 6. On January 1, 1960, Partnership JK acquired a domestic producing oil property. On January 1, 1993, the partnership's adjusted basis in the property was zero. On January 1, 1993, L is admitted as a partner to the partnership. Since the partnership's adjusted basis in the the oil property is zero, L's proportionate share of the basis in the property is also zero. L is not entitled to percentage depletion because L is a transferee of a proven oil property (see paragraph (g) of this section). Since the property's basis is zero, L is also not entitled to any cost depletion with respect to production from the property.

Example 7. (i) O and P have equal interests in capital in Partnership OP. On January 1, 1993, the partnership acquired an uproven domestic oil property X the basis of which is $200x to the partnership. The partnership allocates $100x of the basis of the property to each partner in accordance with each partner's proportionate interest in partnership capital. For the 1993 taxable year, O has a $10x cost depletion allowance and P has a $25x percentage depletion allowance. Accordingly, at the end of the 1993 taxable year, O's adjusted basis in the property is $90x, and P's adjusted basis in the property is $75x. On January 1, 1994, Q is admitted as an equal partner. The partnership does not use written data from the partners and must therefore assume that each partner was entitled to $25x depletion based on the assumptions provided in § 1.613A–3(e)(3)(iii). This would result in a $50x combined depletion allowance for the partners and an aggregate adjusted basis in the oil property of $150x. Accordingly, the partnership allocates $50x of the basis of the property to Q, one-third of the aggregate adjusted basis determined by the partnership. O and P must each reduce their basis in the property by one-third. Accordingly, after the admission of Q, O's adjusted basis in the property is $60x ($90x minus $30x), and P's adjusted basis in the property is $50x ($75x minus $25x).

(ii) Assume the same facts as in paragraph (i) of this *Example 7* except that O informs the partnership that its adjusted basis in the property is $90x (determined without regard to section 613A(d)(1)). The partnership uses the written data provided by O and determines the aggregate adjusted basis in the property to be $165x ($90x + $75x). Accordingly, the partnership allocates $55x (⅓ of $165x) of the basis of the property to Q, and O and P must each reduce their adjusted basis in the property by one-third, as in paragraph (i) of this *Example 7*. Thus, after the admission of Q, O's adjusted basis in the property is $60x and P's adjusted basis in the property is $50x.

(f) *S corporations.* For purposes of section 613A(c)(13), adjustments to shareholders' adjusted bases in any domestic oil or gas property to reflect capital expenditures by S corporations, the addition of a new shareholder or an increase in a shareholder's interest by reason of a contribution to the S corporation, the redemption of a shareholder's interest, or other appropriate transaction shall be made in accordance with principles similar to the principles under § 1.613A–3(e) applicable to the entry or withdrawal of a partner.

* * * * *

(h) * * *

(1) * * * Accordingly, the group shares the depletable oil (or natural gas) quantity prescribed for a taxpayer for the taxable year and the secondary production (to which gross income from the property is attributable before January 1, 1984) of a member of the group will reduce the other members' share of the group's depletable quantity.

* * * * *

(i) * * *

(2) *Transfers after October 11, 1990*—(i) *General rule.* Section 613A(c) (9) and (10), as in effect prior to the Revenue Reconciliation Act of 1990 (relating to prohibition of percentage depletion on transferred proven properties) has been repealed effective for transfers after October 11, 1990. Accordingly, a transferee of a proven oil or gas property transferred after October 11, 1990 is permitted to claim percentage depletion with respect to production from the property. For purposes of transfers of property occurring before October 12, 1990 under section 613A(c)(10), prior to its repeal, the disposition of stock after October 11, 1990 by a transferor will not result in a reduction in the depletable quantity of the transferee corporation under section 613A(c)(10)(F).

(ii) *Transfer.* The term "transfer" has the same meaning as under § 1.613A–7(n).

(iii) *Transferee.* A person shall not be treated as a transferee with respect to a transferred property to the extent that such person held an interest in the property but was not entitled to a percentage depletion allowance on mineral produced with respect to the property immediately before the transfer. Thus, for example, if a taxpayer who is not entitled to claim percentage depletion on a proven property transfers the property to a partnership for an interest in the partnership, the taxpayer is not a transferee with respect to the property in the hands of the partnership.

(iv) *Effective date.* The provisions of paragraph (i)(2) of § 1.613A–3 are effective for transfers occurring after May 13, 1991. However, a taxpayer may elect to apply these provisions to transfers occurring after October 11, 1990 and on or before May 13, 1991.

(v) *Examples.* The examples below illustrate the provisions of this subparagraph. The examples ignore the application of any restriction on percentage depletion other than the proven property transfer rule.

Example 1. On December 31, 1991, A transfers a proven oil property to B. B may claim percentage depletion with respect to production from the property regardless of whether production from the property was eligible for percentage depletion in A's hands (even if A were a retailer or refiner of oil or gas).

Example 2. On October 10, 1990, A transfers a proven oil property to B. B may not claim percentage depletion with respect to production from the property.

Example 3. On January 1, 1990, C purchases a proven oil property. Because C is a transferee of a proven property, production from the property is not eligible for percentage depletion in C's hands. On December 31, 1991, C contributes the property to Corporation M, an S corporation in which C owns 100 percent of the stock. The contribution of the property is a transfer, but C is not a transferee with respect to the property in the hands of the corporation. Accordingly, C may not claim percentage depletion with respect to production from the property. However, if prior to the contribution C had been entitled to claim percentage depletion with respect to production from the property, C would be entitled to claim percentage depletion with respect to production from the property after the contribution.

Example 4. On December 31, 1991, C contributes a proven oil property (with respect to which C is not entitled to claim percentage depletion) to Corporation N, an S corporation in which C owns 30 percent and D owns 70 percent of the stock. The contribution of the property is a transfer, but

C is not a transferee with respect to the property in the hands of the corporation. Accordingly, C may not claim percentage depletion with respect to C's share of the production from the property. D is a transferee with respect to the property in the hands of Corporation N, and may claim percentage depletion with respect to D's share of production from the property.

Example 5. On December 31, 1991, D transfers a proven oil property (with respect to which D is not entitled to claim percentage depletion) to DE, an equal partnership between D and E. E is a transferee with respect to the property and may claim percentage depletion with respect to production from the property allocated to E under the DE partnership agreement. D is not a transferee with respect to the property, and may not claim percentage depletion with respect to production from the property allocated to E under the DE partnership agreement. However, if D had been entitled to claim percentage depletion with respect to production from the property, then D would be entitled to claim percentage depletion with respect to production from the property in the hands of DE.

Example 6. On January 1, 1990, Corporation P contributes a proven property to Corporation O, its wholly owned subsidiary. Under § 1.613–7(n)(4), the contribution is not treated as a transfer, but only for so long as the tentative quantity is required under section 613A(c)(8) to be allocated between P and O. On December 31, 1991, P sells 90% of the O stock to an unrelated person; accordingly, the tentative quantity is no longer required under section 613A(c)(8) to be allocated between P and O. After the sale of O stock, production from the property in O's hands is eligible for percentage depletion because a transfer of a proven property is deemed to occur upon the transfer of the stock.

Example 7. On October 10, 1990, G transfers a proven oil property to his minor son, H. G had been entitled to claim percentage depletion with respect to production from the property. Under § 1.613A–7(n)(5), H is permitted to claim percentage depletion for so long as G and H are related persons under section 613A(c)(8)(C). On December 31, 1991, H reaches majority and is no longer related to G under section 613A(c)(8)(C). H is entitled to continue to claim percentage depletion on production from the property because the property is treated as being transferred to H on December 31, 1991.

Example 8. On December 31, 1991, I sells a proven property to J, her husband. I had not been entitled to claim percentage depletion with respect to production from the property. Under § 1.613A–7(n)(5), the sale is not a transfer because it is made between persons related under section 613A(c)(8). Accordingly, J may not claim percentage depletion with respect to production from the property. If, however, I had been entitled to claim percentage depletion with respect to production from the property, J would be entitled to claim percentage depletion with respect to production from the property.

Example 9. On December 31, 1991, L inherits a proven property from K. K had not been entitled to claim percentage depletion with respect to production from the property. Under § 1.613A–7(n)(1), the inheritance is not a transfer. Accordingly, L may not claim percentage depletion with respect to production from the property. If, however, K had been entitled to claim percentage depletion with respect to production from the property, L would be entitled to claim percentage depletion with respect to production from the property.

Example 10. On December 31, 1991, Corporation R, a calendar year taxpayer, made an S election effective for the taxable year beginning January 1, 1992 and succeeding taxable years. Since Corporation R is deemed to have transferred its oil and gas properties on January 1, 1992, the shareholders of Corporation R are eligible to claim percentage depletion with respect to the production from the properties.

Example 11. Assume the same facts as in *Example 10* except that Corporation R makes the S election on December 31, 1989, effective for the taxable year beginning January 1, 1990 and succeeding taxable years. Since Corporation R is deemed to have transferred its oil and gas properties on January 1, 1990, the shareholders of Corporation R are not eligible to claim percentage depletion with respect to the production from the properties.

(j) *Percentage depletion with respect to bonuses and advanced royalties*—(1) *Amounts received or accrued after August 16, 1986.* In computing the percentage depletion allowance pursuant to section 613A(c) with respect to amounts received or accrued after August 16, 1986, there shall not be taken into account any advance royalty (to the extent that actual production during the taxable year is insufficient to earn such royalty), lease bonus, or other amount payable without regard to production, even though the amount may be taken into account for purposes of sections 61 and 612 (relating to definitions of gross income and cost depletion, respectively).

* * * * *

Par. 6. Section 1.613A–7 is amended as follows:

1. The text of paragraph (e) is added as set forth below.

2. Paragraph (f)(1) is amended by revising the last sentence to read as set forth below.

3. Paragraph (h) is revised as set forth below.

4. Paragraph (n) is amended by adding a sentence immediately following the first sentence to read as set forth below.

5. Paragraph (o) is amended by revising the first sentence to read as set forth below.

6. Paragraph (r)(1), concluding text, is amended by adding a sentence immediately following the first sentence to read as set forth below.

§ 1.613A–7 Definitions.

* * * * *

(e) *Qualified natural gas from geopressured brine.* The term "qualified natural gas from geopressured brine" means any natural gas which is determined in accordance with section 503 of the Natural Gas Policy Act of 1978 to be produced from geopressured brine and which is produced from any well the drilling of which began after September 30, 1978, and before January 1, 1984.

(f) * * *

(1) * * * Average daily production does not include production resulting from secondary or tertiary processes to which gross income from the property is attributable before January 1, 1984.

* * * * *

(h) *Depletable oil quantity.* The taxpayer's depletable oil quantity, within the meaning of section 613A(c)(1)(A), shall be equal to the tentative quantity determined under the table contained in section 613A(c)(3)(B) and paragraph (b) of § 1.613A–3 (except that, in the case of determinations with respect to days prior to January 1, 1984, such quantity shall be reduced (but not below zero) by the taxpayer's average daily secondary or tertiary production for the taxable year).

* * * * *

(n) * * * For taxable years beginning after 1982, the term "transfer" includes an election by a C corporation to be an S corporation (properties deemed transferred by the C corporation on the day the election first becomes effective) and a termination of an S election (each shareholder's pro rata share of assets of S corporation deemed transferred to C corporation on the day that the termination first becomes effective).

* * *

* * * * *

(o) The term "transferee", as used in section 613A(c)(9), paragraph (i)(1) of § 1.613A–3, and this section includes the original transferee of proven property and his or her successors in interest (excluding successors in interest of proven property transferred after October 11, 1990). * * *

* * * * *

(r) * * *

(1) * * *

* * * Bulk sales made after September 18, 1992, of aviation fuels to the Department of Defense shall be also disregarded. * * *

* * * * *

Par. 7. Section 1.705–1 is amended by:

1. Revising paragraph (a)(2)(iii) to read as set forth below.

2. Redesignating paragraph (a)(4) as paragraph (a)(6) and adding paragraphs

(a)(4) and (a)(5) to read as set forth below.

§ 1.705–1 Determination of basis of partner's interest.

(a) * * *

(2) * * *

(iii) The excess of the deductions for depletion over the basis of the depletable property, unless the property is an oil or gas property the basis of which has been allocated to partners under section 613A(c)(7)(D).

* * * * *

(4) The basis shall be decreased (but not below zero) by the amount of the partner's deduction for depletion allowable under section 611 for any partnership oil and gas property to the extent the deduction does not exceed the proportionate share of the adjusted basis of the property allocated to the partner under section 613A(c)(7)(D).

(5) The basis shall be adjusted (but not below zero) to reflect any gain or loss to the partner resulting from a disposition by the partnership of a domestic oil or gas property after December 31, 1974.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 8. The authority citation for part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

§ 602.101(c) [Amended]

Par. 9. Section 602.101(c) is amended by adding the entry "1.613A–3(e)—1545–1251" to the table.

Michael P. Dolan,

Acting Commissioner of Internal Revenue.

Approved: August 6, 1992.

Fred T. Goldberg, Jr.,

Assistant Secretary of the Treasury.

[FR Doc. 92–23097 Filed 9–22–92; 8:45 am]

BILLING CODE 4830–01–M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 3

RIN 2900–AF92

Active Military Service Certified Under Section 401 of Public Law 95–202

AGENCY: Department of Veterans Affairs.

ACTION: Final Regulation.

SUMMARY: The Department of Veterans Affairs (VA) has amended its regulations concerning persons who are included as having served on active duty. The need for this action results from recent decisions of the Secretary of the Air Force that the World War II service of members of U.S. Civilian Flight Crew and Aviation Ground Support Employees of United Air Lines (UAL), Who Served Overseas as a Result of UAL's Contract With the Air Transport Command and members of U.S. Civilian Flight Crew and Aviation Ground Support Employees of Transcontinental and Western Air (TWA), Inc., Who Served Overseas as a Result of TWA's Contract With the Air Transport Command constitutes active military service in the Armed Forces of the United States for purposes of all laws administered by VA. The effect of this action is to confer veteran status for VA benefit purposes on former members of these groups who were discharged under honorable conditions.

EFFECTIVE DATE: The effective date is May 13, 1992, the date on which the Secretary of the Air Force determined that such service constitutes active duty.

FOR FURTHER INFORMATION CONTACT: John Bisset, Jr., Consultant, Regulations Staff (211B), Compensation and Pension Service, Veterans Benefits Administration, 810 Vermont Avenue, NW., Washington, DC 20420, telephone (202) 233–3005.

SUPPLEMENTARY INFORMATION: Section 401 of Public Law 95–202 authorized the Secretary of Defense to determine whether the service of members of civilian or contractual groups shall be considered active duty for the purposes of all laws administered by VA.

A notice of certification of the following group by the Secretary of the Air Force appeared in the **Federal Register** of June 9, 1992, 57 FR 24478: U.S. Civilian Flight Crew and Aviation Ground Support Employees of United Air Lines (UAL), Who Served Overseas as a Result of UAL's Contract With the Air Transport Command During the Period December 14, 1941, through August 14, 1945.

A notice of certification of the following group by the Secretary of the Air Force also appeared in the **Federal Register** of June 9, 1992, 57 FR 24479: U.S. Civilian Flight Crew and Aviation Ground Support Employees of Transcontinental and Western Air (TWA), Inc., Who Served Overseas as a Result of TWA's Contract With the Air Transport Command During the Period December 14, 1941, through August 14, 1945.

VA is issuing a final rule to amend the provisions of 38 CFR 3.7(x). This change is necessary to expand the regulatory provisions in accordance with the May 13, 1992, determinations of the Secretary of the Air Force, which are binding on VA. Because this amendment implements a determination of the Secretary of the Air Force in accordance with Public Law 95–202, publication as a proposal for public notice and comment is unnecessary.

Since a notice of proposed rulemaking is unnecessary and will not be published, this amendment is not a "rule" as defined in and made subject to the Regulatory Flexibility Act (RFA), 5 U.S.C., sections 601–612. This amendment will not directly affect any small entity.

In accordance with Executive Order 12291, Federal Regulation, the Secretary has determined that this regulatory amendment is non-major for the following reasons:

(1) It will not have an annual effect on the economy of $100 million or more.

(2) It will not cause a major increase in costs or prices.

(3) It will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

There is no affected Catalog of Federal Domestic Assistance program number.

List of Subjects in 38 CFR Part 3

Administrative practice and procedure, Claims, Handicapped, Health care, Pensions, Veterans.

Approved: July 31, 1992.

Edward J. Derwinski,

Secretary of Veterans Affairs.

For the reasons set forth in the preamble, 38 CFR Part 3 is amended as follows:

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, Dependency and Indemnity Compensation

1. The authority citation for part 3, subpart A continues to read as follows:

Authority: 105 Stat. 386; 38 U.S.C. 501(a), unless otherwise noted.

2. In § 3.7, remove the authority citation following paragraph (x)(21).

3. In § 3.7, paragraphs (x) (22) and (23) and an authority citation are added to read as follows:

§ 3.7 Persons included.

* * * * *

(x) *Active military service certified as such under section 401 of Pub. L. 95–202.*

* * *

(22) U.S. Civilian Flight Crew and Aviation Ground Support Employees of United Air Lines (UAL), Who Served Overseas as a Result of UAL's Contract With the Air Transport Command During the Period December 14, 1941, through August 14, 1945.

(23) U.S. Civilian Flight Crew and Aviation Ground Support Employees of Transcontinental and Western Air (TWA), Inc., Who Served Overseas as a Result of TWA's Contract With the Air Transport Command During the Period December 14, 1941, through August 14, 1945.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[PA7-2-5566; A-1-FRL-4205-7]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; CEMS for NO_x From Large Combustion Units

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania. This revision consists of an amended regulation which adds monitoring requirements for sources of nitrogen oxides (NO_x). The regulation requires that operators of large combustion units with heat input rates equal to or larger than 250 million Btu, continuously monitor NO_x and to properly report the findings of such monitoring. The intended effect of this action is to approve an amended regulation submitted by the Commonwealth of Pennsylvania Department of Environmental Resources as a SIP revision rendering its monitoring requirements as federally enforceable. This action is being taken in accordance with section 110 of the Clean Air Act.

EFFECTIVE DATE: This action will become effective November 23, 1992, unless notice is received by October 23, 1992, that adverse or critical comments will be submitted. If the effective date is delayed, timely notice will be published in the **Federal Register**.

ADDRESSES: Comments may be mailed to Thomas J. Maslany, Director, Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, PA 19107. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, PA 19107; Public Information Reference Unit, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460; and Commonwealth of Pennsylvania, Department of Environmental Resources, Bureau of Air Quality Control, P.O. Box 2357, Executive House—2nd & Chestnut Streets, Harrisburg, Pennsylvania 17120.

FOR FURTHER INFORMATION CONTACT: David J. Campbell, (215) 597-9781.

SUPPLEMENTARY INFORMATION: On January 11, 1991, the Commonwealth of Pennsylvania submitted a formal revision to its State Implementation Plan (SIP). The SIP revision consists of an amended regulation, title 25 Pa. Code, chapter 123, section 123.51, Monitoring Requirements, containing monitoring requirements for sources of nitrogen oxides (NO_x). This regulation requires that operators of 250 million Btu combustion units install, operate, and maintain NO_x continuous emission monitoring systems (CEMS); submit the results to the Pennsylvania Department of Environmental Resources on a regular schedule; and meet minimum data availability requirements.

Summary of SIP Revision

The revision adds monitoring requirements for sources of nitrogen compound emissions. The revision specifically establishes a CEMS requirement in Pennsylvania for major sources of NO_x to provide a reliable data base concerning NO_x emissions. This data will enable Pennsylvania to assure that the forthcoming requirements of subchapter IV of the Clean Air Act (Acid Deposition Control), as amended by the Clean Air Act Amendments of 1990, will be appropriately implemented throughout the State.

The purpose of the revision is to address the acid deposition problem in Pennsylvania. The new monitoring requirements will allow Pennsylvania to assess the magnitude and extent of NO_x emissions in the Commonwealth, permitting it to track the development of one of the precursors of acid rain. By requiring large combustion sources to continuously monitor NO_x emissions, the Commonwealth will be able to track approximately 80% of all NO_x emissions created within the State.

Specifically, the revision adds a new regulation which provides that all combustion units with a rated heat input of 250 million Btu per hour or greater and with an annual average capacity factor of greater than 30% shall:

1. Install, operate and maintain CEMS for NO_x,
2. Submit the results to the Pennsylvania Department of Environmental Resources on a regular schedule, and
3. Meet minimum data availability requirements set forth in the previously approved Title 25 Pa. Code, Chapter 139. (See 49 FR 30184.)

EPA Evaluation

EPA has evaluated Pennsylvania's SIP revision request and makes the following conclusions:

1. The monitoring requirements will not adversely affect Pennsylvania's ability to enforce the current applicable emission limitations which adequately protect the NAAQS for NO_x,
2. The monitoring requirements are clearly enforceable, and
3. The applicable requirements of 40 CFR part 51 have been met. A more detailed evaluation is provided in a Technical Support Document available upon request from the Regional EPA office listed in the **ADDRESSES** section of this notice.

EPA is approving this SIP revision without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. This action will be effective 60 days from the date of this **Federal Register** notice unless, within 30 days of its publication, notice is received that adverse or critical comments will be submitted. If such notice is received, this action will be withdrawn before the effective date by simultaneously publishing two subsequent notices. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and new rulemaking by announcing a proposal of the action and establishing a comment period. If no such comments are received, the public is advised that this action will be effective on November 23, 1992.

Final Action

EPA is approving the amended regulation, title 25 Pa. Code, chapter 123, section 123.51, Monitoring Requirements, submitted by the Commonwealth of Pennsylvania Department of Environmental Resources

as a revision to the Pennsylvania SIP. The regulation requires that the operators of large combustion units, continuously monitor NO_x emissions and report the findings to the Pennsylvania Department of Environmental Resources.

Nothing in this action shall be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

SIP approvals under section 110 and subchapter I, Part D of the CAA do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not impose any new requirements, the Administrator certifies that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the Federal-State relationship under the CAA, preparation of a flexibility analysis for would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co. v. U.S. EPA*, 427 U.S. 246, 255–66 (S. Ct. 1976); 42 U.S.C. 7410(a)(2).

This SIP revision requiring large combustion units in Pennsylvania to continuously monitor NO_x emissions has been classified as a Table 3 action for signature by the Regional Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). EPA has submitted a request for a permanent waiver for Table 2 and 3 SIP revisions. OMB has agreed to continue that temporary waiver until such time as it rules in EPA's request.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 23, 1992. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Air pollution control, Carbon monoxide, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur Oxides.

Dated: September 8, 1992.

W. Wisniewski,

Acting Regional Administrator, Region III.

Part 52 of chapter I, title 40 of the Code of Federal Regulations is amended as follows:

Subpart NN—Pennsylvania

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

PART 52—[AMENDED]

2. Section 52.2020 is amended by adding paragraph (c)(74) to read as follows:

§ 52.2020 Identification of plan.

Health Care Financing Administration

42 CFR Parts 413 and 447

[BPD–311–F]

RIN 0938–AB68

Medicare and Medicaid Programs; Revaluation of Assets

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Final rule.

SUMMARY: This final rule revises the Medicare and Medicaid regulations that are affected by section 2314 of the Deficit Reduction Act of 1984 and sections 9110 and 9509 of the Consolidation Omnibus Budget Reconciliation Act of 1985. Those provisions amended sections 1861(v)(1) and 1902(a)(13) of the Social Security Act. This rule describes new limitations on the valuation of assets acquired as the result of changes in ownership occurring on or after July 18, 1984. These changes affect hospitals and skilled nursing facilities under the Medicare program and hospitals, nursing facilities, and intermediate care facilities for the mentally retarded under the Medicaid program.

EFFECTIVE DATE: This final rule is effective on October 23, 1992.

ADDRESSES: If you wish to submit comments on the information collection requirements contained in this final rule, you may submit comments to: Allison Herron Eydt, HCFA Desk Officer, Office of Information and Regulatory Affairs, Room 3002, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Bruce Oliver—Medicare Provisions, (301) 966–4519; Betty Kern—Medicaid Provisions, (301) 966–4580.

Copies: To order copies of the **Federal Register** containing this document, send your request to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402–9325. Specify the date of issue requested and enclose a check payable to the Superintendent of Documents, or enclose your Visa or Master Card number and expiration date. Credit card orders can also be placed by calling the order desk at (202) 783–3238 or by faxing to (202) 275–6802. The cost for each copy (in paper or microfiche form) is $1.50. In addition, you may view and photocopy the **Federal Register** document at most libraries designated as U.S. Government Depository Libraries and at many other

public and academic libraries throughout the country that receive the **Federal Register**. Ask the order desk operator for the location of the Government Depository Library nearest to you.

SUPPLEMENTARY INFORMATION

I. Background

A. Deficit Reduction Act of 1984

Section 2314 of the Deficit Reduction Act of 1984 (Pub. L. 98–369), enacted on July 18, 1984, amended sections 1861(v)(1) and 1902(a)(13) of the Social Security Act (the Act) by adding new provisions concerning valuation of assets, that is, determining historical costs applicable to assets of hospitals, skilled nursing facilities (SNFs), intermediate care facilities (ICFs), and intermediate care facilities for the mentally retarded (ICFs/MR) that undergo a change of ownership on or after July 18, 1984. Previously, historical cost had been limited to the lowest of (1) the purchase price, (2) the fair market value, or (3) depreciated reproduction cost.

Section 1861(v)(1) of the Act was amended by the addition of a new paragraph (O), which provides for the following:

- In establishing an appropriate allowance under Medicare for payment of providers for depreciation expense, interest on capital indebtedness, and (if applicable) a return on equity capital, for an asset of a hospital or SNF that undergoes a change of ownership, the value of the asset after the change of ownership is the lesser of the allowable acquisition cost of the asset to the owner of record as of July 18, 1984 (or, in the case of an asset not in existence as of July 18, 1984, the first owner of record after that date), or the acquisition cost of the asset to the new owner.
- Recapture of depreciation in the manner as provided in regulations in effect on June 1, 1984; that is, if disposal of a depreciable asset results in a gain or loss, an adjustment is necessary in the provider's allowable cost. The amount of a gain included in the determination of allowable cost is limited to the amount of depreciation previously included in Medicare allowable costs. The amount of a loss to be included is limited to the undepreciated basis of the asset permitted under Medicare.
- The costs (for example, legal fees, accounting and administrative costs, travel costs, and the costs of feasibility studies) attributable to the negotiation and settlement of the sale or purchase of any capital asset (by acquisition or merger) for which payment has previously been made by the Medicare program may not be recognized as reasonable cost in the provision of health care services.

Section 1902(a)(13) of the Act was amended by the addition of a new paragraph (B), which requires that a State must provide assurances satisfactory to the Secretary that the payment methodology utilized by the State for payments to hospitals, SNFs, ICFs, and ICFs/MR can reasonably be expected not to increase these payments, solely as a result of a change of ownership, in excess of the increase that would result from the application of the Medicare requirements of section 1861(v)(1)(O) of the Act.

B. Consolidated Omnibus Budget Reconciliation Act of 1985

Section 9110 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Pub. L. 99–272), enacted on April 7, 1986, amended section 1861(v)(1)(O) of the Act by adding a new provision applicable to changes in ownership of State hospitals to nonprofit corporations without monetary consideration. This new provision requires that, in the case of a transfer of ownership of a State hospital to a nonprofit corporation for which there was no monetary consideration, the basis of the assets to the new owner (the nonprofit corporation) to be used for the purpose of computing capital allowances is the book value of the assets as shown on the State's books at the time of the transfer.

Section 9509 of Public Law 99–272 of the Act also limited (B) to hospitals and added a new paragraph (C) to section 1902(a)(13) of the Act that is applicable to SNFs, ICFs, and ICFs/MR that change ownership on or after October 1, 1985. Prior to the enactment of section 2314 of Public Law 98–369 and section 9509 of Public Law 99–272, the only upper payment limit restriction imposed on States in establishing payment rates was the application of section 1902(a)(30) of the Act. This section required that State plan methods and standards used to determine payment rates result in payments that are consistent with efficiency, economy and quality, of care. Historically, through regulations, we interpreted this requirement to mean that a State's aggregate payment amounts cannot exceed payment amounts calculated based on Medicare payment principles. The new paragraph (C) of section 1902(a)(13) of the Act requires a State to provide assurances satisfactory to the Secretary that the valuation of capital assets for purposes of determining payment rates for SNFs, ICFs, and ICFs/MR will not be increased beyond certain levels. The valuation of the asset may not increase (as measured from the date of acquisition by the seller to the date of the change of ownership), solely as a result of a change of ownership, by more than the lesser of—

- One-half of the percentage increase (as measured over the same period of time specified above, or if necessary, as extrapolated retrospectively by the Secretary) in the Dodge construction index applied in the aggregate with respect to those facilities that have undergone a change of ownership during the Federal fiscal year; or
- One-half of the percentage increase (as measured using the same period of time stated above) in the Consumer Price Index for All Urban Consumers (United States city average).

Congress intended for section 1902(a)(13)(C) of the Act to impose a statutory ceiling on the revaluation of assets as the result of a change in ownership. This section does not set any specific payment level for capital costs. States are free to continue to apply payment rates and standards that are consistent with the more stringent payment ceiling imposed on hospitals by section 1902(a)(13)(B) of the Act. States may also require the recapture of depreciation, as is authorized by the reference to section 1861(v)(1)(O) of the Act in section 1902(a)(13)(B) of the Act, in order to assure that the Medicaid program pays for an asset only once.

Section 9509 of Public Law 99–272 further provides that if a change to the existing State plan methodology is necessary in order for the plan to meet the requirements of section 1902(a)(13)(C) of the Act, and this methodology change cannot be effectuated without a State legislative change, the State agency will not be regarded as failing to comply with the requirements of section 1902(a)(13)(C) solely on the basis of its failure to meet these section 1902(a)(13)(C) requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after April 7, 1986.

Both Public Law 98–369 and Public Law 99–272 impose specific effective dates that are set forth in section V.A of this preamble.

C. Omnibus Budget Reconciliation Act of 1987

Section 4211(h) (2)(C) of the Omnibus Budget Reconciliation Act of 1987 (Pub. L. 100–203), enacted on December 22, 1987, amended section 1902(a)(13)(C) of the Act to reflect the elimination of

separate criteria for certifying SNFs and ICFs under Medicaid effective October 1, 1990. The Medicaid statute now recognizes one type of facility that provides long term care: nursing facilities (NFs). Consequently, States are required to provide needed assurances for NFs and ICFs/MR. We are revising the regulations to reflect this change in terminology.

II. Provisions in the Proposed Rule

On October 26, 1987, we published a proposed rule (52 FR 39927) that described new limitations on the valuation of assets acquired as the result of changes in ownership occurring on or after July 18, 1984. In the preamble of that proposed rule, we described our policies concerning allowable costs and patient-care-related capital costs prior to the enactment of Public Law 98–369 and Public Law 99–272, and proposed the following changes to the regulations that would implement the new provisions.

A. Medicare

1. Changes Resulting From Section 2314 of Public Law 98–369

a. *Sale and leaseback arrangements.* In § 413.130(b), which governs the inclusion of lease and rental costs in a provider's capital-related costs, we proposed, for sale and leaseback arrangements entered into by hospitals and SNFs on or after the effective date of this final rule, limiting the amount providers may include as patient-care-related capital costs for rental or lease expense to the amount a provider would have included in patient-care-related capital costs had the provider retained legal title to the asset. This proposed change was not explicitly required by law. However, based on the language of the conference report (H.R. Rep. No. 861, 98th Cong., 2nd Sess. 1339 (1984)), we believe that Congress recognized that this proposed change was needed to prevent circumvention of the revaluation of asset limitation imposed by section 1861(v)(1)(O).

In addition, we proposed new §§ 413.134(h) (1) through (3) that would govern the amount of lease or rental expense that providers may include in allowable costs under sale and leaseback transactions. Proposed §§ 413.134(h) (1) and (2) set forth our long-standing policy, currently in section 110.A of the Provider Reimbursement Manual, and applicable to all providers, governing the amount a provider may include in allowable costs under sale and leaseback agreements. Proposed § 415.134(h)(3), which is consistent with new § 413.130(b)(4), would apply to hospitals and SNFs only and would limit the amount of lease or rental expense that a hospital or SNF may include in allowable costs under a sale and leaseback transaction entered into on or after the effective date of this final rule to the amount the hospital or SNF would have included in allowable costs had the hospital or SNF retained legal title to the asset.

b. *Revaluation of a capital asset.* Congress enacted section 1861(v)(1)(O) of the Act to ensure that the Medicare program does not pay for the same capital asset more than once. This provision is intended to limit the revaluation of an asset for purposes of determining depreciation, interest expense of capital indebtedness, and (if applicable) return on equity capital to the allowable acquisition cost to the individual or entity who was the owner for Medicare purposes on July 18, 1984. The purchasing entity's valuation is the lesser of its own acquisition cost or the allowable acquisition cost of the previous owner (not reduced by accumulated depreciation). We proposed to amend § 413.134 to conform the regulations to the limitation on revaluation of assets set forth under section 1861(v)(1)(O) of the Act, as follows:

- We proposed revising § 413.134(b), which describes historical cost, by adding a new paragraph (b)(1)(ii) to implement the statutory limitation applicable to hospitals and SNFs for assets acquired on or after July 18, 1984 and not subject to an enforceable agreement entered into before that date.
- In a new § 413.134(b)(1)(ii)(B), we proposed that the term "asset not in existence as of July 18, 1984" include any asset that physically existed, but was not owned by a provider participating in the Medicare program as of July 18, 1984.
- For purposes of calculating the historical cost limitation, we proposed a new § 413.134(b)(1)(ii)(C) providing that the acquisition cost to the owner of record (the previous owner) on July 18, 1984 would be subject to any limitation on historical costs imposed by Medicare prior to that time, and that this cost would not be reduced by any depreciation taken by that owner of record. We also explained that the purchase of land, which is neither depreciable nor amortizable under any circumstances, would be subject to the historical cost limitation for the purpose of determining allowable interest expense for both proprietary and nonproprietary providers, and (if applicable) return on equity capital for proprietary providers only.
- In a new § 413.134(b)(1)(ii)(D), we proposed that, for application of the limitation, the cost to the owner of record would include the costs of betterments and improvements that extend the useful life of the asset at least two years beyond its original estimated useful life, or increases the productivity of an asset significantly over its original productivity.
- We proposed a new § 413.134(b)(1)(ii)(E), which provided that, for assets acquired prior to a provider's entrance into the Medicare program, the acquisition cost to the owner of record is the historical cost of the asset when acquired, rather than when the provider entered the program.
- In a new § 413.134(b)(1)(ii)(F), we proposed to further explain the determination of the acquisition cost to the owner of record for assets subject to the optional depreciation allowance described in § 413.139.
- In a new § 413.134(b)(1)(ii)(G), we proposed excluding from historical cost the costs attributable to the negotiation or settlement of the sale or purchase (by acquisition, merger, or consolidation) of any capital asset for which any payment was previously made by the Medicare program.
- Because the limitation set forth in § 413.134(b)(1)(ii) applies only to hospitals and SNFs, in a new § 413.134(b)(1)(iii), we proposed that if a change of ownership occurs that involves assets of a hospital-based provider other than a SNF or a SNF-based provider (to which section 1861(v)(1)(O) of the Act does not apply), a reasonable allocation of the purchase price must be made so that the non-hospital or non-SNF provider would not be affected by the limitation imposed by section 1861(v)(1)(O) of the Act, but rather would be subject to the limitations imposed prior to the implementation of that section that continue to control changes of ownership involving nonhospital and non-SNF providers.
- Finally, we proposed adding a new paragraph to § 413.134(g), which governs the establishment of the cost basis for assets obtained in the purchase of a facility as an ongoing operation, to limit the historical cost of assets of hospitals and SNFs acquired on or after July 18, 1984 and not subject to an enforceable agreement entered into before that date. Under proposed § 413.134(g)(3), the limit would be the lower of the allowable acquisition cost of the asset to the owner of record as of July 18, 1984, or the acquisition cost to the new owner.

2. Changes Resulting from Section 9100 of Public Law 99–272

Section 9110 of Public Law 99–272, enacted section 1861(v)(1)(O)(iv) of the Act to provide a special rule for valuing assets for Medicare purposes for State hospitals that are transferred without monetary consideration to nonprofit corporations. We proposed the following changes to implement this section:

• We proposed to add § 413.134(b)(8) that provides a rule for donated asset consistent with the discussion in section 104.15 of the Provider Reimbursement Manual. We also proposed clarifying in § 413.134(b)(8) that, if an asset is exchanged for new debt or the assumption of debt, then the transaction is considered a sale and not a donation.

• We proposed to consolidate, in § 413.134(j), the regulations governing donations to providers. This included a special rule to implement section 1861(v)(1)(O)(iv) of the Act, which governs the transfer of a State hospital to a nonprofit corporation without monetary consideration. This special rule provides that, in the case of a transfer of ownership of a State hospital to a nonprofit corporation for which there was no monetary consideration, the new owner's depreciable basis is the net book value of the assets as recorded on the State's books at the time of the transfer.

3. Other Changes

In §§ 413.130(b) (8) and (9), we proposed changes that would be applicable to lease purchase transactions entered into on or after the effective date of this final rule. Specifically, we proposed new criteria that would redefine lease purchase transactions. These criteria are the same as the criteria used to identify capital lease transactions under generally accepted accounting principles (GAAP) and, for that purpose, are also set forth in the Statement of Financial Accounting Standards Number 13, "Accounting for Leases," (SFAS 13) issued by the Financial Accounting Standards Board. In addition, we proposed that, for lease purchase transactions in which the lessee becomes the owner of the leased asset and subsequently disposes of the asset, the total amount considered as depreciation for the purpose of computing the limitation on allowable lease or rental costs (as required by new paragraph (b)(9)(i) of § 413.130) must be included in calculating the limitation on adjustments to depreciation for the purpose of determining any gain or loss realized upon disposal of the asset. We stated that the purpose of this latter provision was to prevent providers that obtained assets through lease purchase transactions and subsequently disposed of these assets from having an unfair advantage over providers that bought assets outright and subsequently disposed of them.

We proposed clarifying in § 413.134(f)(1) that the gain or loss on the disposition of depreciable assets has no retroactive effect on a proprietary provider's equity capital for years prior to the disposition.

We also proposed clarifying § 413.134(f)(4) to include donations in the category of asset dispositions for which gains or losses are not included in allowable costs.

We proposed new sections 413.134(h) (4) through (7) that would govern the amount a provider may include in allowable costs under lease purchase transactions. Proposed §§ 413.134(h) (4) and (5) set forth our long-standing policy, currently in section 110.B of the Provider Reimbursement Manual, governing the amount of lease or rental expense a provider may include in allowable costs under a lease purchase transaction. In addition, in new §§ 413.134(h) (6) and (7), we proposed changes applicable to lease purchase transactions entered into on or after the effective date of this final rule. These changes include new criteria to redefine lease purchase transactions and describe a special rule with respect to the determination of the gain or loss adjustment upon disposition of an asset acquired through a lease purchase transaction and are consistent with the changes for lease purchase transactions described for § 413.130(b), above.

We explained that we were considering applying the limitations on asset valuations under section 2314 of Pub. L. 98–369 to all providers under both Medicare and Medicaid programs, and we requested public comments on that proposal.

We also discussed the application of "fair market value" as an additional limitation on the valuation of an asset acquired on or after July 18, 1984. In that discussion, we pointed out that although the language of section 1861(v)(1)(O) of the Act does not explicitly include the fair market value of an asset in the historical cost limitation, it would be contrary to general reasonable cost principles in section 1861(v)(1)(A) of the Act for Medicare to recognize more than the fair market value of an asset. Therefore, we explained that in those instances in which the fair market value of an asset is less than both the allowable acquisition cost of the asset to the owner of record as of July 18, 1984 and the acquisition cost of the asset to the new owner, we would apply the regulations contained in §§ 413.134(g)(4) and 413.9 to limit the historical cost of the asset to the new owner to the fair market value for purposes of establishing an appropriate allowance under Medicare for depreciation, interest on capital indebtedness, and (if applicable) a return on equity capital.

B. Medicaid Changes Resulting From Sections 1902(a)(13) (B) and (C) of the Act

As described in section I.B above, sections 1902(a)(13) (B) and (C) of the Act limit State Medicaid payment for the patient-care-related capital costs associated with the sale or transfer of hospitals or nursing facilities. We proposed the following amendments to 42 CFR part 447, subpart C, which governs payment for inpatient hospital and long-term care facility services.

• We proposed amending § 447.250, which describes the basis and purpose of subpart C, by adding a new paragraph (c) that explains that §§ 447.253 (c) and (d) implement sections 1902(a)(13)(B) and 1902(a)(13)(C) of the Act.

• We proposed amending § 447.253, which describes other requirements concerning State assurances, to include the assurances required by sections 1902(a)(13)(B) and 1902(a)(13)(C) of the Act for changes in ownership. Congress intended that the assurances apply to increases that are solely a result of a change in ownership. We proposed that the assurance for each level of care (that is, hospital, SNF, ICF, and ICF/MR) be based on the increase in payments to all facilities within that class of facilities that have a change in ownership during a specified period.

With respect to section 1902(a)(13)(C) of the Act, section 9509 of Public Law 99–272 specifically states that the amendments mandated by this section shall apply to medical assistance furnished on or after October 1, 1985, but only with respect to changes of ownership occurring on or after such date that were not subject to an enforceable agreement entered into prior to October 1, 1985.

III. Discussion of Public Comments

In response to the October 26, 1987 proposed rule, we received 12 timely items of correspondence. The comments were submitted by three health care associations, four providers, a provider chain organization, a fiscal intermediary, an appraisal firm, and two State agencies. The specific comments

made by the commenters and our responses follow.

A. General

Comment: Two commenters suggested that failure to recognize fair market value of assets when change of ownership occurs is contrary to the movement of the Medicare program to a market-driven system. The commenters asserted that if Medicare does not recognize fair market costs, increased costs must be borne by non-Medicare patients. The commenters stated that section 1861(v)(1)(O) of the Act and the proposed regulations act as a disincentive for the health care delivery system to consolidate and to recognize the economies of scale as a means of spreading the risk inherent in a market-driven system. They asserted that this section of the Act should be repealed and the proposed regulations should not become effective.

Response: Since the enactment of section 2314 of Public Law 98–369, no evidence has been brought to our attention that would indicate that the new limitation on revaluation of assets has had a significant impact on provider decisions regarding mergers and acquisitions. We believe this is due to the weight of factors like tax incentives, increased buying power and increased market entry which, we believe, have offset any perceived disincentives caused by this provision. Moreover, we believe the rule, as proposed, fairly reflects the intent of Congress that the Medicare program should pay for the use of an asset only once. In effect, Congress has redefined Medicare's share of allowable costs to exclude excess costs that result solely from changes in ownership of assets. In any event, there are statutory provisions that we must implement and that only Congress can revise or repeal.

Comment: One commenter is concerned that the provisions of section 2314 of Public Law 98–369, combined with the capital reduction provisions of section 9303 of the Omnibus Budget Reconciliation Act of 1986 (Pub. L. 99–509) and section 4006 of the Omnibus Budget Reconciliation Act of 1987 (Pub. L. 100–203) (which both reduce by specified percentages the amount payable for capital-related costs of most hospitals paid under the prospective payment system), represent a fragmented approach that will result in significant shortfalls in capital payment and lead to increased deficiencies in patient care. The commenter asserted that this approach will result in more providers being cited for building deficiencies. The commenter recommended that we implement the capital reduction factors expressed in Public Law 99–509, but not those expressed in Public Law 100–203. In addition, the commenter recommended that we do not implement section 2314 of Public Law 98–369. Rather, the commenter recommended that we use a local construction index as a limitation on asset revaluations. In other words, if an asset changed ownership after July 18, 1984, the new owner's basis would be limited to the lesser of the undepreciated historical costs as of July 18, 1984, inflated to the date of the change of ownership by a local construction index, or the acquisition cost to the new owner. The effect of this recommendation would be to permit limited upward revaluations of assets when the assets undergo a change of ownership.

Response: Congress has permitted no leeway in implementation of these very specific provisions from section 2314 of Public Law 98–369, section 9303 of Public Law 99–509, and section 4006 of Public Law 100–203. Since receipt of this comment, Congress has extended the capital-related cost reduction factor by enactment of section 6002 of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101–239) and section 4001(a) of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101–508). However, there is no evidence in the legislative history of these provisions that would suggest that Congress intended these capital-related cost reduction facors to supersede the limitation on asset revaluations expressed in section 2314 of Public Law 98–369.

Although the asset revaluation provisions and capital reduction provisions both have as their purpose the promotion of economies in the Medicare program, they affect the determination of reasonable costs in different ways. For example, section 2314 of Public Law 98–369 applies to both hospitals and SNFs and serves to limit the valuation of assets that undergo a change in ownership. On the other hand, the capital-related cost reduction provisions of Public Law 99–509 and Public Law 100–203 apply only to the inpatient capital-related costs of hospitals paid under the prospective payment system and do not affect payment for the capital-related costs of SNFs. With such distinct differences in the application and intended effect of these provisions, we have no reason to believe that the capital-related cost reduction factors were intended to replace the revaluation of assets limitation.

Comment: Three commenters urged that the final rule not be applied to all types of providers. They argued that to do otherwise would go beyond Congressional intent and would be contrary to a market-driven system. Further, they argued, it would hinder provider flexibility in financing and structuring services. However, one commenter, an intermediary, believes that the intent of Congress to pay for an asset only once can be accomplished only if the limitation is extended to all types of providers. The commenter stated that not to do so would place additional administrative and audit burdens on fiscal intermediaries to properly account for different limitations for each type of provider.

Response: We agree that extending this rule to all types of providers would make administration of the Medicare program easier. Moreover, extending the rule to cover all types of providers would increase the economies that Congress envisioned would result from this legislation. However, we are not taking such action at this time. Rather, we will continue to consider whether we should extend this rule to cover all types of providers and, if so, whether such an extension should be made through a further revision to the regulations or through further legislation.

B. Sale and Leaseback Arrangements and Lease Purchase Transactions—Effective Dates

Comment: Two commenters asked us to verify that the proposed changes to lease arrangements would be applied prospectively, and would be applied only to binding agreements entered into on or after 30 days following publication of the final rule. One of these commenters requested that the final rule clarify the prospective nature of the provisions regarding calculation of a gain or loss upon position of an asset that was acquired through a virtual purchase.

Response: As stated in the proposed rule (at 52 FR 39932), these changes take effect 30 days after publication of this final rule. Therefore, they apply only to binding agreements entered into on or after October 23, 1992. With respect to sale and leaseback agreements and lease purchase transactions entered into prior to the effective dates of these changes, the regulations at § 413.130(b)(2) through (5) and sections 110.A and B of the Provider Reimbursement Manual apply.

C. Sale and Leaseback Arrangements

Comment: Two commenters expressed their belief that our rules

regarding sale and leaseback arrangements that were in effect prior to this final rule provided adequate safeguards against the payment of unreasonable costs. Those rules, set forth in § 413.130(b) (2) and (3) and in section 110.A of the Provider Reimbursement Manual (HCFA Pub. 15–1), permitted a provider to include the full amount of the lease payments incurred under a sale and leaseback arrangement in its allowable costs if (1) the lease payments were reasonable, (2) adequate, alternate facilities were not available at a lower cost and (3) the leasing was based on economic and technical considerations. If these three criteria were not met, the provider would not be permitted to include the full amount of the lease payments in allowable costs. Rather, the allowable lease payments would be limited to the amount the provider could have included in allowable cost had it retained ownership of the assets (the "costs of ownership"). Further, if the provider and the lessor were considered related organizations under § 413.17, the lease payments would not be permitted at all, and instead the provider could include in allowable costs only the costs of ownership. The commenters stated that our proposed rule inappropriately treats all sale and leaseback transactions entered into by hospitals or SNFs as related organization transactions in that it would limit the costs that a provider may include in allowable costs to the costs that were incurred prior to the sale and leaseback (i.e., the costs of ownership). They believe our proposed treatment of sale and leaseback arrangements exceeds Congressional intent by applying the same restrictive regulatory provisions to both transactions involving related organizations and transactions involving organizations that are not related. The commenters believe that our proposal could have a serious and irreversible impact on many contemporary, cost-effective capital financing programs. As an alternative to our proposed rule, one of the commenters suggests that we not apply the proposed rule to transactions involving organizations that are unrelated, including arrangements with capital syndications and real estate investment trusts.

Response: We do not agree. In the conference report that accompanied Public Law 98–369, Congress expressed concern that the limitation on revaluation of assets could be circumvented by certain sale and leaseback arrangements and directed the Secretary to take into account the limitation on the revaluation of assets in determining the reasonableness of lease or rental costs. Specifically, the conference report states:

> The conferees recognize that the limitation on the revaluation of assets acquired by hospital or nursing homes could be circumvented by certain sale/lease-back or sale-rental agreements. The conferees expect that the Secretary will determine the reasonableness of any lease or rental costs involving a depreciable asset which has undergone a change in ownership taking into account the limitation on the revaluation of assets. (H.R. Rep. No. 861, 98th Cong., 2nd Sess. 1339 (1984).)

Moreover, the same conference report explains that the purpose of the revaluation of assets limitation is to prevent Medicare from paying for the same capital asset more than once. In a sale and leaseback arrangement, the asset is sold by the provider and then leased back, often, if not always, at an amount that exceeds the costs of ownership that the provider incurred prior to the sale. If Medicare recognized the full lease amount over the remaining life of the asset, Medicare would be paying more for the same asset solely as a result of the sale and leaseback transaction, contrary to the expressed intent of Congress. By limiting the amount that a hospital or SNF may include in allowable costs after a sale and leaseback to the same amount that was included in allowable costs before the transaction, we are ensuring that Medicare pays for the asset only once. Thus, we believe that the proposed rules do not exceed Congressional intent. Due to the prospective effective date of the rules governing sale and leaseback arrangements, we do not agree that the rules will negatively impact contemporary capital financing arrangements. Rather, by applying the rules prospectively, hospitals and SNFs will have the opportunity to consider the impact of the rules before entering into capital financing arrangements, including capital syndications and real estate investment trusts, that involve sale and leaseback arrangements.

Comment: One commenter believes that in a sale and leaseback situation, if the lessor sells the asset at the end of the lease period, the resultant gain or loss should be used to adjust the aggregate amount that a provider claimed as rental or lease expense over the life of the lease. Proposed §§ 413.130(b)(4) and 413.134(h)(3) provide that the amount a provider may include in its capital-related costs and allowable costs as rental or lease expense may not exceed the amount that the provider would have included in its capital-related costs and allowable costs had the provider retained legal title to the facilities or equipment. The commenter believes that if this adjustment is not made, Medicare payment could be more or less than the provider's original acquisition cost.

Response: We agree with the commenter that absent such an adjustment Medicare payment could be more or less than the provider's original acquisition cost. However, we do not believe that we have the authority to make the recommended adjustment unless the provider and the lessor are related organizations under the provisions of § 413.17. In a sale and leaseback arrangement, when the asset is sold by the provider to the entity that then becomes the lessor, an adjustment is made to the provider's allowable cost for any gain or loss incurred on the sale, in accordance with § 413.134(f), because the provider, having received the proceeds from the sale, incurs the gain or loss. However, if the lessor ultimately sells the asset at the end of the lease period, the lessor receives the proceeds from that subsequent sale, and thus incurs the gain or loss. Because the lessor incurs the gain or loss, rather than the provider, we believe that we should not adjust the provider's allowable costs for this gain or loss, unless, as stated above, the parties are related organizations.

Comment: One commenter stated that the rule should include a "carry forward" provision to provide for situations in which the rent paid in the early years of the lease is greater than the amount of rent allowed as a capital cost under the annual limitation. The commenter suggested the excess rent paid in the early years should be "carried forward" and allowed in any year in which lease cost is less than annual limitation.

Response: We agree with the commenter. Therefore, in this final rule, we explicitly provide that if, in the early years of the lease, the annual rental or lease costs exceed the annual costs of ownership, but in the later years of the lease, the annual rental or lease costs are less than the annual costs of ownership, the provider may carry forward amounts of rental or lease costs that were not included in capital-related costs or allowable costs in the early years of the lease due to the costs of ownership limitation, and include these amounts in capital-related costs or allowable costs in the years of the lease when the annual rental or lease costs are less than the annual costs of ownership. This new language is in §§ 413.130(b)(4)(ii) and 413.134(h)(3)(ii).

Comment: One commenter suggested that the final rule specify that the useful

life of an asset cannot be changed after the sale and leaseback transaction. Otherwise, he suggested, providers could circumvent the annual limitation by shortening the estimated useful life of the asset.

Response: A provider cannot change an asset's useful life after it has been sold because the provider no longer owns it.

D. Lease-purchase Transactions

Comment: Two commenters asserted that HCFA has used the term "program initiative" to expand the definition of when a lease is considered a lease purchase transaction, implying that the proposed revised definition did not come directly from section 2314 of Public Law 98-369. One of these commenters recommended that the costs of ownership under a virtual purchase should be allowed consistent with the costs allowed under a purchase of assets. The other commenter recommended that the final rule clarify the purpose of this new definition, its application, and its potential effects.

Response: The commenters are correct that the revised definition of a lease purchase transaction did not come from section 2314 of Public Law 98-369. Rather, the new definition is based on the criteria used to identify capital lease transactions under generally accepted accounting principles (GAAP), as reflected in the Statement of Financial Accounting Standards Number 13, "Accounting for Leases," (SFAS 13) issued by the Financial Accounting Standards Board. In the proposed rule (52 FR 39932), we inadvertently stated that the change is intended to prevent possible circumvention of the revaluation of assets limitation required by sections 1861(v)(1) and 1902(a)(13) of the Act. We should have characterized the change as a "program initiative" intended to provide a more objective standard for defining a lease purchase transaction and to end the disputes that have arisen under the current definition concerning whether particular lease arrangement constitute lease purchase transactions.

For reasons of consistency with generally accepted accounting principles, providers have urged us to adopt in its entirety the Statement of Financial Accounting Standards Number 13 (SFAS 13) for purposes of accounting for leases under Medicare. We continue to believe that we should not fully adopt SFAS 13 for Medicare payment purposes because SFAS 13 permits methods of accounting for leased assets that are not recognized by Medicare for owned assets. For example, SFAS 13 accounts for capital leases as if the asset were owned and, in so doing, permits the use of accelerated methods of depreciation. Medicare has prohibited the use of most accelerated methods of depreciation for owned assets since August 1, 1970. Therefore, if Medicare were to fully adopt SFAS 13, providers would use accelerated methods of depreciation on certain leased assets that they could not use if the asset were owned outright. We believe that this would create an inappropriate incentive toward leasing. Although we have not fully adopted SFAS 13, we have adopted the same criteria for identifying a lease purchase transaction as SFAS 13 uses for identifying a capital lease. Due to the objective nature of these criteria, their adoption should greatly reduce the number of disputes that have arisen in the past over whether particular leases are lease purchase transactions. This change should also reduce the administrative burden of both providers and fiscal intermediaries because a lease will have to be compared with only one set of criteria to determine whether it is a capital lease under GAAP and whether it is a lease purchase arrangement under Medicare. We will continue to treat the costs incurred under a lease purchase in the same manner as before this change, subject to the limitation on revaluations of assets. That is, we will limit the lease or rent expense to the costs that would have been incurred had the provider purchased the asset outright (that is, the costs of ownership).

Any excess of lease or rental payment over the costs of ownership will be deferred until either of two events occurs: (1) The leased asset is returned to the lessor, in which case the entire deferred amount will be allowed in the year the asset is returned; or (2) the provider obtains legal title to the asset, in which case the deferred amount becomes part of the historical cost of the asset, subject to the limitation on revaluations of assets, and is depreciated over the remaining useful life of the asset. Because we have no data on the number of leases that are considered capital leases for purposes of GAAP, but are currently not considered lease purchase transactions for Medicare purposes, we are unable to predict the impact of this change in the definition of lease purchase transactions.

Comment: One commenter is concerned that the rule computes the present value of the minimum lease payments using the lower of the lessee's incremental borrowing rate or the "lessor's implicit rate." The commenter suggests that the term "lessor's implicit rate" should be replaced with the term "interest rate implicit in the lease" to be consistent with generally accepted accounting principles.

Response: We agree with the commenter. Therefore, we have revised §§ 413.130(b)(8)(iv) and 413.134(h)(6)(iv) accordingly.

Comment: One commenter stated that when a lessee becomes the owner of a leased asset and subsequently sells the asset, requiring imputed depreciation to be included in the gain or loss computation conflicts with generally accepted accounting principles. The commenter recommends adopting SFAS 13 for administrative simplicity.

Response: We do not agree with the commenter. We have already explained our reason for not fully adopting SFAS 13. However, as indicated above, we have adopted SFAS 13 in part, and this partial adoption should make administration of the Medicare program easier.

E. Historical cost

Comment: One commenter is concerned that although the preamble to the proposed rule states that the historical cost will be limited to the fair market value if that value is less than the limitation in § 413.134(b)(1)(ii)(A), the regulations text does not seem to use fair market value as a limit for historical cost. The commenter recommends that, rather than relying exclusively on the general rule defining reasonable cost (§ 413.9(b)(1)) to establish a fair market value limitation, we include an explicit fair market valuation in § 413.134(b)(1)(ii)(A).

Response: Although Congress did not explicitly include a fair market value limitation in section 1861(v)(1)(O) of the Act, we do not believe that Congress intends that the Medicare program pay more than fair market value for an asset. For Medicare to recognize more than the fair market value would be inconsistent with section 1861(v)(1)(A) of the Act, since payments would exceed the cost actually incurred. Therefore, we proposed to apply the regulations at §§ 413.134(g)(4) and 413.9(b)(1), which have as their basis section 1861(v)(1)(A) of the Act, to impose a fair market value limitation in a situation in which the fair market value of the asset is less than the limitation in § 413.134(b)(1)(ii)(A). However, we agree with the commenter that including an explicit fair market value limitation in the regulations is preferable. Thus, we have revised §§ 413.134(b)(1)(ii)(A) and 413.134(g)(3) in this final rule to add the fair market value limitation.

Comment: One commenter is concerned that the proposed rule did not

include the assets of the home office of a nursing facility or hospital. The commenter suggests revising the rule to clarify that it applies to all assets, whether recorded on the books of the provider or the home office. Also, the commenter recommends revising the rule to make clear that the sale or purchase of individual assets is not covered by the proposed rule.

Response: The related organization rules at § 413.17 impose the same general limitations on related organization costs, including those costs of home offices of nursing facilities or hospitals, as are imposed on provider costs. Thus, the provisions of this final rule apply to assets of home offices of hospitals and nursing facilities, as well as other organizations related to hospitals and nursing facilities. Also, we believe that Congress clearly intended that the limitation apply not only to the sale or purchase of groups of assets, but also to the sale or purchase of individual assets.

F. Application to Hospitals or Nursing Facilities for Which Program Payments Have Been Suspended Under § 405.370

Comment: One commenter is concerned that the proposed rule inappropriately limits application of the law to exclude assets of a hospital or nursing facility for which program payments have been suspended under § 405.370. Specifically, the commenter believes that the language in proposed § 413.134(b)(1)(ii)(B), by including in the concept of "an asset not in existence" any asset that physically existed but was not owned by a hospital or nursing facility participating in the Medicare program, would preclude application of the law to assets of hospitals and nursing facilities for which program payment has been suspended under § 405.370.

Response: A hospital or nursing facility for which program payments have been suspended under § 405.370 is, nevertheless, participating in the Medicare program. Therefore, the language in proposed § 413.134(b)(1)(ii)(B) would not exclude the assets of these providers from application of the law.

G. Costs of Land

Comment: One commenter suggested that costs incurred for land be recognized as capital-related costs, and stated that there are a number of decisions by U.S. Courts of Appeals that have determined that there are allowable capital costs related to land. The commenter suggests that to deny that there are capital costs related to land, including land use costs, goes beyond the Congressional intent of sections 1861(v)(1) and 1902(a)(13) of the Act.

Response: The Medicare program has never allowed depreciation expense on land. This is consistent with Generally Accepted Accounting Principles that recognize land as a permanent asset, not subject to physical wear and tear. Although a few courts have allowed amortization of land use costs in cases where the provider's ownership was for a fixed period of time (for example, *Villa View Community Hospital* v. *Heckler*, 720 F.2d 1086 (9th Cir. 1983)), we think those cases are limited to their particular facts. Medicare does recognize certain capital costs related to land. We recognize land rental (or lease) costs, interest expense on the purchase of land, and for those providers entitled to a return on equity capital, we include the cost of land in the return on equity computation. However, we find nothing in the Congressional language of section 1861(v)(1) or 1902(a)(13) of the Act to suggest that Medicare should begin recognizing the depreciation or amortization of land costs.

Comment: One commenter stated that it is inappropriate to deny payment to a hospital for interest expense on debt used to purchase land that is priced at fair market value but is considered excessive based on the historical cost limitation. The commenter argues that because hospitals cannot avoid these costs, some of the financial burden will be shifted to other payors.

Response: We believe that the clear language of section 1861(v)(1)(O)(i) of the Act, "In establishing an appropriate allowance for * * * interest * * * with respect to an asset * * *" leaves us no discretion on this question. Land, although not a depreciable asset, is an asset of a hospital or an SNF. The statute does not limit the application of this provision to "depreciable" assets. Moreover, the prohibition against cost shifting is part of the definition of reasonable costs in section 1861(v)(1)(A) of the Act. Costs in excess of the limitation are unreasonable costs, and, as such, are not subject to the prohibition against cost shifting.

Comment: One commenter stated that the proposed rule is not clear as to whether leasing costs incurred on land would be considered payable. The commenter urged that the rule be clarified to state that the cost of leasing land from an unrelated party would be paid under a straight lease transaction.

Response: We agree with the commenter and have revised the language at § 413.130(b)(1) accordingly.

H. Costs Attributable to the Negotiation or Settlement

Comment: One commenter suggests that the term "for which any payment" in proposed § 413.134(b)(1)(ii)(G) should be revised to read "for which a particular type or category of payment" because Congress intended that each type or category of these costs (for example, legal fees, accounting and administrative costs, travel costs, feasibility study costs) be viewed individually. For example, the result of such an interpretation would be the following: If in a prior sale of a particular asset, the purchaser incurred, and consequently Medicare paid a share of, only legal fees and accounting costs, and in a subsequent sale of the same asset, the subsequent purchaser incurs feasibility study costs, Medicare should share in the costs of the feasibility study because this type of cost was not paid by Medicare previously.

Response: Section 1861(v)(1)(O)(iii) of the Act treats these negotiation and settlement costs as a homogeneous group. It states that the regulations "shall not recognize, as reasonable in the provision of health care services, costs * * * attributable to the negotiation or settlement of the sale or purchase of any capital asset (by acquisition or merger) for which any payment has previously been made under this title." We interpret this language to mean that if Medicare has previously paid for any of these costs, then no costs in this category will be recognized as reasonable. Therefore, we believe that excluding all subsequent negotiation or settlement costs, even if only one type was previously paid, is consistent with Congressional intent.

Comment: The commenter further believes that § 413.134(b)(1)(ii)(G) should be revised to allow payment for an appraisal if Medicare requires the appraisal for properly determining payment.

Response: We agree with the commenter and have revised § 413.134(b)(1)(ii)(G) accordingly.

Comment: One commenter believes that the proposed rule should provide examples of the type of administrative and accounting costs that are considered costs of negotiating and settling the sale and, thus, are not payable by Medicare. These costs are usually recorded as overhead costs and are not normally associated with a specific function.

Response: The proposed rule excludes from the historical cost of an asset the accounting and administrative costs attributable to the negotiation and

settlement of a sale or purchase. The very act of recording certain accounting and administrative costs as overhead (that is, as operating costs instead of as capital costs) excludes these costs from the historical cost of the asset. However, whether the costs are recorded as general overhead or as an element of the historical cost of the asset, these costs are not considered reasonable Medicare costs if they have been paid for previously under Medicare.

Comment: One commenter suggested that if part of a feasibility study addresses the sale or purchase of a facility, the cost of the study should be allocated between allowable and nonallowable cost. The commenter recommended that the regulations should specifically provide a mechanism for this allocation.

Response: We agree with the commenter that an allocation must be made in these cases, and we will include an allocation method in the program instructions.

Comment: One commenter pointed out that section 1861(v)(1)(O)(iii) of the Act uses the parenthetical phrase "(acquisition or merger)" to modify the phrase "sale or purchase of any capital asset", but the proposed rule has substituted the phrase "merger or consolidation" for the phrase "acquisition or merger." The commenter suggested that the final rule should use the statutory language or explain the difference in meaning between the language in regulations and the language in section 1861(v)(1)(O)(iii) of the Act.

Response: We agree with the commenter. Therefore, we will modify § 413.134(b)(1)(ii)(G) to read "acquisition, merger, or consolidation." This will not be inconsistent with the statutory language because consolidation is a form of acquisition; however, it will be more descriptive of the types of transactions applicable under this section of the regulations.

I. Hospital Based Providers Other Than SNFs

Comment: One commenter recommended that the final rule prescribe the method of allocation to be used for hospital-based providers other than SNFs.

Response: We do not currently specify a method of allocation (although the cost reporting forms "recommend" square feet), and we believe providers are better served if we continue the current flexibility. In general, this allocation is made on the basis of square feet, consistent with other space-related costs.

Comment: One commenter would like the title and text of § 413.134(b)(1)(iii), which concerns the hospital-based providers other than SNFs, to be revised to recognize SNF-based providers.

Response: We agree with the commenter and have revised the language accordingly.

J. Useful Life of Assets

Comment: One commenter stated that the proposed rule does not include a provision governing the useful life of the assets after a purchase and that a logical assumption would be to use the prior owner's remaining useful life. The commenter recommends including in regulations at § 413.134(b)(7) language similar to that set forth in the fifth paragraph of section 104.17 of the Provider Reimbursement Manual (HCFA Pub. 15–1), which states that a different useful life may be approved by the intermediary if the provider's request is properly supported by acceptable factors which affect the determination of useful life.

Response: Regulations at § 413.134(b)(7) comprise essentially the same language in section 104.17 of the Provider Reimbursement Manual. Thus, we do not believe that any purpose would be served by revising § 413.134(b)(7) at this time. Published useful life guidelines do not exist for used assets (which are the subject of this final rule). However, a logical starting point in establishing a useful life for a used asset is the original estimated useful life modified by those factors described in the regulations at § 413.134(b)(7). This is the approach we described in the preamble to the October 26, 1987 proposed rule.

K. Gains and Losses

Comment: Two commenters stated that the "program initiative" to clarify that a gain or loss incurred upon disposition of a depreciable asset has no retroactive effect on the prior year's equity capital should be applied prospectively. The commenters believe that to apply this change retroactively would violate the Administrative Procedure Act. They further stated that it is inconsistent to recapture a gain from a prior year's depreciation and not recompute the equity capital. The commenters suggested that this policy is both incongruous and unreasonable.

Response: As explained in the proposed rule, we are amending the regulations to codify our longstanding policy that a gain or loss on the disposal of depreciable assets has no effect on a proprietary provider's equity capital for years prior to the year of disposition. This policy has been in effect since the beginning of the Medicare program. In 1984, to clear up a misunderstanding of this policy, we issued a clarification to section 130 of the Provider Reimbursement Manual that included the same language that we are now codifying in the regulations. Since we are merely restating this longstanding policy in the regulations, we are not required to give it only prospective effect.

In addition, we do not agree that this policy is unreasonable. The basis for the policy is that a gain or loss does not exist until the year of disposal, and therefore cannot be taken into account in the computation of equity capital for prior years. This policy was recently upheld by the U.S. District Court for the District of Columbia in *Hassler Nursing Center* v. *Sullivan* (New Developments), Medicare and Medicaid Guide (CCH) paragraph 39,631 (D.D.C. Oct. 10, 1991). We continue to believe that it is reasonable.

Comment: One commenter asserted that the rules regarding recapture of depreciation should be revised to reflect the decision of the U.S. District Court for the Middle District of Florida in *Mercy Community Hospital* v. *Heckler* (1988 Transfer Binder), Medicare and Medicaid Guide (CCH) paragraph 36,716 (M.D. Fla. Nov. 24, 1987). That is, the commenter believes that Medicare should seek to recapture depreciation only to the extent that the depreciation claimed did not reflect actual consumption of assets used for patient care. The commenter believes that Medicare should exclude recapture of depreciation if the gain results from inflation or supply and demand characteristics.

Response: The decision cited resulted from remand in the case of *Mercy Community Hospital* v. *Heckler*, 781 F. 2d 1552 (11th Cir. 1986). However, we believe that a more recent decision of the United States Court of Appeals for the First Circuit, *Hoodkroft Convalescent Center* v. *the State of New Hampshire, Division of Human Resources, 879 F. 2d 968 (1st Cir. 1989), cert. denied* 110 S. Ct. 729 (1990), affirms our methodology with respect to adjusting for gains and losses. The First Circuit recognized that the approach urged by the commenters, in which Medicare would attempt to distinguish between gain attributable to less than expected wear-and-tear and gain attributable to inflation and various market factors, would pose substantial administrative problems. The *Hoodkroft* decision was recently followed by the U.S. District Court for the District of Columbia in *Whitecliff, Inc.* v. *Sullivan*

(New Developments), Medicare and Medicaid Guide (CCH) paragraph 39,630 (D.D.C. Oct. 10, 1991).

Section 1861(v)(1)(O)(ii) of the Act requires that our regulations provide for recapture of depreciation in the same manner as provided under the regulations in effect on June 1, 1984. The *Hoodkroft* and *Whitecliff* decisions affirm our policy in effect on June 1, 1984. Accordingly, we believe the statute authorizes continuation of the current method of adjusting for gains and losses.

L. Medicaid Comments

Comment: One commenter asked that the term "solely" (as used in the phrase in § 447.253 "* * solely as a result of a change in ownership * * *") be defined.

Response: The use of the term "solely" is meant to apply the limit in increases in the valuation of assets only to those increases that are a direct result of a change of ownership. Increases resulting from other factors, such as an annual inflation adjustment applied to the rate, are not included under this term.

If a State's methodology provides for an increase in the valuation of an asset that is neutral with regard to changes of ownership, the increase in the valuation of the asset would not be limited by these provisions. When HCFA incorporates this provision into the State Medicaid Manual, this definition will be included.

Comment: One commenter asked that we specify in a regulation that fair rental value systems are excluded from limitation on the revaluation of assets.

Response: Sections 1902(a)(13) (B) and (C) of the Act require a State to submit an assurance regarding compliance with the limit on the revaluation of assets if there has been a change in ownership. Neither provision provides for an exception to this assurance requirement if a State has adopted a fair rental value system for the payment of capital costs.

These provisions only limit increases that result from a change in ownership. Therefore, in determining whether a State plan methodology is consistent with the statutory requirements, only increases in capital cost payment that have resulted from a change in ownership are subject to this limit. Thus, a State is still required to provide the required revaluation of asset assurance, even though it may be using a fair rental value methodology.

Comment: One commenter recommended that the new provisions in § 447.253 be moved to another location in the regulations to avoid confusion.

Response: These new provisions require that an assurance be submitted by a State regarding the revaluation of assets. This requirement adds another assurance to the existing list of assurances that a State must submit to HCFA before a plan amendment can be approved. The existing assurances are specified in the regulations at § 447.253. Therefore, it is appropriate to incorporate the newest assurance in the same section.

Comment: One commenter wants the final rule to specify that Medicaid capital cost payment for providers that have changed ownership on or after October 1, 1985, is no longer subject to the Medicare upper payment limit rule under § 447.253(b)(2).

Response: Prior to October 1, 1984, the only upper payment limit on Medicaid payment to nursing homes was the Medicare upper payment limit, as specified at § 447.253(b)(2). This limit was not applied to any individual cost item but rather was applied in the aggregate to payments made to long-term care facilities. Section 2314 of Public Law 98–369 established an additional limit for increases in payments for capital costs that result from a revaluation of assets due to a change in ownership.

The intent of Congress in enacting this provision was not to liberalize payment for capital costs for Medicaid providers; rather, the intent was to add an additional limit on a specific cost item. The Conference Report that accompanied Public Law 98–369 (H.R. Rep. No. 861, 98th Cong., 2nd Sess. 1339 (1984)) explains that Congress wished to prohibit artificial increases in capital costs that are due solely to a change in ownership.

In section 1902(a)(13)(C) of the Act as enacted effective October 1, 1985 by section 9509 of Public Law 99–272, Congress intended to allow partial recognition of increases in the valuation of assets limited to one-half of the percentage increase in a specified inflation index. The legislative history of this provision does not support an interpretation that Congress intended to remove capital costs from all of the prior limits. Rather, it is our belief that the purpose of Congress in adding section 1902(a)(13)(C) of the Act was to replace the stringent Medicaid limit required by section 2314 of Public Law 98–369 with a provision that would allow for a limited upward revaluation of assets when there has been a change in ownership. Again, we believe it important to emphasize that the revaluation of asset assurance pertaining to changes of ownership is an additional requirement, separate and distinct from the Medicare upper payment limit requirement described in § 447.253(b)(2).

IV. Regulatory Impact Analysis

A. Executive Order 12291 and Regulatory Flexibility Act

Executive Order (E.O.) 12291 requires us to prepare and publish a regulatory impact analysis for any final rule that meets one of the E.O. criteria for a "major" rule"; that is, that will be likely to result in:

- An annual effect on the economy of $100 million or more;
- A major increase in costs or prices for consumers, individual industries, Federal, State or local Government agencies, or any geographic regions; or
- Significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States—based enterprises to compete in domestic or export markets.

In addition, we generally prepare a regulatory flexibility analysis that is consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612), unless the Secretary certifies that a final rule will not have a significant economic impact on a substantial number of small entities. This final rule will affect hospitals and skilled nursing facilities under the Medicare program and hospitals, nursing facilities, and intermediate care facilities for the mentally retarded under the Medicaid program. For purposes of the RFA, we consider all of these provisions to be small entities.

This final rule revises the Medicare and Medicaid regulations that are affected by section 2314 of Public Law 98–369, enacted on July 18, 1984, and sections 9110 and 9509 of Public Law 99–272, enacted on April 7, 1986. This rule describes new limitations on the valuation of assets acquired as the result of changes in ownership occurring on or after July 18, 1984.

The statutory changes were largely self-implementing and have already created significant savings for the Medicare and Medicaid programs, starting in 1984. These regulations will create little incremental effect. The only consequential new effect will arise from provisions concerning lease purchase agreements entered into after the regulations become effective. We do not believe that a substantial savings will result from this, or that many such transactions will be significantly affected. Therefore, we certify that this final rule will not have a significant effect on a substantial number of small entities. However, we have prepared the following analysis covering the impact of the above statutory provisions and the final rule, taken together.

In the period beginning September 1, 1989 and ending March 31, 1991, there have been the following changes of ownership of active providers by facility type:

TABLE I.—CHANGES OF OWNERSHIP OF ACTIVE PROVIDERS BY FACILITY TYPE

[September 1, 1989 to March 31, 1991]

	Total No. of facilities	No. of facilities with changes of ownership
SNFs		
Medicare	723	15
Medicare/Medicaid	8,709	661
NFs (Medicaid only)	6,394	395
ICFs/MR (Medicaid only)	5,800	136
Hospitals (Medicare or Medicare/Medicaid	6,531	162

1. Background

Since the beginning of the Medicare and Medicaid programs, providers increasingly have been involved in mergers and acquisitions. These transactions have involved both chain organizations and single facilities. Under current payment rules, mergers and acquisitions most often result in increased levels of Medicare and Medicaid payments. This occurs because the acquiring entity usually pays more for the acquired assets than the amount at which they are carried on the records of the prior owner. This higher amount, then, becomes the basis upon which Medicare and Medicaid payments are determined. There has been a justified concern that the Medicare and Medicaid programs are paying more for the same assets, solely as a result of changes in ownership, with no concurrent increase in patient care. The changes in this final rule are intended to promote economy in these programs. We have also gathered information on several of the recent major multifacility acquisitions. We are examining this information to determine the potential consequences of these mergers and acquisitions on Medicare and Medicaid program costs.

Effective October 1, 1991, the Medicare payment methodology for inpatient capital-related costs for hospitals paid under the prospective payment system has been revised (56 FR 43196). A prospective payment methodology has replaced the reasonable cost-based payment methodology for capital-related costs. However, SNFs are still paid for their patient-care-related capital costs on a reasonable cost basis; that is, for SNFs, Medicare generally pays the percentage of capital costs that reflect the ratio of Medicare utilization to total utilization.

Available data indicate a great variation among hospitals in terms of the ratio of capital costs to total operating costs. For about one quarter of the hospitals, capital costs are less than 4 percent of operating costs. Slightly over one half of the hospitals claim capital costs between 4 and 10 percent. The remaining number of hospitals have capital cost to operating cost ratios of between 10 and 20 percent.

Currently, under Medicaid, States have broad discretion in designing payment methods and standards for hospital, nursing facility, and ICF/MR services. States have used that discretion to implement a wide variety of payment methodologies and policies to account for providers' capital expenditures. Only a few States reference and adopt Medicare principles in accounting for capital costs for long-term care payment. Some States have established their own limits on payment of these costs. Due to this variation in State practices and the absence of data about Medicaid capital expenditures, we are not able to estimate current Federal or State Medicaid expenditures for capital expenses.

2. Effect on Providers

It is clear that Congress intends to limit upward revaluations of assets upon a change of ownership of a hospital, SNF, nursing facility or an ICF/MR. Thus, these entities are affected by these provisions in several ways.

Since the enactment of section 2314 of Public Law 98–369, we have not been made aware of any evidence that would suggest that these provisions would have a significant effect on provider decisions regarding mergers and acquisitions. Mergers and acquisitions evolve from a pro-merger environment that is caused by factors such as excess bed capacity, new technologies, and changes in social demographics (for example, changes in the composition of the service area's population that, in turn, would affect utilization and have an effect on revenues). Consequently, the hospital and long-term care facility industries have been restructuring themselves primarily to take advantage of the current pro-merger environment.

Economics is often the driving force in mergers and acquisitions. For many providers facing financial difficulties and looking for sources of funding for the needs of operations and capital formation, mergers and acquisitions offer an attractive alternative to prolonged financial difficulty. Thus, we believe that factors like tax incentives, increased buying power, and market entry initiatives for corporate expansion, which were not affected by section 2314 of Public Law 98–369 and will not be affected by this final rule, have and will continue to offset in good measure any disincentives that might be created with respect to decisions to merge or acquire. Therefore, on balance, we believe that neither section 2314 of Public Law 98–369 nor this final rule will inhibit current levels of merger or acquisition activities.

However, providers have been and will continue to be affected by the reduction of Medicare and Medicaid payment for capital expenses as a result of the enactment of section 2314 of Public Law 98–369. We are not able to estimate the effect this provision has had or will have on Medicare payments to providers because we do not have data that would indicate the number of transactions involving revaluations of assets that have been affected by section 2314 of Public Law 98–369, nor do we have data that estimate the number of future transactions that will be affected by the provisions of the legislation in this final rule. Absent this information, we could not predict the value of the transactions, with the result that information concerning the original cost of each acquisition to determine depreciation costs is not available. Therefore, a detailed analysis of the effect of this final rule on the Medicare and Medicaid program expenditures is not possible at this time. Nonetheless, despite this limitation, program experience allows us to analyze and rank the potential effects of several of the key provisions of this rule, as follows:

a. *Depreciation and interest expense.* These provisions have had and will continue to have the most significant effect on the Medicare and Medicaid programs. Our experience indicates that many provider acquisitions are for amounts as much as two to five times the cost to the previous owner, who may not have been the owner of record under the proposed historical cost definitions. Eliminating the upward revaluation of assets in these acquisitions maintains a level historical cost basis for purposes of computing depreciation and interest expense. This change, coupled with the exclusion of costs attributable to the negotiation or settlement of the purchase or sale of any capital asset for which any Medicare payment has previously been made, has resulted and will continue to result in significant savings.

b. *Sale and leaseback arrangements and lease purchase transactions.* We believe that these provisions rank second in terms of potential program savings and could affect many providers. The provisions effecting sale and leaseback arrangements will avoid possible provider circumvention of the revaluation of assets limit that restricts payment of patient-care-related capital costs. Beginning with the effective date of this final rule, October 23, 1992, we are limiting allowable costs under all sale and leaseback arrangements entered into by hospitals and SNFs to the amount the provider would have included in its allowable costs had the provider retained legal title to the facilities or equipment. Also, as a program initiative not related to section 2314 of Public Law 98–369, we are implementing new criteria for defining lease purchase agreements. In addition, we explain that the limitation on adjustments to depreciation for the purpose of determining any gain or loss upon the disposal of lease purchase assets includes any amount considered as depreciation for the purpose of computing the limitation on allowable rental costs. It is our belief that savings will increase under these provisions.

c. *Return on equity capital of proprietary SNFs.* Nonprofit providers and proprietary providers other than SNFs are not subject to the return on equity changes, and, therefore, will not be affected by them. However, with respect to proprietary SNFs, limiting the historical cost of assets by prohibiting upward revaluations of assets has reduced the basis of the assets used in the computation of the return on equity capital. Moreover, we are continuing our existing policy that any loan, or portion thereof, that is made to finance the excess of the total acquisition cost over the allowable acquisition cost of a facility, or of any tangible assets of a facility, would be excluded from the equity capital computation, because such excess is not considered related to patient care. Thus, we are not paying for the increased financial liability incurred by proprietary SNFs in their mergers and acquisitions of other facilities and assets.

3. Medicaid Provisions

We do not have a basis on which to estimate or rank the effect of the Medicaid provisions. Most States have initiated a variety of actions to control provider payment, including payment for capital costs. We believe there will be Federal and State savings resulting from these actions, but due to the variation in State practices, and because of the absence of good data about the effect of State payment policies, we cannot estimate the budgetary effect on the Medicaid program.

B. Rural Hospital Impact Statement

Section 1102(b) of the Act requires the Secretary to prepare a regulatory impact analysis if a final rule may have a significant impact on the operations of a substantial number of small rural hospitals. Such an analysis must conform to the provisions of section 604 of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612). For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital with fewer than 50 beds located outside of a Metropolitan Statistical Area.

We are not preparing a rural hospital impact statement since we have determined, and the Secretary certifies, that this final rule will not have a significant economic impact on the operations of a substantial number of small rural hospitals.

C. Summary

In summary, we expect that this final rule, by limiting upward revaluations of assets upon a change of ownership of a hospital, SNF, nursing facility, or ICF/MR, will promote economy in the Medicare and Medicaid programs. Many of these policies are already in effect; the regulations text is merely being conformed to them. We have noted our limitations in estimating the effect of this final rule, but we are certain that both Medicare and Medicaid program savings will result from the implementation of this final rule. Further, the effect on hospitals in the Medicare program would be limited because the new prospective payment system for capital related costs is in effect for cost reporting periods beginning on or after October 1, 1991.

V. Other Required Information

Paperwork Reduction Act

Regulations at § 447.253(a) refer to § 447.255, which contains information collection requirements that are subject to review by the Office of Management and Budget under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). The information collection requirements concern the revaluation of assets assurance required by sections 1902(a)(13)(B) and (C) of the Act. The respondents who will provide the information include Medicaid State agencies. Public reporting burden for this collection of information is estimated to be no more than one hour per State plan amendment. Organizations and individuals desiring to submit comments on the information collection requirements should direct them to the OMB official whose name appears in the "ADDRESS" section of this preamble.

List of Subjects

42 CFR Part 413

Health facilities, Kidney diseases, Medicare, Reporting and recordkeeping requirements.

42 CFR Part 447

Accounting, Clinics, Contracts (Agreements), Copayments, Drugs, Grant-in-Aid Program—Health, Health facilities, Health professions, Hospitals, Medicaid, Nursing homes, Payments for services: General, Payments: Timely claims, Reimbursement, Rural areas.

42 CFR chapter IV is amended as set forth below:

PART 413—PRINCIPLES OF REASONABLE COST REIMBURSEMENT; PAYMENT FOR END-STAGE RENAL DISEASE SERVICES

A. The authority citation for part 413 continues to read as follows:

Authority: Sec. 1102, 1814(b), 1815, 1833 (a), (i) and (n), 1861(v), 1871, 1881, 1883, and 1886, of the Social Security Act (42 U.S.C. 1302, 1395f(b), 1395g, 1395l (a), (i), and (n), 1395x(v), 1395hh, 1395rr, 1395tt, and 1395ww); sec. 104(c) of Pub. L. 100–360 as amended by sec. 608(d)(3) of Pub. L. 100–485 (42 U.S.C. 1395ww (note)); and sec. 101(c) of Pub. L. 101–234 (42 U.S.C. 1395ww (note)).

B. Part 413, subpart G is amended as follows:

Subpart G—Capital-Related Costs

1. In § 413.130, paragraphs (b)(1) and (b)(2) are revised; paragraphs (b)(4), (b)(5), and (b)(6) are redesignated as paragraphs (b)(5), (b)(6), and (b)(7) respectively; new paragraph (b)(4) is added; newly redesignated paragraph (b)(5) is revised; newly redesignated paragraph (b)(6)(i) is amended by revising the cross reference "(b)(4)" to read "(b)(5)"; and new paragraphs (b)(8) and (b)(9) are added to read as follows:

§ 413.130 Introduction to capital-related costs.

* * * * *

(b) *Leases and rentals.*

(1) Subject to the qualifications of paragraphs (b) (2), (4), (5), and (8) of this section, leases and rentals, including licenses and royalty fees, are includable in capital-related costs if they relate to the use of assets that would be depreciable if the provider owned them outright or they relate to land, which is neither depreciable nor amortizable if

owned outright. The terms *"leases"* and *"rentals of assets"* signify that a provider has possession, use, and enjoyment of the assets.

(2) For sale and leaseback agreements for hospitals and SNFs entered into before October 23, 1992 and for sale and leaseback agreements for other providers entered into at any time, a provider may include incurred rental charges in its capital-related costs, as specified in a sale and leaseback agreement with a nonrelated purchaser (including shared service organizations not related within the meaning of § 413.17) involving plant facilities or equipment only if the following conditions are met:

(i) The rental charges are reasonable based on the following—

(A) Consideration of rental charges of comparable facilities and market conditions in the area;

(B) The type, expected life, condition, and value of the facilities or equipment rented; and

(C) Other provisions of the rental agreements.

(ii) Adequate alternative facilities or equipment that would serve the purpose are not or were not available at lower cost.

(iii) The leasing was based on economic and technical considerations.

* * * * *

(4) For sale and leaseback agreements for hospitals and SNFs entered into on or after October 23, 1992, the amount a provider may include in its capital-related costs as rental or lease expense may not exceed the amount that the provider would have included in capital-related costs had the provider retained legal title to the facilities or equipment, such as interest expense on mortgages, taxes, depreciation, and insurance costs (the costs of ownership). This limitation applies both on an annual basis and over the useful life of the asset.

(i) If in the early years of the lease, the annual rental or lease costs are less than the annual costs of ownership, but in the later years of the lease the annual rental or lease costs are more than the annual costs of ownership, in the years that the annual rental or lease costs are more than the annual costs of ownership, the provider may include in capital-related costs annually the actual amount of rental or lease costs. The aggregate rental or lease costs included in capital-related costs may not exceed the aggregate costs of ownership that would have been included in capital-related costs over the useful life of the asset had the provider retained legal title to the asset.

(ii) If in the early years of the lease, the annual rental or lease costs exceed the annual costs of ownership, but in the later years of the lease the annual rental or lease costs are less than the annual costs of ownership, the provider may carry forward amounts of rental or lease costs that were not included in capital-related costs in the early years of the lease due to the costs of ownership limitation, and include these amounts in capital-related costs in the years of the lease when the annual rental or lease costs are less than the annual costs of ownership.

(iii) In any given year the amount of actual annual rental or lease costs plus the amount carried forward to that year may not exceed the amount of the costs of ownership for that year.

(iv) In the aggregate, the amount of rental or lease costs included in capital-related costs may not exceed the amount of the costs of ownership that the provider could have included in capital-related costs had the provider retained legal title to the asset.

(5) For lease purchase transactions entered into before October 23, 1992, a lease that meets the following conditions establishes a virtual purchase:

(i) The rental charge exceeds rental charges of comparable facilities or equipment in the area.

(ii) The term of the lease is less than the useful life of the facilities or equipment.

(iii) The provider has the option to renew the lease at a significantly reduced rental, or the provider has the right to purchase the facilities or equipment at a price that appears to be significantly less than what the fair market value of the facilities or equipment would be at the time acquisition by the provider is permitted.

* * * * *

(8) For lease purchase transactions entered into on or after October 23, 1992, a lease that meets any one of the following conditions establishes a virtual purchase:

(i) The lease transfers title of the facilities or equipment to the lessee during the lease term.

(ii) The lease contains a bargain purchase option.

(iii) The lease term is at least 75 percent of the useful life of the facilities or equipment. This provision is not applicable if the lease begins in the last 25 percent of the useful life of the facilities or equipment.

(iv) The present value of the minimum lease payments (payments to be made during the lease term including bargain purchase option, guaranteed residual value, and penalties for failure to renew) equals at least 90 percent of the fair market value of the leased property. This provision is not applicable if the lease begins in the last 25 percent of the useful life of the facilities or equipment. Present value is computed using the lessee's incremental borrowing rate, unless the interest rate implicit in the lease is known and is less than the lessee's incremental borrowing rate, in which case the interest rate implicit in the lease is used.

(9)(i) If a lease establishes a virtual purchase under paragraph (b)(8) of this section, the rental charge is includable in capital-related costs to the extent that it does not exceed the amount that the provider would have included in capital-related costs if it had legal title to the asset (the cost of ownership). The cost of ownership includes straight-line depreciation, insurance, and interest. For purposes of computing the limitation on allowable rental cost in this paragraph, a provider may not include accelerated depreciation.

(ii) The difference between the amount of rent paid and the amount of rent allowed as capital-related costs is considered a deferred charge and is capitalized as part of the historical cost of the asset when the asset is purchased.

(iii) If an asset is returned to the owner instead of being purchased, the deferred charge may be included in capital-related costs in the year the asset is returned.

(iv) If the term of the lease is extended for an additional period of time at a reduced lease cost and the option to purchase still exists, the deferred charge may be included in capital-related costs to the extent of increasing the reduced rental to an amount not in excess of the cost of ownership.

(v) If the term of the lease is extended for an additional period of time at a reduced lease cost and the option to purchase no longer exists, the deferred charge may be included in capital-related costs to the extent of increasing the reduced rental to a fair rental value.

(vi) If the lessee becomes the owner of the leased asset (either by operation of the lease or by other means), the amount considered as depreciation, for the purpose of having computed the limitation on rental charges in paragraph (b)(9)(i) of this section, must be used in calculating the limitation on adjustments for the purpose of determining any gain or loss under § 413.134(f) upon disposal of an asset.

* * * * *

2. In § 413.134, the introductory text of paragraph (a) is republished; paragraph (a)(2), the heading of paragraph (b), and

paragraph (b)(1) are revised; new paragraphs (b)(8) and (b)(9) are added; paragraphs (f)(1), (f)(4) and (g)(2) are revised; paragraph (g)(3) is redesignated as (g)(4) and revised; a new paragraph (g)(3) is added; newly redesignated paragraph (g)(4) is revised; current paragraphs (h) through (k) are redesignated as paragraphs (i) through (l), respectively; a new paragraph (h) is added; and newly redesignated paragraph (j) is revised to read as follows:

§ 413.134 Depreciation: Allowance for depreciation based on asset costs.

(a) *Principle.* An appropriate allowance for depreciation on buildings and equipment used in the provision of patient care is an allowable cost. The depreciation must be—

* * * * *

(2) Based on the historical cost of the asset, except as specified in paragraph (j) of this section regarding donated assets; and

* * * * *

(b) *General rules.*—(1) Historical cost. Historical cost is the cost incurred by the present owner in acquiring the asset.

(i) *All providers.* For depreciable assets acquired after July 31, 1970, and for a hospital or a SNF, acquired before July 18, 1984, the historical cost may not exceed the lower of current reproduction cost adjusted for straight-line depreciation over the life of the asset to the time of the purchase or the fair market value of the asset at the time of its purchase.

(ii) *Hospitals and SNFs only.* (A) For assets acquired on or after July 18, 1984 and not subject to an enforceable agreement entered into before that date, historical cost may not exceed the lowest of the following:

(*1*) The allowable acquisition cost of the asset to the owner of record as of July 18, 1984 (or, in the case of an asset not in existence as of July 18, 1984, the first owner of record of the asset after that date);

(*2*) The acquisition cost of the asset to the new owner; or

(*3*) The fair market value of the asset on the date of acquisition.

(B) For purposes of applying paragraph (b)(1)(ii)(A) of this section, an asset not in existence as of July 18, 1984 includes any asset that physically existed, but was not owned by a hospital or SNF participating in the Medicare program as of July 18, 1984.

(C) The acquisition cost to the owner of record is subject to any limitation on historical costs described in paragraphs (b)(1)(i) or (g)(1) and (2) of this section, and is not reduced by any depreciation taken by the owner of record. This limitation on historical cost is also applied to the purchase of land, a capital asset that is neither depreciable nor amortizable under any circumstances. (See §§ 413.153(d) and 413.157(b) for application of the limitation to the cost of land for purposes of determining allowable interest expense and return on equity capital or proprietary providers.)

(D) Acquisition cost to the owner of record includes the costs of betterments or improvements that extend the estimated useful life of an asset at least two years beyond its original estimated useful life or increase the productivity of an asset significantly over its original productivity.

(E) For assets acquired prior to a hospital's or SNF's entrance into the Medicare program, the acquisition cost to the owner of record is the historical cost of the asset when acquired, rather than when the hospital or SNF entered the program.

(F) For assets subject to the optional depreciation allowance as described in § 413.139, the acquisition cost to the owner of record is the historical cost established for those assets when the hospital or SNF changed to actual depreciation as described in § 413.139(e). If the hospital or SNF did not change to actual depreciation, as described in § 413.139(e), for optional allowance assets, the acquisition cost to the owner of record is established by reference to the hospital's or SNF's recorded historical cost of the asset when acquired. If the hospital or SNF has no historical cost records for optional allowance assets, the acquisition cost to the owner of record is established by appraisal.

(G) The historical cost of an asset acquired on or after July 18, 1984 may not include costs attributable to the negotiation or settlement of the sale or purchase (by acquisition, merger, or consolidation) of any capital asset for which any payment was previously made under the Medicare program. The costs to be excluded include, but are not limited to, appraisal costs (except those incurred at the request of the intermediary under paragraph (f)(2)(iv) of this section), legal fees, accounting and administrative costs, travel costs, and the costs of feasibility studies.

(iii) *Hospital-based providers other than SNFs and SNF-based providers.* For changes of ownership that involve assets of a hospital-based provider other than a SNF, or assets of a SNF-based provider, the provisions of paragraph (b)(1)(ii) of this section are not applicable. A reasonable allocation of the purchase price must be made, so that the hospital-based provider other than a SNF, or a SNF-based provider, is not affected by the limitations described in paragraph (b)(1)(ii) of this section. The historical cost of assets of providers other than hospitals and SNFs is governed by paragraph (b)(1)(i) of this section.

* * * * *

(8) *Donated asset.* An asset is considered donated when the provider acquires the asset without making payment in the form of cash, new debt, assumed debt, property or services. Exempt as provided in paragraph (j)(*3*) of this section, if a provider makes payment in any form to acquire an asset, the payment is considered the purchase price for the purpose of determining allowable historical cost.

(9) *Net book value.* The net book value of an asset is the depreciable basis used for the Medicare program by the asset's last participating owner less depreciation recognized under the Medicare program.

* * * * *

(f) *Gains and losses on disposal of assets—(1) General.* Depreciable assets may be disposed of through sale, scrapping, trade-in, exchange, demolition, abandonment, condemnation, fire, theft, or other casualty. If disposal of a depreciable asset results in a gain or loss, an adjustment is necessary in the provider's allowable cost. The amount of a gain included in the determination of allowable cost is limited to the amount of depreciation previously included in Medicare allowable costs. The amount of a loss to be included is limited to the undepreciated basis of the asset permitted under the program. The treatment of the gain or loss depends upon the manner of disposition of the asset, as specified in paragraphs (f) (2) through (6) of this section. The gain or loss on the disposition of depreciable assets has no retroactive effect on a proprietary provider's equity capital for years prior to the year of disposition.

* * * * *

(4) *Exchange, trade-in or donation.* Gains or losses realized from the exchange, trade-in, or donation of depreciable assets are not included in the determination of allowable cost. When the disposition of an asset is by means of exchange, trade-in, or donation, the historical cost of the new asset is the sum of the undepreciated cost of the asset disposed of and the additional cash or other assets transferred (or to be transferred) to acquire the new asset. However, if the asset disposed of was acquired by the provider before its participation in the

Medicare program and the sum of the undepreciated cost and the cash or other assets transferred (or to be transferred) exceed the list price or fair market value of the new asset, the historical cost of the new asset is limited to the lower of its list price or fair market value.

* * * * * *

(g) *Establishment of cost basis on purchase of facility as an ongoing operation.* * * *

(2) *Assets acquired after July 31, 1970 and, for hospitals and SNFs, before July 18, 1984.*

For depreciable assets acquired after July 31, 1970 and, for hospitals and SNFs, before July 18, 1984, in addition to the limitations specified in paragraph (g)(1) of this section, the cost basis of the depreciable assets may not exceed the current reproduction cost depreciated on a straight-line basis over the life of the asset to the time of the sale.

(3) *Assets acquired by hospitals and SNFs on or after July 18, 1984 and not subject to an enforceable agreement entered into before that date.*

Subject to paragraphs (b)(1)(ii) (B) through (G) and (b)(1)(iii) of this section, historical cost may not exceed the lowest of the following:

(i) The allowable acquisition cost of the asset to the owner of record as of July 18, 1984 (or, in the case of an asset not in existence as of July 18, 1984, the first owner of record of the asset);

(ii) The acquisition cost to the new owner; or

(iii) The fair market value of the asset on the date of acquisition.

(4) *Transactions other than bona fide.* If the purchaser cannot demonstrate that the sale was bona fide, in addition to the limitations specified in paragraph (g)(1), (2), and (3) of this section, the purchaser's cost basis may not exceed the seller's cost basis, less accumulated depreciation.

(h) *Sale and leaseback agreements and other lease transactions.* (1) For sale and leaseback agreements for all providers, and for sale and leaseback agreements for hospitals and SNFs entered into before October 23, 1992, a provider may include in its allowable costs incurred rental charges, as specified in a sale and leaseback agreement with a nonrelated purchaser involving plant facilities or equipment, only if—

(i) The rental charges are reasonable based on consideration of rental charges of comparable facilities and market conditions in the area; the type, expected life, condition, and value of the facilities or equipment rented; and other provisions of the rental agreement;

(ii) Adequate alternate facilities or equipment that would serve the purpose are not or were not available at lower cost; and

(iii) The leasing was based on economic and technical considerations.

(2) If the conditions of paragraph (h)(1) of this section are not met, the amount a provider may include in its allowable costs as rental or lease expense under a sale and leaseback agreement may not exceed the amount that the provider would have included in its allowable costs had the provider retained legal title to the facilities or equipment such as interest expense on mortgages, taxes, depreciation, and insurance costs.

(3) For hospitals and SNFs entering into sale and leaseback agreements on or after October 23, 1992, the amount a provider may include in its allowable costs as rental or lease expense may not exceed the amount that the provider would have included in its allowable costs had the provider retained legal title to the facilities or equipment for costs such as interest expense on mortgages, taxes, depreciation, and insurance costs (the costs of ownership). This limitation applies both on an annual basis and over the useful life of the asset.

(i) If in the early years of the lease, the annual rental or lease costs are less than the annually costs of ownership, but in the later years of the lease the annual rental or lease costs are more than the annual costs of ownership, in the years that the annual rental or lease costs are more than the costs of ownership the provider may include in allowable costs annually the actual amount of rental or lease costs. The aggregate rental or lease costs included in allowable costs may not exceed the aggregate costs of ownership that would have been included in allowable costs over the useful life of the asset had the provider retained legal title to the asset.

(ii) If in the early years of the lease, the annual rental or lease costs exceed the annual costs of ownership, but in the later years of the lease the annual rental or lease costs are less than the annual costs of ownership, the provider may carry forward amounts of rental or lease costs that were not included in allowable costs in the early years of the lease due to the costs of ownership limitation, and include these amounts in allowable costs in the years of the lease when the annual rental or lease costs are less than the annual costs of ownership. In any given year the amount of actual annual rental or lease costs plus the amount carried forward to that year may not exceed the amount of the costs of ownership for that year.

(iii) In the aggregate, the amount of rental or lease costs included in allowable costs may not exceed the amount of the costs of ownership that the provider could have included in allowable costs had the provider retained legal title to the asset.

(4) For lease transactions of all providers entered into before October 23, 1992, a lease that meets the following conditions establishes a virtual purchase:

(i) The rental charge exceeds rental charges of comparable facilities or equipment in the area.

(ii) The term of the lease is less than the useful life of the facilities or equipment.

(iii) The provider has the option to renew the lease at a significantly reduced rental, or the provider has the right to purchase the facilities or equipment at a price that appears to be significantly less than what the fair market value of the facilities or equipment would be at the time acquisition by the provider is permitted.

(5)(i) If a lease is a virtual purchase under paragraph (h)(4) of this section, the rental charge is includable in allowable costs only to the extent that it does not exceed the amount that the provider would have included in allowable costs if it had legal title to the asset (the cost of ownership), such as straight-line depreciation, insurance, and interest. For purposes of computing the limitation on allowable rental cost in this paragraph, a provider may not include accelerated depreciation.

(ii) The difference between the amount of rent paid and the amount of rent allowed as rental expense is considered a deferred charge and must be capitalized as part of the historical cost of the asset when the asset is purchased.

(iii) If an asset is returned to the owner instead of being purchased, the deferred charge may be expensed in the year the asset is returned.

(iv) If the term of the lease is extended for an additional period of time at a reduced lease cost and the option to purchase still exists, the deferred charge may be expensed to the extent of increasing the reduced rental to an amount not in excess of the cost of ownership.

(v) If the term of the lease is extended for an additional period of time at a reduced lease cost and the option to purchase no longer exists, the deferred charge may be expensed to the extent of increasing the reduced rental to a fair rental value.

(6) For lease transactions entered into on or after October 23, 1992, a lease that meets any one of the following

conditions establishes a virtual purchase:

(i) The lease transfers title of the facilities or equipment to the lessee during the lease term.

(ii) The lease contains a bargain purchase option.

(iii) The lease term is 75 percent or more of the useful life of the facilities or equipment. This provision is not applicable if the lease begins in the last 25 percent of the useful life of the facilities or equipment.

(iv) The present value of the minimum lease payments (that is, payments to be made during the lease term, including bargain purchase option, guaranteed residual value, or penalties for failure to renew) equals 90 percent or more of the fair market value of the leased property. This provision is not applicable if the lease begins in the last 25 percent of the useful life of the facilities or equipment. The present value is computed using the lessee's incremental borrowing rate, unless the interest rate implicit in the lease is known and is less than the lessee's incremental borrowing rate, in which case, the interest rate implicit in the lease is used.

(7)(i) If a lease is a virtual purchase under paragraph (h)(6) of this section, the rental charge is includable in allowable costs only to the extent that it does not exceed the amount that the provider would have included in allowable costs if it had legal title to the asset (the costs of ownership), such as straight-line depreciation, insurance, and interest. For purposes of computing the limitation on allowable rental cost as described in this paragraph, a provider may not include accelerated depreciation in its allowable costs.

(ii) The difference between the amount of rent paid and the amount of rent allowed as rental expense is considered a deferred charge and is capitalized as part of the historical cost of the asset when the asset is purchased.

(iii) If an asset is returned to the owner instead of being purchased, the deferred charge may be expensed in the year the asset is returned.

(iv) If the term of the lease is extended for an additional period of time at a reduced lease cost and the option to purchase still exists, the deferred charge may be expensed to the extent of increasing the reduced rental to an amount not in excess of the cost of ownership.

(v) If the term of the lease is extended for an additional period of time at a reduced lease cost and the option to purchase no longer exists, the deferred charge may be expensed to the extent of increasing the reduced rental to a fair rental value.

(vi) If the lessee becomes the owner of the leased asset (either by operation of the lease or by other means), the amount considered as depreciation, for the purpose of having computed the limitation expressed in paragraph (h)(7)(i) of this section, must be used in calculating the limitation on adjustments to depreciation for the purpose of determining any gain or loss upon disposal of an asset under paragraph (f) of this section.

* * * * *

(j) *Basis of assets donated to a provider*—(1) Assets not used or depreciated under the Medicare program. If an asset has never been used or depreciated under the Medicare program and is donated to a provider, the basis for the purpose of calculating depreciation and equity capital (if applicable) is the fair market value of the asset at the time of donation.

(2) *Assets used or depreciated under the Medicare program.* If an asset has been used or depreciated under the Medicare program and is donated to a provider, the basis for the purpose of calculating depreciation and equity capital (if applicable) is the lesser of—

(i) The fair market value at the time of donation; or

(ii) The net book value in the hands of the owner last participating in the Medicare program.

(3) *Transfers of State hospitals to nonprofit corporations without monetary consideration.* If a State transfers a hospital to a nonprofit corporation without monetary consideration on or after July 18, 1984, the depreciable basis of the assets to the new owner is the net book value of the assets as recorded on the State's books at the time of the transfer. For purposes of this section, monetary consideration includes cash, new debt, and assumed debt.

* * * * *

C. Part 447, subpart C is amended as set forth below:

PART 447—PAYMENTS FOR SERVICES

Subpart C—Payment for Inpatient Hospital and Long-Term Care Facility Services

1. The authority citation for part 447 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act (42 U.S.C. 1302).

2. In § 447.250, paragraph (c) and (d) are redesignated as paragraphs (d) and (e), respectively; and a new paragraph (c) is added to read as follows:

§ 447.250 Basis and purpose.

* * * * *

(c) Sections 447.253 (c) and (d) implement sections 1902(a)(13)(B) and 1902(a)(13)(C) of the Act, which require a State Medicaid agency to make certain assurances to the Secretary regarding increases in payments resulting solely from changes in ownerships of hospitals, NFs, and ICFs/MR.

* * * * *

3. In § 447.253, paragraph (a) is amended by changing "paragraphs (b) through (g)" to "paragraphs (b) through (i);" paragraphs (c) through (g) are redesignated as paragraphs (e) through (i), respectively; and new paragraphs (c) and (d) are added to read as follows:

* * * * *

(c) *Changes in ownership of hospitals.* In determining payment when there has been a sale or transfer of the assets of a hospital, the State's methods and standards must provide that payment rates can reasonably be expected not to increase in the aggregate solely as a result of changes of ownership, more than the payments would increase under Medicare under §§ 413.130, 413.134, 413.153, and 413.157 of this chapter, insofar as these sections affect payments for depreciation, interest on capital indebtedness, return on equity capital (if applicable), acquisition costs for which payments were previously made to prior owners, and the recapture of depreciation.

(d) *Changes in ownership of NFs and ICFs/MR.* In determining payment when there has been a sale or transfer of assets of an NF or ICF/MR, the State's methods and standards must provide the following depending upon the date of the transfer.

(1) For transfers on or after July 18, 1984 but before October 1, 1985, the State's methods and standards must provide that payment rates can reasonably be expected not to increase in the aggregate, solely as the result of a change in ownership, more than payments would increase under Medicare under §§ 413.130, 413.134, 413.153 and 413.157 of this chapter, insofar as these sections affect payment for depreciation, interest on capital indebtedness, return on equity capital (if applicable), acquisition costs for which payments were previously made to prior owners, and the recapture of depreciation.

(2) For transfers on or after October 1, 1985, the State's methods and standards must provide that the valuation of capital assets for purposes of determining payment rates for NFs and ICFs/MR is not to increase (as measured

from the date of acquisition by the seller to the date of the change of ownership) solely as a result of a change of ownership, by more than the lesser of—

(i) One-half of the percentage increase (as measured from the date of acquisition by the seller to the date of the change of ownership, or, if necessary, as extrapolated retrospectively by the Secretary) in the Dodge construction index applied in the aggregate with respect to those facilities that have undergone a change of ownership during the fiscal year; or

(ii) One-half of the percentage increase (as measured from the date of acquisition by the seller to the date of the change of ownership) in the Consumer Price Index for All Urban Consumers (CPI-U) (United States city average) applied in the aggregate with respect to those facilities that have undergone a change of ownership during the fiscal year.

Medicare and Medicaid; Requirements for Long Term Care Facilities

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Final rule.

SUMMARY: In **Federal Register** document 91–22274, published on Thursday, September 26, 1991, beginning on page 48826, we amended Medicare and Medicaid rules applicable to requirements for long term care facilities. In addition to correcting typographical errors, we are making a limited number of technical corrections to our September 26, 1991 document to take into account changes made by other regulations, but not included in the document, or inconsistencies between preamble statements and the regulations text. All such technical corrections are explained in the preamble to this rule.

EFFECTIVE DATES: This final rule is effective on September 23, 1992.

FOR FURTHER INFORMATION CONTACT: Gwendolyn Lindsay, (410) 966–4673.

SUPPLEMENTARY INFORMATION: On September 26, 1991, in the **Federal Register** document 91–22274, we published a final rule, Requirements for Long Term Care Facilities, that included revisions to 42 CFR parts 442, 447, 483, 488, 489, and 498. The document contained a number of typographical errors and inadvertent omissions. This final rule corrects those obvious errors.

We are deleting § 431.610(g)(1)(ii) from the Medicaid regulations as a conforming technical correction, since the corresponding § 488.11(d) was removed from the Medicaid regulations by the final rule (56 FR 48879). The long term care facility staffing information required by this regulation is no longer required of the facility. States must still submit some full-time equivalent staffing information as part of their submission of HCFA Form 671, which in turn is reviewed by the survey team and input into the Health Care Financing Administration Online Survey Certification and Reporting System.

In preparing the final rule, we failed to take into account changes made to part 442, Standards for Payment for Skilled Nursing and Intermediate Care Facility Services, by a final rule entitled, Correction and Reduction Plans for Intermediate Care Facilities for the Mentally Retarded, published on July 5, 1991 (56 FR 30696). As a result, we inadvertently included obsolete regulatory text in §§ 442.105(e) and 442.110(a) and we are deleting that material.

In our review of the correctness of part 442, we determined that an error had occurred in a final rule with comment, Requirements for Long Term Care Facilities (54 FR 5316), that we published on February 2, 1989. In that rule, we deleted § 442.251 which had required that intermediate care facilities (ICFs) meet requirements for State licensure, because the requirements for ICFs had been subsumed by the new requirements for nursing facilities (NFs). However, we failed to note that the deleted requirement not only applied to ICFs but to ICFs for the mentally retarded (ICFs/MR) as well. As a result of this deletion, there is no regulation requiring ICFs/MR to be licensed. Because this subject is now included in part 483, Requirements for States and Long Term Care Facilities, we are adding a new § 483.410(e) to restore this requirement.

We are making a technical correction to § 483.10, Resident Rights. In paragraph (b)(2)(i), which concerns notice of rights and services, we reflect a statutory clarification (enacted in sections 4008(h)(2)(H) and 4801(e)(9) of the Omnibus Budget Reconciliation Act of 1990) that was inadvertently omitted from the regulations. The correction clarifies that the resident's right of access to clinical records within 24 hours of request refers to all current records pertaining to the resident, and excludes weekends and holidays in determining the 24-hour period. In addition, we are correcting § 483.10(c)(4)(ii) by adding the word "and" before the phrase "on request" to comply with the change explained in the preamble on 56 FR 48838. That is, in addition to providing information concerning a resident's personal funds on request to the resident and his or her legal representative, a nursing facility must also provide this information on a quarterly basis. We are also making a technical correction to § 483.10(g)(1), regarding examination of survey results, to include a clarification discussed in the preamble to the interim final rule published on February 2, 1989 (54 FR 5348). We clarify that, while a facility must make survey results available in a readable form for examination in a place readily accessible to residents, the facility need only "post" (i.e., affix to a wall) a notice of the availability of the survey results, rather than the entire set of documents comprising the results themselves.

We are making a technical correction to § 483.20(d)(1), by revising unclear language in the second sentence. This language was intended to explain the relationship of the plan of care to the requirement contained in the introductory statement to § 483.25. The latter provision reflects provisions in sections 1819(b)(2) and 1919(b)(2) of the Act, which require a facility to provide the services and activities to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident, in accordance with a written plan of care. In attempting to meet this broad mandate, a facility may sometimes encounter conflicts between its overall responsibility to provide services and the resident's exercise of specific rights under § 483.10. For example, a resident, in exercising the right to refuse treatment (§ 483.10(b)(4)), may decline a particular service for which the facility would normally be responsible under § 483.25. However, we note that § 483.25 mandates the facility to provide services only to the extent that such action is in accordance with the resident's plan of care. Further, § 483.20(d)(2)(ii) provides

that, to the extent practicable, each resident participates in preparing his or her own plan of care. Thus, while a facility cannot induce residents to refuse needed care, routine resident participation in developing and updating the care plan can enable the facility to ascertain any preferences residents themselves may have regarding services they do not wish to receive. When a resident refuses necessary services, and that refusal is documented in the plan of care, the facility is not obligated under the regulations (§ 483.25) to provide those services. In situations where a resident refuses a service, the facility must continue to meet the requirements of § 483.25 with respect to other services. We also suggest that in such situations, the facility assess the reasons for the resident's refusal, educate the resident as to the consequences of his or her refusal, and offer alternative treatment to alleviate those consequences.

We are making a technical correction to § 483.70, Physical Environment. In paragraph (a)(2), which concerns life safety from fire, we delete the phrase ", or in the case of a nursing facility (including a dually participating facility), the State survey agency", in order to make this provision consistent with section 1919(d)(2)(B) of the Act, which provides that only the Secretary can grant Life Safety code waivers. We are also making a technical correction to paragraph (d), Resident Rooms. In paragraph (d)(1)(v) we correct the certification date to March 31, 1992. As discussed in the preamble to the final rule (56 FR 48861), we are making this change to carry out our intention that this provision apply to facilities certified when these regulations are effective, i.e., on April 1, 1992.

We are making a technical correction to § 483.75, Administration. In paragraph (o), which concerns quality assessment and assurance, we add a new paragraph (o)(4) to specify that good faith attempts by the committee to identify and correct quality deficiencies will not be used as a basis for sanctions. In the preamble to the final rule (56 FR 48862), we stated that we were adding this language, but inadvertently omitted it from the regulations.

We are making a number of technical corrections in part 498, Appeals Procedures for Determinations that Affect Participation in the Medicare Program. We make a technical correction to substitute "ICF/MR" for "SNF" (Skilled Nursing Facility) and "ICF" (Intermediate Care Facility) in §§ 498.3(b) (Scope and Applicability, Initial Determinations by HCFA) and 498.5(j) (Appeal Rights for Medicaid SNFs and ICFs terminated by HCFA) to reflect the nomenclature required by the Omnibus Budget Reconciliation Act of 1987 (OBRA 87). We are also updating the statutory citation found in § 498.3(b)(8). Former section 1910(c) of the Act was redesignated as section 1910(b) by section 4212(e)(3)(C) of OBRA 87, but this change was inadvertently omitted from the regulations.

Waiver of Notice of Proposed Rulemaking and Delay of Effective Date

We ordinarily publish a general notice of proposed rulemaking in the **Federal Register** and invite prior public comment on a proposed rule. Final rules generally have a 30 day or longer prospective effective date. However, this final rule only makes typographical and a limited number of technical corrections to final rules published on September 26, 1991 (56 FR 48826), July 5, 1991 (56 FR 30696) and a final rule with comment published on February 2, 1989 (54 FR 5316). It would be impracticable, unnecessary and contrary to the public interest to publish a proposed rule and solicit comments since this rule is designed to conform the regulations to statutory provisions and other regulations already in effect. Similarly, it would serve no useful purpose to delay the effective date of corrections, since the rules they correct are already in effect. We, therefore, find good cause to waive notice of proposed rulemaking and our usual delay in the effective date.

List of Subjects

42 CFR Part 431

Grant programs-health, Health facilities, Medicaid, Privacy, Reporting and recordkeeping requirements.

42 CFR Part 442

Grant programs-health, Health facilities, Health professions, Medicaid, Nursing homes, Reporting and recordkeeping requirements.

42 CFR Part 447

Accounting, Administrative practice and procedure, Drugs, Grant programs-health, Health facilities, Health professions, Medicaid, Reporting and recordkeeping requirements, Rural areas.

42 CFR Part 483

Grant programs-health, Health facilities, Health professions, Health records, Medicaid, Medicare, Nursing homes, Nutrition, Reporting and recordkeeping requirements, Safety.

42 CFR Part 488

Health facilities, Medicare, Reporting and recordkeeping requirements.

42 CFR Part 489

Health facilities, Medicare, Reporting and recordkeeping requirements.

42 CFR Part 498

Administrative practice and procedure, Health facilities, Health professions, Medicare, Reporting and recordkeeping requirements.

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH AND HUMAN SERVICES

42 CFR chapter IV is amended as follows:

A. Part 431 is amended as follows:

PART 431—STATE ORGANIZATION AND GENERAL ADMINISTRATION

1. The authority citation for part 431 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act, (42 U.S.C. 1302).

2. In subpart M, § 431.610(g), the introductory text is republished and paragraph (g)(1) is revised to read as follows:

Subpart M—Relations With Other Agencies

§ 431.610 Relations with standard-setting and survey agencies.

* * * * *

(g) *Responsibilities of survey agency.* The plan must provide that, in certifying skilled nursing and intermediate care facilities, the survey agency designated under paragraph (e) of this section will—(1) Review and evaluate medical and independent professional review team reports obtained under part 456 of this subchapter as they relate to health and safety requirements;

* * * * *

B. Part 442 is amended as follows:

PART 442—CONDITIONS FOR PAYMENT FOR NURSING FACILITY SERVICES AND FOR INTERMEDIATE CARE FACILITY SERVICES FOR THE MENTALLY RETARDED

1. The authority citation for part 442 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act (42 U.S.C. 1302), unless otherwise noted.

2. In part 442, we are making the following amendments:

(a) In § 442.1(a), the entries for sections 1905 (c) and (d) and 1913 are revised and a separate entry for section 1905(d) is added to read as follows:

§ 442.1 Basis and purpose.

* * * * *

Section 1905(c), definition of nursing facility; Section 1905(d), definition of intermediate care facility for the mentally retarded;

* * * * *

Section 1913, hospital providers of nursing facility services; and

* * * * *

(b) Section 442.13(c)(2) is revised to read as follows:

§ 442.13 Effective date of agreement.

* * * * *

(c) * * *

(2) The date on which a NF is found to meet the applicable requirements or an ICF/MR is found to meet all conditions of participation, and the facility submits an acceptable correction plan for lower level deficiencies, or an approvable waiver request, or both.

§ 442.40 [Amended]

(c) In § 442.40, paragraph (b)(1), "not been" is substituted for "not be".

§ 442.101 [Amended]

(d) In § 442.101, paragraph (c), "ICFs/MR.". is substituted for "ICF/MR.".

§ 442.105 [Amended]

(e) In § 442.105, paragraph (e) is removed.

§ 442.110 [Amended]

(f) In § 442.110, paragraph (a), the second sentence is removed.

C. Part 447 is amended as follows:

PART 447—PAYMENTS FOR SERVICES

1. The authority citation for part 447 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act (42 U.S.C. 1302).

2. In Part 447 we are making the following revisions:

§ 447.255 [Amended]

(a) In § 447.255, paragraph (a), the phrase "rate for each type of provider" is submitted for "rate for each type of provider".

§ 447.272 [Amended]

(b) In § 447.272, paragraph (a), "(ICFs/MR))" is substituted for "(ICFs/MR)".

SUBCHAPTER E—STANDARDS AND CERTIFICATION

D. Part 483 is amended as follows:

PART 483—REQUIREMENTS FOR STATES AND LONG TERM CARE FACILITIES

1. The authority citation for part 483 is revised to read as follows:

Authority: Sec. 1102, 1819(a)–(f), 1861(j) and (1), 1863, 1871, 1902(a)(28), 1905(a), (c) and (d), and 1919(a)–(f) of the Social Security Act (42 U.S.C. 1302, 1395(i)(3)(a)–(f), 1395x (j) and (l) 1395hh, 1395z, 1396(a)(a)(28), and 1396d (c) and (d), and 1396r(a)–(f), unless otherwise noted.

§ 483.1 [Amended]

2. In § 483.1, paragraph (a)(1), the phrase "Sections 1819 (a), (b), (c), and (d) of the Act" is substituted for "Sections of the Act 1819(a), (b), (c), and (d)".

§ 483.5 [Amended]

3. In § 483.5, the phrase "sections 1819 or 1919" is substituted for "sections 1819 and 1919"; the phrase "or § 440.150" is removed and "§ 440.150" is substituted for "§ 440.150(c)".

§ 483.10 [Amended]

4. Section 483.10 is amended as follows:

(a) In paragraph (b)(2)(i), the phrase "including current clinical records within 24 hours (excluding weekends and holidays); and" is substituted for "including clinical records within 24 hours; and".

(b) In paragraph (c)(4)(ii), the word "and" is added before the phrase "on request" so that this paragraph reads as follows: "The individual financial record must be available through quarterly statements and on request to the resident or his or her legal representative."

(c) In paragraph (g)(1), the phrase "The facility must make the results available for examination in a place readily accessible to residents, and must post a notice of their availability; and" is substituted for the phrase "The results must be made available for examination by the facility in a place readily accessible to residents; and".

(d) In paragraph (g)(2), "contract" should read "contact".

(e) In paragraph (j)(1)(iv), "State" should read "State".

(f) In paragraph (j)(2), "anytime." should read "any time.".

(g) In paragraph (m), "arrangement" should read "arrangement.".

(h) In paragraph (o)(1), "facility" should be changed to "institution" every place it appears.

(i) In paragraph (o)(1)(ii), "If a resident" should read "A resident"

(j) In paragraph (o)(2), "Medicaid benefits" should read "Medicare or Medicaid benefits".

§ 483.12 [Amended]

5. Section 483.12 is amended as follows:

(a) In paragraph (a)(5)(D), "(a)(2)(ii)" should read "(a)(2)(i)".

(b) In paragraph (a)(6), "For nursing facilities, the written notice" should read "The written notice".

(c) In paragraph (d)(1)(ii), "Medicare benefits" should read "Medicare or Medicaid benefits".

§ 483.13 [Amended]

6. Section 483.13 is amended as follows:

(a) In paragraph (c)(1)(ii)(A), "mistreating individuals" should read "mistreating residents".

(b) In paragraph (c)(1)(iii), "other NF staff" should read "other facility staff".

§ 483.15 [Amended]

7. Section 483.15 is amended as follows:

(a) In paragraph (a), "individuality" should read "individuality.".

(b) In paragraph (f)(2)(i), "who is—" should read "who—".

(c) In paragraph (f)(2)(i)(A), "Licensed" should read "Is licensed".

(d) In paragraph (f)(2)(i)(B), "Eligible" should read "Is eligible".

(e) In paragraph (f)(2)(i)(B), "on Ocotber 1, 1990" should read "on or after October 1, 1990".

§ 483.20 [Amended]

8. Section 483.20 is amended by:

(a) Substituting in paragraph (e) the phrase "anticipates discharge," for "anticipates discharges".

(b) Substituting in paragraph (f)(1)(i)(B), the phrase "whether the individual requires specialized services; or" for "whether specialized services the individual requires active treatment for mental illness; or".

(c) Substituting in paragraph (f)(1)(ii)(B), "specialized services" for "active treatment".

(d) Revising paragraph (d)(1) to read as follows:

§ 483.20 Resident assessment.

* * * * *

(d) *Comprehensive care plans.* (1) The facility must develop a comprehensive care plan for each resident that includes measurable objectives and timetables to meet a resident's medical, nursing, and mental and psychosocial needs that are identified in the comprehensive assessment. The care plan must describer the following—

(i) The services that are to be furnished to attain or maintain the resident's highest practicable physical, mental, and psychosocial well-being as required under § 483.25; and

(ii) Any services that would otherwise be required under § 483.25 but are not provided due to the resident's exercise of rights under § 483.10, including the

right to refuse treatment under § 483.10(b)(4).

* * * * *

§ 483.25 [Amended]

9. Section 483.25 is amended as follows:

(a) In paragraph (g)(2), "feeding function." should read "eating skills.".

(b) In paragraph (1), "*Unnecessary drug.*" should read "*Unnecessary drugs.*".

§ 483.30 [Amended]

10. In § 483.30. paragraph (d)(1)(iv), "Americans" is substituted for "American".

§ 483.45 [Amended]

11. Section 483.45 is amended as follows:

(a) In paragraph (a), "and health rehabilitative services" should read "and mental health rehabilitative services".

(b) In paragraph (a)(2), "§ 483.75(j) of this part)" should read "§ 483.75(h) of this part)".

§ 483.60 [Amended]

12. In § 483.60, paragraph (d), "and include" is substituted for "and including".

§ 483.65 [Amended]

13. In § 483.65, paragraph (c), "infection." is substituted for "infection".

§ 483.70 [Amended]

14. Section 483.70 is amended as follows:

(a) In paragraph (a)(1)(ii), "wavers" should read "waivers".

(b) In paragraph (a)(2), after "HCFA" remove ", or in the case of a nursing facility (including a dually participating facility), the State survey agency". As corrected, § 483.70(a)(2) reads as follows: "After consideration of State survey agency findings, HCFA may waive specific provisions of the Life Safety Code which, if rigidly applied would result in unreasonable hardship upon the facility, but only if the waiver does not adversely affect the health and safety of residents or personnel."

(c) In paragraph (d)(1)(v), "March 31, 1992" is substituted for "September 30, 1990".

§ 483.75 [Amended]

15. Section 483.75 is amended as follows:

(a) In paragraph (j)(2)(i), "attending physicians;" should read "attending physician;".

(b) In paragraph (j)(2)(iii), "needs assistance." should read "needs assistance; and".

(c) In § 483.75, a new paragraph (o)(4) is added to read as follows:

§ 483.75 Administration.

* * * * *

(o) * * *

(4) Good faith attempts by the committee to identify and correct quality deficiencies will not be used as a basis for sanctions.

* * * * *

16. In § 483.410, a new paragraph (e) is added to read as follows:

§ 483.410 Condition of participation: Governing body and management.

* * * * *

(e) *Standard: Licensure.* The facility must be licensed under applicable State and local law.

E. Part 488 is amended as follows:

PART 488—SURVEY AND CERTIFICATION PROCEDURES

1. The authority citation for part 488 is revised to read follows:

Authority: Secs. 1102, 1814, 1861, 1865, 1866, 1871, 1880, 1881, 1883, and 1913 of the Social Security Act (42 U.S.C. 1302, 1395f, 1395x, 1395bb, 1395cc, 1395hh, 1395qq, 1395rr, 1395tt, and 1396l).

§ 488.56 [Amended]

2. Section 488.56 is amended as follows:

(a) In paragraph (a) introductory text, the reference "483.20" should read "483.30".

(b) In paragraphs (b) introductory text and (b)(2) the reference "§ 488.75(k)" should read "§ 483.75(i)".

F. Part 498 is amended as follows:

PART 498—APPEALS PROCEDURES FOR DETERMINATIONS THAT AFFECT PARTICIPATION IN THE MEDICARE PROGRAM

1. The authority citation for part 498 continues to read as follows.

Authority: Secs. 205(a), 1102, 1869(c), 1871, and 1872 of the Social Security Act (42 U.S.C. 405(a), 1302, 1395ff(c), 1395hh, and 1395ii), unless otherwise noted.

2. The part heading is revised to read as follows:

PART 498—APPEALS PROCEDURES FOR DETERMINATIONS THAT AFFECT PARTICIPATION IN THE MEDICARE PROGRAM

§ 498.3 [Amended]

3. In § 498.3, paragraph (b)(8), "ICF/MR" is substituted for "SNF or ICF" and "1910(c)" should read "1910(b)".

§ 498.5 [Amended]

4. In § 498.5, paragraph (j), "ICF/MR" is substituted for the phrase "SNF or ICF" every place it appears.

(Catalog of Federal Domestic Assistance Program No. 93.774, Medicare Hospital Insurance, No. 93.778, Medical Assistance Program)

Dated: May 12, 1992.

William Toby,

Acting Deputy Administrator, Health Care Financing Administration.

Approved: June 5, 1992.

BILLING CODE 4120-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1321

[Ex Parte No. MC-208]

Nonoperating Motor Carriers—Collection of Undercharges

AGENCY: Interstate Commerce Commission.

ACTION: Final rules; delay of effective date.

SUMMARY: To facilitate consideration of various petitions for administrative stay pending judicial review, the Commission on September 18, 1992, extended the date at which the regulations promulgated in this proceeding will become effective until October 8, 1992. The rules were previously to become effective on September 23, 1992. The final rules were published on September 8, 1992 at 57 FR 40857.

EFFECTIVE DATE: The final rules are effective on October 8, 1992.

FOR FURTHER INFORMATION CONTACT: Richard Felder, (202) 927-5610, (TDD for hearing impaired: (202) 927-5721).

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423 or call (202) 289-4357.

Authority: 49 U.S.C. 10322(g).

Decided: September 18, 1992.

By the Commission, Chairman Philbin, Vice Chairman McDonald, Commissioners Simmons, Phillips, and Emmett.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 672 and 675

[Docket No. 920531-2221]

RIN 0648-AD76

Groundfish of the Gulf of Alaska, and Groundfish Fishery of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues final regulations to implement Amendment 19 to the Fishery Management Plan (FMP) for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (BSAI) and Amendment 24 to the FMP for Groundfish of the Gulf of Alaska (GOA). These regulations implement FMP amendments which establish 1992 Pacific halibut bycatch limits for trawl and non-trawl gear in the BSAI and authorize regulatory amendments that would provide for inseason time/area closures to further reduce prohibited species bycatch rates. In addition, existing regulations are amended to revise the management and monitoring of prohibited species bycatch amounts and the vessel incentive program to reduce prohibited species bycatch rates. These actions are intended to promote management and conservation of groundfish and other fish resources and to further the goals and objectives contained in the FMPs that govern these fisheries.

EFFECTIVE DATES: Effective September 30, 1992, except for changes to regulations at §§ 672.26 and 675.26, which will become effective at 12 noon, Alaska local time, January 20, 1993. Regulations at § 675.21(a)(5) are suspended effective September 30, 1992. This suspension will terminate December 31, 1992.

ADDRESSES: Copies of the environmental assessment/regulatory impact review/final regulatory flexibility analysis (EA/RIR/FRFA) may be obtained from the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510 (telephone 907-271-2809).

FOR FURTHER INFORMATION CONTACT: Susan J. Salveson, Fisheries Management Division, Alaska Region, NMFS, 907-586-7230.

SUPPLEMENTARY INFORMATION:

Background

The domestic and foreign groundfish fisheries in the exclusive economic zone (EEZ) off Alaska are managed by the Secretary of Commerce (Secretary) in accordance with the BSAI and GOA FMPs prepared by the North Pacific Fishery Management Council (Council) under the authority of the Magnuson Fishery Conservation and Management Act (Magnuson Act). The FMPs are implemented by regulations for the foreign fishery at 50 CFR part 611 and for the U.S. fishery at 50 CFR parts 672 and 675. General regulations that also pertain to U.S. fisheries are implemented at 50 CFR part 620.

During its December 3–9, 1991, meeting, the Council adopted Amendments 19/24 for review by the Secretary under section 304(b) of the Magnuson Act. Section 304(b) requires the Secretary or her designee to approve, disapprove, or partially disapprove FMPs or FMP amendments any time after the 60th day from receipt and before the close of the 95th day following receipt. During its December 1991 meeting, the Council also adopted for Secretarial review regulatory amendments that would revise the management and monitoring of prohibited species bycatch and the vessel incentive program to reduce prohibited species bycatch rates. A notice of availability of Amendments 19/24 was published in the **Federal Register** (57 FR 17879, April 28, 1992). It invited review of, and comment on, the amendments until June 22, 1992. A notice of proposed rulemaking was published in the **Federal Register** on May 29, 1992 (57 FR 22695). It invited comments on the proposed rule implementing Amendments 19 and 24 and associated regulatory amendments. The comment period ended July 13, 1992. Twenty-one letters of comments were received. They are summarized and responded to below in the "Response to comments" section.

The final rule implementing Amendments 19 and 24 will:

(1) For 1992, reduce the Pacific halibut prohibited species catch (PSC) limit established for BSAI trawl gear from 5,333 metric tons (mt) to 5,033 mt, but retain the primary halibut PSC limit at 4,400 mt;

(2) For 1992, establish a 750 mt Pacific halibut bycatch mortality limit for BSAI fixed gear; and

(3) Establish FMP authority to develop and implement regulatory amendments that provide for time/area closures to reduce prohibited species bycatch rates.

In addition to the above FMP amendments, the following amendments to current regulations are implemented:

(1) Revise BSAI fishery definitions for purposes of monitoring fishery specific bycatch allowances and assigning vessels to fisheries for purposes of the vessel incentive program;

(2) Revise the definition and accountability of BSAI trawl fishery categories that are eligible to receive prohibited species bycatch allowances;

(3) Expand the vessel incentive program to address halibut bycatch rates in all trawl fisheries;

(4) Delay the season opening date of the BSAI and GOA groundfish trawl fisheries to January 20 of each fishing year to reduce chinook salmon and halibut bycatch rates;

(5) Further delay the season opening date of the GOA trawl rockfish fishery to the beginning of the weekly reporting period closest to July 1 to reduce halibut and chinook salmon bycatch rates; and

(6) Change directed fishing standards to further limit halibut bycatch associated with bottom trawl fisheries.

A full description of these measures and their justification is presented in the May 29, 1992, notice of proposed rulemaking (57 FR 22695). The prohibited species bycatch allowances implemented for the 1992 BSAI trawl fisheries under this action are listed in Table 1. Table 1 includes the adjustment to the 1992 Pacific herring bycatch limit and associated fishery apportionments that were implemented on August 3, 1992 (57 FR 35489, August 10, 1992). The 1992 seasonal apportionments of the 5,033 mt halibut bycatch limit established for the BSAI trawl fisheries are listed in Table 2.

For purposes of monitoring the 750 mt halibut PSC limit for non-trawl gear, the Director, Alaska Region, NMFS (Regional Director), will use observed halibut bycatch rates and reported groundfish catch to project when the 750 mt mortality limit is reached. For purposes of this rule, non-trawl gear means hook-and-line, jig, and groundfish pot gear. Based on information contained in the final 1992 Stock Assessment and Fishery Evaluation (SAFE) report, dated November 1991, the assumed mortality rate of Pacific halibut that are caught as bycatch in the hook-and-line and jig gear fisheries is 16 percent. The assumed mortality rate of halibut incidentally taken in the groundfish pot gear fisheries is 10 percent. Staff of the International Pacific Halibut Commission (IPHC) have recently asserted that the assumed halibut mortality rate in the hook-and-line fisheries may be further reduced by

50 percent if halibut are not brought on board a vessel to remove the hook but are released by cutting the gangion line. Therefore, the Regional Director will assume an 8 percent mortality rate for those halibut that are observed by NMFS certified observers to be released using this method. Based on these mortality rates, the 750 mt halibut mortality limit established by Amendment 19 has been reached.

The Council recommended that the 5,033 mt halibut PSC limit for trawl gear and several of the regulatory measures listed above be implemented under emergency interim rulemaking during the period the Secretary was reviewing Amendments 19/24 and associated regulatory amendments. The first emergency rule was implemented on March 30, 1992 (57 FR 11433, April 3, 1992), and was extended for an additional period of 90 days (57 FR 29223, July 1, 1992). A correction to the emergency rule was published on April 22, 1992 (57 FR 14667). A technical amendment to the emergency rule was published May 20, 1992 (57 FR 21355). A second emergency rule was implemented May 21, 1992 (57 FR 22162, May 27, 1992) to respond to unexpectedly high bycatch amounts in the BSAI pollock fishery and to maintain halibut bycatch amounts within the halibut bycatch limit established for the 1992 trawl fisheries.

The Secretary has reviewed each of the measures under Amendments 19 and 24 and associated regulatory amendments and the reasons for them. She has determined that each measure is necessary for conservation and management of the groundfish fisheries off Alaska and has approved them.

The effective date of the amendments to regulations that implement the vessel incentive program (§§ 672.26 and 675.26) is delayed until January 20, 1993, when the 1993 trawl season opens under §§ 672.23 and 675.23. The Secretary has delayed the effective date of the revised incentive program until such time that standard product recovery rates (PRRs) are published in the **Federal Register**. For the purposes of the vessel incentive program, standard PRRs must be promulgated by regulations to support amended fishery definitions that was based on retained catch composition rather than observed total catch composition. Standard PRRs will be used to estimate catch weights of retained species. Based on this information, vessels will be assigned to vessel incentive program fisheries under the revised fishery definitions at §§ 672.26(b) and 675.26(b) to facilitate the enforcement of the incentive program and the prosecution of violation. At this time, NMFS anticipates that a final rule implementing standard PRRs will be effective by the start of the 1993 trawl season on January 20, 1993. Until then, the current vessel incentive program will remain in place.

Numerous trawl fishery closures have been implemented under the March 30, 1992, emergency rule (57 FR 11433, April 3, 1992), as corrected and amended (57 FR 14667, April 22, 1992 and 57 FR 21355, May 20, 1992). These closures became effective upon the attainment of fishery prohibited species bycatch allowances specified under the emergency rule and will remain in effect under the same bycatch allowances specified under the final rule. **Federal Register** citations for each of the closures implemented under the emergency rule are as follows: 57 FR 18093, April 29, 1992; 57 FR 20207, May 12, 1992; 57 FR 20655, May 14, 1992; 57 FR 23347, June 3, 1992; 57 FR 24559, June 10, 1992; 57 FR 29656, July 6, 1992; 57 FR 29806, July 7, 1992; 57 FR 31129, July 14, 1992; 57 FR 35489, August 10, 1992).

When effective, the final rule implementing Amendments 19/24 and associated regulatory amendments will supersede the March 30, 1992, emergency rule, which is effective through September 30, 1992.

Changes in the Final Rule From the Proposed Rule

This final rule includes changes from the proposed rule. These changes are described as follows:

1. In § 672.20(f), references to joint venture processing (JVP) apportionments of halibut bycatch limits are no longer applicable to the groundfish fishery and are deleted. Also, the term "seasonal allocation" of halibut bycatch allowances is changed to "seasonal apportionment" for regulatory consistency of terms. Technical amendments to implement these editorial changes are found at § 672.20 (f)(1)(i), (f)(1) (iii) through (v), (f)(2)(ii), (f)(2)(iii), and (f)(2)(v).

2. The directed fishing standard for GOA rockfish at § 672.20(g)(2) is changed to expand its application to all gear types and to clarify that this standard excludes demersal shelf rockfish species that are addressed under existing directed fishing standards at § 672.20(g)(1)(ii) and (g)(2)(ii).

3. Editorial changes are made to directed fishing standards at §§ 672.20(g)(3) and 675.20(h)(1) to clarify that these standards apply to groundfish species caught with pelagic trawl gear rather than to vessels using pelagic trawl gear.

4. The definition of the midwater pollock fishery for purposes of the vessel incentive program at 50 CFR 672.26(b) is changed to clarify that the halibut bycatch rate standard specified for the midwater pollock fishery will become effective only after directed fishing is closed for pollock by vessels using trawl gear other than pelagic trawl gear. This intent was set forth in the preamble to the proposed rule and was inadvertently deleted from the proposed rule itself.

5. The definition of trawl fisheries included under the BSAI vessel incentive program at 50 CFR 675.26(b) is revised by removing reference to fishery definitions at § 675.21(b) and adding revised fishery definitions that aggregate fisheries with similar halibut and red king crab bycatch rates. The purpose of this change is to provide more sampled hauls per vessel to support statistically valid estimates of monthly bycatch rates relative to the expanded incentive program.

Public comment on the aggregation of BSAI trawl fisheries for purposes of the vessel incentive program was specifically solicited in the preamble to the proposed rule. During its June 24–28, 1992, meeting, the Council commented that the 7 incentive program fisheries set forth under the proposed rule should be reduced to 4 fisheries (midwater pollock, yellowfin sole, bottom pollock, and other trawl fisheries), and that the final rule implementing the revised incentive program should be changed accordingly. Additional public comment on the proposed rule further supported this change. Without this change, implementation of the expanded incentive program would be less effective.

6. Consistent with the above change, 50 CFR 675.26(a)(2)(ii)(A) and (B) are revised to refer to appropriate fishery definitions for purposes of the incentive program.

7. In § 675.26(d)(3)(i)(C), reference to chinook salmon bycatch rates was erroneously included in the proposed rule and is deleted in the final rule because this species is not addressed under the current vessel incentive program.

8. A new paragraph is added to 50 CFR 672.7 and 675.7 to clarify and facilitate the enforcement of directed fishing closures that are implemented when either directed fishing allowances or prohibited species bycatch allowances are reached. When a directed fishery closure is implemented under existing regulations, fishing operations are allowed to continue if retained amounts of groundfish do not

exceed specified bycatch levels. The ability of vessels to continue to fish under directed fishing closures makes these closures difficult to monitor and enforce except by intrusive and costly at-sea boarding or by observing shoreside landings of catch. Regulations are clarified so that when directed fishing in an area for all groundfish species by vessels using a specified gear type is closed, fishing for groundfish with that gear type will also be prohibited in that area. Under this prohibition, no gear of the affected type could be deployed by a Federally permitted vessel in the area, thus facilitating effective and efficient aerial surveillance of fishery closures. Exceptions to this prohibition are made for vessels participating in the Pacific halibut fishery using hook-and-line gear.

9. The values stated in Table 1 under the section for Pacific herring prohibited species bycatch allowances for midwater pollock and yellowfin sole in the BSAI were increased from 573 and 134 mt to 1,668 and 391 mt, respectively, as a result of an inseason Pacific herring bycatch management measure (57 FR 35490, August 10, 1992).

Response to Comments

Twenty-one letters of comments were received during the comment period. Fifteen of these letters addressed the 750 mt halibut bycatch mortality limit proposed for non-trawl gear. Four letters were submitted by government agencies that expressed no comment on the proposed rule. Two letters were submitted on proposed changes to the vessel incentive program and enhancement of enforcement of directed fishing closures. The Council also commented on these last two issues during its June 24–28, 1992, meeting. Comments are summarized and responded to below:

Comment 1: A 750 mt halibut bycatch mortality limit is too constraining to non-trawl gear fisheries during the current developmental phase of these fisheries. Halibut bycatch rates and handling mortality will decrease with fleet experience and with incorporation of "sanctioned" methods for decreasing handling mortality. Domestic trawl fisheries were able to develop in the early 1980's without the encumbrance of burdensome management measures to control halibut bycatch. Management of the developing non-trawl fisheries should be provided the same latitude as that provided for the trawl fisheries.

Response: The 750 mt halibut bycatch mortality limit is only implemented for 1992. This limit was adopted by the Council under the assumption that it would not significantly constrain the hook-and-line fishery for Pacific cod during 1992 based on bycatch rates experienced by the hook-and-line fishery during 1991. The Council further intended that actual bycatch needs experienced by the 1992 fisheries would provide guidance in the development of bycatch management measures implemented for 1993 and beyond. Although recent halibut bycatch rates experienced in the 1992 hook-and-line fishery for Pacific cod are higher than expected, the initial total allowable catch (TAC) of Pacific cod will be harvested prior to the effective date of the 750 mt mortality limit. The harvest of Pacific cod by the non-trawl fisheries has significantly increased during the past 3 years due to premature closures of the Pacific cod trawl fishery that resulted from the attainment of trawl bycatch allowances of prohibited species.

NMFS anticipates that the 1992 harvest of Pacific cod by non-trawl gear will be about 130 percent of the total 1991 non-trawl harvest of this species. The Council has also initiated analyses of management measures that would provide the authority to allocate preferentially Pacific cod to non-trawl gear fisheries. If implemented, these measures would provide additional support for the developing non-trawl fisheries in a manner that approaches that provided to domestic trawl operations in the early 1980's.

Comment 2: The Amendment 19 halibut bycatch mortality limit for non-trawl gear, 750 mt, is arbitrary and unfair. The amount was not tied to groundfish harvest projections for 1992, does not support the current fleet groundfish harvest needs, and does not allow the non-trawl harvest of Pacific cod to increase.

Response: The non-trawl halibut limit, 750 mt, is neither arbitrary nor unfair. It was derived from the amount of halibut bycatch mortality accrued by non-trawl gear in 1991, plus an additional amount which would allow a 1992 harvest of Pacific cod at 150 percent of 1991 levels, at similar bycatch rates. Some growth of the BSAI non-trawl fleet and associated groundfish harvest was anticipated, although the magnitude of increase, particularly of the Pacific cod fishery, could not be quantified with any certainty. As mentioned in the response to Comment 1, constraints to the non-trawl fisheries arise primarily from the competition with the trawl fleet for the available amounts of Pacific cod under TAC limitations, not 1992 halibut bycatch restrictions. Amendment 19 does not constrain future expansion of the non-trawl fleet or associated groundfish harvest because the halibut limit on non-trawl gear is only implemented for 1992.

Comment 3: The 750 mt halibut bycatch mortality limit proposed for non-trawl gear is too low, and is unduly restrictive. The Council did not intend the 1992 halibut bycatch mortality limit to constrain non-trawl fisheries. Non-trawl fisheries are unable to harvest available Pacific cod TAC with a 750 mt halibut mortality limit.

Response: The 750 mt mortality limit established for the 1992 non-trawl fisheries will be reached because segments of the hook-and-line fleet experienced bycatch rates that were much higher than rates experienced in 1991. See also responses to Comments 1 and 2.

Prohibited species bycatch limits have been implemented to control the take of halibut, crabs, and herring in groundfish fisheries. The Council has the task of allocating bycatch limits among competing fisheries, with the understanding that such policies might constrain certain gears or target fisheries, but that bycatch amounts cannot be limited under existing management regimes without such constraints. The Council has also made a commitment to further reduce the bycatch mortality of halibut in all groundfish fisheries.

Comment 4: National standard 1 mandates the achievement of optimum yield (OY). The judicious use of longline gear and improved halibut handling techniques offer the only practical conservation-oriented method of achieving the BSAI Pacific cod OY in 1992. A 750 mt bycatch mortality limit for the 1992 longline fishery will constrain the ability of the longline fleet to take the Pacific cod OY.

Response: The 750 mt bycatch mortality limit established for non-trawl gear in 1992 is consistent with national standard 1. This standard requires that conservation and management measures prevent overfishing while achieving, on a continuing basis, the OY from each fishery for the U.S. fishing industry. NMFS anticipates that the 1992 Pacific cod fishery will harvest the initial TAC by late August 1992, prior to the effective date of regulations implementing the 750 mt mortality limit. Therefore, with respect to Pacific cod the Secretary finds that regulations implementing the 750 mt bycatch limit, by themselves, will not jeopardize achievement of the OY.

Comment 5: Imposition of the 750 mt bycatch mortality limit for the 1992 non-trawl fisheries will cause a net economic loss to the nation. The value of halibut as bycatch mortality in non-trawl

groundfish fisheries is much greater than the value of halibut taken in a directed halibut fishery, and also greater than the same differential calculated for trawl gear.

Response: The United States has assumed international obligations to support the directed Pacific halibut fishery. These obligations are met, in part, by the implementation and enforcement of halibut bycatch restrictions in the Alaska groundfish fisheries. The EA/RIR/FRFA developed in support of Amendment 19 acknowledges that prohibited species bycatch limits are costly to the Alaska groundfish industry. The Council recognized these costs when it adopted the halibut bycatch limits implemented under Amendment 19. The Secretary also acknowledges that the halibut bycatch limits established for the Alaska groundfish fisheries are an expensive way to control halibut bycatch mortality in these fisheries. She has determined, however, that the bycatch limits implemented under Amendment 19 and the resulting allocation of Pacific halibut among groundfish fishermen using trawl and non-trawl gear, and among halibut fishermen, are consistent with the national standards and with international agreements to support the traditional setline halibut fishery.

Comment 6: Implementing a halibut bycatch mortality limit for non-trawl gear in the BSAI will cause serious economic disruption to a segment of the groundfish industry. Closure of the hook-and-line fishery for Pacific cod under a halibut bycatch mortality limit will impose serious economic hardship for individuals and companies who recently entered the BSAI Pacific cod fishery. Additional economic hardship will be incurred by individuals who made investments in harvesting, processing, or marketing operations, and by support industries depending on a stable and growing fishery, including overseas markets and an emerging squid fishery that supplies bait for the hook-and-line cod fishery.

Response: One of the Council's stated management objectives for the BSAI groundfish fishery is to "minimize the impact of groundfish fisheries on prohibited species and continue the rebuilding of the Pacific halibut resource." Consistent with this objective, numerous management measures have been implemented to control prohibited species bycatch amounts with the understanding that such actions might be constraining to the groundfish industry. The non-trawl fishery for BSAI groundfish, particularly for Pacific cod, has entered a growth phase at a time when the Council is considering action to restrict additional entry into what is widely considered to be a substantially overcapitalized fishery. At present, Pacific cod is available to the non-trawl gear fleet because of prohibited species bycatch controls placed on the established trawl fishery. Open access fisheries offer no guarantee of available groundfish TAC, of prohibited species bycatch to support fishing operations, or of freedom from competition from other harvesters and suppliers of similar products. A decision to enter the industry at any given time places an investment risk on each individual fishing, processing, marketing, or support operation.

Comment 7: The 750 mt limit is discriminatory against the non-trawl groundfish fleet for the following reasons: (1) trawl gear fisheries have a disproportionate share of halibut mortality; (2) trawl gear fisheries have many target species options and the ability to "self allocate" halibut among targets to mitigate economic effects on the fleet, whereas the non-trawl gear fisheries, which are primarily dependent on Pacific cod, have a single bycatch allowance; and (3) trawl gear fisheries are allowed to accrue halibut bycatch designated limits, but the non-trawl gear fisheries are not.

Response: The 750 mt bycatch mortality limit is not discriminatory. Allocations of groundfish TAC amounts and supporting prohibited species bycatch limits are established through the Council process after consultation with scientists, industry, and the general public. Under this process, the 1992 BSAI halibut bycatch limit established for trawl gear fisheries was reduced from 5,333 mt to 5,033 mt for 1992. This reduction was partially intended to provide amounts of halibut bycatch mortality for non-trawl fisheries under Amendment 19. The 750 mt bycatch mortality limit for non-trawl gear fisheries established under this amendment provides substantially more halibut for non-trawl fisheries than needed for these fisheries the previous year. Conversely, the historical magnitude of groundfish harvest in established trawl fisheries warrants the larger share of available bycatch.

Most vessels using non-trawl gear to fish for BSAI groundfish target on Pacific cod, although sablefish, Greenland turbot, and arrowtooth flounder have also been harvested by non-trawl gear during recent years. The 1992 bycatch mortality limit established for non-trawl gear under Amendment 19 is not apportioned among different non-trawl gear fisheries. The Council did not recommend separate bycatch allowances for the 1992 non-trawl gear fisheries, because vessels were expected to continue to fish predominantly for Pacific cod. At its June 24–28, 1992, meeting, however, the Council adopted FMP authority to exempt specified non-trawl gear fisheries from halibut bycatch restrictions under the criteria set forth under proposed Amendment 21 to the BSAI FMP. If approved by the Secretary, this amendment would provide the authority to establish separate halibut bycatch allowances for the non-trawl fisheries and exempt specified non-trawl gear fisheries from bycatch restrictions in 1993 and beyond.

Although regulatory provisions are made to exempt the pelagic trawl pollock fishery from halibut and crab bycatch restrictions to account for the fishery's low bycatch rates, vessels participating in this fishery must not exceed a 0.1 percent halibut bycatch rate standard under the vessel incentive program.

Comment 8: The 16 percent mortality assumption for halibut bycatch in hook-and-line fisheries is too high. Handling mortality is greatly reduced when fish are released by cutting gangions or by shaking or twisting fish off hooks. Many vessels have been using such practices in 1992, and estimates of halibut bycatch mortality should be adjusted downward accordingly.

Response: The IPHC has recently asserted that assumed mortality assumptions for halibut taken in the hook-and-line fisheries may be reduced to 8 percent if halibut are not brought on board a vessel to remove the hook but instead, fish are released by cutting the gangion line. In response, NMFS has initiated the collection of observer data that allows for an 8 percent mortality assessment for those halibut observed to be released by cutting of gangions. A 16 percent assumption is retained for unobserved halibut or halibut observed to be released by other methods. NMFS will continue to work with the IPHC in assessing halibut mortality and deriving the best estimate available for assumed mortality rates in the hook-and-line fishery. Consistent, observed action taken by the hook-and-line fleet to reduce halibut handling mortality may be reflected in future downward adjustments of assumed mortality rates.

Comment 9: Halibut which are not brought on board a vessel and which are released by cutting of gangions or by carefully removing the hook should not be considered as bycatch.

Response: As noted in the response to Comment 8, NMFS will adjust mortality

assumptions for halibut observed to be released by cutting of gangions. Other methods of releasing halibut are observed, but vary too much in technique and accompanying mortality for consistent use in inseason mortality adjustments. NMFS will continue to monitor the amount of all halibut taken in the non-trawl fisheries, not just those halibut brought on board a vessel. Appropriate mortality assumptions will be applied against estimated bycatch amounts and the hook-and-line fleet will benefit from taking action to reduce handling mortality by cutting gangions.

Comment 10: The proposed changes to the vessel incentive program for the BSAI trawl fisheries should be revised so that bycatch rate standards are specified for the following three fisheries: yellowfin sole, midwater trawl pollock, and bottom trawl pollock. A global default standard should be specified for all other trawl fisheries. Assignment of vessels to these 4 fishery categories should be based on retained catch composition.

Response: For reasons discussed under "Changes in the final rule from the proposed rule," the Secretary has approved changes in the final rule that will establish four trawl fishery categories for purposes of the expanded vessel incentive program. The intent of this change is to provide sufficient numbers of sampled hauls to provide statistically reliable information about each vessel's monthly bycatch rate. As stated in the preamble to the proposed rule, NMFS recognizes the importance of using retained catch to assign vessels to fishery categories under the incentive program. Effective enforcement of bycatch rates calculated from retained catch will require that standard PRRs be established to calculate round weight equivalents of retained catch. Therefore, NMFS intends to delay the effective date of the expanded vessel incentive program until such time that standard product recovery rates are published in the **Federal Register**. NMFS anticipates that a final rule will be effective by the start of the 1993 trawl season on January 20.

Comment 11: Enforcement efforts require that fishing regulations facilitate investigations of fishing violations using methods which are cost-effective and minimally intrusive to fishing operations. Prohibiting fishing with a gear type and in an area for which all directed fisheries are closed would allow simplified monitoring and enforcement of fishing activity using aerial surveillance.

Reponse: The Secretary concurs. As described under "Changes in the final rule from the proposed rule," the intent of this comment will be implemented under §§ 672.7 and 675.7 of the final rule.

Comment 12: Prohibiting all fishing with a gear type in an area for which all directed fisheries are closed could preclude non-groundfish fisheries, such as those for shrimp and saffron cod, which might use that gear type in that area.

Response: At present, the only significant non-groundfish fishery which might be adversely affected by a prohibition of groundfish gear deployment in an area is the hook-and-line fishery for Pacific halibut. Therefore, the final rule exempts this fishery from such closures under §§ 672.2 and 675.7. Nonetheless, the Secretary concurs that fishermen using trawl, hook-and-line, or groundfish pot gear to participate in other non-groundfish fisheries could be prevented from doing so if the use of that gear is prohibited in an area to support directed fishing closures for groundfish. The Secretary, however, has determined that this clarification of directed fishing closures is necessary to simplify and reduce the burden to industry of surveillance and enforcement of groundfish fishery regulations. If required in the future, additional regulatory amendments may be implemented to provide exemptions to other non-groundfish fisheries. A proposed rule is in preparation which will provide trawl gear test areas for use during periods when the deployment of trawl gear may be prohibited.

Classification

NMFS determined that Amendments 19/24 and associated regulatory amendments are necessary for the conservation and management of the groundfish fisheries off Alaska. This final rule implementing Amendments 19/24 is published under section 305(a)(1) of the Magnuson Act that requires the Secretary to publish regulations that are necessary to carry out a plan or plan amendment. The Secretary has determined that Amendments 19/24 and associated regulatory amendments are consistent with the national standards, other provisions of the Magnuson Act, and other applicable law.

NMFS has determined that delaying the effectiveness of this final rule for the entire 30 days under the Administrative Procedure Act, 5 U.S.C. 552(d), is impracticable and contrary to the public interest in orderly conduct of the fisheries in the EEZ. This rule implements regulations and associated regulatory amendments to supersede the March 30, 1992, emergency rule, as corrected and amended (57 FR 14667, April 22, 1992 and 57 FR 21355, May 20, 1992), which is effective through September 30, 1992. Without implementing regulations in place, NMFS has determined that the same fishery conservation and management problem that Amendment 19/24 was intended to resolve, would occur. Therefore, NMFS is waiving a portion of the 30-day delayed effectiveness period for this final rule to correspond with the expiration of the emergency rule.

The Council prepared an EA for Amendments 19/24 and associated regulatory amendments. The Assistant Administrator for Fisheries, NOAA (Assistant Administrator), found that no significant impact on the quality of the human environment will result from this rule. A copy of the EA may be obtained from the Council (See **ADDRESSES**).

NMFS has determined that none of the management measures implemented under the final rule would adversely affect endangered or threatened species. Therefore, formal consultation pursuant to section 7 of the Endangered Species Act is not required for the implementation of this rule.

The Assistant Administrator determined that this rule is not a "major rule" requiring a regulatory impact analysis under E.O. 12291. This determination is based on the EA/RIR/FRFA prepared by the Council. A copy of the EA/RIR/FRFA may be obtained from the Council (See **ADDRESSES**).

The Assistant Administrator concluded that this rule will have significant effects on small entities. These effects have been discussed in the EA/RIR/FRFA, a copy of which may be obtained from the Council (See **ADDRESSES**).

This rule contains no collection-of-information requirements for purposes of the Paperwork Reduction Act.

The Council determined that this rule will be implemented in a manner that is consistent to the maximum extent practicable with the approved coastal management program of the State of Alaska. This determination has been submitted for review by the responsible State agencies under section 307 of the Coastal Zone Management Act. Consistency is automatically inferred, because the appropriate State agency did not reply within the statutory time period.

This rule does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 12612.

List of Subjects in 50 CFR Parts 672 and 675

Fisheries, Reporting and recordkeeping requirements.

Dated: September 16, 1992.

Samuel W. McKeen,

Acting Assistant Administrator for Fisheries, National Marine Fisheries Service.

Note: Tables 1 and 2 will not appear in the Code of Federal Regulations.

TABLE 1.—1992 PROHIBITED SPECIES BYCATCH ALLOWANCES FOR THE BSAI TRAWL FISHERIES

Fisheries	Zone 1	Zone 2	Zones 1+2H	BSAI-wide
Yellowfin sole	75,000			
Rcksol/oth. flat [1]	85,000			
Turb/arrow/sab. [2]	0			
Rockfish	0			
Pacific cod	10,000			
Pick/Atka/othr [3]	30,000			
Total	200,000			
C. bairdi Tanner crab, number of animals:				
Yellowfin sole	100,000	1,225,000		
Rcksol/othr flat	700,000	300,000		
Turb/arrow/sabl	0	0		
Rockfish	0	50,000		
Pacific cod	75,000	712,500		
Pick/Atka/othr	125,000	712,500		
Total	1,000,000	3,000,000		
			Primary halibut	Secondary halibut
Pacific halibut, metric tons:				
Yellowfin sole			743	849
Rcksol/othr flat			660	755
Turb/arrow/sabl			0	0
Rockfish			175	200
Pacific cod			1,343	1,537
Pick/Atka/othr			1,479	1,692
Total			4,400	5,033
Pacific herring, metric tons:				
Midwater pollock				1,668
Yellowfin sole				391
Rcksol/othr flat				0
Turb/arrow/sabl				0
Rockfish				10
Pacific cod				29
Pick/Atka/othr [4]				210
Total				2,308

[1] Rock sole and other flatfish fishery category.
[2] Greenland turbot, arrowtooth flounder, and sablefish fishery category.
[3] Pollock, Atka mackerel, and "other species" fishery category.
[4] Pollock other than midwater pollock, Atka mackerel, and "other species" fishery category.

TABLE 2.—SEASONAL APPORTIONMENT OF THE 1992 HALIBUT BYCATCH ALLOWANCES

Fishery	Seasonal bycatch allowance (mt halibut)
Yellowfin sole:	
May 01–Aug. 02	424
Aug. 03–Dec. 31	425
Total	849
Rock sole/"other flatfish":	
Jan. 01–Mar. 29	566
Mar. 30–Jun. 28	95
Jun. 29–Sep. 27	94
Sep. 28–Dec. 31	remainder
Total	755
Turbot/arrowtooth flounder/ sablefish:	
Jan. 01–Dec. 31	0
Rockfish:	
Jan. 01–Mar. 29	20
Mar. 30–Jun. 28	60

Total	1,537
Pollock/Atka mackerel/ "other species":	
Jan. 01–Apr. 15	1,221
Apr. 16–May 31	0
Jun. 01–Dec. 31	471
Total	1,692
Total 1992 Halibut bycatch limit.	5,033

For the reasons set out in the preamble, 50 CFR parts 672 and 675 are amended as follows:

PART 672—GROUNDFISH OF THE GULF OF ALASKA

1. The authority citation for 50 CFR part 672 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

2. In § 672.7, paragraphs (g), (h), and (i) are redesignated as paragraphs (h), (i), and (j), and a new paragraph (g) is added to read as follows:

§ 672.7 Prohibitions.

* * * * *

(g) Fish for groundfish in an area with a vessel using a specified gear type when directed fishing for all groundfish by vessels using that gear type is closed

under §§ 672.20(c)(2) or 672.20(f)(1) of this part, except that fishing for Pacific halibut by vessels using hook-and-line gear will be permitted during seasons governed by 50 CFR part 301. This means that when fishing for groundfish by vessels using a specified gear type is prohibited in an area, that gear type shall not be deployed in that area.

* * * * *

3. In § 672.20, paragraphs (g)(2) and (g)(3) are redesignated as paragraphs (g)(4) and (g)(5) respectively, newly redesignated paragraphs (g)(5) and existing paragraphs (f)(1)(i), (f)(1)(iii) through (v), the first sentence of (f)(2)(ii), the introductory text of (f)(2)(iii), the first sentence of the introductory text of (f)(2)(v), and (h)(2) are revised, and new paragraphs (g)(2) and (g)(3) are added to read as follows:

§ 672.20 General limitations.

* * * * *

(f) * * *

(1) * * *

(i) *Trawl gear.* If, during the fishing year, the Regional Director determines that the catch of halibut by operators of vessels using trawl gear to participate in a directed fishery for groundfish will reach the halibut PSC limit, or seasonal apportionment thereof, provided for under paragraph (f)(2) of this section, NMFS will publish a notice in the **Federal Register** prohibiting directed fishing for groundfish by vessels using trawl gear, except for pollock by vessels using pelagic trawl gear, for the remainder of the season to which the halibut PSC limit or seasonal apportionment applies.

* * * * *

(iii) *Pot gear.* If, during the fishing year, the Regional Director determines that the catch of halibut by operators of vessels using pot gear to participate in a directed fishery for groundfish will reach the halibut PSC limit, or seasonal apportionment thereof, provided for under paragraph (f)(2) of this section, NMFS will publish a notice in the **Federal Register** prohibiting directed fishing for groundfish by vessels using pot gear for the remainder of the season to which the halibut PSC limit or seasonal apportionment applies.

(iv) Unused seasonal apportionments of halibut PSC limits specified for trawl, hook-and-line, or pot gear will be added to the respective seasonal apportionment for the next season during a current fishing year.

(v) If a seasonal apportionment of a halibut PSC limit specified for trawl, hook-and-line, or pot gear is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from the respective apportionment for the next season during a current fishing year.

(2) * * *

(ii) *Notices of final halibut PSC limits.* The Secretary will consider comments received on proposed halibut PSC limits and, after consultation with the Council, will publish a notice in the **Federal Register** specifying the final halibut PSC limits and seasonal apportionments thereof. * * *

(iii) The Secretary will base any seasonal apportionment of the halibut PSC limits on the following types of information: * * *

* * * * *

(v) When the vessels to which a halibut PSC limit applies have caught an amount of halibut equal to that PSC, the Regional Director may, by notice in the **Federal Register**, allow some or all of those vessels to continue to fish for groundfish using non-pelagic trawl gear under specified conditions, subject to the other provisions of this part. * * *

* * * * *

(g) * * *

(2) *Rockfish of the genera Sebastes and Sebastolobus, except demersal shelf rockfish.* The operator of a vessel is engaged in directed fishing for rockfish if he retains at any particular time during a trip an aggregate amount of rockfish species for which a directed fishery closure applies except for demersal shelf rockfish, that is equal to or greater than the sum of 15 percent of the aggregate amount of deep-water flatfish, flathead sole, sablefish, and other rockfish species for which directed fisheries are open, retained at the same time on the vessel during the same trip, and 5 percent of the total amount of other fish species retained at the same time on the vessel during the same trip.

(3) *Using pelagic trawl gear for groundfish species closed to directed fishing.* The operator of a vessel is engaged in directed fishing for groundfish species or species groups for which directed fishing is closed under paragraphs (c)(2) or (f)(1) of this section, if he retains at any time during a trip an aggregate amount of these groundfish species or species groups caught using pelagic trawl gear equal to or greater than 7 percent of the amount of other fish or fish products, in round weight equivalents, retained at the same time on the vessel during the same trip.

* * * * *

(5) *Other.* Except as provided under paragraphs (g)(1) through (g)(4) of this section, the operator of a vessel is engaged in directed fishing for a specific species or species group if he retains at any particular time during a trip that species or species group in an amount equal to or greater than 20 percent of the amount of all other fish species retained at the same time on the vessel during the same trip.

(h) * * *

(2) *Trip.* For purposes of this section, the operator of a vessel is engaged in a single fishing trip in an area from the commencement of, or continuation of, fishing after the effective date of a notice prohibiting directed fishing in the area under paragraphs (c)(2) or (f)(1) of this section until:

(i) The end of a weekly reporting period;

(ii) The vessel enters or leaves an area to which a directed fishing prohibition applies; or

(iii) Until any offload or transfer of any fish or fish product from that vessel, whichever occurs first.

* * * * *

4. In § 672.22, paragraphs (b) and (c) are redesignated as paragraphs (c) and (d), respectively, paragraph (a) is revised, and a new paragraph (b) is added, to read as follows:

§ 672.22 Inseason adjustments.

(a) *General.*

(1) Inseason adjustments issued by the Secretary under this paragraph include:

(i) The closure, extension, or opening of a season in all or part of a management area;

(ii) Modification of the allowable gear to be used in all or part of a management area;

(iii) The adjustment of TAC and PSC limits; and

(iv) Interim closures of statistical areas, or portions thereof, to directed fishing for specified groundfish species.

(2) Any inseason adjustment taken under paragraphs (a)(1) (i), (ii), or (iii) of this section must be based on a determination that such adjustments are necessary to prevent:

(i) The overfishing of any species or stock of fish or shellfish; or

(ii) The harvest of a TAC for any groundfish species or the taking of a PSC limit for any prohibited species that, on the basis of the best available scientific information, is found by the Secretary to be incorrectly specified; or

(iii) The underharvest of a TAC or gear share of a TAC for any groundfish species when catch information indicates that the TAC or gear share has not been reached.

(3) Any inseason closure of a statistical area, or portion thereof, under paragraph (a)(1)(iv) of this section, must be based upon a determination that such closures are necessary to prevent:

(i) A continuation of relatively high bycatch rates of prohibited species specified under § 672.20(e) of this part in a statistical area, or portion thereof;

(ii) The take of an excessive share of PSC limits or bycatch allowances established under § 672.20(f)(2) of this part by vessels fishing in a statistical area, or portion thereof;

(iii) The closure of one or more directed fisheries for groundfish due to excessive prohibited species bycatch rates occurring in a specified fishery operating within all or part of a statistical area; or

(iv) The premature attainment of established PSC limits or bycatch allowances and associated loss of opportunity to harvest the groundfish OY.

(4) The selection of the appropriate inseason management adjustments under paragraphs (a)(1)(i) and (a)(1)(ii) of this section must be from the following authorized management measures and must be based upon a determination by the Regional Director that the management adjustment selected is the least restrictive necessary to achieve the purpose of the adjustment:

(i) Any gear modification that would protect the species in need of conservation, but which would still allow other fisheries to continue; or

(ii) An inseason adjustment which would allow other fisheries to continue in noncritical areas and time periods; or

(iii) Closure of a management area and season to all groundfish fishing; or

(iv) Reopening of a management area or season to achieve the TAC or gear share of a TAC for any of the target species or the "other species" category.

(5) The adjustment of a TAC or PSC limit for any species under paragraph (a)(1)(iii) of this section must be based upon a determination by the Regional Director that the adjustment is based upon the best available scientific information concerning the biological stock status of the species in question and that the currently specified TAC or PSC limit is incorrect. Any adjustment to a TAC or PSC limit must be reasonably related to the change in biological stock status.

(6) The inseason closure of a statistical area, or a portion thereof, under paragraph (a)(1)(iv) of this section shall not extend beyond a 60-day period unless information considered under paragraph (b) of this section warrants an extended closure period. Any closure of a statistical area, or portion thereof, to reduce prohibited species bycatch rates requires a determination by the Regional Director that the closure is based on the best available scientific information concerning the seasonal distribution and abundance of prohibited species and bycatch rates of prohibited species associated with various groundfish fisheries.

(b) *Data.* All information relevant to one or more of the following factors may be considered in making the determinations required under paragraphs (a) (2) and (3) of this section:

(1) The effect of overall fishing effort within a statistical area;

(2) Catch per unit of effort and rate of harvest;

(3) Relative distribution and abundance of stocks of groundfish species and prohibited species within all or part of a statistical area;

(4) The condition of a stock in all or part of a statistical area;

(5) Inseason prohibited species bycatch rates observed in groundfish fisheries in all or part of a statistical area;

(6) Historical prohibited species bycatch rates observed in groundfish fisheries in all or part of a statistical area;

(7) Economic impacts on fishing businesses affected; or

(8) Any other factor relevant to the conservation and management of groundfish species or any incidentally caught species that are designated as prohibited species or for which a PSC limit has been specified.

* * * * *

5. In § 672.23, paragraph (a) is revised, and new paragraphs (d) and (e) are added to read as follows:

§ 672.23 Seasons.

(a) Fishing for groundfish in the regulatory areas and districts of the Gulf of Alaska is authorized from 00:01 a.m., Alaska local time (A.l.t.), January 1, through 12 midnight, A.l.t., December 31, subject to the other provisions of this part, except as provided in paragraphs (c) through (e) of this section.

* * * * *

(d) Directed fishing for rockfish of the genera *Sebastes* and *Sebastolobus* with trawl gear is authorized from 12 noon, A.l.t., on the first day of the third quarterly reporting period of a fishing year, through 12 midnight, A.l.t., December 31, subject to other provisions of this part.

(e) Notwithstanding other provisions of this part, fishing for groundfish with trawl gear in the Gulf of Alaska is prohibited from 00:01 a.m., A.l.t. on January 1, through 12 noon, A.l.t., January 20.

6. In § 672.26, paragraphs (a)(2)(ii) and (b) are revised as follows:

§ 672.26 Program to reduce prohibited species bycatch rates.

(a) * * *

(2) * * *

(ii) *Bycatch rate* refers to the ratio of the total round weight of halibut, in kilograms, to the total round weight, in metric tons, of groundfish for which a TAC has been specified under § 672.20 of this part while participating in the midwater pollock or "other trawl" fisheries as defined in paragraph (b) of this section.

* * * * *

(b) *Fisheries.* A vessel will be subject to this section if the groundfish catch of the vessel is observed on board the vessel, or on board a mothership processor that receives unsorted codends from the vessel, at any time during a weekly reporting period, and the vessel is assigned under paragraph (d)(3)(i)(A) of this section to either the midwater pollock fishery or the "other trawl" fishery as defined in paragraphs (b) (1) and (2) of this section. During any weekly reporting period, a vessel's observed catch composition of groundfish species for which a TAC has been specified under § 672.20 of this part will determine the fishery to which the vessel is assigned, as follows:

(1) The *midwater pollock fishery* means fishing with trawl gear that results in an observed groundfish catch during any weekly reporting period that is composed of 95 percent or more of pollock when the directed fishery for pollock by vessels using trawl gear other than pelagic trawl gear is closed.

(2) The *other trawl* fishery means fishing with trawl gear that results in an observed groundfish catch during any weekly reporting period that does not qualify as a midwater pollock fishery under paragraph (b)(1) of this section.

* * * * *

PART 675—GROUNDFISH OF THE BERING SEA AND ALEUTIAN ISLANDS AREA

7. The authority citation for part 675 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

8. In § 675.7, paragraphs (h), (i), and (j) are redesignated as paragraphs (i), (j), and (k) and a new paragraph (h) is added to read as follows:

§ 675.7 Prohibitions.

* * * * *

(h) Fish for groundfish in an area with a vessel using a specified gear type when directed fishing for all groundfish by vessels using that gear type is closed under §§ 675.20(a)(8) or 675.21 (c) or (d)

of this part, except that fishing for Pacific halibut by vessels using hook-and-line gear will be permitted during seasons governed by 50 CFR part 301. This means that when fishing for groundfish by vessels using a specified gear type is prohibited in an area, that gear type shall not be deployed in that area.

* * * * *

9. In § 675.20, paragraphs (h)(1) and (i)(2) are revised as follows:

§ 675.20 General limitations.

* * * * *

(h) * * *

(1) *Using pelagic trawl gear for groundfish species closed to directed fishing.* The operator of a vessel is engaged in directed fishing for groundfish species or species groups for which directed fishing is closed under paragraph (a)(8) of this section or § 675.21(c) of this part, if he retains at any time during a trip an aggregate amount of these groundfish species or species groups caught with pelagic trawl gear equal to or greater than 7 percent of the amount of other fish or fish products, in round weight equivalents, retained on the vessel at the same time during the same trip.

* * * * *

(i) * * *

(2) *Trip.* For purposes of this section, the operator of a vessel is engaged in a single fishing trip in an area from the commencement of, or continuation of, fishing after the effective date of a notice prohibiting directed fishing in the area under paragraph (a)(8) of this section or § 675.21 (c) or (d) of this part until:

(i) The end of a weekly reporting period;

(ii) The vessel enters or leaves an area to which a directed fishing prohibition applies; or

(iii) Until any offload or transfer of any fish or fish product from that vessel, whichever occurs first.

* * * * *

10. In § 675.21, paragraph (a)(5) is suspended through December 31, 1992; paragraph (b) heading and paragraphs (b)(1), (b)(2), (b)(4), (c) and (d) are revised; paragraphs (e) and (f) are removed; and new paragraphs (a)(7) and (a)(8), are added to read as follows:

§ 675.21 Prohibited species catch (PSC) limitations.

(a) * * *

(8) *Applicable through December 31, 1992.* The secondary PSC limit of Pacific halibut caught while conducting any trawl fishery for groundfish in the Bering Sea and Aleutian Islands Management Area during 1992 is an amount of Pacific halibut equivalent to 5,033 mt.

(9) *Applicable through December 31, 1992.* The PSC limit of Pacific halibut caught while conducting any non-trawl fishery for groundfish in the Bering Sea and Aleutian Islands Management Area during 1992 is an amount of Pacific halibut equivalent to 750 mt of halibut mortality.

(b) *Apportionment of PSC limits established for trawl gear fisheries.* (1) *Apportionment to trawl fishery categories.* The Secretary, after consultation with the Council, will apportion each PSC limit into bycatch allowances that will be assigned to fishery categories specified in paragraph (b)(4) of this section, based on each category's proportional share of the anticipated incidental catch during a fishing year of prohibited species for which a PSC limit is specified and the need to optimize the amount of total groundfish harvested under established PSC limits. The sum of all bycatch allowances of any prohibited species will equal its PSC limit.

(i) For purposes of this section, the trawl PSC limits for red king crab, *C. bairdi* Tanner crab, and Pacific halibut will be apportioned to the fishery categories listed at paragraphs (b)(4) (ii) through (vi) of this section. Any amount of red king crab, *C. bairdi* Tanner crab, or Pacific halibut that is incidentally taken in the midwater pollock fishery, as defined at paragraph (b)(4)(i) of this section, will be counted against the bycatch allowances specified for the pollock/Atka mackerel/"other species" category defined at paragraph (b)(4)(vi) of this section.

(ii) For purposes of this section, the PSC limit for Pacific herring will be apportioned to the fishery categories listed at paragraphs (b)(4) (i) through (vi) of this section.

(2) *Seasonal apportionments of bycatch allowances.*

(i) The Secretary, after consultation with the Council, may apportion fishery bycatch allowances on a seasonal basis. The Secretary will base any seasonal apportionment of a bycatch allowance on the following types of information:

(A) Seasonal distribution of prohibited species;

(B) Seasonal distribution of target groundfish species relative to prohibited species distribution;

(C) Expected prohibited species bycatch needs on a seasonal basis relevant to change in prohibited species biomass and expected catches of target groundfish species;

(D) Expected variations in bycatch rates throughout the fishing year;

(E) Expected changes in directed groundfish fishing seasons;

(F) Expected start of fishing effort; or

(G) Economic effects of establishing seasonal prohibited species apportionments on segments of the target groundfish industry.

(ii) Unused seasonal apportionments of fishery bycatch allowances made under paragraph (b)(2)(i) of this section will be added to its respective fishery bycatch allowance for the next season during a current fishing year.

(iii) If a seasonal apportionment of a fishery bycatch allowance made under paragraph (b)(2)(i) of this section is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from its respective apportionment for the next season during a current fishing year.

* * * * *

(4) For purposes of apportioning trawl PSC limits among fisheries, the following fishery categories are specified and defined in terms of round weight equivalents of those groundfish species or species groups for which a TAC has been specified under § 675.20.

(i) *Midwater pollock fishery.* Fishing with trawl gear during any weekly reporting period that results in a catch of pollock that is 95 percent or more of the total amount of groundfish caught during the week.

(ii) *Flatfish fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of rock sole, "other flatfish," and yellowfin sole that is greater than the retained amount of any other fishery category defined under paragraph (b)(4) of this section.

(A) *Yellowfin sole fishery.* Fishing with trawl gear during any weekly reporting period that is defined as a flatfish fishery under paragraph (b)(4)(ii) of this section and results in a retained amount of yellowfin sole that is 70 percent or more of the retained aggregate amount of rock sole, "other flatfish," and yellowfin sole.

(B) *Rock sole/"other flatfish" fishery.* Fishing with trawl gear during any weekly reporting period that is defined as a flatfish fishery under paragraph (b)(4)(ii) of this section and is not a yellowfin sole fishery as defined under paragraph (b)(4)(ii)(A) of this section.

(iii) *Greenland turbot/arrowtooth flounder/sablefish fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of Greenland turbot, arrowtooth flounder, and sablefish that is greater than the retained amount of any other fishery category defined under paragraph (b)(4) of this section.

(iv) *Rockfish fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of rockfish species of the genera *Sebastes* and *Sebastolobus* that is greater than the retained amount of any other fishery category defined under paragraph (b)(4) of this section.

(v) *Pacific cod fishery.* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of Pacific cod that is greater than the retained amount of any other groundfish category defined under paragraph (b)(4) of this section.

(vi) *Pollock/Atka mackerel/"other species."* Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of pollock other than pollock harvested in the midwater pollock fishery defined at paragraph (b)(4)(i) of this section, Atka mackerel, and "other species" that is greater than the retained amount of any other fishery category defined under paragraph (b)(4) of this section.

(c) *Attainment of a trawl fishery bycatch allowance.*

(1) *Attainment of a trawl bycatch allowance for red king crab, C. bairdi Tanner crab, or Pacific halibut.*

(i) *Zone 1 red king crab or C. bairdi Tanner crab bycatch allowance.* If, during the fishing year, the Regional Director determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (b)(4) (ii) through (vi) of this section will catch the Zone 1 bycatch allowance, or seasonal apportionment thereof, of red king crab or *C. bairdi* Tanner crab specified for that fishery category under paragraphs (b) (1) through (3) of this section, NMFS will publish a notice in the **Federal Register** closing Zone 1 to directed fishing for aggregate species within that fishery category for the remainder of the year or for the remainder of the season, except that when a bycatch allowance, or seasonal apportionment thereof, specified for the pollock/Atka mackerel/"other species" fishery category is reached, only directed fishing for pollock is closed to trawl vessels using non-pelagic trawl gear.

(ii) *Zone 2 red king crab or C. bairdi crab bycatch allowance.* If, during the fishing year, the Regional Director determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (b)(4) (ii) through (vi) of this section will catch the Zone 2 bycatch allowance, or seasonal apportionment thereof, of red king crab or *C. bairdi* crab specified for that fishery category under paragraphs (b) (1) through (3) of this section, NMFS will publish a notice in the **Federal Register** closing Zone 2 to directed fishing for aggregate species within that fishery category for the remainder of the year or for the remainder of the season, except that when a bycatch allowance, or seasonal apportionment thereof, specified for the pollock/Atka mackerel/"other species" fishery category is reached, only directed fishing for pollock is closed to trawl vessels using non-pelagic trawl gear.

(iii) *Primary halibut bycatch allowance.* If, during the fishing year, the Regional Director determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (b)(4) (ii) through (vi) of this section in the Bering Sea and Aleutian Islands Management Area will catch the primary halibut bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraphs (b) (1) through (3) of this section, NMFS will publish a notice in the **Federal Register** closing Zones 1 and 2H to directed fishing for aggregate species within that fishery category for the remainder of the year or for the remainder of the season, except that when a bycatch allowance, or seasonal apportionment thereof, specified for the pollock/Atka mackerel/"other species" fishery category is reached, only directed fishing for pollock is closed to trawl vessels using non-pelagic trawl gear.

(iv) *Secondary halibut bycatch allowance.* If, during the fishing year, the Regional Director determines that U.S. fishing vessels participating in any of the trawl fishery categories listed in paragraphs (b)(4) (ii) through (vi) of this section in the Bering Sea and Aleutian Islands Management Area will catch the secondary halibut bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraphs (b) (1) through (3) of this section, NMFS will publish a notice in the **Federal Register** closing the entire Bering Sea and Aleutian Islands Management Area to directed fishing for aggregate species within that fishery category for the remainder of the year or for the remainder of the season, except that when a bycatch allowance, or seasonal apportionment thereof, specified for pollock/Atka mackerel/"other species" fishery category is reached, only directed fishing for pollock is closed to trawl vessels using non-pelagic trawl gear.

(2) *Attainment of a trawl bycatch allowance for Pacific herring.* If, during the fishing year, the Regional Director determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (b)(4) (i) through (vi) of this section in the Bering Sea and Aleutian Islands Management Area will catch the herring bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraphs (b) (1) through (3) of this section, NMFS will publish a notice in the **Federal Register** closing the Herring Savings Areas to directed fishing for aggregate species within that fishery category, except that:

(i) When the midwater pollock fishery category reaches its specified bycatch allowance, or seasonal apportionment thereof, the Herring Savings Areas are closed to directed fishing for pollock with trawl gear; and

(ii) When the pollock/Atka mackerel/"other species" fishery category reaches its specified bycatch allowance, or seasonal apportionment thereof, only the Herring Savings Areas are closed for directed fishing for pollock to trawl vessels using nonpelagic trawl gear.

(d) *Applicable through December 31, 1992. Attainment of the halibut PSC limited established for non-trawl gear.* If, during the 1992 fishing year, the Regional Director determines that U.S. fishing vessels participating in any non-trawl gear fishery will catch the Pacific halibut PSC limit established for non-trawl gear at paragraph (a)(9) of this section, NMFS will publish a notice in the **Federal Register** closing the entire Bering Sea and Aleutian Islands Management Area to directed fishing for groundfish by vessels using non-trawl gear for the remainder of the year.

11. In § 675.23, paragraph (a) is revised, and new paragraph (d) is added as follows:

§ 675.23 Seasons.

(a) Fishing for groundfish in the subareas and statistical areas of the Bering Sea and Aleutian Islands is authorized from 00:01 a.m., Alaska local time (A.l.t.), on January 1, through 12 midnight, A.l.t., December 31, subject to the other provisions of this part, except as provided in paragraphs (c) through (d) of this section.

* * * * * *

(d) Notwithstanding other provisions of this part, fishing for groundfish with trawl gear in the Bering Sea and Aleutian Islands is prohibited from 00:01 a.m., A.l.t. on January 1, through 12 noon, A.l.t., January 20.

12. In § 675.26, paragraphs (a)(2)(ii)(A), (a)(2)(ii)(B), (b), (d)(3)(i)(A), (d)(3)(i)(B), and (d)(3)(i)(C) are revised to read as follows:

§ 675.26 Program to reduce prohibited species bycatch rates.

(a) * * *

(2) * * *

(ii) * * *

(A) The ratio of total round weight of halibut, in kilograms, to the total round weight, in metric tons (mt), of groundfish for which a TAC has been specified under § 675.20 of this part while participating in any of the trawl fisheries defined under § 675.26(b) of this section;

(B) The ratio of number of red king crab to the total round weight, in mt, of groundfish for which a TAC has been specified under § 675.20 of this part while participating in the yellowfin sole and "other trawl" fisheries, as defined under § 675.26(b) of this section.

* * * * *

(b) *Fisheries.* A vessel will be subject to this section if the groundfish catch of the vessel is observed on board the vessel, or on board a mothership processor that receives unsorted codends from the vessel, at any time during a weekly reporting period, and the vessel is assigned under paragraph (d)(3)(i)(A) of this section to the midwater pollock fishery, the yellowfin sole fishery, the "bottom pollock" fishery or the "other trawl" fishery as defined in paragraphs (b) (1) through (4) of this section. During any weekly reporting period, a vessel's observed catch composition of groundfish species or species groups for which a TAC has been specified under § 675.20 of this part, in round weight equivalents, will determine the fishery to which the vessel is assigned, as follows:

(1) *Midwater pollock fishery.* Fishing with trawl gear that results in an observed groundfish catch during any weekly reporting period that is composed of 95 percent or more of pollock when the directed fishery for pollock by vessels using trawl gear other than pelagic trawl gear is closed.

(2) *Yellowfin sole fishery.* Fishing with trawl gear that results in a retained aggregate amount of rock sole, "other flatfish," and yellowfin sole during any weekly reporting period that is greater than the retained amount of any other fishery defined under paragraph (b) of this section and results in a retained amount of yellowfin sole that is 70 percent or more of the retained aggregate amount of rock sole, "other flatfish," and yellowfin sole.

(3) *"Bottom pollock" fishery.* Fishing with trawl gear that results in a retained amount of pollock during any weekly reporting period other than pollock harvested in the midwater pollock fishery defined at paragraph (b)(1) of this section, that is greater than the retained amount of any other fishery defined under paragraph (b) of this section.

(4) *"Other trawl" fishery.* Fishery with trawl gear that results in a retained amount of groundfish during any weekly reporting period that does not qualify as a midwater pollock, yellowfin sole, or "bottom pollock" fishery under paragraphs (b) (1) through (3) of this section.

* * * * *

(d) * * *

(3) * * *

(i) * * *

(A) *Assignment of vessels to fisheries.* (*1*) Catcher processor vessels will be assigned to fisheries at the end of each weekly reporting period based on the round weight equivalent of the retained groundfish catch composition reporting on a vessel's weekly production report that is submitted to the Regional Director under § 675.5(c)(2) of this part.

(*2*) Catcher vessels that deliver to mothership processors in Federal waters during a weekly reporting period will be assigned to fisheries based on the round weight equivalent of the retained groundfish catch composition reported on the weekly production report submitted to the Regional Director for that week by the mothership under § 672.5(c)(2) of this part.

(*3*) Catcher vessels delivering groundfish to shoreside processors or to mothership processors in Alaska State waters during a weekly reporting period will be assigned to fisheries based on the round weight equivalent of the groundfish retained by the processor and reported on an Alaska Department of Fish and Game fish ticket as required under Alaska State regulations at A.S. 16.05.690.

(B) At the end of each fishing month during which an observer sampled at least 50 percent of a vessel's total number of trawl hauls retrieved while an observer was on board (as recorded in the vessel's daily logbook required under § 675.5 of this part), the Regional Director will calculate the vessel's bycatch rate based on observer data for each fishery specified in paragraph (b) of this section to which the vessel was assigned for any weekly reporting period during that fishing month. Only observed data that have been checked, verified, and analyzed by NMFS will be used to calculate vessel bycatch rates for purposes of this section.

(C) The bycatch rate of a vessel for a fishery described under paragraph (b) of this section during a fishing month is a ratio of halibut to groundfish that is calculated by using the total round weight of halibut (in kilograms), or total number of red king crab or chinook salmon, in samples during all weekly reporting periods in which the vessel was assigned to that fishery and the total round weight of the groundfish (in metric tons) for which a TAC has been specified under § 675.20 in samples taken during all such periods.

Proposed Rules

Federal Register
Vol. 57, No. 185
Wednesday, September 23, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

7 CFR Part 780

Administrative Review Regulations

AGENCIES: Agricultural Stabilization and Conservation Service and Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: This rule proposes changes to the interim rule published in the **Federal Register** on November 25, 1991 (56 FR 59207). This proposed rule implements changes made by the Food, Agriculture, Conservation, and Trade Act of 1990 (the 1990 Act) (enacted November 25, 1990), which amended title IV of the Agricultural Act of 1949 (the 1949 Act) with respect to the Agricultural Stabilization and Conservation Service (ASCS) administrative review process. This rule amends the ASCS appeal regulations to provide for:

(1) The procedures for the filing of requests for administrative reviews of adverse determinations issued by county and State Agricultural Stabilization and Conservation (ASC) Committees (county and State committees), the Deputy Administrator State and County Operations (DASCO), and the National Appeals Division (NAD); (2) procedures for administrative review hearings; and (3) the delegation of powers to hearing officers of NAD.

DATES: Comments must be received by November 23, 1992 in order to be assured of consideration.

ADDRESSES: Send comments on this proposed rule to Director, National Appeals Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, P.O. Box 2415, Washington, DC 20013–2415. All written submissions made pursuant to this rule will be available for further inspection in room 2741, South Building, USDA, between the hours of 8:15 a.m. and 4:45 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Carolyn A. Burchett, Director, National Appeals Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, P.O. Box 2415, Washington, DC 20013–2415; telephone 202–720–5533.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under USDA procedures which implement Executive Order 12291 and Departmental Regulation No. 1512–1 and has been classified as "not major." It has been determined that this proposed rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) major increases in costs or prices for consumers, individual industries, Federal, State, or local Government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete in domestic or export markets.

The Executive Vice President of the Commodity Credit Corporation (CCC) (Administrator of ASCS) certifies that this rule will not have a significant impact on a substantial number of participating individuals and entities because the procedure set out in this rule would not increase, but would rather decrease, the time and paperwork necessary to process an administrative review.

It has been determined by an environmental evaluation that this action will have no significant impact on the quality of the human environment. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

This program/activity is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

This proposed rule has been reviewed in accordance with Executive Order 12778. This proposed rule does not have any preemptive effect with respect to State laws and is not retroactive.

The information collections required by this rule have been approved for use through September 30, 1994, by the Office of Management and Budget (OMB), and assigned OMB No. 0560–0137. Public reporting for these collections is estimated to average 2 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

An interim rule was published in the **Federal Register** on November 25, 1991 (56 FR 59207) to implement changes made by the 1990 Act (enacted on November 28, 1990), which amended title IV of the 1949 Act with respect to the ASCS administrative appeal process. The interim rule amended the ASCS appeal regulations at 7 CFR part 780 to: (1) Provide for the establishment of NAD within ASCS; (2) establish the authority for the Director of NAD to issue final appeal determinations; and (3) provide specific procedures for filing requests for reconsiderations and appeals to county and State committees and NAD.

The public was given 30 days to submit written comments on the interim rule published in the **Federal Register** on November 25, 1991 (56 FR 59207).

The Department received one timely-filed comment.

Background

Section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended (16 U.S.C. 590h(b)), provides for the establishment of "local and State committees" to be used in carrying out the provisions of that act. These local committees are commonly referred to as county committees. County and State committees have been used extensively in the past to implement various other programs that are conducted by CCC and the Department of Agriculture, including the price support and production adjustment programs of CCC. The method for selecting these committees and their general duties are set forth in 7 CFR part 7.

A major function of county and State committees is to serve as a decision-making and reviewing authority with respect to the implementation and administration of the various conservation, price support, and production adjustment programs. Included in this function is the participation of county and State committees in the administrative review process that is made available to

producers and other program participants who believe that an erroneous determination concerning their participation in such a program has been made. The administrative appeal process is set forth at 7 CFR part 780. These regulations generally provide that if a program participant is dissatisfied with the initial determination by either the county or State committee, such participant may request that the determination be reconsidered by the authority which issued the initial determination. If the program participant is dissatisfied with this subsequent determination, an appeal may be filed with the next higher reviewing authority. Prior to implementation of the provisions of section 426 of the 1949 Act, DASCO was the final reviewing authority.

Throughout the current appeal procedure, the participant pursuing the appeal is entitled to an informal hearing. Upon appeal, the appropriate reviewing authority convenes a hearing in which the appellant is provided the opportunity to present relevant facts and evidence.

Interim Rule

Under the interim rule published in the **Federal Register** on November 25, 1991 (56 FR 59207), an appeal determination of a State committee or an initial determination rendered by DASCO, or any other employee or agent of ASCS or CCC, may be appealed to NAD, which constitutes the final level of appeal.

This rule amended the prior provisions of 7 CFR part 780 in several respects for clarity and deleted obsolete references. This rule also made editorial changes to all sections of 7 CFR part 780, and reorganized the information in a more logical sequence. The following is a summary of the major amendments made by the interim rule.

Section 780.1 was amended to conform to changes required under the Act and established the effective date for changes required in the administrative review process.

Section 780.2 was amended to specify that the provisions of this part are applicable to any determinations made by county or State committees, DASCO, or any other employee or agent of ASCS or CCC. Appealable issues were also specified in this section.

Section 780.3 was expanded to include additional definitions for terminology used in this part, including new definitions for changes required under the Act.

Sections 780.4 through 780.6 were reserved for future use.

Section 780.7 provided for reconsideration by a county committee, appeal of the county committee determination to the State committee, and reconsideration by the State committee.

Section 780.8 was added to specify conditions under which an appeal may be filed with NAD.

Section 780.9 specified the general procedure for appeal hearings before the county and State committee and NAD.

Sections 780.10 through 780.14 were reserved for future use.

Sections 780.15 and 780.16 specified the applicable time limitations and requisite form for filing an appeal.

Section 780.17 set forth the purpose and effect of appeal determinations by the county or State committee or by NAD. Section 780.17 also specified those technical decisions and determinations which were not appealable.

Section 780.18 specified when a hearing could be reopened at the discretion of ASCS or CCC for good cause.

Section 780.19 was added to specify the additional requirements included in the Act for proceedings for appeals to NAD with respect to the duties and responsibilities of the Director, including, if appropriate, the authority to require the attendance of witnesses and the production of documentary evidence by subpoena. This section also specified the authority for the Director to issue final determinations.

Section 780.20 was added to specify the conditions under which a participant may request the Director of NAD to issue subpoenas for the attendance of witnesses or for the production of documentary evidence.

Section 780.21 and 780.22 were reserved for future use.

Section 780.23 stated the authority of the Administrator of ASCS or the Executive Vice President of CCC to review and in any way modify any determination made by a county or State committee. New provisions were included in this section to allow either the Administrator of ASCS or the Executive Vice President of CCC to review and in any way modify determinations made by the Director of NAD.

Proposed Rule

This rule proposes to amend the current provisions of 7 CFR part 780 in several respects. The primary purpose of the proposed rule is to give participants a clearer description of this administrative review process. The proposed rule describes in greater detail: (1) The various levels of administrative review; (2) the options for seeking further review of a particular determination; and (3) the procedures governing reviews. The proposed rule also makes editorial changes and reorganizes the information contained in the interim rule in a more logical sequence. The following is a summary of the major amendments proposed by this rule.

Section 780.1 is amended to remove the reference to "Chapters VII and XIV" because the provisions of this part are applicable to regulations which are codified outside of Chapters VII and XIV of this title, such as the swampbuster and sodbuster regulations which are currently codified in part 12, subtitle A, of this title.

Section 780.2 is amended to combine paragraphs (a)(3) and (a)(4) into one shorter paragraph. This section was also amended by redesignating §§ 780.17 (b), (b)(2) as §§ 780.2 (b)(1), and (c), (c)(1), and (c)(2), respectively. This was done to emphasize the fact that technical determinations of the Forest Service or the Soil Conservation Service, as well as determinations regarding the content of general provisions or statutory requirements that are applicable to all participants, are not subject to review pursuant to the provisions of this part.

Section 780.3 is amended by revising the definitions of the terms "Appeal," "Hearing Officer," "Participant," and "Verbatim Transcript." This section also adds definitions of the terms "Person," "Relief," "Review," "Reviewing Authority," and "Secretary." These definitions are added to clarify the meaning of these terms for the purposes of this part. This section is also amended by adding a definition of the term "Cooperative" as part of an amendment proposed by the timely comment received during the comment period for the interim rule. A more detailed discussion of this amendment is provided below.

Section 780.7 is revised to describe more clearly the procedures applicable to appeals and reconsiderations of determinations issued by individual reviewing authorities. In general, determinations issued by county committees are appealable to the applicable State committee; determinations issued by State committees are appealable to NAD; and determinations issued by agents or employees of ASCS or CCC at the National level are appealable to NAD. However, initial determinations issued by a county committee must be reconsidered by the county committee before such determinations may be appealed to the State committee; initial determinations issued by a State

committee must be reconsidered by the State committee before it may be appealed to NAD; and initial determinations issued by agents or employees of ASCS or CCC at the National level must be reconsidered by such agents or employees before it may be appealed to NAD. In addition to those instances where a participant must request that a determination be reconsidered before it can be appealed to a higher level, a participant in most cases has the option of requesting a reconsideration of any determination regarding program eligibility issued by a reviewing authority, with the exception of determinations issued by the Secretary of Agriculture, Administrator of ASCS, or the Executive Vice President of CCC, as well as most reconsideration determinations issued by NAD. This section also provides that reviewing authorities conducting reconsideration reviews have the discretion to offer the participant a hearing.

Section 780.8 is redesignated as §§ 780.7 (a) (2) and (3) and (b) (2) and (3) and revised. Accordingly, § 780.9 is redesignated as § 780.8. Section 780.8 is amended by emphasizing in paragraph (b) that all reviews conducted pursuant to the provisions of this part are *de novo*. Thus, the reviewing authority's scope of review of a matter under review is not limited to the issues raised by the participant, by the determination of a lower reviewing authority, or by the previous determination of the reviewing authority. Paragraph (i) was added to emphasize that participants are not entitled to hearings when a review is being conducted by the Secretary, the Administrator of ASCS, or the Executive Vice President of CCC.

Sections 780.17 (b), (b)(1), and (b)(2) are redesignated as §§ 780.2 (c), (c)(1), and (c)(2), respectively. Section 780.17(b)(3) is removed. Accordingly, § 780.17(c) is redesignated as § 780.17(b); § 780.17(d) is redesignated as § 780.17(c).

Section 780.19 was revised to list specifically the powers given to hearing officers by the Director to conduct NAD hearings. Sections 780.19(a) (7) and (8) are redesignated as §§ 780.19(a) (6) and (7), respectively. Paragraph (d) has been added to this section to provide the address at which to obtain the administrative procedures governing NAD hearings.

Section 780.20 is amended to include the procedures governing requests by participants that the Director of NAD issue subpoenas on their behalf to obtain documents or to require the testimony of a third party at NAD hearings. This section also is amended to include the procedures governing requests by participants to the Director requesting the appearance of USDA employees or representatives at NAD hearings.

Section 780.22 is added to describe the procedures governing the review of requests for relief. This section has been added to clarify the distinction between:

(1) Appeals, which are requests for review based on a claim of eligibility to benefits pursuant to the provisions of the program; and (2) requests for relief, which are requests for review based on a claim to benefits even though the participant failed to meet applicable program requirements. This distinction, and the separate procedures contained in the proposed rule, stem from the different powers reviewing authorities have in granting requests for relief as opposed to appeals. This section also clarifies the fact that the Director of NAD has broad powers to grant relief during a NAD review.

During the comment period for the interim rule, a comment was received from a cotton cooperative. The cotton cooperative requested that § 780.7 be revised to extend the same administrative review rights afforded to individual participants to cooperatives and the collective membership of cooperatives. The comment stated that cooperatives need a similar review process, and that cooperatives often have to request reviews from the authority which issued the initial determination.

Cooperatives have previously had the right to request a review of adverse determinations made by the initial decision-maker. Under the prior appeal regulations, some issues were handled as reviews with hearings conducted before representatives of DASCO under the prior appeal regulations. The only specific reference to cooperatives' administrative review rights was published at 7 CFR part 1425, which afforded the rights to pursue an adverse determination in accordance with 7 CFR part 780.

As a result, the proposed rule defines the term "participant" to include cooperatives. Thus, under the proposed rule, a cooperative will have the right under § 780.7 to request an administrative review to the appropriate reviewing authority on behalf of its collective membership. If the review is pursued by a cooperative and the determination is adverse, the individual members will not have further review rights with respect to the issue under review, except at the discretion of the Director of NAD.

List of Subjects in 7 CFR Part 780

Administrative practices and procedures.

Proposed Rule

Accordingly, 7 CFR part 780 is revised to read as follows:

PART 780—ADMINISTRATIVE REVIEW REGULATIONS

Sec.

780.1 General statement.
780.2 Applicability.
780.3 Definitions.
780.4–780.6 [Reserved]
780.7 Requests for review.
780.8 Hearing procedures.
780.9–780.14 [Reserved]
780.15 Time limitations for filing requests for review.
780.16 Form of request for review.
780.17 Determinations.
780.18 Reopening of hearing.
780.19 Procedure governing reviews by National Appeals Division.
780.20 Participant requests for exercise of subpoena powers for the appearance of USDA representatives.
780.21 [Reserved]
780.22 Authority to grant relief.
780.23 Delegation of authority.
780.24 OMB-control numbers assigned pursuant to Paperwork Reduction Act.

Authority: 7 U.S.C. 1433e; 15 U.S.C. 714b and 714c; 16 U.S.C. 590h .

§ 780.1 General statement.

This part sets forth the regulations to provide for an administrative review process for adverse determinations issued with respect to programs which are administered by the Agricultural Stabilization and Conservation Service (ASCS). These programs also include programs administered by ASCS on behalf of the Commodity Credit Corporation (CCC) and are generally set forth in 7 CFR. This part also establishes the National Appeals Division (NAD) within ASCS, which will administer the provisions of this part. This part is applicable to any adverse determination made by any State or county Agricultural Stabilization and Conservation Committee (State committee and county committee, respectively) or personnel of ASCS or agents of CCC after November 28, 1990, which had not otherwise become final by November 25, 1991.

§ 780.2 Applicability.

(a) The regulations contained in this part are applicable to determinations made by county and State committees and any other personnel of ASCS or by agents of CCC, except as otherwise may be provided in individual program regulations. These regulations prescribe the rules and procedures that must be

followed by a person who seeks review of a determination made with respect to:

(1) Denial of participation in such a program;

(2) Compliance with program requirements; and

(3) The making of payments or other programs benefits.

(b) Reviews under this part are limited to individual program determinations made with respect to those persons meeting the requirements of paragraph (a) of this section. Accordingly, there is no right to review under this part with respect to general program requirements which are applicable to all program participants or procedures.

(c) Except as provided in § 780.23, notwithstanding any other provision in this part, determinations:

(1) Made under a conservation or environmental program involving a finding or certification by a representative of the Soil Conservation Service or Forest Service, or determinations of a technical nature by any Federal agency, other than a determination made by ASCS, shall not be reviewable; and

(2) Which are solely due to the general program provisions or statutory requirements which are applicable to all participants or producers are not reviewable.

§ 780.3 Definitions.

Appeal means a written request by a participant asking a reviewing authority to review an adverse determination made by a subordinate reviewing authority concerning the participant's eligibility for benefits issued under programs governed by this part, pursuant to the applicable program requirements.

CCC means the Commodity Credit Corporation, a wholly-owned Government corporation within the United States Department of Agriculture.

Cooperative means a cooperative that has been approved by CCC under the provisions of 7 CFR 1425 to participate in price support programs with respect to one or more authorized commodities, and which acts on behalf of its collective membership.

County Committee means a county Agricultural Stabilization and Conservation (ASC) committee established in accordance with section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)).

DASCO means the Deputy Administrator, State and County Operations of ASCS.

Director means the Director of NAD.

Hearing means an informal proceeding to afford a participant the opportunity to present testimony or documentary evidence or both, to have a previous determination reversed, and to show why an adverse determination was not proper. Hearings before NAD may include compulsory attendance of witnesses, compulsory production of documentary evidence, and the administering of oaths and affirmations if the Director of NAD or other designated authority determines such requirements are necessary.

Hearing Officer means an individual who is a representative of NAD and is assigned the responsibility of conducting a hearing for a request for review filed by a participant with the Director or other appropriate official in accordance with this part.

Initial Determination means the first program determination that contains a particular finding which adversely affects a participant as provided in § 780.2.

NAD means the National Appeals Division, the ASCS division established for the purpose of hearing and reviewing requests for reviews under this part.

Participant means any person whose right to participate in, or to receive payments or other benefits in accordance with, any of the programs to which these regulations apply is affected. An authorized representative of the participant, including a cooperative acting on behalf of its collective membership, shall be considered to be a participant.

Person means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity and, whenever applicable, a State, political subdivision of a State or any agency thereof.

Reconsideration is a subsequent review of a prior determination made by the same reviewing authority which issued the prior determination.

Relief is the right to receive a benefit in accordance with a program governed by this part, even though the participant has not satisfied all applicable program requirements.

Review is the consideration of a participant's right to receive benefits in accordance with a program governed by this part. Reviews include appeals, reconsiderations, and considerations of requests for relief.

Reviewing Authority is any county committee, State committee, DASCO, or NAD which is responsible under this part for examining and determining any matter under a request for a review. The Secretary, the Administrator of ASCS, or the Executive Vice President of CCC, may on their own motion serve as final reviewing authorities.

Secretary means the Secretary of Agriculture.

State Committee means a State ASC committee established in accordance with section (8b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) including, insofar as is practical, the Director of the Caribbean Area ASCS Office for Puerto Rico and the Virgin Islands.

Verbatim Transcript is an official, written record of proceedings in a hearing which has been transcribed by a transcription service whose appearance is arranged for in accordance with these regulations.

§ 780.4–780.6 [Reserved]

§ 780.7 Requests for review.

(a) *Appeals.* (1) A participant that believes an initial determination by a county committee, that has been reconsidered by the same county committee, was not proper may appeal the determination and request a hearing by filing a written appeal with the appropriate State committee.

(2) A participant that believes an initial determination by a State committee that has been reconsidered by the same State committee was not proper, that any other determination by a State committee was not proper, the participant may appeal the determination and request a hearing by filing a written appeal with NAD.

(3) A participant that believes a determination by an agent or representative of ASCS or CCC at the National level, after being reconsidered by such agent or representative, may appeal the determination and request a hearing by filing a written appeal with NAD.

(b) *Reconsideration.* (1) A participant that believes an initial determination by a county committee was not proper must timely request in writing a reconsideration of such determination by the county committee before it may be appealed to the applicable State committee.

(2) A participant that believes an initial determination by a State committee was not proper must timely request in writing a reconsideration of such determination by the State committee before it may be appealed to NAD.

(3) A participant that believes an initial determination by an agent or representative of ASCS or CCC at the National level was not proper must timely request in writing a reconsideration of such determination

by the agent or representative who issued the initial determination before it may be appealed to NAD.

(4) A participant may request a reconsideration of any determination made by a reviewing authority. Such request will be granted at the discretion of the reviewing authority.

(5) A request for reconsideration must be in writing and must:

(i) Explain why the determination was not proper and not made in accordance with applicable program regulations; or

(ii) Identify facts that were not considered with respect to the determination.

(6) Unless the determination otherwise indicates, reconsideration is not available from:

(i) A determination issued by the Secretary, the Administrator of ASCS, or the Executive Vice President of CCC;

(ii) A reconsidered determination issued by NAD, provided such determination does not contain an initial determination; or

(iii) A determination with respect to requests for relief.

(7) The party conducting the reconsideration pursuant to the provision of this part has the discretion to allow the participant to make an oral presentation in support of its request for reconsideration.

§ 780.8 Hearing procedures.

(a) The hearing shall be held at the time and place designated by the reviewing authority.

(b) The hearing shall be part of a *de novo* review of the participant's case conducted by the reviewing authority, or a representative of the reviewing authority, in the manner determined by CCC or ASCS to be most likely to obtain the facts relevant to the matter at issue. The reviewing authority may confine the presentation of facts and evidence to pertinent matters and may exclude irrelevant, immaterial, or unduly repetitious evidence, information, or questions.

(c) When the participant requests copies of documents, information, or evidence upon which a determination is made or which will form the basis of the determination, copies of all program documents, information or evidence, including minutes from county committee or State committee proceedings, shall be made available to the participant.

(d) The reviewing authority shall, before the hearing, prepare a written record which contains a clear, concise statement of the facts as asserted by the participant and the material facts found by the reviewing authority. The names of interested individuals appearing at the hearing shall be included.

(e) A verbatim transcript of the hearing may be made if:

(1) The participant requests, not later than 7 calendar days before the date of the scheduled hearing, that the reviewing authority arrange for such a transcript and agrees to pay the expense thereof; or

(2) The reviewing authority determines that such a transcript is appropriate.

(f) Unofficial recording of a hearing by an audio or video recorder or by an unauthorized transcription service is prohibited.

(g) The participant shall be given a full opportunity to present facts and information relevant to the matter at issue and may present oral or documentary evidence. At its discretion, the reviewing authority may request or permit individuals other than those appearing on behalf of the participant to present information or evidence at such hearing, and, in such event, may permit the participant to question such individuals.

(h) If, by the time the hearing is scheduled to begin, the participant is absent and no appearance is made on behalf of the participant or no arrangements have been made for rescheduling the hearing, the reviewing authority shall, after a reasonable period of time, conclude the hearing or may, at its discretion, accept information and evidence submitted by other individuals present at the hearing.

(i) The provisions of this section shall not be applicable to reviews conducted by the Secretary, the Administrator of ASCS, or the Executive Vice President of CCC.

§ 780.9–780.14 [Reserved]

§ 780.15 Time limitations for filing requests for review.

(a) A request for review shall be filed within 15 calendar days after written notice of the determination which is the subject of such request is mailed to or otherwise made available to the participant. Such a request shall be considered to have been "filed" when personally delivered in writing to the appropriate reviewing authority or when postmarked.

(b) Whenever the final date for filing a request for review prescribed in paragraph (a) of this section falls on a Saturday, Sunday, legal holiday or other day on which the appropriate office is not open for the transaction of business during normal workhours, the time for filing shall be extended to the close of business on the next workday.

(c) Any request for review may be accepted and acted upon even though it is not filed within the time prescribed in paragraph (a) or (b) of this section if, in the judgment of the reviewing authority with whom such request is filed, the circumstances warrant such action. If the applicable reviewing authority declines acceptance of a late-filed request, such refusal is not subject to further review.

§ 780.16 Form of request for review.

Each request for review shall be in writing and signed by the participant. Each request shall be supported by a written statement of facts, which may be submitted with, or as a part of, the request or at any time before the scheduled hearing. The participant may request that a determination be made by the reviewing authority without a hearing on the basis of the written statement submitted and other information available to the reviewing authority. If the participant does not appear at the scheduled hearing or otherwise make arrangements for a rescheduled hearing, the reviewing authority shall make its determination based on the facts available, including any additional material subsequently submitted by the participant.

§ 780.17 Determinations.

(a) The reviewing authority, before making a determination, may request the participant to produce additional evidence which it may deem relevant, or develop additional evidence from other sources. Upon review and within program authorities, the reviewing authority may affirm, modify, or reverse any determination made by it initially or made by a lower reviewing authority, or may remand the matter to a lower reviewing authority for such further consideration as is deemed appropriate. The participant shall be notified in writing of the determination. The notification shall clearly set forth the basis for the determination, as established by applicable regulations, and the facts and circumstances in the case record. Any other persons identified as being adversely affected directly by the determination shall be notified in writing of the determination.

(b) Program determinations issued by a State or county committee, or employees of such committees, made in good faith in the absence of misrepresentation, false statements, fraud, or willful misconduct by the participant, unless otherwise reviewed under these regulations or modified under § 780.23 within 90 calendar days, shall be final, and no action shall be

taken to recover amounts found to have been disbursed thereon in error unless the person had reason to believe that the determination was erroneous.

(c) Notwithstanding the provision of paragraph (b) of this section, representatives of ASCS and CCC may correct all errors in entering data on program contracts, loan agreements, and other program documents as well as the results of computations or calculations made pursuant to the contract or agreement.

§ 780.18 Reopening of hearing.

The reviewing authority, at its discretion, may for any reason it deems appropriate, or upon request of the participant when such request is accompanied by production of new and substantive information which could have a bearing on the prior determination, reopen any hearing for the purposes of conducting a further review of a prior determination unless the matter has been or is being appealed to a higher reviewing authority or is otherwise being considered by the appropriate ASCS or CCC official in accordance with the general program provisions set forth in 7 CFR.

§ 780.19 Procedure governing reviews by National Appeals Division.

(a) The Director:

(1) Upon request, shall have access to all records, reports, audits, reviews, documents, papers, recommendations, or other material available that relate to programs and operations with respect to which a request for review has been taken;

(2) May request such information or assistance as may be deemed necessary from any Federal, State, or local governmental agency or unit thereof;

(3) May require the attendance of witnesses, the production of all information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence necessary to the proper resolution of reviews;

(4) May, if appropriate, require the attendance of witnesses and production of documentary evidence by subpoena, which subpoena, in the case of contumacy or refusal to obey, shall be enforceable by order of any appropriate United States district court;

(5) May administer oaths and affirmations, whenever necessary in the process of a hearing;

(6) Shall make all determinations with respect to reviews to NAD based on a copy of the record, certified and presented by the hearing officer to the Director; and

(7) May order further proceedings in order that the record presented for review may be complete or in order to hear new or additional evidence.

(b) Hearing officers are authorized to:

(1) Request access to all records, reports, audits, reviews, documents, papers, recommendations, or other available material that relate to the programs and operations with respect to which a review has been taken;

(2) Request such information or assistance as may be necessary from any Federal, State, or local governmental agency;

(3) Require the production of all information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence; and

(4) Administer oaths and affirmations.

(c) In addition to the requirements set forth at section 780.8, additional requirements, as determined necessary, may be established by the Director.

(d) A copy of the administrative procedures governing NAD hearings can be obtained from the Director at the following address: Director, NAD, ASCS, USDA, P.O. Box 2415, Washington, DC 20013–2415.

§ 780.20 Participant requests for exercise of subpoena powers or for appearance of USDA representatives.

(a) A participant may request that the Director of NAD issue a subpoena as provided in section 780.19 to obtain documents and the testimony of witnesses, if:

(1) The request is made in writing to the Director of NAD within 15 calendar days of the date of NAD's notification of review to the participant;

(2) The request establishes that:

(i) Production of documentary or oral evidence pursuant to the subpoena is reasonably calculated to lead to information which would affect the final determination, or is necessary to fully present the participant's case before NAD;

(ii) The NAD subpoena is the only reasonable way this information can be presented to NAD; and

(3) The participant pays for the costs of serving the subpoena, copying costs for the production of documents subpoenaed, and travel costs of witnesses subpoenaed.

(b) A participant may request the Director of NAD to require the appearance of USDA representatives at a hearing before NAD if:

(1) The request is made in writing to the Director of NAD within 15 calendar days of the date of NAD's notification of review to the participant; and

(2) The request establishes that a representative of USDA possesses information that is pertinent and necessary for the disclosure of all relevant facts which could affect the final determination and the information cannot be obtained except through the testimony of the USDA representative.

(c) Testimony by USDA representatives may, at the discretion of the Director of NAD, be presented in person or by telephone.

§ 780.21 [Reserved]

§ 780.22 Authority to grant relief.

(a) In accordance with this section, a participant may request that relief be granted by a county committee, State committee, or NAD regarding a determination made by any official of ASCS or CCC (excluding the Administrator, ASCS, or the Executive Vice President, CCC). If such reviewing authority lacks the authority to grant relief, it may seek authority to grant the requested relief from an appropriate representative of ASCS or CCC.

(b) If the county committee denies a participant's request for relief, the participant may make a written request to the State committee to review that determination.

(c) If the State committee or any other representative of ASCS or CCC (excluding the Administrator, ASCS, and the Executive Vice President, CCC) denies the request for relief, the participant may make a written request to NAD to review that determination.

(d) The Director of NAD may grant requests for relief to the same extent as is delegated to any other representative of CCC or ASCS, excluding the authority granted to the Administrator, ASCS, and the Executive Vice President, CCC.

(e) The provisions of this part shall not preclude DASCO or its designee from making determinations regarding requests for the authority to grant relief submitted and approved by State committees.

§ 780.23 Delegation of authority.

Nothing contained in the regulations of this part shall preclude the Secretary, the Administrator of ASCS, or the Executive Vice President of CCC, or a designee, from determining at any time any question arising under the programs

to which the regulations in this part apply, or from reversing or modifying in writing, with sufficient reason given therefore, any determination made by a county committee, State committee, the Director of NAD, or any other employee or representative of ASCS or CCC.

§ 780.24 OMB-control numbers assigned pursuant to Paperwork Reduction Act.

The information collection requirements contained in these regulations (7 CFR part 780) have been approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C. chapter 35, and assigned OMB No. 0560–0137.

Signed on September 16, 1992 at Washington, DC.

John A. Stevenson,

Acting Administrator, Agricultural Stabilization and Conservation Service, Executive Vice President, Commodity Credit Corporation.

[FV–91–276B]

Mushroom Promotion, Research, and Consumer Information Order; Extension of Voting Period

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Amendment to referendum order.

SUMMARY: This action extends the voting period for the referendum during which mushroom producers and importers will vote on whether the mushroom Promotion, Research, and Consumer Information Order will become effective. The voting period has been extended an additional 14 days to conclude on September 28, 1992, rather than September 14, 1992.

DATES: A referendum shall be conducted from August 24, 1992, through September 28, 1992.

ADDRESSES: Richard Schultz, Research and Promotion Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, room 2533–S, P.O. 96456, Washington, DC 20090–6456.

FOR FURTHER INFORMATION CONTACT: Richard Schultz at the above address or telephone (202) 720–5976.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding: Proposed Rule published in the October 4, 1991, issue of the **Federal Register** (56 FR 50283); Proposed Rule and meeting Notice published in the January 15, 1992, issue of the **Federal Register** (57 FR 1666); Proposed Rule and Referendum Order published in the June 10, 1992, issue of the **Federal Register** (57 FR 24719); and Amendment to Referendum Order published in the August 14, 1992, issue of the **Fedral Register** (57 FR 36610).

The June 10 referendum order specified that the voting period would be from July 22, 1992, through August 12, 1992. That voting period was delayed due to court action. Subsequently, a referendum order was initially amended in order to reschedule the voting period. Pursuant to the amendment, the voting period began on August 24, 1992, and was scheduled to end on September 14, 1992. However, a printing error on the envelopes used in the referendum ballot package which was mailed to all known mushroom producers and importers has been detected. These envelopes were imprinted with an incorrect business reply mail permit number. Consequently, not all of the referendum ballot packages may have been delivered to potentially eligible voters. Therefore, in order to assure full voter participation in the referendum, the Department has extended the voting period through September 28, 1992, and has made a second mailing of ballot materials to all know mushroom producers and importers. The second ballots may be distinguished by their different color (yellow). In cases where a valid first ballot has already been received, the second ballot will not be counted since only one ballot will be counted for each voting entity.

The referendum order is hereby amended to read as follows:

It is hereby directed that a referendum be conducted among mushroom producers and importers to determine whether producers and importers favor the establishment of a national mushroom promotion, research, consumer information, and industry information program. Such a program would be implemented through a Mushroom Promotion, Research, and Consumer Information Order (order). The representative period for establishing voter eligibility for the referendum shall be the period from July 1, 1990, through June 30, 1992. A referendum shall be conducted from August 24, 1992, through September 28, 1992.

The Mushroom Promotion, Research, and Consumer Information Act of 1990 (Act) specifies that the Secretary of Agriculture (Secretary) will conduct a referendum among mushroom producers and importers to determine whether the order shall become effective. The Act further specifies that the order shall become effective, if the Secretary determines that the order has been approved by a majority of the producers and importers voting in the referendum, which majority, on average, annually produces and imports into the United States more than 50 percent of the mushrooms annually produced and imported by all those voting in the referendum.

Richard Schultz and Martha B. Ransom, Research and Promotion Branch, Fruit and Vegetable Division, Agricultural Marketing Service, P.O. Box 96456, U.S. Department of Agriculture, Washington, DC 20090–6456, are designated as the referendum agents of the Secretary of Agriculture to conduct this referendum. The Procedure for the Conduct of Referenda in Connection with the Mushroom Promotion, Research, and Consumer Information Order, 7 CFR 1209.300–1209.307 shall be used to conduct the referendum.

Ballots to be cast in the referendum, and any related material relevant to the referendum, will be mailed by the referendum agents to all known mushroom producers and importers. Persons who have produced or imported, on average, over 500,000 pounds of mushrooms that were marketed or imported annually for fresh use during the representative period are eligible to vote. Such persons shall establish their eligibility by providing information on the ballot concerning their volume of production or importation. Such information may be subject to verification. Should any eligible producer or importer not receive a ballot and related material, such producer or importer should immediately contact the referendum agents.

Dated: September 17, 1992.

Daniel Haley,

Administrator.

[FR Doc. 92-23016 Filed 9-22-92; 8:45 am]

BILLING CODE 3410-02-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92-NM-117-AD]

Airworthiness Directives; Boeing Model 727 Series Airplanes Equipped With Bendix Brakes Fitted With NASCO Rotors Installed in Accordance With Supplemental Type Certificate (STC) SA3946NM

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Boeing Model 727 series airplanes. This proposal would require that certain landing gear brakes be inspected for wear and replaced if the wear limits prescribed in this proposal are not met, and that the new wear limits be incorporated into the FAA-approved maintenance inspection program. This proposal is prompted by an accident in which a transport category airplane executed a rejected takeoff (RTO) and was unable to stop on the runway due to worn brakes. The actions specified by the proposed AD are intended to prevent the loss of brake effectiveness during a high energy RTO and further incidents/accidents.

DATES: Comments must be received by September 8, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-117-AD, 1601 Lind Avenue SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9:00 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Andrew Gfrerer, Aerospace Engineer, Mechanical/Environmental and Crashworthiness Section, ANM-131L, FAA, Los Angeles Aircraft Certification Office (ACO), 3229 East Spring Street, Long Beach, California 90806; telephone (310) 988-5338; fax (310) 988-5210.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-NM-117-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-117-AD, 1601 Lind Avenue SW., Renton, Washington 98055-4056.

Discussion

In 1988, a McDonnell Douglas Model DC-10 series airplane was involved in an aborted takeoff accident in which eight of the ten brakes failed and the airplane ran off the end of the runway. Investigation revealed that there were failed pistons on each of the eight brakes, with O-rings damaged by over-extension due to extensive wear. Fluid leaking from the damaged pistons caused the hydraulic fuses to close, releasing all brake pressure.

This accident prompted a review of allowable wear limits for all brakes installed on transport category airplanes. The FAA and the Aerospace Industries Association (AIA) jointly developed a set of dynamometer test guidelines that could be used to validate appropriate wear limits for all airplane brakes. It should be noted that this worn brake accountability determination validates brake wear limits with respect to brake energy capacity only and is not meant to account for any reduction in brake force due solely to the wear state of the brake. Any reduction in brake force (or torque) that may develop over time as a result of brake wear is to be evaluated and accounted for as part of a separate rulemaking project. The guidelines for validating brake wear limits allow credit for use of reverse thrust to determine energy level absorbed by the brake during the dynamometer test.

The FAA has requested that U.S. airframe manufacturers: (1) determine required adjustments in allowable wear limits for all of its brakes in use, (2) schedule dynamometer testing to validate wear limits as necessary, and (3) submit information from items (1) and (2) to the FAA so that appropriate rulemaking action(s) can be initiated.

Worn brake rejected takeoff (RTO) dynamometer testing and analyses have been conducted with regard to various brakes installed on Boeing Model 727 series airplanes. The FAA previously has issued AD 91-18-07 [amendment 39-8010, (56 FR 51162, October 10, 1991)] and AD 92-12-08 [amendment 39-8269, (57 FR 29194, July 1, 1992)], which require the establishment of maximum brake wear limits for various main landing gear brakes installed on certain Boeing Model 727 series airplanes. The brake wear limits established by those AD's are based on dynamometer test data and analyses that were submitted by Boeing Commercial Airplane Group, Allied Signal Aerospace Company (Bendix Wheels and Brakes Division), and BFGoodrich Aerospace; these data were evaluated by the FAA.

Recently, NASCO Aircraft Brake, Inc., submitted, and the FAA evaluated, a series of dynamometer test data and analyses concerning Model 727 series airplanes equipped with Bendix brakes that are fitted with NASCO rotors installed in accordance with Supplemental Type Certificate (STC) SA3948NM. The FAA also witnessed some of the dynamometer tests, which were conducted in April 1992. Based on these data, the FAA has determined that the maximum brake wear limits currently recommended in the Component Maintenance Manuals for Model 727 series airplanes equipped with these specific brakes are not acceptable as they relate to the effectiveness of the brakes during a high energy RTO. Further, these limits are only recommended values.

The FAA has determined that, in order to prevent loss of brake effectiveness during a high energy RTO, the following new maximum brake wear limits are necessary for Model 727 series airplanes equipped with Bendix brakes that are fitted with NASCO rotors installed in accordance with STC SA3948NM:

Bendix part No.	Boeing part No.	Maximum wear limit (inches)
2601182-5	10-61287-22	1.8
2601182-6	10-61287-23	1.7

Since an unsafe condition has been identified that is likely to exist or develop on other products of this same type design, the proposed AD would require the inspection of landing gear brakes currently installed on these specific Model 727 series airplanes to determine the amount of wear, and replacement if the new wear limits are not met; and the incorporation of the specified new maximum wear limits for the specified brakes into the FAA-approved maintenance inspection program.

There are approximately 690 Boeing Model 727 series airplanes of the affected design in the worldwide fleet. The FAA estimates that 375 airplanes of U.S. registry would be affected by this proposed AD, that it would take approximately 12 work hours per airplane to accomplish the proposed actions, and that the average labor rate is $55 per work hour.

The cost of required parts to accomplish the change in wear limits for these airplanes (that is, the cost resulting from the requirement to change the brakes before they are worn to their previously approved limits for a one-time change) would be approximately $3,160 per airplane. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $1,432,500. This total cost figure assumes that no operator has yet accomplished the requirements of this AD.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Boeing: Docket 92-NM-117-AD.

Applicability: Model 727 series airplanes equipped with Bendix brakes fitted with NASCO rotors installed in accordance with Supplemental Type Certificate (STC) SA3948NM; and equipped with the brake part numbers identified in paragraph (a) of this AD; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent the loss of main landing gear braking effectiveness, accomplish the following:

(a) Within 180 days after the effective date of this AD, inspect brakes having the brake part numbers specified below for wear. Any brake worn more than the maximum wear limit specified below must be replaced, prior to further flight, with a brake within this limit.

BENDIX BRAKES FITTED WITH NASCO ROTORS INSTALLED IN ACCORDANCE WITH STC SA3948NM

Bendix P/N	Boeing P/N	Maximum wear limit (inches)
2601182-5	10-61287-22	1.8
2601182-6	10-61287-23	1.7

(b) Within 180 days after the effective date of this AD, incorporate the maximum brake wear limits specified in paragraph (a) of this AD, into the FAA-approved maintenance inspection program.

(c) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Los Angeles Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Los Angeles ACO.

Note: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Los Angeles ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on July 10, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[INTL-309-88]

RIN 1545-AL84

Determination of Interest Expense Deduction of Foreign Corporations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Rescheduling of time and location of public hearing on proposed regulations.

SUMMARY: This document reschedules the time and location of the public hearing on proposed regulations relating to the determination of the interest expense deduction of foreign corporations engaged in a trade or business within the United States.

DATES: The public hearing has been rescheduled for Friday, October 30, 1992, beginning at 1:30 p.m. Requests to speak, and outlines of oral comments to be presented at the public hearing must be received by Friday, October 9, 1992.

ADDRESSES: The public hearing will be held in the IRS Commissioner's Conference Room, room 3313, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. Send all submissions to: Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Attn: CC:CORP:T:R [INTL–309–88], room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Concerning the regulations, Karl T. Walli of the Office of Associate Chief Counsel (International) at (202) 622–3870. Concerning the hearing, Bob Boyer of the Regulations Unit, Assistant Chief Counsel (Corporate), 202–622–7190, (not toll-free calls).

SUPPLEMENTARY INFORMATION: A rescheduling notice of public hearing appearing in the **Federal Register** on Thursday, July 9, 1992 (57 FR 30451), announced among other things, that the date of the public hearing was rescheduled to Friday, October 30, 1992, beginning at 10:00 a.m. in the Internal Revenue Service Auditorium. There has been a change in the time and location of the public hearing to be held on Friday, October 30, 1992. The hearing will be held on Friday, October 30, 1992. The hearing will be held on Friday, October 30, 1992, beginning at 1:30 p.m. in the IRS Commissioner's Conference Room, room 3313, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, DC. Requests to speak and outlines of oral comments to be presented at the public hearing must be received by Friday, October 9, 1992.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 1 p.m.

In all other aspects, the details regarding the notice of proposed rulemaking and the public hearing will remain the same.

By direction of the Commissioner of Internal Revenue.

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

BILLING CODE 4830–01–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 917

Kentucky Permanent Regulatory Program; Fish and Wildlife Resources

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; reopening and extension of comment period on proposed amendment.

SUMMARY: OSM is announcing the receipt of revisions to a previously prepared amendment to the Kentucky permanent regulatory program (hereinafter referred to as the Kentucky program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). By letter of July 21, 1992, (Administrative Record No. KY–1167) Kentucky resubmitted a proposed program amendment that completed the Kentucky promulgation process under Kentucky Revised Statutes (KRS) Chapter 13A. The amendment consists of proposed modifications to Kentucky Administrative Regulations (KAR) at 405 KAR 8:030, 8:040, 16:180 and 18:180 that relate to fish and wildlife resources. This proposed amendment replaces two earlier proposed program amendments Administrative Record No. KY–1119 submitted March 13, 1992, and Administrative Record No. KY–1059 originally submitted June 28, 1991. This proposed amendment also addresses comments by OSM sent to Kentucky in a letter dated April 8, 1992, (Administrative Record No. KY–1126).

This notice sets forth the times and locations that the Kentucky program and the proposed amendment are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on October 8, 1992. If requested, a public hearing on the proposed amendment will be held at 10 a.m. on October 5, 1992. Requests to present oral testimony at the hearing must be received on or before 4 p.m. on September 28, 1992.

ADDRESSES: Written comments and requests for a hearing should be mailed or hand delivered to: William J. Kovacic, Director, Lexington Field Office, Office of Surface Mining Reclamation and Enforcement, 340 Legion Drive, suite 28, Lexington, Kentucky 40504. Copies of the Kentucky program, the proposed amendment, and all written comments received in response to this notice will be available for review at the addresses listed below, Monday through Friday, 9 a.m. to 4 p.m., excluding holidays. Each requestor may receive, free of charge, one copy of the proposed amendment by contacting OSM's Lexington Field Office.

Office of Surface Mining Reclamation and Enforcement, Lexington Field Office, 340 Legion Drive, suite 28, Lexington, Kentucky 40504, Telephone: (606) 233–2896

Office of Surface Mining Reclamation and Enforcement, Eastern Support Center, Ten Parkway Center, Pittsburgh, Pennsylvania 15220, Telephone: (412) 937–2828

Department for Surface Mining Reclamation and Enforcement, No. 2 Hudson Hollow Complex, Frankfort, Kentucky 40601, Telephone: (502) 564–6940. If a public hearing is held, its location will be: The Harley Hotel, 2143 North Broadway, Lexington, Kentucky 40505.

FOR FURTHER INFORMATION CONTACT: William J. Kovacic, Director, Lexington Field Office, Telephone (606) 233–2896.

SUPPLEMENTARY INFORMATION:

I. Background

On May 18, 1982, the Secretary of the Interior conditionally approved the Kentucky program. Information pertinent to the general background, revisions, modifications, and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval can be found in the May 18, 1982, **Federal Register** (47 FR 21404–21435). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 917.11, 917.15, 917.16, and 917.17.

II. Discussion of Amendment

By letter of July 21, 1992, (Administrative Record No. KY–1167) Kentucky resubmitted a proposed program amendment that completed the Kentucky promulgation process under

Kentucky Revised Statutes (KRS) Chapter 13A. This proposed amendment replaces two earlier proposed program amendments Administrative Record No. KY-1119 submitted March 13, 1992, and Administrative Record No. KY-1059 originally submitted June 28, 1991. This proposed amendment also addresses comments by OSM sent to Kentucky in a letter dated April 8, 1992, (Administrative Record No. KY-1126).

This resubmission is the same as the March 13, 1992, submittal except for the following changes made during the State regulation promulgation process. Three changes were made in response to OSM's April 8, 1992, issue letter. The changes are as follows:

1. Proposed 405 KAR 16:180 section 1(3) and 18:180 section 1(3), pertaining to the applicability of the performance standards for protection of fish and wildlife, were deleted. With these changes, the applicability of section 1 of these regulations will not be deferred to apply only to applications submitted on and after November 17, 1992.

2. In proposed 405 KAR 16:180 section 2(1)(a), (b) and 18:180 section 2(1)(a), (b) pertaining to the reporting of sightings of bald or golden eagle nests or threatened or endangered species, the word "permittee" was changed to "operator." With these changes, the operator will be responsible for reporting such sightings and the permittee will be responsible only if he is also the operator.

3. Our June 28, 1991, submittal contained the language "construct stream crossings so as not to adversely affect fish migration and aquatic habitat" at 405 KAR 16:180 section 1(2)(a)3 and 18:180 section 1(2)(a)3. The March 13, 1992, submittal did not contain the language because those subparagraphs were deleted prior to filing with the Legislative Research Commission on March 6, 1992; however, the succeeding subparagraph have now been renumbered (a)3 and (a)4.

Likewise, other changes were made during the State promulgation process. These changes are as follows:

1. 405 KAR section 8:030 2(12) and 8:040 section 2(12) were revised to make clear that a permit cannot be suspended for failure to submit certain updated information unless the Natural Resources and Environmental Protection Cabinet has requested the information and the permittee has failed or refused to timely submit it and has had an opportunity for a hearing.

2. 405 KAR 8:030 and 8:040, sections 20 and 36, were restructured for clarity by creating new subsections regarding the applicability date of these sections, in order to separate the applicability provisions from the decision criteria for certain types of amendments and revisions.

3. 405 KAR 8:040 section 20 was revised regarding the area for which fish and wildlife resource information is required. "Permit area and adjacent area" was changed to "area of surface operations and facilities and adjacent area, and areas subject to probable impacts from underground workings, including areas of probable subsidence." Since the "permit area" of underground mines encompasses a larger area in Kentucky regulations than in Federal regulations, this change was needed to make the area subject to fish and wildlife resource information requirements in Kentucky consistent with the area subject to fish and wildlife resource information requirements in Kentucky consistent with the area subject to such requirements in Federal regulations.

4. A cross-reference was corrected in 405 KAR 8:040 section 20(5)(a)3 and section 36(4)(a)3.

III. Public Comment Procedures

In accordance with the provisions of 30 CRF 732.17(h), OSM is now seeking comment on whether the amendment proposed by Kentucky satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Kentucky program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commentor's recommendations. Comments received after the time indicated under "**DATES**" or at locations other than the Lexington Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under "FOR FURTHER INFORMATION CONTACT" by 4 p.m. on October 5, 1992. If no one requests an opportunity to comment at a public hearing, the hearing will not be held. Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment, and who wish to do so, will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendments may request a meeting at the OSM, Lexington Field Office listed under "**ADDRESSES**" by contacting the person listed under "**FOR FURTHER INFORMATION CONTACT.**" All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance at the locations listed under "**ADDRESSES.**" A written summary of each meeting will be made a part of the Administrative Record.

Executive Order 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted the Office of Surface Mining Reclamation and Enforcement (OSM) an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of the Surface Mining Control and Reclamation Act (SMCRA) (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731 and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1293(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 *et seq.*

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

BILLING CODE 4310-05-M

30 CFR Part 917

Kentucky Permanent Regulatory Program; Termination and Reassertion of Jurisdiction

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing the receipt of a proposed program amendment to the Kentucky permanent regulatory program (hereinafter referred to as the Kentucky program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). By letter of July 21, 1992, (Administrative Record No. KY-1165) Kentucky submitted a proposed program amendment containing modifications to 405 Kentucky Administrative Regulations (KAR) 1:007, 3:007 and 7:030. The proposed program amendment pertains to the termination and reassertion of jurisdiction by Kentucky to regulate interim and permanent program minesites. These proposed regulation changes also respond to in part to OSM's 30 CFR part 732 letter dated February 8, 1990, (Administrative Record No. KY-967).

This notice sets forth the times and locations that the Kentucky program and the proposed amendment are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on October 23, 1992. If requested, a public hearing on the proposed amendment will be held at 10 a.m. on October 13, 1992. Requests to present oral testimony at the hearing must be received on or before 4 p.m. on October 8, 1992.

ADDRESSES: Written comments and requests for a hearing should be mailed or hand delivered to: William J. Kovacic, Director, Lexington Field Office, Office of Surface Mining Reclamation and Enforcement, 340 Legion Drive, Suite 28, Lexington, Kentucky 40504. Copies of the Kentucky program, the proposed amendment, and all written comments received in response to this notice will be available for review at the addresses listed below, Monday through Friday, 9 a.m. to 4 p.m., excluding holidays. Each requester may receive, free of charge, one copy of the proposed amendment by contacting OSM's Lexington Field Office.

Office of Surface Mining Reclamation and Enforcement, Lexington Field Office, 340 Legion Drive, Suite 28, Lexington, Kentucky 40504, Telephone: (606) 233-2896.

Office of Surface Mining Reclamation and Enforcement, Eastern Support Center, Ten Parkway Center, Pittsburgh, Pennsylvania 15220, Telephone: (412) 937-2828.

Department for Surface Mining Reclamation and Enforcement, No. 2 Hudson Hollow Complex, Frankfort, Kentucky 40601, Telephone: (502) 564-6940.

If a public hearing is held, its location will be: the Harley Hotel, 2143 North Broadway, Lexington, Kentucky 40505.

FOR FURTHER INFORMATION CONTACT: William J. Kovacic, Director, Lexington Field Office, Telephone (606) 233-2896.

SUPPLEMENTARY INFORMATION:

I. Background

On May 18, 1982, the Secretary of the Interior conditionally approved the Kentucky program. Information pertinent to the general background, revisions, modifications, and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval can be found in the May 18, 1982, **Federal Register** (47 FR 21404-21435). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 917.11, 917.15, 917.16, and 917.17.

II. Discussion of Amendment

By letter of July 21, 1992, (Administrative Record No. KY-1165) Kentucky submitted a proposed program amendment containing modifications to 405 Kentucky Administrative Regulations (KAR) 1:007, 3:007 and 7:030 regarding termination of jurisdiction. These proposed regulation changes also respond in part to OSM's 30 CFR part 732 letter dated February 8, 1990, (Administrative Record No. KY-967).

This proposed amendment modifies the termination and subsequent reassertion of the Natural Resources and Environmental Protection Cabinet's (the Cabinet) jurisdiction under the interim surface and underground coal mining regulations, 405 KAR Chapter 1 and 3. Beginning November 1, 1992, the jurisdiction of the Cabinet over the reclaimed site of a completed surface and underground coal mining and reclamation operation, or increment thereof, will automatically terminate upon the final decision of the Cabinet in accordance with 405 KAR 1:050 section 11 and 405 KAR 3:050 section 11 to release the performance bond fully. The Cabinet's decision to release the bond is not "final" for the purpose of termination of jurisdiction until the time to file administrative and judicial appeals of the bond release has expired and any appeals have been resolved. The Cabinet must later reassert its jurisdiction if the decision to release the bond is demonstrated to have been based upon fraud, collusion, or misrepresentation of a material fact.

This proposed amendment also modifies the termination and subsequent

reassertion of the Cabinet's jurisdiction under the permanent program surface coal mining regulations, 405 KAR Chapter 7–24. Beginning November 1, 1992, the jurisdiction of the Cabinet over the reclaimed site of a completed surface coal mining and reclamation operation, or increment thereof, will automatically terminate upon the final decision of the Cabinet in accordance with 405 KAR 10:040 to release the performance bond fully. The Cabinet's decision to release the bond is not "final" for the purpose of termination of jurisdiction until the time to file administrative and judicial appeals of the bond release has expired and any appeals have been resolved. The Cabinet must later reassert its jurisdiction if the decision to release the bond is demonstrated to have been based upon fraud, collusion, or misrepresentation of a material fact. The same criteria apply to termination and reassertion of jurisdiction over the reclaimed site of a completed coal exploration operation, except that the Cabinet's written determination that the site meets the requirements of 405 KAR chapter 7–24 and KRS chapter 350, rather than a bond release decision (bond is not required for coal exploration operations), is the basis for the termination of jurisdiction.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Kentucky satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Kentucky program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commentor's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Lexington Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under "**FOR FURTHER INFORMATION CONTACT**" by 4 p.m. on October 8, 1992. If no one requests an opportunity to comment at a public hearing, the hearing will not be held. Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment, and who wish to do so, will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendments may request a meeting at the OSM, Lexington Field Office listed under "**ADDRESSES**" by contacting the person listed under "**FOR FURTHER INFORMATION CONTACT.**" All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance at the locations listed under "**ADDRESSES.**" A written summary of each meeting will be made a part of the Administrative Record.

Executive Order 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted the Office of Surface Mining Reclamation and Enforcement (OSM) an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of the Surface Mining Control and Reclamation Act (SMCRA) (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731 and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 et seq.

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

30 CFR Part 917

Kentucky Permanent Regulatory Program; Hearings

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing the receipt of a proposed program amendment to the Kentucky permanent regulatory program (hereinafter referred to as the Kentucky program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). By letter of July 28, 1992 (Administrative Record No. KY–1170), Kentucky submitted a proposed program amendment containing additions and modifications to 405 Kentucky Administrative Regulations (KAR) 7:001, 7:091, 7:092, 8:001, 10:001, 12:001, 12:020, 16:001, 18:001, 20:001 and 24:001. The proposed program amendment establishes new procedures for administrative hearings conducted under Kentucky Revised Statutes (KRS) chapter 350. The regulations are in response to the Kentucky Supreme Court's decision in *Franklin* v. *Natural Resources and Environmental Protection Cabinet*, Ky., 799 S.W.2nd 1 (1990). These proposed regulation changes also respond to OSM's 30 CFR part 732 letter dated November 14, 1991 (Administrative Record No. KY–1080).

The proposed amendment also amends various regulation sections by modifying and adding new definition terms.

This notice sets forth the times and locations that the Kentucky program and the proposed amendment are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on October 23, 1992. If requested, a public hearing on the proposed amendment will be held at 10 a.m. on October 13, 1992. Requests to present oral testimony at the hearing must be received on or before 4 p.m. on October 8, 1992.

ADDRESSES: Written comments and requests for a hearing should be mailed or hand delivered to: William J. Kovacic, Director, Lexington Field Office, Office of Surface Mining Reclamation and Enforcement, 340 Legion Drive, Suite 28, Lexington, Kentucky 40504. Copies of the Kentucky program, the proposed amendment, and all written comments received in response to this notice will be available for review at the addresses listed below, Monday through Friday, 9 a.m. to 4 p.m., excluding holidays. Each requestor may receive, free of charge, one copy of the proposed amendment by contacting OSM's Lexington Field Office.

Office of Surface Mining Reclamation and Enforcement, Lexington Field Office, 340 Legion Drive, Suite 28, Lexington, Kentucky 40504, Telephone: (606) 233–2896.

Office of Surface Mining Reclamation and Enforcement, Eastern Support Center, Ten Parkway Center, Pittsburgh, Pennsylvania 15220, Telephone: (412) 937–2828.

Department for Surface Mining Reclamation and Enforcement, No. 2 Hudson Hollow Complex, Frankfort, Kentucky 40601, Telephone: (502) 564–6940.

If a public hearing is held, its location will be: The Harley Hotel, 2143 North Broadway, Lexington, Kentucky 40505.

FOR FURTHER INFORMATION CONTACT: William J. Kovacic, Director, Lexington Field Office, Telephone (606) 233–2896.

SUPPLEMENTARY INFORMATION:

I. Background

On May 18, 1982, the Secretary of the Interior conditionally approved the Kentucky program. Information pertinent to the general background, revisions, modifications, and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval can be found in the May 18, 1982, **Federal Register** (47 FR 21404–21435). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 917.11, 917.15, 917.16, and 917.17.

II. Discussion of Amendment

By letter of July 28, 1992, (Administrative Record No. KY–1170) Kentucky submitted a proposed program amendment containing additions and modifications to 405 Kentucky Administrative Regulations (KAR) 7:001, 7:091, 7:092, 8:001, 10:001, 12:001, 12:020, 16:001, 18:001, 20:001 and 24:001. The proposed program amendment establishes new procedures for administrative hearings conducted under Kentucky Revised Statutes (KRS) Chapter 350. The regulations are in response to the Kentucky Supreme Court's decision in *Franklin* v. *Natural Resources and Environmental Protection Cabinet*, Ky., 799 S.W.2nd 1 (1990). These proposed regulation changes also respond to OSM's 30 CFR Part 732 letter dated November 14, 1991, (Administrative Record No. KY-1080).

The new hearing procedures are as follows: The proposed administrative regulation at 405 KAR 7:091 sets forth a comprehensive procedure for the conduct of all administrative hearings and conferences arising under KRS Chapter 350 and sets forth in detail the duties and responsibilities of the administrative hearing officer as well as time limitations for the submission of reports and recommended orders to the Secretary Natural Resources and Environmental Protection Cabinet (hereinafter Cabinet). In addition this administrative regulation sets forth the requirements for service of any document served in any administrative proceeding; prescribes standards of conduct for all parties participating in an administrative hearing and establishes basic procedures for the filing and retention of documents by the Office of Administrative Hearings. As noted in Section 1, with certain exceptions, this administrative regulation will apply to all administrative hearings and conferences arising under KRS chapter 350, including those cases pending at the time this administrative regulation is filed.

The proposed administrative regulation at 405 KAR 7:092 sets forth a comprehensive procedure for the conduct of all administrative hearings and conferences arising under KRS chapter 350. In particular this regulation establishes specific procedures by which a person adversely affected by a Cabinet's determination or enforcement action can petition for an administrative hearing or conference. In order to cover the full spectrum of possible challenges, this regulation sets forth specific procedures for *inter alia:* (1) Enforcement determinations, (2) penalty assessments, (3) bond release decisions, (4) any type permit issuance or denial determinations, (5) proceedings by which the Cabinet may initiate an administrative complaint for revocation, suspension and bond forfeiture of a surface mining and reclamation permit, (6) proceedings for temporary relief, and (7) pursuant to 1992 Acts, c. 304, and omnibus provision allowing petitions to be filed for determinations made under KRS chapter 350 not otherwise specifically covered.

In addition to these provisions at 405 KAR 7:092, the Cabinet, in conformity with 1992 Acts, c. 304, has proposed a provision establishing a conference process for informal review of a proposed civil penalty assessment at the Cabinet's Regional Offices. Upon issuance of the conference officer's report, further administrative challenges of the assessment is possible, provided the recommended amount is paid into the Cabinet's escrow account. Prepayment is required only for the contesting of the civil penalty. Other provisions of the regulation, however, make it emphatically clear that the fact of the violation can be contested at both the administrative and judicial levels without having to pre-pay the proposed

penalty assessment. Finally, there is a provision in this regulation which allows an individual to obtain a waiver of the pre-payment requirements on the grounds of inability to pay.

The proposed amendment modifies 405 KAR 12:020 and sets forth procedures for informal hearings where an immediate cessation of coal mining operations is directed by the Cabinet. This amended regulation also pertains to the suspension or revocation of surface mining and reclamation operations and provides for criteria under which a determination can be made that a surface mining and reclamation operation should be suspended or revoked for a pattern of violations subject to an administrative hearing as provided under 405 KAR 7:092. The remaining changes appearing in this amended regulation are technical in nature and do not have any substantive impact. This administrative regulation will be applicable in conjunction with other regulations to any determination that a surface mining operation should cease coal removal activities or that such an operation should be suspended or revoked pursuant to a determination that a pattern of violations exists or has existed.

This proposed amendment also amends 405 KAR chapter 7, 8, 10, 12, 16, 18, 20, and 24 to define additional terms used in the appropriate Chapters. The terms that are proposed additions or modifications include administrative hearings, final order, hearing officer, individual; industrial/commercial lands, initiating document, interim report office, person, and record.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Kentucky satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Kentucky program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commentor's recommendations. Comments received after the time indicated under "**DATES**" or at locations other than the Lexington Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under "**FOR FURTHER INFORMATION CONTACT**" by 4 p.m. on October 8, 1992. If no one requests an opportunity to comment at a public hearing, the hearing will not be held. Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment, and who wish to do so, will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendments may request a meeting at the OSM, Lexington Field Office listed under "**ADDRESSES**" by contacting the person listed under "**FOR FURTHER INFORMATION CONTACT.**" All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance at the locations listed under "**ADDRESSES.**" A written summary of each meeting will be made a part of the Administrative Record.

Executive Order 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted the Office of Surface Mining Reclamation and Enforcement (OSM) an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of the Surface Mining Control and Reclamation Act (SMCRA) (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731 and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 et seq.

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

BILLING CODE 4310-05-M

30 CFR Part 917

Kentucky Permanent Regulatory Program; Kentucky Revised Statutes Passed by the 1992 Kentucky General Assembly

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule.

SUMMARY: OSM is announcing the receipt of a proposed program amendment to the Kentucky permanent regulatory program (hereinafter referred to as the Kentucky program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). By letter of July 30, 1992, (Administrative Record No. KY-1171) Kentucky submitted a proposed program amendment containing seven bills affecting Kentucky Revised Statutes (KRS) chapter 350 and a resolution that were enacted by the 1992 Regular Session of the Kentucky General Assembly and signed into law by the Governor. This notice sets forth the times and locations that the Kentucky program and the proposed amendment are available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendment, and the procedures that will be followed regarding a public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on October 23, 1992. If requested, a public hearing on the proposed amendment will be held at 10 a.m. on October 13, 1992. Requests to present oral testimony at the hearing must be received on or before 4 p.m. on October 8, 1992.

ADDRESSES: Written comments and requests for a hearing should be mailed or hand delivered to: William J. Kovacic, Director, Lexington Field Office, Office of Surface Mining Reclamation and Enforcement, 340 Legion Drive, Suite 28, Lexington, Kentucky 40504. Copies of the Kentucky program, the proposed amendment, and all written comments received in response to this notice will be available for review at the addresses listed below, Monday through Friday, 9 a.m. to 4 p.m., excluding holidays. Each requestor may receive, free of charge, one copy of the proposed amendment by contacting OSM's Lexington Field Office.

Office of Surface Mining Reclamation and Enforcement, Lexington Field Office, 340 Legion Drive, Suite 28, Lexington, Kentucky 40504, Telephone: (606) 233-2896.

Office of Surface Mining Reclamation and Enforcement, Eastern Support Center, Ten Parkway Center, Pittsburgh, Pennsylvania 15220, Telephone: (412) 937-2828.

Department for Surface Mining Reclamation and Enforcement, No. 2 Hudson Hollow Complex, Frankfort, Kentucky 40601, Telephone: (502) 564-6940.

If a public hearing is held, its location will be: The Harley Hotel, 2143 North Broadway, Lexington, Kentucky 40505.

FOR FURTHER INFORMATION CONTACT: William J. Kovacic, Director, Lexington Field Office, Telephone (606) 233-2896.

SUPPLEMENTARY INFORMATION:

I. Background

On May 18, 1982, the Secretary of the Interior conditionally approved the Kentucky program. Information pertinent to the general background, revisions, modifications, and amendments to the proposed permanent program submission, as well as the Secretary's findings, the disposition of comments and a detailed explanation of the conditions of approval can be found in the May 18, 1982, **Federal Register** (47 FR 21404-21435). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 917.11, 917.15, 917.16, and 917.17.

II. Discussion of Amendment

By letter of July 30, 1992, (Administrative Record No. KY-1171) Kentucky submitted a proposed program amendment containing seven bills affecting Kentucky Revised Statutes (KRS) chapter 350 and a resolution that were enacted by the 1992 Regular Session of the Kentucky General Assembly and signed into law by the Governor. The contents of the seven bills and a Senate Joint Resolution are as follows:

House Bill (H.B.) 844

Section 1 of H.B. 844 creates a new section in KRS Chapter 350 (to be codified as KRS 350.063) which requires that prior to the issuance of a permit, if the operation will disturb any roads used as access to an oil or gas well or other oil and gas facility, the permit applicant shall certify that he has met and conferred with, or offered to meet and confer with, the well operator as to the disturbance.

Senate Bill (S.B.) 189

S.B. 189 raises the annual production limit for being a "small coal operator" from 200,000 tons per year to 300,000 tons per year.

This limit is revised at KRS 350.260 where it determines eligibility for several members of the Small Coal Operators Advisory Council; at KRS 350.450(4)(c) where it sets aside 20 percent of abandoned mine land reclamation work for small operators; and at KRS 350.705(1) (b), (c) where it determines eligibility for several members of the Kentucky Bond Pool Commission.

This limit is applicable only for these specific purposes under Kentucky law. The foregoing statutory revisions are not related to Kentucky's implementation under KRS 350.465(f) and 405 Kentucky Administrative Regulations (KAR) 7:080 of the Federal Small Operator Assistance Program at section 507(c) of SMCRA.

Senate Bill 190

S.B. 190 makes four unrelated revisions to existing statutes.

At KRS 350.010 it revises the definition of "surface coal mining operations" to exempt the extractions of 25 to 250 tons of coal as an incidental part of privately financed construction where the coal is donated to a charitable or educational organization for noncommercial use or noncommercial distribution.

Also at KRS 350.010 it deletes the definition of "fill bench," a term that dates back to 1966 and is not now used elsewhere in KRS Chapter 350 or in regulations pursuant thereto.

At KRS 350.130(1) it deletes a cross reference to subsection (2) that is held over from 1986 and before, when KRS 350.130(2) required payment of forfeited bond monies to the surface owner on severed estates if the surface owner performed the required reclamation. This payment provision was deleted in 1988, so that cross reference is now meaningless.

It repeals KRS 350.0281, a moratorium on promulgation of regulations, that by its own terms expired in July 1988.

Senate Bill 191

S.B. 191 makes several amendments to KRS chapter 350 for consistency with SMCRA as amended by Public Law 101-58, the "Abandoned Mine Reclamation Act of 1990."

Section 1 amends KRS 350.550(3) to include in Kentucky's abandoned mine reclamation fund interest credited to the fund pursuant to section 401(e) of SMCRA and allocated to Kentucky, and

amends KRS 350.550(4) to authorize expenditures for the purposes of section 507(c) of SMCRA (assistance to small operators).

Section 2 amends KRS 350.560 to extend abandoned mine lands (AML) eligibility to: (a) Sites affected from August 4, 1977, to May 18, 1982, where the bond was insufficient to reclaim the site, and (b) sites affected from August 4, 1977, to November 5, 1990, where the surety became insolvent and funds were insufficient to reclaim the site; authorizes use of up to 30 percent of Kentucky's annual AML grant allocation for restoration of water supply facilities affected by coal mining; and establishes certain priorities for the reclamation of such sites.

Section 3 creates a new section (to be codified as KRS 350.553) which, under certain conditions and priorities, expands the universe of purposes and sites on which AML annual grant funds can be spent after initial reclamation priorities are completed.

Section 4 creates a new section (to be codified as KRS 350.597) which establishes a special trust fund that may receive up to 10 percent of the annual AML funds granted to Kentucky, and the deposited sums and accrued interest may be used for the priorities in KRS 350.555 after September 30, 1995, or for acid mine drainage abatement and treatment in accordance with Section 402(g)(7) of SMCRA.

Senate Bill 298

S.B. 298 relates primarily to definitions.

It amends the definition of "operator" at KRS 350.010 to parallel the definition at section 701 of SMCRA, narrowing the definition from a person engaged in surface coal mining and reclamation operations, to a person who removes or intends to remove more than 25 tons of coal from the earth by coal mining within 12 consecutive calendar months in any one location.

It defines "permit applicant" or "applicant," and "permittee," like their SMCRA definitions.

The bill revises the usage of "applicant," "operator," "permittee," and "person" in several sections throughout KRS Chapter 350 for consistency of use and to more clearly identify the entities that are intended to be subject to the particular statutory requirements.

Further, the bill amends KRS 350.130(1) to provide that an institution providing a bond may, at any stage of the reclamation process, pay the remaining encumbered balance of the bond and thereby discharge its obligation under the bond.

Senate Bill 318

S.B. 318 relates to conferences, hearings, civil penalties, and appeals.

Section 1 of the bill (to be codified as KRS 350.0301) establishes requirements for hearings held under KRS Chapter 350; directs the Natural Resources and Environmental Protection Cabinet (the Cabinet) to promulgate administrative regulations for procedures for formal and informal hearings; requires administrative regulations to provide for the assessment and payment of civil penalties, including payment of a proposed penalty assessment into escrow prior to a formal hearing on the amount of the assessment, and providing for a waiver of the payment into escrow for an individual who demonstrates inability to pay the penalty into escrow; and authorizes the Cabinet to promulgate regulations for procedures for holding administrative conferences.

Section 2 of the bill (to be codified as KRS 350.0305) provides that any person aggrieved by a determination of the Cabinet under KRS (Chapter 350 may demand a hearing, and establishes times for requesting and holding a hearing; and authorizes an appeal to Franklin Circuit Court by a person aggrieved by a final order resulting from a hearing, and establishes procedures for the filing and review of such appeals.

Section 3 clarifies KRS 350.028(4), directing the Cabinet to issue an order to a permittee to show cause why the permit should not be suspended or revoked, and to provide an opportunity for a hearing, when the Cabinet determines that a pattern of violations exists or has existed and the violations are willfully caused by the permittee or are caused by the unwarranted failure of the permittee to comply.

Section 4 revises cross references and makes other technical corrections to KRS 350.090.

Section 5 deletes KRS 350.255(2) for consistency with other sections of the bill.

Senate Bill 381

S.B. 381 relates to demonstration of restoration of soil productivity on mined prime farmlands.

Section 1 (to be codified as KRS 350.480) requires the Cabinet to allow the use of a soil test to determine if soil productivity on mined prime farmlands has been restored to levels that would allow average crop yields to equal or exceed the average yield of the reference crops, provided the methods are approved by OSM.

Section 2 (to be codified as KRS 350.485) requires the Cabinet to encourage research and data collection to determine the validity of using a soil test or other simplified procedure to determine if mined prime farmland soils will meet yield requirements.

Senate Joint Resolution (S.J.R.) 108

S.J.R. 108 takes several actions related to the same subject matter as S.B. 381.

Section 1 provides that the Department for Surface Mining Reclamation and Enforcement (DSMRE) be directed to promulgate administrative regulations, procedures, experimental practices, or other methods to encourage a simplified procedure for determining soil restoration after mining.

Section 2 provides that University of Kentucky researchers and any others involved be commended for research that has been carried out which could support the substitution of a soil test for the present complicated procedure used to show soil restoration.

Section 3 provides that the University of Kentucky and other entities be encouraged to continue research to determine alternatives to present soil restoration tests to include a simple soil test.

Section 4 provides the OSM and other Federal, State, and private organizations be encouraged to fund such research and that OSM be encouraged to accept research data on the subject and to approve alternative procedures for determining soil restoration on mined prime farmlands.

Section 5 provides that this resolution be sent to DSMRE, the Federal OSM, the University of Kentucky, and Interstate Mining Compact Commission.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendment proposed by Kentucky satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Kentucky program.

Written Comments

Written Comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commentor's recommendations. Comments received after the time indicated under "**DATES**" or at locations other than the Lexington Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under "**FOR FURTHER INFORMATION CONTACT**" by 4 p.m. on October 8, 1992. If no one requests an opportunity to comment at a public hearing, the hearing will not be held. Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons scheduled to comment have been heard. Persons in the audience who have not been scheduled to comment, and who wish to do so, will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendments may request a meeting at the OSM, Lexington Field Office listed under "**ADDRESSES**" by contacting the person listed under "**FOR FURTHER INFORMATION CONTACT.**" All such meetings will be open to the public and, if possible, notices of meetings will be posted in advance at the locations listed under "**ADDRESSES.**" A written summary of each meeting will be made a part of the Administrative Record.

Executive Order 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted the Office of Surface Mining Reclamation and Enforcement (OSM) an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of the Surface Mining Control and Reclamation act (SMCRA) (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731 and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 *et seq.*

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

30 CFR Part 935

Ohio Permanent Regulatory Program; Revision of Administrative Rule

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; reopening of public comment period.

SUMMARY: OSM is reopening the public comment period for Revised Program Amendment Number 57 to the Ohio permanent regulatory program (hereinafter referred to as the Ohio program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment was initiated by Ohio and is intended to revise one rule in the Ohio Administrative Code to change the locations at which applicants must file copies of permit applications, revisions, and renewals in order to allow public inspection of those documents.

This notice sets forth the times and locations that the Ohio program and proposed amendments to that program will be available for public inspection, the comment period during which interested persons may submit written comments on the proposed amendments, and the procedures that will be followed regarding the public hearing, if one is requested.

DATES: Written comments must be received on or before 4 p.m. on October 8, 1992. If requested, a public hearing on the proposed amendments will be held at 1 p.m. on October 5, 1992. Requests to present oral testimony at the hearing must be received on or before 4 p.m. on September 30, 1992.

ADDRESSES: Written comments and requests to testify at the hearing should be mailed or hand-delivered to Mr. Richard J. Seibel, Director, Columbus Field Office, at the address listed below. Copies of the Ohio program, the proposed amendments and all written comments received in response to this notice will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive, free of charge, one copy of the proposed amendments by contacting OSM's Columbus Field Office.

Office of Surface Mining Reclamation Enforcement, Columbus Field Office, South Hamilton Road, room 202, Columbus, Ohio 43232, Telephone: (614) 866-0578.
Ohio Department of Natural Resources, Division of Reclamation, 1855 Fountain Square Court, Building H-3, Columbus, Ohio 43224, Telephone: (614) 265-6675.

FOR FURTHER INFORMATION CONTACT: Mr. Richard J. Seibel, Director, Columbus Field Office, (614) 866-0578.

SUPPLEMENTARY INFORMATION:

I. Background

On August 16, 1982, the Secretary of the Interior conditionally approved the Ohio program. Information on the general background of the Ohio program submission, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Ohio program, can be found in the August 10, 1982, **Federal Register** (47 FR 34688). Subsequent actions concerning the conditions of approval and program amendments are identified at 30 CFR 935.11, 935.12, 935.15, and 935.16.

II. Discussion of the Proposed Amendments

By letter dated May 12, 1992 (Administrative Record No. OH-1698), Ohio submitted proposed Program Amendment Number 57. In this amendment, Ohio proposed to change the locations at which applicants must file copies of permit applications, revisions, and renewals in order to allow public inspection of those documents. Ohio proposed to revise Ohio Administrative Code (OAC) 1501:13-5-01 paragraph (A)(4)(a) to allow filing of permit documents at the appropriate district office of the Ohio Department of Natural Resources, Division of Reclamation (Ohio) or the county office of the Soil Conservation Service of the United States Department of Agriculture (SCS). If neither Ohio nor SCS maintains an office in the county where the mining is proposed to occur, the amendment would have provided that the applicant shall file a copy of the application with the county recorder of that county.

OSM announced receipt of proposed Program Amendment Number 57 in the July 14, 1992, **Federal Register** (57 FR 31163), and, in the same notice, opened the public comment period and provided opportunity for a public hearing on the adequacy of the proposed amendment. The public comment period ended on August 13, 1992. The public hearing scheduled for August 10, 1992, was not held because no one requested an opportunity to testify.

By letter dated June 9, 1992 (Ohio Administrative Record No. OH-1711), the SCS provided comments on proposed Program Amendment Number 57. SCS recommended that permit applications be filed at offices of the Soil and Water Conservation Districts (SWCD) rather than at the offices of the SCS. SCS noted that SCS programs and activities are carried out through the local SWCD offices.

In response to the SCS comment, Ohio revised Program Amendment Number 57 and resubmitted the amendment by letter dated July 22, 1992 (Administrative Record No. OH-1760). In this revised amendment, Ohio is proposing to change the priority order in which the three filing locations are listed at OAC 1501:13-5-01 paragraph (A)(4)(a). The revised paragraph would now read:

(a) The applicant shall make a full copy of the complete application for a permit, a significant permit revision, or a permit renewal available for the public to inspect and copy. This shall be done by filing a copy of the application submitted to the Chief at the Division of Reclamation district office responsible for inspection of the proposed operation, or if no such office is maintained in the county where the mining is proposed to occur, the applicant shall file a copy of the application with the county recorder of that county or at the office of the Soil Conservation Service of the United States Department of Agriculture located in the county where the mining is proposed to occur.

III. Public Comment Procedures

In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comment on whether the amendments proposed by Ohio satisfy the applicable program approval criteria of 30 CFR 732.15. If the amendments are deemed adequate, they will become part of the Ohio program.

Written Comments

Written comments should be specific, pertain only to the issues proposed in this rulemaking and include explanations in support of the commenter's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Columbus Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.

Public Hearing

Persons wishing to comment at the public hearing should contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4 p.m. on September 30, 1992. If no one requests an opportunity to comment at a public hearing, the hearing will not be held.

Filing of a written statement at the time of the hearing is requested as it will greatly assist the transcriber. Submission of written statements in advance of the hearing will allow OSM officials to prepare adequate responses and appropriate questions.

The public hearing will continue on the specified date until all persons schedule to comment have been heard. Persons in the audience who have not been scheduled to comment and who wish to do so will be heard following those scheduled. The hearing will end after all persons scheduled to comment and persons present in the audience who wish to comment have been heard.

Public Meeting

If only one person requests an opportunity to comment at a hearing, a public meeting, rather than a public hearing, may be held. Persons wishing to meet with OSM representatives to discuss the proposed amendments may request a meeting at the Columbus Field Office by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings shall be open to the public and, if possible, notices of the meetings will be posted at the locations listed under "**ADDRESSES**". A written summary of each public meeting will be made a part of the Administrative Record.

Executive Order 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7, and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments

since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.13 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(c) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 *et seq.*

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

BILLING CODE 4310–05–M

POSTAL SERVICE

39 CFR Part 111

Preparation Requirements for Letter-Size ZIP+4 Rate and ZIP+4 Barcoded Rate Mailings

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: This provides notice that the Postal Service plans to extend the tentative effective date on proposed changes to preparation requirements for automation rate mailings. This tentative effective date extension will provide mailers with more time to comply with DMM Chapter 5 preparation requirements.

ADDRESSES: Written questions should be mailed or delivered to the Director, Office of Classification and Rates Administration, U.S. Postal Service, 475 L'Enfant Plaza SW., Washington, DC 20260–5903.

FOR FURTHER INFORMATION CONTACT: Mrs. Lynn M. Martin, (202) 268–5176.

SUPPLEMENTARY INFORMATION: On May 7, 1992, (57 FR 19698–19701) the Postal Service published a proposal to amend the Domestic Mail Manual (DMM) to eliminate the provisions on the preparation of ZIP+4 and ZIP+4 Barcoded rate letter-size mailings in DMM chapters 3, 4, and 6; and require the preparation of First-, second-, and third-class letter-size ZIP+4 and ZIP+4 Barcoded rate mailings under one of the options in DMM chapter 5 (57 FR 19698).

The proposed rule primarily dealt with presortation and documentation requirements. It did not affect current mailpiece preparation rules already contained in DMM Chapter 5. The proposed effective date for these changes was December 20, 1992.

In the near future, a final rule will be published. In order to give mailers time to comply with DMM chapter 5 preparation requirements, the proposed December 20, 1992, effective date is being changed tentatively to March 21, 1993, except for the prohibition on 1-foot trays in tray-based mailings.

In addition, the proposed effective date for the requirement that 100% of the pieces in the 5-digit portion of a tray-based mailing prepared under DMM chapter 5 must be ZIP+4 barcoded or delivery point barcoded will also be moved to March 21, 1993. (Package-based mailings prepared under DMM Chapter 5 must currently meet this requirement.) The proposed effective date for the prohibition on 1-foot trays in tray-based mailings will remain December 20, 1992, as previously announced. (The requirement for 2-foot trays is already in effect for package-based preparation.)

Stanley F. Mires,

Assistant General Counsel, Legislative Division.

BILLING CODE 7710–12–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL–4508–9]

Public Meeting on the Rulemaking for the Pulp, Paper, and Paperboard Industry

AGENCY: Environmental Protection Agency.

ACTION: Notice of public meeting.

SUMMARY: The U.S. Environmental Protection Agency (EPA is announcing a public meeting prior to developing regulations that will apply to the pulp, paper, and paperboard industry. The regulations are scheduled to be proposed in October 1993, and EPA plans to sponsor several public meetings prior to proposal. The public meetings prior to proposal are intended to be a forum in which EPA can report on the status of regulatory development and in which interested parties can provide information and ideas on key technical, scientific, and other issues.

DATES: The public meeting will be held on September 30, 1992, from 1:30 pm to 5:30 pm.

ADDRESSES: The meeting will be held at the J.W. Marriott Hotel, 1313 Pennsylvania Avenue NW., Washington, DC in Salon F. Seating will be available for approximately 100 attendees. For further information by mail, contact Wendy Smith at, WH–552, Office of Science and Technology, US EPA, 401 M Street SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Wendy Smith at (202) 260–7184.

SUPPLEMENTARY INFORMATION:

EPA is developing effluent limitations guidelines and standards under authority of the Clean Water Act and maximum achievable control technology standards under authority of the Clean Air Act. The Agency plans to proceed with these rulemakings on a joint basis and to propose water and air standards simultaneously.

The first public meeting will include a discussion of the public meeting process and a schedule for subsequent public meetings. Other agenda topics for the

first public meeting include a summary of data collection activities, plans for data analysis, and preliminary plans for technology-based regulatory options.

INSPECTION OF DOCUMENTS: Documents relating to the topics mentioned above and more detailed agenda will be available at the meeting.

Dated: September 16, 1992.

James Hanlon,

Acting Director, Office of Science and Technology.

40 CFR Part 52

[CA-13-1-5381; FRL-4509-9]

Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision, South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: EPA is proposing a limited approval and limited disapproval of revisions to the California State Implementation Plan (SIP) adopted by the South Coast Air Quality Management District (South Coast AQMD) on January 4, 1991. The California Air Resources Board (CARB) submitted these revisions to EPA on May 13, 1991. The revisions concern Rule 1153—Commercial Bakery Ovens, which control organic compounds from ovens in commercial bakeries. EPA has evaluated Rule 1153 and is proposing a limited approval under sections 110(k)(3) and 301(a) of the Clean Air Act, as amended in 1990 (CAA or the Act) because these revisions strengthen the SIP. At the same time, EPA is proposing a limited disapproval under section 110(k)(3) and 301(a) of the CAA because the rule does meet the Part D, section 182(a)(2)(A) requirement of the CAA.

DATES: Comments must be received on or before October 23, 1992.

ADDRESSES: Comments may be mailed to: Daniel A. Meer, Chief, Southern California and Arizona Rulemaking Section (A-5-3), Air and Toxics Division, Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

Copies of the rule revisions and EPA's evaluation report of the rule are available for public inspection at EPA's Region 9 office during normal business hours. Copies of the submitted rule revisions are also available for inspection at the following locations:

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1219 "K" Street, Sacramento, CA 95814

South Coast Air Quality Management District, 21865 E. Copley Dr., Diamond Bar, CA 91765-4182

FOR FURTHER INFORMATION CONTACT: Christine D. Vineyard, Southern California and Arizona Rulemaking Section (A-5-3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105, Telephone: (415) 744-1195, FTS: 744-1076.

SUPPLEMENTARY INFORMATION:

Background

On March 3, 1978 EPA promulgated a list of ozone nonattainment areas under the provisions of the 1977 Clean Air Act (1977 CAA or pre-amended Act) that included the Los Angeles-South Coast Air Basin Area (LA-SC Area). 43 FR 8964; 40 CFR 81.305. Because the LA-SC Area was unable to reach attainment by the statutory attainment date of December 31, 1982, California requested under pre-amended section 172(a)(2), and EPA approved, an extension of the attainment date to December 31, 1987. 40 CFR 52.238. The LA-SC Area did not attain the ozone standard by the approved attainment date. On May 26, 1988 EPA notified the Governor of California that the South Coast AQMD's portion of the SIP was inadequate to attain and maintain the ozone standard and requested that deficiencies in the existing SIP be corrected (EPA's SIP-Call). On November 15, 1990, amendments to the 1977 CAA were enacted. Public Law 101-549, 104 Stat. 2399, codified at 42 U.S.C. 7401-7671q. In amended section 182(a)(2)(A) of the CAA, Congress statutorily adopted the requirement that nonattainment areas fix their deficient reasonably available control technology (RACT) rules for ozone and established a deadline of May 15, 1991 for states to submit corrections of those deficiencies.

Section 182(a)(2)(A) applies to areas designated as nonattainment prior to enactment of the amendments and classified as marginal or above as of the date of enactment. It requires such areas to adopt and correct RACT rules pursuant to pre-amended section 172(b) as interpreted in EPA's pre-amendment guidance.[1] EPA's SIP-Call used that guidance to indicate the necessary corrections for specific nonattainment areas. South Coast is classified as extreme;[2] therefore, this area is subject to the RACT fix-up requirement and the May 15, 1991 deadline.

The State of California submitted many revised RACT rules to EPA for incorporation into its SIP on May 13, 1991, including the rules being acted on in this notice. This notice addresses EPA's proposed action for South Coast AQMD's Rule 1153, Commercial Bakery Ovens. This submitted rule was found to be complete on July 10, 1991 pursuant to EPA's completeness criteria adopted on February 16, 1990 (55 FR 5830) and set forth in 40 CFR part 51, appendix V,[3] and is being proposed for limited approval and limited disapproval.

Rule 1153 controls the emission of volatile organic compounds (VOCs) from commercial bakery ovens. VOCs contribute to the production of ground level ozone and smog. Rule 1153 is a new rule which has been adopted to meet EPA's SIP-Call and the section 182(a)(2)(A) CAA requirement. The following is EPA's evaluation and proposed action for South Coast AQMD's Rule 1153.

EPA Evaluation and Proposed Action

In determining the approvability of a VOC rule, EPA must evaluate the rule for consistency with the requirements of the CAA and EPA regulations, as found in section 110 and part D of the CAA and 40 CFR part 51 (Requirements for Preparation, Adoption, and Submittal of Implementation Plans). The EPA interpretation of these requirements, which forms the basis for today's action, appears in the various EPA policy guidance documents listed in footnote 1. Among the provisions of the CAA is the requirement that a VOC rule must, at a minimum, provide for the implementation of the RACT for stationary sources of VOC emissions. This requirement was carried forth from the pre-amended Act.

For the purpose of assisting state and local agencies in developing RACT rules, EPA prepared a series of Control Technique Guideline (CTG) documents. The CTGs are based on the underlying

---

[1] Among other things, the pre-amended guidance consists of those portions of the proposed Post-1987 ozone and carbon monoxide policy that concern RACT, 52 FR 45044 (November 24, 1987); "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations, Clarification to appendix D of November 24, 1987 Federal Register Notice" (Blue Book) (notice of availability was published in the **Federal Register** on May 25, 1988); and the existing control technique guidelines (CTGs).

[2] The LA-SC Area retained its nonattainment designation and was classified by operation of law pursuant to sections 107(d) and 181(a) upon the date of enactment of the Amendments. See 56 FR 56694 (November 6, 1991).

[3] EPA has since adopted completeness criteria pursuant to section 110(k)(1)(A) of the amended Act to be codified at 40 CFR part 41, appendix V. See 56 FR 42216 (August 26, 1991).

requirements of the Act and specify the presumptive norms for what is RACT for specific source categories. Under the CAA, Congress ratified EPA's use of these documents, as well as other Agency policy, for requiring States to "fix-up" their RACT rules. See section 182(a)(2)(A). For some source categories, such as commercial bakery ovens, EPA did not publish a CTG. In such cases, the District will make a determination of what controls are required to satisfy the RACT requirement, by reviewing the operations of facilities with the affected source category. In that review, the District considers the technological and economic feasibility of the proposed controls. Additionally, for both CTG and non-CTG rules, the District may rely on EPA policy documents, such as the Blue Book, to ensure that the adopted VOC rules are fully enforceable and strengthen or maintain the SIP.

South Coast AQMD's Rule 1153 is a new rule which was adopted to control emissions of VOCs from commercial bakery ovens. The new rule provides provisions for:

- Definitions to clarify the rule.
- 70 percent emissions reduction for bakery ovens with a base year average daily VOC emissions of 50 pounds or more, but less than 100 pounds, by July 1, 1993.
- 95 percent emissions reduction for bakery ovens with a base year average daily VOC emissions of 100 pounds or more by July 1, 1994.
- Daily recordkeeping for day-to-day operations.

EPA has evaluation South Coast's submitted Rule 1153 for consistency with the CAA, EPA regulations, and EPA policy and has found that, to a large extent, it meets these requirements. This has resulted in a clear, enforceable rule.

Although the approval of South Coast's Rule 1153 will strengthen the SIP, this rule still contains a deficiency which was required to be corrected pursuant to the section 182(a)(2)(A) requirement of part D of the CAA. The rule allows APCO discretion in selection an appropriate test method for determination of VOC emissions. Because of this deficiency, the rule is not approvable pursuant to section 182(a)(2)(A) of the CAA because it is not consistent with the interpretation of section 172 of the 1977 CAA as found in the Blue Book and may lead to rule enforceability problems.

Because of the above deficiency, EPA cannot grant full approval of this rule under section 110(k)(3) and Part D. Also, because the submitted rule is not composed of separable parts which meet all the applicable requirements of the CAA, EPA cannot grant partial approval of the rule under section 110(k)(3). However, EPA may grant a limited approval of the submitted rule under section 110(k)(3) in light of EPA's authority pursuant to section 301(a) to adopt regulations necessary to further air quality by strengthening the SIP. The approval is limited because EPA's action also contains a simultaneous limited disapproval. In order to strengthen the SIP, EPA is proposing a limited approval of South Coast's submitted Rule 1153 under sections 110(k)(3) and 301(a) of the CAA.

At the same time, EPA is also proposing a limited disapproval of this rule because it contains a deficiency that has not been corrected as required by section 182(a)(2)(A) of the CAA, and, as such, the rule does not fully meet the requirements of Part D of the Act. Under section 179(a)(2), if the Administrator disapproves a submission under section 110(k) for an area designated nonattainment, based on the submission's failure to meet one or more of the elements required by the Act, the Administrator must apply one of the sanctions set forth in section 179(b) unless the deficiency has been corrected within 18 months of such disapproval. Section 179(b) provides two sanctions available for the Administrator: Highway funding and offsets. The 18 month period referred to in section 179(a) will begin at the time EPA publishes final notice of this disapproval. Moreover, the final disapproval triggers the federal implementation plan (FIP) requirement under section 110(c).

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Regulatory Process

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq. EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

Limited approvals under sections 110 and 301, and subchapter I, Part D of the CAA do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the federal SIP-approval does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the federal-state relationship under the CAA, preparations of a regulatory flexibility analysis and would constitute federal inquiry into the economic reasonableness of state action. The CAA forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co.* v. *U.S. E.P.A.*, 427 U.S. 246, 256–66 (S.Ct. 1976); 42 U.S.C. 7410(a)(2).

EPA's limited disapproval of the State request under sections 110 and 301, and subchapter I, Part D of the CAA does not affect any existing requirements applicable to small entities. Federal disapproval of the state submittal does not affect its state-enforceability. Moreover, EPA's disapproval of the submittal does not impose any new federal requirements. Therefore, EPA certifies that this disapproval action does not have a significant impact on a substantial number of small entities because it does not remove existing requirements nor does it impose any new federal requirements.

This action has been classified as a Table 2 action by the Regional Administration under the procedures published in **Federal Register** on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget (OMB) waived Table 2 and Table 3 SIP revisions (54 FR 2222) from the requirements for Section 3 of Executive Order 12291 for a period of two years. EPA has submitted a requested for a permanent waiver for Table 2 and Table 3 SIP revisions. OMB has agreed to continue the temporary waiver until such time as it rules on EPA's request.

[CA 12-9-5574; FRL-4509-8]

Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision, Bay Area Air Quality Management District, South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: EPA is proposing a limited approval and limited disapproval of rules submitted to revise the California State Implementation Plan (SIP); the rules were adopted by the Bay Area Air Quality Management District (BAAQMD) on July 11, 1990 and the South Coast Air Quality Management District (SCAQMD) on December 7, 1990. The California Air Resources Board (ARB) submitted these revisions to EPA on April 5, 1991 and May 13, 1991, respectively. These revisions concern BAAQMD Rule 8–24, Pharmaceutical and Cosmetic Manufacturing Operations and SCAQMD Rule 1103, Pharmaceuticals and Cosmetics Manufacturing Operations, both of which control the emissions of volatile organic compounds (VOCs) from solvents used in the manufacturing of pharmaceuticals and cosmetics. EPA has evaluated the revisions to BAAQMD Rule 8–24 and SCAQMD Rule 1103 and is proposing a limited approval under sections 110(k)(3) and 301(a) of the Clean Air Act, as amended in 1990, (CAA) because these revisions strengthen the SIP. At the same time, EPA is proposing a limited disapproval under section 110(k)(3) and 301(a) of the CAA because the rules do not meet the part D, section 182(a)(2)(A) requirement of the CAA.

DATES: Comments must be received on or before October 23, 1992.

ADDRESSES: Comments may be mailed to: Esther Hill, Rulemaking I Section (A–5–4), Air and Toxics Division, Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105.

Copies of the rule revisions and EPA's evaluation report of the rules are available for public inspection at EPA's Region 9 office during normal business hours. Copies of the submitted rules are also available for inspection at the following locations:

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1219 "K" Street, Sacramento, CA 95814.

Bay Area Air Quality Management District, 939 Ellis Street, San Francisco, CA 94109.

South Coast Air Quality Management District, 21865 E. Copley Drive, Diamond Bar, CA 91765–4182.

FOR FURTHER INFORMATION CONTACT: Julie A. Rose, Rulemaking I Section, Air and Toxics Division, Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105, Telephone: (415) 744–1184, FAX: (415) 744–1076.

SUPPLEMENTARY INFORMATION:

Background

On March 3, 1978 (43 FR 8962), EPA promulgated a list of ozone nonattainment areas under the provisions of the 1977 Clean Air Act (1977 CAA or pre-amended CAA) that included the San Francisco Bay Area (SFBA) and the South Coast Air Basin Area (SCABA). 43 FR 8964; 40 CFR 81.305. Because the SFBA and the SCABA were unable to reach attainment by the statutory attainment date of December 31, 1982, California requested and EPA approved under section 172(a)(2) of the 1977 Act, and extension of the attainment date to December 31, 1987. 40 CFR 52.238. SFBA and SCABA did not attain the ozone standard by the approved attainment date. On May 26, 1988, EPA notified the Governor of California that the SFBA and the SCABA portions of the California State Implementation Plan (SIP) were inadequate to attain and maintain the ozone standard and requested that deficiencies in the existing SIP be corrected (EPA's SIP-Call). On November 15, 1990, amendments to the 1977 CAA were enacted. Public Law 101–549, 104 Stat. 2399, codified at 42 U.S.C. Sections 7401–7671q. In amended section 182(a)(2)(A) of the CAA, Congress statutorily adopted the requirement that nonattainment areas fix their deficient reasonably available control technology (RACT) rules for ozone and established a deadline of May 15, 1991, for states to submit corrections of those deficiencies.

Section 182(a)(2)(A) applies to areas designated as nonattainment prior to enactment of the amendments and classified as marginal or above as of the date of enactment. It requires such areas to adopt and correct RACT rules pursuant to pre-amended section 172(b) as interpreted in pre-amended guidance.[1] EPA's SIP-Call used that guidance to indicate the necessary corrections for specific nonattainment areas. Bay Area is classified as moderate and South Coast is classified as extreme;[2] therefore, these two areas are subject to the RACT fix-up requirement and the May 15, 1991 deadline.

The State of California submitted many revised RACT rules to EPA for incorporation into its SIP on April 5, 1991 and May 13, 1991, including the rules being acted on in this notice. This notice addresses EPA's proposed action for BAAQMD Rule 8–24 and SCAQMD Rule 1103. These submitted rules were found to be complete on May 21, 1991 and July 10, 1991, respectively, pursuant to EPA's completeness criteria adopted on February 16, 1990 (55 FR 5830) and set forth in 40 CFR part 51, appendix V,[3] and are being proposed for limited approval and limited disapproval.

BAAQMD Rule 8–24 and SCAQMD Rule 1103 control the emissions of volatile organic compounds (VOCs) from the solvents used in the manufacture of pharmaceuticals and cosmetics. VOCs contribute to the production of ground level ozone and smog. BAAQMD Rule 8–24 and SCAQMD Rule 1103 were originally adopted as part of BAAQMD's and SCAQMD's effort to achieve the National Ambient Air Quality Standard (NAAQS) for ozone and have been revised in response to EPA's SIP-Call and the section 182(a)(2)(A) CAA requirement. The following is EPA's evaluation and proposed action for BAAQMD's Rule 8–24 and SCAQMD's Rule 1103.

EPA Evaluation and Proposed Action

In determining the approvability of a VOC rule, EPA must evaluate the rule for consistency with the requirements of the CAA and EPA regulations, as found in section 110 and part D of the CAA and 40 CFR part 51 (Requirements for Preparation, Adoption, and Submittal of Implementation Plans). The EPA interpretation of these requirements, which forms the basis for today's action, appears in the various EPA policy guidance documents listed in footnote 1.

---

[1] Among other things, the pre-amendment guidance consists of those portions of the proposed Post-1987 ozone and carbon monoxide policy that concern RACT, 52 FR 45044 (November 24, 1987); "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations, Clarification to appendix D of November 24, 1987 Federal Register Notice" (Blue Book) (notice of availability was published in the Federal Register on May 25, 1988); and the existing control technique guidelines (CTGs).

[2] BAAQMD and SCAQMD retained their designation and were classified by operation of law pursuant to sections 107(d) and 181(a) upon the date of enactment of the CAA. See 56 FR 56694 (November 6, 1991).

[3] EPA has since amended the completeness criteria pursuant to section 110(k)(1)(A) of the amended Act. See 56 FR 42216 (August 26, 1991).

Among the provisions of the CAA, is the requirement that a VOC rule must, at a minimum, provide for the implementation of reasonably available control technology (RACT) for stationary sources of VOC emissions. This requirement was carried forth from the pre-amended Act.

For the purpose of assisting state and local agencies in developing RACT rules, EPA prepared a series of Control Techniques Guideline (CTG) documents. The CTGs are based on the underlying requirements of the Act and specify the presumptive norms for what is RACT for specific source categories. Under the CAA, Congress ratified EPA's use of these documents, as well as other Agency policy, for requiring States to "fix-up" their RACT rules. See section 182(a)(2)(A). The CTG applicable to BAAQMD Rule 8-24, Pharmaceutical and Cosmetic Manufacturing and SCAQMD Rule 1103, Pharmaceuticals and Cosmetics Manufacturing Operations, is entitled, "Control of Volatile Organic Emissions from the Manufacture of Synthesized Pharmaceutical Products", No. EPA-450/2-78-029. Further interpretations of EPA policy are found in the Blue Book. In general, these guidance documents have been set forth to ensure that VOC rules are fully enforceable and strengthen or maintain the SIP.

BAAQMD's submitted Rule 8-24, Pharmaceutical and Cosmetic Manufacturing Operations, includes the following revisions from the current SIP rule:

—An exemption for ethylene oxide sterilizers has been added. Ethylene oxide emissions are subject to more stringent standards in a separate rule.
—Standards have been added to the rule which require closed containers for cleanup solvent, solvent-soaked rags, and paper.
—Several past compliance dates have been deleted. A compliance schedule has been added for facilities affected by the "small user" exemption.
—Recordkeeping requirements have been added which require records to be kept on a daily basis and retained for 25 months for those sources seeking the "small user" exemption.
—Recordkeeping requirements have also been added for sources not requiring air pollution abatement equipment.
—Test methods have been specified for measuring Reid Vapor Pressure and measuring emissions from incineration.

SCAQMD's submitted Rule 1103, Pharmaceuticals and Cosmetics Manufacturing Operations, includes the following revisions from the current SIP rule:

—A definition for exempt compounds has been added.
—The definition for volatile organic compounds has been revised.
—Recordkeeping requirements have been added which require sources to maintain records of the type and volume of volatile organic compound containing materials used in maintenance and cleanup.
—Test methods for control device efficiency have now been specified.
—The effective dates section has been removed since the compliance date has passed.

EPA Proposed Action

EPA has evaluated BAAQMD's Rule 8-24 and SCAQMD's Rule 1103 for consistency with the CAA, EPA regulations, and EPA policy and has found that the revisions address and correct many deficiencies previously identified by EPA. These corrected deficiencies have resulted in clearer, more enforceable rules.

Although the approval of BAAQMD Rule 8-24 and SCAQMD Rule 1103 will strengthen the SIP, these rules still contain deficiencies which were required to be corrected pursuant to the section 182(a)(2)(A) requirement of part D of the CAA. The remaining deficiencies for BAAQMD Rule 8-24 are:

—Air pollution control officer (APCO) discretion in the approval of an alternate emission control device with reduces emissions by at least as much as a surface condenser.
—Lack of recordkeeping for key parameters for monitoring abatement device performance.
—Deficient test method for incineration.

The remaining deficiencies for SCAQMD Rule 1103 are:

—APCO discretion in the approval of an equivalent control device which reduces emissions by at least as much as a surface condenser.
—APCO discretion in the approval of an equivalent control method for collecting VOC emissions which exhaust to a carbon adsorber.
—APCO discretion in the approval of a more effective control system for storage tanks.
—Lack of recordkeeping for key parameters for monitoring abatement device performance.
—Records are not required to be kept on an emissions per day basis to coincide with the exemption.
—A test method for measuring vapor pressure is not specified.

A detailed discussion of each rule's deficiencies can be found in the Technical Support Documents for BAAQMD Rule 8-24 (June 19, 1992) and SCAQMD Rule 1103 (June 19, 1992), which are available from the U.S. EPA, Region 9 office. Because of these deficiencies, the rules are not approvable pursuant to section 182(a)(2)(A) of the CAA because they are not consistent with the interpretation of section 172 of the 1977 CAA as found in the Blue Book and may lead to rule enforceability problems.

Because of the above deficiencies, EPA cannot grant full approval of these rules under section 110(k)(3) and part D. Also, because the submitted rules are not composed of separable parts which meet all the applicable requirements of the CAA, EPA cannot grant partial approval of the rules under section 110(k)(3). However, EPA may grant a limited approval of the submitted rules under section 110(k)(3) in light of EPA's authority pursuant to section 301(a) to adopt regulations necessary to further air quality by strengthening the SIP. The approval is limited because EPA's action also contains a simultaneous limited disapproval. In order to strengthen the SIP, EPA is proposing a limited approval of BAAQMD's submitted Rule 8-24 and SCAQMD's submitted Rule 1103 under section 110(k)(3) and 301(a) of the CAA.

At the same time, EPA is also proposing a limited disapproval of these rules because they contain deficiencies that have not been corrected as required by section 182(a)(2)(A) of the CAA, and, as such, the rules do not fully meet the requirements of part D of the Act. Under section 179(a)(2), if the Administrator disapproves a submission under section 110(k) for an area designated nonattainment, based on the submission's failure to meet one or more of the elements required by the Act, the Administrator must apply one of the sanctions set forth in section 179(b) unless the deficiency has been corrected within 18 months of such disapproval. Section 179(b) provides two sanctions available to the Administrator: highway funding and off-sets. The 18 month period referred to in section 179(a) will begin at the time EPA publishes final notice of this disapproval. Moreover, the final disapproval triggers the federal implementation plan (FIP) requirement under section 110(c).

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and

environmental factors and in relation to relevant statutory and regulatory requirements.

Regulatory Process

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

Limited approvals under sections 110 and 301 and subchapter I, part D of the CAA do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the federal SIP-approval does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the federal-state relationship under the CAA, preparation of a regulatory flexibility analysis would constitute federal inquiry into the economic reasonableness of state action. The CAA forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co.* v. *U.S. E.P.A.*, 427 U.S. 246, 256–66 (S.Ct. 1976); 42 U.S.C. 7410(a)(2).

EPA's limited disapproval of the State request under sections 110 and 301 and subchapter I, part D of the CAA does not affect any existing requirements applicable to small entities. Federal disapproval of the state submittal does not affect its state-enforceability. Moreover, EPA's disapproval of the submittal does not impose any new federal requirements. Therefore, EPA certifies that this disapproval action does not have a significant impact on a substantial number of small entities because it does not remove existing requirements nor does it impost any new federal requirements.

This action has been classified as a Table 2 action by the Regional Administration under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of two years. EPA has submitted a request for a permanent waiver for Table 2 and Table 3 SIP revisions. OMB has agreed to continue the temporary waiver until such time as it rules on EPA's request.

Federal Register
Vol. 57, No. 185
Wednesday, September 23, 1992

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Steen Creek Salvage Timber Sale, Idaho

AGENCY: Forest Service, USDA.

ACTION: Revised notice of intent to prepare an environmental impact statement.

SUMMARY: A notice of intent to prepare an Environmental Impact Statement for the proposed Steen Creek, Landore, and Deep/Copper Timber Sales was published in the **Federal Register** August 3, 1990, (Vol. 55, Issue No. 150, Page 31617).

That notice is hereby revised to show that the Environmental Impact statement will not include the analysis for the Steen Creek Salvage Timber Sale. In August 1992, the 17,500 acre Windy Ridge fire burned and killed the timber on approximately 6,000 acres of the Payette National Forest. Because of rapidly deteriorating timber, Payette National Forest Acting Supervisor Gary E. Sayer has decided to address the Steen Creek Salvage Timber Sale in a separate Environmental Impact Statement.

Rapid drying of the fire-killed trees will result in cracking or "checking," especially in smaller diameter trees. This checking will quickly reduce their utilization as sawlogs. If salvage activities are not initiated in the next year, currently dead trees will no longer be sound for harvest. If salvage activities are concluded next year, dead timber stands would be planted in 1994 before brush and grass species dominate the sites. Potential exists to lose significant value in terms of salvage volume and long term growth and yield by delaying reforestation.

No other revisions are made.

The Forest Service will prepare an environmental impact statement (EIS) for the proposed Steen Creek Salvage Timber Sale, Council Ranger District, Payette National Forest, Idaho. The proposed salvage sale would construct roads and harvest dead timber within a portion of the Indian Creek roadless area that the Forest Plan allocated to timber management.

A range of alternatives will be considered for the proposal—from taking no action to harvesting about 15 million board feet of timber.

The agency has done some initial scoping for the analysis, but they invite additional comments and suggestions on the scope of the analysis to be included in the draft environmental impact statement (draft EIS).

DATES: Comments on the scope of the analysis must be received by October 23, 1992.

ADDRESSES: Submit written comments and suggestions concerning the scope of the analysis to Tracy Beck, Steen Creek Salvage Team Leader, Council Ranger District, P.O. Box 567, Council, Idaho 83638.

FOR FURTHER INFORMATION CONTACT: Tracy Beck, (208) 253–4215.

SUPPLEMENTARY INFORMATION: The Payette National Forest Plan (1988) provides Forestwide direction for management of the resources of the Payette National Forest, including roadless areas. The environmental impact statement for the Forest Plan (1988) analyzed a range of development and non-development alternatives for the Indian Creek roadless area. The Forest Plan allocates the entire area to timber management and assigns it to Management Area 3.

As well as Forestwide direction, the Forest Plan gives specific direction for Management Area 3. It requires integrated management to meet the desired future condition of the Forest for multiple resources including recreation, range, soil and water, fish, wildlife, timber, and fire/fuels.

Public participation will be especially important at several points during the analysis, particularly during scoping of issues and review of the draft EIS.

The scoping process includes:

1. Identifying potential issues.
2. Identifying issues to be analyzed in depth.
3. Eliminating insignificant issues or those covered by a relevant previous environmental analysis.
4. Determining potential cooperating agencies and responsibilities.

The U.S. Fish and Wildlife Service, Department of the Interior, will be invited to participate as a cooperating agency to evaluate potential impacts on threatened and endangered species habitat.

The Forest Service has conducted some preliminary scoping on the proposed salvage timber sale and has identified preliminary issues and concerns. They include the following:

—How will recreation use be affected?
—How will visual quality be affected?
—How will the Indian Creek roadless area be affected?
—How will wildlife be affected?
—How will soil productivity be affected?
—How will water quality and fish habitat in Indian Creek be affected?

The second major opportunity for public input is the draft EIS. The draft EIS will analyze a range of alternatives to the proposed action, including the no action alternative and alternative amounts of road building and salvage timber harvesting. The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and to be available for public review in December 1992. EPA will then publish a notice of availability of the draft EIS in the **Federal Register**. Public comments are invited.

The public comment period on the draft EIS will be 45 days from the date the EPA's notice of availability appears in the **Federal Register**. It is important that those interested in the management of the affected areas participate at that time. To be most helpful, comments on the draft EIS should be as specific as possible and may address the adequacy of the statement or the merits of the alternatives discussed. The reason for this is to ensure that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider and respond in the final EIS.

Comments on the draft EIS will be analyzed and considered by the Forest Service in preparing the final EIS, which is scheduled to be completed in March 1993. In the final EIS the Forest Service is required to respond to the comments received (40 CFR 1503.4). The responsible official will consider the comments, responses, environmental

consequences discussed in the final EIS, and applicable laws, regulations, and policies in making the decision and stating the reasons for it in the Record of Decision.

The Forest Service intends to exclude this decision from appeal pursuant to 36 CFR 217.4(a)(11), for the salvage harvest and restoration of the Steen Creek analysis area.

Gary E. Sayer, Acting Forest Supervisor of the Payette National Forest, McCall, Idaho, is the responsible official for this EIS.

Dated: September 16, 1992.

Jerry D. Greer,

Acting Forest Supervisor.

BILLING CODE 3410-11-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton, Wool, and Man-Made Fiber Textile Products Produced or Manufactured in China

September 18, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: September 18, 1992.

FOR FURTHER INFORMATION CONTACT: Janet Heinzen, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-6703. For information on embargoes and quota re-openings, call (202) 377-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories are being adjusted variously for shift added, carryforward, and shift subtracted.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 56 FR 60101, published on November 27, 1991). Also see 56 FR 60976, published on November 29, 1991.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 18, 1992.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 22, 1991, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in China and exported during the twelve-month period which began on January 1, 1992 and extends through December 31, 1992.

Effective on September 18, 1992, you are directed to amend further the directive dated November 22, 1991 to adjust the limits for the following categories, as provided under the terms of the current bilateral agreement between the Governments of the United States and China:

Category	Adjusted twelve-month limit [1]
200	624,031 kilograms.
219	539,806 square meters.
237	1,668,975 dozen.
239	2,784,388 kilograms.
300/301	2,288,582 kilograms.
335	379,909 dozen.
342	262,200 dozen.
351	472,866 dozen.
359-V [2]	821,533 kilograms.
360	7,026,997 numbers, of which not more than 4,703,501 numbers shall be in category 360-P [3].
435	25,055 dozen.
615	23,274,512 square meters.
635	593,382 dozen.
642	301,342 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1991.

[2] Category 359-V: only HTS numbers 6103.19.2030, 6103.19.4030, 6104.12.0040, 6104.19.2040, 6110.20.1022, 6110.20.1024, 6110.20.2030, 6110.20.2035, 6110.90.0044, 6110.90.0046, 6201.92.2010, 6202.92.2020, 6203.19.1030, 6203.19.4030, 6204.12.0040, 6204.19.3040, 6211.32.0070 and 6211.42.0070.

[3] Category 360-P: only HTS numbers 6302.21.1010, 6302.21.1020, 6302.21.2010, 6302.21.2020, 6302.31.1010, 6302.31.1020, 6302.31.2010 and 6302.31.2020.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-F

Adjustment of Import Limits for Certain Cotton, Wool, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Taiwan

September 17, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 927-6719. For information on embargoes and quota re-openings, call (202) 377-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The current limits for certain categories are being adjusted, variously, for special shift and carryover.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 56 FR 60101, published on November 27, 1991). Also see 56 FR 58557, published on November 20, 1991.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist

only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 17, 1992.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 15, 1991, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Taiwan and exported during the twelve-month period which began on January 1, 1992 and extends through December 31, 1992.

Effective on September 24, 1992, you are directed to amend further the directive dated November 15, 1991, to adjust the limits for the following categories, as provided under the terms of the bilateral agreement, effected by exchange of notes dated August 21, 1990 and September 28, 1990:

Category	Adjusted twelve-month limit [1]
Group II 237, 239, 330–332, 333/334/335, 336, 338/339, 340–345, 347/348, 349, 350/650, 351, 352/652, 353, 354, 359–C/659–C [2], 359–H/659–H [3], 359–O [4], 431–444, 445/446, 447/448, 459, 630–632, 633/634/635, 636, 638/639, 640, 641–644, 645/646, 647/648, 649, 651, 653, 654, 659–S [5], 659–O [6], 831–844 and 846–859, as a group.	782,550,000 square meters equivalent.
Sublevels in Group II	
239	5,202,636 kilograms.
340	1,228,458 dozen.
352/652	2,626,281 dozen.
443	42,186 numbers.
445/446	139,314 dozen.
447/448	20,589 dozen.
636	343,041 dozen.
640	958,276 dozen of which not more than 284,527 dozen shall be in Category 640–Y [7].
641	773,921 dozen of which not more than 256,635 dozen shall be in Category 641–Y [8].
659–S [9]	1,729,838 kilograms.
835	17,712 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1991.

[2] Category 359–C: only HTS numbers 6103.42.2025, 6103.49.3034, 6104.62.1020, 6104.69.3010, 6114.20.0048, 6114.20.0052, 6203.42.2010, 6203.42.2090, 6204.62.2010, 6211.32.0010, 6211.32.0025 and 6211.42.0010; Category 659–C: only HTS numbers 6103.23.0055, 6103.43.2020, 6103.43.2025, 6103.49.2000, 6103.49.3038, 6104.63.1020, 6104.63.1030, 6104.69.1000, 6104.69.3014, 6114.30.3044, 6114.30.3054, 6203.43.2010, 6203.43.2090, 6204.63.1510, 6204.69.1010, 6210.10.4015, 6211.33.0010, 6211.33.0017 and 6211.43.0010.

[3] Category 359–H: only HTS numbers 6505.90.1540 and 6505.90.2060; Category 659–H: only HTS numbers 6502.00.9030, 6504.00.9015, 6504.00.9060, 6505.90.5090, 6505.90.6090, 6505.90.7090 and 6505.90.8090.

[4] Category 359–O: all HTS numbers except 6103.42.2025, 6103.49.3034, 6104.62.1020, 6104.69.3010, 6114.20.0048, 6114.20.0052, 6203.42.2010, 6203.42.2090, 6204.62.2010, 6211.32.0010, 6211.32.0025, 6211.42.0010 (Category 359–C); 6505.90.1540 and 6505.90.2060 (Category 359–H).

[5] Category 659–S: only HTS numbers 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020.

[6] Category 659–O: all HTS numbers except 6103.23.0055, 6103.43.2020, 6103.43.2025, 6103.49.2000, 6103.49.3038, 6104.63.1020, 6104.63.1030, 6104.69.1000, 6104.69.3014, 6114.30.3044, 6114.30.3054, 6203.43.2010, 6203.43.2090, 6203.49.1010, 6203.49.1090, 6204.63.1510, 6204.69.1010, 6210.10.4015, 6211.33.0010, 6211.33.0017, 6211.43.0010 (Category 659–C); 6502.00.9030, 6504.00.9015, 6504.00.9060, 6505.90.5090, 6505.90.6090, 6505.90.7090, 6505.90.8090 (Category 659–H); 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020 (Category 659–S).

[7] Category 640–Y: only HTS numbers 6205.30.2010, 6205.30.2020, 6205.30.2050 and 6205.30.2060.

[8] Category 641–Y: only HTS numbers 6204.23.0050, 6204.29.2030, 6206.40.3010 and 6206.40.3025.

[9] Category 659–S: only HTS numbers 6112.31.0010, 6112.31.0020, 6112.41.0010, 6112.41.0020, 6112.41.0030, 6112.41.0040, 6211.11.1010, 6211.11.1020, 6211.12.1010 and 6211.12.1020.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–F

CONSUMER PRODUCT SAFETY COMMISSION

Request for Approval of Collection of Information: Compliance Survey of Manufacturers, Labelers, and Repackagers of Drugs Containing Diphenhydramine

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35), the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for approval through September 30, 1993, of a collection of information in the form of a survey of firms which manufacture, label, or repackage oral dosage drugs containing diphenhydramine. The purpose of this survey is to assess the over-all level of compliance with requirements for child-resistant packaging of oral dosage forms of drugs which are intended for human use and which contain more than 66 milligrams of diphenhydramine base in a single package. The regulation requiring child-resistant packaging for drugs containing diphenhydramine is codified at 16 CFR 1700.14(a)(17). The standard for child-resistant packaging is codified at 16 CFR 1700.15. These regulations were issued under provisions of the Poison Prevention Packaging Act (15 U.S.C. 1471 *et seq.*) to protect young children from serious personal injury or illness from ingesting or handling toxic drugs and other hazardous household substances.

The survey of manufacturers, labelers, and repackagers of drugs containing diphenhydramine is part of a comprehensive plan to assess compliance by regulated industries with 70 rules enforced by the Commission. The Commission will use the information obtained from the survey of manufacturers, labelers, and repackagers of drugs containing diphenhydramine to establish priorities for enforcement of mandatory standards and regulations which the Commission administers. Information obtained from this survey will also be used to support appropriate legal action against any firm which has distributed prepackaged drugs containing diphenhydramine not in compliance with applicable requirements for child-resistant packaging.

Additional Details About the Request for Approval of a Collection of Information

Agency address: Consumer Product Safety Commission, Washington, DC 20207

Title of information collection: Diphenhydramine Compliance Survey.

Type of request: New request.

Frequency of collection: One time.

General description of respondents: Manufacturers, labelers, and repackagers of oral dosage drugs containing diphenhydramine.

Estimated number of respondents: 50.

Estimated average number of hours per respondent: 8.

Estimated number of hours for all respondents: 400.

Comments: Comments on this request for extension of approval of information collection requirements should be addressed to Donald Arbuckle, Desk

Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395–7340. Copies of the request for extension of information collection requirements are available from Francine Shacter, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504–0416.

This is not a proposal to which 44 U.S.C. 3504(h) is applicable.

Dated: September 18, 1992.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–M

Announcement of Seminars on New Reporting Requirements

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of seminars.

SUMMARY: The Consumer Product Safety Commission, in cooperation with the American Bar Association's Section of Tort and Insurance Practice, is sponsoring two seminars on "Consumer Safety and Industry Compliance with the New Reporting Requirements of the Consumer Product Safety Commission: A Blueprint for Cooperation in the '90s." The seminars will be held on October 1–2 in the Ritz Carlton Tyson's Corner Hotel in McLean, Virginia, and on November 12–13 in the Hotel del Coronado in San Diego, California.

FOR FURTHER INFORMATION CONTACT: Eric C. Peterson, Executive Director, Telephone 301–504–0550 or Lawrence Herman, Special Assistant to the Chairman, Telephone 301–504–0500, Consumer Product Safety Commission, Washington, DC 20207–0001.

SUPPLEMENTARY INFORMATION: The Consumer Product Safety Improvement Act of 1990 Public Law 101–608, 15 U.S.C. 2064, 2084, imposed new requirements on manufacturers, distributors, importers, and retailers of consumer products to report to the Commission products which fail to comply with Commission regulations, which fail to comply with certain voluntary standards, which create an unreasonable risk of serious injury or death, which contain a defect which could create a substantial product hazard, or which give rise to repeated product liability judgments or settlements in favor of plaintiffs. The Commission has issued implementing regulations for these requirements in the **Federal Register** at 57 FR 34222 and 57 FR 34230, both on August 4, 1992, and issued a correction to the regulations at 57 FR 39597, September 1, 1992. The seminars will address the new requirements and related issues and are intended to assist manufacturers, distributors, importers, and retailers of consumer products, and their counsel, in complying with the new requirements. Registration information is available by calling 1–800–964–4253.

Dated: September 16, 1992.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–M

DEPARTMENT OF DEFENSE

Department of the Army

Intent To Prepare a Draft Programmatic Environmental Impact Statement (DEIS) for the South Florida Limestone Mining, Fresh Water Lake Belt Plan, Dade County, FL

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of intent.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers, along with certain cooperating agencies, intends to prepare a Draft Programmatic Environmental Impact Statement on the feasibility of implementing the South Florida Limestone Mining, Fresh Water Lake Belt Plan, Dade County, Florida.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and draft EIS can be answered by: William Porter, U.S. Army Engineer District, P.O. Box 4970, Jacksonville, Florida 32232–0019, Telephone (904) 232–2259.

SUPPLEMENTARY INFORMATION:

a. A coalition of south Florida limestone rock mining companies has developed a concept of mining and mitigation which could impact approximately 54,000 acres of wetlands by the year 2050 in northwest Dade County. The magnitude and duration of the plan is such that the U.S. Army Corps of Engineers determined that a programmatic EIS should be prepared for the entire plan pursuant to Section 404 of the Clean Water Act.

b. Scoping: The scoping process as outlined by the Council on Environmental Quality will be utilized to involve Federal, State, and local agencies; and other interested persons and organizations. A scoping letter will be sent to interested Federal, State, and local agencies requesting their comments and concerns regarding issues they feel should be addressed in the EIS. Interested persons and organizations wishing to participate in the scoping process should contact the Corps of Engineers at the address above. Significant issues anticipated include concern for: local groundwater recharge, water quality, recreation, wetlands, fish and wildlife, and land use. Public scoping meetings will be held in the near future, the exact location, dates, and times will be announced in public notices and local newspapers.

c. It is estimated that the DEIS will be available to the public in November 1993.

Kenneth L. Denton,

Army Federal Register Liaison Officer.

BILLING CODE 3710–AJ–M

Army Science Board; Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), announcement is made of the following Committee Meeting:

Name of the Committee: Army Science Board (ASB).

Dates of the Meeting: 8 and 9 October 1992.

Time: 0800–1700 Hours.

Place: Pentagon, Washington, DC.

Agenda: The Army Science Board's ad hoc study group "The Space Systems and Future Army Operations" will meet for discussions focussed on current operational concept and the Army Long Range Plan for Space. Additionally, operational commands and TRADOC schools will present lessons learned in Operations Desert Shield/Storm. This meeting will be closed to the public in accordance with section 552b(c) of Title 5, U.S.C., specifically subparagraphs (1) and (4) thereof, and title 5, U.S.C., appendix 2, subsection 10(d). The classified and unclassified matters and proprietary information to be discussed is so inextricably intertwined so as to preclude opening any portion of the meeting. ASB Administrative Office, Sally Warner, may be contacted for further information (703) 695–0781.

Sally A. Warner,

Administrative Officer, Army Science Board.

BILLING CODE 3710–08–M

DEPARTMENT OF EDUCATION

National Assessment Governing Board; Meeting

AGENCY: National Assessment Governing Board; Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Subject Area Committee #1 of the National Assessment Governing Board. This notice also describes the functions of the Board. Notice of this meeting is required under section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

DATE: Wednesday, September 30, 1992.

TIME: 3 P.M. (ET).

LOCATION: National Assessment Governing Board, 800 North Capitol Street, Washington, DC, Suite 825.

FOR FURTHER INFORMATION CONTACT: Mary Ann Wilmer, Operations Officer, National Assessment Governing Board, Suite 825, 800 North Capitol Street, NW., Washington, DC, 20002–4233, Telephone: (202) 457–6936.

SUPPLEMENTARY INFORMATION: The National Assessment Governing Board is established under section 406(i) of the General Education Provisions Act (GEPA) as amended by section 3403 of the National Assessment of Educational Progress Improvement Act (NAEP Improvement Act), title III–C of the Augustus F. Hawkins—Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 (Pub. L. 100–297), (20 U.S.C. 1221e–1).

The Board is established to formulate policy guidelines for the National Assessment of Educational Progress. The Board is responsible for selecting subject areas to be assessed, developing assessment objectives, identifying appropriate achievement goals for each grade and subject tested, and establishing standards and procedures for interstate and national comparisons.

The Subject Area #1 Committee of the National Assessment Governing Board will meet September 30, 1992 from 3 p.m. until 4:30 p.m. Because this is a teleconference meeting, facilities will be provided so the public will have access to the Committee's deliberations. The purpose of this meeting is to take final action on the 1993 U.S. history and geography field test items for NAEP.

Records are kept of all Board proceedings and are available for public inspection at the U.S. Department of Education, National Assessment Governing Board, Suite 825, 800 North Capitol Street, NW., Washington, DC, from 8:30 a.m. to 5 p.m.

Dated: September 17, 1992.

Roy Truby,

Executive Director, National Assessment Governing Board.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Environmental Compliance Training Courses

September 17, 1992.

The Office of Pipeline and Producer Regulation (OPPR) will present environmental compliance training courses. These courses are being held so that the regulated pipeline industry and interested individuals and/or organizations can gain a better understanding of the requirements and objectives of the Commission in ensuring compliance with all environmental certificate conditions and meeting its responsibilities under the National Environmental Policy Act and other laws and regulations. Interested organizations are urged to take advantage of these courses.

Course discussion will include the following topics:

- Objectives and requirements of FERC construction orders;
- Preconstruction clearance filings and obtaining Notices to Proceed;
- Compliance with § 2.69 and § 157.206(d); and
- Environmental Inspection as it relates to:
- Right-of-way preparation;
- General erosion control;
- Right-of-way restoration;
- Topsoil segregation;
- Stream and river crossings;
- Wetland construction;
- Residential area construction;
- Construction and restoration in arid climates;
- Cultural resources/Paleontology; and
- Right-of-way maintenance.

The training courses will be given in four regional locations identified below to ensure broad participation. Details on location and time may be obtained from Mr. John Leiss at the number listed below.

Minneapolis, MN.....	November 4 and 5, 1992.
Houston, TX.....	January 12 and 13, 1993.
Pittsburh, PA.....	March 16 and 17, 1993.
Denver, CO.....	April 20 and 21, 1993.

The course is designed for individuals directly involved in environmental performance such as environmental and right-of-way inspectors, and construction contractor personnel. Training will be conducted by Ebasco Environmental (Ebasco), the Commission's environmental support contractor, under the direction of the staff of OPPR. There will be no registration fee.

Any organization interested in participating in this course should contact Mr. John Leiss at (202) 208–1106 or Mr. George Willant of Ebasco at (617) 451–1201. Contact should be made within 15 days of publication of this notice for the first session and within 30 days of the three remaining course dates. Respondents will subsequently be contacted by Ebasco staff to determine specific areas of interest and anticipated level of workshop attendance.

Lois D. Cashell,

Secretary.

[FR Doc. 92–23015 Filed 9–22–92; 8:45 am]

BILLING CODE 6717–01–M

Financial Assistance Award Intent To Award Grant to Northwest Missouri State University

AGENCY: Department of Energy.

ACTION: Notice of unsolicited financial assistance award.

SUMMARY: The Department of Energy announces that pursuant to 10 CFR 600.6(a)(2), it is making a discretionary financial assistance award based on acceptance of an unsolicited application meeting the criteria of 10 CFR 600.14(e)(1) to NMSU under Grant No. DE–FG01–92CE50350. The proposed grant would provide Government funding in the estimate amount of $105,244 to Northwest Missouri State University (NMSU) to investigate the effects of the commerically available ethanol and ethanol/gasoline and to identify problems of the blend in small spark-ignition engines. NMSU will provide $8,420 in funding and various motorcycle manufacturers will provide $21,000 in funds. The total of this grant is estimated to be $134,664. The information learned through this grant can be used to identify the use of Gasohol in the small engine sector and reduce the need of fossil.

In accordance with 10 CFR 600.14(e)(1), it has been determined that the application submitted by NMSU is meritorious based on the general evaluation required by 10 CFR 600.14(d)

and that the proposed project represents a unique idea that would not be eligible for financial assistance under a recent, current, or planned solicitation. The application proposes a unique energy saving technology which has been recommended by the National Institute of Standards and Technology (NIST). Dr. John C. Phoades, the principal investigator, has focused on small engine research with a variety of fuels and has many years of experience at NMSU developing and testing alternative fuels. His unique knowledge and experience is critical to the project. The Energy-Related Inventions Program (ERIP) has been structured, since its beginning in 1975, to operate without competitive solicitations, because the legislation directs ERIP to provide support for worthy ideas submitted by the public. The proposed technology has a strong possibility of allowing for future reductions in the United States dependence on foreign oil. The program has never issued and has no plans to issue competitive solicitation.

The anticipated term of the proposed grant shall be 24 months from the effective date of award.

FOR FURTHER INFORMATION CONTACT: Department of Energy, Office of Placement and Administration, ATTN: John Windish, PR–322.3, 1000 Independence Avenue SW., Washington, DC 20585.

Thomas S. Keefe,

Director, Operations Division "B" Office of Placement and Administration.

[FR Doc. 92–23100 Filed 9–22–92; 8:45 am]

BILLING CODE 6450–01–M

DOE Response to Recommendation 92–4 of the Defense Nuclear Facilities Safety Board Concerning Conceptual Design of the Multi-Function Waste Tank Facility at the Hanford Site

AGENCY: Department of Energy.

ACTION: Notice and request for public comment.

SUMMARY: Pursuant to section 315(b) of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2286d(b), the Department of Energy (DOE) hereby publishes notice of a response of the Secretary of Energy (Secretary) to Recommendation 92–4 of the Defense Nuclear Facilities Safety Board, published in the **Federal Register** on July 14, 1992 (57 FR 31177), concerning conceptual design of the Multi-Function Waste Tank Facility to be constructed at the Hanford Site in the State of Washington.

DATES: Comments, data, views, or arguments concerning the Secretary's response are due on or before October 23, 1992.

ADDRESSES: Send comments, data, views, or arguments concerning the Secretary's response to: Defense Nuclear Facilities Safety Board, 625 Indiana Avenue NW., suite 700, Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Mr. Leo P. Duffy, Assistant Secretary for Environmental Restoration and Waste Management, Department of Energy, 1000 Independence Avenue SW., Washington, DC 20004.

Issued in Washington, DC, on September 17, 1992.

Mario Fiori,

Departmental Representative to the Defense Nuclear Facilities Safety Board.

The Secretary of Energy

Washington, DC 20585

August 28, 1992.

The Honorable John T. Conway,
Chairman, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue NW., Suite 700, Washington, DC 20004.

Dear Mr. Conway: Your letter of July 6, 1992, forwarded the Defense Nuclear Facilities Safety Board (DNFSB) Recommendation 92–4 regarding the Multi-Function Waste Tank Facility (MWTF) at Hanford. The DNFSB recommended that the Department of Energy (DOE) establish a plan and methodology that result in a project management organization for the NWTF project team that assures both DOE and the contractor organizations have personnel with the technical and managerial competence to ensure effective project execution, including achieving the quantitative safety goals described in the Department's Nuclear Safety Policy (SEN–35–91).

The Department accepts the Board's Recommendation 92–4. Enclosed are comments that describe actions to be taken in response to the recommendations and DOE views on the recommendations. In accordance with section 315(b) of the Atomic Energy Act of 1954, as amended, this response will be published in the **Federal Register** for public comment. Also, in accordance with section 315(e) of the Act, an implementation plan will be prepared which will describe in greater detail the actions to be taken by DOE to implement the Board's Recommendation.

Sincerely,

James D. Watkins,

Admiral, U.S. Navy (Retired).

Comments on DNFSB Recommendation 92–4 Regarding the Multi-Function Waste Tank Facility (MWTF) at Hanford

On July 6, 1992, Chairman John T. Conway of the Defense Nuclear Facilities Safety Board (DNFSB) wrote to Secretary Watkins enclosing Recommendation 92–4, which was unanimously approved by the DNFSB on July 1, 1992. The DNFSB recommendations and the Department of Energy (DOE) response are as follows:

Recommendation 1

Establish a plan and methodology that results in a project management organization for the MWTF project team that assures that both DOE and the contractor organization have personnel of the technical and managerial competence to ensure effective project execution. This should emphasize management aspects of the project necessary to ensure adequate protection of public health and safety and should include the integration of professional engineering and quality assurance as necessary into the project, the application of appropriate standards and approved DOE requirements, and the establishment of clear lines of responsibility and accountability.

The Department accepts this recommendation. The project management structure and the technical knowledge and abilities of DOE and its contractor personnel obviously are extremely important elements in the successful performance of a major project activity such as the design and construction of the MWTF. With this in mind, the Secretary directed in the Nuclear Safety Policy (SEN–35–91) that DOE and its contractors establish and maintain management involvement and accountability to ensure that nuclear safety requirements are met and individual responsibility is articulated and understood by all parties. Furthermore, the Secretary directed DOE and its contractors to develop and foster technically competent personnel and the technical standards necessary to achieve nuclear safety. Some of the activities specifically applicable to the MWTF project that will implement this policy are discussed below.

The Project Plan (PP) and the Project Management Plan (PMP) for the MWTF project will delineate the functions and clear lines of responsibility and accountability of DOE and contractor organizations. The Department is establishing a dedicated project office within DOE and also within each of its contractor organizations to provide focused managerial and technical guidance on all aspects of the Tank Waste Remediation System, including the MWTF. Assignment and recruitment of staff for these dedicated project offices will focus on providing dedicated, competent project management, safety, quality assurance, regulatory, operations, and startup personnel responsible for implementing functions consistent with the PP and PMP. The requirements for technical expertise, professional engineering experience, and training necessary for project execution will be established in position descriptions. Candidate qualifications will be evaluated and verified as each position is filled. Emphasis will be placed on obtaining well qualified DOE and contractor staff. Growth and evolution of DOE and contractors project offices will retain continuity of functions and responsibilities. The onsite Engineer/Constructor (E/C), for example, has performed the Conceptual Design and will be performing Title I, II, and III Design, as well as Construction Management.

The application of appropriate standards and approved DOE requirements began with

the development of Functional Design Criteria (FDC). The FDC was reviewed by Westinghouse Hanford Corporation (WHC) and the appropriate DOE safety, quality assurance, security, startup, operations and programs, and contractors from other DOE Field Offices, to name a few of the active participants, to ensure adequate protection of the public health and safety. As a result of these reviews, it was recognized that some of the criteria require additional consideration. This will be done during the next phase of the project; namely, Advanced Conceptual Design. Future project phases and design documentation will undergo similar reviews consistent with the responsibilities delineated in the PP and PMP.

Clear lines of responsibility and accountability and achieved with direction originating from the DOE Project Manager to WHC. WHC provides day-to-day technical direction, oversight, letters of instruction, and work authorization and funding to the E/C.

In addition, outside technical expertise is utilized from a variety of sources in support of the dedicated project office (e.g., other DOE Field Offices and their contractors, independent consultants from the commercial sector, General Support Services Contract with the DOE Richland Field Office, etc.).

Recommendation 2

Identify the design bases and engineering principles and approaches for the MWTF project that provide the date and rationale to show that the design for the MWTF conservatively meets the quantitative safety goals described in the Department's Nuclear Safety Policy (SEN–35–91). The Board believes that this would include items related to standards, identification of safety-related items, design bases, functional design criteria, and safety analyses.

The Department accepts this recommendation. It is DOE policy that the general public be protected such that no individual bears significant additional risk to health and safety from the operation of a DOE nuclear facility above the risks to which members of the general population are normally exposed. This policy was established in September 1991 in SEN–35–91. Implementation of this policy must begin with the design and construction phases for new facilities, and the data and rationale that demonstrate implementation of the policy must be clearly defined and adequately documented. Some of the activities specifically applicable to the MWTF project that will implement this policy are discussed below.

The *Radiological Risk Acceptance Guidelines*, developed by the DOE High-Level Waste Safety Envelope Working Group and the Westinghouse Management and Operating (M&O) Nuclear Facility Safety Committee, will be used in determinations involving the acceptability of design for all high-level waste tank facilities. These guidelines were developed from existing DOE Orders, guidelines, recommended peer group assessments, and industrial standards. The guidelines are to be used for individual accident risk assessments of accidents that could result in unplanned releases of radioactive materials. These guidelines were developed to be conservative with respect to the quantitative safety goals described in DOE Nuclear Safety Policy. Individual safety analyses, to be documented in safety analysis Reports, will be required to demonstrate that the safety policy has been met.

In addition, the MWTF will be designed, constructed, and operated with appropriate measures to prevent or minimize potential radioactive releases, including engineered safety features to minimize potential releases and the use of procedural controls to mitigate the effects of potential releases.

A Supplemental Design Requirements (SDR) document will be prepared which will address the design basis and technical rationale to be utilized during project design/construction. The SDR will identify in greater detail the functional requirements of the major systems and components already established in the approved Functional Design Criteria (FDC). The supplemental design requirements will address specific implementation of the draft DOE *Seismic Design and Evaluation Guidelines for the DOE HLW Tanks*, the conservatisms being incorporated into the design documents, the considerations of safety risk assessment, and the selection basis for specific codes and standards applied to the project. This document will serve as the lower-level technical baseline to the FDC.

By utilizing the SDR, the risk assessment guidelines, DOE Order 6430.1A Compliance Analysis, lessons learned, and applicable features of the DNFSB Recommendation 90–2 implementation requirements, we believe that the intent of SEN–35–91 will be implemented. Through the preparation and independent review of all required safety documentation (e.g., Preliminary Safety Evaluation, Preliminary Safety Analysis Report, Final Safety Analysis Report, Operational Safety Requirements, and Emergency Response Procedures), the final successful documentation of all safety-related aspects will be assured. The preparation of the safety documentation is scheduled throughout the life of the project.

FEDERAL ENERGY REGULATORY COMMISSION

[Docket No. CI92–77–000]

Natural Gas Services, Inc.; Application for Blanket Certificate with Pregranted Abandonment

September 17, 1992.

Take notice that on September 15, 1992, Natural Gas Services, Inc. (Natural) filed an application under Section 7 of the Natural Gas Act (NGA) for an unlimited-term blanket certificate with pregranted abandonment authorizing sales in interstate commerce for resale of all Natural Gas Policy Act categories of natural gas subject to Commission jurisdiction, gas purchased from interstate pipelines, including gas purchased under any existing or subsequently approved pipeline blanket certificate authorizing interruptible sales of surplus system supply gas, gas released under permanent or limited term abandonment authorizations, gas released pursuant to Order Nos. 451 or 490, gas purchased from intrastate pipelines and local distribution companies, any imported natural gas, liquified natural gas, and other natural gas subject to the Commission's NGA jurisdiction, without rate restrictions. Natural's application is on file with the Commission and open to public inspection.

To be heard or to protest the application a person must file a motion to intervene or a protest on or before October 9, 1992. A person filing a protest or motion to intervene must follow the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214). All protests or motions to intervene must be filed with the Federal Energy Regulatory Commission, Washington, DC 20426.

The Commission will consider all filed protests in deciding the appropriate action to take but filing a protest does not make a protestant a party to a proceeding. A person wanting to be a party to a proceeding or to participate as a party in a hearing must file a motion to intervene.

Under the procedure provided for here, unless otherwise advised, Natural will not have to appear or be represented at any hearing.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RS92–84–000]

Texas Sea Rim Pipeline, Inc.; Conference

September 17, 1992

Take notice that October 2, 1992, a conference will be convened in the above-captioned docket to discuss Texas Sea Rim Pipeline, Inc. summary of its proposed plan for implementation of Order No. 636.

The conference will be held in a hearing or conference room of the Federal Energy Regulatory Commission, 810 First Street, NE., Washington, DC 20426. The conference will begin at 9:30 a.m. All interested persons are invited to attend. Attendance at the conference,

however, will not confer party status. For additional information, interested persons can call Betsy Carr at (202) 208–1240 or Leonard Burton at (202) 208–2085.

Lois D. Cashell,

Secretary.

[FR Doc. 92–23013 Filed 9–22–92; 8:45 am]

BILLING CODE 6717–01–M

Assistant Secretary for International Affairs and Energy Emergencies

Proposed Subsequent Arrangement

Pursuant to section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation between the Government of the United States of America and the European Atomic Energy Community (EURATOM) concerning Peaceful Uses of Atomic Energy, as amended, and the Agreement for Cooperation between the Government of the United States of America and the Government of Switzerland concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangement to be carried out under the above-mentioned agreements involves the transfer of 140 kilograms of plutonium from France to either Belgonucleaire, Dessel, Belgium, or to British Nuclear Fuels, plc, in the United Kingdom, for fabrication of mixed uranium-plutonium oxide fuel and subsequent retransfer of the fuel to Switzerland for use at the Beznau power reactors. Retransfer documents RTD/SD(EU)–60, 61 and 62 have been assigned to this subsequent arrangement.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice and after fifteen days of continuous session of the Congress, beginning the day after the date on which the reports required by section 131(b)(1) of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), are submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate. The two time periods referred to above may run concurrently.

Issued on Washington, DC, on September 18, 1992.

Salvador N. Ceja,

Acting Director, Office of Nonproliferation Policy, Office of Arms Control and Nonproliferation.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. GP92–13–000]

Colorado Oil and Gas Conservation Commission, Recompletion Tight Formation, Gas Determinations for Echeverria #1, Scheidt-State #1, Dier #1, Devore #1, Gumeson #1, and Boulder Bank #1 Wells; Preliminary Finding

September 17, 1992.

The Colorado Oil and Gas Conservation Commission (Colorado) determined that natural gas produced from pre-July 16, 1979 completion locations in six wells qualifies as recompletion tight formation gas under Section 107(c)(5) of the Natural Gas Policy Act of 1978 (NGPA).

For the reasons discussed below, the Commission issues this notice preliminarily finding that the determinations are not supported by substantial evidence.

Colorado's Determinations

On August 4, 1992, the Commission received Colorado's notices of determination that gas produced from six wells qualifies as recompletion tight formation gas. The six wells, which are owned by North American Resources Company (NAR), are the Echeverria #1 well (FERC No. JD92–08234), Scheidt-State #1 (FERC No. JD92–08235), Dier #1 well (FERC No. JD92–08236), Devore #1 well (FERC No. JD92–08237), Gumeson #1 well (FERC No. JD92–08238), and Boulder Bank #1 well (FERC No. JD92–08239).

The records show that each well was completed for production in the "J" Sand, in the Wattenberg Field, in Weld County, Colorado, before July 16, 1979, and that NAR re-fractured the "J" Sand in each well during 1991 or 1992 through the pre-July 16, 1979 completion location in each well. The "J" Sand is a designated tight formation.

Colorado's affirmative determinations appear to be based on NAR's claims that the re-fracturing operations created new completion locations because each well is producing natural gas from a portion of the "J" Sand that could not have been reached before the re-fracturing operations.

Background

The Commission's initial definition of "recompletion tight formation gas" in § 271.703(b)(3), adopted in 1979, was initially limited to natural gas produced from a tight formation through a well that was spudded before July 16, 1979, provided the well was not completed for production from the tight formation before that date.[1] Therefore, if a jurisdictional agency designated two producing zones in a geological interval as a single tight formation, gas produced from a recompletion into a different zone could not qualify as "recompletion tight formation gas." However, if a jurisdictional agency designated two producing zones in a geological interval as separate tight formations, gas from a recompletion into a different zone could qualify as "recompletion tight formation gas" because the recompletion is not located in the same designated tight formation.

On January 24, 1983, the Commission proposed to revise its regulations to eliminate inequities caused by the way jurisdictional agencies designated tight formations.[2] The Commission proposed to amend the regulations so that gas produced from recompletions in zones other than the original zone (i.e., in different producing intervals) could qualify as recompletion tight formation gas. The Commission subsequently issued Order No. 345 which amended the definition of recompletion tight formation gas.[3] The amended definition of "recompletion tight formation gas" includes gas produced from a tight formation through a well that was completed for production in the tight formation before July 16, 1979, provided such gas could not have been produced from a completion location that existed in the wellbore on or before December 27, 1983 (the effective date of Order No. 345).[4]

Discussion

Section 2(7) of the NGPA defines a "completion location" as "any subsurface location from which natural gas is being produced or has been produced in commercial quantities." The Commission has, in turn, clarified that "each producing interval in [a well] is a separate and distinguishable completion location as defined in the NGPA." [5]

---

[1] 18 CFR 271.703(b)(3)(ii) (1992).

[2] Notice of Proposed Rulemaking, Docket No. RM82–34–000, 48 FR 4483.

[3] 25 FERC ¶ 61,113 (1983).

[4] 18 CFR 271.703(b)(3)(ii) (1992).

[5] See 10 FERC ¶ 61,174 at p. 61,332 (1980) (Callon).

The record for each well shows that the gas being produced after the re-fracturing operations in 1991 or 1992 is coming from the same completion location (i.e., "producing interval") that existed in each well before July 16, 1979. Therefore, gas from the wells cannot qualify as recompletion tight formation gas.

NAR believes that gas from the wells may qualify as recompletion tight formation gas because the re-fracturing operations extended previously induced fractures and, as a result, each well is producing additional volumes of natural gas from subsurface locations in the "J" Sand that could not have been reached before the re-fracturing operations. Thus, NAR apparently interprets "completion location" to refer to the portions of the "J" Sand distant from the wellbore where gas is located that has been "reached" and is capable of being produced because of the re-fracturing operations. However, as shown in Callon, *supra*, , the Commission has consistently held that a "completion location" is *the portion of the wellbore* through which gas was or is being produced in commercial quantities.

We agree that as a result of the re-fracturing operations, the wells are producing additional volumes of natural gas from subsurface locations in the "J" Sand that could not have been reached before the re-fracturing operations. However, we believe the re-fracturing operations constituted production enhancement of the existing producing interval in each well. We note that in the Notice of Proposed Rulemaking leading to the promulgation of the revised definition of recompletion tight formation gas, the Commission rejected a similar proposal to allow additional production from a workover (including enhanced production techniques) in the same producing interval to qualify as recompletion tight formation gas.[6]

Under § 275.202(a) of the regulations, the Commission may make a preliminary finding, before any determination becomes final, that the determination is not supported by substantial evidence in the record. Based on the foregoing facts, the Commission finds that the records do not contain substantial evidence showing that the wells are producing recompletion tight formation gas. Accordingly, the Commission hereby makes a preliminary finding that Colorado's determinations are not supported by substantial evidence in the records upon which they were made.

[6] IV FERC Stats. & Regs. ¶ 32,288 at p. 32,476 (1983).

Colorado or the applicant may, within 30 days from the date of this preliminary finding, submit written comments and request an informal conference with the Commission pursuant to § 275.202(f) of the regulations. A final Commission order will be issued within 120 days after the issuance of this preliminary finding.

By direction of the Commission.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-4509-6]

Clean Air Act; Contractor Access to Confidential Business Information

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Notice is given that E.H. Pechan and Associates, 5537 Hempstead Way, Springfield, Virginia (under contract 68D10144) and their subcontractor, Mathtech, Inc., suite 200, 210 Carnegie Center, Princeton, New Jersey will be given access to information that has been, or will be, submitted to EPA under Section 114 of the Clean Air Act (CAA) as amended. Some of the information may be claimed to be confidential business information (CBI) by the submitter.

DATES: Access to confidential data submitted to EPA will occur no sooner than September 30, 1992.

FOR FURTHER INFORMATION CONTACT: Gene W. Smith, Document Control Officer, Office of Air Quality Planning and Standards (MD–13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, (919) 541–5439.

SUPPLEMENTARY INFORMATION: The EPA is issuing this notice to inform all submitters of information under Section 114 of the CAA that EPA may provide the above-mentioned contractor and subcontractor access to these materials on a need-to-know basis. The contractor, with the assistance of the subcontractor, will provide technical support to the Office of Air Quality Planning and Standards (OAQPS) in economic, cost, and regulatory impact analyses of air pollution control regulations.

In accordance with 40 CFR 2.301(h), EPA has determined that each subcontractor requires access to CBI submitted to EPA under sections 112 and 114 of the CAA in order to perform work satisfactorily under the previously noted contract. The personnel of the contractor and subcontractor will be given access to information submitted under section 114 of the CAA. Some of the information may be claimed or determined to be CBI. The personnel of the contractor and subcontractor will be instructed on appropriate security procedures and will be required to sign nondisclosure agreements before they are permitted access to CBI. Clearance for access to CAA CBI under this contract is scheduled to expire on September 30, 1994.

Dated: September 16, 1992.

Jerry Kurtzweg,

Acting Assistant Administrator for Air and Radiation.

BILLING CODE 6560–50–M

[OPP–00324; FRL–4072–3]

Allium Sativum; Pesticide Reregistration Eligibility Documents; Availability for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of reregistration eligibility documents; opening of public comment period.

SUMMARY: This Notice announces the availability of the Reregistration Eligibility Document (RED) for the active ingredient allium sativum, and the start of a 60–day public comment period. The RED for allium sativum is the Agency's formal regulatory assessment of the health and environmental data base of the subject chemical, and presents the Agency's determination regarding which pesticidal uses of allium sativum are eligible for reregistration.

DATES: Written comments on the RED must be submitted by November 23, 1992.

ADDRESSES: Three copies of comments identified with the docket number "OPP–00324" should be submitted to: By mail: Public Response and Program Resources Branch, Field Operations Division (H7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, deliver comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted as a comment in response to this Notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public docket. Information not marked confidential will be included in the public docket without prior notice. The public docket and docket index will be available for public inspection in rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

To request a copy of the above RED, or a Red Fact Sheet, contact the Public Response and Program Resources Branch, in rm. 1132, CM #2, at the address given above or call (703) 305–5805.

FOR FURTHER INFORMATION CONTACT: Technical questions on the RED should be directed to the chemical review manager, Margarita Collantes, at (703) 308–8583.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Documents for the pesticidal active ingredient: allium sativum. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of the chemical allium sativum is substantially complete. EPA has determined that all currently registered products containing allium sativum as an active ingredient are eligible for reregistration.

All registrants of products containing allium sativum have been sent the appropriate RED and must respond to the labeling requirements and the product specific data requirements (if applicable) within 8 months of receipt. These products will not be reregistered until adequate product specific data have been submitted and all necessary product label changes are implemented.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing the RED as a final document with a 60–day comment period. Although the 60–day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency and if any of those comments impact on the RED, EPA will issue an amendment to the RED and publish a **Federal Register** Notice announcing its availability.

Dated: June 30, 1992.

David Barals,

Director, Special Review and Reregistration Division, Office of Pesticide Programs.

Citric acid; Pesticide Reregistration Eligibility Documents; Availability for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of reregistration eligibility documents; opening of public comment period.

SUMMARY: This Notice announces the availability of the Reregistration Eligibility Document (RED) for the active ingredient citric acid, and the start of a 60–day public comment period. The RED for citric acid is the Agency's formal regulatory assessment of the health and environmental data base of the subject chemical, and presents the Agency's determination regarding which pesticidal uses of citric acid are eligible for reregistration.

DATES: Written comments on the RED must be submitted by November 23, 1992.

ADDRESSES: Three copies of comments identified with the docket number "OPP–00331" should be submitted to: By mail: Public Response and Program

Resources Branch, Field Operations Division (H7508C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, deliver comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted as a comment in response to this Notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public docket. Information not marked confidential will be included in the public docket without prior notice. The public docket and docket index will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

To request a copy of the above RED, or a Red Fact Sheet, contact the Public Response and Program Resources Branch, in Rm. 1132, CM #2, at the address given above or call (703) 305–5805.

FOR FURTHER INFORMATION CONTACT: Technical questions on the RED should be directed to the chemical review manager, Napoleon Kotey, at (703) 308–8523.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Documents for the pesticidal active ingredient: citric acid. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of the chemical citric acid is substantially complete. EPA has determined that all currently registered products containing citric acid as an active ingredient are eligible for reregistration.

All registrants of products containing citric acid have been sent the appropriate RED and must respond to the labeling requirements and the product specific data requirements (if applicable) within 8 months of receipt. These products will not be reregistered until adequate product specific data have been submitted and all necessary product label changes are implemented.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing the RED as a final document with a 60–day comment period. Although the 60–day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency and if any of those comments impact on the RED, EPA will issue an amendment to the RED and publish a Federal Register Notice announcing its availability.

Intent to Suspend Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of issuance of notices of intent to suspend.

SUMMARY: This notice, pursuant to section 6 (f)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 et seq., announces that EPA has issued Notice(s) of Intent to Suspend pursuant to section 3(c)(2)(B) of FIFRA. The notice(s) were issued following issuance of Data Call-In Notice(s) by the Agency and the failure of registrant(s) subject to the Data Call-In Notice(s) to take appropriate steps to secure the data required to be submitted to the Agency. This notice includes the text of a Notice of Intent to Suspend, absent specific chemical, product, or factual information. Table A of this notice further identifies the registrant(s) to whom the Notice(s) of Intent to Suspend were issued, the date each Notice of Intent to Suspend was issued, the active ingredient(s) involved, and the EPA registration number(s) and name(s) of the registered product(s) which are affected by the Notice(s) of Intent to Suspend. Moreover, Table B of this notice identifies the basis upon which the Notice(s) of Intent to Suspend were issued. Finally, matters pertaining to the timing of requests for hearing are specified in the Notice(s) of Intent to Suspend and are governed by the deadlines specified in section 3(c)(2)(B). As required by section 6(f)(2), the Notice(s) of Intent to Suspend were sent by certified mail, return receipt requested, to each affected registrant at its address of record.

FOR FURTHER INFORMATION CONTACT: Stephen L. Brozena, Office of Compliance Monitoring (EN–342), Laboratory Data Integrity Assurance Division, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, (703) 308–8267.

SUPPLEMENTARY INFORMATION:

I. Text of a Notice of Intent to Suspend

The text of a Notice of Intent to Suspend, absent specific chemical, product, or factual information, follows:

Return Receipt Requested

SUBJECT: Suspension of Registration of Pesticide Product(s) Containing _____ for Failure to Comply with the 3(c)(2)(B) Data Call-In Notice for _____ Dated _____.

Dear Sir/Madam:

This letter gives you notice that the pesticide product registration(s) listed in Attachment I will be suspended 30 days from your receipt of this letter unless you take steps within that time to prevent this Notice from automatically becoming a final and effective order of suspension. The Agency's authority for suspending the registration(s) of your product(s) is section 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Upon becoming a final and effective order of suspension, any violation of the order will be an unlawful act under section 12(a)(2)(J) of FIFRA.

You are receiving this Notice of Intent to Suspend because you have failed to comply with the terms of the 3(c)(2)(B) Data Call-In Notice. The specific basis for issuance of this Notice is stated in the Explanatory Appendix (Attachment III) to this Notice. Affected product(s) and the requirement(s) which you failed to satisfy are listed and described in the following three attachments:

Attachment I Suspension Report - Product List

Attachment II Suspension Report - Requirement List

Attachment III Suspension Report - Explanatory Appendix

The suspension of the registration of each product listed in Attachment I will become final unless at least one of the following actions is completed.

1. You may avoid suspension under this Notice if you or another person adversely affected by this Notice properly request a hearing within 30 days of your receipt of this Notice. If you request a hearing, it will be conducted in accordance with the requirements of section 6(d) of FIFRA and the Agency's procedural regulations in 40 CFR part 164.

Section 3(c)(2)(B), however, provides that the only allowable issues which may be addressed at the hearing are whether you have failed to take the actions which are the bases of this Notice and whether the Agency's decision regarding the disposition of existing stocks is consistent with FIFRA. Therefore, no substantive allegation or legal argument concerning other issues, including but not limited to the Agency's original decision to require the submission of data or other information, the need for or utility of any of the required data or other information or deadlines imposed, and the risks and benefits associated with continued registration of the affected product, may be considered in the proceeding. The Administrative Law Judge shall by order dismiss any objections which have no bearing on the allowable issues which may be considered in the proceeding.

Section 3(c)(2)(B)(iv) of FIFRA provides that any hearing must be held and a determination issued within 75 days after receipt of a hearing request. This 75–day period may not be extended unless all parties in the proceeding stipulate to such an extension. If a hearing is properly requested, the Agency will issue a final order at the conclusion of the hearing governing the suspension of your product(s).

A request for a hearing pursuant to this Notice must (1) include specific objections which pertain to the allowable issues which may be heard at the hearing, (2) identify the registration(s) for which a hearing is requested, and (3) set forth all necessary supporting facts pertaining to any of the objections which you have identified in your request for a hearing. If a hearing is requested by any person other than the registrant, that person must also state specifically why he asserts that he would be adversely affected by the suspension action described in this Notice. Three copies of the request must be submitted to: Hearing Clerk, A–110, U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, and an additional copy should be sent to the signatory listed below. The request must be *received* by the Hearing Clerk by the 30th day from your receipt of this Notice in order to be legally effective. The 30–day time limit is established by FIFRA and cannot be extended for any reason. Failure to meet the 30–day time limit will result in automatic suspension of your registration(s) by operation of law and, under such circumstances, the suspension of the registration for your affected product(s) will be final and effective at the close of business 30 days after your receipt of this Notice and will not be subject to further administrative review.

The Agency's Rules of Practice at 40 CFR 164.7 forbid anyone who may take part in deciding this case, at any stage of the proceeding, from discussing the merits of the proceeding *ex parte* with any party or with any person who has been connected with the preparation or presentation of the proceeding as an advocate or in any investigative or expert capacity, or with any of their representatives. Accordingly, the following EPA offices, and the staffs thereof, are designated as judicial staff to perform the judicial function of EPA in any administrative hearings on this Notice of Intent to Suspend: The Office of the Administrative Law Judges, the Office of the Judicial Officer, the Administrator, the Deputy Administrator, and the members of the staff in the immediate offices of the Administrator and Deputy Administrator. None of the persons designated as the judicial staff shall have any *ex parte* communication with trial staff or any other interested person not employed by EPA on the merits of any of the issues involved in this proceeding, without fully complying with the applicable regulations.

2. You may also avoid suspension if, within 30 days of your receipt of this Notice, the Agency determines that you have taken appropriate steps to comply with the section 3(c)(2)(B) Data Call-In Notice. In order to avoid suspension under this option, you must satisfactorily comply with Attachment II, Requirement List, for each product by submitting all required supporting data/information described in Attachment II and in the Explanatory Appendix (Attachment III) to the following address (preferably by certified mail):

Office of Compliance Monitoring (EN-342), Laboratory Data Integrity Assurance Division, U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

For you to avoid automatic suspension under this Notice, the Agency must also determine within the applicable 30–day period that you have satisfied the requirement(s) that are the bases of this Notice and so notify you in writing. You should submit the necessary data/information as quickly as possible for there to be any chance the Agency will be able to make the necessary determination in time to avoid suspension of your product(s).

The suspension of the registration(s) of your company's product(s) pursuant to this Notice will be rescinded when the Agency determines you have complied fully with the requirements which were the bases of this Notice. Such compliance may only be achieved by submission of the data/information described in the attachments to the signatory below.

Your product will remain suspended, however, until the Agency determines you are in compliance with the requirements which are the bases of this Notice and so informs you in writing.

After the suspension becomes final and effective, the registrant subject to this Notice, including all supplemental registrants of product(s) listed in Attachment I, may not legally distribute, sell, use, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person, the product(s) listed in Attachment I.

Persons other than the registrant subject to this Notice, as defined in the preceding sentence, may continue to distribute, sell, use, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person, the product(s) listed in Attachment I.

Nothing in this Notice authorizes any person to distribute, sell, use, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person, the product(s) listed in Attachment I in any manner which would have been unlawful prior to the suspension.

If the registration(s) of your product(s) listed in Attachment I are currently suspended as a result of failure to comply with another section 3(c)(2)(B) Data Call-In Notice or Section 4 Data Requirement Notice, this Notice, when it becomes a final and effective order of suspension, will be in addition to any existing suspension, i.e., all requirements which are the bases of the suspension must be satisfied before the registration will be reinstated.

You are reminded that it is your responsibility as the basic registrant to notify all supplementary registered distributors of your basic registered product that this suspension action also applies to their supplementary registered product(s) and that you may be held liable for violations committed by your distributors.

If you have any questions about the requirements and procedures set forth in this suspension notice or in the subject 3(c)(2)(B) Data Call-In Notice, please contact Stephen L. Brozena at (703) 308–8267.

Sincerely yours,

Director, Office of Compliance Monitoring

Attachment I - Product List

Attachment II - Requirement List

Attachment III - Explanatory Appendix

TABLE A.—PRODUCT LIST

Registrant Affected	EPA Registration Number	Active Ingredient	Name of Product	Date Issued
Dettelbach Chemical Company	00142100067	2,4-D	Comet Weed Killer	9/1/92
Hysan Corporation	00033400081	2,4-D	GCC-620 2,4-D Selective Weed Killer	9/1/92
Pax Company	00323400017	2,4-D	Pax Action Weed'n Feed	9/1/92

III. Basis for Issuance of Notice of Intent; Requirement List

The following registrant(s) failed to submit the following required data or information:

TABLE B.—REQUIREMENT LIST

Active Ingredient	Registrant Affected	Requirement Name	Original Due-Date
2,4-D	Dettelbach Chemical Company	30-Day Response	7/5/92
	Hysan Corporation	30-Day Response	7/5/92
	Pax Company	30-Day Response	7/5/92

IV. Attachment III Suspension Report--Explanatory Appendix

A discussion of the basis for the Notice of Intent to Suspend follows:

2,4-D

In September 1988, EPA issued a Registration Standard which included a Data Call-In Notice pursuant to the authority of FIFRA section 3(c)(2)(B) which required registrants of products containing 2,4-D acid and its salts, amines, and esters used as an active ingredient to develop and submit data. These data were determined to be necessary to maintain the continued registration of affected products. Failure to comply with the requirements of a Registration Standard is a basis for suspension under section 3(c)(2)(B) of FIFRA.

The 2,4-D Registration Standard required each affected registrant to submit materials demonstrating selection by the registrant of the options to address the data requirements. The 2,4-D Registration Standard was initially issued to all registrants of products containing 2,4-D acid and its salts, amines, and esters. Subsequently, several registrants have formed a Task Force to support some of the 2,4-D formulations, others have committed to support single formulations. Under the terms of the September 1988 2,4-D Registration Standard, your company is no longer eligible for a generic data exemption from the data requirements for alkanol amine 2,4-dichlorophenoxyacetate because no other registrant has committed to satisfy these data requirements. As a result, the responsibility for generating the necessary data to maintain the product registrations containing the active ingredient, alkanol amine 2,4-dichlorophenoxyacetate rests with your company.

Accordingly, in a letter dated June 1, 1992, the Agency informed you of the above status of the 2,4-D Registration Standard data requirements, and required that you inform the Agency within 30 days of your receipt of the letter of the steps you were electing to take regarding the data requirements necessary to support your registration. Attachment II indicates the deadline for your response based on the date you received the Agency's June 1, 1992 letter. The Agency received no response from you to its June 1, 1992 letter. Because the Agency has not received an adequate or appropriate response from you as a 2,4-D registrant electing either to undertake the required testing or any other appropriate response (e.g., voluntary cancellation), the Agency is issuing this Notice of Intent to Suspend.

V. Conclusions

EPA has issued Notice(s) of Intent to Suspend on the dates indicated. Any further information regarding the Notice(s) may be obtained from the contact person noted above.

II. Registrant(s) Receiving and Affected by Notice(s) of Intent to Suspend; Date of Issuance; Active Ingredient and Product(s) Affected

A letter of notification has been sent for the following product(s):

Dated: September 10, 1992.

Intent to Suspend Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of issuance of notices of intent to suspend.

SUMMARY: This Notice, pursuant to section 6(f)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136 et seq., announces that EPA has issued Notices of Intent to Suspend pursuant to sections 3(c)(2)(B) and 4 of FIFRA. The Notices were issued following issuance of Section 4 Reregistration Requirements Notices by the Agency and the failure of registrants subject to the Section 4 Reregistration Requirements Notices to take appropriate steps to secure the data required to be submitted to the Agency. This Notice includes the text of a Notice of Intent to Suspend, absent specific chemical, product, or factual information. Table A of this Notice further identifies the registrants to whom the Notices of Intent to Suspend were issued, the date each Notice of Intent to Suspend was issued, the active ingredient(s) involved, and the EPA registration numbers and names of the registered product(s) which are affected by the Notices of Intent to Suspend. Moreover, Table B of this Notice identifies the basis upon which the Notices of Intent to Suspend were issued. Finally, matters pertaining to the timing of requests for hearing are specified in the Notices of Intent to Suspend and are governed by the

deadlines specified in section 3(c)(2)(B). As required by section 6(f)(2), the Notices of Intent to Suspend were sent by certified mail, return receipt requested, to each affected registrant at its address of record.

FOR FURTHER INFORMATION CONTACT: Stephen L. Brozena, Office of Compliance Monitoring (EN–342), Laboratory Data Integrity Assurance Division, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, (703) 308–8267.

SUPPLEMENTARY INFORMATION:

I. Text of a Notice of Intent to Suspend

The text of a Notice of Intent to Suspend, absent specific chemical, product, or factual information, follows:

United States Environmental Protection Agency

Office of Prevention, Pesticides and Toxic Substances

Washington, DC 20460

Certified Mail

Return Receipt Requested

SUBJECT: Suspension of Registration of Pesticide Product(s) Containing _____ for Failure to Comply with the Section 4 Phase 5 Reregistration Eligibility Document Data Call-In Notice for _____ Dated _____.

Dear Sir/Madam:

This letter gives you notice that the pesticide product registrations listed in Attachment I will be suspended 30 days from your receipt of this letter unless you take steps within that time to prevent this Notice from automatically becoming a final and effective order of suspension. The Agency's authority for suspending the registrations of your products is sections 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Upon becoming a final and effective order of suspension, any violation of the order will be an unlawful act under section 12(a)(2)(J) of FIFRA.

You are receiving this Notice of Intent to Suspend because you have failed to comply with the terms of the Phase 5 Registration Eligibility Document Data Call-In Notice imposed pursuant to section 4(g)(2)(b) and section (3)(2)(B) of FIFRA.

The specific basis for issuance of this Notice is stated in the Explanatory Appendix (Attachment III) to this Notice. Affected products and the requirements which you failed to satisfy are listed and described in the following three attachments:

Attachment I Suspension Report - Product List

Attachment II Suspension Report - Requirement List

Attachment III Suspension Report - Explanatory Appendix

The suspension of the registration of each product listed in Attachment I will become final unless at least one of the following actions is completed.

1. You may avoid suspension under this Notice if you or another person adversely affected by this Notice properly request a hearing within 30 days of your receipt of this Notice. If you request a hearing, it will be conducted in accordance with the requirements of section 6(d) of FIFRA and the Agency's procedural regulations in 40 CFR part 164.

Section 3(c)(2)(B), however, provides that the only allowable issues which may be addressed at the hearing are whether you have failed to take the actions which are the bases of this Notice and whether the Agency's decision regarding the disposition of existing stocks is consistent with FIFRA. Therefore, no substantive allegation or legal argument concerning other issues, including but not limited to the Agency's original decision to require the submission of data or other information, the need for or utility of any of the required data or other information or deadlines imposed, and the risks and benefits associated with continued registration of the affected product, may be considered in the proceeding. The Administrative Law Judge shall by order dismiss any objections which have no bearing on the allowable issues which may be considered in the proceeding.

Section 3(c)(2)(B)(iv) of FIFRA provides that any hearing must be held and a determination issued within 75 days after receipt of a hearing request. This 75–day period may not be extended unless all parties in the proceeding stipulate to such an extension. If a hearing is properly requested, the Agency will issue a final order at the conclusion of the hearing governing the suspension of your products.

A request for a hearing pursuant to this Notice must (1) include specific objections which pertain to the allowable issues which may be heard at the hearing, (2) identify the registrations for which a hearing is requested, and (3) set forth all necessary supporting facts pertaining to any of the objections which you have identified in your request for a hearing. If a hearing is requested by any person other than the registrant, that person must also state specifically why he asserts that he would be adversely affected by the suspension action described in this Notice. Three copies of the request must be submitted to: Hearing Clerk, A–110, U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, and an additional copy should be sent to the signatory listed below. The request must be *received* by the Hearing Clerk by the 30th day from your receipt of this Notice in order to be legally effective. The 30–day time limit is established by FIFRA and cannot be extended for any reason. Failure to meet the 30–day time limit will result in automatic suspension of your registration(s) by operation of law and, under such circumstances, the suspension of the registration for your affected product(s) will be final and effective at the close of business 30 days after your receipt of this Notice and will not be subject to further administrative review.

The Agency's Rules of Practice at 40 CFR 164.7 forbid anyone who may take part in deciding this case, at any stage of the proceeding, from discussing the merits of the proceeding *ex parte* with any party or with any person who has been connected with the preparation or presentation of the proceeding as an advocate or in any investigative or expert capacity, or with any of their representatives. Accordingly, the following EPA offices, and the staffs thereof, are designated as judicial staff to perform the judicial function of EPA in any administrative hearings on this Notice of Intent to Suspend: The Office of the Administrative Law Judges, the Office of the Judicial Officer, the Administrator, the Deputy Administrator, and the members of the staff in the immediate offices of the Administrator and Deputy Administrator. None of the persons designated as the judicial staff shall have any *ex parte* communication with trial staff or any other interested person not employed by EPA on the merits of any of the issues involved in this proceeding, without fully complying with the applicable regulations.

2. You may also avoid suspension if, within 30 days of your receipt of this Notice, the Agency determines that you have taken appropriate steps to comply with the section 4 Phase 5 Reregistration Eligibility Document Data Call-In Notice requirements. In order to avoid suspension under this option, you must satisfactorily comply with Attachment II, Requirement List, for each product by submitting all required supporting data/information described in Attachment II and in the Explanatory Appendix (Attachment III) to the following address (preferably by certified mail):

Office of Compliance Monitoring (EN–342), Laboratory Data Integrity Assurance Division, U.S.

Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

For you to avoid automatic suspension under this Notice, the Agency must also determine within the applicable 30–day period that you have satisfied the requirements that are the bases of this Notice and so notify you in writing. You should submit the necessary data/information as quickly as possible for there to be any chance the Agency will be able to make the necessary determination in time to avoid suspension of your product(s).

The suspension of the registration(s) of your company's product(s) pursuant to this Notice will be rescinded when the Agency determines you have complied fully with the requirements which were the bases of this Notice. Such compliance may only be achieved by submission of the data/information described in the attachments to the signatory below.

Your product will remain suspended, however, until the Agency determines you are in compliance with the requirements which are the bases of this Notice and so informs you in writing.

After the suspension becomes final and effective, the registrant subject to this Notice, including all supplemental registrants of product(s) listed in Attachment I, may not legally distribute, sell, use, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person, the product(s) listed in Attachment I.

Persons other than the registrant subject to this Notice, as defined in the preceding sentence, may continue to distribute, sell, use, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person, the product(s) listed in Attachment I.

Nothing in this Notice authorizes any person to distribute, sell, use, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person, the product(s) listed in Attachment I in any manner which would have been unlawful prior to the suspension.

If the registrations of your products listed in Attachment I are currently suspended as a result of failure to comply with another section 4 Data Requirements Notice or section 3(c)(2)(B) Data Call-In Notice, this Notice, when it becomes a final and effective order of suspension, will be in addition to any existing suspension, i.e., all requirements which are the bases of the suspension must be satisfied before the registration will be reinstated.

You are reminded that it is your responsibility as the basic registrant to notify all supplementary registered distributors of your basic registered product that this suspension action also applies to their supplementary registered products and that you may be held liable for violations committed by your distributors. If you have any questions about the requirements and procedures set forth in this suspension notice or in the subject section 4 Data Requirements Notice, please contact Stephen L. Brozena at (703) 308–8267.

Sincerely yours,

Director, Office of Compliance Monitoring

Attachments:
Attachment I - Product List
Attachment II - Requirement List
Attachment III - Explanatory Appendix

II. Registrants Receiving and Affected by Notices of Intent to Suspend; Date of Issuance; Active Ingredient and Products Affected

A letter of notification has been sent for the following product:

TABLE A.—LIST OF PRODUCTS

Registrant Affected	EPA Registration Number	Active Ingredient	Name of Product	Date Issued
Diversey Corporation	00087500042	Potassium Bromide	Saf-Sol Brand	9/1/92

III. Basis for Issuance of Notice of Intent; Requirement List

The following company failed to submit the following required data or information:

TABLE B.—REQUIREMENT LIST

Active Ingredient	Registrant Affected	Requirement Name	Guideline Reference Number	Original Due-Date
Potassium Bromide	Diversey Corporation	Storage Stability	63-17	7/5/92
		Corrosion Characteristics	63-20	7/5/92
		Acute Inhalation Toxicity - Rat	81-3	7/5/92
		Dermal Sensitization	81-6	7/5/92

IV. Attachment III Suspension Report--Explanatory Appendix

A discussion of the basis for the Notice of Intent to Suspend follows:

Potassium Bromide

On April 21, 1991, EPA issued the Phase 5 Reregistration Data Requirements Notice imposed pursuant to section 4 of FIFRA which required registrants of products containing potassium bromide to develop and submit certain data. These data were determined to be necessary to satisfy reregistration data requirements of section 4(g)(2)(B). Failure to comply with the requirements of a Phase 5 Reregistration Eligibility Document Data Call-In Notice is a basis for suspension under sections 3(c)(2)(B) and 4(g)(2)(B) of FIFRA.

The Potassium Bromide Phase 5 Reregistration Data Requirements Notice dated April 21, 1991, required each affected registrant to submit materials relating to the election of the options to address each of the data requirements. That submission was required to be received by the Agency

within 90 days of the registrant's receipt of the Notice. The Agency received a response from you in which you committed to undertake the required testing. The Notice further required that data be submitted by deadlines noted for the subject data requirements on Attachment II. These deadlines have passed and to date the Agency has not received adequate data to satisfy these data requirements. Because you have failed to provide an appropriate or adequate response within the time provided for data requirements listed on Attachment II, the Agency is issuing this Notice of Intent to Suspend.

V. Conclusions

EPA has issued Notices of Intent to Suspend on the dates indicated. Any further information regarding these Notices may be obtained from the contact person noted above.

Dated: September 10, 1992.

Connie A. Musgrove,

Acting Director, Office of Compliance Monitoring.

BILLING CODE 8560-50-F

[OPP-00335; FRL-4071-9]

Indole-3-butyric Acid, Pesticide Reregistration Eligibility Documents; Availability for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of reregistration eligibility documents; opening of public comment period.

SUMMARY: This Notice announces the availability of the Reregistration Eligibility Document (RED) for the active ingredient indole-3-butyric acid, and the start of a 60-day public comment period. The RED for indole-3-butyric acid is the Agency's formal regulatory assessment of the health and environmental data base of the subject chemical, and presents the Agency's determination regarding which pesticidal uses of indole-3-butyric acid are eligible for reregistration.

DATES: Written comments on the RED must be submitted by November 23, 1992.

ADDRESSES: Three copies of comments identified with the docket number "OPP-00335" should be submitted to: By mail: Public Response and Program Resources Branch, Field Operations Division (H7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, deliver comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted as a comment in response to this Notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public docket. Information not marked confidential will be included in the public docket without prior notice. The public docket and docket index will be available for public inspection in rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

To request a copy of the above RED, or a Red Fact Sheet, contact the Public Response and Program Resources Branch, in rm. 1132, CM #2, at the address given above or call (703) 305-5805.

FOR FURTHER INFORMATION CONTACT: Technical questions on the RED should be directed to the chemical review manager, Ruby Whiters, at (703) 308-8079.

SUPPLEMENTARY INFORMATION: The Agency has issued a Reregistration Eligibility Document for the pesticidal active ingredient: indole-3-butyric acid. Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of the chemical indole-3-butyric acid is sufficient to allow EPA to conduct a reasonable risk assessment for all uses. Therefore, EPA has determined that all currently registered products containing indole-3-butyric acid as an active ingredient are eligible for reregistration.

All registrants of products containing indole-3-butyric acid have been sent the appropriate RED and must respond to the labeling requirements, confirmatory acute ecotoxity data requirements (if applicable) on the active ingredient and the product specific data requirements (if applicable) within 8 months of receipt. These products will not be reregistered until adequate acute ecotoxicity and product specific data have been submitted and all necessary product label changes are implemented.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing the RED as a final document with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency and if any of those comments impact on the RED, EPA will issue an amendment to the RED and publish a **Federal Register** Notice announcing its availability.

Dated: August 28, 1992.

David Baralo,

Director, Special Review and Reregistration Division, Office of Pesticide Programs.

[FR Doc. 92-23076 Filed 9-22-92; 8:45 am]

BILLING CODE 8560-50-F

[OPPT-59310A; FRL-4165-2]

Certain Chemical; Premanufacture Approval of a Test Marketing Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of an application for test marketing exemption (TME) under section 5(h)(1) of the Toxic Substances Control Act (TSCA) and 40 CFR 720.38. EPA has designated this application as TME-92-15. The test marketing conditions are described below.

EFFECTIVE DATE: September 16, 1992.

FOR FURTHER INFORMATION CONTACT: Darlene Jones, New Chemicals Branch, Chemical Control Division (TS-794), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-611, 401 M St. SW., Washington, DC 20460, (202) 260-2279.

SUPPLEMENTARY INFORMATION: Section 5(h)(1) of TSCA authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to human health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the

test marketing activity will not present an unreasonable risk of injury.

EPA hereby approves TME–92–15. EPA has determined that test marketing of the new chemical substance described below, under the conditions set out in the TME application, and for the time period and restrictions specified below, will not present an unreasonable risk of injury to human health or the environment. Production volume, use, and the number of customers must not exceed that specified in the application. All other conditions and restrictions described in the application and in this notice must be met.

The following additional restrictions apply to TME–92–15. A bill of lading accompanying each shipment must state that the use of the substance is restricted to that approved in the TME. In addition, the applicant shall maintain the following records until 5 years after the date they are created, and shall make them available for inspection or copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.
2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.
3. Copies of the bill of lading that accompanies each shipment of the TME substance.

TME–92–15

Date of Receipt: July 13, 1992.
Notice of Receipt: July 28, 1992 (57 FR 33349).
Applicant: Confidential.
Chemical: (G) Tertiary ammonium chloride.
Use: (G) Fabric softener ingredient.
Production Volume: Confidential.
Number of Customers: Confidential.
Test Marketing Period: Confidential.
Risk Assessment: Based on limited aquatic test data on the test market substance and data on analogous chemical substances, EPA established an aquatic concentration of concern for the test market substance of 1 part per billion in surface waters. However, based on the test market activities as described in the notice application (including the production volume and specific use), EPA has determined that these activities will not present an unreasonable risk of injury to the aquatic environment. EPA identified no significant health concerns for the test market substance.

The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information that comes to its attention cast significant doubt on its finding that the test marketing activities will not present any unreasonable risk of injury to human health or the environment.

Dated: September 16, 1992.

John W. Melone,

Director, Chemical Control Division, Office of Pollution Prevention and Toxics.

Putrescent Whole Egg Solids; Pesticide Reregistration Eligibility Documents; Availability for Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of reregistration eligibility documents; opening of public comment period.

SUMMARY: This Notice announces the availability of the Reregistration Eligibility Document (RED) for the active ingredient putrescent whole egg solids, and the start of a 60–day public comment period. The RED for putrescent whole egg solids is the Agency's formal regulatory assessment of the health and environmental data base of the subject chemical, and presents the Agency's determination regarding which pesticidal uses of putrescent whole egg solids are eligible for reregistration.

DATES: Written comments on the RED must be submitted by November 23, 1992.

ADDRESSES: Three copies of comments identified with the docket number "OPP–00323" should be submitted to: By mail: Public Response and Program Resources Branch, Field Operations Division (H7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, deliver comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted as a comment in response to this Notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public docket. Information not marked confidential will be included in the public docket without prior notice. The public docket and docket index will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

To request a copy of the above RED, or a Red Fact Sheet, contact the Public Response and Program Resources Branch, in Rm. 1132, CM #2, at the address given above or call (703) 305–5805.

FOR FURTHER INFORMATION CONTACT: Technical questions on the RED should be directed to the chemical review manager, George T. Myers, at (703) 308–8074.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Documents for the pesticidal active ingredient: putrescent whole egg solids. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of the chemical putrescent whole egg solids is substantially complete. EPA has determined that all currently registered products containing putrescent whole egg solids as an active ingredient are eligible for reregistration.

All registrants of products containing putrescent whole egg solids have been sent the appropriate RED and must respond to the labeling requirements and the product specific data requirements (if applicable) within 8 months of receipt. These products will not be reregistered until adequate product specific data have been submitted and all necessary product label changes are implemented.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing the RED as a final document with a 60–day comment period. Although the 60–day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency and if any of those comments impact on the RED, EPA will issue an amendment to the RED and publish a **Federal Register** Notice announcing its availability.

Dated: June 30, 1992.

David Barak,

Director, Special Review and Reregistration Division, Office of Pesticide Programs.

BILLING CODE 6560-50-F

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-960-DR]

Texas; Amendment to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Texas (FEMA-960-DR), dated September 9, 1992, and related determinations.

EFFECTIVE DATE: September 14, 1992.

FOR FURTHER INFORMATION CONTACT: Pauline Campbell, Disaster Assistance Programs, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3606.

SUPPLEMENTARY INFORMATION: The notice of a major disaster for the State of Texas, dated September 9, 1992, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of September 9, 1992:

The counties of Borden, Cottle, Dawson, Deaf Smith, Dickens, Gaines, Garza, Howard, Lynn, Martin, Midland, Motley, Terry, and Yoakum for Disaster Unemployment Assistance.

(Catalog of Federal Domestic Assistance No. 83.516, Disaster Assistance.)

Grant C. Peterson,

Associate Director, State and Local Programs and Support.

BILLING CODE 6718-02-M

Meeting; FEMA Security Practices Board of Review

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice of meeting.

SUMMARY: In accordance with section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. app. 2, FEMA announces the following committee meeting, portions of which may be closed:

NAME: FEMA Security Practices Board of Review.

DATES OF MEETING: Wednesday, September 23, 1992.

PLACE: Federal Emergency Management Agency, John W. Macy, Jr. Conference Room, room 829, 500 C Street, SW., Washington, DC 20472.

TIMES: 9 a.m. to 12 p.m.

PROPOSED AGENDA: Discussion of Board recommendations as submitted to the Director on September 11, 1992, and review of and recommendations concerning the draft of the Board's final report.

FOR FURTHER INFORMATION CONTACT: Dirk J. Vande Beek, Office of the Director, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3923.

SUPPLEMENTARY INFORMATION: The Review Board completed its review and draft report on September 4, 1992, necessitating that less than 15 days' notice of the meeting be given, under 41 CFR 101-6.1015(b)(2).

The meeting will be open to the public with approximately 10 seats available on a first-come, first-served basis. Members of the general public who plan to attend the meeting should contact the Office of the Director, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3923) on or before Wednesday, September 16, 1992.

The Director has determined that portions of the Board meeting may have to be closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act, 5 U.S.C. app: 2, and 5 U.S.C. 552b(c), because discussions may (1) disclose matters that are specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense, (2) relate solely to the internal personnel rules and practices of an agency, and (3) disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of privacy.

Minutes of the meeting (minus those portions of the meeting which may be closed to the public) will be prepared and will be available for public viewing in the Office of the Director, Federal Emergency Management Agency, room 828, 500 C Street, SW., Washington, DC 20472. Copies of the minutes will be available upon request 30 days after the meeting.

Dated: September 18, 1992.

Wallace E. Stickney,

Director.

[FR Doc. 92-23093 Filed 9-22-92; 8:45 am]

BILLING CODE 6718-02-M

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

Home Mortgage Disclosure Act; Categorization of Income for Disclosure Statements and Aggregate MSA Reports

AGENCY: Federal Financial Institutions Examination Council.

ACTION: Notice.

SUMMARY: The Federal Financial Institutions Examination Council (FFIEC) has adopted a change in the way it categorizes income for purposes of preparing Home Mortgage Disclosure Act disclosure statements and aggregate reports distributed to central data depositories. The change, which does not affect how applicant income is reported by covered institutions, is reflected in the disclosure statements prepared for 1991 data (to be made available to the public in September 1992).

FOR FURTHER INFORMATION CONTACT: Glenn G. Canner, Senior Economist, (202) 452-2910, Board of Governors of the Federal Reserve System, Washington, DC 20551.

SUPPLEMENTARY INFORMATION: On March 12, 1992, the FFIEC published (57 FR 8762) for public comment a proposed change to the methodology used to estimate the current level of median family incomes for MSAs. Specifically, the FFIEC proposed to apply the annual median family income figures as published by the Department of Housing and Urban Development (HUD) rather than the inflation-adjusted estimates used for the 1990 data. The annual MSA median family income estimates derived by HUD reflect the latest available data on wage changes from the County Business Patterns and from median family income data from the Bureau of the Census Current Population Reports, P-60 Series. (A description of the precise methodology used by HUD to calculate their estimates of current MSA median family incomes can be obtained from the FFIEC.) The estimation technique employed by HUD takes advantage of the most up-to-date information available for estimating current levels of MSA median family incomes.

Comments were received from six organizations, including three banks, two secondary mortgage market entities, and a banking trade association. All of the commenters supported the proposed change, although one bank suggested postponing implementation until 1993. Among benefits that commenters noted would result from the change were the fact that the income estimates published

by HUD are readily available from local housing authorities; that knowing the income estimates at the time lenders file their HMDA data will facilitate internal reviews; and that the HUD income estimates are widely used by lenders as a basis for defining eligibility for special mortgage and home improvement products.

In addition to improving on the income estimation method previously used, and achieving the benefits mentioned by commenters, the use by the FFIEC of the median family income figures published by HUD will establish uniformity across government agencies, since these figures are widely used in government housing programs. Based on the comments and recommendations of agency staffs, the FFIEC has adopted the change in income estimation method as proposed. The change takes effect beginning with the HMDA disclosure reports reflecting 1991 lending and loan application data. The MSA median income figures used are the HUD estimates for Fiscal Year 1991. The change affects tables 3, 4–1 through 4–6, 5–1 through 5–6, 6–1 through 6–6, and 8–1 through 8–6 of the HMDA disclosure statements.

Dated: September 17, 1992.

Joe M. Cleaver,

Executive Secretary.

[FR Doc. 92–23028 Filed 9–22–92; 8:45 am]

BILLING CODE 6210–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Assistant Secretary for Health

Meeting of the Advisory Committee on Scientific Integrity, Public Health Service

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Advisory Committee on Scientific Integrity, Public Health Service, on Thursday, October 15, and Friday, October 16, 1992, at the National Institutes of Health, Bethesda, Maryland. The meeting will take place October 15 from 8 a.m. to 5 p.m., and on October 16 from 8 a.m. to 12 p.m., Building 31, C Wing, Conference Room 9 and Conference Room 4 respectively. The meeting will be open to the public.

The charge of the Committee is to review and evaluate, on an ongoing basis, the efficacy of policies and procedures of the Department of Health and Human Services in detecting, deterring, investigating, and resolving allegations of scientific misconduct and to make recommendations to the Secretary and the Assistant Secretary for Health on improving these policies and procedures.

The purpose of the meeting will be to deliberate a number of proposed PHS policy changes that are designed to strengthen the PHS scientific integrity program. Discussion items will include but will not be limited to a draft notice of proposed rule making for a revised final rule; PHS interim policies regarding the availability of a hearing to persons accused of scientific misconduct; Privacy Act exemptions to protect records of alleged misconduct cases during an investigation; and outreach and education efforts to encourage the responsible conduct of research.

Henrietta D. Hyatt-Knorr, Executive Secretary, Advisory Committee on Scientific Integrity, Office of Research Integrity, Division of Policy, Rockwall II, Suite 1113, 5515 Security Lane, Rockville, MD 20852, (301) 443–5300, will furnish the meeting agenda, the Committee charter, and a roster of the Committee members upon request. Members of the public wishing to make presentations should contact the Executive Secretary. Depending on the number of presentations and other considerations, the Executive Secretary will allocate a time frame for each speaker.

Date: September 15, 1992.

Lyle W. Bivens,

Director, Division of Policy, Office of Research Integrity.

BILLING CODE 4160–20–M

National Institute on Alcohol Abuse and Alcoholism; Meetings

Pursuant to Public Law 92–463, notice is hereby given of the meetings of the advisory committees of the National Institute on Alcohol Abuse and Alcoholism for October and November 1992.

The initial review groups will be performing review of applications for Federal assistance; therefore, portions of these meetings will be closed to the public as determined by the Acting Administrator, ADAMHA, in accordance with 5 U.S.C. 552b(c)(6) and 5 U.S.C. app. 2 10(d).

Summaries of the meetings and rosters of committee members may be obtained from: Ms. Diana Widner, NIAAA Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration, Parklawn Building, room 16C–20, 5600 Fishers Lane, Rockville, MD 20857 (telephone: 301–443–4375).

Substantive program information may be obtained from the contacts whose names, room numbers, and telephone numbers are listed below.

Committee name: Clinical and Treatment Subcommittee of the Alcohol Psychosocial Research Review Committee.
Meeting dates: October 14–16, 1992.
Place: Hyatt Regency Bethesda, One Bethesda Metro Center, Bethesda, MD 20814.
Open: October 14, 9 a.m.–10 a.m.
Closed: Otherwise.
Contact: Thomas D. Sevy, M.S.W., rm. 16C–26, Parklawn Bldg., phone (301) 443–6106.

Committee name: Biochemistry, Physiology, and Medicine Subcommittee of the Alcohol Biomedical Research Review Committee.
Meeting dates: October 19–20, 1992.
Place: Hyatt Regency Bethesda, One Bethesda Metro Center, Bethesda, MD 20814.
Open: October 19, 9 a.m.–10:15 a.m.
Closed: Otherwise.
Contact: Ronald F. Suddendorf, Ph.D., rm. 16C–26, Parklawn Bldg., phone (301) 443–6106.

Committee name: Neuroscience and Behavior Subcommittee of the Alcohol Biomedical Research Review Committee.
Meeting dates: October 19–21, 1992.
Place: Hyatt Regency Bethesda, One Bethesda Metro Center, Bethesda, MD 20814.
Open: October 19, 9 a.m.–11:00 a.m.
Closed: Otherwise.
Contact: Antonio Noronha, Ph.D., rm. 16C–20, Parklawn Bldg., phone (301) 443–4375.

Committee name: Epidemiology and Prevention Subcommittee of the Alcohol Psychosocial Research Review Committee.
Meeting dates: October 21–23, 1992.
Place: The River Inn, 924 25th Street, NW., Washington, DC 20037.
Open: October 21, 9 a.m.–10 a.m.
Closed: Otherwise.
Contact: Lenore S. Radloff, rm. 16C–26, Parklawn Bldg., phone (301) 443–6106.

Committee name: Immunology and AIDS Subcommittee of the Alcohol Biomedical Research Review Committee.
Meeting dates: November 5–6, 1992.
Place: Holiday Inn, 8120 Wisconsin Avenue, Bethesda, MD 20814.
Open: November 5, 8:30 a.m.–9:30 a.m.
Closed: Otherwise.
Contact: Barbara Smothers, Ph.D., rm. 16C–26, Parklawn Bldg., phone (301) 443–6106.

Dated: September 17, 1992.

Peggy W. Cockrill,

Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

BILLING CODE 4160–18–M

Health Care Financing Administration

Privacy Act of 1974; Computer Matching Programs

AGENCY: Department of Health and Human Services (HHS), Health Care Financing Administration (HCFA).

ACTION: Notice of a Computer Matching Program - Beneficiary State File (BEST) and Medicaid master files maintained by State Medicaid agencies.

SUMMARY: The Department of Health and Human Services is providing providing public notice that HCFA agrees to disclose information on Medicare eligible individuals to State agencies responsible for administering the Medicaid program.

The matching report set forth below is in compliance with the Computer Matching and Privacy Protection Act of 1988 (Public Law 100–503).

DATE: The match will begin on October 23, 1992, and shall remain in effect for a period not to exceed 18 months.

ADDRESS: The public should address comments to Richard A. DeMeo, Privacy Act Officer, Health Care Financing Administration, Office of Budget and Administration, Room 2–H–4, East Low Rise Building, 6325 Security Boulevard, Baltimore, Maryland 21207–5187. Comments will be available for inspection at this location.

FOR FURTHER INFORMATION CONTACT: William A. Grant, Division of Entitlement Requirements, Office of Program Operation Procedures, Bureau of Program Operations, Health Care Financing Administration, G–E–7 Meadows East Building, 6325 Security Boulevard, Baltimore, Maryland 21207–5187. His telephone number is (410) 966–6464.

SUPPLEMENTARY INFORMATION: The Health Insurance Master Record (HIMR) contains a record of each individual who is, or has been, entitled to health insurance benefits under title XVIII of the Social Security Act (the Act). The BEST file in an extract of the HIMR. The BEST file is an alphabetic listing, on magnetic tape, of all Medicare beneficiaries in the State by name, sex, date of birth, address, zip code, buy-in indicator and health insurance claim number (HICN). This extract is the most economical and efficient method of obtaining the claim number of a Medicare beneficiary when other identifying information is available. The BEST file has been provided to the following States for the express purpose of identifying Medicaid recipients to the State buy-in rolls: Alaska, Arizona, California, Denver, Connecticut, Georgia, Hawaii, Illinois, Kentucky, Maine, Maryland, Massachusetts, Ohio, Oregon, Pennsylvania, Puerto Rico, West Virginia. In most States, the activity is conducted by the State agency responsible for administering the Medicaid program.

The BEST file will enable the State agency to identify individuals eligible for inclusion in a State buy-in account. The BEST file will also enable the State agency to identify those Medicare/Medicaid dually eligible individuals for whom Medicaid has deductible and co-insurance liability. States under a buy-in agreement may enroll individuals for Medicare Part B coverage who are eligible for title XVI (Supplemental Security Income) benefits or eligible under State grants for medical assistance. The State pays the Medicare Part B premiums for these individuals eligible under title XVI.

To query the BEST file, it is necessary for the State to have the individual's name, date of birth, sex, and address. With this information, the HICN can be determined. The State is then able to add the individual to its buy-in account, request the carrier or intermediary to provide a report of any medical expenses paid by Medicare for Medicaid eligibles, or request payment by Medicare for expenses already paid by Medicaid.

Furnishing the BEST tape to State agencies is essential in enabling the States to determine the correct HICN of individuals eligible for buy-in. The Medicaid master file maintained by the State agency is sequenced according to the individual's social security number or according to the State agency's numbering system. Generally, the State knows who its dually eligible individuals are or should be and needs to obtain the HICN to properly include eligible individuals in its buy-in account.

Use of the BEST file was resulted in the prevention of payments of duplicate claims and fewer referrals by Medicare contractors to Social Security Offices. As a consequence, its use has also been instrumental in the realization of improved service to the public.

Before the BEST file is released to the State, the State must sign an agreement to protect the confidentiality of the information received.

The individual records are retrieved from the BEST file when a Medicaid claim is submitted for payment without an HICN or the HICN is determined to be incorrect. Also, individual records are retrieved for the purpose of screening pre-payment and post-payment Medicaid claims.

Only information that is relevant to the identification of beneficiaries is contained in the BEST record system.

Set forth below is the information required by the Computer Matching and Privacy Act of 1988 (Public Law 100–503).

A report of the Computer Matching Program has been filed with the Chairman of the Committee on Government Operations of the House of Representatives, the Chairman of the Committee on Governmental Affairs of the Senate and the Acting Administrator of the Office of Information and Regulatory Affairs in the Office of Management and Budget.

Dated: September 16, 1992.

William Toby, Jr.,

Acting Deputy Administrator, Health Care Financing Administration.

Report of Computer Matching Program—Beneficiary State File (BEST)

a. *Authority:* Sections 1814 and 1833 of title XVIII of the Social Security Act (42 U.S.C. Section 1295f and 12951).

b. *Purpose and Description:* The purpose of this disclosure is to enable the State agency to identify individuals eligible for inclusion in a State buy-in

account and to identify Medicare/Medicaid dually eligible individuals for whom Medicaid has deductible and co-insurance liability. Most State agencies require access to the BEST file for improved administration of the Medicaid program. Routine uses of the BEST file are: (a) Obtaining a beneficiary's correct HICN and (b) screening of pre-payment and post-payment Medicaid claims.

The BEST file is an extract of the HIMR listing, in alphabetic order, which lists all Medicare beneficiaries in the State by name, sex, date of birth, address, zip code, buy-in indicator and HICN.

c. *Personal Records to Be Matched:* The State Agency will match the beneficiary's name, date of birth, sex and address to the BEST file in order to determine the HICN, and to screen pre-payment and post-payment Medicaid claims. The number of beneficiaries may vary from State to State.

d. *Period of Match:* The tape will be furnished by HCFA to the States, semi-annually (spring and fall), for continuous use by the States for a period not to exceed 18 months.

e. *Safeguards:* Before the BEST file is released to a State, the State must sign an agreement to protect the confidentiality of the information received.

Access to the records matched and to any records created by the match will be restricted to only those authorized employees and officials who need them to perform their official duties in connection with the match.

The records matched and any records created by the match will be stored in areas that are physically safe from access by unauthorized persons during duty hours as well as non-duty hours or when not in use.

The records matched and any records created by the match will be processed under the immediate supervision and control of the authorized personnel in a manner which will protect the confidentiality of the records and in such a way that unauthorized persons cannot retrieve any such records by computer, remote terminal or other means.

All personnel who will have acess to the records matched and to any records created by the match will be advised of the confidential nature of the information, the safeguards required to protect the information and the civil and criminal sanctions for noncompliance contained in applicable Federal laws.

f. *Retention and Disposition of Records:* The State Agency will retain all identifiable records received from HCFA only for the period of time required for any processing related to matching under this agreement. The previous BEST and all copies must be erased upon receipt of an updated version or in the event the agreement is terminated for any reason. The blank magnetic tapes may be returned to the State's blank tape inventory.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). Copies of the proposed collection of information and related forms may be obtained by contacting the Bureau of Indian Affairs' (BIA) clearance officer at the phone number listed below. Comments and suggestions on the proposal should be made directly to the BIA clearance officer and to the Office of Management and Budget, Washington, DC 20503, telephone (202) 395-7340.

Title: Indian Child Welfare Act—Reports and availability of information to Indians

Abstract: Child and family services to American Indian families are provided through grants awarded to Indian tribes and Indian organizations. Grantees submit quarterly narrative and statistical reports and State courts entering final adoption decrees involving American Indian children give notice to the Security of Interior.

BIA form number: To be assigned

Frequency: Grant application every three years; quarterly reports; one-time notification from State Courts

Description of respondents: Grantees operating an Indian Child Welfare Act Grant Program and State Courts

Estimated completion time: 4.6

Annual responses: 2,399

Annual burden hours: 11,000

BIA clearance officer: Gail Sheridan, (202) 208-2685.

David L. Hickman,

Chief, Division of Social Services.

Bureau of Land Management

[Pacificorp—UTU-70069]

Utah—Invitation To Participate In Coal Exploration Program

Pacificorp is inviting all qualified parties to participate in its proposed exploration of certain Federal coal deposits in the following described lands in Emery County, Utah:

T. 17 S., R. 6 E., SLM, Utah
Sec. 2, SW¼;
Sec. 11, W½;
Sec. 14, all.
Containing 1,119.88 acres.

Any party electing to participate in this exploration program must send written notice of such election to the Bureau of Land Management, Utah State Office, P.O. Box 45155, Salt Lake City, Utah 84145-0155, and to Pacificorp, P.O. Box 1005, Huntington, Utah 84528. Such written notice must be received within 30 days after the publication of this notice in the **Federal Register**.

Any party wishing to participate in this exploration program must be qualified to hold a lease under the provision of 43 CFR 3472.1 and must share all cost on a pro rata basis. A copy of the exploration plan, as submitted by Pacificorp, is available for public review during normal business hours in the BLM hours in the BLM office, (Public Room, Fourth Floor), 324 South State Street, Salt Lake City, Utah under Serial Number UTU-70069.

Realty Action

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action, Exchange of Public Lands in Box Elder County, Utah.

SUMMARY: The BLM proposes to exchange public lands which are isolated and uneconomical to manage by the BLM of any other federal agency, for private lands located in Box Elder County. The public lands are described as follows:.

Salt Lake Meridian

T. 11 N. R. 18 W.,
Section 20, NE¼, E½SE¼/
containing 240 acres.

In exchange for these lands, the Federal Government will obtain non-federal lands from Mr. Harley Sanders, P.O. Box 37, Oakley, Idaho. the lands are described as follows:

Salt Lake Meridian

T. 11 N. R. 18 W.,
Section 7, W½NE¼, NE¼NW¼, NE¼SW¼, also the North 28 Rods of the NW¼SE¼.

DATES: Comments must be received within November 9, 1992.

ADDRESSES: Comments should be sent to the District Manager, Salt Lake District BLM, 2370 South 2300 West, Salt Lake City, Utah 84119.

FOR FURTHER INFORMATION CONTACT: Janice MaChipiness, BLM Salt Lake District Office, (801) 977–4300.

SUPPLEMENTARY INFORMATION: The public lands have been found suitable for exchange under section 206 of the Federal Land Policy and Management Act of 1976, (90 Stat. 2756, 43 U.S.C. 1716). The exchange is consistent with the Box Elder Resource Management Plan and is in the best interest of the public. The values of the lands to be exchanged are approximately equal and will not include the exchange of the mineral estate. The lands described are hereby segregated from appropriation under the public land laws, including the mining laws, pending disposition of this action or 2 years from the date of publication of this notice in the federal register, whichever occurs first. Lands transferred from the United States will contain the following reservations:

(1) The patent will contain a reservation for ditches and canals and be subject to all valid existing rights.

(2) All minerals will be reserved to the United States including the right of ingress and egress for mineral development.

Notice is hereby given that an opportunity for the public to comment is given within the comment period identified above. Any adverse comments will be evaluated by the State Director who may modify or vacate this realty action and issue a final determination. In the absence of any action by the State Director, this realty action will become the final determination of the Department of the Interior.

Deane H. Zeller,
District Manager.

[ES–020–02–4410–10]

Intent To Prepare Florida Resource Management Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: The Jackson District Office, Eastern States, will prepare a Resource Management Plan (RMP) with an Environmental Impact Statement (EIS) for the public lands within the state of Florida which are administered by the Bureau of Land Management (BLM).

This notice is issued pursuant to Title 40 Code of Federal Regulations (CFR), § 1501.7 and title 43 CFR 1610.2(c). The planning effort will follow the procedures set forth in 43 CFR subpart 1600.

The public is invited to participate in the planning process, beginning with the identification of planning issues and criteria.

DATES: Comments relating to the identification of planning issues and

criteria will be accepted through November 30, 1992.

ADDRESSES: Send comments to Bureau of Land Management, Jackson District, 411 Briarwood Drive, suite 404, Jackson, Mississippi 39206.

FOR FURTHER INFORMATION CONTACT: Duane Winters, RMP Team Leader, Jackson District, (601) 977–5400.

SUPPLEMENTARY INFORMATION: The RMP will guide future use of several hundred acres, comprised of small parcels of land located in counties throughout the State. The RMP will also guide the Bureau's mineral leasing and permitting responsibilities on approximately 270,000 acres of split estate land where federal ownership is limited to mineral interests.

The BLM also has certain mineral leasing and permitting responsibilities on other areas of federal ownership including military reservations and National Forests. These responsibilities will be carried out in accordance with federal laws and regulations as well as applicable land use plans of other federal agencies. The RMP/EIS will address the impacts of foreseeable mineral development of these lands.

The anticipated issues for the RMP include the following (1) land ownership adjustments, (2) special management areas, and (3) mineral leasing and development. These issues are preliminary and subject to change as a result of public input.

The RMP will be developed by an interdisciplinary team composed of specialists in realty, minerals, wildlife, forestry, cultural resources, visual resources, recreation, fire management, socio-economics, solid, water and air. Additional technical support will be provided by other specialists as needed.

Public participation will be an important part of the planning process. It is intended that all interested or affected parties be involved. The planning team will seek public input by direct mailings, media coverage, person to person contacts, and coordination with local, state, and other federal agencies. Agency coordination meetings and public meetings will be held to obtain input on issues and planning criteria. Public meetings are scheduled for the following locations:

Bartow

October 15, 1992, 7 p.m., Polk County Administrative Building, Room 413, 330 West Church Street, Bartow, Florida.

Tallahassee

November 3, 1992, 7 p.m. at the Department of Natural Resources, Conference Room A, 3900 Commonwealth Blvd., Tallahassee, Florida.

Santa Rosa Beach

November 4, 1992, 7 p.m., So. Walton Tourist Development Council, Emerald Coast Plaza, Unit 37, Highway 98, Santa Rosa Beach, Florida.

Complete records of all phases of the planning process will be available for public review at the Jackson District Office. Draft and final documents of the RMP/EIS will be available upon request.

Dated: September 10, 1992.

Denise P. Meridith,

State Director.

Fish and Wildlife Service

Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*):

PRT-771235

Applicant: Zoo Atlanta, Atlanta, GA.

The applicant requests a permit to import blood samples from captive-held drill (*Papio leucophaeus*) from Lisa Gadsby, Nigeria, for scientific research.

PRT-769843

Applicant: Woodland Park, Zoological Garden, Seattle, WA.

The applicant requests a permit to export one captive-bred male lion-tailed macaque (*Macaca silenus*) to the Royal Melbourne Zoological Gardens, Australia, for captive breeding purposes.

PRT-760213

Applicant: John Siegel, Baltimore, MD.

The applicant requests a permit to purchase in interstate commerce one male and one female Eastern Indigo snake (*Drymarchon corais couperi*) that were captive-hatched by Shay P. Hamper, Columbus, OH, for breeding purposes.

PRT-771803

Applicant: New York Zoological Society, Bronx, NY.

The applicant requests a permit to export blood samples of blood collected from captive-born and captive-held gorilla (*Gorilla gorilla*) in U.S. zoos. Blood will be analyzed at the University of Uppsala, Sweden, for genetic research.

PRT-724290

Applicant: Montrose Nursery, Hillsborough, NC.

The applicant requests a permit to sell in interstate commerce nursery cultivated plants of Tennessee purple coneflower (*Echinacea tennessensis*) in order to enhance the survival of the species in the wild.

PRT-770947

Applicant: Hossein Golabchi, Grovetown, GA.

The applicant requests a permit to import a sport-hunted trophy of one male bontebok (*Damaliscus dorcas dorcas*) culled from the captive herd maintained by M.J. D'Alton, "Kosierskraal", Bredasdorp, Cape Province, South Africa, for the purpose of enhancement of survival of the species.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review by any party who submits a written request for a copy of such documents to, or by appointment during normal business hours (7:45–4:15) in, the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, room 432, Arlington, Virginia 22203. Phone: (703/358–2104); FAX: (703/358–2281).

Dated: September 17, 1992.

Margaret Tieger,

Acting Chief, Branch of Permits, Office of Management Authority.

BILLING CODE 4310-55-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-335]

Dry Peas and Lentils: Conditions of Competition Between the United States and Canada in Third-Country Markets

AGENCY: United States International Trade Commission.

ACTION: Notice of institution of investigation and public hearing.

EFFECTIVE DATE: SEPTEMBER 14, 1992.

SUMMARY: Following receipt on August 10, 1992, of a request from the Committee on Ways and Means, U.S. House of Representatives, the Commission instituted investigation No. 332–335, under section 332(g) of the

Tariff Act of 1930 (19 U.S.C. 1332(g)) for the purpose of reporting on the conditions of competition between the U.S. and Canadian dry pea and lentil industries in third-country markets.

As requested by the Committee, the Commission in its investigation and report thereon will seek to:

(1) Describe and analyze the U.S. and Canadian dry pea and lentil industries, including patterns of production, consumption, exports, and imports since 1986;

(2) describe and analyze the current conditions of trade in dry peas and lentils between the United States, Canada, and the rest of the world;

(3) describe and analyze the purpose, nature, and use of Canadian programs and policies to assist dry pea and lentil producers and exporters along with their impact on competitive conditions, especially programs affecting transportation costs, including the Western Grain Transportation Act, and income support programs, such as the Gross Revenue Insurance Program; and

(4) provide an analysis of other relevant factors having a significant bearing on competitive conditions and trade in dry peas and lentils, including prices, production and marketing costs, and exchange rates.

The Committee requested that the Commission submit its report not late than April 20, 1993.

FOR FURTHER INFORMATION CONTACT: Timothy McCarty ((202)–205–3324) or Cathy Jabara ((202)–205–3309), Agriculture Division, Office of Industries, or William Gearhard ((202)–205–3091), Office of the General Counsel, U.S. International Trade Commission. Hearing impaired persons can obtain information on this study by contacting the Commission's TDD terminal on (202)–205–1810.

PUBLIC HEARING: A public hearing in connection with this investigation is scheduled to begin at 9:30 a.m. on December 8, 1992, at the U.S. International Trade Commission Building, 500 E Street SW., Washington, DC. All persons have the right to appear by counsel or in person, to present information, and to be heard. Persons wishing to appear at the public hearing should file a request to testify with the Secretary, United States International Trade Commission, 500 E Street SW., Washington, DC 20436, not later than the close of business (5:15 p.m.) on November 20, 1992. In addition, persons testifying should file prehearing briefs (original and 14 copies) with the Secretary by the close of business on November 23, 1992. The deadline for filing post hearing briefs is the close of business on January 5, 1993.

WRITTEN SUBMISSIONS: In addition to or in lieu of filing prehearing and/or post hearing briefs, interested persons may submit written statements concerning the investigation. To be assured of consideration, written statements (original plus 14 copies) must be received by the close of business (5:15 p.m.) January 5, 1993. Commercial or financial information that a submitter desires the Commission to treat as confidential must be submitted on separate sheets of paper, each clearly marked "Confidential Business Information" at the top. All submissions requesting confidential treatment must conform to the requirements of section 201.6 of the Commission's Rules of Practice and Procedure (19 CFR 201.6). All written submissions, except for confidential business information, will be made available for inspection by interested persons. All submissions should be addressed to the Secretary at the Commission's office in Washington, DC.

By order of the Commission.

Issued: September 16, 1992.

Paul R. Bardos,

Acting Secretary.

BILLING CODE 7020–02–M

INTERSTATE COMMERCE COMMISSION

Motor Passenger Carrier or Water Carrier Finance Applications Under 49 U.S.C. 11343–11344

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties of, or acquire control of motor passenger carriers or water carriers under 49 U.S.C. 11343–11344. The applications are governed by 49 CFR part 1182, as revised in Pur., Merger & Cont.—Motor Passenger & Water Carriers, 5 I.C.C.2d 786 (1989). The findings for these applications are set forth at 49 CFR 1182.18. Persons wishing to oppose an application must follow the rules under 49 CFR part 1182, subpart B. If no one timely opposes the application, this publication automatically will become the final action of the Commission.

MC–F–20152, filed September 7, 1992. ROBERT L. QUICK, JR., AND DEBORAH Q. FULTZ—CONTINUANCE IN CONTROL—QUICK LIVICK, INC., AND D&B BUS, INC. Applicant's representative: Robert B. Walker, 1275 K Street, NW., Suite 775, Washington, DC 20005–4006. Applicants Robert L. Quick, Jr., and Deborah Q. Fultz, both noncarrier individuals, are in control: (1) Of Quick-Livick, Inc. (Q–L) (MC–134542), of Staunton, VA, a motor carrier of passengers, and (2) of D&B Bus, Inc. (D&B Bus), of Falmouth, VA, a noncarrier [1] seeking its initial grant of motor carrier passenger authority in No. MC–237570 (Sub-No. 1). Robert L. Quick, Jr., owns 4 percent of the stock of Q–L and is its treasurer. He also owns 50 percent of the stock of D&B Bus and is its president and treasurer. Deborah Q. Fultz owns 4 percent of the stock of Q–L and is its vice president. She also owns 50 percent of the stock of D&B Bus and is its vice president and secretary. The business address of the applicants is 41 RV Parkway, Falmouth, VA. They will be in control of two regulated carriers when the pending passenger application is approved and authority is issued to D&B Bus.

Decided: September 16, 1992.

By the Commission, the Motor Carrier Board.

Sidney L. Strickland, Jr.,

Secretary.

[Ex Parte No. 290 Sub-No. 2); Ex Parte No. 290 (Sub-No. 5) (92–4)]

Railroad Cost Recovery Procedures; Quarterly Rail Cost Adjustment Factor

AGENCY: Interstate Commerce Commission.

ACTION: Approval of rail cost adjustment factor, request for comments and decision.

SUMMARY: The Commission has approved a fourth quarter 1992 rail cost adjustment factor (RCAF) and cost index filed by the Association of American Railroads. The fourth quarter RCAF (Unadjusted) is 1.187. The fourth quarter RCAF (Adjusted) is 1.024, an increase of 1.4 percent from the third quarter 1992 RCAF (Adjusted) of 1.010. Maximum fourth quarter 1992 RCAF rate levels may not exceed 101.4 percent of maximum third quarter 1992 RCAF rate levels. Weights for individual index components have been restated to a 1991 level beginning with this quarter. Annual restatement of component weights insures the proper proportional representation of each component in the total index. The approved RCAF and index were calculated using the

[1] D&B Bus was granted motor property authority under No. MC–237570, but it has not complied with the requirements for issuance of that authority.

weighting methodology in force since 1985. Because of an unusually high amount of 1991 special charges, comments have been invited on the role of special charges in weighting the index in the Sub-No. 2 proceeding.

DATES: This notice is effective October 1, 1992. Notices of intent to participate are due November 9, 1992.

FOR FURTHER INFORMATION CONTACT: William T. Bono (202) 927–5720; Robert C. Hasek (202) 927–6239; John C. Pertino (202) 927–6219 [TDD for hearing impaired: (202) 927–5721.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or telephone (202) 289–4357/4359. [Assistance for the hearing impaired is available through TDD services (202) 275–5721.]

This action will not significantly affect either the quality of the human environment or energy conservation.

Decided: September 16, 1992.

By the Commission, Chairman Philbin, Vice Chairman McDonald, Commissioners Simmons, Phillips, and Emmett.

Sidney L. Strickland, Jr.,

Secretary.

NATIONAL SPACE COUNCIL

Meeting of the Space Launch Strategy Implementation Review Task Group

AGENCY: National Space Council.

ACTION: Notice of meeting.

SUMMARY: The Vice President's Space Policy Advisory Board Space Launch Strategy Implementation Review Task Group will meet October 8, 1992 at the Kennedy Space Center, Florida.

DATE: October 8, 1992.

ADDRESS: Kennedy Space Center, Spaceport USA, Florida.

FOR FURTHER INFORMATION CONTACT: Stephen Hopkins, (703) 685–3307 or James Beale, National Space Council, Executive Office of the President, Washington, DC., (202) 395–6175.

SUPPLEMENTARY INFORMATION: The Space Launch Strategy Implementation Review Task Group of the Vice President's Space Policy Advisory Board will meet between 9 a.m. and 2:30 p.m. on Thursday, October 8, 1992, at the Kennedy Space Center, Florida. The meeting will be held in the Spaceport Theater, Spaceport USA, Kennedy Space Center.The agenda includes briefings on Space Shuttle launch processing activities, launch-related manpower requirements, and Air Force support of commercial space launches. This meeting will be held in open session. Persons interested in attending should contact Stephen Hopkins, (703) 685–3307.

James R. Beale,

Designated Federal Officer.

BILLING CODE 3128–01–M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards (ACRS) and Advisory Committee on Nuclear Waste (ACNW); Proposed Meetings

In order to provide advance information regarding proposed public meetings of the ACRS Subcommittees and meetings of the ACRS full Committee, of the ACNW, and the ACNW Working Groups the following preliminary schedule is published to reflect the current situation, taking into account additional meetings that have been scheduled and meetings that have been postponed or canceled since the last list of proposed meetings was published August 20, 1992 (57 FR 37845). Those meetings that are firmly scheduled have had, or will have, an individual notice published in the **Federal Register** approximately 15 days (or more) prior to the meeting. It is expected that sessions of ACRS and ACNW full Committee meetings designated by an asterisk (*) will be closed in whole or in part to the public. The ACRS and ACNW full Committee meetings begin at 8:30 a.m. and ACRS Subcommittee and ACNW Working Group meetings usually begin at 8:30 a.m. The time when items listed on the agenda will be discussed during ACRS and ACNW full Committee meetings, and when ACRS Subcommittee and ACNW Working Group meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, canceled, or rescheduled, or whether changes have been made in the agenda for the October 1992 ACRS and ACNW full Committee meetings can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committees (telephone: 301/492–4600 (recording) or 301/492–7288, Attn. Barbara Jo White) between 7:30 a.m. and 4:15 p.m. Eastern Time.

ACRS Subcommittee Meetings

Maintenance Practices and Procedures, October 6, 1992, Bethesda, MD. The Subcommittee will review the draft Regulatory Analysis and draft Regulatory Guide, "Monitoring the Effectiveness of Maintenance at Nuclear Power Plants," for implementation of the Maintenance Rule (10 CFR 50.65). Also, it will review the NUMARC document 93–01, Revision 2A, "Industry Guideline for Monitoring the Effectiveness of Maintenance at Nuclear Power Plants," which is endorsed by the NRC staff in the draft Regulatory Guide.

Ad Hoc Subcommittee on Design Acceptance Criteria, October 7, 1992, Bethesda, MD. The Subcommittee will review SECY–92–299, "Development of Design Acceptance Criteria (DAC) for the Advanced Boiling Water Reactor (ABWR) in the Area of Instrumentation and Control (I&C) and Control Room Design."

Planning and Procedures, October 7, 1992, Bethesda, MD (3 p.m.–5:30 p.m.). The Subcommittee will discuss proposed ACRS activities and related matters. Qualifications of candidates nominated for appointment to the ACRS will also be discussed. Portions of this meeting will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

Advanced Boiling Water Reactors, October 21–22, 1992, Bethesda, MD. The Subcommittee will begin its review of the Final Safety Evaluation Report (FSER) for the GE ABWR design and the remainder of the Standard Safety Analysis Report (SSAR) submittals.

Safety Philosophy, Technology and Criteria, November 3, 1992, Bethesda, MD. The Subcommittee will review Revision 2 to NUREG/BR–0058,

Regulatory Analysis Guidelines, and guidelines for prioritization of Generic Safety Issues.

Advanced Pressurized Water Reactors, November 4, 1992, Bethesda, MD. The Subcommittee will review the NRC staff's Draft Safety Evaluation Report (DSER) for certification of the ABB CE System 80+ Design.

Planning and Procedures, November 4, 1992, Bethesda, MD (3 p.m.–5:30 p.m.). The Subcommittee will discuss proposed ACRS activities and related matters. Qualifications of candidates nominated for appointment to the ACRS will also be discussed. Portions of this meeting will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

Advanced Boiling Water Reactors, November 18–19, 1992, Bethesda, MD. The Subcommittee will continue its review of the Final Safety Evaluation Report (FSER) for the ABWR design.

Control and Electrical Power Systems, December 8, 1992, Bethesda, MD. The Subcommittee will review the NRC staff's proposed resolution of Generic Issue 120, "Online Testability of Protection Systems."

Joint Control and Electrical Power Systems/Probabilistic Risk Assessment, December 9, 1992, Bethesda, MD. The Subcommittees will review the proposed final amendment to the Station Blackout Rule (10 CFR 50.63) and the associated Regulatory Guide 1.9, Revision 3, regarding the reliability of diesel generators.

Planning and Procedures, December 9, 1992, Bethesda, MD (3 p.m.–5:30 p.m.). The Subcommittee will discuss proposed ACRS activities and related matters. Qualifications of candidates nominated for appointment to the ACRS will also be discussed. Portions of this meeting will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

ACRS Full Committee Meetings

390th ACRS Meeting, October 8–10, 1992, Bethesda, MD. Items are tentatively scheduled.

A. *Insights from Common-Mode Failures*—Briefing by and discussion with representatives of the NRC staff on insights gained from an analysis of selected operating events involving common-mode failures. Representatives of the nuclear industry will participate, as appropriate.

B. *Environmental Qualification of Safety-Grade Digital Computer Protection and Control Systems*—Review and comment on the NRC research effort on environmental qualification of safety-grade digital computer protection and control systems. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

C. *Use of Probabilistic Risk Assessment in the Regulatory Process*—Briefing by and discussion with representatives of the NRC staff regarding the use of PRA by the NRC staff in the regulatory process.

D. *Yankee Rowe Nuclear Station-Reactor Pressure Vessel Embrittlement*—Briefing by and discussion with representatives of the NRC staff regarding lessons learned from the NRC staff's review of the reactor pressure vessel embrittlement issue at the Yankee Rowe Nuclear Power Station. Representatives of the licensee will participate, as appropriate.

E. *Format and Content of Design Certification Applications*—Review and comment on SECY–92–287, "Form and Content for a Design Certification Rule," for standardized nuclear power plant designs. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

F. *Branch Technical Position on Equipment Qualification for License Renewal*—Review and comment on Branch Technical Position regarding qualification of electrical equipment for nuclear power plant license renewal. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

G. *Human Factors Aspects of Operating Events*—Briefing by and discussion with representatives of the NRC staff regarding the status of the NRC staff work on the use of onsite evaluation teams to analyze the human factors aspects of selected operating events.

H. *Operator Training and Requalification*—Briefing and discussion regarding the results of the pilot simulator examination program, and proposed changes to 10 CFR part 55 requirements for requalification examinations. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

I. *Maintenance of Nuclear Power Plants*—Review and comment on the proposed NRC Regulatory Guide, "Monitoring the Effectiveness of Maintenance at Nuclear Power Plants," for implementation of the Maintenance Rule and an associated NUMARC document. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

*J. *Stability of Boiling Water Reactors*—Review and comment on proposed resolution of core power stability issues in GE boiling water reactors. Representatives of the NRC staff and the nuclear industry will participate, as appropriate. Portions of this session will be closed as necessary to discuss Proprietary Information.

K. *Design Acceptance Criteria*—Review and report on Design Acceptance Criteria in the areas of man-machine interface and control and protection systems. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

L. *NRC Staff Review of ITAAC for the GE ABWR*—Discuss proposed ACRS report on the process for the NRC staff's review of the Inspections, Tests, Analyses, and Acceptance Criteria (ITAAC) for the ABWR design. Representatives of the NRC staff and the nuclear industry will participate, as appropriate.

M. *ACRS Activities*—Discuss recommendations of the ACRS Planning and Procedures Subcommitee on matters proposed for consideration by the full Committee.

*N. *ACRS Subcommittee Activities*—Discuss assigned activities of designated subcommittees including, the ACRS Planning and Procedures Subcommittee. Portions of this session will be closed as appropriate to discuss information the release of which would represent a clearly unwarranted invasion of personal property.

*O. *Activities of ACRS Members*—Discuss related activities of individual members of the Committee including, participation in meetings not sponsored by the ACRS. This session will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

*P. *Appointment of Members*—Discuss qualifications of candidates proposed for appointment as members of the Committee. This session will be closed to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

Q. *Resolution of ACRS Comments and Recommendations*—Discuss response from NRC Executive Director for Operations regarding NRC staff reaction to ACRS comments and recommendations.

*R. *Conduct of ACRS Business*—Discuss qualifications of nominees and elect Member-at-Large to the ACRS Planning and Procedures Subcommittee. This session will be closed as appropriate to discuss information the release of which would represent a clearly unwarranted invasion of personal privacy.

S. *Miscellaneous*—Discuss miscellaneous matters related to the conduct of Committee activities and complete discussion of topics that were not completed at previous sessions as time and availability of information permit.

391st ACRS Meeting, November 5–7, 1992, Bethesda, MD. Agenda to be announced.

392nd ACRS Meeting, December 10–12, 1992, Bethesda, MD. Agenda to be announced.

ACNW Full Committee and Working Group Meetings

ACNW Working Group on Potential for Presence of Natural Resources at a High-Level Waste Repository Site, October 20, 1992, St. Tropez Hotel, Las Vegas, NV. The Working Group will discuss potential for the presence of natural resources at the proposed Yucca Mountain high-level waste repository.

47th ACNW Meeting, October 21, 1992, St. Tropez Hotel, Las Vegas, NV. Items are tentatively scheduled.

A. Invite comments from State and Local Governments, for example, compatibility of NRC, EPA, and DOE requirements.

B. Invite DOE to discuss schedules for work in progress at Yucca Mountain.

C. Hear a briefing on information available on the June 29, 1992 earthquake that occurred near the proposed Yucca Mountain High-Level Waste Repository site and on evolving plans for seismic hazard studies.

D. Continue discussions of a supplemental request from Chairman Selin made on April 24, 1992, on a systems-analysis approach to reviewing the overall high-level waste program.

E. Review a DOE Study Plan, possibly the magmatic disruption study plan.

F. Consider potential impacts that different waste forms (spent fuel, vitrified wastes from different sources) could have on repository performance.

G. Discuss administrative matters related to Committee activities and items that were not completed at previous meetings as time and availability of information permit.

48th ACNW Meeting, November 16–17, 1992, Bethesda, MD. Agenda to be announced.

ACNW Working Group on the Impact of Long-Range Climate Change in the Area of the Southern Basin and Range, November 18, 1992, Bethesda, MD. The Working Group will discuss the historical evidence and the potential for climate changes in the Southern Basin and Range and the impact of climate change on natural processes affecting the performance of the proposed high-level waste repository at Yucca Mountain.

ACNW Working Group on Performance Assessment, December 16, 1992, Bethesda, MD. The Working Group will hear a briefing by DOE representatives regarding the status of the DOE's Total System Performance Assessment. Also, this Group will discuss the progress of Phase 2 of the HLW Iterative Performance Assessment effort by NRC.

49th ACNW Meeting, December 17–18, 1992, Bethesda, MD. Agenda to be announced.

Dated: September 17, 1992.

Andrew L. Bates,

Acting Advisory Committee Management Officer.

[FR Doc. 92–23033 Filed 9–22–92; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50–332]

Allied-General Nuclear Services, Inc.; Barnwell Nuclear Fuel Plant; Notice of Denial of Request to Amend Construction Permit No. CPCSF–4 to Change the Latest Completion Date and Opportunity for Hearing

I

Allied-General Nuclear Services, Inc. (AGNS) holds Construction Permit No. CPCSF–4 which authorizes the construction of the Barnwell Nuclear Fuel Plant in Barnwell County, South Carolina. The construction permit was issued on December 29, 1970.

II

On November 11, 1976, AGNS submitted a request for an amendment to Construction Permit No. CPCSF–4 to extend the latest construction completion date from December 31, 1976, to December 31, 1979. In subsequent action on December 30, 1977, the U.S. Nuclear Regulatory Commission ordered the termination of all activities associated with the *G*eneric *E*nvironmental *S*tatement on the Use of *R*ecycle Plutonium in *M*ixed *O*xide Fuel in Light Water Cooled Reactors (GESMO). The activities proposed to be undertaken in the Barnwell Nuclear Fuel Plant were among those affected by that order. On May 8, 1978, the Commission issued its Memorandum of Decision terminating all plutonium recycle related proceedings, including those under Docket No. 50–332.

Since the original request for extension of the latest completion date of November 11, 1976, AGNS has submitted several additional requests on anniversary dates corresponding to the expiration dates which would have been in effect had the Commission acted upon and granted the requested extension. Until the present time the Commission has not acted upon these requests.

Although AGNS has been persistently requesting extensions of the latest completion dates, its actions have not been consistent with the purpose of the construction permit, nor the Commission's Rules in 10 CFR parts 2 and 50 in that the applications do not state an intent to complete construction in order to seek an operating license for the facility. In fact, AGNS has removed buildings and equipment which would be necessary for the purpose of reprocessing nuclear fuel, thereby demonstrating the lack of an intent consistent with their original purpose. Therefore, AGNS has not shown good cause for extension of the completion date of the construction permit, as required by 10 CFR 50.55(b).

III

Based on the foregoing the NRC staff finds that AGNS has not shown good cause for failure to complete the Barnwell facility in its request for extension of the latest completion date for Construction Permit No. CPCSF–4. Therefore, the request of AGNS for extension of the latest completion date for Construction Permit No. CPCSF–4 is denied and Construction Permit No. CPCSF–4 is terminated, effective sixty days from the date of this order. By letter, dated May 12, 1992, AGNS stated that it would not oppose such termination. The staff has toured the site and the facility and determined that no environmental remediation of the site is necessary.

IV

By October 23, 1992, the licensee may demand a hearing with respect to the denial described above. Any person whose interest may be affected by this denial, and who desires to participate as a party may request a hearing on this action on extension of the construction permit.

A request for hearing or petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, within 30 days of the publication of this notice. Where petitions are filed during the last ten (10) days of the notice period it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western

Union at 1–(800) 325–6000 (in Missouri 1–(800) 342–6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Richard E. Cunningham, Director, Division of Industrial and Medical Nuclear Safety, Office of Nuclear Material Safety and Safeguards: Petitioner's name and telephone number; date petition was mailed; plant name, and publication date and page number of this **Federal Register** notice.

A copy of any petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Bennett Boskey, Volpe, Boskey and Lyons, World Center Building, 918 16th Street, NW., Washington, DC 20006, attorney for the applicant, and must comply with the requirements for requesting a hearing set forth in NRC regulation, 10 CFR Part 2, Subpart G, "Rules of General Applicability," Section 2.714.

The petition shall set forth with particularity the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, including the reasons why petitioner should be permitted to intervene, with particular reference to (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) The nature and extent of the petitioner's property, financial, or other interest in the proceeding; (3) The possible effect of any order that may be entered in the proceeding on the petitioner's interest, and the specific aspect or aspects of the subject matter of the proceeding as to which petitioner wishes to intervene.

If Allied-General Nuclear Services, Inc., or any other person whose interest may be affected requests a hearing, the Commission will issue an order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such a hearing is whether this denial action should be sustained.

For further details with respect to this action, see (1) the licensee's applications for amendment to extend the latest completion date, dated November 11, 1976, November 9, 1978, November 23, 1981, August 16, 1982, August 24, 1983, August 15, 1984, August 20, 1987, and July 11, 1990, and (2) the Commission's letter to the licensee, dated September 16, 1982.

These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Document Control Desk.

V.

In the absence of any request for a hearing, the action to deny shall be final sixty days from the date of this notice without further proceedings.

Dated at Rockville, Maryland, this 16th day of September 1992.

For the Nuclear Regulatory Commission.

Robert M. Bernero,

Director, Office of Nuclear Material Safety and Safeguards.

[FR Doc. 92–23032 Filed 9–22–92; 8:45 am]

BILLING CODE 7590–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–31182; File No. SR–Amex–92–34]

Self-Regulatory Organizations; Filing and Order Granting Accelerated Partial Approval of Proposed Rule Change by the American Stock Exchange, Inc. Relating to Procedures for Handling and Executing Market-On-Close Orders

September 15, 1992.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on September 10, 1992, the American Stock Exchange, Inc. ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Exchange has requested accelerated approval of the proposed rule change pursuant to section 19(b)(2) of the Act. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons. At the same time, the Commission is granting accelerated partial approval to the proposal.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Amex proposes to (1) extend, until December 15, 1992, the pilot program amending Rule 109 [1] to provide that the procedures currently used to execute market-on-close ("MOC") orders in certain stocks on expiration Fridays [2] be made applicable to all MOC orders in all Amex-listed stocks on every trading day; and (2) obtain permanent approval for the pilot program prior to its expiration on December 15, 1992.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The self-regulatory organization has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) Purpose

In June, 1991, the Commission approved, for a one-year pilot period,[3] an Exchange proposal which provides that the procedures used to execute all MOC orders on every trading day be the same as those procedures currently used to execute MOC orders on expiration Fridays in stocks that are components of a stock index on which an option and/or stock contract is traded (*e.g.*, the Standard and Poor's 500 Composite Stock Price Index). The procedures, in place since June 1991, provide that all buy and sell MOC orders be paired-off against each other, and if there is an imbalance, that the imbalance be executed against the closing bid if it is on the sell side and against the closing offer if it is on the buy side. The paired-off orders are executed at the same price as the imbalance. If there is no imbalance, the paired-off orders are executed at the price of the last sale on the Exchange prior to the close of trading in that stock. Thus, this procedure assures that all MOC orders in a particular stock will be executed at the same price. In addition, those orders that are paired-off in implementing the procedure are reported as "stopped

[1] This pilot program was approved by the Commission for a one-year period beginning on June 14, 1991 and expiring on June 14, 1992. See Securities Exchange Act Release No. 29312 (June 14, 1991), 56 FR 28583 (June 21, 1991). The Commission approved a three-month extension to the pilot program, expiring September 15, 1992, on June 15, 1992. See Securities Exchange Act Release No. 30812 (June 15, 1992), 57 FR 27991 (June 23, 1992).

[2] Expiration Friday is the one trading day each month when stock index futures, stock index options and options on stock index futures expire or settle concurrently.

[3] See note 1, *supra*.

stock", so that customers with unexecuted limit orders on the specialist's book will know that the MOC transaction was executed outside the regular auction market, and that for this reason their orders may have not participated.

In June, 1992, the Exchange filed a report with the Commission detailing its experience with these procedures for the execution of MOC orders during the one year pilot program.[4] As the report indicates, on the days studied [5] the MOC procedures did not, in the Amex's view, result in an increase in volatility and only on three occasions was there an increase in order flow during the final hour of trading on the Exchange. An analysis of the trading in those stocks which experienced an increase in order flow did not, Amex believes, reveal an effort to manipulate the closing price.

On June 15, 1992, the Commission approved a three-month extension of the pilot program which expires September 15, 1992. The Exchange now seeks to (1) extend the pilot program for an additional three months in order for the Commission to study further data to be provided by the Exchange on its experience with these market-on-close procedures; and (20) obtain permanent approval for the pilot program prior to its expiration on December 15, 1992.

(2) Basis

The proposed rule change is consistent with Section 6(b) of the Act in general and furthers the objectives of Section 6(b)(5) in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change will not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 553, will be available for inspection and copying at the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to File No. SR-Amex-92-34 and should be submitted by October 14, 1992.

IV. Discussion and Order Granting Accelerated Partial Approval of the Proposed Rule Change

After careful consideration, the Commission has concluded, for the reasons set forth below, that the portion of the proposed rule change to extend the pilot for an additional three months is consistent with Section 6 of the Act [6] and the rules and regulations thereunder applicable to a national securities exchange. In particular, the Commission believes that the proposal is consistent with the section 6(b)(5) requirement that the rules of an exchange be designed to promote just and equitable principles of trade, to facilitate transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

In the order extending the pilot program until September 15, 1992, the Commission stated that the Amex should continue to monitor the closing MOC procedures and report to the Commission any increased volatility or order flow during the last hour of trading. The Commission now extends the pilot program until December 15, 1992, so that the Commission will have the opportunity to obtain and review additional data from the Amex concerning its experiences with the pilot program.

Specifically, before requesting a further extension, the Amex must submit by October 30, 1992, a pilot program report that addresses: (1) Whether there have been any complaints regarding the operation of the pilot; (2) whether the Amex has taken any disciplinary or performance action against any member due to the operations of the pilot; (3) the extent to which the pilot has been used on the Amex; and (4) the impact of the pilot on volatility and order flow. The data the Amex supplies should specifically analyze the effects of the pilot. Accordingly, the report should examine the use of the MOC procedures in Amex stocks other than on expiration Fridays, in addition to analyzing the use of MOC procedures on expiration Fridays in stocks that are not components of an Index.

The Commission believes that a three-month extension of the proposal, until December 15, 1992, is appropriate in order to provide the Commission with additional time to obtain and review data from the Exchange regarding its experience with the pilot MOC procedures. After reviewing such data, the Commission should be able to make a decision with regard to the Amex's proposal requesting permanent approval of the MOC procedures. The Commission also believes that during the next three months of the pilot, the Amex should continue to monitor the closing MOC procedures and report to the Commission any increased volatility or order flow during the last hour of trading.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after publication of the proposed rule change in the **Federal Register**. Accelerated approval enables the Exchange to continue, on an uninterrupted basis, the procedures currently used for handling and executing MOC orders.[7] The

[4] See letter from Claire P. McGrath, Special Counsel, Legal & Regulatory Policty, Amex, to Mary Revell, Branch Chief, Division of Market Regulation, SEC, dated June 10, 1992.

[5] The Amex's report concentrates on MOC orders entered on expiration Fridays from June 1991 through March 1992.

[6] 15 U.S.C. 78f (1988).

[7] The Commission notes that it also recently granted permanent partial approval to a substantially similar proposal submitted by the New York Stock Exchange, Inc. ("NYSE") [see Securities Exchange Act Release No. 30004 (November 27, 1991), 56 FR 63533 (order granting partial approval to File No. SR—NYSE–91–35)]. The portion of the NYSE's proposal which was permanently approved by the Commission makes the NYSE's procedures used for the execution of MOC order on expiration Fridays applicable to every trading day.

additional three-month continuation of the pilot program should allow the Commission sufficient time to obtain and review the Exchange's report and determine whether approval of the procedures on a permanent basis is consistent with the Act. Furthermore, the Commission solicited comments on the Amex's original MOC proposal and on the most recent three-month extension, and no comments were received.

V. Conclusion

For the reasons set forth above, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act.

It is therefore ordered, pursuant to section 19(b)(2) of the Act [8] that the proposed rule change be, and hereby is, approved for a pilot period ending on December 15, 1992.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[9]

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92-23018 Filed 9-22-92; 8:45 am]

BILLING CODE 8010-01-M

[Rel. No. IC-18961; 812-7903]

G.T. Global Growth Series, et al.; Notice of Application

September 17, 1992.

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of Application of Exemption under the Investment Company Act of 1940 (the "Act").

APPLICANTS: G.T. Global Growth Series, G.T. Investment Funds, Inc., G.T. Investment Portfolios, Inc., each portfolio thereof, and any future portfolios thereof that will issue multiple classes of shares which are identical in all material respects to the classes described herein, and any other open-end management investment companies established or acquired in the future that are in the same "group of investment companies" as that term is defined in rule 11a-3 under the Act and which issue multiple classes of shares that are identical in all material respects to the classes described in this application (all such portfolios and companies are collectively referred to as the "Funds"), G.T. Capital Management, Inc. ("G.T. Capital") and G.T. Global Financial Services, Inc. ("G.T. Global").

RELEVANT ACT SECTIONS: Exemption requested pursuant to section 6(c) from sections 2(a)(32), 2(a)(35), 18(f), 18(g), 18(i), 22(c), 22(d) and from rule 22c-1.

SUMMARY OF APPLICATION: Applicants seek an order to permit the Funds (i) to issue and sell two classes of securities representing interests in the same investment portfolio (the "Dual Distribution System") and (ii) to assess, and under certain circumstances waive, a contingent deferred sales charge ("CDSC") on certain redemptions of their shares.

FILING DATE: The application was filed on April 14, 1992 and amended on July 23, 1992 and August 25, 1992. Applicants' counsel has stated that an amendment, the substance of which is incorporated herein, will be filed during the notice period.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m., on October 13, 1992 and should be accompanied by proof of service on applicants in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street NW., Washington, DC 20549. Applicants, 50 California Street, San Francisco, California 94111.

FOR FURTHER INFORMATION CONTACT: James M. Curtis, Staff Attorney, at (202) 504-2406, or Barry D. Miller, Senior Special Counsel, at (202) 272-3018 (Office of Investment Company Regulation, Division of Investment Management).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representations

1. The Funds are organized as series of three registered open end management investment companies: G.T. Global Growth Series, G.T. Investment Funds, Inc., and G.T. Investment Portfolios, Inc. G.T. Global Growth Series is a Massachusetts business trust. G.T. Investment Funds, Inc. and G.T. Investment Portfolios, Inc. are Maryland corporations. G.T. Global serves as the distributor of the shares of each Fund. Shares of the common stock or beneficial interest of the Funds, as applicable, are available through brokers which have entered into agreements to sell shares with G.T. Global. Shares may also be acquired directly through the Funds' transfer agent, G.T. Global Investor Services, Inc. G.T. Capital is the investment manager and administrator for each of the Funds.

2. Applicants propose the establishment of the Dual Distribution System which will allow each Fund to offer investors the option of purchasing shares either subject to a front-end sales charge and a distribution plan adopted in accordance with rule 12b-1 under the Act ("Rule 12b-1 Plan") (the "Class A Shares"), or subject to a CDSC and a Rule 12b-1 Plan (the "Class B Shares"). The Class A Shares would be offered to the public in accordance with the Funds' existing sales charge structure.[1] The Class B Shares will be subject to a CDSC ranging from 6% to 0% of the aggregate purchase payments made by an investor for Class B Shares depending on the length of time such shares are held. No CDSC will be imposed on the appreciation of the value of an investor's shares or on amounts distributed and reinvested. The Class A Shares of each Fund will pay a distribution fee to G.T. Global under the Rule 12b-1 Plan applicable to that class (the "Class A Plan") at a rate of up to .50% per annum of the daily net assets of the Class A Shares. Class B Shares will pay a distribution fee to G.T. Global under the Rule 12b-1 Plan applicable to that class (the "Class B Plan") at a rate of up to 1.00% per annum of the average daily net assets of the Class B Shares. Each Fund will accrue and pay the distribution fee at a rate fixed by the Funds' Boards of Directors [2] (but no in excess of the applicable maximum percentage rate). In addition, Class B Shares may be subject to higher transfer agency charges per account and any other incremental expenses subsequently identified that should be properly allocated to that class which shall be approved by the Commission pursuant to an amended order.[3]

---

[8] 15 U.S.C. 78s(b)(2) (1988).

[9] 17 CFR 200.30-3(a)(12) (1991).

[1] In addition, it is proposed that certain Class A Shares that are sold at net asset value may be subject to a CDSC as described herein if they are redeemed within one year of purchase.

[2] The term "Directors" is used herein to refer both to the members of the boards of directors of the Funds that are organized as corporations, and to the members of the boards of trustees of the Funds that are organized as business trusts.

[3] The Funds will request a private letter ruling that the assessment of the additional distribution

Continued

3. The two classes of shares would represent interests in the same portfolio of securities and would have identical voting, dividend, liquidation and other rights and the same terms and conditions, except as specified in condition 1, below. The net asset value of shares of each class of the Funds that are money market funds will be calculated in accordance with the amortized cost method that seeks to maintain a constant $1.00 per share net asset value. The gross income of the outstanding shares of a Fund that is a money market fund will be computed on a *pro rata* basis for each outstanding share regardless of class, and all expenses incurred by such Fund will be borne on a *pro rata* basis by such outstanding shares, except for the expenses specifically payable by each class. The gross income and all expenses, except for the specifically allocated expenses, of each of the other Funds will be allocated between the classes on the basis of their relative net assets. Because of the additional expenses paid by holders of Class B Shares, the net income attributable to the Class B Shares will be lower than the net income attributable to the Class A Shares.

4. Some portion of those fees payable under the Class A Plan and the Class B Plan would be used to pay ongoing commissions to account executives and sales personnel whose clients hold Class A or Class B Shares to compensate those account executives and sales personnel for the ongoing services they provide to their clients.

Account executives or sales personnel selling shares of a Fund may be compensated differently for selling Class A or Class B Shares. Because the amount of compensation an account executive or sales person receives will vary from case to case depending on breakpoints, the length of time that client accounts are maintained, and other factors, applicants believe that it is not possible to generalize as to which class will provide the account executive or sales person with the highest level of compensation.

5. The Funds' prospectuses will describe the services rendered and compensation paid under the Rule 12b–1 Plans and the fees payable by each Fund thereunder. Each prospectus will disclose all material information concerning the Class A Shares and Class B Shares in a manner that would enable an investor to make an informed and comparative analysis of the two classes of shares, and facilitate the making of an investment decision that would be the most advantageous to a given investor.

6. Currently, G.T. Global furnishes the Directors of the Funds with quarterly and annual statements of distribution revenues and expenditures ("Statements") (in accordance with the requirements of paragraph (b)(3)(ii) of rule 12b–1) to enable the Directors to make the findings required by paragraphs (d) and (e) of rule 12b–1. After implementation of the Dual Distribution System, the Directors will receive Statements which set forth distribution revenues and expenditures with respect to each class. In the Statements, only expenditures properly attributable to the sale of Class A or Class B Shares, as applicable, will be used to support the distribution fee charged to shareholders of such class of shares. Expenditures not related to the sale of a particular class will not be presented to the Directors to support the distribution fee charged to shareholders of such class of shares. Distribution expenses attributable to the sale of both classes of shares will be allocated annually to each class of shares based upon the ratio in which the sales of each class of shares bears to the sales of all the shares of each Fund. For this purpose, shares issued upon reinvestment of dividends or distributions will not be considered sales.

7. Class A Shares of a Fund will be exchangeable only for Class A Shares of the other Funds, and Class B Shares will be exchangeable only for Class B Shares of the other Funds. The applicable exchange privileges will comply with rule 11a–3 under the Act.

8. It is expected that the percentage amounts in the CDSC schedule of the Funds will vary depending in part on the front-end sales charge applicable to the Class A Shares of a particular Fund and the compensation paid to sales personnel and account executives for selling shares of the Fund. The CDSC will not be imposed on redemptions of Class B Shares which were purchased more than six years prior to the redemptions (the "CDSC Period") or on those Class B shares derived from reinvestment of dividends/distributions. Likewise, no CDSC will be imposed on an amount which represents an increase in the value of the shareholder's account resulting from capital appreciation above the amount paid for Class B Shares purchased in the CDSC Period. The proposed CDSC will not be imposed on any shares issued by the Funds prior to the date of any order granting the exemptive relief requested hereby.

9. Applicants also request the ability to impose a CDSC on the proceeds of certain redemptions of Class A Shares initially sold without a sales charge. Such Class A Shares would be limited to those sold at net asset value pursuant to the sales charge waiver for large purchases. Currently, this waiver applies to sales where the amount of the purchase exceeds $1,000,000, although this amount may be changed in the future. The CDSC payable on such Class A Shares will be paid to G.T. Global to defray the cost of paying sales commissions to sales personnel and account executives on the sale of such Class A Shares. The CDSC would be imposed only on such Class A Shares issued on or after the date the order requested hereby is granted and only in the event of a redemption transaction within twelve months following the share purchase. The CDSC applicable to those Class A Shares would be calculated in the same manner as the CDSC with respect to the Class B Shares described herein. However, the amount of the CDSC will be limited to 1% of the investor's aggregate purchase payments. In addition, each of the CDSC waivers or reductions described below may be applied to redemptions of Class A Shares that would otherwise be subject to the CDSC.

10. The amount of the CDSC will be calculated as the lesser of the amount that represents a specified percentage of the net asset value of the Class B Shares at the time of purchase and the amount that represents such percentage of the net asset value of the Class B Shares at the time of redemption. As a result, no CDSC will be imposed on an amount which represents an increase in the value of the shareholder's account resulting from capital appreciation above the amount paid for Class B Shares purchased in the CDSC Period. In determining the applicability and rate of any CDSC, it will be assumed that a redemption is made first of Class B Shares representing reinvestment of the dividends and capital gain distributions, second of Class B Shares held by the shareholder for a period equal to or greater than the CDSC Period, and finally of other Class B Shares held by the shareholder for the longest period of time. This will result a charge, if any, imposed at the lowest possible rate.

11. The Funds are requesting the ability to waive or reduce the CDSC (a) on redemptions following death or disability, as defined in section 72(m)(7)

---

fee and transfer agency costs and any other special allocations described above with respect to Class B Shares does not result in any dividends or distributions constituting "preferential dividends" under the Internal Revenue Code of 1986, as amended.

of the Internal Revenue Code of 1986, as amended, of a shareholder if redemption is made within one year after death or disability of a shareholder, as relevant; (b) in connection with certain distributions from an IRA, or other qualified retirement plan; (c) in connection with redemptions of Class B Shares purchased by current or retired officers, directors or trustees, and current or retired employees of the Funds, G.T. Capital, or G.T. Global, or affiliated companies, and by the members of the immediate families of such persons; (d) in connection with redemptions made by registered representatives or full time employees of brokers and dealers which have entered into dealer agreements with G.T. Global, and their children, siblings and parents; (e) in connection with redemptions of Class B Shares made pursuant to a shareholder's participation in any systematic withdrawal plan adopted by a Fund; (f) in connection with redemptions by certain large accountholders of a Fund's shares; [4] (g) in connection with redemptions the proceeds of which are reinvested in Class B Shares of any of the Funds within 365 days, or a shorter period, after such redemption; (h) in connection with redemptions effected by advisory accounts managed by G.T. Capital or any affiliated company or by any such affiliated company itself; (i) in connection with certain redemptions by tax exempt employee benefit plans; (j) on redemptions effected pursuant to each Fund's right to liquidate a shareholder's account if the aggregate net asset value of shares held in the account is less than the effective minimum account size; and (k) in connection with certain redemptions by banks, trust companies, registered investment advisers, and other financial institutions with trust powers which use trust funds to purchase shares of a Fund. If the Funds waive or reduce the CDSC, such waiver or reduction will be uniformly applied to all offerees of the Funds' Class B Shares. Also, in waiving or reducing a CDSC, the Funds will comply with the requirements of rule 22d–1 under the Act. The CDSC will be waived or reduced by a Fund as provided in such Funds's prospectus at the time the investor purchased the shares.

[4] Specifically, if immediately prior to a redemption the value of a shareholder's account, either in the Fund being redeemed on an individual basis or in such Fund and all other Funds on an aggregate basis, equals $1 million or more but does not exceed $2 million, that shareholder would be entitled to make a redemption at either a lower CDSC than would otherwise be applicable or no CDSC, as discussed in the relevant Fund's prospectus. Likewise, if the value of a shareholder's account in the Fund being redeemed exceeds $2 million, the shareholder would be entitled to make a redemption at either a further reduced CDSC or no CDSC, as disclosed in the relevant Fund's prospectus.

Legal Analysis

1. The proposed Dual Distribution System does not create the potential abuses relating to complex capital structures and mutuality of risk which section 18 was designed to correct. Since all shares of money market funds would participate *pro rata*, and the shares of each other Fund would participate based on the relative net assets of each class, in each Fund's income and each Fund's expenses, except for the specially allocated expenses, the proposed arrangement would not increase the speculative character of the shares of the Funds or disturb the mutuality of risk among all shareholders.

2. Both classes of shares would be redeemable at all times and neither class of shares would have any preference or priority over the other class in the usual sense, *i.e.*, no class would have distribution or liquidation preferences with respect to particular assets and no class would be protected by any reserve or other account.

3. Applicants believe that the interest of the two classes of shares as to the investment management and administration fee of each Fund are the same and not in conflict. The fee is used solely to compensate G.T. Capital for providing investment management and administrative services that are common to all investors, regardless of the class of shares held.

4. Rather than maintaining each Fund's existing shares in one fund and organizing separate funds or portfolios of each Fund utilizing the CDSC arrangement, G.T. Capital and G.T. Global believe that shareholders would benefit if both distribution options were available in a single fund. To the extent that the Funds are able to maintain and expand their respective shareholder base through the Dual Distribution System, their shareholders will benefit to the extent such Funds' *pro rata* operating expenses per share be lowered. Moreover, if the exemptive order requested herein is not granted, the Funds' shareholders will be disadvantaged by not having the same options which are currently available to shareholders of other mutual fund complexes which have obtained comparable exemptive relief. The Dual Distribution System has been developed to provide investors with the option within the same Fund of choosing to purchase shares with either the front-end sales load or the CDSC, as is currently featured in other mutual fund complexes.

Applicants' Conditions

Applicants agree that the order of the Commission granting the requested relief shall be subject to the following conditions:

1. Class A and Class B Shares will represent interests in the same portfolio of investments of each Fund, and be identical in all respects, except as set forth below. The only differences between Class A and Class B Shares of the same Fund will relate solely to: (a) the impact of the respective rule 12b–1 fees imposed on the respective Class A and Class B Shares of a Fund, the higher transfer agency costs paid by the Class B Shares of a Fund and any other incremental expenses subsequently identified that should be properly allocated to one class which shall be approved by the Commission pursuant to an amended order, (b) voting rights on matters which pertain to the Rule 12b–1 Plan applicable to each class of a Fund's shares, (c) the different exchange privileges of the Class A and Class B Shares as described in the prospectus (and as more fully described in the statement of additional information) of each Fund, and (d) the designation of each class of shares of each Fund.

2. The Directors of the Funds, including a majority of the independent Directors, will approve the Dual Distribution System. The minutes of the meetings of the Directors regarding the deliberations of the Directors with respect to the approvals necessary to implement the Dual Distribution System will reflect in detail the reasons for determining that the proposed Dual Distribution System is in the best interests of both the Funds and their shareholders.

3. On an ongoing basis, the Directors, pursuant to their fiduciary responsibilities under the Act and otherwise, will monitor each Fund for the existence of any material conflicts between the interests of the two classes of shares. The Directors, including a majority of the independent Directors, shall take such action as is reasonably necessary to eliminate any such conflicts that may develop. G.T. Capital and G.T. Global will be responsible for reporting any potential or existing conflicts to the Directors. If a conflict arises, G.T. Capital and G.T. Global at their own cost will remedy such conflict up to and including establishing a new registered management investment company.

4. Any Rule 12b–1 Plan adopted or amended to permit the assessment of a rule 12b–1 fee on any class of shares which has not had its Rule 12b–1 Plan approved by the public shareholders of that class will be submitted to the public shareholders of such class for approval at the next meeting of shareholders after the initial issuance of the class of shares. If still required by the Commission, such meeting will be held within sixteen months of the date that the registration statement relating to such class first becomes effective or, if applicable, the date that the amendment to the registration statement necessary to offer such class first becomes effective.

5. The Directors of the Funds will receive periodic (not less than quarterly) and annual statements concerning distribution expenditures complying with paragraph (b)(3)(ii) of rule 12b–1, as amended from time to time. In the Statements, only expenditures properly attributable to the sale of Class A or Class B Shares, respectively, or to the provision of services to holders of such shares, will not be presented to the Directors to justify any fee attributable to such class. The Statements, including the allocations upon which they are based, will be subject to the review and approval or of the Independent Directors in the exercise of their fiduciary duties.

6. Dividends/distributions paid by each Fund with respect to its Class A or Class B Shares, to the extent any dividends/distributions are paid, will be calculated in the same manner at the same time on the same day and will be in the same amount, except that distribution and/or service fee payments made by a Fund under its Class A or Class B Plan, and any incremental transfer agency costs relating to Class A or Class B Shares, will be borne exclusively by the respective class.

7. The methodology and procedures for calculating the net asset value and dividends/distributions of the Class A or Class B Shares, and the proper allocation of expenses between those classes, has been reviewed by an expert (the "Expert") who has tendered a report to applicants, which has been provided to the staff of the Commission, which states that the methodology and procedures are adequate to ensure that such calculations and allocations will be made in an appropriate manner. On an ongoing basis, the Expert, or an appropriate substitute Expert, will monitor the manner in which the calculations and allocations are being made under the Dual Distribution System and, based upon such review, will render at least annually a report to the Funds that the calculations and allocations are being made properly. The reports of the Expert shall be filed as part of the periodic reports filed with the Commission pursuant to Sections 30(a) and 30(b)(1) of the Act. The work papers of the Expert with respect to such reports, following request by a Fund (which the Fund agrees to provide), will be available for inspection by the Commission staff upon the written request to the Fund for such work papers by a senior member of the Division of the Investment Management, limited to the Director, an Associate Director, the Chief Accountant, the Chief Financial Analyst, an Assistant Director and any Regional Administrators or Associate and Assistant Administrators. The initial report of the Expert is a "Special Purpose" report on the "Design of a System" and the ongoing reports will be "Special Purpose" reports on the "Design of a System and Certain Compliance Tests," as defined and described in the Statement of Auditing Standards No. 44 of the American Institute of Certified Public Accountants ("AICPA"), as it may be amended from time to time, or in similar auditing standards as may be adopted by the AICPA from time to time.

8. Applicants have adequate facilities in place to ensure implementation of the methodology and procedures for calculating the net asset value and dividends and distributions of the classes of shares and the proper allocation of expenses between the classes of shares. This representation has been concurred with by the Expert in the initial report referred to in condition (7) above and will be concurred with by the Expert, or an appropriate substitute Expert, on an ongoing basis at least annually in the ongoing reports referred to in condition (7) above. Applicants will take immediate corrective measures if this representation is not concurred with by the Expert or appropriate substitute Expert.

9. The prospectus of each Fund will include a statement that a salesperson and any other person entitled to receive compensation for selling shares of the Fund may receive different compensation for selling Class A or Class B Shares.

10. G.T. Global will adopt compliance standards regarding when Class A and Class B Shares may be appropriately sold to particular investors. Applicants will require all persons selling Class A or Class B Shares to agree to conform to such standards.

11. The conditions pursuant to which the exemptive relief is granted and the duties and responsibilities of the Funds with respect to the Dual Distribution System will be set forth in guidelines that will be furnished to the Directors.

12. Each Fund will disclose in its prospectus the respective expenses, performance data, distribution arrangements, services, fees, sales loads, contingent deferred sales loads, and exchange privileges applicable to each class of shares offered through the prospectus. Class A and Class B Shares will be offered and sold through a single prospectus. The shareholder reports of each Fund will disclose the respective expenses and will disclose performance data applicable to each class of shares. The shareholder reports will contain, in the statement of assets and liabilities and statement of operations, information related to the Fund as a whole generally and not on a per class basis. Each Fund's per share data, however, will be prepared on a per class basis with respect to all classes of shares of such Fund. The footnotes to the shareholder reports will explain the reasons for the differences between the classes of shares. To the extent any advertisement or sales literature describes the expenses or performance data applicable to Class A or Class B Shares, it will disclose the expenses and/or performance data applicable to both classes. The information provided by applicants for publication in any newspaper or similar listing of a Fund's net asset value and public offering prices will separately present Class A and Class B Shares.

13. Applicants acknowledge that the grant of the exemptive relief requested by this Amendment to the application will not imply Commission approval, authorization or acquiescence in any particular level of payments that the Funds may make pursuant to their Rule 12b–1 Plans in reliance on the exemptive order.

14. A money market fund will have more than one class of shares outstanding only when and for so long as it declares its dividends on a daily basis, accrues its payments for the Rule 12b–1 Plans and transfer agency expenses daily, and has received undertakings from the persons that are entitled to receive payments under the Rule 12b–1 Plans and for distribution fees, transfer agency expenses, and other incremental expenses subsequently identified and allocated to one class or another if such allocation is approved by the Commission pursuant to an amended order, waiving such portion of any such payments to the

extent necessary to assure that payments (if any) required to be accrued by any class of shares on any day do not exceed the income to be accrued to such class on that day. In this manner, the net asset value per share for all shares in such Fund will remain the same.

15. Applicants will comply with the provisions of proposed rule 6c-10 under the Act, Investment Company Act Release No. 16619 (Nov. 2, 1988), as such rule is currently proposed and as it may be re-proposed, adopted, or amended.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92-23079 Filed 9-22-92; 8:45 am]

BILLING CODE 8010-01-M

[Rel. No. IC-18859; 812-7545]

SPDR Trust, Series 1, et al.; Notice of Application

September 17, 1992.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Order under the Investment Company Act of 1940 ("Act").

APPLICANTS: SPDR Trust, Series 1 ("Trust") and PDR Services Corporation ("Sponsor").

RELEVANT ACT SECTIONS: Order requested pursuant to sections 6(c) and 17(b) granting exemptions from sections 4(2), 14(a), 17(a), 22(d), 22(e), 24(d), 26(a)(2)(C) and rule 22c-1, and pursuant to section 17(d) and rule 17d-1 to permit applicants to engage in certain affiliated transactions.

SUMMARY OF APPLICATION: Applicants seek an order (1) permitting a unit investment trust to issue non-redeemable securities ("SPDRs"); (2) permitting secondary market transactions to SPDRs at negotiated prices, rather than at a current public offering price described in the prospectus; (3) permitting dealers to sell SPDRs to purchasers in the secondary market unaccompanied by a prospectus, when prospectus delivery is not required by the Securities Act of 1933; (4) permitting certain expenses associated with the creation and maintenance of the Trust to be borne by the Trust, rather than the Sponsor; (5) exempting the Sponsor from the Act's requirement that it purchase, or place with others, $100,000 worth of SPDRs; (6) permitting affiliated persons of the Trust to deposit securities into, and receive securities from, the Trust in connection with the purchase and redemption of SPDRs; (7) permitting the Trust to reimburse the Sponsor for payment of an annual licensing fee to Standard & Poor's; and (8) permitting the Trust to satisfy redemption requests within five business days rather than seven calendar days.

FILING DATE: The application was filed on June 25, 1990; amended and restated applications were filed on February 8, 1991, February 28, 1992, June 5, 1992 and August 7, 1992.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 19, 1992, and should be accompanied by proof of service on the applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writers interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street NW., Washington, DC 20549. Applicants, c/o American Stock Exchange, Inc., 86 Trinity Place, New York, New York 10006.

FOR FURTHER INFORMATION CONTACT: Barry A. Mendelson, Staff Attorney, at (202) 504-2284, or Barry D. Miller, Senior Special Counsel, at (202) 272-3018 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representations

1. The Trust is a unit investment trust that will be organized under the laws of the State of New York. The Trust is designed to provide investors with a low-cost instrument that closely tracks the Standard & Poor's 500 Composite Stock Price Index ("S&P 500 Index"), that trades like a share of common stock, and that pays quarterly dividends proportionate to those paid by the portfolio of stocks that constitutes the S&P Index. The Sponsor is a wholly-owned subsidiary of the American Stock Exchange ("AMEX"). State Street Bank and Trust Company ("Trustee") will act as trustee of the Trust. PDR Distributors, Inc. ("Distributor"), a registered broker-dealer and wholly-owned subsidiary of Signature Financial Group, Inc., will serve as the distributor of the Trust's securities, known as SPDRs (for Standard & Poor's Depositary Receipts).

2. SPDRs were developed in response to the suspension of trading in "index participations" ("IPs"), which were contracts of indefinite duration based on the value of a basket of securities. IPs could be based on any basket of securities, including the S&P 500 index. The SEC approved IPs for trading on the AMEX, Philadelphia Stock Exchange, and Chicago Board Options Exchange. Trading in IPs was suspended in response to the decision of the Seventh Circuit in *Chicago Mercantile Exchange* v. *SEC*, 883 F.2d 537 (7th Cir. 1989), *cert. denied*, 110 S. Ct. 3214 (1990), in which the court held that IPs were within the exclusive jurisdiction of the Commodity Futures Trading Commission. Applicants characterize the response to IPs during the four months in which IPs were traded on the AMEX as quite favorable, given that trading was inhibited by the specter of litigation. Applicants believe that SPDRs, like IPs, will have broad retail appeal and will make available to small investors an exchange-traded index-based investment. Unlike IPs, however, SPDRs represent an interest in an actual portfolio of securities, and therefore, in applicants' opinion, do not present the elements of futurity that the Seventh Circuit attributed to IPs.

3. SPDRs will be issued in aggregations of 50,000 known as "Creation Units." Each SPDR will be worth one-tenth the value of the S&P 500 Index, or approximately $40 at the current level of the index. Each Creation Unit, therefore, will cost about $2 million.

4. All orders to purchase Creation Units from the Trust must be placed with the Distributor, who shall be responsible for transmitting such orders to the Trustee. The Distributor will furnish to purchasers confirmation that the orders have been accepted, but shall reject any order that is not in proper form. Upon acceptance of an order, the Distributor will instruct the Trustee to initiate the appropriate procedures, as set forth below. The Distributor will maintain records of the orders placed with it, the confirmations and rejections it issues to those placing orders, and the instructions it issues to the Trustee. It also will maintain a record of the instruction files transmitted by the Trustee to the NSCC, as described below. The Distributor will be responsible for distributing prospectuses and may provide certain other administrative services, such as those

related to state securities compliance. The Sponsor will pay the Distributor a flat annual fee. The Sponsor will not seek reimbursement from the Trust for the payment of such fee without obtaining relief from the SEC.

5. Investors wishing to purchase a Creation Unit must transfer to the Trust a "Portfolio Deposit," which consists of: (a) a portfolio of securities that is substantially similar, in composition and weighting, to the component securities ("Index Securities") of the S&P 500 Index; (b) a cash payment equal to a *pro rata* portion of the dividends accrued on the Trust's portfolio securities since the last dividend payment by the Trust, net of expenses and liabilities, and (c) a cash payment or credit ("Balancing Amount") designed to equalize the net asset value of the S&P 500 Index and the net asset value of a Portfolio Deposit. The Balancing Amount is required because, among other things, a Portfolio Deposit, unlike the S&P 500 Index, can not contain fractional shares. An investor making a Portfolio Deposit also will be charged a nominal service fee ("Transaction Fee") to defray securities settlement costs, as discussed below.

6. The Sponsor will recalculate daily the securities component and the cash component of a Portfolio Deposit. The Sponsor will make available to investors a list of the names and the required number of shares of each Index Security, and the amount of cash, comprising a Portfolio Deposit on any given day. The cash equivalent value of an Index Security may be included in the cash component of a Portfolio Deposit in lieu of the security if: (a) The Trustee were to determine that the Index Security is likely to be unavailable or available in insufficient quantity for inclusion in a Portfolio Deposit (for example, where the security is subject to a trading halt or stop order, or is the subject of a tender offer), or (b) a particular investor is restricted from investing or engaging in transactions in such Index Security (for example, where the investor is a broker-dealer restricted by regulation or internal policy from investing in securities issued by a company on whose board one of its directors serves, or a company whose securities the broker-dealer is underwriting). In the latter situation, the Trustee generally will use the cash equivalent payment to purchase the appropriate number of shares of the Index Security that the investor was unable to purchase.

7. SPDRs will not be individually redeemable, except upon termination of the Trust. To redeem, an investor must accumulate enough SPDRs to reconstitute a Creation Unit. An investor redeeming a creation Unit will receive Index Securities and cash identical to the Portfolio Deposit required of an investor wishing to purchase a Creation Unit on that day.

8. Because a redeeming shareholder will receive a Portfolio Deposit in exchange for its Unit, and only a minute portion of a Portfolio Deposit consists of cash, the Trustee will not be forced to maintain large cash reserves for redemptions. This should allow the Trust's resources to be committed as fully as possible to tracking the S&P 500 Index, enabling the Trust to track the Index more closely than other basket products that must allocate a much greater portion of their assets for cash redemptions.

9. Persons obtaining SPDRs from the Trust in Creation Unit size aggregations may hold those SPDRs or sell some or all of them into the secondary market. SPDRs will be listed on the AMEX and traded in the secondary market in the same manner as other equity securities. The price of SPDRs on the AMEX will be based on a current bid/offer market. Transactions involving the sale of SPDRs will be subject to customary brokerage commissions and charges.

10. Applicants expect that the price at which SPDRs trade will be disciplined by arbitrage opportunities created by the ability to purchase or redeem Creation Unit-size aggregations at net asset value, which should ensure that SPDRs will not trade at a material discount or premium in relation to net asset value.

11. Applicants expect that purchasers of Creation Units will include institutional investors who wish to keep a portion of their portfolios tracking the S&P 500 Index and who find SPDRs a cost-efficient means to do so, with the added benefit of exchange-traded liquidity should they wish to sell some or all of their holdings. In addition, arbitrageurs (which could include institutional investors) may purchase Creation Units to take advantage of potential arbitrage opportunities if SPDRs are selling on the AMEX at a premium to net asset value. Finally, the AMEX specialist, exercising its responsibility to provide a fair and orderly secondary market for SPDRs, may from time to time find it appropriate to purchase SPDRs in Creation Unit-size aggregations from the Trust for use in its market-making activities on the AMEX floor. Applicants expect that secondary market purchasers of SPDRs will include both institutional investors and retail investors.

12. To be eligible to purchase a Creation Unit, an organization must be a participant in the continuous net settlement system of the National Securities Clearing Corporation ("NSCC") or a Depository Trust Company ("DTC") participant, but is not required to be an AMEX member. The procedures employed to process a purchase order will depend upon whether the transaction is settled through NSCC or DTC, as described in the next two paragraphs. Procedures for redeeming a Creation Unit are analogous to those for purchasing one, although redemption requests are placed with the Trustee, rather than the Distributor.

13. An organization that is a participant in the continuous net settlement system of NSCC and that desires to use the NSCC "package" that automates movement of the five hundred Index Securities will place its purchase order by telephone with the Distributor, who will transmit the order to the Trustee. Once the Trustee has accepted the order, the Distributor will transmit a confirmation of acceptance to the organization that placed the order. Each night at approximately 7:30 p.m. New York time, the Trustee will transmit to NSCC an instruction file indicating the number of SPDRs to be credited to the account of each organization that placed an accepted order. Each of those organizations previously will have authorized the Trustee to instruct NSCC on its behalf to move Index Securities and cash from its account to the Trustee's account as payment for purchases of Creation Units. Accordingly, upon receipt of the instruction file, NSCC will incorporate instructions for the required position movements of the five hundred Index securities, and the appropriate number of SPDRs, into its continuous net settlement system. Each transaction will settle on the fifth business day after the trade date.

14. Placement of purchase orders to be executed via DTC terminals for DTC transfer is identical to that for orders to be processed through NSCC up to the point at which the Distributor sends a confirmation, except that the orders must state exactly when the transfer of securities and cash is to be effected. "In-kind" payment for Creation Units via DTC involves line by line position movements of the required shares in each of the five hundred Index Securities from the purchaser to the Trustee—and the return movement of SPDRs from the Trustee to the purchaser—through use of the DTC Participant Terminal System. Both the

Trustee and the purchaser will be required to reconcile delivery and receipt of the correct number of shares of each Index Security and the correct number of SPDRs. In addition, transmission of the appropriate cash component of the Portfolio Deposit, plus the Transaction Fee, must be accomplished in a manner acceptable to the Trustee, normally through a DTC cash transfer system.

15. SPDRs will be registered in book-entry form only; certificates will not be issued. The DTC or its nominee will be the registered owner of all outstanding SPDRs. Records reflecting the beneficial owners of SPDRs will be maintained by the DTC or its participants.

16. Persons purchasing Creation Units will be cautioned in the prospectus that some activities on their part may, depending on the circumstances, result in their being deemed statutory underwriters. For example, a broker-dealer firm may be deemed a statutory underwriter if it purchases Creation Units from the Trust, breaks them down into the constituent SPDRs, and sells the SPDRs directly to its customers; or if it chooses to couple the creation of a supply of new SPDRs with an active selling effort involving solicitation of a secondary market demand for SPDRs. The prospectus will state that whether a person is an underwriter depends upon all the facts and circumstances pertaining to that person's activities. The prospectus will explain that (a) a statutory underwriter will be subject to certain liability provisions of the Securities Act, and (b) dealers who are statutory underwriters, and dealers effecting transactions in SPDRs that are part of an "unsold allotment" within the meaning of section 4(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided to dealers by section 4(3) of the Securities Act.

17. Under a proposed new AMEX rule, each investor purchasing SPDRs in the secondary market (except as set forth below) will receive a "Product Description" designed to provide a brief and readily understandable description of the salient aspects of SPDRs. The Product Description will advise investors that a prospectus is available without charge upon request. Although the AMEX rule can not ensure delivery of a Product Description to investors purchasing SPDRs through a non-member broker-dealer in a transaction away from the AMEX floor, applicants expect that such transactions should be extremely rare. In addition, applicants note that transactions effected on regional exchanges pursuant to unlisted trading privileges can be covered by conditioning the grant of such privileges upon imposition of an exchange requirement that Product Descriptions be delivered. Purchases effected over the counter may be somewhat more difficult to address, although applicants note that the NASD may wish to promulgate an advice to members regarding the need to distribute a Product Description to every SPDR purchaser on the same terms as required by the AMEX rule.

18. The Trustee will be paid a "Trustee's Fee" not to exceed .15% of the Trust's net asset value on an annualized basis. The Trustee also will receive a Transaction Fee directly from investors in connection with each purchase and redemption of a Creation Unit, to defray securities settlement costs. The Transaction Fee will be about $1,500 (subject to discounts for quantity purchases), although an additional amount not to exceed three times the Transaction Fee will be charged to investors who purchase and redeem via the DTC rather than the continuous net settlement system of NSCC, to cover the increased expense associated with settlement outside the NSCC clearing process. To the extent the Transaction Fee exceeds the Trustee's actual settlement costs, and subject to certain limitations, such excess will be subtracted from the Trustee's Fee. The Trustee's Fee also will be reduced by the amounts earned by the Trustee in respect of cash held for the benefit of the Trust and not otherwise expended on behalf of the Trust.

19. The Trust will make quarterly distributions of an amount representing the dividends accumulated on portfolio securities during such quarter, net of fees and expenses. Additional distributions will be made to the minimum extent necessary to comply with certain provisions of the Internal Revenue Code and to avoid the imposition of excise taxes imposed by section 4982 of the Code.

20. The composition of the Trust's portfolio will be adjusted from time to time to conform to changes in the S&P 500 Index. The Trustee will aggregate certain of these adjustments and make conforming changes to the Trust's portfolio at least monthly. Adjustments will be made more frequently in the case of changes to the S&P 500 Index that are significant, such as the substitution of one security for another. All adjustments to the Trust's portfolio will be made by the Trustee pursuant to specifications set forth in the Trust Agreement and will be non-discretionary.

21. Beneficial owners of SPDRs will have no voting rights with respect to the securities held by the Trust. On any particular item for which an Index Security confers voting rights, the Trustee will vote the Trust's shares in the same proportion as all other shares of the security are voted. If this arrangement is not permitted, the Trustee shall abstain from voting.

22. The Sponsor and the AMEX are paying the Trust's organizational expenses. The Trust will reimburse the Sponsor for these expenses ratably over a five-year period. Should the Trust terminate prior to its fifth anniversary, the remaining unamortized organizational expenses will continue to be borne by the Sponsor and the AMEX, and will not be charged against the Trust.

23. The term of the Trust will be 25 years, but the Trust will terminate earlier in the following circumstances: if SPDRs are de-listed from the AMEX; by agreement of the holders of two-thirds of the outstanding SPDRs; if DTC or NSCC no longer provide necessary services; if the Trustee is no longer a participant in NSCC; if Standard & Poor's stops publishing the S&P 500 Index; or if the license agreement with Standard & Poor's for use of the "S&P 500" trademark is terminated. In addition, the Sponsor will have the discretionary right to terminate the Trust (i) within the first 90 days of operation, if the net asset value of the Trust is less than $100,000; (ii) at any time after six months of operation, if net asset value is less than $150 million; and (iii) at any time after three years of operation if net asset value is less than $350 million (adjusted annually for inflation after the Trust's fourth year of operation).

24. Within a reasonable period after termination, the Trustee shall use its best efforts to sell all portfolio securities not previously distributed to investors redeeming Creation Units. SPDRs not redeemed prior to termination will be redeemed in cash at net asset value based on the proceeds of the sale of portfolio securities.

25. Applicants assert that SPDRs afford significant benefits in the public interest. As explained above, the Trust should be able to track the S&P 500 Index more closely than other basket products that must allocate a portion of their assets for cash redemptions. In addition, SPDRs will provide a low-cost market-basket security that, unlike open-end index funds, can be traded at negotiated prices throughout the business day. Finally, SPDRs will compete with a comparable product available on a foreign stock exchange

and help attract capital to the U.S. equity market.

Applicants' Legal Analysis

1. Applicants seek an order granting exemptions from sections 4(2), 14(a), 17(a), 22(d), 22(e), 24(d), and 26(a)(2)(C) and rule 22c-1 and permitting them to engage in affiliated transactions otherwise prohibited by section 17(d) and rule 17d-1.

2. Section 4(2) of the Act defines a unit investment trust ("UIT") as an investment company that, among other things, issues only redeemable securities. Because SPDRs are not individually redeemable, applicants request an order that would permit the Trust to register and operate as a UIT. Applicants note that beneficial owners of SPDRs wishing to redeem may purchase additional SPDRs and tender the resulting Creation Unit for redemption. Moreover, to the extent a security's redeemability affords its holder a degree of liquidity, exchange-listing of SPDRs provides a similar benefit. Because the market price of SPDRs will be disciplined by arbitrage opportunities, beneficial owners should be able to sell SPDRs at approximately net asset value. Finally, applicants note that the Commission in 1990 granted relief substantially similar to that requested here. *See* The SuperTrust Trust For Capital Market Fund, Inc. Shares, Investment Company Act Release Nos. 17613 (July 25, 1990) (notice) and 17809 (Oct. 19, 1990) (order).

3. Section 22(d), among other things, prohibits a dealer from selling a redeemable security that is being currently offered to the public by or through an underwriter, except at a current public offering price described in the prospectus. Rule 22c-1 generally requires that a dealer selling, redeeming, or repurchasing a redeemable security do so only at a price based on its net asset value. Secondary market transactions in SPDRs will take place at negotiated prices (generally the current bid/offer price quoted on the AMEX), not at a current offering price described in the prospectus, and not at a price based on net asset value. Thus, purchases and sales of SPDRs by dealers in the secondary market will not comply with section 22(d) and rule 22c-1. Although SPDRs are not individually redeemable, the applicability of section 22(d) and rule 22c-1 is not free from doubt because SPDRs can be redeemed in Creation Unit-size lots. Accordingly, applicants have requested an exemption from these two provisions.

4. The concerns sought to be addressed by section 22(d) and rule 22c-1 with respect to pricing are equally satisfied by the proposed method of pricing SPDRs. While there is little legislative history regarding section 22(d), its provisions, as well as those of rule 22c-1, appear to have been enacted (a) to prevent dilution caused by certain riskless-trading schemes by principal underwriters and contract dealers, (b) to prevent unjust discrimination or preferential treatment among buyers resulting from sales at different prices, and (c) to assure an orderly distribution of investment company shares by eliminating price competition from dealers offering shares at less than the published sales price and repurchasing shares at more than the published redemption price. According to applicants, none of these purposes will be thwarted by permitting SPDRs to trade in the secondary market at negotiated prices. First, secondary market trading in SPDRs, because it does not involve the Trust as a party, can not result in dilution of a beneficial owner's investment. Second, to the extent different prices exist during a given trading day, or from day to day, such variances occur as result of third-party market forces, such as supply and demand and interest rates, not as a result of unjust or discriminatory manipulation. Therefore, secondary market trading in SPDRs will not lead to discrimination or preferential treatment among purchasers. Finally, applicants contend that the proposed distribution system will be orderly because arbitrage activity will ensure that the difference between the market price of SPDRs and their net asset value remains narrow. In any event, to the extent section 22(d) was designed to avoid disruption in the distribution system, this provision was designed to protect investment companies and their selling group dealers, not members of the investing public. Applicants contend that they have the right to waive such protection.

5. Section 24(d) of the Act provides, in relevant part, that the prospectus delivery exemption provided to dealer transactions by section 4(3) of the Securities Act does not apply to any transaction in a redeemable security issued by a UIT. Applicants contend that section 24(d) is inapplicable to SPDRs because SPDRs are not redeemable securities. Although SPDRs can be redeemed in Creation Unit-size lots, applicants argue that the substantial dollar amount required to aggregate 50,000 SPDRs represents a formidable barrier for most investors, providing another reason for not viewing SPDRs as redeemable securities for the purposes of section 24(d). Because the applicability of section 24(d) is not free from doubt, however, applicants have requested an exemption from that section to permit dealers trading in SPDRs to rely on the prospectus delivery exemption provided by section 4(3) of the Securities Act. Assuming section 24(d) applies, the exemption is necessary because, according to applicants, the imposition of prospectus delivery requirements on transactions by dealers in the secondary market will materially and adversely impede the success of the SPDRs product.

6. In 1954, when the relevant provisions of section 24(d) were enacted, securities issued by UITs were not typically, if ever, listed on an exchange. Applicants are unable to locate anything in the legislative history that envisions the application of section 24(d) to securities issued by a UIT that are listed on a national securities exchange for trading in the secondary market.

7. Applicants note that the secondary market for SPDRs is significantly different from the typical secondary market for UIT securities, which usually is maintained by the sponsor. SPDRs will be listed on a national securities exchange and will be traded in a manner similar to the shares of common stock issued by operating companies and closed-end investment companies. Dealers selling shares of operating companies and closed-end funds in the secondary market generally are not required to deliver a prospectus to the purchaser. Applicants contend that the SPDRs should be subject to the same regulatory scheme as securities issued by operating companies and closed-end funds.

8. Applicants point out that the Commission has previously determined that exchange listing affects the prospectus delivery requirements applicable to a particular security. As amended in 1988, rule 174 under the Securities Act shortens, from 90 days to 25 days after the offering date, the period during which dealers must deliver a prospectus to secondary market purchasers if the security (like SPDRs) is listed on a national securities exchange as of the offering date. According to the release amending rule 174, Securities Act Release No. 6763 (April 4, 1988): "The existence of regulatory requirements applicable to exchange-listed * * * securities and market processes provide adequate investor protection to permit relaxation of the prospectus delivery requirements. Listing standards, filing and disclosure requirements, and market information requirements assure the availability and timely dissemination of material

information." Applicants contend that SPDRs, as a listed security, meet these criteria and likewise merit a reduction in the unnecessary compliance costs and regulatory burdens resulting from the imposition of prospectus delivery obligations in the secondary market. Because SPDRs will be exchange-listed, prospective investors will have access to several types of information about the product. Information regarding sales price and volume will be continually available on a real time basis throughout the day on brokers' computer screens and other electronic services, such as Quotron. The previous day's price and volume information will be published daily in the financial section of newspapers. The Sponsor also will publish daily, a per SPDR basis, the amount of accumulated dividends, net or accrued expenses. In addition, SPDRs, as a novel, cost-effective, index security, should generate significant interest in the financial community. Applicants expect that broker-dealers and market analysts will familiarize themselves with the product, follow its performance, and share their opinions of the product with clients and other investors, resulting in even greater amounts of available information for investors.

9. In addition to all the information set forth above, investors will receive the Product Description. While not intended to substitute for a full prospectus, the Product Description will contain useful information about SPDRs. Applicants also note that SPDRs will be readily understandable to retail investors as a product that tracks the S&P 500 Index, which is well known to most investors and widely recognized as a performance indicator of the overall securities market.

10. Section 26(a)(2)(C) requires, among other things, that the trust indenture prohibit payments to the trust's depositor (*i.e.*, the Sponsor), and any affiliated person of the depositor, except payments for performing certain administrative services not relevant hereto. Applicants seek an exemption from section 26(a)(2)(C) of the Act to permit the Trust to reimburse the Sponsor or AMEX, up to a maximum of 20 basis points of the Trust's net asset value on an annualized basis, for the following expenses: (a) annual licensing fees for use of the "S&P 500" trademark; (b) federal and state annual registration fees for the issuance of SPDRs; (c) expenses of the Sponsor relating to the printing and distribution of marketing materials describing SPDRs and the Trust (including, but not limited to, associated legal, consulting, advertising, and marketing expenses); and (d) the initial fees and expenses incurred in connection with the organization of the Trust, which will be capitalized and amortized over five years on a straight-line basis.

11. Ordinarily, the sponsor of a UIT has several sources of income, and expenses normally incurred by the sponsor in connection with the creation and maintenance of a UIT can be offset against the income from such sources. As the proposed Trust is structured, however, the usual sources of income are not available because the Sponsor will not impose a sales load, maintain a secondary market, or deposit Index Securities, into the Trust. Although the Sponsor's parent company, the AMEX, will earn some income on the trading fees imposed on transactions occurring on the exchange, applicants expect that such fees will generate substantially less revenue than what would have been generated by a normal sales load or sales charges on secondary market trades of SPDRs. In light of the above, applicants contend that the abuse sought to be remedied by section 26(a)(2)(C)— "double dipping" by UIT sponsors collecting money from their captive trusts on top of the profits already generated by sales charges and other sources of income—will not be present if the requested exemption is granted.

12. Applicants contend that allowing the Trust to reimburse the Sponsor for the foregoing expenses would be no more disadvantageous to beneficial owners of SPDRs than allowing such expenses to be imposed indirectly as offsets to sales loads an other charges, as is done in typical UITs. Moreover, the Trust will pay the Sponsor only its actual out-of-pocket expenses; no component of profit will be included, as is the case where a sales load is imposed. Finally, the payment is capped at 20 basis points of the Trusts net asset value on an annualized basis. Expenses in excess of that figure will be absorbed by the Sponsor.

13. Section 14(a) provides, in part, that no registered investment company may make an initial public offering of its securities unless it has a net worth of $100,000, or provision is made in connection with the registration of such securities that (i) firm agreements to purchase $100,000 worth of such securities will have been made by not more than 25 persons, and (ii) all proceeds, including sales loads, will be refunded to investors if the investment company has a net worth of less than $100,000 within 90 days after the effective date of the registration statement.

14. Rule 14a–3 under the Act provides an exemption from section 14(a) for UITs that invest only in "eligible trust securities" and agree to certain investor safeguards, including the refund of any sales loads collected from investors. Applicants will comply in all respects with rule 14a–3, except that it will not restrict its investments to eligible trust securities, which do not include equity securities, and it will not refund the Transaction Fee discussed above. The fact that the Trust's portfolio is invested in equity rather than debt securities, applicants contend, does not negate the effectiveness of the safeguards nor subject investors to greater risk of loss due to investment in an undercapitalized investment company Applicants cite several prior orders granting relief from section 14(a) for UITs investing in equity securities. With respect to the Transaction Fee, applicants assert that it is not a sales load, and therefore is not covered by the refund provision. In any event, the Transaction Fee will be paid not by small retail investors but by institutional and other sophisticated, well-capitalized investors who can afford the $2 million purchase price of a Creation Unit. Such investors are able to assume the risk, which will be disclosed in the prospectus, of forfeiting the relatively small additional amount represented by the Transaction Fee.

15. Section 17(a) generally prohibits an affiliated person of a registered investment company from purchasing from or selling to such company any security or other property. Because purchases and redemptions will be "in-kind" rather than cash transactions, section 17(a) may prohibit affiliated persons of the Trust from purchasing or redeeming Creation Units. Moreover, because the definition of affiliated person includes anyone owning five percent or more of an issuer's outstanding voting stock, every purchaser of a Creation Unit will be affiliated with the Trust so long as fewer than twenty Creation Units are extant. Applicants seek an exemption from section 17(a) of the Act pursuant to sections 6(c) and 17(b), to permit affiliated persons of the Trust to purchase and redeem Creation Units.

16. Applicants contend that no usefull purpose would be served by prohibiting affiliated persons from a making "in kind" purchases or "in kind" redemptions of Creation Units. The composition of the Portfolio Deposit deposited by a purchaser or given to a redeemer will be the same regardless of

the investor's identity, and will be valued pursuant to the same objective standards applied to valuing the Trust's portfolio securities. Thus, "in kind" purchases and redemptions will afford no opportunity for affiliated person to effect a transaction detrimental to the other holders of SPDRs. Applicants believe that "in kind" purchases and redemptions will not result in abusive self-dealing or overreaching by affiliated persons of the Trust.

17. Applicants request an order pursuant to rule 17d–1 that would permit the Trust to reimburse the Sponsor or the AMEX for the payment by either such party to Standard & Poor's of the annual fee required under a license agreement. The license agreement allows applicants to use the S&P 500 Index as a basis for SPDRs and to use certain of Standard & Poor's trademark rights. Applicants believe that relief is necessary because the Trust's undertaking to reimburse the Sponsor (an affiliated person of the Trust) and/or the AMEX (an affiliated person of the Sponsor) arguably constitutes a joint enterprise or joint arrangement in which the Trust is a participant, in contravention of section 17(d) and rule 17d–1.

18. Applicants contend that the terms and provisions of the license agreement were negotiated at arms length and that the annual license fee is for fair value, bargained for in good faith and, to the best of their knowledge, is an amount comparable to that charged for similar arrangements. Applicants submit that the proposed transaction will result in an arrangement wherein the participants deal with each other in a manner similar to, and no less advantageous than, others who might be similarly situated.

19. Applicants request an exemption from the requirement imposed by section 22(e) of the Act to provide payment or satisfaction of redemptions within seven days following tender of a Creation Unit for redemption. This request is necessary because the Trust's clearing agent, NSCC, clears all trades through its system in five business days and short settlement of trades will not be available in connection with the SPDR clearing process. NSCC is closed for business on certain holidays. If a Beneficial Owner were to tender a Creation Unit for redemption during a seven day period preceding such a holiday, NSCC's five business day settlement system would result in a redemption on the eighth calendar day following tender, resulting in a violation of section 22(e).

20. NSCC is the appropriate institution to provide securities clearing services for the Trust. It is the nation's largest clearing agency, clearing 95% of all domestic equity trades, and has a well-established reputation in the financial community. In addition, the clearance and settlement of five hundred separate securities essentially as a single transaction requires sophisticated clearing services. Applicants have found that NSCC is able to provide these services and has enhanced its existing clearing processes to handle purchases and redemptions of Creation Units. The use of NSCC will provide beneficial owners of SPDRs with state-of-the-art securities handling, clearance, and transfer systems services, which, given the complexity of mirroring the component shares of the S&P 500 Index, is of extreme importance to all such owners.

21. In contrast to other investment companies that provide for "in kind" redemptions on occasion, the Sponsor has determined to incorporate the "in kind" purchase and redemption mechanism for SPDRs into the standard processing cycle for stock clearance and settlement through the continuous net settlement system of NSCC. Because there are no significant additional system or operational procedures needed to redeem SPDRs beyond those already in place for NSCC participants, applicants believe that this approach will make redemptions less costly to administer, enhance the appeal of the product, and thereby promote the liquidity of SPDRs in the secondary market, which will benefit all beneficial owners.

22. The prospectus and all relevant sales literature will disclose that redemption will be effected in five business days following the date on which a request for redemption is made. Given the rationale for what amounts to a delay of one additional day in the redemption process on some occasions, applicants contend that the redemption mechanism described above will not lead to unreasonable, undisclosed, or unforeseen delays in the redemption process.

Applicants' Conditions

Applicants agree that the order granting the requested relief will be subject to the following conditions:

1. Applicants will not register a new series of the Trust, whether identical or similar to Series 1, by means of filing a post-effective amendment to the Trust's registration statement or by any other means, unless Applicants have requested and received with respect to such new series, either exemptive relief from the SEC or a no-action position from the Division of Investment Management of the Commission.

2. Applicants will not seek to have the Trust's registration statement declared effective until after the SEC has approved a new rule change of the AMEX pursuant to rule 19b–4 under the Securities Exchange Act of 1934 to enable the AMEX to list SPDRs and to require AMEX-member broker-dealers effecting transactions in SPDRs to deliver to purchasers the Product Description describing the terms and characteristics of the SPDRs product.

3. The Trust's prospectus and the Product Description will clearly disclose that, for purposes of the Act, SPDRs are issued by the Trust and that the acquisition of SPDRs by investment companies is subject to the restrictions of section 12(d)(1) of the Act.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Rel. No. IC-18956; Int'l Series Release No. 458; 812-7888]

WestLB Finance USA Inc., et al.; Notice of Application

September 16, 1992

AGENCY: Securities and Exchange Commission ("SEC" or "Commission").

ACTION: Notice of Application for Exemption under the Investment Company Act of 1940 (the "Act").

APPLICANTS: WestLB Finance USA Inc. ("Finance") and Westdeutsche Landesbank Girozentrale ("Landesbank").

RELEVANT ACT SECTIONS: Exemption requested pursuant to section 6(c) from the provisions of subparagraphs (a)(1) and (a)(3) of rule 3a–5 under the Act.

SUMMARY OF APPLICATION: Applicants seek an order under section 6(c) from the provisions of subparagraphs (a)(1) and (a)(3) of rule 3a–5 in connection with the offer and sale of applicant's securities to raise funds for the business operations of its parent company without registering as an investment company.

FILING DATE: The application was filed on March 18, 1992 and amended on June 18, 1992.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be

received by the SEC by 5:30 p.m. on October 13, 1992, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons may request notification of a hearing by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 5th Street NW., Washington, DG 20549. Applicants, 1211 Avenue of the Americas, New York, New York 10036.

FOR FURTHER INFORMATION CONTACT: Elaine M. Boggs, Staff Attorney, at (202) 272–3026, or Nancy M. Rappa, Branch Chief, at (202) 272–3030 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the SEC's Public Reference Branch.

Applicants' Representatives

1. Finance is a company established under Delaware law as a wholly-owned subsidiary of Landesbank, a bank organized under the laws of the Federal Republic of Germany. Landesbank, a commercial bank, is the largest of nine German state banks and the fifth largest bank in Germany. Landesbank was incorporated in 1969 in the State of North Rhine-Westphalia, Germany ("Rhine-Westphalia"). Landesbank is owned by the regional authorities of the Rhineland and of Westphalia-Lippe, public authorities with responsibility for certain counties, together with the associations of regional savings banks in the same area. These contributors of Landesbank's capital are, in effect, its stockholders, and also by virtue of a statute guarantors of its obligations; they are jointly and severally liable for the obligations of Landesbank, if Landesbank's assets are insufficient to satisfy those obligations. Rhine-Westphalia also is obligated to maintain Landesbank's financial position so that Landesbank always is able to carry out its functions.

2. Applicants state that Landesbank provides, directly or through its subsidiaries, a wide range of banking and investment services in Germany as well as internationally. Landesbank's principal business is the receipt of demand and other deposits, the issuance of bonds and notes, the extension of credit, and the underwriting and dealing in debt and equity securities. Landesbank also is a state and municipal bank for Rhine-Westphalia and its municipalities and is a clearing bank for all savings banks located in North Rhine-Westphalia. In the United States, Landesbank commercial banking services are provided through its New York branch and its Los Angeles and Chicago representative offices, and its investment banking services are provided by two wholly-owned subsidiaries grandfathered under the International Banking Act of 1978: RWS Securities, Inc. and RWS Securities Services Gesellschaft für Wertpapiervermittlung m.b.H. On December 31, 1991, total assets for Landesbank totaled DM 190.1 billion and, for the Landesbank group, DM 205.2 billion.

3. Landesbank is subject to extensive supervision by the Federal Banking Supervisory Authority of Germany, an independent federal authority, and by the Deutsche Bundesbank, or German Federal Central Bank. Applicants state that the regulatory supervision, which relates principally to equity capital ratios, liquidity, foreign exchange limitations, credit diversification, and reserve requirements, is comparable in many respects to the supervision of United States commercial banks. Landesbank files with regulatory authorities financial and compliance statements on a monthly and quarterly basis, and also is required to file annual audited financial statements. Landesbank's United States branch, Westdeutsche Landesbank Girozentrale, New York Branch (the "New York Branch") is licensed by the State of New York and is subject to supervision and regulation by the Superintendent of Banks of the State of New York. The New York Branch is examined by the New York State Banking Department and is subject to banking laws and regulations applicable to a foreign bank that operates a New York branch. As a foreign bank with a United States branch, Landesbank also is subject to federal regulation and supervision under the International Banking Act of 1978, the Foreign Bank Supervision Enhancement Act of 1991, and the Bank Holding Company Act of 1956.

4. Finance is organized under the laws of Delaware. All of its outstanding capital stock is owned by Landesbank. Initially, Finance's sole business will consist of issuing and selling Finance's commercial paper notes (the "Notes") and depositing the net proceeds from the sale thereof (the "Deposits") at the Cayman Islands branch of Landesbank (the "Cayman Branch") pursuant to a deposit agreement (the "Deposit Agreement") to be entered into by Finance, the Cayman Branch, and Landesbank. Finance may in the future issue and sell other debt securities and deposit the net proceeds from the sale thereof at the Cayman Branch in a manner similar to the Deposits or obtain Landesbank's guarantee on such debt securities.

5. Finance proposes to issue and sell in the United States short-term negotiable promissory notes of the type exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), by virtue of section 3(a)(3) thereof and generally referred to as commercial paper. The Notes will be sold in minimum denominations of $100,000, will have a maturity not exceeding nine months, and neither will be payable on demand prior to maturity nor eligible for any extension, renewal, or automatic "rollover" at the option of either the holders or Finance. Landesbank and Finance currently do not intend to sell commercial paper notes in the United States in excess of an aggregate amount for Landesbank and Finance of US $2.5 billion at any time outstanding.

6. Substantially all of Finance's assets will consist of a single evidence of indebtedness of the Cayman Branch issued to Finance evidencing Finance's deposits. Under certain provisions of the Deposit Agreement, the Cayman Branch unconditionally agrees to repay to Finance each Deposit made by Finance at the Cayman Branch, including accrued interest thereon, on the maturity date of the Deposit. In the Deposit Agreement, the Cayman Branch waives any right of set-off it may have in respect of the Deposits. In addition, each holder of the Notes ("Noteholders") is assigned as security and granted a security interest in the Deposit and accrued interest corresponding to the Note. If Finance fails to pay a Note in accordance with its terms, the Deposit Agreement entitles the Noteholder to receive payment of the Cayman Branch, together with accrued interest.

7. Each Deposit shall (a) mature and be payable on the maturity date of the corresponding Note issued by Finance, and (b) bear interest at a rate per annum equal to or greater than the effective interest rate of the discount at which such Note is issued. Each Deposit shall be evidenced by an appropriate notation or reference on a master evidence of indebtedness to be issued by the Cayman Branch to Finance, and be held by the issuing and paying agent for the account of Finance.

8. Landesbank confirms expressly in the Deposit Agreement that the aforementioned obligations of the Cayman Branch to Finance and to the Noteholders are its own obligations.

Landesbank in the Deposit Agreement expressly waives any defense available to it against performance of its obligations to the extent that such defenses exist under Cayman Islands law and are based on insolvency, moratorium, liquidation, or similar laws of the Cayman Islands affecting the Cayman Branch, or based on currency or foreign exchange laws of the Cayman Islands or acts of state of the Cayman Islands government relating to expropriation, seizure, or moratorium of payment affecting the Cayman Branch as such or affecting the obligations of the Cayman Branch to repay its deposits in general.

9. To assure that proceeds from the sale of the Notes will be deposited with the Cayman Branch, Finance and the Cayman Branch will enter into an agreement with a commercial bank (the "Commercial Bank") pursuant to which the Cayman Branch will have an operating account with the Commercial Bank (the "Issuing and Paying Agency Agreement"). To this account the payments of the proceeds of the sale of the Notes to the Cayman Branch will be made, and from this account the payments by Finance or the Cayman Branch to the Noteholders will be made by appropriate debits or credits, respectively.[1]

10. The Notes will be offered publicly, through one or more major dealers and by Landesbank directly, only to the types of sophisticated and largely institutional investors that ordinarily participate in the United States commercial paper market. Finance undertakes to insure that each dealer and Landesbank will furnish to each offeree a memorandum describing the business of Landesbank and Finance, and providing the most recent annual audited financial statements for Landesbank, together with a description of the material differences between the German accounting principles utilized in the preparation of the financial statements of Landesbank and generally accepted accounting principles as applied in the United States. The memorandum prepared by each dealer and Landesbank will be updated as promptly as practicable to reflect adverse changes in the financial status of Finance of Landesbank which are material to investors, and will be at least as comprehensive as memoranda customarily used in offering commercial paper in the United States. Finance will appoint a major commercial bank to act as issuing and paying agent for the Notes.

11. Under German law and pursuant to the Deposit Agreement, the repayment obligation of the Cayman Branch with respect to the Deposits is an obligation of Landesbank. Landesbank's obligations regarding its liabilities to Finance will rank at least *pari passu* among themselves and with all other unsecured and unsubordinated indebtedness (including deposit liabilities) of Landesbank and superior to the rights of shareholders; the Noteholders will have a direct cause of action against Landesbank in the event of any default in payment on the Notes.

12. Landesbank, in connection with the offering of the Notes, will submit to the jurisdiction of any state or federal court in the Borough of Manhattan in the City of New York, and will appoint Finance as agent to accept any process which may be served, in any suit, action, or proceedings brought against Landesbank based upon its obligations to Finance as described herein. Such consent to jurisdiction and such appointment of an authorized agent to accept service of process will be irrevocable until all amounts due and to become due with respect to outstanding Deposits and all other outstanding obligations of Landesbank to Finance as described herein have been paid. The authorized agent will not be, or be obligated to act as, a trustee for the Noteholders.

13. Finance may, from time to time, offer other of its debt securities (other than the Notes) or non-voting preferred stock for sale in the United States. The obligations of Finance in respect of any such debt securities and non-voting preferred stock issued by Finance will be supported by Landesbank's guarantee, unless an application is filed seeking to amend any order issued on this application to substitute Landesbank's guarantee with a functional equivalent of a guarantee.

Applicants' Legal Analysis

1. Finance will meet the requirements of rule 3a–5 except that, as set forth herein, the debt securities and any non-voting preferred stock of Finance which may in the future be issued will not be guaranteed in a technical sense by the parent company, as required by subparagraphs (a)(3) and (a)(5), respectively, but rather Landesbank will provide the functional equivalent of a guarantee. The proceeds from the sale of Notes by Finance will be lent to or deposited with the Cayman Branch. The entitlement of the Noteholder to receive payment by the Cayman Branch of the Deposit corresponding to such Note in case of failure of Finance to pay the Note upon maturity, is a sufficient guarantee for the Noteholder. If Landesbank were to issue the Notes directly, it would not be subject to the provisions of the Act pursuant to rule 3a–6. If, in the alternative, Landesbank chooses to use Finance as a financing vehicle, the same policy considerations should apply and Finance should be granted an exemption. The business and fiscal considerations behind Landesbank's desire to use Finance as a financing vehicle to sell the Notes in the United States in no way impinge upon the public policy concerns, such as investor protection, that underlie the Act. Those concerns are satisfied by the parent-subsidiary relationship between Landesbank and Finance and the security interest granted by Landesbank in the Deposits. As a consequence, the Noteholders ultimately will look to Landesbank and payment of the Notes will not depend upon the operations of investment policy of Finance.

2. For reasons discussed below, Landesbank requires the structure of the transaction described in this notice, where the debt obligations of Finance are in a technical sense not unconditionally guaranteed by the parent bank, but the parent bank is directly obligated to pay the Notes of Finance. If Landesbank or one of its branches were to unconditionally guarantee the obligations of Finance to pay the Notes, or to issue a letter of credit supporting the Notes, the funding by the issuance of such Notes would be more costly for Landesbank. Pursuant to the German Federal Banking Law and the regulations of the German Federal Banking Supervisory Authority, Landesbank, in case of a guarantee in a technical sense or a letter of credit, possibly would have to maintain additional liable funds at prescribed

[1] In a letter dated June 22, 1992, applicants' counsel states that the Issuing and Paying Agreement provides that payment by the Noteholders will be effected by wire transfer of funds to the Commercial Bank's account at the Federal Reserve Bank of New York or by delivery to the Commercial Bank of a check drawn to the Commercial Bank's order by another member bank on such Federal Reserve Bank. Finance is required to instruct the Commercial Bank to transfer the proceeds of the sale of commercial paper to the Cayman Branch's account with the Commercial Bank. The Issuing and Paying Agreement states that the Cayman Branch will have exclusive control over the account, and the sole right of withdrawal of funds therefrom. Thus, according to applicants' counsel, Finance will have no opportunity to channel the investor's funds away from the investor, the Commercial Bank, and Landesbank. Once the investor pays for the paper, the funds are in the Commercial Bank's account with the Federal Reserve, and must flow from there into the Cayman Branch's account with the Commercial Bank as a Deposit. At that moment the investor has a right of action against Landesbank under his or her security interest in the Deposit.

levels corresponding to the amount of the outstanding Notes of Finance guaranteed by Landesbank. Such additional funds would not have to be maintained if Landesbank itself would issue such notes, and need not be maintained under the proposed structure. In addition, the structure further reflects the agent-principal relationship between Landesbank and Finance for purposes of Federal tax law, whereby Finance will not be taxed on the imputed margin on the deposits, but rather on the fee-based compensation. Absent an exemption, Landesbank would be denied efficient access to this dollar-dominated commercial paper market

Applicants' Undertakings

Applicants have agreed to the following undertakings which would be imposed as conditions to any order granted on the application:

1. Landesbank will confirm expressly in the Deposit Agreement that the aforementioned obligations of the Cayman Branch to Finance and the Noteholders are Landesbank's own obligations.

2. Finance and the Cayman Branch will enter into an Issuing and Paying Agency Agreement with a commercial bank pursuant to which the Cayman Branch will have an operating account with such commercial bank. To this account the payments of the proceeds of the sale of the Notes to the Cayman Branch will be made, and from this account the payments by Finance or the Cayman Branch to the Noteholders will be made by appropriate debits or credits, respectively.

3. In the event of a default in payment of principal or interest (or any other payments provided for in the Notes) on any debt securities issued by Finance, the Noteholders will not only be entitled to receive payments by the Cayman Branch or Landesbank of the Deposit corresponding to such Note but may also enforce such rights in the competent courts against the Cayman Branch or Landesbank without first proceeding against Finance.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,
Deputy Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF STATE

[Public Notice 1702]

Public Information Collection Requirements Submitted to OMB for Review

AGENCY: Department of State.

ACTION: The Department of State has submitted the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, 44 U.S.C. chapter 35.

SUMMARY: In order to extend the benefits of diplomatic immunity under the Vienna Convention on Diplomatic Relations, 1961 and the Vienna Convention on Consular Relations, 1963 and to issue official identification cards, the Department of State must obtain information from foreign government representatives concerning the appointment and termination of diplomatic and consular officers, foreign government employees and their dependents in the United States. The following summarizes the information collection proposals submitted to OMB:

1. Type of request—Reinstatement.
   Originating office—Office of Protocol.
   Title of information collection—Notification of Appointment of Foreign Diplomatic and Career Consular Officer.
   Frequency—On occasion.
   Form Number—DSP-110.
   Respondents—Foreign government representatives.
   Estimated number of respondents—2,000.
   Average hours per response—30 minutes.
   Total estimated burden hours—1,000.
2. Type of request—Reinstatement.
   Originating office—Office of Protocol.
   Title of information collection—Notification of Appointment of Foreign Government Employee.
   Frequency—On occasion.
   Form Number—DSP-111.
   Respondents—Foreign government representatives.
   Estimated number of respondents—5,000.
   Average hours per response—30 minutes.
   Total estimated burden hours—2,500.
3. Type of request—Reinstatement.
   Originating office—Office of Protocol.
   Title of information collection—Notification of Appointment of Honorary Consular Officer.
   Frequency—On occasion.
   Form Number—DSP-112.
   Respondents—Foreign government representatives.
   Estimated number of respondents—200.
   Average hours per response—30 minutes.
   Total estimated burden hours—100.
4. Type of request—Reinstatement.
   Originating office—Office of Protocol.
   Title of information collection—Notification of Dependents of Diplomatic, Consular and Foreign Government Employees (Continuation Sheet).
   Frequency—On occasion.
   Form Number—DSP-114.
   Respondents—Foreign government representatives.
   Estimated number of respondents—7,000.
   Average hours per response—10 minutes.
   Total estimated burden hours—840
5. Type of request—Existing without OMB Control No.
   Originating office—Office of Protocol.
   Title of information collection—Notification of Change, Identification Card Request.
   Frequency—On occasion.
   Form Number—DSP-113.
   Respondents—Foreign government representatives.
   Estimated number of respondents—5,000.
   Average hours per response—10 minutes.
   Total estimated burden hours—600.
6. Type of request—Reinstatement.
   Originating office—Office of Protocol.
   Title of information collection—Notification of Termination of Diplomatic, Consular or Foreign Government Employment.
   Frequency—On occasion.
   Form Number—DSP-115.
   Respondents—Foreign government representatives.
   Estimated number of respondents—6,000.
   Average hours per response—10 minutes.
   Total estimated burden hours—720.

44 U.S.C. 3504(h) does not apply, as no rulemaking is being conducted in connection with this information collection.

ADDITIONAL INFORMATION OR COMMENTS: Copies of the proposed forms and supporting documents may be obtained from Gail J. Cook (202) 647-3538. Comments and questions should be directed to (OMB) Lin Liu (202) 395-7340.

Dated: September 11, 1992

Philip Tinney,

Acting Assistant Secretary for Diplomatic Security.

BILLING CODE 6720-01-M

RESOLUTION TRUST CORPORATION

Coastal Barrier Improvement Act; Property Availability; Falcon Crest Ranch II, San Diego County, CA

AGENCY: Resolution Trust Corporation.

ACTION: Notice.

SUMMARY: Notice is hereby given that the property known as Falcon Crest Ranch II, located near the City of El Cajon, San Diego County, California, is affected by section 10 of the Coastal Barrier Improvement Act of 1990, as specified below.

DATES: Written notices of serious interest to purchase or effect other transfer of the property may be mailed or faxed to the RTC until December 22, 1992.

ADDRESSES: Copies of detailed descriptions of the property, including maps, can be obtained from or are available for inspection by contacting the following person: Mr. E. Ted Hine, Resolution Trust Corporation, 4000 Mac Arthur Boulevard, East Tower, Suite 315, Newport Beach, CA 92660-2516, (714) 263-4648, Fax (714) 852-7766.

SUPPLEMENTARY INFORMATION: The Falcon Crest Ranch II property is located in an unincorporated area east of the City of El Cajon in eastern San Diego County, California. The site is situated at Broad Oaks, Creek Hills and El Capitan Real Roads which are linked to Interstate Highway 8 by Blossom Valley Road. The property has recreational value and is adjacent to the Cleveland National Forest and El Capitan Reservoir which are located immediately to the northeast. The property is covered property within the meaning of section 10 of the Coastal Barrier Improvement Act of 1990, Public Law 101-591 (12 U.S.C. 1441a-3).

Characteristics of the property include: The property consists of approximately 605 acres of undeveloped land and is dominated by a ridge-line running along the northwestern side of the property which drops off to the San Diego River Valley. The southern portion of the site is characterized by a shallow bowl shaped valley cut by two primary drainages from the ridge to the north. The vegetation on the property consists of mixed chaparral (approximately 315 acres), Diegan coastal sage scrub (approximately 260 acres), and southern oak woodland (approximately 30 acres).

Property size: Approximately 605 acres.

Written notice of serious interest in the purchase or other transfer of the property must be received on or before December 22, 1992 by the Resolution Trust Corporation at the address stated above.

Those entities eligible to submit written notices of serious interest are:

1. Agencies or entities of the Federal government;

2. Agencies or entities of State or local government; and

3. "Qualified organizations" pursuant to section 170(h)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 170(h)(3)).

Written notices of serious interest to purchase or effect other transfer of the property must be submitted by December 22, 1992 to Mr. E. Ted Hine at the above **ADDRESSES** and in the following form:

Notice of Serious Interest

RE: Falcon Crest Ranch II

Federal Register Publication Date: September 23, 1992.

1. Entity name.

2. Declaration of eligibility to submit Notice under criteria set forth in Coastal Barrier Improvement Act of 1990, Public Law 101-591, section 10(b)(2), (12 U.S.C. 1441a-3(b)(2)).

3. Brief description of proposed terms of purchase or other offer (e.g., price and method of financing).

4. Declaration by entity that it intends to use the property primarily for wildlife refuge, sanctuary, open space, recreational, historical, cultural, or natural resource conservation purposes.

5. Authorized Representative (Name/Address/Telephone/Fax).

Dated: September 17, 1992.

Resolution Trust Corporation.

William J. Tricarico,

Assistant Secretary.

[FR Doc. 92-22993 Filed 9-22-92; 8:45 am]

BILLING CODE 6714-01-M

Coastal Barrier Improvement Act; Property Availability; Harmony Road, Larimer County, CO

AGENCY: Resolution Trust Corporation.

ACTION: Notice.

SUMMARY: Notice is hereby given that the property known as Harmony Road, located in the City of Fort Collins Larimer County, Colorado, is affected by section 10 of the Coastal Barrier Improvement Act of 1990, as specified below.

DATES: Written notices of serious interest to purchase or effect other transfer of the property may be mailed or faxed to the RTC until December 22, 1992.

ADDRESSES: Copies of detailed descriptions of the property, including maps can be obtained from or are available for inspection by contacting the following person: The Harmony Road Corporation, c/o The Beverly Group, Inc., Daniel D. Ryan, 910 Fifteenth Street, suite 940, Denver, CO 80202, (303) 595–9226, Fax (303) 595–8121.

SUPPLEMENTARY INFORMATION: The Harmony Road property consists of two parcels known as the Seven Springs Ranch and the Hahn Farm which are located in the City of Fort Collins, Larimer County, Colorado. The Harmony Road property is situated at the Southwest corner of Taft Hill Road and Harmony Road and extends between South Shields Street and Taft Hill Road. The property contains wetlands, the federally endangered bald eagle, and has recreational value. The site is adjacent to a bike and foot path which is managed by the City of Fort Collins for recreational purposes. The property is covered property within the meaning of section 10 of the Coastal Barrier Improvement Act of 1990, Public Law 101–591 (12 U.S.C. 1441a–3).

Characteristics of the property include: The property consists of approximately 580 acres of undeveloped land between the Horsetooth Reservoir Recreation Area and Fossil Creek Reservoir. The vegetation on the site is characterized as native grassland and the Fossil Creek drainage is contiguous with the property. The native grasslands on the property are considered critical to the support of a healthy prairie dog population which in turn supports the bald eagles and other rare raptors along the Fossil Creek wetlands corridor.

Property size: Approximately 580 acres.

Written notice of serious interest in the purchase or other transfer of the property must be received on or before December 22, 1992, by the Resolution Trust Corporation at the address stated above.

Those entities eligible to submit written notices of serious interest are:

1. Agencies or entities of the Federal government;

2. Agencies or entities of State or local government; and

3. "Qualified organizations" pursuant to section 170(h)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 170(h)(3)).

Written notices of serious interest to purchase or effect other transfer of the property must be submitted by December 22, 1992, to the Harmony Road Corporation at the above **ADDRESSES** and in the following form:

Notice of Serious Interest

Re: Harmony Road

Federal Register Publication Date: September 23, 1992.

1. Entity name.

2. Declaration of eligibility to submit Notice under criteria set forth in Coastal Barrier Improvement Act of 1990, Public Law 101–591, section 10(b)(2), (12 U.S.C. 1441a–3(b)(2)).

3. Brief description of proposed terms of purchase or other offer (e.g., price and method of financing).

4. Declaration by entity that it intends to use the property primarily for wildlife refuge, sanctuary, open space, recreational, historical, cultural, or natural resource conservation purposes.

5. Authorized Representative (Name/Address/Telephone/Fax).

Dated: September 17, 1992.

Resolution Trust Corporation.

William J. Tricarico,

Assistant Secretary.

BILLING CODE 6714–01–M

DEPARTMENT OF VETERANS AFFAIRS

Information Collection Under OMB Review

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

The Department of Veterans Affairs has submitted to OMB the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). This document lists the following information:

(1) The title of the information collection, and the Department form number(s), if applicable;

(2) A description of the need and its use;

(3) Who will be required or asked to respond;

(4) An estimate of the total annual reporting hours, and recordkeeping burden, if applicable;

(5) The estimated average burden hours per respondent;

(6) The frequency of response; and

(7) An estimated number of respondents.

ADDRESSES: Copies of the proposed information collection and supporting documents may be obtained from Janet G. Byers, Veterans Benefits Administration (20A5), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420 (202) 233–3021.

Comments and questions about the items on the list should be directed to VA's OMB Desk Officer, Joseph Lackey, NEOB, room 3002, Washington, DC 20503, (202) 395–7316. Do not send requests for benefits to this address.

DATES: Comments on the information collection should be directed to the OMB Desk Officer on or before October 23, 1992.

Dated: September 11, 1992.

By direction of the Secretary.

Donald R. Howell,

Chief, Information Management Division.

Revision

1. Offer to Purchase and Contract of Sale, VA Form 26–6705, Credit Statement of Prospective Purchaser, VA Form 26–6705b, and Addendum to VA Form 26–6705 Offer to Purchase and Contract of Sale, VA Form 26–6705C.

2. VA Form 26–6705 serves as an offer to purchase and contract of sale for submitted purchase offers to VA on properties acquired through operation of the guaranteed and direct loan programs. VA Form 26–6705b is used to collect credit and income information necessary to determine whether an applicant qualifies to purchase a VA-owned property. VA Form 26–6705C is an addendum used to simplify the selection process among competing offers and ensure that the offer selected provides the greatest value to VA.

3. Individuals or households; Small businesses or organizations.

4. 64,166 hours.

5. 14 minutes.

6. On occasion.

7. 267,500 respondents.

[FR Doc. 92–23046 Filed 9–22–92; 8:45 am]

BILLING CODE 8320-01-M

Privacy Act of 1974; Addition of Routine Use Statement

AGENCY: Department of Veterans Affairs.

ACTION: Notice is hereby given that the Department of Veterans Affairs (VA) is considering adding a routine use statement for the system of records entitled Compensation, Pension, Education and Rehabilitation Records—VA (58 VA 21/22) as set forth in **Federal Register** publication, "Privacy Act Issuances," 1989 Compilation, Volume II, pages 918–922 as amended at 55 FR 28508, July 11, 1990; 55 FR 42540, October 19, 1990; 56 FR 15667, April 17, 1991; 56 FR 16354, April 22, 1991; and 57 FR 12374, April 9, 1992.

The purpose of this additional routine use is to allow VA to disclosure to the Department of the Navy information from the files of veterans whose claims were referred to VA Central Office for an advisory opinion concerning their claims that their disabilities were incurred secondary to occupational radiation exposure. The information furnished to the Navy would include relevant claims data, medical opinions, dose estimates, advisory opinions, and rating decisions.

The Department of the Navy requested this information for use as a feedback system to review and assess their occupational radiation exposure controls and training. They intend to publish summary data pertaining to the number of claims filed, types of diseases listed, and final disposition of these claims on an annual basis, but will not redisclose personal identifying information protected by the Privacy Act.

VA is proposing to allow disclosure to the Department of the Navy of data including names, addresses, VA claim number, Social Security number, disability data and any other information contained in medical opinions, dose estimates, advisory opinions, and rating decisions from claims submitted to VA Central Office for advisory opinions re claims that their disabilities were incurred secondary to occupational radiation exposure. The information may be released to the Department of the Navy only upon receipt of their official written request.

To provide the information requested by the Department of the Navy, VA is proposing to add a routine use statement. A proposed new routine use number of 56 is added to this system of records. This release of information will facilitate the ability of the Department of the Navy to review and assess their occupational radiation exposure controls and training.

VA has determined that release of information under the circumstances described above is a necessary and proper use of information in this system of records and that a specific routine use for transfer of this information is appropriate.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amended routine use statements to the Secretary of Veterans Affairs (271A), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. All relevant material received before October 23, 1992, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30

p.m., Monday through Friday (except holidays) until November 2, 1992. Any person visiting the Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 170. Visitors to VA field stations will be informed that the records are available for inspection only in Central Office and will be furnished the above address and room number.

If no public comment is received during the 30-day review period allowed for public comment or unless otherwise published in the **Federal Register** by the Department of Veterans Affairs, the new routine use statement to 58 VA 21/22 included herein is effective October 23, 1992.

Approved: September 14, 1992.

Edward J. Derwinski,

Secretary of Veterans Affairs.

Notice of Addition to Routine Use Statements

In the system identified as 58 VA 21/22, "Compensation, Pension, Education and Rehabilitation records—VA" as set forth in **Federal Register** publication, Privacy Act Issuances," 1989 Compilation, Volume II, pages 918–922 the following changes are made:

58 VA 21/22

SYSTEM NAME:

Compensation, Pension, Education and Rehabilitation Records—VA.

* * * * *

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

* * * * *

56. Any information contained in the files of veterans whose claims were referred to VA Central Office for an advisory opinion concerning their claims that their disabilities were incurred secondary to occupational radiation exposure may be disclosed to the Department of the Navy. The information to be furnished to the Navy would include the medical opinions, dose estimates, advisory opinions, and rating decisions including veterans' names, addresses, VA claim numbers, Social Security numbers and medical information. The requested information may be disclosed to the Department of the Navy upon receipt of their official written request for such information for their use in the review and assessment of their occupational radiation exposure controls and training.

Part II

Department of Transportation

Coast Guard

Lists of Ports and Terminals Holding Certificates of Adequacy; Notice

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 92-047]

Lists of Ports and Terminals Holding Certificates of Adequacy

AGENCY: Coast Guard, DOT.

ACTION: Notice of holders of Certificates of Adequacy.

SUMMARY: This document publishes lists of all U.S. ports and terminals holding valid Certificates of Adequacy (COAs) issued as evidence that their facilities meet the requirements of Annexes I, II, and V of the 1978 Protocol to the International Convention for the Prevention of Pollution from Ships (MARPOL 73/78). These lists themselves meet the requirements of the Act to Prevent Pollution from Ships (the Act) and of regulations issued under it, to aid owners, operators, and agents of ships in locating ports and terminals with facilities capable of accepting residues and mixtures containing oil or noxious liquid substances (NLSs), or of accepting garbage from seagoing ships. The Coast Guard expects that readier access to these facilities by ships will reduce discharge of oil, NLSs, and garbage into the marine environment.

EFFECTIVE DATE: This notice is effective on September 23, 1992. The lists in this notice include all COAs issued and effective as of August 15, 1992.

FOR FURTHER INFORMATION CONTACT: Ensign Claudia C. Gelzer, Marine Environmental Protection Division (G-MEP), (202) 267-0518.

SUPPLEMENTARY INFORMATION: Table I, published below, consists of a list of ports and terminals holding valid COAs issued under 33 CFR part 158, Subpart B (Criteria for Reception Facilities: Residues and Mixtures Containing Oil). The list provides the names, locations, telephone numbers, and quantities of oily wastes that they can accept. The ports and terminals that have "0" entered in the column under "Daily Capacity of Reception Facility" are small facilities in remote, rugged areas that receive only a few ships operating in a dedicated trade. To comply with the intent of MARPOL 73/78 and of the regulations, ships visiting these ports and terminals have agreed to discharge their oily waste at other ports, where adequate facilities are available.

Table II, published below after Table I, consists of a list of ports and terminals holding valid COAs issued under 33 CFR part 158, Subpart C (Criteria for Certifying That a Port's or Terminal's Facilities Are Adequate for Receiving NLS Residue). The list provides the names, locations, telephone numbers, and quantities of various categories of NLS waste that they can accept. (A list relating names of cargoes to, among other things, their Pollution Categories under Annex II appears in 46 CFR part 153, Table I.) The ports and terminals that have no amounts entered under the column "Daily Capacity," receive only ships that do not require any prewashing of their cargo tanks.

Table III, published below after Table II, consists of a list of ports and terminals holding valid COAs issued under 33 CFR part 158, Subpart D (Criteria for Adequacy of Reception Facilities: Garbage). The list provides the names, locations, and telephone numbers of the facilities.

Definitions of the terms used in these lists appear in 33 CFR 158.120.

Dated: September 15, 1992.

R.C. North,

Captain, U.S. Coast Guard, Acting Chief, Office of Marine Safety, Security and Environmental Protection.

Part III

Department of Education

34 CFR Parts 231 and 238

Drug-Free Schools and Communities General Provisions; Drug-Free Schools and Communities Counselor Training Grants Program; Proposed Rule

DEPARTMENT OF EDUCATION

34 CFR Parts 231 and 238

RIN 1810-AA66

Drug-Free Schools and Communities General Provisions; Drug-Free Schools and Communities Counselor Training Grants Program

AGENCY: Department of Education.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Secretary proposes regulations to implement the Counselor Training Grants Program, which is authorized by the Drug-Free Schools and Communities Act of 1986 (Act) as amended by the Crime Control Act of 1990 (1990 Amendments) (Pub. L. 101-647).

DATES: Comments must be received on or before November 23, 1992.

ADDRESSES: All comments concerning these proposed regulations should be addressed to Bill Mattocks, U.S. Department of Education, Office of Elementary and Secondary Education, 400 Maryland Avenue S.W., room 2123, Washington, D.C. 20202-6439.

A copy of any comments that concern information collection requirements should also be sent to the Office of Management and Budget at the address listed in the Paperwork Reduction Act section of the Supplementary Information.

FOR FURTHER INFORMATION CONTACT: Bill Mattocks, U.S. Department of Education, 400 Maryland Avenue SW, Washington, D.C. 20202-6439. Telephone (202) 401-1258. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1-800-877-8339 (in the Washington, D.C. 202 area code, telephone 708-9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION:

Background

The 1990 Amendments to Part C of the Drug-Free Schools and Communities Act—Training of Teachers, Counselors, and School Personnel—established the Counselor Training Grants Program (Section 5129 of the Act) and amended the School Personnel Training Grants Program (Section 5128) that has been authorized since 1989. Regulations for the School Personnel Training Grants Program (published on December 19, 1990) are in 34 CFR Part 233. Since 1990, the Department has administered the Counselor Training Grants program under the Education Department General Administrative Regulations and the authorizing statute. The Secretary proposes regulations for the Counselor Training Grants program to adopt the selection criteria in 34 CFR Part 231 for the award of grants and to provide more specific guidance in the administration of the program.

Grants under the Counselor Training Grants Program are awarded to provide additional financial assistance to State educational agencies (SEAs), local educational agencies (LEAs), institutions of higher education (IHEs), and consortia of these institutions to establish, expand, and enhance programs and activities for the training of counselors, social workers, psychologists, or nurses who are providing, or will provide, drug abuse prevention, counseling, or referral services in elementary and secondary schools. Grants also may be awarded to private nonprofit agencies that have an agreement with an LEA to provide training in drug abuse counseling for individuals who will provide the counseling in the schools of that LEA.

The Counselor Training Grants Program supports AMERICA 2000 by providing resources directly applicable to the accomplishment of National Education Goal six: safe and drug-free schools.

Summary of Proposed Regulations

The proposed regulations would describe the personnel eligible to receive training under the program in terms of professional training and certification, as well as employment status. In addition to counselors, social workers, nurses, and psychologists, who are currently serving students in elementary and secondary schools, eligible personnel would also include those with evidence that they will be employed to serve students in elementary and secondary schools. The key factor in designating personnel eligible to receive training is the assurance that the results of the training will be of immediate benefit to students in elementary and secondary schools.

The proposed regulations would also identify the organizations eligible as grantees; clarify application requirements and allowable activities; authorize funding priorities; and establish the selection criteria to be used in the review of grant applications by adopting the criteria currently used in 34 CFR 231.22.

Executive Order 12291

These proposed regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the order.

Regulatory Flexibility Act Certification

The Secretary certifies that these proposed regulations would not have a significant economic impact on a substantial number of small entities. The proposed regulations do not impose burdensome requirements on applicants or grantees. They establish requirements for participation in the program and would not have a significant economic impact on entities participating in the program.

Paperwork Reduction Act of 1980

Section 238.4 contains information collection requirements. As required by the Paperwork Reduction Act of 1980, the Department of Education will submit a copy of this section to the Office of Management and Budget (OMB) for its review. (44 U.S.C. 3504(h))

SEAs, LEAs, IHEs, and private nonprofit agencies having an agreement with an LEA to provide training in drug abuse counseling are eligible for grants under these regulations. The Department needs and uses the information to make grants. The annual public reporting and recordkeeping burden for this collection of information is estimated to average 30 hours per response for 300 respondents, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Organizations and individuals desiring to submit comments on the information collection requirements should direct them to the Office of Information and Regulatory Affairs, room 3002, New Executive Office Building, Washington, D.C. 20503. Attention: Daniel J. Chenok.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. The objective of the Executive order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, this document is intended to provide early notification of the Department's specific plans and actions for this program.

Invitation to Comment

Interested persons are invited to submit comments and recommendations regarding these proposed regulations.

All comments submitted in response to these proposed regulations will be

available for public inspection during and after the comment period in room 2123, FOB-6, 400 Maryland Avenue, SW, Washington, D.C., between the hours of 8:30 a.m. and 4 p.m., Monday through Friday of each week except Federal holidays.

To assist the Department in complying with the specific requirements of Executive Order 12291 and the Paperwork Reduction Act of 1980 and their overall requirements of reducing the regulatory burden, the Secretary invites comments on whether there may be further opportunities to reduce any regulatory burdens found in these proposed regulations.

Assessment of Educational Impact

The Secretary particularly requests comments on whether the proposed regulations in this document would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects in 34 CFR Parts 231 and 238

Drug abuse, Drug-Free Schools and Communities, Education, Elementary and secondary education, Grant programs-Education, Local educational agencies, Reporting and recordkeeping, State educational agencies.

Dated: September 16, 1992.

Lamar Alexander,

Secretary of Education.

(Catalog of Federal Domestic Assistance number has not been assigned.)

The Secretary proposes to amend title 34 of the Code of Federal Regulations by amending part 231 and adding a new part 238 as follows:

PART 231—DRUG-FREE SCHOOLS AND COMMUNITIES—GENERAL PROVISIONS

1. The authority citation for part 231 is revised to read as follows:

(Authority: 20 U.S.C. 3216, 3201, 3211, 3212, 3202, and 3203, unless otherwise noted.)

2. Section 231.1 is revised to read as follows:

§ 231.1 What are the Drug-Free Schools and Communities Programs?

The programs described in 34 CFR parts 232, 233, 234, 235, and 238 provide assistance for drug and alcohol abuse education and prevention projects.

(Authority: 20 U.S.C. 3216, 3201, 3202, 3203, 3211, 3212)

3. Section 231.3 is amended by revising paragraph (d) to read as follows:

§ 231.3 What regulations apply to these programs?

* * * * *

(d) The regulations in 34 CFR parts 231, 232, 233, 234, 235, and 238.

4. In § 231.4, paragraphs (a), (b), and (c) are amended by removing "235" and adding, in its place, "238".

5. A new part 238 is added to read as follows:

PART 238—DRUG-FREE SCHOOLS AND COMMUNITIES COUNSELOR TRAINING GRANTS PROGRAM

Sec.

238.1 What is the Drug-Free Schools and Communities Counselor Training Grants Program?
238.2 What parties are eligible for a grant under this program?
238.3 What parties may grantees train under this program?
238.4 What must an application include?
238.5 What types of projects may the Secretary assist under this program?
238.6 How does the Secretary establish priorities for this program?
238.7 What regulations apply to this program?

(Authority: 20 U.S.C. 3202, 3203, unless otherwise noted.

§ 238.1 What is the Drug-Free Schools and Communities Counselor Training Grants Program?

The Drug-Free Schools and Communities Counselor Training Grants Program provides assistance to establish, expand, or enhance programs and activities for the training of counselors, social workers, psychologists, or nurses, who are providing, or will provide, drug abuse prevention, counseling, or referral services in elementary and secondary schools.

(Authority: 20 U.S.C. 3202)

§ 238.2 What parties are eligible for a grant under this program?

The Secretary may award grants under this program to SEAs, LEAs, IHEs, consortia of these organizations, and any private nonprofit agency that has entered into a written agreement with an LEA to provide training in drug abuse counseling to individuals who will provide counseling in the schools of that LEA.

(Authority: 20 U.S.C. 3202, 3203)

§ 238.3 What parties may grantees train under this program?

Under this program, grantees may train counselors, social workers, psychologists, or nurses who—

(a) Possess a currently valid State license, credential, or certificate entitling them to practice as a counselor, social worker, psychologist, or nurse; and

(b) Are currently employed by, or under contract with, or can provide evidence that they will be employed by, one of the eligible parties listed in § 238.2 to provide drug abuse prevention, counseling, or referral services in an elementary or secondary school.

(Authority: 20 U.S.C. 3202)

§ 238.4 What must an application include?

Each application must—

(a) Describe the activities and programs to be carried out with the funds made available;

(b) Contain an estimate of the cost for the establishment and operation of the activities and programs;

(c) Provide assurances that the Federal funds made available will be used to supplement and, to the extent practical, increase the level of funds that would, in the absence of those Federal funds, be made available by the applicant for the purpose described in this part, and in no case to supplant these funds;

(d) Provide assurances of compliance with the provisions of this part, including—

(1) Assurances that all persons trained under this grant possess a currently valid State license, credential, or certificate entitling them to practice as a counselor, social worker, psychologist, or nurse; and

(2) Assurances that all persons trained under the grant are currently employed, or under contract, or can provide evidence that they will be employed to provide drug abuse prevention, counseling, or referral services in an elementary or secondary school;

(e) Discuss how the training to be provided under the grant will assist the applicant to—

(1) Increase the number of school personnel who are trained to provide drug abuse counseling services; and

(2) Improve the quality of drug abuse counseling services offered by the applicant or the LEA concerned; and

(f) Provide, in the case of an application from a private nonprofit agency, a copy of the written agreement between the agency and an LEA, under which the agency will provide training in drug abuse counseling to individuals who will provide counseling in the schools of the LEA.

(Authority: 20 U.S.C. 3202, 3203)

§ 238.5 What types of projects may the Secretary assist under this program?

The Secretary may fund projects that—

(a) Establish, expand, or enhance programs and activities for the training of school counselors, social workers, psychologists, or nurses in the recognition of signs and symptoms of the use of alcohol, steroids, and other illegal drugs, and in the pharmacology of drugs;

(b) Train school counselors, social workers, psychologists, or nurses, who work with high-risk youth, in the area of drug and alcohol abuse education and prevention;

(c) Train school counselors, social workers, psychologists, or nurses in the implementation of drug prevention and education programs, including programs that involve family members and focus on children of alcoholics, children from families that are dysfunctional because of problems related to alcohol and drugs, and children with social problems that stem from addiction; or

(d) Train school counselors, social workers, psychologists, or nurses on how to prevent and eliminate the use of alcohol and other drugs among our Nation's youth by expanding and improving drug abuse education and prevention through intervention, counseling, and referral services, and on methods of providing positive alternative activities to alcohol and other drug use.

(Authority: 20 U.S.C. 3202, 3203)

§ 238.6 How does the Secretary establish priorities for this program?

(a) The Secretary selects priorities by taking into consideration unmet national needs for drug and alcohol abuse education and prevention.

(b) The Secretary may select as a priority one or more, or a combination, of the types of projects listed in § 238.5. The Secretary may limit any priority to a particular educational level, type of substance abuse, or type of personnel to be trained, including counselors, social workers, psychologists, or nurses.

(Authority: 20 U.S.C. 3202, 3203)

§ 238.7 What regulations apply to this program?

The following regulations apply to the Drug-Free Schools and Communities Counselor Training Grants Program:

(a) The regulations in 34 CFR part 231.

(b) The regulations in this part 238.

(Authority: 20 U.S.C. 3202, 3203)

Part IV

Environmental Protection Agency

40 CFR Part 721
Significant New Uses of Certain Chemical Substances; Final Rule

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 721

[OPPTS-50601; FRL-4001-2]

RIN 2070-AB27

Significant New Uses of Certain Chemical Substances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is promulgating significant new use rules (SNURs) under section 5(a)(2) of the Toxic Substances Control Act (TSCA) for 63 chemical substances which were the subject of premanufacture notices (PMNs) and were subject to TSCA section 5(e) consent orders issued by EPA. Today's action requires certain persons who intend to manufacture, import, or process any of these substances for a significant new use to notify EPA at least 90 days before commencing the manufacturing or processing of the substance for a use designated by the SNUR as a significant new use. The required notice will provide EPA with the opportunity to evaluate the intended use, and if necessary, to prohibit or limit that activity before it occurs. EPA is promulgating these SNURs using direct final procedures.

EFFECTIVE DATES: This rule shall be promulgated for purposes of judicial review at 1 p.m. Eastern Standard Time on October 7, 1992. The effective date of this rule is November 23, 1992.

If EPA receives notice before October 23, 1992 that someone wishes to submit adverse or critical comments on EPA's action in establishing a SNUR for one or more of the chemical substances subject to this rule, EPA will withdraw the SNUR for the substance for which the notice of intent to comment is received and will issue a proposed SNUR providing a 30-day period for public comment.

ADDRESSES: Each comment or notice of intent to submit adverse or critical comment must bear the docket control number OPPTS-50601 and the name(s) of the chemical substance(s) subject to the comment. Since some comments may contain confidential business information (CBI), all comments should be sent in triplicate (with additional sanitized copies if confidential business information is involved) to: TSCA Document Receipt Office (TS-790), Office of Pollution Prevention and Toxics Environmental Protection Agency, rm. E-201, 401 M St., SW., Washington, DC 20460. Nonconfidential versions of comments on this rule will be placed in the rulemaking record and will be available for public inspection. Unit X. of this preamble contains additional information on submitting comments containing CBI.

FOR FURTHER INFORMATION CONTACT: Susan Hazen, Director, Environmental Assistance Division (TS-799), Office of Pollution Prevention and Toxics Environmental Protection Agency, rm. E-543-B, 401 M St., SW., Washington, DC 20460, Telephone: (202) 554-1404, TDD: (202) 554-0551.

SUPPLEMENTARY INFORMATION: These SNURs will require persons to notify EPA at least 90 days before commencing manufacturing or processing of a substance for any activity designated by these SNURs as a significant new use. The supporting rationale and background to this rule are more fully set out in the preamble to EPA's first direct final SNURs at 55 FR 17376 on April 24, 1990. Consult that preamble for further information on the objectives, rationale, and procedures for the rules and on the basis for significant new use designations including provisions for developing test data.

I. Authority

Section 5(a)(2) of TSCA (15 U.S.C. 2604(a)(2)) authorizes EPA to determine that a use of a chemical substance is a "significant new use." EPA must make this determination by rule after considering all relevant factors, including those listed in section 5(a)(2). Once EPA determines that a use of a chemical substance is a significant new use, section 5(a)(1)(B) of TSCA requires persons to submit a notice to EPA at least 90 days before they manufacture, import, or process the substance for that use. The mechanism for reporting under this requirement is established under 40 CFR 721.25.

II. Applicability of General Provisions

General provisions for SNURs appear under subpart A of 40 CFR part 721. These provisions describe persons subject to the rule, recordkeeping requirements, exemptions to reporting requirements, and applicability of the rule to uses occurring before the effective date of the final rule. Rules on user fees appear at 40 CFR part 700. Persons subject to this SNUR must comply with the same notice requirements and EPA regulatory procedures as submitters of PMNs under section 5(a)(1)(A) of TSCA. In particular, these requirements include the information submission requirements of section 5(b) and 5(d)(1), the exemptions authorized by section 5(h)(1), (2), (3), and (5), and the regulations at 40 CFR part 720. Once EPA receives a SNUR notice, EPA may take regulatory action under section 5(e), 5(f), 6, or 7 to control the activities for which it has received the SNUR notice. If EPA does not take action, EPA is required under section 5(g) to explain in the **Federal Register** its reasons for not taking action.

Persons who intend to export a substance identified in a proposed or final SNUR are subject to the export notification provisions of TSCA section 12(b). The regulations that interpret section 12(b) appear at 40 CFR part 707. Persons who intend to import a chemical substance identified in a final SNUR are subject to the TSCA section 13 import certification requirements, which are codified at 19 CFR 12.118 through 12.127 and 127.28. Such persons must certify that they are in compliance with the SNUR requirements. The EPA policy in support of the import certification appears at 40 CFR part 707.

III. Substances Subject to This Rule

EPA is establishing significant new use and recordkeeping requirements for the following chemical substances under 40 CFR part 721 subpart E. In this unit, EPA provides a brief description for each substance, including its PMN number, chemical name (generic name if the specific name is claimed as CBI), CAS number (if assigned), basis for the action taken by EPA in the section 5(e) consent order for the substance (including the statutory citation and specific finding), toxicity concern, and the CFR citation assigned in the regulatory text section of this rule. The specific uses which are designated as significant new uses are cited in the regulatory text section of the rule by reference to 40 CFR part 721 subpart B where the significant new uses are described in detail. Certain new uses, including production limits and other uses designated in the rule are claimed as CBI. The procedure for obtaining confidential information is set out in Unit VII.

Where the underlying section 5(e) order prohibits the PMN submitter from exceeding a specified production limit without performing specific tests to determine the health or environmental effects of a substance, the tests are described in this unit. As explained further in Unit VI., the SNUR for such substances contains the same production limit as in the section 5(e) order, and exceeding the production limit is defined as a significant new use. Persons who intend to exceed the production limit must notify the Agency by submitting a significant new use notice at least 90 days in advance. Data

on potential exposures or releases of the substances, testing other than that specified in the section 5(e) order for the substances, or studies on analogous substances, which may demonstrate that the significant new uses being reported do not present an unreasonable risk, may be included with significant new use notification. In addition, this unit describes tests that are recommended by EPA to provide sufficient information to evaluate the substance, but for which no production limit has been established in the section 5(e) order. Descriptions of recommended tests are provided for informational purposes.

Some of the earlier section 5(e) orders contain provisions that required wording changes to be converted into a SNUR to be issued under the expedited process. In some instances, the SNUR text is merely more detailed (e.g., the provision for a written hazard communication program in § 721.72(a) is more detailed than the hazard communication provisions in some earlier orders) or the SNUR text is worded slightly differently (e.g., the provision for dermal protection in § 721.63(a)(1) and (a)(3) is worded differently from dermal protection provisions in some earlier orders). In such cases, EPA considers the SNUR and section 5(e) provisions to be generally equivalent. Moreover, the companies which entered into the more limited hazard communication provisions of the earlier section 5(e) orders, as well as those companies covered by the SNUR, are generally subject to the requirements of the Occupational Safety and Health Administration's hazard communication standard at 29 CFR 1910.2100. Therefore, EPA believes it equitable and minimally burdensome to include in the SNUR those requirements of the hazard communication standard that are generally considered to be acceptable in informing workers of potential chemical hazards.

In some instances, however, a particular requirement may be so differently worded from the corresponding SNUR provision that the basis of the SNUR provision is not evident. Where this occurs, the preamble below explains why the SNUR provision was chosen.

Some of the SNURs that contain worker protection or hazard communication provisions—the substances designated P–85–543, P–85–648, P–86–1648, P–87–1273, P–87–1471, and P–88–1682, which are the subject of earlier section 5(e) orders—provide an exemption from such provisions if the substances are present at low levels and are not expected to reconcentrate in mixtures. The exemptions are provided in § 732.63(b) and § 721.72(e) and their application will make the requirements for the substances consistent with SNURs based on more recent section 5(e) consent orders. If a substance was determined to pose a cancer concern by structural-activity analysis or actual data (as described in this unit), it is exempt only if the level is 0.1 percent or less. All other substances must not exceed a 1.0 percent level in a mixture to qualify for the exemption. EPA's decision to allow exemptions at these levels was based on the Occupational Safety and Health Administration's hazard communication standard exemption of MSDS requirements in § 1910.1200(g)(2)(i)(C)(1) and (2) when substances are present at such low levels in mixtures.

The SNURs for the PMN substances P–88–1783, P–88–2210, P–88–2231, P–88–2237, P–88–2530, P–90–1839, P–91–75, P–91–809, P–91–1086, P–91–1231, P–91–1232, P–91–1233, P–91–1234, P–91–1235, P–91–1250, P–91–1269, P–91–1392, P–91–1418, and P–92–63 regulate chemical substances subject to section 5(e) orders where the finding under TSCA is based solely on substantial production volume and significant or substantial human exposure or release to the environment in substantial quantities under section 5(e)(1)(A)(ii)(II). In each of these cases there was limited or no toxicity data available for the PMN substance. In these cases EPA has regulated these new chemical substances under section 5(e) by issuing an order that prohibits the submitter from exceeding a specified production limit without performing certain toxicity or environmental fate tests and establishes a risk notification procedure. For instance, chemical substances with potentially substantial releases to surface waters would be subject to toxicity testing of aquatic organisms and chemicals with potentially substantial human exposures would be subject to health effects testing for mutagenicity, acute effects, and subchronic effects.

PMN Number P–85–543

Chemical name: 2-Butenedioic acid (*Z*), mono(2-((1-oxo-propenyloxy)ethyl) ester.
CAS number: Not available
Effective date of section 5(e) consent order: May 28, 1987.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: A 2–year two-species rodent bioassay (40 CFR 798.3300) would help characterize potential cancer effects.
CFR citation: 40 CFR 721.1950.

PMN Number P–85–648

Chemical name: Isopropylidene, bis(1,1-dimethylpropyl) derivative.
CAS number: Not available.
Effective date of section 5(e) consent order: December 24, 1985.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer laboratory animals.
Recommended testing: EPA has determined that a 2–year two-species bioassay in rodents (CFR 798.3300) would help characterize potential cancer effects.
CFR citation: 40 CFR 721.5475.

PMN Number P–86–1648

Chemical name: 1-Oxa-4-azaspiro[4.5]decane, 4-dichloroacetyl-.
CAS number: 71526–07–3.
Effective date of section 5(e) consent order: February 24, 1988.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i), (ii)(I), and (ii)(II) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health, will be produced in substantial quantities and that there may be significant human exposure to the substance.
Toxicity concern: Based on test data submitted with the PMN, EPA has determined that the substance may be developmentally toxic to humans. EPA has also determined that similar substances have been shown to cause toxicity to aquatic organisms.
Recommended testing: EPA has determined that a developmental toxicity study (CFR 798.4900) and a workplace airborne concentration monitoring study, as described in the PMN, would help characterize potential developmental effects. The results of an algal study (40 CFR 797.1050), a daphnid acute toxicity study (40 CFR 797.1300), and a fish acute toxicity study (40 CFR 797.1400) would help characterize possible aquatic toxicity effects of the substance.
CFR citation: 40 CFR 721.5475.

PMN Number P–87–252

Chemical name: (generic) Alkanaminium, polyalkyl-[(2-methyl-1-oxo-2-propenyl)oxy]salt, polymer with acrylamide and substituted alkyl methacrylate.
CAS number: Not available.
Effective date of section 5(e) consent order: August 14, 1987.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to the environment. Toxicity concern: Test data on chemicals similar in structure indicate that the PMN substance may cause toxicity to aquatic organisms at concentrations as low as 40 ppb.
Recommended testing: EPA has determined that the results of an algal study (40 CFR 797.1050), a daphnid acute toxicity study (40 CFR 797.1300), and a fish acute toxicity study (40 CFR 797.1400) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production limit without performing these studies.
CFR citation: 40 CFR 721.6620.

PMN Number P–87–1273

Chemical name: 1-Propanol, 3,3'-oxybis[2,2-bis(bromomethyl)]-.
CAS number: Not available.
Effective date of section 5(e) consent order: September 13, 1988.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause acute and chronic toxicity, developmental and reproductive effects, and mutagenicity and carcinogenicity.
Recommended testing: EPA has determined that a 90–day subchronic study in rats with emphasis on the liver, kidneys, and eyes (40 CFR 798.2650) would help characterize acute and chronic toxicity and a two-generation reproductive study in rodents (40 CFR 798.4700) would help characterize developmental and reproductive effects. The consent order contains two production limits. The PMN submitter has agreed not to exceed the first production limit without performing the 90–day subchronic study. The submitter has also agreed not to exceed the second higher production limit without performing the reproductive study. In addition, EPA is interested in receiving a 2–year two-species bioassay in rodents (CFR 798.3300) help characterize potential mutagenicity and carcinogenicity effects.
CFR citation: 40 CFR 721.8200.

PMN Number P–87–1471

Chemical name: Benzene, (2-chloroethoxy)-.
CAS number: 622–86–6.
Effective date of section 5(e) consent order: September 13, 1988.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health and the environment.
Toxicity concern: Similar substances have been shown to cause toxicity in aquatic organisms and cancer in test animals.
Recommended testing: EPA has determined that a 2–year two-species bioassay (CFR 798.3300) would help characterize potential cancer effects and that aquatic toxicity testing in algae (40 CFR 797.1050), daphnia (40 CFR 797.1300), and fish (40 CFR 797.1400) would help characterize potential effects on aquatic organisms.
CFR citation: 40 CFR 721.1210.

PMN Number P–87–1555

Chemical name: (generic) Perfluoroalkyl aromatic carbamate modified alkyl methacrylate copolymer.
CAS number: Not available.
Effective date of section 5(e) consent order: September 20, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Analogous substances and the PMN substance have been shown to cause lung toxicity in test animals.
Recommended testing: A 90–day subchronic multiple dose inhalation study in rats on the PMN substance in 1,1,1-trichloroethane (TCE) or isopropanol (IPA) to help further characterize chronic lung effects. The PMN submitter has agreed not to exceed the production volume limit without performing this test.
CFR citation: 40 CFR 721.7200.

PMN Numbers P–87–1881 and P–87–1882

Chemical name: cis- and *trans-*1,4-Cyclohexanediamine.
CAS number: (*cis-*) 15827–56–2, (*trans-*) 2615–25–0.
Effective date of section 5(e) consent order: May 23, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that these substances may present an unreasonable risk of injury to the environment.
Toxicity concern: Similar substances have been shown to cause toxicity in aquatic organisms.
Recommended testing: EPA has determined that an acute algal assay (40 CFR 797.1050), an acute daphnid assay (40 CFR 797.1300), an acute fish assay (40 CFR 797.1400), and an acute fish assay modified with humic acid (40 CFR 795.115) will characterize environmental effects.
CFR citation: 40 CFR 721.2250.

PMN Number P–88–1682

Chemical name: (generic) Carbopolycyclicol azoalkylaminoalkylcarbomonocyclic ester, halogen acid salt.
CAS number: Not available.
Effective date of section 5(e) consent order: September 23, 1989.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health and the environment.
Toxicity concern: Similar substances have been shown to cause cancer in test animals and toxicity in aquatic organisms.
Recommended testing: EPA has determined that a 2–year two-species bioassay in rodents (CFR 798.3300) would help characterize potential cancer effects. The results of an algal study (40 CFR 797.1050), a daphnid acute toxicity study (40 CFR 797.1300), and a fish acute toxicity study (40 CFR 797.1400) would help characterize possible effects of the substance.
CFR citation: 40 CFR 721.2140.

PMN Numbers P–88–1783, P–88–2231, P–88–2237, and P–88–2530

Chemical name: (generic) Alkylbenzenesulfonic acids and sodium salts.
CAS number: Not available.
Effective date of section 5(e) consent orders: P–88–1783 and P–88–2530—June 26, 1991, P–88–2231 and P–88–2237—July 2, 1991.
Basis for section 5(e) consent orders: The orders were issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that these substances are expected to be produced in substantial quantities and there may be significant or substantial human exposure. For P–88–1783 the substance may be anticipated to enter the environment in substantial quantities.

Recommended testing: EPA has determined that the results of an acute oral toxicity test (40 CFR 798.1175), an Ames assay (40 CFR 798.5265), a mouse micronucleus assay by the intraperitoneal route (40 CFR 798.5395), and a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible health effects of each substance. EPA has also determined that the results of an acute algal study (40 CFR 797.1050), an acute daphnid study (40 CFR 797.1300), and an acute fish study (40 CFR 797.1400) would help characterize possible environmental effects of P–88–1783. The consent order for P–88–1783 contains two production limits. The PMN submitter has agreed not to exceed the first production limit without performing the ecotoxicity studies. The PMN submitter has also agreed not to exceed the second higher production limit without performing the health studies. The PMN submitter of P–88–2231 and P–88–2237 has agreed not to exceed the production limit without performing the health studies on P–88–2237. The PMN submitter of P–88–2530 has agreed not to exceed the production limit without performing the health studies.
CFR citation: 40 CFR 721.1650.

PMN Number P–88–2210

Chemical name: (generic) α-Olefin sulfonate, sodium salts.
CAS number: Not available.
Effective date of section 5(e) consent order: June 26, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be significant or substantial human exposure.
Recommended testing: EPA has determined that the results of an acute oral toxicity test (40 CFR 798.1175), an Ames assay (40 CFR 798.5265), a mouse micronucleus assay by the intraperitoneal route (40 CFR 798.5395), and a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production limit without performing these tests.
CFR citation: 40 CFR 721.5450.

PMN Number P–89–589

Chemical name: Piperazinone, 1,1′,1″-[1,3,5-triazine-2,4,6-triyltris[(cyclohexylimino)-2,1-ethanediyl]]tris-[3,3,4,5,5-pentamethyl]-.
CAS number: 130277–45–1.
Effective date of section 5(e) consent order: September 26, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health.
Toxicity concern: Immunotoxicity; toxicity to the liver, gastrointestinal tract, and blood; and reproductive system toxicity, based upon test data on the PMN substance, and on hindered amine compounds structurally analogous to the PMN substance.
Recommended testing: Combined one-generation reproduction study and in utero derived 13–week toxicity study in rats with 4–week recovery period to help characterize toxicity to the immune system, liver, gastrointestinal tract, blood, and reproductive system. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.6160.

PMN Number P–89–764

Chemical name: Neodecaneperoxoic acid, 1,1,3,3-tetramethylbutyl ester.
CAS number: 51240–95–0.
Effective date of section 5(e) consent order: June 19, 1991.
Basis for section 5(e) order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to be carcinogenic in test animals.
Recommended testing: A 2–year, two-species, rodent bioassay for carcinogenicity (40 CFR 798.3300).
CFR citation: 40 CFR 721.5300.

PMN Number P–90–360

Chemical name: (generic) Formaldehyde, condensated polyoxyethylene fatty acid, ester with styrenated phenol, ethylene oxide adduct.
CAS number: Not available.
Effective date of section 5(e) consent order: March 27, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i), (ii)(I) and (ii)(II) of TSCA based on a finding that this substance may present an unreasonable risk of injury to the environment and is expected to be produced in substantial quantities and there may be substantial human exposures.
Toxicity concern: Test data on chemicals similar in structure to the PMN substance indicate that the PMN substance have been shown to cause toxicity in aquatic organisms. Specifically, based on submitted test data on P–90–364, EPA predicts toxicity to aquatic organisms in surface waters to occur at a concentration of 400 ppb.
Recommended testing: EPA has determined that a water solubility study (40 CFR 796.1860), an aerobic aquatic biodegradation study (40 CFR 796.3100), and a modified semicontinuous activated sludge test for water insoluble chemicals (40 CFR 796.3341) will help characterize the environmental fate of the PMN substance.
CFR citation: 40 CFR 721.3600.

PMN Number P–90–364

Chemical name: (generic) Fatty acid, ester with styrenated phenol, ethylene oxide adduct.
CAS number: Not available.
Effective date of section 5(e) consent order: March 27, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i), (ii)(I) and (ii)(II) of TSCA based on a finding that this substance may present an unreasonable risk of injury to the environment and is expected to be produced in substantial quantities and there may be substantial human exposures.
Toxicity concern: Test data on the PMN substance indicate that the substance may cause toxicity to aquatic organisms in surface waters at a concentration 400 ppb.
Recommended testing: EPA has determined that a water solubility study (40 CFR 796.1860), an aerobic aquatic biodegradation study (40 CFR 796.3100), and a modified semicontinuous activated sludge test for water insoluble chemicals (40 CFR 796.3341) will help characterize the environmental fate of the PMN substance.
CFR citation: 40 CFR 721.3700.

PMN Number P–90–558

Chemical name: Hydrazine, [4-(1-methylbutoxy)phenyl], monohydrochloride.
CAS number: 124993–63–1.
Effective date of section 5(e) consent order: April 18, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health and the environment.
Toxicity concern: The PMN substance has been shown to cause chronic effects to the liver, kidney, blood, and spleen. Substances similar to the PMN substance have been shown to cause cancer in test animals and analogous substances have been shown to cause toxicity to aquatic organisms.
Recommended testing: A 90–day subchronic (oral) in rats with special

attention given to the liver and blood (40 CFR 798.2650) is required to help characterize the chronic health effects. The PMN submitter has agreed not to exceed the production limit without performing the test. In addition, a 2–year, two-species oral bioassay (40 CFR 798.3300), an acute algal study (40 CFR 797.1050; static/nominal conditions), an acute daphnia study (40 CFR 797.1300; flow-through/measured conditions), and an acute fish study (40 CFR 797.1400; flow-through/measured conditions) would allow EPA to better characterize the health and environmental effects of the test substance. However, the PMN submitter is not required to submit the above cancer and aquatic toxicity information at any specified time or production volume as long as the terms of the order are followed.
CFR citation: 40 CFR 721.4280.

PMN Number P–90–559

Chemical name: Benzenamine, 4-(1-methylbutoxy)-, hydrochloride.
CAS number: Not available.
Effective date of section 5(e) consent order: April 18, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health and the environment.
Toxicity concern: Substances similar to the PMN substance have been shown to cause cancer and skin irritation in test animals. In addition, analogous substances have been shown to cause toxicity to aquatic organisms.
Recommended testing: A 2–year, two-species oral bioassay (40 CFR 798.3300), an acute algal study (40 CFR 797.1050; static/nominal conditions), an acute daphnia study (40 CFR 797.1300; flow-through/measured conditions), and an acute fish study (40 CFR 797.1400; flow-through/measured conditions) would allow EPA to better characterize the health and environmental effects of the test substance. However, the PMN submitter is not required to submit the above cancer and aquatic toxicity information at any specified time or production volume as long as the terms of the order are followed.
CFR citation: 40 CFR 721.1075.

PMN Number P–90–560

Chemical name: Benzene, 1-(1-methylbutoxy)-4-nitro-.
CAS number: Not available.
Effective date of section 5(e) consent order: April 18, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health.
Toxicity concern: Substances similar to the PMN substance have been shown to cause reproductive and developmental effects in test animals.
Recommended testing: A two-generation reproductive effects study (oral) in rats 40 CFR 798.4700 is required to help characterize the health effects of the PMN substance. The PMN submitter has agreed not to exceed a production limit without performing the test.
CFR citation: 40 CFR 721.1325

PMN Number P–90–1308

Chemical name: Dimetridazole.
CAS number: Not available.
Effective date of section 5(e) consent order: April 19, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Test data on the PMN substance and on similar substances indicate that the PMN substance may cause neurotox-icity, developmental toxicity, reproductive toxicity, and carcinogenic and mutagenic effects.
Recommended testing: EPA has determined that a developmental toxicity study (40 CFR 798.4900) and a 90–day oral subchronic study with emphasis placed on the reproductive system, including a detailed histopathology of the reproductive system, sperm staging and sperm count (40 CFR 798.2650) will help characterize the potential developmental and reproductive effects of the PMN substance. The consent order contains two production limits. The PMN submitter has agreed not to exceed the first production volume limit without performing the developmental toxicity test. The PMN submitter has also agreed not to exceed the second higher production volume limit without performing the 90–day oral subchronic study. EPA has determined that a 2–year, two-species bioassay will help characterize possible carcinogenic effects of the substance. However, the PMN submitter is not required to submit the above cancer toxicity study at any specified time or production volume as long as the terms of the order are followed.
CFR citation: 40 CFR 721.2475

PMN Number P–90–1338

Chemical name: (generic) Polymethylcarbomonocycle, reaction product with 2-hydroxyethyl acrylate.
CAS number: Not available.
Effective date of section 5(e) consent order: March 27, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: A 2–year two-species rodent bioassay (40 CFR 798.3300) could be performed to help characterize cancer effects of the PMN substance. Toxicity data on representative members of the acrylate/methacrylate class of chemical substances being developed by certain acrylate and methacrylate manufacturers may also be useful in evaluating the risk posed by the PMN substance.
CFR citation: 40 CFR 721.9420.

PMN Number P–90–1358

Chemical name: Cyclohexanecarbonitrile, 1,3,3-trimethyl-5-oxo-.
CAS number: 7027–11–4.
Effective date of section 5(e) consent order: July 12, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA, based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Test data on similar substances and the PMN substance itself raise concerns for carcinogenicity, neurotoxicity, systemic toxicity, and eye irritation in test animals.
Recommended testing: The consent order contains two production limits. The PMN submitter has agreed not to exceed the first production limit without performing a 90–day subchronic (gavage) in rats which will include a functional observational battery (FOB), an evaluation of motor activity, and specific histological examination of the central and autonomic nervous systems (CNS and PNS tissues) as described in 40 CFR 798.6050 in order to help characterize the possible health effects induced by this substance. If the Agency determines that the results of the 90–day subchronic study indicate the PMN substance is functionally similar to the chemical analogue isophorone, the PMN submitter will then be prohibited from exceeding a second higher production limit without performing a 2–year, two-species rodent bioassay (oral route) as described in 40 CFR 798.3300.
CFR citation: 40 CFR 721.2225.

PMN Number P-90-1384

Chemical name: (generic) Ethoxybenzothiazole disulfide.
CAS number: Not available.
Effective date of section 5(e) consent order: December 17, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health.
Toxicity concern: Similar substances have been shown to cause carcinogenicity in test animals.
Recommended testing: EPA has determined that a 2-year two-species bioassay in rodents (40 CFR 798.3300) would help characterize carcinogenicity.
CFR citation: 40 CFR 721.1745.

PMN Numbers P-90-1472 and P-90-1473

Chemical names: Ethanediimidic acid.
CAS number: Not available.
Effective date of section 5(e) consent order: August 1, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer and liver and blood effects in test animals.
Recommended testing: A 90-day subchronic study, with special attention to the liver and blood, and a 2-year, two-species bioassay would help characterize health concerns. The PMN submitter has agreed not to exceed the production limit without performing the 90-day subchronic study.
CFR citation: 40 CFR 721.3260.

PMN Number P-90-1731

Chemical name: (generic) Substituted triazole.
CAS number: Not available.
Effective date of section 5(e) consent order: September 5, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health and the environment.
Toxicity concern: Similar chemical substances have been shown to cause oncogenicity, mutagenicity, developmental toxicity, retinopathy and kidney toxicity, and eye irritation in test animals. Test data on chemicals similar in structure to the PMN substance indicate that the PMN substance may cause toxicity in aquatic organisms at concentrations as low as 12 ppb.
Recommended testing: EPA recommends a 90-day subchronic oral study, with emphasis on the ocular structure, an acute algal study (40 CFR 797.1050), an acute daphnid study (40 CFR 797.1300), and an acute fish study (40 CFR 797.1400), and a 2-year, two-species bioassay to help characterize the human health and environmental effects. The PMN submitter has agreed not to exceed the production limit without performing the 90-day subchronic test.
CFR citation: 40 CFR 721.9820.

PMN Number P-90-1732

Chemical name: (generic)Sulfonamide.
CAS number: Not available.
Effective date of section 5(e) consent order: September 5, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health or the environment.
Toxicity concern: Similar chemical substances have been shown to cause retinopathy, kidney toxicity, and eye irritation in test animals. Test data on chemicals similar in structure to the PMN substance indicate that the PMN substance may cause toxicity in aquatic organisms at concentrations as low as 10 ppb.
Recommended testing: EPA recommends a 90-day subchronic oral study, with emphasis on the ocular structure, and the base set aquatic toxicity studies to help characterize the human health and environmental effects. The PMN submitter has agreed not to exceed the production volume without performing the 90-day subchronic test.
CFR citation: 40 CFR 721.9550.

PMN Number P-90-1809

Chemical name: Benzenamine, 2,5-dibutoxy-4-(4-morpholinyl)-, sulfate.
CAS number: 130169-66-3.
Effective date of section 5(e) consent order: July 25, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to the environment.
Toxicity concern: Test data on chemicals similar in structure to the PMN substance indicate that the PMN substance may cause toxicity in aquatic organisms. Specifically, based on structurally similar anilines (benzenamines) and neutral organic compounds, EPA predicts that toxicity to aquatic organisms will occur at 2 ppb PMN substance in surface waters. EPA expected releases of the PMN substance to water to result in surface water concentrations significantly exceeding that concern level. However, the Company amended the PMN submission to state that water releases from manufacturing would be to the publicly owned treatment works located at the Passaic Valley Sewerage Commission, which discharges to the New York Bay. The concentration of the PMN substance in the plant flow is predicted to be 0.33 ppb. Therefore, EPA does not expect releases during manufacturing to result in surface water concentrations exceeding the 2 ppb concern level. However, if other release sites are used, releases to water may result in surface water concentrations significantly exceeding the concern level.
Recommended testing: EPA has determined that an acute algal study (40 CFR 797.1050), an acute daphnid study (40 CFR 797.1300), and an acute fish study (40 CFR 797.1400) will help characterize the acute aquatic toxicity effects of the PMN substance. The PMN submitter has agreed not to exceed the production limit without performing these tests.
CFR citation: 40 CFR 721.1050.

PMN Number P-90-1825

Chemical name: 2-Propenoic acid, 2-[[[[[1,3,3-trimethyl-5- [[[2-[(1-oxo-2-propenyl)oxy] ethoxy]carbonyl]amino] cyclohexyl] methyl]amino]carbonyl] oxy]ethyl ester.
CAS number: 12404-50-2.
Effective date of section 5(e) consent order: March 11, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: A 2-year two-species rodent bioassay (40 CFR 798.3300) could be performed to help characterize cancer effects of the PMN substance. Toxicity data on representative members of the acrylate/methacrylate class of chemical substances being developed by certain acrylate and methacrylate manufacturers may also be useful in evaluating the risk posed by the PMN substance.
CFR citation: 40 CFR 721.8425.

PMN Number P-90-1839

Chemical name: (generic) Dialkyldithiophosphoric acid, aliphatic amine salt.

CAS number: Not available.
Effective date of section 5(e) consent order: March 1, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be substantial human exposures.
Recommended testing: EPA has determined that the results of an Ames assay (40 CFR 798.5265), a mouse micronucleus assay by the intraperitoneal route (40 CFR 798.5395), and a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.6140.

PMN Numbers P–90–1844, P–90–1845, and P–90–1846

Chemical name: (generic) Halogenated biphenyl glycidyl ethers.
CAS number: Not available.
Effective date of section 5(e) consent order: July 2, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that these substances may present an unreasonable risk of injury to health.
Toxicity concern: Based on analogue data, the PMN substances may cause carcinogenicity, mutagenicity, reproductive toxicity, developmental, kidney, liver toxicity and neurotoxicity.
Recommended testing: The Agency has determined that the results of a 2–year two-species rodent bioassay (40 CFR 798.3300) and a 90–day subchronic (40 CFR 798.2650) would help characterize the carcinogenicity and chronic toxicity of the PMN substances.
CFR citation: 40 CFR 721.3480.

PMN Number P–91–43

Chemical name: (generic) Fluorene substituted aromatic amine.
CAS number: Not available.
Effective date of section 5(e) consent order: September 21, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health and the environment.
Toxicity concern: Similar substances have been shown to cause cancer, reproductive toxicity, hepatotoxicity, retinopathy, and aquatic toxicity in test animals and aquatic organisms, respectively.
Recommended testing: EPA has determined that an acute oral toxicity study modified with retinopathy screen in cats (40 CFR 798.1175), a 90–day subchronic toxicity study (40 CFR 798.2650), and a 2–year, two-species rodent bioassay (40 CFR 798.3300) would help characterize the human health effects of the PMN substance. The consent order contains two production limits. The PMN submitter has agreed not to exceed the first production limit without performing the acute oral toxicity study modified with retinopathy screen in cats. The PMN submitter has also agreed not to exceed the second, higher production limit without performing the 90–day subchronic oral toxicity study. In addition, a fish acute toxicity test (40 CFR 797.1400), a daphnid toxicity test (40 CFR 797.1300), and an algal toxicity test (40 CFR 797.1050) would address the environmental effects of the PMN substance.
CFR citation: 40 CFR 721.3764.

PMN Number P–91–55

Chemical name: (generic) Alkylcarbamic acid, alkynyl ester.
CAS number: Not available.
Effective date of section 5(e) consent order: June 7, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health and the environment.
Toxicity concern: Similar substances have been shown to cause acute toxicity in fish and aquatic organisms. Specifically, based on test data on similar substances, EPA predicts acute LC50 values of 0.17 ppm for fish; daphnids, and algae. Based on this test data, EPA predicts chronic toxicity to fish and aquatic organisms to occur at a concentration of 2 ppb PMN substance in surface waters.
Recommended testing: EPA has determined that the results of a fish acute toxicity test (40 CFR 797.1400), a daphnid acute toxicity test (40 CFR 797.1300), and an algal acute toxicity test (40 CFR 797.1050) would help characterize the acute toxicity effects of the PMN substance to fish and aquatic organisms.
CFR citation: 40 CFR 721.2840.

PMN Number P–91–65

Chemical name: 2,4,8,10-Tetraoxa-3,9-diphosphaspiro[5.5] undecane, 3,9-bis[2,4,6-tris(1,1-dimethylethyl)phenoxy]-.
CAS number: 126505–35–9.
Effective date of section 5(e) consent order: September 4, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause reproductive and developmental toxicity and neurotoxicity in test animals.
Recommended testing: EPA recommends a developmental oral toxicity study (rats) and a dietary subchronic (3–month) toxicity study with a neuropathology component (rats), following an in utero treatment phase to include a teratological component of the parental animals, to help characterize the human health effects. The PMN submitter has agreed not to exceed the production limit without performing these tests.
CFR citation: 40 CFR 721.9850.

PMN Number P–91–75

Chemical name: (generic) Reaction products of substituted hydroxyalkanes and polyalkylpolyisocyanatocarbomonocycle.
CAS number: Not available.
Effective date of section 5(e) consent order: March 21, 1991.
Basis for section 5(e) consent order: The order was issued under § 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be significant or substantial human exposures.
Recommended testing: EPA has determined that the results of an acute oral toxicity test (40 CFR 798.1175), an Ames assay (40 CFR 798.5265), a mouse micronucleus assay by the intraperitoneal route (40 CFR 798.5395), and a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.4300.

PMN Number P–91–222

Chemical name: Pentanenitrile, 3-amino-

CAS number: 75405–06–0.
Effective date of section 5(e) consent order: March 11, 1992.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar chemical substances have been shown to cause

developmental toxicity/osteolathyrism in test animals. Osteolathyrism is an inhibition of the enzyme lysyl oxidase which catalyzes the cross-linking of collagen and elastin. Though not reported in humans, osteolathyrism is similar to human hereditary connective tissue disorders.
Recommended testing: A one-species developmental toxicity study in rats via gavage (40 CFR 798.4900) is recommended to help characterize human health effects. The PMN submitter has agreed not to exceed the production limit without performing this test.
CFR citation: 40 CFR 721.5700.

PMN Number P-91-225

Chemical name: (generic) Tall oil fatty acids, reaction products with polyamines, alkyl substituted.
CAS number: Not available.
Effective date of section 5(e) consent order: June 13, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to the environment.
Toxicity concern: Similar substances have been shown to cause toxicity in fish and aquatic organisms at concentrations as low as 2 ppb.
Recommended testing: EPA has determined that an acute algal toxicity study (40 CFR 797.1050), an acute daphnid toxicity study (40 CFR 797.1300), an acute fish toxicity study (40 CFR 797.1400), and a humic acid test (40 CFR 795.115) would help characterize the potential toxic effects to fish and aquatic organisms. Based on test data on structurally similar compounds, EPA has learned that the presence of dissolved total organic carbon (TOC) may significantly reduce toxicity to water column species. Therefore, for this PMN substance, if the TOC significantly reduces toxicity to water column species, then testing for toxicity to benthic organisms may be required; however, if TOC does not significantly reduce the toxicity of the PMN substance to water column species, then chronic toxicity testing with fish and aquatic organisms may be required. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.9460.

PMN Number P-91-272

Chemical name: Butyl acrylate, polymer with substituted methyl styrene, methyl methacrylate, and substituted silane.
CAS number: Not available.
Effective date of section 5(e) consent order: June 17, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health.
Toxicity concern: Test data on substances similar in structure to the PMN substance indicate that the PMN substance may cause skin and eye irritation, dermal and pulmonary sensitization, cross-sensitization responses, lung and other respiratory effects, and systemic effects in laboratory animals.
Recommended testing: The consent order contains three production volume limits. The PMN submitter has agreed to the following: Not to exceed the first production volume limit without performing a dermal sensitization study (40 CFR 798.4100); not to exceed the second, higher production volume limit without performing a pulmonary sensitization study (Karol method or equivalent); and not to exceed the third and highest production volume limit without conducting a 90-day oral subchronic study (40 CFR 798.2450). These tests will help characterize the sensitization potential and possible lung effects and systemic toxicity of the PMN substance.
CFR citation: 40 CFR 721.6920.

PMN Number P-91-389

Chemical name: Zirconium(IV), [2,2-bis[(2-propenyloxy)methyl]-1-butanolato-01,02]tris(2-propenoato-*O*-)-.
CAS number: Not available.
Effective date of section 5(e) consent order: June 22, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: A 2-year rodent bioassay (40 CFR 798.3300) would help characterize carcinogenicity.
CFR citation: 40 CFR 721.9975.

PMN Number P-91-391

Chemical name: 2-Propenoic acid, 2-(2-oxo-3-oxazolidinyl) ethyl ester.
CAS number: 115965-75-8.
Effective date of section 5(e) consent order: March 5, 1992.
Basis for section 5(e) consent order: The Order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: EPA has determined that the results of a 2-year rodent bioassay (40 CFR 798.3300) would help characterize the potential carcinogenic effects of the PMN substance. Toxicity data on representative members of the acrylate/methacrylate class of chemical substances being developed by certain acrylate and methacrylate manufacturers may also be useful in evaluating the risk posed by the PMN substance.
CFR citation: 40 CFR 721.8375.

PMN Number P-91-403

Chemical name: Brominated triazine derivative.
CAS number: Not available.
Effective date of section 5(e) consent order: July 10, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause liver toxicity, male reproductive effects, and cancer in test animals.
Recommended testing: EPA has determined that a two-generation oral reproductive study (40 CFR 798.4700) on the substance is needed to help characterize the possible reproductive effects of the substance. The PMN submitter has agreed not to exceed the production limit without performing this test. In addition, a 2-year, two-species bioassay (40 CFR 798.3300) would help characterize the possible carcinogenic effect of the substance.
CFR citation: 40 CFR 721.9740.

PMN Number P-91-411

Chemical name: Oxiranemethanamine, *N,N'*-[methylenebis(2-ethyl-4,1-phenylene)]bis[*N*-(oxiranylmethyl)]-.
CAS number: 130728-76-6.
Effective date of section 5(e) consent order: May 31, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer, mutagenicity, and male reproductive toxicity in test animals. The PMN

substance is expected to act as an alkylating agent.
Recommended testing: A 90–day dermal toxicity study (40 CFR 798.2250) to help characterize toxic effects to the reproductive organs. The PMN submitter has agreed not to exceed the production limit without performing this test. In addition, the Agency has determined that the results of a 2–year, two-species oral bioassay (40 CFR 798.3300) would help characterize possible cancer effects of the substance. The PMN submitter is not required to submit this testing at any specified time or production volume.
CFR citation: 40 CFR 721.6625.

PMN Number P–91–505

Chemical name: (generic) Polymer of alkanedioic acid, methylene-biscarbomonocyclic diisocyanate, and alkylene glycols, hydroxyalkyl acrylate ester.
CAS number: Not available.
Effective date of section 5(e) consent order: June 26, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: A 2–year rodent bioassay (40 CFR 798.3300) to help characterize the carcinogenic effects.
CFR citation: 40 CFR 721.6640.

PMN Number P–91–598

Chemical name: (generic) Epoxidized copolymer of phenol and substituted phenol.
CAS number: Not available.
Effective date of section 5(e) consent order: August 21, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to human health and the environment.
Toxicity concern: For the human health concerns, similar substances have been shown to cause male reproductive effects, mutagenicity and cancer in test animals. For the environmental concerns, similar substances have been shown to cause toxicity to aquatic organisms.
Recommended testing: EPA has determined that a 90–day subchronic oral toxicity study with special attention to the reproductive organs (40 CFR 798.2650) on the PMN substance is needed to help characterize the possible reproductive effects of the substance. The PMN submitter has agreed not to exceed the production limit without performing this test. In addition, a 2–year, two-species bioassay (40 CFR 798.3300) would help characterize the possible carcinogenic effect of the substance. An algae acute toxicity test (40 CFR 797.1050), a 48-h EC50 test in daphnids, and a 96-h LC50 in fish would help characterize the aquatic toxicity of the substance.
CFR citation: 40 CFR 721.7210.

PMN Number P–91–809

Chemical name: (generic) Recovered metal hydroxide.
CAS number: Not available.
Effective date of section 5(e) consent order: December 24, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be substantial releases to the environment.
Recommended testing: EPA has determined that the results of an acute algae study (40 CFR 797.1050), a chronic daphnid study (40 CFR 797.1330) and a fish early life stage toxicity study (40 CFR 797.1600) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.4600.

PMN Number P–91–831

Chemical name: Propane, 1,1,1,2,3,3,3 heptafluoro-.
CAS number: 431–89–0.
Effective date of section 5(e) consent order: March 21, 1992. Basis for action: The order was issued under section 5(e)(1)(A)(i), (ii)(I), and (ii)(II) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health, will be produced in substantial quantities, and there may be significant or substantial human exposure to the substance.
Toxicity concern: Similar substances have been shown to cause developmental toxicity and cardiac sensitization in laboratory animals.
Recommended testing: The Agency believes that the results of the following testing would help characterize possible health effects of the substance cardiac sensitization (dogs), developmental inhalation toxicity (two species) (40 CFR 798.4350), and a 90–day inhalation toxicity (rats) (40 CFR 798.2450). The PMN submitter is required to submit the results of each before exceeding a specified production limit.
CFR citation: 40 CFR 721.8125.

PMN Number P–91–1086

Chemical name: (generic) Polymer of disodium maleate, allyl ether, and ethylene oxide.
CAS number: Not available.
Effective date of section 5(e) consent order: December 19, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be substantial human exposures.
Recommended testing: EPA has determined that the results of a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing this test.
CFR citation: 40 CFR 721.7000.

PMN Number P–91–1153

Chemical name: (generic) Acrylate substituted siloxanes and silicones.
CAS number: Not available.
Effective date of section 5(e) consent order: December 19, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(I) of TSCA based on a finding that this substance may present an unreasonable risk of injury to health.
Toxicity concern: Similar substances have been shown to cause cancer in test animals.
Recommended testing: A 2–year rodent bioassay (40 CFR 798.3300) to help characterize carcinogenic effects.
CFR citation: 40 CFR 721.9525.

PMN Numbers P–91–1231, 1232, 1233, 1234, and 1235

Chemical name: (generic) Reaction products of phenolic pentaerythritol tetraester with fatty acid oils and esters, and glyceride triesters.
CAS number: Not available.
Effective date of section 5(e) consent order: January 17, 1992
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be significant or substantial human exposures.
Recommended testing: A fish bioconcentration test (40 CFR 798.5395) would help characterize the environmental fate of the substance. A one-species developmental toxicity test (40 CFR 798.4900) would help characterize possible toxic effects of the

substance. The consent order contains two production volume limits. The PMN submitter has agreed not to exceed the first production volume limit without performing a fish bioconcentration study on P–91–1232 or P–91–1234. The PMN submitter has also agreed not to exceed the second higher production volume limit without performing the developmental toxicity study on the substance tested in the fish bioconcentration study described above.
CFR citation: 40 CFR 721.9400.

PMN Number P–91–1250

Chemical name: (generic)Pentaerythritol, mixed esters with carboxylic acids.
CAS number: Not available.
Effective date of section 5(e) consent order: December 24, 1991.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be substantial human exposure.
Recommended testing: EPA has determined that the results of a mouse micronucleus assay by the intraperitoneal route (40 CFR 798.5395), and a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.5660.

PMN Number P–91–1269

Chemical name: (generic) Polyalkylene glycol substituted acetate.
CAS number: Not available.
Effective date of section 5(e) consent order: January 27, 1992.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be substantial releases to the environment.
Recommended testing: EPA has determined that the results of an acute fish toxicity test (40 CFR 797.1400), an acute daphnid toxicity test (40 CFR 797.1300), a green algal toxicity test (40 CFR 797.1050), an anaerobic biodegradation study (40 CFR 796.3140), and an aquatic aerobic biodegradation study performed according to any of the following guidelines: 40 CFR 796.3100, 40 CFR 796.3180, 40 CFR 796.3200, 40 CFR 796.3220, 40 CFR 796.3240, or 40 CFR 796.3260, would help characterize possible aquatic and environmental fate effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.3880.

PMN Number P–91–1392

Chemical name: Ethane, 1,1,1,2,2 pentafluoro-.
CAS number: 354-33-6.
Effective date of section 5(e) consent order: March 19, 1992.
Basis for section 5(e) consent order: The Order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be significant or substantial human exposures.
Recommended testing: EPA has determined that the results of a cardiac sensitization study in dogs, a two-species developmental inhalation toxicity study (40 CFR 798.4350), and a 90–day inhalation toxicity study in rats (40 CFR 798.2450) would help characterize possible effects of the substance. The consent order contains three production limits. The PMN submitter has agreed not to exceed the first production limit without performing the cardiac sensitization study, the second higher production limit without performing the developmental toxicity studies, and the highest production limit without performing the 90–day study.
CFR citation: 40 CFR 721.3240.

PMN Number P–91–1418

Chemical name: (generic) Modified hydrocarbon resin.
CAS number: Not available.
Effective date of section 5(e) consent order: March 14, 1992.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and there may be substantial human exposures.
Recommended testing: EPA has determined that the results of an acute oral toxicity test (40 CFR 798.1175), an Ames assay (40 CFR 798.5265), a mouse micronucleus assay by the intraperitoneal route (40 CFR 798.5395), and a 28–day repeated dose oral study in rats (OECD Guideline No. 407) would help characterize possible human health effects of the substance. The PMN submitter has agreed not to exceed the production volume limit without performing these tests.
CFR citation: 40 CFR 721.4380.

PMN Number P–92–63

Chemical name: (generic) Reaction product of ethoxylated fatty acid oils and a phenolic pentaerythritol tetraester.
CAS number: Not available.
Effective date of section 5(e) consent order: March 20, 1992.
Basis for section 5(e) consent order: The order was issued under section 5(e)(1)(A)(i) and (ii)(II) of TSCA based on a finding that this substance is expected to be produced in substantial quantities and may enter the environment in substantial quantities.
Recommended testing: EPA has determined that the results of a water solubility study (40 CFR 796.1840 or 796.1860), a soil/sediment adsorption study (40 CFR 796.2750), an aerobic biodegradation study (40 CFR 796.3100) and an anaerobic biodegradation study (40 CFR 796.3140) would help characterize possible effects of the substance. The consent order contains two production volume limits. The PMN submitter has agreed not to exceed the first production volume limit without performing the water solubility study, the soil/sediment adsorption study, and the aerobic biodegradation study. The PMN submitter has also agreed not to exceed the second higher production volume limit without performing the anaerobic biodegradation study.
CFR citation: 40 CFR 721.9280.

IV. Objectives and Rationale of the Rule

During review of the PMNs submitted for the chemical substances that are subject to this SNUR, EPA concluded that for these substances, regulation was warranted under section 5(e) of TSCA pending the development of information sufficient to make reasoned evaluations of the health or environmental effects of the substances. The bases for such findings are outlined in Unit III. of this preamble. Based on these findings, section 5(e) consent orders requiring the use of appropriate controls were negotiated with the PMN submitters. The SNUR provisions for these substances designated herein are consistent with the provisions of the section 5(e) orders.

EPA is issuing this SNUR for specific chemical substances which have undergone premanufacture review to ensure the following objectives: That EPA will receive notice of any company's intent to manufacture, import, or process a listed chemical substance for a significant new use before that activity begins; that EPA will have an opportunity to review and evaluate data submitted in a SNUR notice before the notice submitter begins manufacturing, importing, or processing a listed chemical substance for a significant new use; that, when

necessary to prevent unreasonable risks, EPA will be able to regulate prospective manufacturers, importers, or processors of a listed chemical substance before a significant new use of that substance occurs; and that all manufacturers, importers, and processors of the same chemical substance which is subject to a section 5(e) order are subject to similar requirements. Issuance of a final effective SNUR for a chemical substance does not signify that the substance is contained on the TSCA Inventory. Manufacturers, importers, and processors are responsible for insuring that a new chemical substance subject to a final SNUR is contained on the TSCA Inventory.

V. Direct Final Procedure

EPA is issuing these SNURs as direct final rules, as described in § 721.160(c)(3) and 721.170(d)(4). In accordance with § 721.160(c)(3)(ii), this rule will be effective November 23, 1992, unless EPA receives a written notice by October 23, 1992 that someone wishes to make adverse or critical comments on EPA's action. If EPA receives such a notice, EPA will publish a notice to withdraw the direct final SNUR(s) for the specific substance(s) to which the adverse or critical comments apply. EPA will then propose a SNUR for the specific substance(s) providing a 30–day comment period.

This action establishes SNURs for 65 chemical substances. Any person who submits a notice of intent to submit adverse or critical comments must identify the substance and the new use to which it applies. EPA will not withdraw a SNUR for a substance not identified in a notice.

VI. Test Data and Other Information

EPA recognizes that section 5 of TSCA does not require the development of any particular test data before submission of a SNUR notice. Persons are required only to submit test data in their possession or control and to describe any other data known to or reasonably ascertainable by them. In cases where a section 5(e) order requires or recommends certain testing, Unit III. of this preamble lists those recommended tests.

However, EPA has established production limits in the section 5(e) orders for several of the substances regulated under this rule, in view of the lack of data on the potential health and environmental risks that may be posed by the significant new uses or increased exposure to the substances. These production limits cannot be exceeded unless the PMN submitter first submits the results of toxicity tests that would permit a reasoned evaluation of the potential risks posed by these substances. Under recent consent orders, each PMN submitter is required to submit each study at least 14 weeks (earlier orders required submissions at least 12 weeks) before reaching the specified production limit. Listings of the tests specified in the section 5(e) orders are included in Unit III. of this preamble. The SNURs contain the same production volume limits as the consent orders. Exceeding these production limits is defined as a significant new use.

The recommended studies may not be the only means of addressing the potential risks of the substance. However, SNUR notices submitted for significant new uses without any test data may increase the likelihood that EPA will take action under section 5(e), particularly if satisfactory test results have not been obtained from a prior submitter. EPA recommends that potential SNUR notice submitters contact EPA early enough so that they will be able to conduct the appropriate tests before exceeding the production limit.

SNUR notice submitters should be aware that EPA will be better able to evaluate SNUR notices which provide detailed information on:

(1) Human exposure and environmental release that may result from the significant new use of the chemical substances.

(2) Potential benefits of the substances.

(3) Information on risks posed by the substances compared to risks posed by potential substitutes.

VII. Procedural Determinations

EPA is establishing through this rule some significant new uses which have been claimed as CBI. EPA has decided it is appropriate to keep this information confidential to protect the interest of the original PMN submitter. EPA promulgated a procedure to deal with the situation where a specific significant new use is CBI. This procedure appears in § 721.575(b)(1) and is similar to that in § 721.11 for situations where the chemical identity of the substance subject to a SNUR is CBI. This procedure is cross-referenced in each of these SNURs.

A manufacturer or importer may request that EPA determine whether a proposed use would be a significant new use under this rule. Under the procedure incorporated from § 721.575(b)(1), a manufacturer or importer must show that it has a *bona fide* intent to manufacture or import the substance and must identify the specific use for which it intends to manufacture or import the substance. If EPA concludes that the person has shown a *bona fide* intent to manufacture or import the substance, EPA will tell the person whether the use identified in the *bona fide* submission would be a significant new use under the rule. Since most of the chemical identities of the substances subject to these SNURs are also CBI, manufacturers and processors can combine the *bona fide* submission under the procedure in § 721.575(b)(1) with that under § 721.11 into a single step.

If a manufacturer or importer is told that the production volume identified in the *bona fide* submission would not be a significant new use, i.e. it is below the level that would be a significant new use, that person can manufacture or import the substance as long as the aggregate amount does not exceed that identified in the *bona fide* submission to EPA. If the person later intends to exceed that volume, a new *bona fide* submission would be necessary to determine whether that higher volume would be a significant new use. EPA is considering whether to adopt a special procedure for use when CBI production volume is designated as a significant new use. Under such a procedure, a person showing a *bona fide* intent to manufacture or import the substance, under the procedure described in § 721.11, would automatically be informed of the production volume that would be a significant new use. Thus the person would not have to make multiple *bona fide* submissions to EPA for the same substance to remain in compliance with the SNUR, as could be the case under the procedures in § 721.575(b)(1).

VIII. Applicability of Rule to Uses Occurring Before Effective Date of the Final Rule

To establish a significant "new" use, EPA must determine that the use is not ongoing. The chemical substances subject to this rule have recently undergone premanufacture review. Section 5(e) orders have been issued for each substance and notice submitters are prohibited by the section 5(e) orders from undertaking activities which EPA is designating as significant new uses. In cases where EPA has not received a Notice of Commencement and the substance has not been added to the Inventory, no other person may commence such activities without first submitting a PMN. For substances for which an NOC has not been submitted at this time, EPA has concluded that the uses are not ongoing. EPA recognizes in cases when chemical substances identified in this SNUR are added to the

Inventory prior to the effective date of the rule, the substances may be manufactured, imported, or processed by other persons for a significant new use as defined in this rule before the effective date of the rule. However, 44 of the 65 substances contained in this rule have CBI chemical identities, and since EPA has received a limited number of post-PMN *bona fide* submissions, the Agency believes that it is highly unlikely that any of the significant new uses described in the following regulatory text are ongoing.

As discussed at 55 FR 17376 (April 24, 1990), EPA has decided that the intent of section 5(a)(1)(B) is best served by designating a use as a significant new use as of this date of publication rather than as of the effective date of the rule. Thus, persons who begin commercial manufacture, import, or processing of the substances regulated through this SNUR will have to cease any such activity before the effective date of this rule. To resume their activities, these persons would have to comply with all applicable SNUR notice requirements and wait until the notice review period, including all extensions, expires. EPA has promulgated provisions to allow persons to comply with this SNUR before the effective date. If a person were to meet the conditions of advance compliance in § 721.45(h) (53 FR 28354, July 17, 1988), the person will be considered to have met the requirements of the final SNUR for those activities. If persons who begin commercial manufacture, import, or processing of the substance between publication and the effective date of the SNUR do not meet the conditions of advance compliance, they must cease that activity before the effective date of the rule. To resume their activities, these persons would have to comply with all applicable SNUR notice requirements and wait until the notice review period, including all extensions, expires.

IX. Economic Analysis

EPA has evaluated the potential costs of establishing significant new use notice requirements for potential manufacturers, importers, and processors of the chemical substance subject to this rule. EPA's complete economic analysis is available in the public record for this rule (OPPTS–50601).

X. Rulemaking Record

EPA has established a record for this rulemaking (docket control number OPPTS–50601). The record includes information considered by EPA in developing this rule.

A public version of the record without any confidential business information is available in the TSCA Public Docket Office from 8 a.m. to 12 p.m. and 1 p.m. to 4 p.m., Monday through Friday, except legal holidays. The TSCA Public Docket Office is located at rm. NE-G004, 401 M St., SW., Washington, DC. Any person who submits comments claimed as CBI must mark the comments as "confidential", "trade secret", or other appropriate designation. Comments not claimed as confidential at the time of submission will be placed in the public file. Any comments marked as confidential will be treated in accordance with the procedures in 40 CFR part 2.

Any person submitting comments claimed to be confidential must prepare and submit a nonconfidential public version in triplicate of the comments that EPA can place in the public file.

XI. Regulatory Assessment Requirements

A. Executive Order 12291

Under Executive Order 12291, EPA must judge whether a rule is "major" and therefore requires a Regulatory Impact Analysis. EPA has determined that this rule will not be a "major" rule because it will not have an effect on the economy of $100 million or more, and it will not have a significant effect on competition, costs, or prices. While there is no precise way to calculate the total annual cost of compliance with this rule, EPA estimates that the cost for submitting a significant new use notice would be approximately $4,552 to $12,166, including a $2,500 user fee payable to EPA to offset EPA costs in processing the notice. EPA believes that, because of the nature of the rule and the substances involved, there will be few SNUR notices submitted. Furthermore, while the expense of a notice and the uncertainty of possible EPA regulation may discourage certain innovation, that impact will be limited because such factors are unlikely to discourage an innovation that has high potential value.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

B. Regulatory Flexibility Act

Under the Regulatory Flexibility Act (5 U.S.C. 605(b)), EPA has determined that this rule would not have a significant impact on a substantial number of small businesses. EPA has not determined whether parties affected by this rule would likely be small businesses. However, EPA expects to receive few SNUR notices for the substances. Therefore, EPA believes that the number of small businesses affected by this rule will not be substantial, even if all of the SNUR notice submitters were small firms.

C. Paperwork Reduction Act.

The information collection requirements contained in this rule have been approved by OMB under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), and have been assigned OMB control number 2070–0012.

Public reporting burden for this collection of information is estimated to vary from 30 to 170 hours per response, with an average of 100 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; and to Office of Management and Budget, Paperwork Reduction Project (2070–0012), Washington, D.C. 20503.

List of Subjects in 40 CFR Part 721

Chemicals, Environmental protection, Hazardous materials, Reporting and recordkeeping requirements, Significant new uses.

Dated:_____

_____

Assistant Administrator for Prevention, Pesticides and Toxic Substances.

Therefore, 40 CFR part 721 is amended as follows:

PART 721—[AMENDED]

1. The authority citation for part 721 continues to read as follows:

Authority: 15 U.S.C. 2604, and 2607, and 2625(c).

2. By adding new § 721.1050 subpart E to read as follows:

§ 721.1050 Benzenamine, 2,5-dibutoxy-4-(4-morpholinyl)-, sulfate

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified as benzenamine, 2,5-dibutoxy-4-(4-morpholinyl), sulfate (PMN P–90–1809; CAS number 130169–66–3) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (f), (g)(3)(ii), (g)(4)(i) and (g)(5).

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(iii) *Release to water.* Requirements as specified in § 721.90(a)(1), unless the substance is released to the Passaic Valley Sewerage Commission publicly-owned treatment works (NPDES Number NJ0021016) which discharges to the New York Bay.

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (f) through (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

3. By adding new § 721.1075 to subpart E read as follows:

§ 721.1075 Benzenamine, 4-(1-methylbutoxy)-, hydrochloride.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as benzenamine, 4-(1-methylbutoxy)-, hydrochloride (PMN P–90–559) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(4), (a)(5)(i), (a)(5)(ii), (a)(5)(iii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(i), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(ii), (g)(4)(iii), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Modifications or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

4. By adding new § 721.1210 to subpart E to read as follows:

§ 721.1210 Benzene, (2-chloroethoxy)-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as benzene, (2-chloroethoxy)- (PMN P–87–1471) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3) (applies to gloves only), (a)(4), (a)(5)(iii), (a)(6)(v), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b)(2), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vii), (g)(2)(ii), (g)(2)(iv), (g)(2)(v), (g)(3)(i), (g)(3)(ii), (g)(4)(i), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(j).

(iv) *Disposal.* Requirements as specified in § 721.85(a)(1), (b)(1) and (c)(1). Disposal other than as described in the premanufacture notice referenced in paragraph (a)(1) of this section.

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

5. By adding new § 721.1325 to subpart E to read as follows:

§ 721.1325 Benzene, 1-(1-methylbutoxy)-4-nitro-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as benzene, 1-(1-methylbutoxy)-4-nitro- (PMN P–90–560) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(6)(i), (b) (concentration set at 1.0 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72 (a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vi), (g)(1)(ix), (g)(2)(i), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l) and (p) (production limit set at 43,000 kg).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Modifications or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

6. By adding new § 721.1650 to subpart E to read as follows:

§ 721.1650 Alkylbenzenesulfonic acid and sodium salts.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substances identified generically as alkyl benzenesulfonic acid and sodium salts (PMNs P–88–1783, P–88–2231, P–88–2237, and P–88–2530) are subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer

becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

7. By adding new § 721.1745 to read as follows:

§ 721.1745 Ethoxybenzothiazole disulfide.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance generically identified as ethoxybenzothiazole disulfide (PMN P–90–1384) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(4), (a)(5)(i) through (vii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vii), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), and (g)(5).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (d) and (f) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

8. By adding new § 721.1950 to subpart E to read as follows:

§ 721.1950 2-Butenedioic acid (Z), mono(2-((1-oxopropenyloxy)ethyl) ester.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified as 2-butenedioic acid (*Z*), mono(2-((1-oxopropenyloxy)ethyl) ester (PMN P–85–543) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iv), (a)(6)(v), (a)(6)(vi), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(b)(2), (c), (d), (e) (concentration set at 0.1 percent), (f) (g)(1)(iii), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v) and (g)(5). The provision of § 721.72(d) requiring that employees to be provided with information on the location and availability of a written hazard communication program does not apply when the written program is not required under § 721.72(a).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l).

(iv) *Disposal.* Requirements as specified in § 721.85(a)(1), (a)(2), (b)(1), (b)(2), (c)(1), and (c)(2).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* The following recordkeeping requirements are applicable to manufacturers, importers, and processors of this substance: § 721.125(a) through (j).

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

9. By adding new § 721.2140 to subpart E to read as follows:

§ 721.2140 Carbopolycyclicol azoalkylaminoalkylcarbomonocyclic ester, halogen acid salt.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance generically identified as carbopolycyclicol azoalkylaminoalkylcarbomonocyclic ester, halogen acid salt (PMN P–88–1682) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b)(2), (c), (d), (f), (g)(3)(ii), (g)(4)(i), and (g)(5).

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(iii) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4) and (c)(4) (where N = 1 ppb).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (f), (g), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

10. By adding new § 721.2225 to subpart E to read as follows:

§ 721.2225 Cyclohexanecarbonitrile, 1,3,3-trimethyl-5-oxo-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as cyclohexanecarbonitrile, 1,3,3-trimethyl-5-oxo- (PMN P–90–1358; CAS number 7027–11–4) is subject to reporting under this section for the

significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(6)(v), (b) (concentration set at 0.1 percent) and (c). For the manufacturing workers only, additional requirements as specified in § 721.63(a)(4), (a)(5)(i), (a)(5)(ii), (a)(5)(iii), and (a)(6)(v). The respirators described at § 721.63(a)(5)(xii), (a)(5)(xiii), (a)(5)(xiv), and (a)(5)(xv) may be used by the manufacturing workers exposed via inhalation only after cartridge service life data on cartridge performance is submitted to and approved in writing by EPA.

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(v), and (g)(5). The statement required under (g)(2)(iv) applies only to manufacturers of the substance. In addition, the following human health hazard statement shall appear on each label and MSDS required by this section: This substance may cause neurotoxicity, systemic toxicity, and eye irritation.

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(g) and (q).

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

11. By adding new § 721.2250 to subpart E to read as follows:

§ 721.2250 1,4-Cyclohexanediamine, cis- and trans-.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substances identified as 1,4-cyclohexanediamine, *cis-* and *trans-* (PMNs P–87–1881 and P–87–1882; CAS numbers 15827–56–2 and 2615–25–0) are subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (f), (g)(3)(ii), (g)(4)(iii), (g)(5).

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l).

(iii) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (f), (g), (h), (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

12. By adding new § 721.2475 to subpart E to read as follows:

§ 721.2475 Dimetridazole.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified generically as dimetridazole (P–90–1308) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(4), (a)(5)(i), (a)(5)(ii), (a)(5) (iii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(iii), (g)(1)(vi), (g)(1)(vii), (g)(1)(ix), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v) and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f) and (q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

13. By adding new § 721.2840 to subpart E to read as follows:

§ 721.2840 Alkylcarbamic acid, alkynyl ester.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as alkylcarbamic acid, alkynyl ester (PMN P–91–55) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (f), (g)(3)(i), (g)(3)(ii), (g)(4)(i), (g)(4)(iii), and (g)(5).

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(g).

(iii) *Disposal.* Requirements as specified in § 721.85 (a)(1), (b)(1), and (c)(1).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (f) through (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

14. By adding new § 721.3240 to read as follows:

§ 721.3240 Ethane, 1,1,1,2,2-pentafluoro-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as ethane, 1,1,1,2,2-pentafluoro- (PMN P–91–1392) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer

becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who have received, or will receive, this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070-0012)

15. By adding new § 721.3260 to subpart E to read as follows:

§ 721.3260 Ethanediimidic acids.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substances identified as ethanediimidic acids (PMNs P-90-1472 and P-90-1473), are subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(4), (a)(5)(i), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e), (concentration set at 0.1 percent), (f), (g)(1)(iv), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(4)(ii), (g)(4)(iii), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(1) and (b)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070-0012)

16. By adding new § 721.3480 to subpart E to read as follows:

§ 721.3480 Halogenated biphenyl glycidyl ethers.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substances identified generically as halogenated biphenyl glycidyl ethers (PMNs P-90-1844, P-90-1845, and P-90-1846) are subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(4), (a)(5)(i), (a)(6)(i), (b) (concentration set at 0.1 percent) and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(i), (g)(1)(ii), (g)(1)(iii), (g)(1)(iv), (g)(1)(vi), (g)(i)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(ii) and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070-0012)

17. By adding new § 721.3700 to subpart E to read as follows:

§ 721.3700 Fatty acid, ester with styrenated phenol, ethylene oxide adduct.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified generically as fatty acid, ester with styrenated phenol, ethylene oxide adduct (P-90-364) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (f), (g)(3)(ii), and (g)(5).

(ii) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4), and (c)(4) (where N = 400 ppb).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (f), (g), (h), (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070-0012)

18. By adding new § 721.3764 to subpart E to read as follows:

§ 721.3764 Fluorene substituted aromatic amine.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as fluorene containing diaromatic amine (PMN P-91-43) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(iii), (a)(3), (a)(4), (a)(5)(i), (a)(5)(ii), (a)(5)(iii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c). However, these requirements do not apply after the PMN substance is adhered onto film or incorporated into prepreg form (resin impregnated substrate).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(iv), (g)(1)(vi), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(i), (g)(3)(ii), (g)(4)(iii), and (g)(5). In addition, the human health hazard statement shall include a statement that this substance may cause blindness and the human health precautionary statement shall include the statement: When using this substance, use eye protection.

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l) and (q).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

19. By adding new § 721.3800 to subpart E to read as follows:

§ 721.3800 Formaldehyde, condensated polyoxyethylene fatty acid, ester with styrenated phenol, ethylene oxide adduct.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified generically as formaldehyde, condensated polyoxyethylene fatty acid, ester with styrenated phenol, ethylene oxide adduct (PMN P–90–360) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (f), (g)(3)(ii), and (g)(5).

(ii) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4) and (c)(4) (where N = 400 ppb).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (f), (g), (h), (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

20. By adding new § 721.3880 to read as follows:

§ 721.3880 Polyalkylene glycol substituted acetate.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as polyalkylene glycol substituted acetate (PMN P–91–1269) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to the environment, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance from the employer, or who have received this substance from the employer within 5 years from the date the employer becomes aware of this new information described in paragraph (a)(2)(i)(A) of this section, are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (f), (g), (h), (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

21. By adding new § 721.4260 to subpart E to read as follows:

§ 721.4260 Hydrazine, [4-(1-methylbutoxy)phenyl]-, monohydrochloride.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as hydrazine, [4-(1-methylbutoxy)phenyl]-, monohydrochloride (PMN P–90–558; CAS number 124993–63–1) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(4), (a)(5)(i), (a)(5)(ii), (a)(5)(iii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(i), (g)(1)(iv), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(ii), (g)(4)(iii), and (g)(5). In addition, the following human health hazard statement shall appear on each label and MSDS required by this section: This substance may cause eye irritation.

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(l) and (p) (production limit set at 15,500 kg).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Modification or revocation of certain notification requirements.* The

provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

22. By adding new § 721.4380 to read as follows:

§ 721.4380 Modified hydrocarbon resin.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a modified hydrocarbon resin (P–91–1418) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance from the employer, or who have received the substance from the employer within 5 years from the date the employer becomes aware of the information described in paragraph (a)(2)(i)(A) of this section, are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

23. By adding new § 721.4520 to subpart E to read as follows:

§ 721.4520 Isopropylidene, bis(1,1-dimethylpropyl) derivative.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as isopropylidene, bis(1,1-dimethylpropyl) derivative (PMN P–85–648) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(2)(i), (a)(2)(ii), (a)(2)(iii), (a)(3)(applies to gloves only), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b)(2), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vii), (g)(2)(i), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(k).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(2)(ii), (b)(2)(ii), and (c)(2)(ii).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

24. By adding new § 721.4600 to read as follows:

§ 721.4600 Recovered metal hydroxide.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a recovered metal hydroxide (PMN P–91–809) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to the environment, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance from the employer, or who have received this substance from the employer within 5 years from the date the employer becomes aware of the new information described under paragraph (a)(2)(i)(A) of this section, are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

25. By adding new § 721.5300 to subpart E to read as follows:

§ 721.5300 Neodecaneperoxoic acid, 1,1,3,3-tetramethylbutyl ester.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as neodecaneperoxoic acid, 1,1,3,3-tetramethylbutyl ester (PMN P–89–764; CAS number 51240–95–0) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), and (b) (concentration set at 0.1 percent).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vii), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(b), (c), and (l).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) Recordkeeping requirements . Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

26. By adding new § 721.5450 to subpart E to read as follows:

§ 721.5450 α-Olefin sulfonate, sodium salt.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as α-olefin sulfonate, sodium salt (PMN P–88–2210) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(1)(i)(A) within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

27. By adding new § 721.5475 to subpart E to read as follows:

§ 721.5475 1-Oxa-4-azaspiro[4.5]decane, 4-dichloroacetyl-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as 1-oxa-4-azaspiro[4.5]decane, 4-dichloroacetyl- (PMN P–86–1648, CAS number 71526-07-3) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3) (applies to gloves only), (a)(4), (a)(5)(i), (a)(5)(ii), (a)(5)(iii), (a)(5)(iv), (a)(6)(i), (b) (concentration set at 1.0 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b)(2), (c), (d), (e) (concentration set at 1.0 percent), (f), (g)(1)(ix), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f) and (k). (iv) *Disposal.* Requirements as specified in § 721.85(a)(1), (b)(1) and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (j) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

28. By adding new § 721.5660 to read as follows:

§ 721.5660 Pentaerythritol, mixed esters with carboxylic acids.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as pentaerythritol, mixed esters with carboxylic acids (PMN P–91–1250) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the

substance is reintroduced into the workplace.

(B) The employer must ensure that persons who have received, or will receive, this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

29. By adding new § 721.5700 to read as follows:

§ 721.5700 Pentanenitrile, 3-amino-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as pentanenitrile, 3-amino- (PMN P–91–222; CAS number 75405–06–0) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(3), (a)(4), during both drumming and transfer of the substance requirements as specified in § 721.63(a)(5)(i), (a)(5)(ii), and (a)(5)(iii) apply, and during transfer (but not drumming) of the substance, requirements as specified in § 721.63(a)(5)(xii), (a)(5)(xiii), (a)(5)(xiv), and (a)(5)(xv) apply following submittal by the company, and written approval by the EPA, of the results of cartridge service life testing performance in accordance with *Interim Recommendations for Determining Organic Vapor Cartridge Service Life for Category 23C Respirators* (available through the TSCA Assistance Office), or equivalent, which demonstrates the effectiveness of the organic vapor cartridge, (a)(6)(v), (b) (concentration set at 1.0 percent), and (c). The requirements specified in § 721.63(a)(4) and (5) apply only during drumming activities and during transfer of liquid PMN substance from a process vessel into a tank, truck, or rail car.

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 1.0 percent), (f), (g)(1)(i), (g)(1)(ix), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

30. By adding new § 721.6140 to subpart E to read as follows:

§ 721.6140 Dialkyldithiophosphoric acid, aliphatic amine salt.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a dialkyldithiophosphoric acid, aliphatic amine salt (P–90–1839) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons will receive this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

31. By adding new § 721.6160 to subpart E to read as follows:

§ 721.6160 Piperazinone, 1,1',1"-[1,3,5-triazine-2,4,6-triyltris[(cyclohexylimino)-2,1-ethanediyl]]tris-[3,3,4,5,5-pentamethyl]-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as piperazinone, 1,1',1"-[1,3,5-triazine-2,4,6-triyltris [(cyclohexylimino)-2,1-ethanediyl]]tris-[3,3,4,5,5-pentamethyl]- (PMN P–89–589; CAS number 130277–45–1) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63 (a)(4), (a)(5)(iv) through (vii), (a)(6)(i), (b) (concentration set at 1.0 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72 (a), (b), (c), (d) (e) (concentration set at 1.0 percent), (f), (g)(1)(iv), (g)(1)(vi), (g)(1)(viii), (g)(2)(ii), (g)(2)(iv), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (d), and (f) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

32. By adding new § 721.6620 to subpart E to read as follows:

§ 721.6620 Alkanaminium, polyalkyl-[(2-methyl-1-oxo-2-propenyl)oxy] salt, polymer with acrylamide and substituted alkyl methacrylate.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as alkanaminium, polyalkyl-[(2-methyl-1-oxo-2-propenyl)oxy] salt, polymer with acrylamide and substituted alkyl methacrylate (PMN P–87–252) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(p) (production limit set at 680,000 kg).

(ii) *Release to water.* Requirements as specified in § 721.85(a)(4), (b)(4) and (c)(4) (concentration set at 40 ppb).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), (i), and (j) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

33. By adding new § 721.6625 to subpart E to read as follows:

§ 721.6625 Oxiranemethanamine, N,N'-[methylenebis(2-ethyl-4,1-phenylene)]bis[N-(oxiranylmethyl)]-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as oxiranemethanamine, *N,N'*-[methylenebis(2-ethyl-4,1-phenylene)]bis[*N*-(oxiranylmethyl)]- (PMN P–91–411; CAS number 130728–76–6) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(vi), (g)(1)(vii), (g)(2)(i), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f), (o), and (q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

34. By adding new § 721.6640 to subpart E to read as follows:

§ 721.6640 Polymer of alkanedioic acid, methylenebiscarbomonocyclic diisocyanate, and alkylene glycols, hydroxyalkyl acrylate ester.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified generically as a polymer of alkanedioic acid, methylenebiscarbomonocyclic diisocyanate, and alkylene glycols, hydroxyalkyl acrylate ester (PMN P–91–505) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iv), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (h)(1)(i)(A), (h)(1)(i)(B), (h)(1)(i)(C), (h)(1)(vi), (h)(2)(i)(B), (h)(2)(i)(C), (h)(2)(i)(D), and (h)(2)(iii)(A).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

35. By adding new § 721.6920 to subpart E to read as follows:

§ 721.6920 Butyl acrylate, polymer with substituted methyl styrene, methyl methacrylate, and substituted silane.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as butyl acrylate, polymer with substituted methyl styrene, methyl methacrylate, and substituted silane (PMN P–91–272) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(iii), (a)(3), (a)(4), (a)(5)(ii), (a)(5)(viii), (a)(5)(ix), (a)(6)(ii), (b) (concentration set at 1.0 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 1.0 per cent), (f), (g)(1)(i), (g)(1)(ii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(p) (volume set at 90,000 kg), (volume set at 512,000 kg), (volume set at 1,235,000 kg).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

36. By adding new § 721.7000 to read as follows:

§ 721.7000 Polymer of disodium maleate, allyl ether, and ethylene oxide.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a polymer of disodium maleate, allyl ether, and ethylene oxide (P–91–1086) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who have received, or will receive, this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* The following recordkeeping requirements are applicable to manufacturers, importers, and processors of this substance, as specified in § 721.125(a), (h), and (i).

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

37. By adding new § 721.7200 to subpart E to read as follows:

§ 721.7200 Perfluoroalkyl aromatic carbamate modified alkyl methacrylate copolymer.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as perfluoroalkyl aromatic carbamate modified alkyl methacrylate copolymer (PMN P–87–1555) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements asspecified in § 721.72 (a), (b), (c), (d), (e) (concentration set at 0.1 percent for cancer; 1,0 percent for other effects), (f), (g)(1)(ii), (g)(2)(ii), and (g)(5). In addition, the following human health hazard statement shall appear on each label and MSDS required by this section: This substance may cause lung effects.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o) and (q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (f) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

38. By adding new § 721.7210 to subpart E to read as follows:

§ 721.7210 Epoxidized copolymer of phenol and substituted phenol.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as epoxidized copolymer of phenol and substituted phenol (P–91–598) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63 (a)(1), (a)(3), (a)(4), (a)(5)(iv), (a)(5)(v), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72 (a) through (e) (concentration set at 0.1 percent), (f), (g)(1)(vi), (g)(1)(vii), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(i), (g)(3)(ii), (g)(4)(iii), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(iv) *Release to water.* Requirements as specified in § 721.90 (a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i), and (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

39. By adding new § 721.8125 to read as follows:

§ 721.8125 Propane, 1,1,1,2,3,3,3-heptafluoro-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as propane, 1,1,1,2,3,3,3-heptafluoro- (PMN P–91–831; CAS number 431–89–0) is subject to reporting under this section for the significant new

uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q), use in aerosol products intended for consumer use. This restriction does not apply to use of the PMN substance in fire extinguishing apparatus or systems.

(ii) [Reserved]

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) (b), (c), (f), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

40. By adding new § 721.8250 to subpart E to read as follows:

§ 721.8250 1-Propanol, 3,3'-oxybis[2,2-bis(bromomethyl)]

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as 1-propanol, 3,3'-oxybis[2,2-bis(bromomethyl)]- (PMN P–87–1273) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3)(applies to gloves only), (a)(4), (a)(5)(iv), (a)(5)(v), (a)(5)(vi), (a)(5)(vii), (a)(6)(i), (a)(6)(ii), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements asspecified in § 721.72(a), (b)(2), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(iv), (g)(1)(vi), (g)(1)(vii), (g)(1)(ix), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(v), and (g)(5). In addition, the human health hazard statement shall include a statement that this substance may cause acute and chronic toxicity.

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(f) and (p). In addition, use other than as a flame retardant additive is a significant new use.

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i), and (j) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

41. By adding new § 721.8375 to subpart E to read as follows:

§ 721.8375 2-Propenoic acid, 2-(2-oxo-3-oxazolidinyl)ethyl ester.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified as 2-propenoic acid, 2-(2-oxo-3-oxazolidinyl)ethyl ester (PMN P–91–391) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iii), (a)(6)(iv), (a)(6)(v), (a)(6)(vi), (b) (concentration set at 0.1 percent), and (c). Based on organic vapor cartridge service life data available on the PMN substance, respirator cartridges shall be changed at least every 8 h.

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (h)(1)(i)(A), (h)(1)(i)(B), (h)(1)(vi), (h)(2)(i)(B), (h)(2)(i)(D), and (h)(2)(iii)(A). In addition to the preceding statements, the label and MSDS shall contain the following statement: Use respiratory protection when there is a reasonable likelihood of exposure in the work area from dust, mist, smoke, fumes, vapor, or gas.

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* The following recordkeeping requirements are applicable to manufacturers, importers, and processors of this substance: § 721.125(a) through (i).

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

42. By adding new § 721.8425 to subpart E to read as follows:

§ 721.8425 2-Propenoic acid, 2-[[[[[1,3,3-trimethyl-5- [[[2-[(1-oxo-2-propenyl)oxy] ethoxy]carbonyl]amino]cyclohexyl]methyl] amino]carbonyl]oxy]ethyl ester.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified as 2-propenoic acid, 2-[[[[[1,3,3-trimethyl-5- [[[2-[(1-oxo-2-propenyl)oxy]ethoxy] carbonyl]amino] cyclohexyl]methyl] amino]carbonyl]oxy]ethyl ester (PMN P–90–1825; CAS number 42404–50–2) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iv), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (h)(1)(i)(A), (h)(1)(i)(B), (h)(1)(i)(C), (h)(1)(vi), (h)(2)(i)(B), (h)(2)(i)(C), and (h)(2)(i)(D).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

43. By adding new § 721.9280 to read as follows:

§ 721.9280 Reaction product of ethoxylated fatty acid oils and a phenolic pentaerythritol tetraester.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance

identified generically as a reaction product of ethoxylated fatty acid oils and a phenolic pentaerythritol tetraester (PMN P–92–63) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who have received, or will receive, this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

44. By adding new § 721.9300 to subpart E to read as follows:

§ 721.9300 Reaction products of substituted hydroxyalkanes and polyalkylpolyisocyanatocarbomonocycle.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as reaction products of substituted hydroxyalkanes and polyalkylpolyisocyanatocarbomonocycle (PMN P–91–75) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance from the employer are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(p)(volume set at 433,000 kg).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

45. By adding new § 721.9400 to read as follows:

§ 721.9400 Reaction product of phenolic pentaerythritol tetraesters with fatty acid esters and oils, and glyceride triesters.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substances identified generically as Reaction product of phenolic pentaerythritol tetraesters with fatty acid esters and oils, and glyceride triesters (PMNs P–91–1231, –1232, –1233, –1234, and –1235) are subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* A significant new use of this substance is any manner or method of manufacture, import, or processing associated with any use of this substance without providing risk notification as follows:

(A) If as a result of the test data required under the section 5(e) consent order for this substance, the employer becomes aware that this substance may present a risk of injury to human health, the employer must incorporate this new information, and any information on methods for protecting against such risk, into an MSDS as described in § 721.72(c) within 90 days from the time the employer becomes aware of the new information. If this substance is not being manufactured, imported, processed, or used in the employer's workplace, the employer must add the new information to an MSDS before the substance is reintroduced into the workplace.

(B) The employer must ensure that persons who will receive this substance, or who have received this substance from the employer within 5 years from the date the employer becomes aware of the new information described in section (a)(2)(i)(A) of this subparagraph, are provided an MSDS as described in § 721.72(c) containing the information required under paragraph (a)(2)(i)(A) of this section within 90 days from the time the employer becomes aware of the new information.

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (h), and (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

46. By adding new § 721.9420 to subpart E to read as follows:

§ 721.9420 Polymethylcarbomonocycle, reaction product with 2-hydroxyethyl acrylate.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified generically as polymethylcarbomonocycle, reaction product with 2-hydroxyethyl acrylate (PMN P–90–1338) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iv), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (h)(1)(i)(A), (h)(1)(i)(B), (h)(1)(i)(C), (h)(1)(iii)(A), (h)(1)(vi), (h)(2)(i)(B), (h)(2)(i)(C), and (h)(2)(i)(D).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o).

(iv) *Disposal.* Requirements as specified in § 721.85(a)(1), (b)(1), and (c)(1).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (j) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

47. By adding new § 721.9460 to subpart E to read as follows:

§ 721.9460 Tall oil fatty acids, reaction products with polyamines, alkyl substituted.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as tall oil fatty acids, reaction products with polyamines, alkyl substituted (PMN P–91–225) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (f), (g)(3)(i), (g)(3)(ii), (g)(4)(iii), and (g)(5).

(ii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q) and any use in a manner that will result in overspray over or into waters of the United States.

(iii) *Release to water.* Requirements as specified in § 721.90(a)(1), (b)(1), (c)(1), or use in any manner that will result in overspray over or into waters of the United States.

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a), (b), (c), and (f) through (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under control number 2070–0012)

48. By adding new § 721.9525 to subpart E to read as follows:

§ 721.9525 Acrylate substituted siloxanes and silicones.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance identified generically as acrylate substituted siloxanes and silicones (PMN P–91–1153) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iv), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (h)(1)(i)(A), (h)(1)(i)(B), (h)(1)(i)(C), (h)(1)(vi), (h)(2)(i)(B), (h)(2)(i)(C), (h)(2)(i)(D), and (h)(2)(iii)(A).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

49. By adding new § 721.9550 to subpart E to read as follows:

§ 721.9550 Sulfonamide.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance generically identified as a sulfonamide (PMN P–90–1732) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(iv), (a)(5)(v), (a)(5)(vi), (a)(5)(vii), (a)(6)(i), (b) (concentration set at 1.0 percent) and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(i), (g)(1)(iv), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(i), (g)(3)(ii), (g)(4)(i), (g)(4)(ii), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4), and (c)(4) (where N = 10 ppb).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

50. By adding new § 721.9740 to subpart E to read as follows:

§ 721.9740 Brominated triazine derivative.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified generically as a brominated triazine derivative (PMN P–91–403) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(4), (a)(5)(iv), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72 (a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(iv), (g)(1)(vi), (g)(1)(vii), (g)(2)(iv), and (g)(5). The hazard communication requirements do not apply when the chemical substance is present in a plastic, elastomer, rubber matrix, or in solution.

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in section 721.80(q). Any amount of the PMN substance imported in a plastic, elastomer, rubber matrix, or in a solution, such that inhalation is precluded, shall not be included in the production limit calculations.

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (d) and (f) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

51. By adding new § 721.9820 to subpart E to read as follows:

§ 721.9820 Substituted triazole.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance generically identified as a substituted triazole (PMN P–90–1731) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(i), (a)(5)(ii), (a)(5)(iii), (a)(6)(i), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (g)(1)(i), (g)(1)(iv), (g)(1)(v), (g)(1)(vi), (g)(1)(vii), (g)(1)(ix), (g)(2)(i), (g)(2)(ii), (g)(2)(iii), (g)(2)(iv), (g)(2)(v), (g)(3)(i), (g)(3)(ii), (g)(4)(i), (g)(4)(ii), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(iv) *Release to water.* Requirements as specified in § 721.90(a)(4), (b)(4), and (c)(4) (where N = 12).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (k) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

52. By adding new § 721.9850 to subpart E to read as follows:

§ 721.9850 2,4,8,10-Tetraoxa-3,9-diphosphaspiro[5.5]undecane, 3,9-bis[2,4,6-tris(1,1-dimethylethyl)phenoxy]-.

(a) *Chemical substance and significant new uses subject to reporting.* (1) The chemical substance identified as 2,4,8,10-tetraoxa-3,9-diphosphaspiro[5.5]undecane, 3,9-bis[2,4,6-tris(1,1-dimethylethyl)phenoxy]- (PMN P–91–65; CAS number 126505–35–9) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(3), (a)(4), (a)(5)(ii), (a)(5)(iv), (a)(5)(v), (a)(6)(i), (b) (concentration set at 1.0 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 1.0 percent), (f), (g)(1)(iii), (g)(1)(vi), (g)(1)(ix), (g)(2)(i) through (v), and (g)(5).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(q).

(b) *Specific requirements.* The provisions of subpart A of this part apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (h) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(3) *Determining whether a specific use is subject to this section.* The provisions of § 721.575(b)(1) apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070–0012)

53. By adding new § 721.9975 to subpart E to read as follows:

§ 721.9975 Zirconium(IV), [2,2-bis[(2-propenyloxy)methyl]-1-butanolato-01,02]tris(2-propenoato-O-)-.

(a) *Chemical substances and significant new uses subject to reporting.* (1) The chemical substance zirconium(IV) 2,2-(bis-2-propenyloxy)methyl)-1-butanolato-01,02]trjs 2-propenoato-*O*)- (PMN P–91–389) is subject to reporting under this section for the significant new uses described in paragraph (a)(2) of this section.

(2) The significant new uses are:

(i) *Protection in the workplace.* Requirements as specified in § 721.63(a)(1), (a)(2)(i), (a)(2)(iii), (a)(2)(iv), (a)(3), (a)(4), (a)(5)(xi), (a)(6)(i), (a)(6)(ii), (a)(6)(iv), (b) (concentration set at 0.1 percent), and (c).

(ii) *Hazard communication program.* Requirements as specified in § 721.72(a), (b), (c), (d), (e) (concentration set at 0.1 percent), (f), (h)(1)(i)(A), (h)(1)(i)(B), (h)(1)(i)(C), (h)(1)(vi), (h)(2)(i)(B), (h)(2)(i)(C), (h)(2)(i)(D), and (h)(2)(iii)(A).

(iii) *Industrial, commercial, and consumer activities.* Requirements as specified in § 721.80(o).

(b) *Specific requirements.* The provisions of subpart A of this part

apply to this section except as modified by this paragraph.

(1) *Recordkeeping requirements.* Requirements as specified in § 721.125(a) through (i) are applicable to manufacturers, importers, and processors of this substance.

(2) *Limitations or revocation of certain notification requirements.* The provisions of § 721.185 apply to this section.

(Approved by the Office of Management and Budget under OMB Control Number 2070-0012)

The United States Government Manual 1991/92

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1992

The GUIDE to record retention is a useful reference tool, compiled from agency regulations, designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

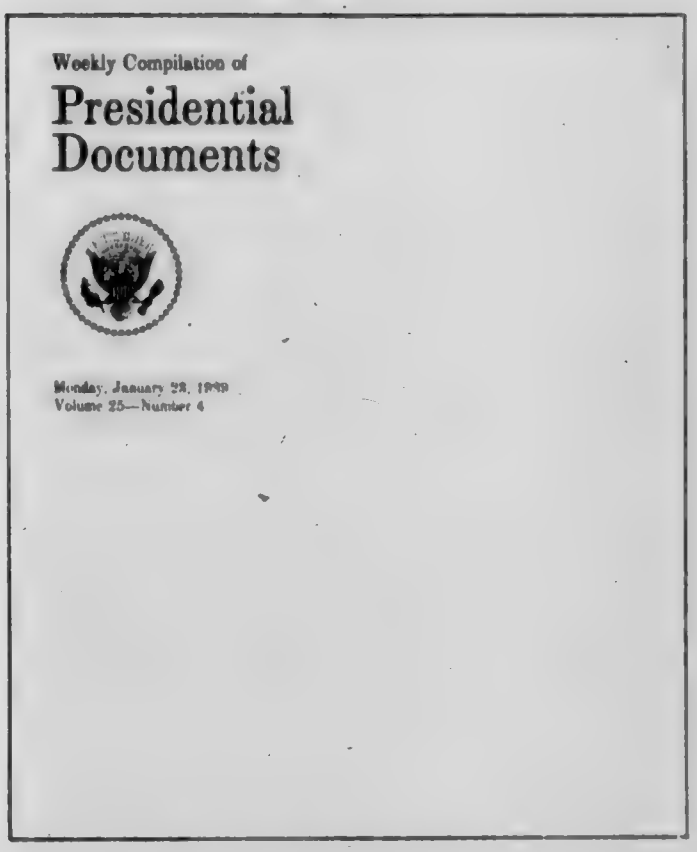
The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

Administration of George Bush



This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

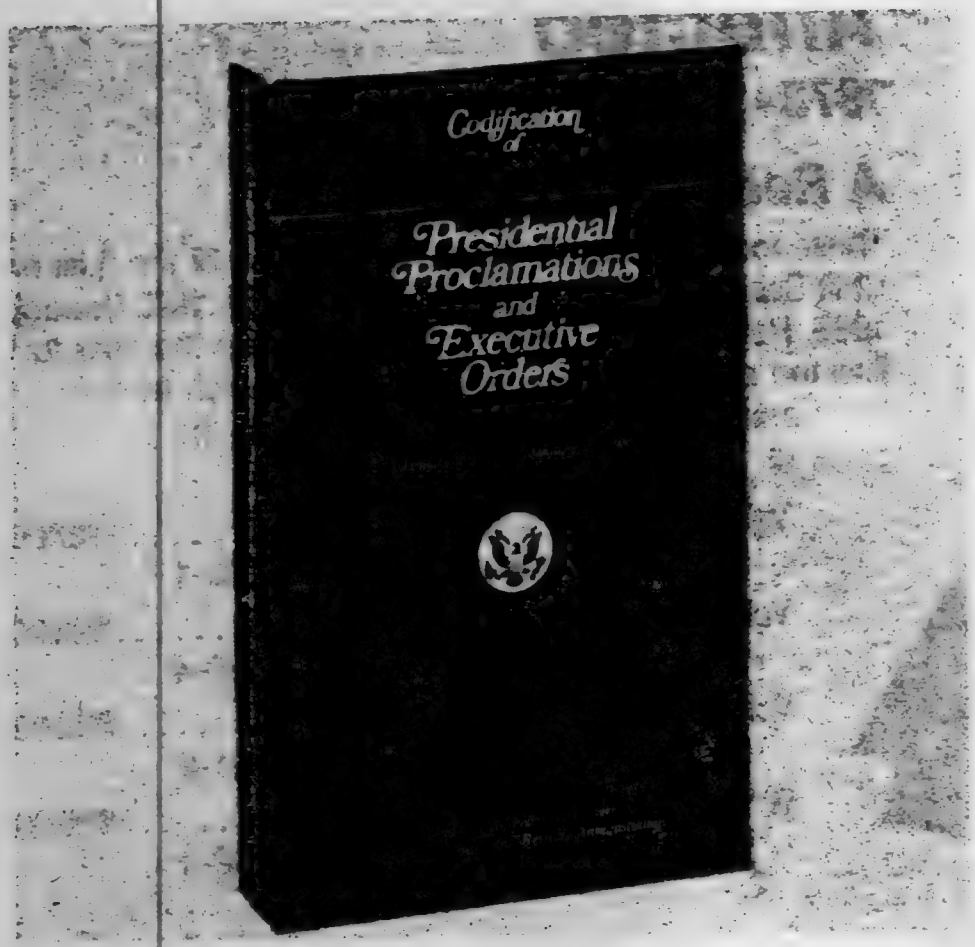
Rev 6-92

.... Order now ! . . . .



For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register, National Archives and Records Administration

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

Rules and Regulations

Federal Register
Vol. 57, No. 186
Thursday, September 24, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 16

Restriction on Importation of Meat From Australia and New Zealand

AGENCY: Office of the Secretary, USDA.
ACTION: Final rule.

SUMMARY: This rule amends the regulations in 7 CFR part 16, subpart A entitled "Section 204 Import Regulations" to carry out the voluntary restraint agreements concerning the level of 1992 meat imports from Australia and New Zealand entered into by those countries with the United States pursuant to section 204 of the Agricultural Act of 1956, as amended.

EFFECTIVE DATE: September 24, 1992. See Supplementary Information.

FOR FURTHER INFORMATION CONTACT: Andrew Duymovic, (202) 447–8031, Dairy, Livestock and Poultry Division, Foreign Agricultural Service, USDA, room 6616 South Building, Washington, DC 20250.

SUPPLEMENTARY INFORMATION:

Pursuant to the authority of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and Executive Order 11539, as amended, the Office of the United States Trade Representative has negotiated agreements with the Governments of Australia and New Zealand whereby those countries have voluntarily agreed to limit the quantity of certain meats exported to the United States during calendar year 1992. The Secretary of Agriculture, with the concurrence of the Secretary of State and the United States Trade Representative, is authorized to carry out such agreements and to implement such action.

Presently, title 7, part 16, subpart A entitled "Section 204 Import Regulations" contains provisions governing the entry or withdrawal from warehouse of certain meats imported from Australia and New Zealand during calendar year 1991. This rule amends subpart A to delete the provisions relating to Australia and New Zealand for calendar year 1991 which no longer are in effect and inserts new provisions to carry out the voluntary agreements entered into by Australia and New Zealand with the United States for calendar year 1992.

The definition of meat in the regulations encompasses the Harmonized Tariff Schedules of the United States (HTS) items which are the subject of the voluntary agreements with Australia and New Zealand. In order to prevent circumvention of the import limitations, the definition also includes meat that would fall within such definition but for processing in Foreign-Trade Zones, territories, or possessions of the United States. In addition, the regulations impose transshipment restrictions which prevent the entry or withdrawal from warehouse for consumption of meat from Australia and New Zealand unless exported from those countries as direct shipments or on through bills of lading or, if processed in Foreign-Trade Zones, territories or possessions of the United States, shipped as direct shipments or on through bills of lading from such areas.

EFFECTIVE DATE: Meat released under the provisions of sections 448(b) and 484(a)(1)(A) of the Tariff Act of 1930 (19 U.S.C. 1448(b)(immediate delivery), and 19 U.S.C. 1484(a)(1)(A)(entry)), prior to September 24, 1992, shall not be denied entry.

The action taken herewith has been determined to involve foreign affairs functions of the United States. Therefore, this regulation falls within the foreign affairs exception to Executive Order 12291 and the provisions of 5 U.S.C. 553 with respect to proposed rulemaking. Further, the provisions of the Regulatory Flexibility Act do not apply to this rule since the proposed rulemaking provisions of 5 U.S.C. 553 do not apply.

List of Subjects in 7 CFR Part 16

Meat and meat products, Imports.

Accordingly, the Regulations at 7 CFR part 16, subpart A entitled "Section 204 Import Regulations" are amended as follows:

PART 16—LIMITATION ON IMPORTS OF MEAT

1. The authority citation for part 16 is revised to read as follows:

Authority: 19 U.S.C. 2253 note, 7 U.S.C. 1854, and E.O. 11539, 35 FR 10733, 3 CFR 1966–1970 Comp. p. 937, as amended by E.O. 12188, 45 FR 989, 3 CFR 1980 Comp. p. 131.

2. Section 16.4 is revised to read as follows:

§ 16.4 Transshipment restrictions.

During calendar year 1992, no meat of Australia or New Zealand origin may be entered or withdrawn from warehouse for consumption in the United States unless

(a) It is exported into the Customs Territory of the United States as a direct shipment or on a through bill of lading from the country of origin or,

(b) If processed in Foreign-Trade Zones, territories, or possessions of the United States, it is exported into the Customs Territory of the United States as a direct shipment on a through bill of lading from the Foreign-Trade Zone, territory or possession of the United States in which it was processed.

3. Section 16.5 is revised to read as follows:

§ 16.5 Quantitative restrictions.

(a) Imports From Australia

During calendar year 1992, no more than 736.8 million pounds of meat exported from Australia in the form in which it would fall within the definition of meat in Harmonized Tariff Schedule of the United States subheadings 0201.10.00, 0201.20.40, 0201.20.60, 0201.30.40, 0201.30.60, 0202.10.00, 0202.20.40, 0202.20.60, 0202.30.40, 0202.30.60, 0204.21.00, 0204.22.40, 0204.23.40, 0204.41.00, 0204.42.40, 0204.43.40, or 0204.50.00 may be entered or withdrawn from warehouse for consumption in the United States, whether shipped directly or indirectly from Australia to the United States.

(b) Imports From New Zealand

During calendar year 1992, no more than 446.8 million pounds of meat exported from New Zealand in the form in which it would fall within the definition of meat in Harmonized Tariff Schedule of the United States

subheadings 0201.10.00, 0201.20.40, 0201.20.60, 0201.30.40, 0201.30.60, 0202.10.00, 0202.20.40, 0202.20.60, 0202.30.40, 0202.30.60, 0204.21.00, 0204.22.40, 0204.23.40, 0204.41.00, 0204.42.40, 0204.43.40, or 0204.50.00 may be entered or withdrawn from warehouse for consumption in the United States, whether shipped directly or indirectly from New Zealand to the United States.

Issued at Washington, DC, this 18th day of September, 1992.

Edward Madigan,

Secretary of Agriculture.

[FR Doc. 92-23162 Filed 9-23-92; 8:45 am]

BILLING CODE 3510-01-M

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

12 CFR Part 3

[Docket No. 92-8]

Risk-Based Capital Guidelines

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Final rule.

SUMMARY: The Office of the Comptroller of the Currency (OCC) is amending the risk-based capital guidelines applicable to national banks. These amendments make a variety of clarifying and technical changes in the provisions relating to the definition of central government, the unused portion of commitments, the calculation of the amount of the allowance for loan and lease losses included in Tier 2 capital, the calculation of the limitation on subordinated debt and intermediate term preferred stock in Tier 2 capital, the redemption of capital instruments, the authority of the OCC to permit supervisory goodwill as capital, local currency claims guaranteed by non-OECD central governments, claims on non-OECD central banks, assets sold with recourse, and the definition of credit card lines.

The purpose of these amendments is to clarify certain questions of interpretation and implementation that have been raised since the risk-based capital guidelines were adopted. Further, the amendments include a limited number of technical changes needed to ensure consistency with the risk-based capital guidelines of the other Federal bank regulatory agencies, the Agreement on International Convergence of Capital Measurement and Capital Standards of July 1988, as reported by the Basle Committee on Banking Supervision (the Basle Agreement), the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), and other OCC regulations. While the amendments are technical in nature and intended to clarify the risk-based capital guidelines, the changes may have some impact on national banks.

EFFECTIVE DATE: October 26, 1992.

FOR FURTHER INFORMATION CONTACT: Donna Duncan, National Bank Examiner, Office of the Chief National Bank Examiner (202) 874-5070; Eugene W. Green, Deputy Chief Accountant, Office of the Chief National Bank Examiner (202) 874-5180; Elizabeth Milor, Financial Economist, Economic and Regulatory Policy Analysis (202) 874-5220; C. Stewart Goddin, Senior International Economic Advisor, International Banking and Finance (202) 874-4730; or Ronald Shimabukuro, Senior Attorney, Legal Advisory Services Division (202) 874-5330.

SUPPLEMENTARY INFORMATION:

Background

The OCC's final risk-based capital guidelines were published in the **Federal Register** on January 27, 1989. See 54 FR 4168 (January 27, 1989) (codified at 12 CFR part 3, appendix A). The risk-based capital guidelines impose capital requirements that are based on the credit risk profiles of financial institutions. The guidelines implement the Basle Agreement and were developed in cooperation with the Federal Deposit Insurance Corporation (FDIC) and the Federal Reserve Board (FRB).

On October 17, 1990, the OCC published in the **Federal Register** a notice of proposed rulemaking to amend the risk-based capital guidelines (NPRM). See 55 FR 42017 (October 17, 1990). The purpose of the NPRM was to propose clarifying and technical amendments to the risk-based capital guidelines. The OCC acknowledged that while the proposed amendments were clarifying or technical in nature, some aspects of the proposed amendments could have some impact on national banks. The OCC received and reviewed 27 comments on the NPRM. The commenters represent a diverse group of organizations that included national banks, thrifts, industry associations, and federal agencies.

After careful consideration of each of the comments, the OCC adopts the changes as proposed in the NPRM. The OCC believes that risk-based capital is an important supervisory tool for use in monitoring the capital adequacy of national banks. For this reason, and pursuant to the OCC's general rulemaking authority under 12 U.S.C. 93a, the OCC adopts this final rule to clarify certain questions regarding the implementation of the risk-based capital guidelines and to make technical changes to achieve greater consistency with the risk-based capital guidelines of the other banking agencies, the Basle Agreement, FIRREA, Public Law 101-73, 103 Stat. 183 (August 9, 1989), and other OCC regulations.

All commenters indicated general support for the purpose of clarifying the risk-based capital guidelines. The majority of the commenters focused on three of the 11 proposed amendments: (1) The treatment of the unused portion of commitments, (2) the 25% limitation on qualifying intangible assets includable in Tier 1 capital, and (3) the treatment of assets sold with recourse. Each amendment is discussed in greater detail in the following section.

Discussion of Amendments

(1) Definition of Central Government—Section 1(c)(5)

This final rule adopts the amendment to the definition of "central government" as proposed in the NPRM. This final rule amends the definition of central government in section 1(c) (5) to clarify that the term central government includes the central bank of the central government. To eliminate redundancy, the provision in section 3(a)(1)(v) relating to local currency claims on or guaranteed by the central government or the central bank in non-OECD countries is also amended by deleting the term "central bank". As a further clarification, the definition of central government specifies that the United States central bank includes the 12 Federal Reserve Banks.

Three comments were received on this issue. None of the commenters objected to the proposed amendment.

(2) Unused Portion of Commitments—Sections 1(c)(16), 1(c)(26), and 3(b)(4)(ii)

This final rule adopts the amendment relating to the unused portion of commitments as proposed in the NPRM. This final rule amends section 3(b)(4)(ii), relating to the unused portion of commitments, to permit commitments with an original maturity of one year or more to qualify for the zero percent conversion factor if unconditionally cancelable,[1] and subject to an annual credit review.

[1] Pursuant to section 1(c)(28), the term "unconditionally cancelable" is defined to mean

Continued

As originally provided under the risk-based capital guidelines, the unused portion of a commitment with an original maturity of one year or less qualifies for the zero percent conversion factor. The unused portion of a commitment with an original maturity beyond one year also qualifies for the zero percent conversion factor if the commitment is both unconditionally cancelable at any time and subject to a separate credit review before each drawing under the commitment.

The OCC recognizes that, in certain instances, there are commitments with an expiration date longer than one year for which the requirement of a separate credit review before each drawing is not practical. This is the case with home equity lines of credit accessed by the borrower through the writing of a check. In these arrangements, the OCC believes that a separate credit review, conducted at least annually, would serve the same purpose of monitoring and reassessing the credit exposure of the bank. If the bank fully reevaluates the credit at least annually, and then determines to continue the commitment rather than to exercise its unconditional right to cancel to the fullest extent permitted under federal law, then the commitment would be similar, in terms of the credit exposure of the bank to the borrower, to a commitment that expired in one year.

As in the NPRM, the OCC emphasizes that while this amendment would permit home equity lines of credit and other commitments that are subject to at least an annual review to qualify for the zero percent conversion factor, the review must be a normal practice of the bank, and must actually be performed and documented. The review must provide a sufficiently detailed analysis of the current financial capacity of the borrower to support the continuation of the line of credit.

The OCC received 11 comments on this issue. All of the commenters supported the proposed amendment. However, four commenters expressed concern that more guidance should be provided as to what constitutes a sufficient annual review of the commitment. Specifically, two commenters suggested that statistical methods such as credit scoring or other account monitoring systems offered by credit report agencies should be sufficient to satisfy the annual credit review requirement. The OCC agrees that additional guidance would be helpful and for that reason the following general discussion of the credit review requirements is provided in the preamble. However, the OCC has decided not to amend the risk-based capital guidelines to provide specific credit review requirements. The OCC believes that the determination of what constitutes adequate credit review is best made on an individual basis by each bank with respect to the specific circumstances of each commitment.

The OCC agrees with the view of one commenter that the annual credit review requirement should be consistent with the nature, size, and general risk profile of the portfolio involved. For large portfolios of relatively small unused line of transaction account loans, such as home equity loans, a review of individual loan files may not be cost-efficient relative to the benefits. The OCC believes that in such circumstances national banks may use account monitoring systems or other systemic reviews to satisfy this requirement, providing that the system alerts bank management to existing or potential adverse trends in the individual credits. The information necessary to satisfy this requirement may be available through credit bureau reports and internal bank account delinquency reports.

At a minimum, national banks should be able to ascertain that the paying capacity of the borrower remains satisfactory and that market conditions indicate that the value of the underlying collateral continues to provide adequate support for the line of credit. If a portfolio-wide system is utilized, banks should designate indicators that trigger a more thorough analysis of the account. Any decision by a bank to implement a portfolio-wide system of review should be documented. The bank's documentation should be sufficiently detailed to permit determination by OCC examiners that the system utilized satisfies the annual review requirement. Information such as the attributes of the system and the indicators requiring the bank to perform more detailed analysis would be useful in this regard. Unused lines of credit which, due to their size or complexity, expose the bank to material credit risk, should be thoroughly reviewed on an individual basis. This review would generally include all commercial lines of credit and loan commitments, as well as individual commitments within a home equity line of credit portfolio which either singularly or because of some other credit relationship subject the bank to significant credit exposure.

Additionally, this final rule amends the definition of "original maturity" in section 1(c)(26). First, the definition of original maturity is limited to a discussion of the scheduled expiration date of a commitment. The portion of the original definition relating to the criteria for unconditionally cancelable commitments has been superseded by the amendment to section 3(b)(4)(ii) as discussed above. Second, the definition clarifies the treatment of renewals or extensions of commitments. Commitments often contain provisions for their renewal or extension beyond the original stated expiration date. Automatic renewal of a commitment with a short-term stated expiration date can result in a commitment that is in effect a long-term commitment.

This final rule clarifies that a short-term commitment that is renewed or extended can continue to qualify for the zero percent conversion factor, as a commitment with an original maturity of one year or less, only if the bank conducts a thorough reconsideration of the commitment, including the terms and conditions of the commitment, and performs a thorough review of the creditworthiness of the customer, at the time of the renewal or extension. This reconsideration of the commitment and review of the creditworthiness of the customer must be sufficiently documented by the bank to permit determination by the OCC that an adequate review of the extension or renewal was actually performed.

This final rule also amends the definition of "unconditionally cancelable" in section 1(c)(26) by removing the text of footnote 18 from section 3(b)(4)(ii) and inserting it as part of the definition at section 1(c)(26). This change consolidates the explanation of the term "unconditionally cancelable" in one section and is intended to be purely technical in nature. Further, this final rule replaces the term "unused commitments" with the term "unused portion of commitments". This amendment also is intended to be purely technical in nature to provide consistency in terminology.

(3) Amount of Allowance for Loan and Lease Losses in Tier 2 Capital—Section 2(b)(1) (footnote 3)

This final rule adopts the amendment to clarify the method of calculating the allowable portion of the allowance for loan and lease losses (ALLL) as proposed in the NPRM. This final rule amends footnote 3 in section 2(b)(1) to

---

"with respect to a commitment-type lending arrangement, that the bank may, at any time, with or without cause, refuse to advance funds or extend credit under the facility." Footnote 18 further specifies that "[i]n the case of home equity lines of credit, the bank is deemed able to unconditionally cancel the commitment if it can, at its option, prohibit additional extensions of credit, reduce the credit line and terminate the commitment to the full extent permitted by relevant Federal law."

clarify that in calculating the 1.25% limitation of the ALLL which is includable in Tier 2 capital, the "gross sum" of the risk-weighted assets means the initial risk-weighted assets *less* the required capital deductions under section 2(c) *but before* deductions for reserves which are allowed in the calculation of the final risk-weighted assets.

Subject to the transition rules and to the overall limitations on Tier 2 capital in section 4, section 2(b)(1) provides that the ALLL may be included in Tier 2 capital only up to a maximum of 1.25% of risk-weighted assets. Footnote 3 further states:

> The amount of the allowance for loan and lease losses that may be included in capital is based on a percentage of risk-weighted assets. A banking organization may deduct reserves for loan and lease losses in excess of the amount permitted to be included as capital, as well as allocated transfer risk reserves and reserves held against other real estate owned, from the gross sum of risk-weighted assets in computing the denominator of the risk-based capital ratio.

Generally, when calculating the risk-based capital ratio, any asset deducted from capital, as indicated by the numerator of the risk-based capital ratio, should also be deducted from the risk-weighted assets of the bank, the denominator of the risk-based capital ratio. See 12 CFR part 3, appendix A, section 3. Consequently, under the current risk-based capital guidelines, goodwill, other non-qualifying intangibles, and qualifying intangibles in excess of the 25% limit would be deducted from both the numerator (capital) and the denominator (risk-weighted assets) in determining the risk-based capital ratio. Therefore, these items are deducted in establishing the "gross sum" of risk-weighted assets used for the base in computing the 1.25% amount of ALLL that can be included as Tier 2 capital.

However, in addition to these capital deductions, footnote 3 provides that certain other items (*e.g.*, excess ALLL, allocated transfer risk reserves, reserves against other real estate owned, and other special reserves) may also be deducted from risk-weighted assets in computing the denominator of the capital ratio, even though they continue to be included in the "gross sum" of risk-weighted assets used as the base in calculating the 1.25% amount of ALLL includable in Tier 2 capital. This final rule clarifies that the "gross sum" of risk-weighted assets means the initial risk-weighted assets *less* the required capital deductions *but prior* to the deductions for reserves which are allowed for final risk-weighted assets (used as the denominator of the capital ratio).

To illustrate, assume a bank has risk-weighted assets of $70,500,000, before any adjustments. Under the risk-based capital guidelines, to derive the "gross sum" of risk-weighted assets the bank must deduct any asset which has been deducted from total capital. Assuming the bank has unqualifying intangible assets equal $500,000 which must be deducted from Tier 1 capital and has no other required deductions, the "gross sum" of risk-weighted assets for the bank would be $70,000,000. This amount would be the base used to compute the 1.25% limit for the ALLL that may be included in Tier 2 capital. This calculation is set out below.

Risk-weighted assets	$70,500,000
Unqualifying intangible assets (*e.g.* goodwill) which have been deducted from Tier 1 capital	−$500,000
Gross sum	70,000,000
Gross sum	70,000,000
Limitation on ALLL (1.25%)	×1.25%
Maximum amount of ALLL the bank may include in Tier 2 capital	$875,000

Other adjustments to total capital such as excess ALLL may then be made to risk-weighted assets before computing the risk-based capital ratio.

Three comments were received on this issue. One commenter indicated general support for the amendment. Another commenter, however, while registering no objection to the method of calculating the ALLL, believed that the total amount of the ALLL not allocated to a specific loss should be included in Tier 1 capital. Finally, another commenter proposed that the risk-based capital guidelines be amended to state explicitly which items can be included in the "gross sum" of risk-weighted assets used as the base in calculating the amount of ALLL includable in Tier 2 capital.

As explained in the preamble to the final risk-based capital guidelines, only the portion of the ALLL that is freely available to absorb future losses may be included as Tier 2 capital. Therefore, a standard percentage limitation of 1.25% of total risk-weighted assets was adopted. The 1.25% limitation was based on historical data and was designed as a means to eliminate the bulk of the non-qualifying portion of the ALLL from the capital calculation. See 54 FR 4175 (January 27, 1989). In accord with the Basle Agreement, the OCC continues to believe that this approach is proper. See Banking Bulletin 91–8 (March 8, 1991).

As for the suggestion that the risk-based capital guidelines specifically state which items can be included in the "gross sum" of risk-weighted assets, the OCC believes that section 2(b)(1), as clarified by this final rule, provides sufficient guidance with respect to the calculation of the ALLL.

(4) Calculation of the Limitation on Subordinated Debt and Intermediate Term Preferred Stock—Section 2(b)(4)

This final rule adopts the amendment concerning the calculation of the limitation on subordinated debt and intermediate term preferred stock as proposed in the NPRM. This final rule amends section 2(b)(4) to clarify that, in calculating capital, the 50% limitation on term subordinated debt and intermediate-term preferred stock and any related surplus must be based on Tier 1 capital after the required deductions have been made under section 2(c). This amendment is simply a clarification and does not represent any change in the method of calculating the qualifying amount of term subordinated debt and intermediate-term preferred stock.

Three comments were received on this issue. Two commenters indicated general support for the amendment while one commenter indicated no objection.

(5) Redemption of Capital Instruments—Section 2(b)(4)

This final rule adopts the amendments concerning the redemption of capital instruments as proposed in the NPRM. This final rule amends footnote 5 in section 2(b)(4) to clarify that prior OCC approval is required for the redemption of capital instruments. Footnote 5 permitted the redemption of certain capital instruments prior to maturity under the risk-based capital guidelines, as long as the instruments are redeemed with the proceeds of, or replaced by, a like amount of similar or higher quality capital instruments. As worded, the footnote stated that such redemptions may occur without the prior approval of the OCC. This is inconsistent with other OCC treatment of similar capital transactions in 12 CFR 3.100(f)(1)(vii), 5.46(c), and 5.47(f)(3)(i).

This final rule also amends footnote 5 to clarify that, although replacement by similar capital instruments may be the typical reason for allowing redemption, the OCC retains the authority to allow redemption in other circumstances in which the bank would continue to have adequate capital after redemption. The amendment also clarifies that the OCC may disallow redemption even in cases

of proposed replacement by other capital instruments. Determinations by the OCC of requests for redemption of capital instruments will be made case-by-case, taking into account all the circumstances and an overall assessment of the capital of the bank. This is similar to the scope of OCC discretion under §§ 3.100(f)(1)(vii), 5.46(c), and 5.47(f)(3)(i).

Six comments were received on this issue. Two commenters indicated no objection to the amendment. However, four commenters suggested that prior OCC approval was unnecessary for the early redemption of capital instruments. The OCC agrees that in most cases the redemption of capital instruments prior to maturity would not raise supervisory concerns where the capital instruments are redeemed by the proceeds of, or replaced by, a like amount of similar or higher quality capital instruments. However, the OCC believes that prior OCC approval of redemption of capital instruments is necessary for supervisory oversight. Moreover, this conforming amendment is necessary to make the authority for the redemption of capital instruments under section 2(b)(4) consistent with other OCC provisions dealing with the redemption of capital instruments. See 12 CFR 3.100(f)(1)(vii), 5.46(c), and 5.47(f)(3)(i).

(6) Authority of OCC to Permit Supervisory Goodwill as Capital—Section 2(c)(1)(i) (Footnote 6)

This final rule adopts the amendment concerning the authority of the OCC to permit supervisory goodwill as capital as proposed in the NPRM. This final rule deletes footnote 6 in section 2(c)(1)(i) to remove OCC authority to permit goodwill as capital when acquired in connection with a supervisory merger with a problem or failed depository institution.

The risk-based capital guidelines require all goodwill to be deducted from Tier 1 capital. In footnote 6 the OCC retained the discretionary authority not to require the deduction of goodwill acquired in connection with a supervisory merger with a problem or failed depository institution in the calculation of capital. This final rule deletes footnote 6 and implements section 18(n) of the Federal Deposit Insurance Act (12 U.S.C. 1828(n)), as added by section 221 of FIRREA. In relevant part, section 221 provides that no appropriate Federal banking agency shall allow any insured depository institutions to include an unidentifiable intangible asset in its calculation of compliance with the appropriate capital standard, if such unidentifiable intangible asset was acquired after April 12, 1989, except to the extent permitted under section 5(t) of the Home Owners' Loan Act.

The exceptions referred to in section 5(t) of the Home Owners' Loan Act, as amended by section 301 of FIRREA, relate to thrift institutions. Moreover, since 1985, the OCC has required national banks to deduct unidentified intangibles from capital. Therefore, this final rule will not have a significant immediate effect on national banks.

Four comments were received on this issue. Three commenters generally concurred with the amendment, while one commenter objected on the basis that the proposed amendment provides an unfair incentive to acquire troubled thrifts as opposed to other troubled institutions. Notwithstanding the appeal of the point raised, the risk-based capital guidelines must be made to conform with section 221 of FIRREA.

(7) 25% Limitation on Qualifying Intangible Assets Includable in Tier 1 Capital—Section 2(c)(2)(ii)

At present the 25% limitation on qualifying intangible assets in section 2(c)(2)(ii) is unchanged.

As explained in the NPRM, under the risk-based capital guidelines, intangible assets are generally deducted from Tier 1 capital in calculating a bank's risk-based capital ratio. However, certain "qualifying" intangible assets which meet specified criteria need not be deducted. Purchased mortgage servicing rights (PMSRs) are the prime example of qualifying intangible assets under the current risk-based capital guidelines. In the OCC risk-based capital guidelines, the amount of such qualifying intangibles that may be included in Tier 1 capital is strictly limited to a maximum of 25% of total Tier 1 capital.

In comparison, the FRB's risk-based capital guidelines currently provide that all intangible assets will be monitored and amounts in excess of 25% of Tier 1 capital (which is defined as net of goodwill) will be subject to particularly close scrutiny. See 12 CFR part 208, appendix A 2(B)(1)(b). The FRB also reserves the right to deduct all intangible assets on a case-by-case basis, in making an overall assessment of capital adequacy. Under the Federal Deposit Insurance Corporation's (FDIC) revised risk-based capital guidelines, the amount of PMSRs held by state nonmember banks is limited to 50% of core or Tier 1 capital, unless held in a separately capitalized mortgage banking subsidiary. See 55 FR 53139 (December, 27, 1990).

As explained in the NPRM, concern has been raised regarding the treatment of PMSRs and other intangible assets for risk-based capital and other bank supervisory purposes. Separately, but in response to these concerns, the OCC also issued an advance notice of proposed rulemaking (ANPR) requesting comments and more extensive information with respect to the overall regulatory treatment of PMSRs and other intangible assets. See 55 FR 40843 (October 5, 1990).

In the NPRM, the OCC further explained that while the current provisions in the risk-based capital guidelines would be retained until the completion of the review of intangible assets initiated by the ANPR, two immediate changes to the risk-based capital guidelines were under consideration. Specifically, the OCC requested comment on (1) whether to include a provision for some degree of case-by-case discretion to the current strict 25% limitation and (2) whether to continue using total Tier 1 capital as the base for the 25% limit or to use Tier 1 net of goodwill and other disallowed intangibles.

The OCC received 17 comments on this issue. Fourteen commenters supported a case-by-case exception to the 25% limitation on qualifying intangible assets. However, many of these commenters also requested that the OCC adopt either a higher percentage limitation or no limitation on qualifying intangible assets.

In addition to the comments discussing the issues specifically requested in the NPRM, the OCC received numerous other comments generally relating to either PMSRs or other intangible assets. In view of the comments received, the OCC realizes that the capital treatment of intangible assets is too complex to address the 25% limitation without consideration of other issues relating to intangible assets generally. Consequently, the OCC believes that it is inappropriate to change the capital treatment of intangible assets piecemeal as part of this technical amendments package. Instead, the OCC believes that the 25% limitation should be addressed as part of the comprehensive proposed rule on intangible assets. The OCC is actively considering this issue and has published a notice of proposed rulemaking on the capital treatment on intangible assets in the **Federal Register** on April 9, 1992. See 57 FR 12214 (April 9, 1992). The drafting of a final rule will be coordinated with the FRB, FDIC, and the Office of Thrift Supervision. Until the rules are amended the current 25% limitation is still in effect. In the meantime, the OCC does intend to exercise discretion in monitoring the level of qualifying

intangible assets held by national banks.

The OCC received three comments on the method of calculating the 25% limitation on intangible assets. The commenters indicated that any limitation on intangibles should be calculated based on total Tier 1 capital and not Tier 1 capital net of goodwill and other disallowed intangible assets. in view of the comments received, the OCC will retain the current method of calculating the 25% limitation on intangible assets based on total Tier 1 capital and not Tier 1 capital net of goodwill or other disallowed intangible assets.

(8) Local Currency Claims Guaranteed by Non-OECD Central Governments—Section 3(a)(1)(v) and Section 3(a)(2)

This final rule adopts the amendment concerning local currency claims guaranteed by non-OECD central governments as proposed in the NPRM. This final rule amends sections 3(a)(1)(v) and 3(a)(2) to clarify that only those local currency claims that are unconditionally guaranteed by the central governments of non-OECD countries would qualify for the zero risk weight category to the extent that the bank has local currency liabilities in that country. Local currency claims that are conditionally guaranteed by the central governments of non-OECD countries are assigned to the 20% risk weight category to the extent that the bank has local currency liabilities in that country. This amendment makes the treatment of conditional and unconditional guarantees by non-OECD central governments consistent with that afforded guarantees by OECD central governments.

Three comments were received on this issue. Two commenters generally concurred with the amendment, while one commenter indicated no objection.

(9) Claims on Non-OECD Central Banks—Section 3(a)(1)(v) and Section 3(a)(2)(ii)

This final rule adopts the amendment concerning claims on non-OECD central banks as proposed in the NPRM. This final rule amends sections (3)(a)(1)(v) and 3(a)(2)(ii) to provide that claims on non-OECD central banks, other than local currency claims offset by local currency liabilities, are assigned to the 100% risk weight category.

This amendment is necessary in order to provide comparable treatment for all central government entities within a non-OECD country and is accomplished by removing claims on non-OECD central banks with a residual maturity of one year or less from the 20% risk weight.

Three comments were received on this issue. Two commenters generally concurred with the amendment, while one commenter indicated no objection.

(10) Scope of Provision on Assets Sold with Recourse—Section 3(b)(1)(iii) (footnote 14)

This final rule adopts the amendment concerning the scope of the provisions on assets sold with recourse as proposed in the NPRM. This final rule amends footnote 14 in section 3(b)(1)(iii) to clarify that assets sold with recourse fall within the provisions for off-balance sheet activities even though the transaction would qualify for sales treatment under the Instructions for Reports of Consolidation and Income (Call Report). In addition to this clarification, this final rule also provides an exception for mortgage sales in which the bank retains insignificant recourse and meets certain other conditions.

The risk-based capital guidelines contain provisions for risk weighting off-balance sheet activities. Among the off-balance sheet activities listed in the guidelines are assets sold under an agreement to repurchase and "assets sold with recourse" to the extent that these assets are not reported in the Call Report of a national bank. These items carry a 100% credit conversion factor. Under the current risk-based capital guidelines, the entire outstanding amount of the asset sold with recourse (not only the amount of recourse) is converted at the 100% conversion factor in determining the on-balance sheet credit equivalent.

The meaning of "assets sold with recourse" was explained by a reference to the Call Report instructions in footnote 14:

> For risk-based capital purposes, the definition of the sale of assets with recourse, including one-to-four family residential mortgage loans, is the same as the definition contained in the Instructions for the preparation of the Consolidated Reports of Condition and Income (the Call Report).

As explained in the NPRM, the reference to the Call Report in footnote 14 has resulted in some misunderstanding of the treatment of assets sold with recourse under these provisions in the risk-based capital guidelines. The Call Report instructions with respect to asset sales with recourse (for both residential mortgages and other assets) contain lengthy explanations of the required reporting treatment for the sale of assets, including:

(1) A general rule that assets sold with recourse remain on the balance sheet of the selling bank;

(2) A general implicit definition of what constitutes recourse (essentially, the retention of any risk of loss);

(3) Various exceptions whereby certain types of risk retention do not constitute recourse;

(4) Exceptions for reporting purposes whereby certain residential mortgage loan sales may be treated as sales for reporting purposes, even though recourse is technically retained, because the amount of recourse is not significant and certain other conditions are met; and

(5) Exceptions for reporting purposes whereby residential or agricultural mortgage loan sales in certain government-sponsored programs may be treated as sales for reporting purposes, even though significant or even full recourse was retained.

Consequently, under the Call Report instructions residential mortgage loan sales with recourse under programs of the Federal National Mortgage Association (FNMA) and the Federal Home Loan Mortgage Corporation (FHLMC) are afforded sales treatment. Similarly, the Call Report permits sales treatment for agricultural mortgage loan sales with recourse under programs of the Federal Agricultural Mortgage Corporation (Farmer Mac) because the Call Report permits sales treatment to the same extent that a transaction is reported as a sale under generally accepted accounting principles (GAAP).

This reference to the Call Report instructions in footnote 14 was intended to refer only to the discussion of what constitutes recourse. See Items 2 and 3 above. Footnote 14 was not intended to exempt from the risk-based capital requirements assets reported as sales even through recourse was retained. See items 4 and 5 above. The Call Report exceptions pertain only to how certain transactions are to be reported on the Call Report (as either on or off the balance sheet) and have no applicability for purposes of the risk-based capital guidelines. Further, the Basle Agreement specifically provides that asset sales with recourse, where the credit risk remains with the bank, are off-balance sheet items with a 100% credit conversion factor.*

This final rule makes clear that (except as discussed below) the risk-based capital provision for off-balance sheet activities covers assets sold with recourse, even if the assets sold with recourse are treated as sales for reporting purposes in the Call Report. As explained, under current Call Report

instructions mortgages sold with recourse under FNMA, FHLMC, and Farmer Mac programs are treated as sales. Nonetheless, such assets are covered by risk-based capital guidelines. However, the OCC has determined that sales of mortgage loan pools with less than significant risk of loss that meet certain criteria do not have to be included in "assets sold with recourse" for risk-based capital purposes. Therefore, this final rule provides an exception under the risk-based capital guidelines for sales of mortgage loan pools where the bank has retained only minimal risk and has already provided for all potential loss, if the following three conditions are met:

(1) The bank has not retained any significant risk of loss, either directly or indirectly;

(2) The bank's maximum contractual exposure under the recourse provision (or through the retention of a subordinated interest in the mortgages) at the time of the transfer is equal to or less than the amount of probable loss [2] that the bank has reasonably estimated that it will incur on the transferred mortgages; and

(3) the bank has created a liability account or other special reserve in an amount equal to the maximum exposure of the bank.

The amount of this reserve may not be included in capital for the purpose of determining compliance with either the risk-based capital requirement or the leverage ratio; nor may the reserve be included in the allowance for loan and lease losses.

This exception for residential mortgages under the risk-based capital guidelines generally corresponds to the current Call Report treatment for certain private residential mortgage sales. However, this exception also includes sales under the government programs (FNMA, FHLMC, Farmer Mac), if the sales satisfy the specified criteria. The OCC believes this treatment is warranted for risk-based capital purposes because in the circumstances of these transactions, while there is retention of some minimal risk, the risk has already been provided for in the special reserve. As a result, there is no longer "recourse" such that capital must be required for the whole asset sold.

The OCC received 22 comments on this issue. Of these comments, four commenters concurred with the proposed clarification. Thirteen other commenters indicated varying degrees of opposition to the clarification. Five commenters specifically indicated that the amendment represented a substantive change rather than a clarification of the current risk-based capital guidelines. In that respect, many of the commenters urged that action on this amendment be deferred pending completion of the FFIEC study on recourse, or alternatively, if adopted, the amendment should be implemented on a prospective basis to allow grandfathering of prior recourse arrangements.

As indicated in the NPRM, the changes to footnote 14 merely represent a clarification, and not a change, of the current treatment of recourse arrangements under the risk-based capital guidelines. This final rule reiterates the original intention of the risk-based capital guidelines that banks should hold capital against these recourse agreements. The confusion which may have resulted from the reference to the Call Report in footnote 14 is unfortunate, but is precisely the reason why the OCC believes that this clarification is necessary. Since this final rule simply reflects the original intent of the risk-based capital guidelines, the OCC does not believe that grandfathering of prior recourse arrangements is appropriate. Moreover, even under the current language, most banks already properly account for mortgages sold with recourse for the purposes of the risk-based capital guidelines.

In addition to issues specifically raised by the NPRM, many of the comments included discussion of other issues related to the general subject matter of recourse. Some of these comments included: (1) The GAAP definition of recourse should be adopted, (2) standard warranties and representations should not be treated as recourse arrangements, (3) implicit recourse should not be included in the definition of recourse, (4) asset sales with credit enhancements, such as spread accounts or insurance or guarantee facilities, should not be subject to capital requirements, and (5) a distinction should be made between limited and unlimited recourse.

While the OCC carefully reviewed and considered each comment, many of these comments raised issues which go beyond the limited scope of the NPRM. The OCC notes that the overall treatment of asset sales with recourse is currently being reviewed by the Federal Financial Institutions Examination Council (FFIEC) of which the OCC is a member. A request for comment by the FFIEC was published in the **Federal Register** on June 29, 1990. See 55 FR 26766 (June 29, 1990). In the context of the FFIEC study, all issues relevant to the general issue of recourse will be considered. Pending completion of the FFIEC review of this issue, other amendments may be forthcoming.

(11) Credit Card Lines and Other Related Plans—Section 3(b)(4)(iii)

This final rule adopts the amendment concerning credit card lines and other related plans as proposed in the NPRM. This final rule amends section 3(b)(4)(iii) to expand the definition of credit card lines to include other related plans. As explained in the preamble to the original risk-based capital guidelines, 54 FR 4174, the OCC intended to expand the definition of credit card lines to include other related plans, as defined in the Call Report. This would include overdraft checking plans and credit advances under a credit card plan accessed by check.

Three comments were received on this issue. Two commenters generally concurred with the amendment, while one commenter indicated no objection.

Regulatory Flexibility Act

Pursuant to section 605(b) of the Regulatory Flexibility Act, the Comptroller of the Currency certifies that this final rule will not have a significant economic impact on a substantial number of small entities. These changes are technical and conforming in nature and should have a minimal effect on national banks regardless of size.

Executive Order 12291

The Comptroller of the Currency certifies that this final rule does not constitute a "major rule" within the meaning of Executive Order 12291 and, therefore, does not require the preparation of a regulatory impact analysis on the grounds that this regulation (1) will not have an annual effect on the economy of $100 million or more, (2) will not result in a major increase in the cost of bank operations or governmental supervision, and (3) will not have a significant adverse effect on competition (foreign and domestic), employment, investment, productivity or innovation. These changes are technical and conforming in nature and should have a minimal effect on national banks.

List of Subjects in 12 CFR Part 3

Administrative practice and procedure, National banks, Reporting

[2] The probable loss includes credit losses and other costs of collection and repossession accounted for in accordance with Statement of Financial Accounting Standard Number 5. Probable loss also includes costs of defects in the eligibility of the transferred loans, for example, defects in the legal title of the transferred mortgages.

and recordkeeping requirements, Capitol risk.

Authority and Issuance

For the reasons set forth in the preamble, appendix A of title 12, chapter I, part 3 of the Code of Federal Regulations is proposed to be amended as set forth below.

PART 3—[AMENDED]

1. The authority citation for part 3 is revised to read as follows:

Authority: 12 U.S.C. 93a, 161, 1818, 1828(n), 1831n note, 3907, and 3909.

Appendix A—[Amended]

2. Section 1 of Appendix A to part 3 is amended by revising paragraphs (c)(5), (16) and (26) to read as follows:

Section 1. Purpose, Applicability of Guidelines, and Definitions.

* * * * *

(c) * * *

(5) *Central government* means the national governing authority of a country; it includes the departments, ministries and agencies of the central government and the central bank. The U.S. Central Bank includes the 12 Federal Reserve Banks. The definition of central government does not include the following: State, provincial, or local governments; commercial enterprises owned by the central government, which are entities engaged in activities involving trade, commerce, or profit that are generally conducted or performed in the private sector of the United States economy; and non-central government entities whose obligations are guaranteed by the central government.

* * * * *

(16) *Original maturity* means, with respect to a commitment, the earliest possible date after a commitment is made on which the commitment is scheduled to expire (*i.e.*, it will reach its stated maturity and cease to be binding on either party), *provided that* either:

(i) The commitment is not subject to extension or renewal and will actually expire on its stated expiration date; or

(ii) If the commitment is subject to extension or renewal beyond its stated expiration date, the stated expiration date will be deemed the original maturity only if the extension or renewal must be based upon terms and conditions independently negotiated in good faith with the customer at the time of the extension or renewal and upon a new, *bona fide* credit analysis utilizing current information on financial condition and trends.

* * * * *

(26) *Unconditionally cancelable* means, with respect to a commitment-type lending arrangement, that the bank may, at any time, with or without cause, refuse to advance funds or extend credit under the facility. In the case of home equity lines of credit, the bank is deemed able to unconditionally cancel the commitment if it can, at its option, prohibit additional extensions of credit, reduce the line, and terminate the commitment to the full extent permitted by relevant Federal law.

* * * * *

3. Footnote 3, referred to in paragraph (b)(1) of section 2 of Appendix A, is amended by adding the following sentence after the first sentence in the footnote:

[3] * * * The gross sum of risk-weighted assets used in this calculation includes all risk-weighted assets, with the exception of the assets required to be deducted under section 3 in establishing risk-weighted assets (*i.e.*, the assets required to be deducted from capital under section 2(c)) of this appendix. * * *

4. Paragraph (b)(4) of section 2 of Appendix A is amended by adding, before the period in the first sentence the phrase "as calculated after deductions pursuant to section 2(c) of this appendix".

5. Footnote 5, referred to in paragraph (b)(4) of section 2 of Appendix A, is revised to read as follows:

[5] Capital instruments may be redeemed prior to maturity with the prior approval of the OCC. The OCC typically will consider requests for the redemption of capital instruments when the instruments are to be redeemed with the proceeds of, or replaced by, a like amount of a similar or higher quality capital instrument. However, the OCC may deny redemption in such circumstances or allow redemption in other circumstances, based upon its evaluation of the circumstances of each case. The OCC must be notified in writing of any request for redemption at least 30 days in advance of such redemption pursuant to the procedures in § 5.46 of this chapter.

6. The footnote reference [6] in the text of paragraph (c)(1)(i) of section 2 of appendix A, is removed and footnote 6 is removed and reserved.

7. Section 3 of Appendix A is amended by revising paragraphs (a)(1)(v) and (a)(2)(ii), by adding a new paragraph (a)(2)(xiii), and by revising paragraphs (b)(4)(i) through (iii) to read as follows:

Section 3. Risk Categories/Weights for On-Balance Sheet Assets and Off-Balance Sheet Items.

* * * * *

(a) * * *

(1) * * *

(v) That portion of local currency claims on or unconditionally guaranteed by central governments of non-OECD countries, to the extent the bank has local currency liabilities in that country. Any amount of such claims that exceeds the amount of the bank's local currency liabilities is assigned to the 100% risk category of section 3(a)(4) of this appendix.

* * * * *

(2) * * *

(ii) Claims on, or guaranteed by depository institutions, other than the central bank, incorporated in a non-OECD country, with a residual maturity of one year or less.

* * * * *

(xiii) That portion of local currency claims conditionally guaranteed by central governments of non-OECD countries, to the extent the bank has local currency liabilities in that country. Any amount of such claims that exceeds the amount of the bank's local currency liabilities is assigned to the 100% risk category of section 3(a)(4) of this appendix.

* * * * *

(b) * * *

(4) * * *

(i) Unused portion of commitments with an original maturing of one year or less;

(ii) Unused portion of commitments with an original maturity of greater than one year, if they are unconditionally cancelable [18] at any time at the option of the bank and the bank has the contractual right to make, and in fact does make, either—

(A) A separate credit decision based upon the borrower's current financial condition, before each drawing under the lending facility; or

(B) An annual (or more frequent) credit review based upon the borrower's current financial condition to determine whether or not the lending facility should be continued; and

(iii) The unused portion of retail credit card lines or other related plans that are unconditionally cancelable by the bank in accordance with applicable law.

* * * * *

8. Footnote 14, referred to in paragraph (b)(1)(iii) of section 3 of appendix A, is revised to read as follows:

[14] For risk-based capital purposes, the definition of the sale of assets with recourse, including one-to-four family residential mortgages, is generally the same as the definition contained in the Instructions for the Preparation of the Consolidated Reports of Condition and Income (the Call Report). Assets sold in transactions in which the bank retains risk in a manner constituting recourse under the Call Report instructions, but which are not reported on the bank's statement of condition, are included in section 3(b)(1)(iii), even though the Call Report allows such transfers to be reported as sales. However, mortgage loans sold in transactions in which the bank retains only an insignificant amount of risk and makes concurrent provision for that risk are not considered assets sold with recourse under section 3. In order to qualify for sales treatment, such transactions must meet three conditions: (1) The bank has not retained any significant risk of loss, either directly or indirectly; (2) The bank's maximum contractual exposure under the recourse provision (or through the retention of a subordinated interest in the mortgages)

[18] See section 1(c)(26) of appendix A to this part.

at the time of the transfer is equal to or less than the amount of probable loss that the bank has reasonably estimated that it will incur on the transferred mortgages; and (3) The bank must have created a liability account or other special reserve in an amount equal to its maximum exposure. The amount of this liability account or other special reserve may not be included in capital for the purpose of determining compliance with either the risk-based capital requirement or the leverage ratio; nor may it be included in the allowance for loan and lease losses.

9. In appendix A, table 1 is amended by revising item 4 in category 1 and item 5 in category 2, and by adding item 12 in category 2 to read as follows:

Table 1—Summary of Risk Weights and Risk Categories

Category 1: Zero percent

* * * * *

4. That portion of local currency claims on or unconditionally guaranteed by non-OECD central governments to the extent the bank has local currency liabilities in that country.

* * * * *

Category 2: 20 Percent

* * * * *

5. Claims on, or guaranteed by, non-OECD depository institutions with a residual maturity of one year or less.

* * * * *

12. That portion of local currency claims conditionally guaranteed by central governments of non-OECD countries, to the extent the bank has local currency liabilities in that country.

* * * * *

10. In appendix A, table 2 is amended by revising item 2 under "50 Percent Conversion Factor" and items 1 and 2 under "Zero Percent Conversion Factor" to read as follow:

Table 2—Credit Conversion Factors for Off-Balance Sheet Items

* * * * *

50 Percent Conversion Factor

* * * * *

2. Unused portion of commitments with an original maturity exceeding one year.

* * * * *

Zero Percent Conversion Factor

1. Unused portion of commitments with an original maturity of one year or less.

2. Unused portion of commitments which are unconditionally cancelable at any time, regardless of maturity.

Dated: April 23, 1992.

Stephen R. Steinbrink,

Acting Comptroller of the Currency.

BILLING CODE 4810-33-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 26974; Amdt. No. 1510]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

EFFECTIVE DATES: An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matter incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;
2. The FAA Regional Office of the region in which affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description on each SIAP is contained in the appropriate FAA Form 8260 and the National Flight Data Center (FDC)/Permanent (P) Notices to Airmen (NOTAM) which are incorporated by reference in the amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction of charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The Provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes SIAPs. For safety and timeliness of change considerations, this amendment incorporates only specific changes contained in the content of the following FDC/P NOTAM for each SIAP. The SIAP information in some previously designated FDC/Temporary (FDC/T) NOTAMs is of such duration as to be permanent. With conversion to FDC/P NOTAMs, the respective FDC/T NOTAMs have been cancelled.

The FDC/P NOTAMs for the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these chart changes to SIAPs by FDC/P NOTAMs, the TERPs criteria

were applied to only these specific conditions existing at the affected airports.

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. All SIAP amendments in this rule have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for all these SIAP amendments requires making them effective in less than 30 days.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making these SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, Navigation (Air), Standard instrument approaches, Weather.

Issued in Washington, DC, on September 11, 1992.

Thomas C. Accardi,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. App. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g) (revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

§§ 97.23, 97.25, 97.27, 97.29, 97.31, 97.33, 97.35 [Amended]

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

BILLING CODE 4910-13-M

---

14 CFR Part 97

[Docket No. 26973; Amdt. No. 1509]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA–200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS–420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260–3, 8260–4, and 8260–5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, DC on September 11, 1992.

Thomas C. Accardi,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. App. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

§§ 97.23, 97.25, 97.27, 97.29, 97.31, 97.33, 97.35 [Amended]

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identifed as follows:

RIN 1515-AA94

Dissemination of Manifest Data

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations to include specific information regarding the availability of manifest data on magnetic tapes for dissemination to the public. The amendment also informs importers or consignees of procedures they may follow to request confidential treatment of such data. This amendment is being made so that information regarding the availability of both this product and confidentiality request procedures will be more readily available to the public.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Phyllis Dye, Revenue Branch, National Finance Center (317) 298–1330.

SUPPLEMENTARY INFORMATION:

Background

Treasury Decision 88–38, published in the **Federal Register** on July 1, 1988, (53 FR 25041) as a Notice of a New Information Product Pursuant to OMB Circular A–130, announced that Customs would be making available to the public manifest information. T.D. 88–38 explained how the electronic exchange of data between Customs, carriers and Port Authorities regarding cargo arriving in and moving through ports was an integral element of the ACS, and how this exchange would improve cargo accountability and facilitate terminal operations for all parties involved. Because the automated system which was developed to transmit this manifest data to port authorities could also create a magnetic tape of all manifest activity nationwide, Customs determined that the data could be made available to the public. T.D. 88–38 was issued with a discussion of the analysis of comments which had been received in response to Customs request for comments on the proposal that this manifest information would be made available. The T.D. also described in detail the procedures whereby Customs would see to it that importers or consignees who requested confidential treatment of their names and addresses and that of their shippers would receive confidentiality. The procedures for requesting confidentiality are presently set forth in the Customs Regulations in § 103.14(d).

As the system is presently conducted, Customs is able to prepare a daily tape which contains all manifest transactions which have been transmitted to Customs through the AMS during the course of the day. The tape will be mailed from the U.S. Customs Data Center the following business day by first class U.S. mail to the party requesting it. If the requester desires another form of delivery, it will be necessary for the requester to make his own arrangements and notify Customs in advance. As stated above, information which Customs had been requested to keep confidential will not appear on the tape which will be offered to the public. The amendment includes a list of the data elements which will be made available to the public and identifies those elements which will be deleted where confidentiality has been requested.

The current production cost of the tapes is $100.00 per day, which is what Customs charges the public for any copies requested. Requests for tapes must be in writing and submitted to the National Finance Center in Indianapolis, along with a check for the amount covering the number of tapes desired. Tapes are available for specific days or on a subscription basis. Bills for subscriptions will be issued monthly with the first month's fee due in advance. Subscriptions may be cancelled provided the U.S. Customs Service receives written notice at least 10 days prior to the end of the month. Interested persons may contact Mrs. Phyllis Dye at the National Finance Center on (317) 298–1330 for further details.

If there is a technical problem with the tapes, or for non-receipt of tapes, the subscriber must notify the U.S. Customs Data Center in writing within seven days in order to receive a replacement or credit towards future tape purchases. Refunds will not be provided. Information regarding the technical specifications of the tapes, problem tapes or the non-receipt of tapes may be directed to Mr. Ray Fouch, U.S. Customs Data Center, on (703) 644–5200.

Because Customs believes that the availability of this information should receive the widest possible dissemination, Customs has decided to amend its regulations to include the information concerning the availability of manifest information on tape and the procedures for obtaining the tapes.

Inapplicability of Notice and Delayed Effective Date

Because this amendment involves a non-substantive change to the Customs Regulations relating to agency management, and only serves to provide the public with greater access to information about an existing Customs program under which information is released to the public, which was itself developed after following notice and comment procedure, pursuant to section 553(a)(2) of the Administrative Procedure Act (5 U.S.C. 553), no notice of proposed rulemaking or public procedure is necessary. For the same reasons, a delayed effective date is inappropriate.

Regulatory Flexibility Act

This document is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). That Act does not apply to any regulation such as this for which a notice of proposed rulemaking is not required by the Administrative Procedure Act (5 U.S.C. 551 *et seq.*), or any other statute.

Executive Order 12291

Because this document does not result in a "major rule" as defined by E.O. 12291, the regulatory impact analysis and review prescribed by the Executive Order is not required.

Drafting Information

The principal author of this document was Peter T. Lynch, Regulations and Disclosure Law Branch, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR Part 103

Amendment to the Regulations

Part 103 Customs Regulations (19 CFR part 103) is amended as set forth below:

PART 103—AVAILABILITY OF INFORMATION

1. The authority citation for part 103 continues to read as follows:

Authority: 5 U.S.C. 301, 552; 19 U.S.C. 66, 1624; 31 U.S.C. 9701.

2. In § 103.14, a new paragraph (e) is added to read as follows:

§ 103.14 Information on vessel manifests and summary statistical reports.

* * * * *

(e) *Availability of manifest data on magnetic tapes.*

(1) *Availability.* Manifest data acquired from the Automated Manifest System (AMS) is available to interested members of the public on magnetic tape. This data, compiled daily, will contain all manifest transactions made on the nationwide system within the last 24 hour period. Data for which parties have requested confidential treatment in accordance with § 103.14(d) will not be included on the tapes. These tapes may be purchased at the government's production cost. Tapes are available for specific days or on a subscription basis.

(2) *Requests and subscriptions.* Requests for tapes must be in writing and submitted to: U.S. Customs Service, National Finance Center, Revenue Branch, P.O. Box 68907, Indianapolis, Indiana 46278. Requests must include a check to cover the cost of the tapes requested. Actual costs and other specific information should be ascertained by contacting the National Finance Center, Revenue Branch at (317) 298–1330. Bills for subscriptions will be issued monthly, with the first month's fee due in advance. Requested tapes will be mailed from the Customs Data Center, first class, on the next business day after compilation. Parties desiring another form of delivery will have to make their own arrangements and notify Customs in advance. Subscriptions may be canceled provided Customs receives written notice at least 10 days prior to the end of the month. The U.S. Customs Data Center must be notified in writing within seven days of technical problems with tapes or non-receipt of tapes in order to receive a replacement or credit towards future tape purchases. Refunds will not be provided. Information regarding the technical specifications of the tapes, problem tapes or the non-receipt of tapes should be directed to U.S. Customs Data Center, on (703) 644–5200.

(3) *Data elements.* The following are the data elements from the AMS manifest which will be provided to the public via magnetic tape:

1. Carrier code.
2. Vessel country code.
3. Vessel name.
4. Voyage number.
5. District/port of unlading.
6. Estimated arrival date.
7. Bill of lading number.
8. Foreign port of lading.
9. Manifest quantity.
10. Manifest units.
11. Weight.
12. Weight unit.
13. Shipper name.[1]
14. Shipper address.[1]
15. Consignee name.[1]
16. Consignee address.[1]
17. Notify party name.[1]
18. Notify party address.[1]
19. Piece count.
20. Description of goods.
21. Container number.
22. Seal number.

[1] Designates data element which will be deleted where confidentiality has been requested.

Michael H. Lane,
Commissioner of Customs.

Approved: August 26, 1992.

Peter K. Nunez,
Assistant Secretary of the Treasury.

RIN 1515–AB08

Line Release

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document amends the Customs Regulations by providing a new method of processing entries of merchandise entering the U.S. This new method, Line Release, is designed to release and track repetitive shipments through bar code technology. It may be used as a form of entry or immediate delivery at certain locations approved by Customs and will result in expedited release of repetitive shipments.

EFFECTIVE DATE: October 26, 1992.

FOR FURTHER INFORMATION CONTACT: William Nolle, Office of Automated Commercial Systems (202) 927–0541 or Bruce Nunziata, Office of Cargo Enforcement and Facilitation (202) 927–0485.

SUPPLEMENTARY INFORMATION:

Background

On August 28, 1991, a document was published in the **Federal Register** (56 FR 42568), proposing to amend the Customs Regulations by providing an automated method to expedite the release of certain shipments. The method, known as Line Release, is designed for the release and tracking of highly repetitive, high volume shipments through the use of personal computers and bar code technology. Line Release will be both faster and require less paperwork than other entry methods.

The proposal generated many comments. An analysis of the comments is set forth below.

Discussion of Comments

Comment: The use of Line Release should not be limited to land border ports. The benefits of Line Release should be available wherever Customs and the importing community chooses.

Response: While at this time, Customs is not planning the expansion of Line Release beyond the land border environment, Customs agrees that the language restricting Line Release to land border ports is unduly restrictive. Accordingly, the language restricting Line Release to land border ports is removed. Customs current policy of restricting Line Release to land border ports, however, will remain in effect until such time as both Customs and the trade community mutually agree to any change in this policy.

Comment: In proposed § 142.42 (b) and (g), relating to application for Line Release, Customs is requesting information related to the initiator and the entry filer, respectively. As the entry filer and the initiator are the same parties, this is redundant.

Response: Customs disagrees. There may be situations when the initiator and the filer may not be the same party. In addition, other than the name of the company, the information requested is not duplicative in paragraphs (b) and (g) and the information is for two different purposes. The information requested in (b)—the name of the company, contact name and telephone number—is used in case there are any questions on the application. The information requested in (g)—the company name, entry filer code, and importer number—is keyed into the Line Release data base and transmitted to the mainframe. In addition, this arrangement of information facilitates data base maintenance.

Comment: In § 142.42(h), regarding the application for Line Release, Customs requests product information to be submitted. One of the requested elements of product information is "HTSUS number for particular product or range of HTSUS numbers for multiple products for which Line Release is sought." This language is vague. What does Customs mean by "range of HTSUS numbers"?

Response: We do not wish to define this term or state specific ranges for Line Release products. Customs believes that it would severely limit system flexibility to define specific ranges and that the needs of the trade community are better served by allowing more flexibility.

Comment: Proposed § 142.42(h), regarding the information required on an application for Line Release, states that

HTSUS number is required. However, in the background portion of the proposal, it was stated that tariff numbers be reported at the sub-heading level. At what level of specificity must the tariff number be set forth on the Line Release application?

Response: While the Line Release system is capable of accepting numbers at the four, six or eight digit level, Customs has determined that for greatest flexibility, HTSUS numbers shall be reported at the sub-heading level. Accordingly, the language in § 142.42(h) is changed to reflect this. If District Directors need more detail than the sub-heading level, they may request information at the eight digit level.

Comment: If an application is denied, Customs should advise the applicant of the criteria used to make the determination and why the application was denied.

Response: Line Release applications are subjected to risk analysis through the use of selectivity. Information contained in selectivity files is of a sensitive nature. Providing applicants the reasons they were denied the use of Line Release would be tantamount to releasing selectivity criteria to the public. Accordingly, Customs will not advise the applicant of the criteria used or why an application for Line Release is denied.

Comment: Proposed § 142.47 regarding examinations is unclear about why in some instances a Line Release assigned entry number is voided and in other instances the assigned entry number is retained pending the result of the investigation.

Response: There are two different kinds of examinations of Line Release merchandise. The procedures that are followed are different for the two examination types. Customs believes that it may be detrimental to Customs enforcement efforts to specify the kinds of examinations or to link certain procedures to a particular type of examination.

Comment: Customs should advise participants if it is removing a C–4 Code from Line Release.

Response: Section 142.49(a) provides that a District Director may delete an entry filer's C–4 Code without prior notification in cases of willfulness or when public health, interest, or safety so requires. This is not to say that prior notification will not be made under any circumstances. Under circumstances when Customs determines it will remove a C–4 Code because of administrative or disciplinary reasons, advance notification will be given. For example, Customs anticipates giving advance notification if a bar code label is of inadequate quality and Customs decides to remove the C–4 Code until better labels can be printed. Customs also anticipates giving advance notification when there are recurring discrepancies in documentation. However, when Customs determines it will remove a C–4 Code because of information it has received of a sensitive or enforcement nature, advance notification will not be provided. Notification in such circumstances would alert participants of Customs intent to examine merchandise or drivers and could compromise ongoing investigations.

Comment: In proposed § 142.49(a), what does Customs mean by "willfulness"?

Response: Customs means a knowing and intentional act or omission.

Comment: In proposed § 142.49(b), why must entry filers indicate the reason for deleting a particular category of shipments from the Line Release system?

Response: There may be reasons of which Customs should be aware so that it can ensure compliance and uniformity in other districts that may process Line Release shipments with the same commodity, shipper and/or consignee.

Comment: Section 142.48 should be amended to provide that release data be printed on the face of the invoice wherever possible and that release data be printed on other agency documentation required to be presented at the time of release.

Response: Section 142.48, as proposed, provides that release data will be printed on the invoice. It is silent as to where on the invoice. Frequently, there is no space on the front of the invoice to print release data. Customs believes that the location on the invoice where the data is printed need not be addressed in the regulations and that it should be left to the discretion of the releasing officer to determine the easiest, fastest and most legible place to print the data. If at a later time Customs determines that the release data should appear at a more specified location on the invoice, Customs will amend the regulations.

Regarding printing release data on other agency documentation, Customs agrees that when the required documentation is presented at the time of release, Customs may print the release data on the other agency documentation. Section 142.48 is amended accordingly.

Comment: There is a potential lack of uniformity if a District Director is allowed the authority to deny a Line Release application even when it has been approved in another district.

Response: While Customs will make every attempt to maintain the District Director's authority to approve or deny Line Release applications, administrative procedures have been developed in an effort to bring uniformity to the process. As part of the review process, the district is required to determine if the application has been approved in another district. Approval in another district is a factor which should be taken into consideration before rejecting an application. Applicants whose request for Line Release has been denied in one district, but previously approved in another district, may submit the denied application to the District Director to be forwarded to the Assistant Commissioner, Office of Information Management. The Office of Information Management will coordinate review and will notify the District Director of the final determination. The language in § 142.43 has been changed to reflect these administrative procedures.

Comment: Specific language regarding other government agencies should be included in the Line Release regulations, especially in the approval process.

Response: Customs believes that the Line Release regulations need not detail or refer to other agency regulations. As set forth in part 12 of the Customs Regulations, Customs enforces the laws of many agencies regarding importations. In administering Line Release, Customs will continue to enforce the laws of other agencies by routing applications to other agencies for review and, at times, referring merchandise to other agencies for examination. Other agencies can rest assured that Customs will adjust examination factors to meet other agency examination or sampling requirements. Customs believes, however, that setting forth in the regulations how it will administer Line Release merchandise with each and every agency is unnecessary. It should be noted that proposed § 142.46(c) does provide that if a Line Release shipment requires other agency documentation, the Customs officer at the Line Release site will be alerted to that requirement electronically when he verifies the data on the bar code with the information on the invoice so that other agency requirements can be checked.

Comment: Will immigration clearance of drivers of Line Release vehicles delay the processing of cars at Line Release ports?

Response: While Customs cannot dispense with immigration formalities for drivers of Line Release vehicles, the cross-designation of land border Customs inspectors as Immigration and Naturalization Service inspectors allows

the inspectors to inspect and clear drivers for immigration purposes on the primary lanes in most cases. There will be instances, however, in which a driver will have to be referred for an immigration secondary inspection.

Comment: The requirement for a manifest on Line Release shipments is unnecessary because the bar code and invoice contain the elements required on a manifest.

Response: Section 123.3(a), Customs Regulations, requires that all baggage or merchandise carried on a vehicle arriving from Canada or Mexico be listed on a manifest. Manifests are currently required because there is information on the manifest, such as the name of the carrier and the vehicle number, which is not on the bar code and invoice. Customs is currently looking into combing both the invoice and manifest information in one document. If Customs succeeds at this, a manifest would no longer be necessary, and the regulations would then be amended accordingly.

Comment: A Line Release filer should be given the ability to cancel a Line Release transaction or to change a Line Release entry to a different entry type.

Response: Once a line Release transaction is started, only Customs can make changes. This is necessary so the Line Release system can be run smoothly. Accordingly, if a filer wishes to change the election as to whether the release should be considered an entry or an immediate delivery, the filer must submit a letter requesting such change to Customs. This is set forth in § 142.51. In addition, if an entry is inadvertently released under Line Release or if two entry numbers are inadvertently assigned to one transaction, a filer can request Customs to cancel the erroneously assigned entry number. The request to change to different entry types, however, creates difficulties. Aside from the ability to change an entry to an immediate delivery, Customs cannot change a Line Release entry to other types of entries. Other types of entries, such as in-bond or TIBs, have different transaction control numbers and different data requirements. Accordingly, Customs cannot entertain a request to change one entry type to another.

Comment: Current Line Release system administration and use of tariff ranges result in too many bar codes. Examples of products that would have too many bar codes are gaskets made of paper, plastic, metal and cork, which due to their composition, cannot fit into a reasonable range and require separate product codes.

Response: Customs Office of Automated Commercial Systems is administering Line Release to provide the greatest flexibility possible. While system modifications are being considered to accommodate these situations, Customs and trade participants must work within this limitation until these modifications are approved and implemented.

Comment: Please clarify why it is necessary to distinguish between an entry and an immediate delivery when applying for Line Release.

Response: In addition to immediate delivery for perishables, § 142.21, Customs Regulations, allows district directors to grant blanket authority for immediate delivery on importations arriving from contiguous countries. This has resulted in a difference in processing between the northern and southern borders. In general, all northern border district directors have granted blanket authority for immediate delivery for all transactions; on the southern border, district directors have granted authority for immediate delivery only for perishable products. Consequently, in the north, most transactions are filed as immediate deliveries with an occasional entry being filed, and in the south, most transactions are filed as entries with an occasional immediate delivery being filed. Because entry establishes rate of duty, and immediate delivery does not, it is critical that Customs establish, at the time of release, the entry or immediate delivery status of the release. The release document, CR 3461 ALT, allows filers to elect whether they are filing an entry or an immediate delivery at the time of release.

The Line Release system does not have a systemic capability to distinguish between an entry and an immediate delivery. Accordingly, § 142.42 provides that applicants state on the data loading sheet whether the transactions are to be considered an entry or an immediate delivery. This parallels the election of immediate delivery or entry that is made on the CF 3461 ALT. Filers wishing to change the designation of their form of release may do so pursuant to § 142.51 if they submit to the district director a written notice noting the C–4 Code, the change of designation, and the effective date the change.

Customs is currently considering modifications to Line Release that will enable the system to differentiate between an entry and an immediate delivery. Until that time and the regulations are amended accordingly, participants must adhere to the procedures set forth in the regulations published today.

Comment: Proposed § 142.45(b) should not be finalized because there are problems with multiple commodities being processed through the Line Release system.

Response: Multiple commodity processing is working very well at most Line Release sites. While in some locations, system users are unfamiliar with the correct handling procedures for processing multiple commodities and the errors in handling cause inconvenience, Customs believes that the correct solution to these problems is not to eliminate multiple commodity processing, but to work with field users and trade participants to correct these errors through on-site training.

Comment: The use of Line Release for Master Monthly Manifest procedures should be included in the regulations.

Response: Customs disagrees. While the Customs Omnibus Budget Reform Act of 1989 provided for a test to convert manual monthly entries to Line Release, Customs believes that these procedures should not be included in the regulations at this time.

Comment: The method for assigning entry numbers to Line Release transactions should be changed to allow a participant to provide an entry number for the release transaction, rather than having the system assign an entry number from the range provided by the filer.

Response: Currently, the system does not have this capability. Customs agrees that if this capability existed, this would be beneficial to some users. Accordingly, Customs is considering modifications to the Line Release system which would allow Customs to release transactions with filer supplied numbers. If such modifications are made, Customs will amend the regulations accordingly.

Conclusion

After careful consideration of the comments received and further review of the matter, it has been determined that the amendments with the modifications discussed above should be adopted.

Executive Order 12291

This document does not meet the criteria for a "major rule" as specified in E.O. 12291. Accordingly, no regulatory impact analysis has been prepared.

Regulatory Flexibility Act

Pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), it is certified that these amendments will not have a significant economic impact on a substantial

number of small entities. Accordingly, they are not subject to the regulatory analysis or other requirements of 5 U.S.C. 603 and 604.

Paperwork Reduction Act

The collection of information contained in this regulation is in § 142.42. The collection of information has been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3504(h)) under control number 1515–0181. The estimated average burden associated with this collection of information is 25 hours per respondent or recordkeeper, depending on individual circumstances. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the U.S. Customs Service, Paperwork Management Branch, Washington, DC 20229, or the Office of Management and Budget, Attention: Desk Officer for the Customs Service, Office of Information and Regulatory Affairs, Washington, DC 20503.

Drafting Information

The principal author of this document was Harold M. Singer, Regulations and Disclosure Law Branch, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in 19 CFR Part 142

Customs duties and inspection, Imports.

Amendments to the Regulations

Parts 142 and 178, Customs Regulations (19 CFR parts 142 and 178), are amended as set forth below.

PART 142—ENTRY PROCESS

1. The authority citation for part 142 continues to read as follows:

Authority: 19 U.S.C. 66, 1448, 1484, 1624.

2. Part 142 is amended by adding a new subpart D to read as follows:

Subpart D—Line Release

Sec.

142.41 Line Release.
142.42 Application for Line Release processing.
142.43 Line Release application approval process.
142.44 Entry number range.
142.45 Use of bar code by entry filer.
142.46 Presentation of invoice and assignment of entry number.
142.47 Examinations of Line Release transactions.
142.48 Release procedure.
142.49 Deletion of C–4 Code.
142.50 Line Release data base corrections or changes.
142.51 Changing election of entry or immediate delivery.
142.52 District-wide and multiple district acceptance of Line Release.

§ 142.41 Line Release.

Line Release is an automated system designed to release and tract repetitive shipments. It is a method of entry or immediate delivery extended to importers of merchandise which Customs deems to be repetitive and high volume. Line Release may be used only at locations approved by Customs for handling Line Release.

§ 142.42 Application for Line Release processing.

In order to obtain approval for processing import transactions through Line Release, a broker or importer filing its own entries (entry filer) must submit an application to the District Director, signed by the entry filer, in a format described as a Line Release Data Loading Sheet. The application must be accompanied by a representative sample of an actual commercial invoice for the products sought to be processed under Line Release. The Line Release Data Loading Sheet must contain the following information with each information element appearing on a separate line.

(a) District or port where application is being made.

(b) Initiating Company Information: name, address, city, state, contact person, phone number of contact person, and signature.

(c) Listing of all districts in which the initiating company has filed a similar application for Line Release.

(d) Country of origin codes (ISO codes from Annex B of HTSUS) for the merchandise.

(e) Shipper or manufacturer information: Name, address, city, province/state, country, postal code, indication by noting "M" or "S" whether this information relates to a manufacturer (M) or a shipper (S), and manufacturer identification number of the shipper or manufacturer.

(f) Importer information (if importer is different than filer): Name, address, city, state and country, zip code, importer number, bond number, and surety code.

(g) Entry filer information: Name, importer number, filer code, bond number, and surety code.

(h) Product information: Product description, manifest unit of measure, HTSUS number described to sub-heading level for particular product or range of HTSUS numbers at sub-heading levels for multiple products for which Line Release is sought.

(i) Election of whether the Line Release transaction is to be considered an entry or an immediate delivery.

§ 142.43 Line Release application approval process.

(a) *District review.* The District Director shall review each Line Release application is determined whether the shipments qualify for Line Release processing. The District Director may contact the applicant for further information, if necessary. An application that fails to elect whether the Line Release transaction is to be considered an entry or an immediate delivery will be returned to the applicant. If all required information is submitted, the application will be forwarded to Headquarters for final processing.

(b) *Assignment of C–4 Codes.* A C–4 Code (Common Commodity Classification Code), which is a unique code identifying the shipper or manufacturer, importer, entry filer, and the product for each Line Release shipment, shall be assigned by Headquarters to each application approved for Line Release. Headquarters shall annotate each approved application with a C–4 Code an return the application to the District Director who shall return the approved application to the entry filer.

(c) *Denial of Line Release application.* If the District Director is considering the denial of a Line Release application, consideration shall be given to whether an application by the same filer for the same transaction has been approved in another district. If there is not a approved application in another district the District Director determines that the application shall be denied, the application shall be noted denied and returned to the entry filer without a C–4 Code annotation by the District Director. If an application has been approved in another district, but the District Director still questions whether the application should be approved in his district, the District Director shall forward the application to the Assistant Commissioner, Office of Information Management. The Office of Information Management will review the application and will notify the District Director of the final determination.

§ 142.44 Entry number range.

After an application for Line Release has received final approval, filers must provide the District Director, in writing, with a range of entry numbers for use in the system so that an entry number can

be assigned automatically to each Line Release transaction. For the purposes of this subpart, "entry number", when the release is an immediate delivery, merely refers to the Line Release transaction number; this number does not become the actual entry number until an entry for the merchandise released under the immediate delivery procedure is filed. A separate range must be provided for each Line Release site in the district. These entry numbers shall be used for assignment within the Line Release system. Entry filers shall not assign these numbers to other entry transactions.

§ 142.45 Use of bar code by entry filer.

(a) *Printing of C–4 Code.* Upon receipt of an approved Line Release application, the entry filer, in accordance with instructions from the District Director, shall preprint invoices with the C–4 Code in bar code and alpha-numeric format or print labels with the necessary information. Bar codes shall be printed in accordance with the specifications states in Customs Publication 561 (*Line Release Overview*). Labels or preprinted invoices also shall state the name of the shipper or manufacturer of the product and the name of the importer of record, if other than the entry filer, above the bar code and the name of the entry filer and a product description below the bar code.

(b) *Multiple commodity processing.* Multiple commodity processing allows more than one product to be released under one entry number. The shipper/manufacturer, importer of record and the entry filer must be the same. The product description is the only variable allowed. The commodities should be listed on one invoice with C–4 Code labels for each commodity attached to the invoice.

(c) *Distribution of labels.* If labels are used, the labels shall be affixed to the invoices in accordance with instructions from the District Director. The entry filer may either affix the labels or distribute the labels to the shippers/manufacturers and instruct them in the use and placement of the labels.

§ 142.46 Presentation of invoice and assignment of entry number.

(a) *Presentation of invoice.* When merchandise that has been approved for Line Release is imported at a Line Release site, the carrier, importer or filer shall present Customs with an invoice with the bar code or codes printed or affixed and, according to the method of transportation, the appropriate manifest document.

(b) *Verification of data.* If after scanning the bar code at the Line Release site, the Customs officer verifies the data on the bar code with the information on the invoice, he will key the quantity on the invoice and an entry number will be automatically assigned to the transaction. If there are any differences between the system data and the invoice and bar code, including any differences in entry filer, the Customs officer shall order an examination.

(c) *Other agency documentation.* If the Line Release shipment requires other agency documentation, the Customs officer at the Line Release site will be alerted to that requirement electronically when he verifies the data on the bar code with the information on the invoice. If the required form is presented to the officer with the documentation package, the shipment may be released.

§ 142.47 Examinations of Line Release transactions.

(a) *General.* Merchandise imported under Line Release generally may be released without further Customs processing. Customs, however, may choose to inspect any Line Release shipment. Examinations may be either specifically ordered by the Customs officer or random.

(b) *Voiding of Line Release Transaction.* Customs may void a Line Release transaction because of an examination. If this occurs, Customs will return the invoice to the carrier, and the entry filer, in order to enter merchandise, shall prepare and submit either a CF 3461 or 3461 Alternate.

§ 142.48 Release procedure.

(a) *General.* When the Customs officer at the Line Release site determines that a shipment is ready for release, release data, consisting of the entry number, the date and time of release, the inspector's badge number, the quantity and unit of measure, and the C–4 Code will be printed on the invoice and the manifest document and, when other agency documentation is presented, may be printed on that documentation. The invoice shall be returned to the entry filer and the manifest document shall be retained by Customs.

(b) *Notification to non-ABI participants.* The returned invoice with the release data shall be the release notification to non-ABI participants.

(c) *Notification to ABI participants.* If the Line Release entry filer is an operational ABI participant, the filer shall receive an electronic notification of the release consisting of the importer of record number, the district/port of entry, the filer code, the entry number, the date and time of release, the manufacturer code, the quantity and unit of measure, the release site, the HTSUS number(s), the C–4 Code and the country or countries of origin.

§ 142.49 Deletion of C–4 Code.

(a) *By Customs.* A District Director may temporarily or permanently delete an entry filer's C–4 Code without providing the participant with any justification and without prior notification in cases of willfulness or when public health, interest, or safety so requires, thereby revoking the filer's use of Line Release.

(b) *By entry filer.* Entry filers may delete C–4 Codes from Line Release by notifying the District Director in writing on a Deletion Data Loading Sheet. Such notification shall state the C–4 Code which is to be deleted, the district or port where the C–4 Code is to be deleted and the reason for the requested deletion. A copy of the originally approved Data Loading Sheet must be submitted with the Deletion Data Loading Sheet. If only a temporary deletion is desired, the filer shall state the requested effective date for the deletion and the date the C–4 Code is requested to be returned to Line Release processing.

§ 142.50 Line Release data base corrections or changes.

The applicant shall notify the District Director of any changes in names, importer or filer numbers or bond information on a Line Release Data Loading Sheet as soon as possible. Notification shall be accomplished by the submission of a copy of the original loading sheet with a Correction Data Loading Sheet.

§ 142.51 Changing election of entry or immediate delivery.

An applicant who has already received a C–4 Code and wishes to change the election chosen on his Line Release application as to whether the release should be considered an entry or an immediate delivery must submit a letter requesting such change to the district director where the C–4 Code is used. This letter must include the C–4 Code to be changed and the date the change is to be effective. If the requested change is for a temporary time period, the letter shall include the date the releases are to return to the release type originally requested. Applications that fail to state the effective dates of the changes requested will be returned to the applicant.

§ 142.52 District-wide and multiple district acceptance of Line Release.

(a) *District-wide processing.* If a C–4 Code has been approved by a District Director, the C–4 Code may be used at any Line Release site in the district.

(B) *Multiple district processing.* In order for a C–4 Code approved in one district to be used in another district, the entry filer must submit an application to the District Director of the other district. While uniform criteria shall be applied to approving similar shipments for Line Release in all districts, a District Director may exercise his discretion to deny Line Release in a district even though a similar shipment may be approved in another district.

PART 178—APPROVAL OF INFORMATION COLLECTION REQUIREMENTS

1. The authority citation for part 178, Customs Regulations (19 CFR part 178) continues to read as follows:

Authority: 5. U.S.C. 301; 19 U.S.C. 1624, 44 U.S.C. 3501 *et seq.*

2. Section 178.2 is amended by inserting the following in the appropriate numerical sequence according to the section number under the column indicated:

§ 178.2 Listing of OMB Control Numbers.

19 CFR section	Description	OMB control No.
§ 142.42	Line release application.	1515–0183

Approved: September 18, 1992.

Carol Hallett,

Commissioner of Customs.

Peter K. Nunez,

Assistant Secretary of Treasury.

BILLING CODE 4820–02–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 404

RIN 0960–AD15

Federal Old-Age, Survivors and Disability Insurance Benefits; Revision of Appendices, Tables, and Lists

AGENCY: Social Security Administration, HHS.

ACTION: Final rules.

SUMMARY: In these final regulations, we update various appendices, tables, and lists in regulations on Federal old-age, survivors, and disability insurance. All update information is based on determinations by the Secretary of Health and Human Services previously published in the **Federal Register** pursuant to statutory authority.

EFFECTIVE DATES: September 24, 1992. The determinations on which these regulations are based were effective on the dates they were published in the **Federal Register.**

FOR FURTHER INFORMATION CONTACT: Phyllis E. Green, Legal Assistant, Office of Regulations, Social Security Administration, 6401 Security Blvd., Baltimore, MD 21235, (410) 966–9822.

SUPPLEMENTARY INFORMATION: Part 404 of 20 CFR contains various appendices, tables, and lists that show quarter of coverage amounts, average of total wages, benefit formulas, minimum Social Security earnings to qualify for a year of coverage after 1950 for purposes of the special minimum primary insurance amount, special minimum primary insurance amount and related maximum family benefits, percentage of increases in the primary insurance amount, and the contribution and benefit base amounts. The appendices, tables, and lists in the CFR have not been updated for several years and, therefore, do not contain current information.

Revision of Information

In these final regulations, we revise various appendices, tables, and lists in 20 CFR part 404 by using information that we previously published in the **Federal Register.**

1. The appendix to subpart B is updated by adding quarter of coverage amounts for the years 1988 through 1992.

2. The appendices to subpart C are updated by revising appendices I, II, IV, V, VI, and VII by adding information for additional years. Appendices II and VI are reformatted for conciseness and to improve readability. The heading of Appendix IV is revised and the chart reformatted to reflect more accurately minimum Social Security earnings needed to qualify for a year of coverage after 1950.

Due to the amendment of section 215(i)(4) of the Act by section 12105 of Public Law 99–272, updated benefit amounts shown in appendix III are no longer required to be published in the **Federal Register.** Therefore, appendix III is not updated with current benefit amounts. However, the introductory paragraphs to appendix III explain how to compute the current benefit amount using the table shown and the percentage of increase in appendix VI.

3. The contribution and benefit base amounts shown in subpart E at § 404.429(c)(1) and in subpart K at § 404.1047 and § 404.1096(b) are updated.

Federal Register References

The dollar amounts, benefit formulas, benefit tables, and percentage amounts for the periods shown in this update of appendices, tables, and lists are contained in various notices published in the **Federal Register** as follows:

FR Reference: 53 FR 43932 (10/31/88), 54 FR 45801 (10/31/89), 54 FR 53751 (12/29/89), 55 FR 45856 (10/31/90), 56 FR 55325 (10/25/91).

Regulatory Procedures

The Department, even when not required by statute, as a matter of policy, generally follows the Administrative Procedure Act (APA) notice of proposed rulemaking and public comment procedures specified in 5 U.S.C. 553 in the development of its regulations. The APA provides exceptions to its notice and public comment procedures when an agency finds there is good cause for dispensing with such procedures on the basis that they are impracticable, unnecessary, or contrary to the public interest. We have determined that, under 5 U.S.C. 553(b)(B), good cause exists for waiver of notice of proposed rulemaking and public comment procedures in these regulations because we are only reflecting information published in the **Federal Register** which is not discretionary and which does not involve the setting of policy. Therefore, opportunity for prior public comment is unnecessary and these amendments are being issued as final rules.

Executive Order 12291

The Secretary has determined that this is not a major rule under Executive Order 12291. These final regulations do not result in additional costs or savings or otherwise meet the threshold criteria of Executive Order 12291 because they merely update the appendices, tables, and lists with information previously published in the **Federal Register** in accordance with various provisions of the Act. Therefore, a regulatory impact analysis is not required.

Paperwork Reduction Act

These regulations impose no reporting/recordkeeping requirements necessitating clearance by the Office of Management and Budget.

Regulatory Flexibility Act

We certify that these regulations will not have a significant economic impact on a substantial number of small entities because these regulations will affect only individuals. Therefore, a regulatory flexibility analysis as provided in Public Law 96–354, the Regulatory Flexibility Act, is not required.

(Catalog of Federal Domestic Assistance: Program Nos. 93.802, Social Security Disability Insurance; 93.803, Social Security Retirement Insurance; 93.804 Social Security Survivors Insurance.)

List of Subjects in 20 CFR Part 404

Administrative practice and procedure, Death benefits, Disability benefits, Reporting and recordkeeping requirements, Old-Age, Survivors and disability insurance.

Dated: June 11, 1992.

Gwendolyn S. King,

Commissioner of Social Security.

Approved: July 22, 1992.

Louis W. Sullivan,

Secretary of Health and Human Services.

PART 404—FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE (1950–)

For the reasons set out in the preamble, subparts B, C, E, and K of part 404 in chapter III of title 20 of the Code of Federal Regulations are amended as follows:

1. The authority citation for part 404, subpart B continues to read as follows:

Authority: Secs. 205(a), 212, 213, 214, 216, 217, 223, and 1102 of the Social Security Act; 42 U.S.C. 405(a), 412, 413, 414, 416, 417, 423, and 1302.

2. The appendix to subpart B is amended by adding the amounts for 1988 through 1992 to the table to read as follows:

Appendix to Subpart B of Part 404—Quarter of Coverage Amounts for Calendar Years After 1978

* * * * *

Calendar year	Amount needed
* * * * *	*
1988	$470
1989	500
1990	520
1991	540
1992	570

3. The authority citation for part 404, subpart C continues to read as follows:

Authority: Secs. 202(a), 205(a), 215, and 1102 of the Social Security Act; 42 U.S.C. 402(a), 405(a), 415, and 1302.

4. The appendices to subpart C are amended as follows:

A. Appendix I is amended by adding amounts for 1986 through 1990 to the table to read as follows:

Appendix I to Subpart C of Part 404—Average of the Total Wages for Years After 1950

* * * * *

Calendar year	Average of the total wages
* * * * *	*
1986	17,321.82
1987	18,426.51
1988	19,334.04
1989	20,099.55
1990	21,027.98

B. Appendix II is revised to read as follows:

Appendix II of Subpart C of Part 404—Benefit Formulas Used With Average Indexed Monthly Earnings

As explained in § 404.212, we use one of the formulas below to compute your primary insurance amount from your average indexed monthly earnings (AIME). To select the appropriate formula, we find in the left-hand column the year after 1978 in which you reach age 62, or become disabled, or die before age 62. The benefit formula to be used in computing your primary insurance amount is on the same line in the right-hand columns. For example, if you reach age 62 or become disabled or die before age 62 in 1979, then we compute 90 percent of the first $180 of AIME, 32 percent of the next $905 of AIME, and 15 percent of AIME over $1,085. After we figure your amount for each step in the formula, we add the amounts. If the total is not already a multiple of $0.10, we round the total as follows:

(1) For computations using the benefit formulas in effect for 1979 through 1982, we round the total upward to the nearest $0.10, and

(2) For computations using the benefit formulas in effect for 1983 and later, we round the total downward to the nearest $0.10.

BENEFIT FORMULAS

Year you reach age 62 [1]	90 percent of the first—	plus 32 percent of the next—	plus 15 percent of AIME over—
1979	$180	$905	$1,085
1980	194	977	1,171
1981	211	1,063	1,274
1982	230	1,158	1,388
1983	254	1,274	1,528
1984	267	1,345	1,612
1985	280	1,411	1,691
1986	297	1,493	1,790
1987	310	1,556	1,866
1988	319	1,601	1,922
1989	339	1,705	2,044
1990	356	1,789	2,145
1991	370	1,860	2,230
1992	387	1,946	2,333

[1] Or become disabled or die before age 62.

C. Appendix IV is revised to read as follows:

Appendix IV of Subpart C of Part 404—Earnings Needed for a Year of Coverage After 1950

MINIMUM SOCIAL SECURITY EARNINGS TO QUALIFY FOR A YEAR OF COVERAGE AFTER 1950 FOR PURPOSES OF THE—

Year	Special minimum primary insurance amount	Benefit computations described in section 404.213(d) [2]
1951–1954	$900	$900
1955–1958	1,050	1,050
1959–1965	1,200	1,200
1966–1967	1,650	1,650
1968–1971	1,950	1,950
1972	2,250	2,250
1973	2,700	2,700
1974	3,300	3,300
1975	3,525	3,525
1976	3,825	3,825
1977	4,125	4,125
1978	4,425	4,425
1979	4,725	4,725
1980	5,100	5,100
1981	5,550	5,550
1982	6,075	6,075
1983	6,675	6,675
1984	7,050	7,050
1985	7,425	7,425
1986	7,875	7,875
1987	8,175	8,175
1988	8,400	8,400
1989	8,925	8,925
1990	9,525	9,525
1991	5,940	9,900
1992	6,210	10,350

[2] Applies only to certain individuals with pensions from noncovered employment.

Note: For 1951–78, the amounts shown are 25 percent of the contribution and benefit base (the contribution and benefit base is the same as the annual wage limitation as shown in § 404.1047) in effect. For years after 1978, however, the amounts are 25 percent of what the contribution and benefit base would have been if the 1977 Social Security Amendments had not been enacted, except, for special minimum benefit purposes, the applicable percentage is 15 percent for years after 1990.

D. Appendix V is amended by adding tables for December 1987, December 1988, December 1989, December 1990, and December 1991 to read as follows:

Appendix V of Subpart C of Part 404—Computing the Special Minimum Primary Insurance Amount and Related Maximum Family benefits

* * * * *

DECEMBER 1987

I. Years of coverage	II. Primary insurance amount	III. Maximum family benefit
11	$20.20	$30.40
12	40.10	60.40
13	60.30	90.70
14	80.30	120.70
15	100.40	150.70
16	120.60	181.20

24	334.80	502 70
25	358.60	538.20
26	382.80	574.70
27	406.70	610.40
28	430.40	646.10
29	454.30	682.20
30	478.20	717.80

* * * * *

E. Appendix VI is revised to read as follows:

Appendix VI of Subpart C of Part 404—Percentage of Automatic Increases in Primary Insurance Amounts Since 1978

Effective date	Percentage increase
06/79	9.9
06/80	14.3
06/81	11.2
06/82	7.4
12/83	3.5
12/84	3.5
12/85	3.1
12/86	1.3
12/87	4.2
12/88	4.0
12/89	4.7
12/90	5.4
12/91	3.7

F. Appendix VII is amended by adding yearly amounts for 1988 through 1992 to read as follows:

Appendix VII of Subpart C of Part 404—"Old-Law" Contribution and Benefit Base

* * * * *

Year	Amount
1988	33,600
1989	35,700
1990	38,100
1991	39,600
1992	41,400

5. The authority citation for part 404, subpart E continues to read as follows:

Authority: Secs. 202, 203, 204(a) and (e), 205(a), 222(b), 223(e), 224, 227, and 1102 of the Social Security Act; 42 U.S.C. 402, 403, 404(a) and (e), 405(a), 422(b), 423(e), 424, 427, and 1302.

6. Section 404.429(c)(1) is amended by adding yearly amounts for 1988 through 1992 to the table to read as follows:

§ 404.429 Earnings; defined.

* * * * *

(c) * * *

(1) Remuneration that exceeds the calendar year amount as follows:

Calendar year	Amount
1988	45,000
1989	48,000
1990	51,300
1991	53,400
1992	55,500

* * * * *

7. The authority citation for part 404, subpart K is revised to read as follows:

Authority: Secs. 205(a), 209, 210, 211, 229(a), 230, 231, and 1102 of the Social Security Act; 42 U.S.C. 405(a), 409, 410, 411, 429(a), 430, 431, and 1302; sec. 1704 of Pub. L. 99-514; 100 Stat. 2779; sec. 8013 of Pub. L. 100-647; 102 Stat. 3789.

8. Section 404.1047 is amended by adding amounts for 1988 through 1992 to read as follows:

§ 404.1047 Annual wage limitation.

* * * * *

Calendar year	Wage limitation
* * * * *	
1988	45,000
1989	48,000
1990	51,300
1991	53,400
1992	55,500

9. Section 404.1096 is amended by adding amounts for 1988 through 1992 to the table to read as follows:

§ 404.1096 Self-employment income.

* * * * *

(b) * * *

(1) * * *

Taxable year	Amount
* * * * *	
Beginning in 1988	45,000
Beginning in 1989	48,000
Beginning in 1990	51,300
Beginning in 1991	53,400
Beginning in 1992	55,500

[Docket No. N-92-3479; FR-3307-N-01]

Loan and Mortgage Insurance; Changes to the Maximum Loan and Mortgage Limits for Single Family Residences and Condominiums

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of revisions to FHA maximum loan and mortgage limits for high-cost areas.

SUMMARY: This Notice amends the list of areas eligible for "high-cost" loan and mortgage limits under certain of HUD's insuring authorities under the National Housing Act (NHA) by increasing the mortgage limits for Mathews and Middlesex Counties, VA; Charlotte County, FL; Bartholomew County, IN; Bonneville County, ID; Cowlitz, Jefferson, and Skagit Counties, WA and the Olympia, WA MSA; and by adding to the list of high cost areas: Garrett County, MD; Iredell County, NC; and Wasatch County, UT. Loan and mortgage limits are adjusted in an area when the Secretary determines that middle-and moderate-income persons have limited housing opportunities because of high prevailing housing sales prices.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: For single family: Morris Carter, Director, Single Family Development Division, room 9272; telephone (202) 708-2700. For manufactured homes: Robert J. Coyle, Director, Title I Insurance Division, room 9158; telephone (202) 708-2880; 451 Seventh Street SW., Washington, DC 20410. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION:

Background

The National Housing Act, 12 U.S.C. 1703 and 1709 *et. seq.*, authorizes HUD to insure loans and mortgages for single family residences (from one- to four-family structures), condominiums, manufactured homes, manufactured home lots, and manufactured homes and lots in combination. The NHA, as amended by the Housing and Community Development Amendments of 1980 and the Housing and Community Development Amendments of 1981, permits HUD to increase the maximum loan and mortgage limits under most of these programs to reflect regional differences in the cost of housing. In addition, section 214 of the NHA provides for special high-cost limits for insured mortgages in Alaska, Guam, Hawaii, and the Virgin Islands.

The last comprehensive list of high-cost areas was published on August 1, 1991 (56 FR 36980), listing all areas eligible for "high-cost" loan and mortgage limits under certain of HUD's insuring authorities under the National Housing Act, and the applicable limits for each area. Amendments to the annual listing were published on December 27, 1991 (56 FR 66975) and April 13, 1992 (57 FR 12715).

This Document

Today's document increases high-cost loan and mortgage limits for Mathews and Middlesex Counties, VA; Charlotte County, FL; Bartholomew County, IN; Bonneville County, ID; Cowlitz, Jefferson, and Skagit Counties, WA and the Olympia, WA MSA; and adds high-cost loan and mortgage limits for Garrett County, MD; Iredell County, NC; and Wasatch County, UT.

This document lists each high-cost area, with applicable limits for single family residences (including condominiums) insured under sections 203(b), 234(d) and 214 of the National Housing Act. For guidance concerning the effect of these revised limits on insurance maximums applicable to manufactured homes and lots, please consult the annual list of high cost areas published on August 1, 1991 (56 FR 36980).

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 31

[T.D. 8436]

RIN 1545-AP91

Deposits of Employment Taxes

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final Regulations.

SUMMARY: This document contains final regulations relating to the deposit of Federal employment taxes (including railroad retirement taxes). These final regulations replace the current employment tax deposit system with a new system that is significantly simpler and easier to understand and apply. The new system will reduce burden and compliance costs for employers, particularly small businesses.

DATES: The final regulations are effective January 1, 1993, and apply to the deposit of employment taxes attributable to payments made after December 31, 1992. A special transitional rule for one year is provided for all employers.

FOR FURTHER INFORMATION CONTACT: Vincent G. Surabian, telephone (202) 622-6232 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

On Monday, May 18, 1992, the Internal Revenue Service published in the **Federal Register** (57 FR 21045) proposed amendments to the Employment Tax Regulations (26 CFR part 31) under section 6302 of the Internal Revenue Code. Written comments responding to the notice were received and a public hearing was held on August 3, 1992. After consideration of all written and oral comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury Decision.

Explanation of Provisions

In General

A. Current Tax Deposit System

The current rules relating to the deposit of Federal employment taxes (including railroad retirement taxes) are complicated and confusing to many taxpayers. The existing rules require employers to monitor and accumulate employment taxes from payday to payday until one of four separate deposit rules (quarterly, monthly, eighth-monthly, or daily) is triggered. The eighth-monthly deposit rule is particularly complicated. In addition, employers may have difficulty determining when deposits are due and can inadvertently switch from one rule to another within the same calendar quarter. The problems associated with the current system frequently result in the imposition of penalties for inadvertent failures to make timely desposits.

B. New Tax Deposit System

The new regulations simplify the employment tax deposit system, replacing the current system with a new system that is easier to understand and that provides employers with up-front certainty in determining their deposit obligations. The new system will reduce burden and compliance costs for employers, particularly small businesses.

The new tax deposit regulations treat an employer in one of two ways. An

employer is either a "monthly depositor" or a "semi-weekly depositor."

An employer's status as a monthly depositor or a semi-weekly depositor will be known before the beginning of each calendar year and will be determined annually, based on the employer's employment tax reporting history. The determination is based on the amount of employment taxes the employer reported for the one-year lookback period ended the preceding June 30.

If the employer reported employment taxes of $50,000 or less during the lookback period, the employer is a monthly depositor and generally must deposit employment taxes on a monthly basis during the calendar year. Under the Monthly rule, each month's taxes are required to be deposited on or before the 15th day of the following month. This rule is similar to the manner in which employers pay other monthly bills and reflects general commercial practices.

An employer that reported employment taxes of more than $50,000 during the lookback period is a semi-weekly depositor. Semi-weekly depositors generally are required to deposit their taxes on or before two specified days of the week—Wednesdays or Fridays—depending on the timing of their payrolls.

The final regulations contain special rules to address some practical concerns of employers and to provide relief in certain cases. One rule provides relief in the form of a safe harbor for employers that deposit less than their full amount of employment taxes (shortfall). For this purpose, an employer meets the safe harbor if the shortfall does not exceed the greater of $100 or 2% of the employer's deposit obligation. Even if this safe harbor is not met, employers that deposit less than the full amount of their deposit obligation can have penalties abated under section 6656 if they show that their failure was due to reasonable cause. A second rule provides that employers who have less than $500 in employment taxes during a return period can remit their taxes with their returns, rather than separately depositing the taxes.

The final regulations incorporate the present statutory requirement that an employer that accumulates employment taxes of $100,000 or more during a deposit period (either a monthly or semi-weekly period) must deposit those taxes by the next banking day.

The final regulations will be effective for the deposit of employment taxes attributable to payments made after December 31, 1992. A special transitional rule is provided for an additional year to December 31, 1993 for all employers.

Comments on Specific Issues

A. Monthly vs. Semi-Weekly Threshold

A number of commentators suggested increasing the dollar threshold for determining whether an employer is a monthly depositor or a semi-weekly depositor. The proposed regulations specified a threshold of $12,000 per quarter. The final regulations adopt an annual threshold and increase the threshold to $50,000 per year.

B. Annual Determination and Lookback Period

Under the proposed regulations, employers were required to determine their deposit history each quarter by reference to a rolling lookback period. Some commentators, including the Small Business Administration (the SBA), indicated a rolling lookback period causes difficulties for employers that deposit disproportionately large amounts of taxes during one or more quarters due to the seasonal nature of their businesses or year-end bonuses. A number of commentators suggested that the deposit rules would be simpler if the employer's status as a monthly or semi-weekly depositor were determined annually (rather than quarterly) and the lookback period were a fixed twelve-month period.

Commentators also indicated that employers should have up-front certainty about their depositor status. In particular, the commentators suggested that depositor status be determined several months prior to the beginning of the calendar year so that employers would have adequate time to adjust, if need be, their deposit obligations. Further, the commentators recommended that the same depositor status generally apply or the entire calendar year. The final regulations adopt these suggestions.

Under the final regulations, an employer's status as either a monthly depositor or semi-weekly depositor will be determined annually, prior to the beginning of each calendar year. The lookback period for each calendar year will be the twelve-month period ended the preceding June 30. Thus, employers will be able to determine their status several months prior to the beginning of each year and once determined the status will generally continue for the entire calendar year.

For example, an employer that reported $50,000 or less in employment taxes for the period July 1, 1991 through June 30, 1992 generally would be a monthly depositor during calendar year 1993. An employer who reported more than $50,000 in employment taxes for that lookback period would be a semi-weekly depositor during 1993.

Under the final regulations, a new employer will be a monthly depositor until it reports more than $50,000 of employment taxes for the prior July 1 through June 30 lookback period, or until it accumulates $100,000 or more of employment taxes on any day during the month.

C. IRS Notification of Status

The IRS will notify employers prior to the beginning of each calendar year whether they are a monthy depositor or a semi-weekly depositor. This notification will provide employers with additional up-front certainty in determining their deposit obligations.

D. Semi-Weekly Rule

A number of commentators suggested that th Semi-Weekly Rule in the proposed regulations (Tuesday–Friday rule) was too burdensome. The SBA commented that employers with Friday payrolls would not have three banking days to deposit their employment taxes. These commentators suggested a rule that would require taxpayers to deposit employment taxes within three banking days after payroll. Other commentators suggested a Tuesday–Thursday rule or other rules to allow semi-weekly depositors more time to make deposits after payroll.

1. *In General.* The final regulations take these suggestions into account and provide additional relief for semi-weekly depositors. The final regulations change the Semi-Weekly Rule so that deposits are due on or before Wednesday or Friday of each week, depending on the timing of the employer's payroll. This modifies the proposed rule and allows additional time for semi-weekly depositors to make deposits.

2. *Three Banking Days After Payroll Issue.* The Semi-Weekly rule will automatically be satisfied if an employer deposits employment taxes within three banking days after payroll. The final regulations, however, do not adopt an explicit three banking days after payroll rule because that could result in an employer having deposit obligations on more than two days in single week. An important simplification objective of the final regulations was to limit deposit obligations for semi-weekly depositors to at most two days a week.

E. Special Relief for Non-Banking Days

The Final regulations retain the rule that extends the deposit timetable when

the deposit obligation falls on a non-banking day. To provide additional relief for semi-weekly depositors, the final regulations provide that semi-weekly depositors will have a minimum of three banking days after the end of the semi-weekly period to deposit their taxes. Therefore, a semi-weekly depositor with a Friday payroll will have until the following Thursday to deposit taxes if the Monday, Tuesday or Wednesday following payday is a holiday and not a banking day.

F. One-Day ($100,000) Rule

The final regulations incorporate the statutory requirement that employers that accumulate employment taxes of $100,000 or more during any deposit period (either monthly or semi-weekly) must deposit those taxes on the first banking day after the $100,000 threshold is reached. This rule applies to both monthly depositors and semi-weekly depositors.

G. Safe Harbor

To address inadvertent shortfalls in the amount of taxes required to be deposited, the proposed regulations set forth a safe harbor rule for employers that fail to deposit the full amount of taxes. Under the proposed regulations, an employer is considered to have satisfied its deposit obligation if it had a shortfall that does not exceed the greater of $100 or 2% of the amount of employment taxes required to be deposited, and the employer deposits the shortfall on or before a specified make-up date.

Some commentators suggested that this safe harbor added complexity to the rules and should be eliminated. Other commentators, including the SBA, suggested that the proposed safe harbor should be increased to 5% or more.

The final regulations retain the safe harbor exception as proposed. In addition to the safe harbor, penalties will be abated if an employer shows that a failure to deposit the full amount of employment taxes was due to reasonable cause, as provided in section 6656. An employer may have reasonable cause if it is unable to obtain information on a timely basis and cannot reasonably estimate the items for which the information is unavailable.

The final regulations also retain a rule that allows an employer with less than $500 of employment taxes during a calendar quarter to remit that taxes with its quarterly return, rather than separately depositing the taxes.

H. Special Rules for RRTA and Agricultural Employers

Pursuant to the Congressional mandate in section 226 of the Railroad Retirement Solvency Act of 1983, the final regulations conform the rules for depositing railroad retirement taxes to those for depositing Social Security/Medicare taxes and income taxes withheld. However, since RRTA employers file returns on an annual basis rather than quarterly, such employers are subject to a different lookback rule. This different lookback rule also applies to agricultural employers with respect to taxes on wages paid to their farmworkers. Depositor status will be based on a lookback to the railroad's or farmer's total employment tax liability during the calendar year preceding the calendar year just ended. Agricultural employers should note that, under the new regulations, taxes with respect to wages paid to farmworkers (reportable on Form 943) and taxes with respect to wages paid to non-farmworkers (reportable on Form 941) are subject to separate deposit requirements.

I. Special Rules for Backup Withholding Amounts

Some commentators have suggested that the deposit rules should not apply to backup withholding amounts on interest and dividends. Under the final regulations, amounts withheld under the backup withholding requirements of section 3406 are treated as employment taxes subject to these deposit rules. However, the final regulations continue to allow an employer to treat the backup withholding amounts separate from other other employment taxes for purposes of these deposit rules.

J. Additional Comments

A number of commentators, including the SBA, proposed alternative systems based on various combinations of thresholds, separate rules and accumulations of taxes. The final regulations do not adopt these suggestions because in many cases the alternatives do not allow employers to determine their depositor status in advance and do not address other problems associated with the current tax deposit system.

A number of commentators were concerned that the proposed regulations might apply to domestic household employers. The final regulations clarify that the rules do not apply to domestic household employers (unless such employer is otherwise required to file Form 941).

K. Effective Date

The proposed regulations issued in May 1992 indicated that the regulations would be effective for the deposit of employment taxes attributable to payments made after December 31, 1992. Some commentators requested that the final regulations retain the proposed effective date or make the effective date as early as possible. Other commentators, including the SBA, suggested that the changes in the regulations may be difficult to implement by the proposed effective date. These commentators suggested a delay in the effective date or some reasonable transitional rule or election to permit employers sufficient time to adjust to the new rules. The final regulations accommodate the interests of all these parties by retaining the proposed effective date, but providing a special transitional rule for all employers for one year to December 31, 1993.

The final regulations are effective for the deposit of employment taxes attributable to payments made after December 31, 1992. This effective date will allow employers who are able to adapt to the new rules to take advantage of the simpler rules as soon as possible. In addition, the one-year special transitional rule contained in the final regulations will allow other employers sufficient time to make necessary changes to their payroll tax deposit systems.

Under the transitional rule, employers will have until December 31, 1993 to change to the new tax deposit system. During this period, any employer that complies with the old rules will be considered in compliance with the new rules and will not be subject to penalties under section 6656. The Internal Revenue Service will institute procedures to prevent penalty notices from issuing to employers that correctly deposit under the old system during the transitional period. If penalties inadvertently are assessed, they will be abated.

Since the new rules are simpler and in most cases less restrictive than the current rules, employers that deposit under the old rules during 1993 generally will satisfy the new rules. For example, employers who currently deposit within three banking days after payroll will automatically meet the semi-weekly rule. Also, certain employers who currently deposit under the "eighth-monthly" system may now only have to deposit once a month. If these depositors continue to deposit under the

old system, they will automatically comply with the new rules.

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations and, therefore, an initial Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, a copy of the notice of proposed rulemaking was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Drafting Information

The principal author of these regulations is Vincent Surabian, Office of the Assistant Chief Counsel (Income Tax and Accounting), Internal Revenue Service. However, personnel from other offices of the IRS and Treasury Department have participated in the development of the proposed regulations.

Section 31.6302–3 Federal tax deposit rules for amounts withheld under the backup withholding requirements of Section 3406 for payments made after December 31, 1992.

(a) General Rule.
(b) Treatment of backup withholding amounts separately.
(c) Example.

§ 31.6302–1 Federal tax deposit rules for withheld income taxes and taxes under the Federal Insurance Contributions Act (FICA) attributable to payments made after December 31, 1992.

(a) *Introduction.* With respect to employment taxes attributable to payments made after December 31, 1992, an employer is either a monthly depositor or a semi-weekly depositor based on an annual determination. An employer must generally deposit employment taxes under one of two rules: the Monthly rule in paragraph (c)(1) of this section, or the Semi-Weekly rule in paragraph (c)(2) of this section. Various exceptions and safe harbors are provided. Paragraph (f) of this section provides certain safe harbors for employers who inadvertently fail to deposit the full amount of taxes. Paragraph (c)(3) of this section provides an overriding exception to the Monthly and Semi-Weekly rules where an employer has accumulated $100,000 or more of employment taxes. Paragraph (e) of this section provides the definition of employment taxes.

(b) *Determination of status*—(1) *In general.* The determination of whether an employer is a monthly or semi-weekly depositor for a calendar year is based on an annual determination and generally depends upon the aggregate amount of employment taxes reported by the employer for the lookback period as defined in paragraph (b)(4) of this section.

(2) *Monthly depositor*—(i) *In general.* An employer is a monthly depositor for the entire calendar year if the aggregate amount of employment taxes reported for the lookback period is $50,000 or less.

(ii) *Special rule.* An employer ceases to be a monthly depositor on the first day after the employer is subject to the One-Day ($100,000) rule in paragraph (c)(3) of this section. At that time, the employer immediately becomes a semi-weekly depositor for the remainder of the calendar year and for the following calendar year.

(3) *Semi-weekly depositor.* An employer is a semi-weekly depositor for the entire calendar year if the aggregate amount of employment taxes reported for the lookback period exceeds $50,000.

(4) *Lookback period.* The lookback period for each calendar year is the twelve month period ended the preceding June 30. For example, the lookback period for calendar year 1993 is the period July 1, 1991 to June 30, 1992. In determining status as either a monthly or semi-weekly depositor, an employer should determine the aggregate amount of employment tax

liabilities reported on its quarterly returns (Form 941) for the four quarters constituting this period. New employers shall be treated as having employment tax liabilities of zero for any calendar quarter during which the employer did not exist.

(5) *Adjustments.* The tax liability shown on an original return for the return period shall be the amount taken into account in determining whether more than $50,000 has been reported during the lookback period. In determining the aggregate employment taxes for each quarter in a lookback period, an employer does not take into account any adjustments for the quarter made on a supplemental return filed after the due date of the return. However, adjustments made on a Form 941c, Statement to Correct Information, attached to a Form 941 filed for a subsequent quarter are taken into account in determining the employment tax liability for the subsequent quarter.

(c) *Deposit rules*—(1) *Monthly rule.* An employer that is a monthly depositor must deposit employment taxes accumulated with respect to payments made during a calendar month in a Federal Reserve bank or authorized financial institution on or before the 15th day of the following month. If the 15th day of the following month is not a banking day, taxes will be treated as timely deposited if deposited on the first banking day thereafter in accordance with paragraph (c)(4) of this section.

(2) *Semi-Weekly rule*—(i) *In general.* An employer that is a semi-weekly depositor for a calendar year must deposit its employment taxes in a Federal Reserve bank or authorized financial institution on or before the dates set forth below:

Payment dates/semi-weekly periods	Deposit date
Wednesday, Thursday and/or Friday.	On or before the following Wednesday.
Saturday, Sunday, Monday and/or Tuesday.	On or before the following Friday.

(ii) *Semi-weekly period spanning two return periods.* A special rule is provided in the case of a return period (quarterly or annual) that ends during a semi-weekly period. In this case, an employer must complete the Federal Tax Deposit (FTD) coupon in a manner which designates the proper return period for which the deposit relates (the return period in which the payment is made). In addition, if the return period ends during a semi-weekly period in which an employer has two or more payment dates, two deposit obligations may exist. For example, if one quarterly return period ends on Thursday and a new quarterly return period begins on Friday, employment taxes from payments on Wednesday and Thursday are subject to one deposit obligation, and taxes from payments on Friday are subject to a separate obligation. Two separate Federal Tax Deposit coupons are required.

(iii) *Special rule for non-banking days.* Semi-weekly depositors shall have at least three banking days following the close of the semi-weekly period by which to deposit employment taxes accumulated during the semi-weekly period. Thus, if any of the three weekdays following the close of a semi-weekly period is a holiday on which banks are closed, the employer shall have an additional banking day by which to make the required deposit. For example, if the Monday following the close of a Wednesday to Friday semi-weekly period is a holiday on which banks are closed, the required deposit for the semi-weekly period may be made by the following Thursday rather than the following Wednesday.

(3) *Exception—One-Day rule.* Notwithstanding paragraphs (c)(1) and (c)(2) of this section, if on any day within a deposit period (monthly or semi-weekly) an employer has accumulated $100,000 or more of employment taxes, those taxes must be deposited in a Federal Reserve bank or authorized financial institution by the close of the next banking day. For purposes of determining whether the $100,000 threshold is met—

(i) A monthly depositor takes into account only those employment taxes accumulated in the calendar month in which the day occurs; and

(ii) A semi-weekly depositor takes into account only those employment taxes accumulated in the Wednesday-Friday or Saturday-Tuesday semi-weekly period in which the day occurs.

(4) *Deposits required only on banking days.* If taxes are required to be deposited under this section on any day that is not a banking day, the taxes will be treated as timely deposited if deposited on the first banking day thereafter.

(d) *Examples.* The provisions of paragraphs (a), (b) and (c) of this section are illustrated by the following examples:

Example 1. Monthly depositor. (i) *Determination of status.* For the calendar year 1993, Employer *A* determines its depositor status using the lookback period July 1, 1991 to June 30, 1992. For the four calendar quarters within this period, *A* reported aggregate employment tax liabilities of $42,000 on its quarterly Forms 941. Because the aggregate amount did not exceed $50,000, *A* is a monthly depositor for the entire calendar year 1993.

(ii) *Monthly rule.* During January 1993, *A* (a monthly depositor) accumulates $3,500 in employment taxes. *A* has a $3,500 deposit obligation that must be satisfied by the 15th day of the following month. Since February 15, 1993, President's Day, is a holiday which is not a banking day, *A*'s deposit obligation will be satisfied if the deposit is made by the next banking day after February 15.

Example 2. Semi-weekly depositor. (i) *Determination of status.* For the four calendar quarters spanning July 1991 to June 1992, Employer *B* reported $88,000 in aggregate employment tax liabilities on its Forms 941. Because that amount exceeds $50,000, *B* is a semi-weekly depositor for the entire calendar year 1993.

(ii) *Semi-weekly rule.* On Friday, January 1, 1993, *B* (semi-weekly depositor) has a pay day on which it accumulates $4,000 in employment taxes. *B* has a $4,000 deposit obligation that must be satisfied on or before the following Wednesday, January 6, 1993.

(iii) *Deposit made within three banking days after payroll.* The example is the same as *Example 2 (ii)*, except that *B* deposits its accumulated employment taxes within three banking days after payroll. *B* deposits its $4,000 in employment taxes on Wednesday, January 6, three banking days after its Friday payroll. Because *B* deposited its employment taxes on or before the following Wednesday, *B* has satisfied its semi-weekly deposit obligation. An employer who deposits within three banking days after payroll will always meet the Semi-Weekly rule.

Example 3. One-Day rule. On Monday, January 4, 1993, Employer *C* accumulates $110,000 in employment taxes with respect to wages paid on that date. *C* has a deposit obligation of $110,000 that must be satisfied by the next banking day. If *C* was not subject to the semi-weekly rule on January 4, 1993, *C* becomes subject to that rule as of January 5, 1993. See paragraph (b)(2)(ii) of this section.

Example 4. One-Day Rule in combination with subsequent deposit obligation. Employer *D* is subject to the semi-weekly rule for calendar year 1993. On Monday, January 4, 1993, *D* accumulates $110,000 in employment taxes. *D* has a $110,000 deposit obligation that must be satisfied by the next banking day. On Tuesday, January 5, *D* accumulates an additional $30,000 in employment taxes. Although *D* has a previous $110,000 deposit obligation incurred earlier in the semi-weekly period, *D* has an additional and separate deposit obligation of $30,000 on Tuesday that must be satisfied by the following Friday.

Example 5. Special non-banking day rule for semi-weekly depositors. Employer *E*, a semi-weekly depositor, accumulates $8,000 in employment taxes on Friday, February 12, 1993, a payment date. Under the general rule, *E* would be required to deposit the employment taxes on or before the following Wednesday, February 17. However, because Monday, February 15, is President's Day (a holiday on which banks are closed), *E* will have an additional day by which to satisfy its $8,000 deposit obligation. *E*'s deposit

obligation is due on or before Thursday, February 18, 1993.

(e) *Employment taxes defined.* (1) For purposes of this section, the term "employment taxes" means—

(i) The employee portion of the tax withheld under section 3102;

(ii) The employer tax under section 3111;

(iii) The income tax withheld under sections 3402 and 3405; and

(iv) The income tax withheld under section 3406, relating to backup withholding with respect to reportable payments.

(2) The term "employment taxes" does not include taxes with respect to wages for domestic service in a private home of the employer, unless the employer is otherwise required to file a Form 941 under § 31.6011(a)(4) or (5). In the case of employers paying advance earned income credit amounts, the amount of taxes required to be deposited shall be reduced by advance amounts paid to employees. Also, see § 31.6302–3 concerning a payor's option to treat backup withholding amounts under section 3406 separately.

(f) *Safe harbor/De minimis rules*—(1) *Single deposit safe harbor.* An employer will be considered to have satisfied its deposit obligation imposed by this section if—

(i) The amount of any shortfall does not exceed the greater of $100 or 2 percent of the amount of employment taxes required to be deposited; and

(ii) The employer deposits the shortfall on or before the shortfall make-up date.

(2) *Shortfall defined.* For purposes of this paragraph (f), the term "shortfall" means the excess of the amount of employment taxes required to be deposited for the period over the amount deposited for the period. For this purpose, a period is either a monthly, semi-weekly or daily period.

(3) *Shortfall make-up date*—(i) *Monthly rule.* A shortfall with respect to a deposit required under the Monthly rule must be deposited or remitted no later than the due date for the quarterly return, in accordance with the applicable form and instructions.

(ii) *Semi-Weekly rule and One-Day rule.* A shortfall with respect to a deposit required under the Semi-Weekly rule or the One-Day rule must be deposited on or before the first Wednesday or Friday (whichever is earlier), falling on or after the 15th day of the month following the month in which the deposit was required to be made.

(4) *De Minimis rule.* If the total amount of accumulated employment taxes for the quarter is less than $500 and the amount is fully deposited or remitted with a timely filed return for the quarter, the amount deposited or remitted will be deemed to have been timely deposited.

(5) *Examples.* The provisions of this paragraph (f) may be illustrated by the following examples:

Example 1. Safe-harbor rule satisfied. On Monday, January 4, 1993, *J* (a semi-weekly depositor), pays wages and accumulates employment taxes. As required under this section, *J* makes a deposit on or before the following Friday, January 8, 1993, in the amount of $4,000. Subsequently, *J* determines that it was actually required to deposit $4,090 by Friday. *J* has a shortfall of $90. The $90 shortfall does not exceed the greater of $100 or 2% of the amount required to be deposited (2% of $4,090=$81.80). Therefore, *J* satisfies the safe harbor of paragraph (f)(1) of this section as long as the $90 shortfall is deposited by the first deposit date (Wednesday or Friday) on or after the 15th day of the next month (in this case Wednesday, February 17, 1993).

Example 2. Safe-harbor rule not satisfied. The facts are the same as in *Example 1* except that on Friday, January 8, 1993, *J* makes a deposit of $25,000, and later determines that it was actually required to deposit $26,000. Since the $1,000 shortfall ($26,000 less $25,000) exceeds $520 (the greater of $100 or 2% of the amount required to be deposited (2% of $26,000=$520)), the safe harbor of paragraph (f)(1) of this section is not satisfied, and absent reasonable cause, *J* will be subject to a failure-to-deposit penalty under section 6656.

(g) *Agricultural employers—special rules*—(1) *In general.* An agricultural employer reports wages paid to farm workers annually on Form 943 (Employer's Annual Tax Return for Agricultural Employees) and reports wages paid to nonfarm workers quarterly on Form 941 (Employer's Quarterly Federal Tax Return). Accordingly, an agricultural employer must treat employment taxes reportable on Form 943 ("Form 943 taxes") separately from employment taxes reportable on Form 941 ("Form 941 taxes"). Form 943 taxes and Form 941 taxes are not combined for purposes of determining whether a deposit of either is due, whether the One-Day rule of paragraph (c)(3) of this section applies, or whether any safe harbor is applicable. In addition, separate Federal tax deposit coupons must be used to deposit Form 943 taxes and Form 941 taxes. (See paragraph (b) of this section for rules for determining an agricultural employer's deposit status for Form 941 taxes.) The determination of whether an agricultural employer is a monthly or semi-weekly depositor of Form 943 taxes is made according to the rules of this paragraph (g).

(2) *Monthly depositor.* An agricultural employer is a monthly depositor of Form 943 taxes for a calendar year if the amount of Form 943 taxes accumulated in the lookback period (as defined in paragraph (g)(4) of this section) is $50,000 or less. An agricultural employer ceases to be a monthly depositor of Form 943 taxes on the first day after the employer is subject to the One-Day rule in paragraph (c)(3) of this section. At that time, the agricultural employer immediately becomes a semi-weekly depositor of Form 943 taxes for the remainder of the calendar year and the succeeding calendar year.

(3) *Semi-weekly depositor.* An agricultural employer is a semi-weekly depositor of Form 943 taxes for a calendar year if the amount of Form 943 taxes accumulated in the lookback period (as defined in paragraph (g)(4) of this section) exceeds $50,000.

(4) *Lookback period.* For purposes of this paragraph (g), the lookback period for Form 943 taxes is the second calendar year preceding the current calendar year. For example, the lookback period for calendar year 1993 is calendar year 1991.

(5) The following example illustrates the provisions of this section.

Example. A, an agricultural employer, employs both farm workers and nonfarm workers (employees in its administrative offices). *A*'s depositor status for calendar year 1993 for Form 941 taxes will be based upon its employment tax liabilities reported on Forms 941 for the third and fourth quarters of 1991 and the first and second quarters of 1992 (the period July 1 to June 30). *A*'s depositor status for Form 943 taxes will be based upon its employment tax liability reported on its annual Form 943 for calendar year 1991.

(h) *Time and manner of deposit*—(1) *General rules.* A deposit required to be made by this § 31.6302–1 must be made separately from a deposit required by any other section. See § 31.6302–3 for an exception in the case of backup withholding amounts. Further, a deposit for a period in one calendar quarter must be made separately from a deposit for a period in another calendar quarter.

(2) *Payment of balance due.* If the aggregate amount of taxes reportable on the return for the return period exceeds the total amount deposited by the employer with regard to the return period pursuant to this section, the balance due must be remitted in accordance with the applicable form and instructions.

(3) *Federal Tax Deposit (FTD) coupon.* Each deposit required to be made under this section must be accompanied by an FTD coupon (Form 8109). The FTD

coupon shall be prepared in accordance with the instructions applicable thereto. The deposit, together with the FTD coupon, shall be forwarded to a financial institution authorized as a depository for Federal taxes in accordance with 31 CFR part 214 or, at the election of the employer, to a Federal Reserve bank. For procedures governing the deposit of Federal taxes at a Federal Reserve bank, see 31 CFR part 214.7.

(4) *Procurement of FTD coupons.* A new employer should receive its initial supply of FTD coupon books after receiving its employer identification number. In the event that a deposit is required to be made before receipt of the FTD coupon books, the employer should contact the local IRS office and furnish the following information: the business name as it appears on IRS records, the employer identification number, address where the coupon books are to be sent, and the number of coupon books being requested. Filers of Form 1120, Form 990–C, Form 990PF (with net investment income), Form 990–T or Form 2438 must also provide the month the employer's tax year ends. If an employer has applied for an employer identification number but has not received it, and a deposit is required to be made, the employer should send a check or money order for the deposit amount to its Internal Revenue Service center. There should be included on the payment, the name and address of the entity as shown on Form SS–4, Application for Employer Identification Number, the kind of tax, the period covered, and the date on which the employer applied for the employer identification number.

(5) *Time deemed deposited.* The timeliness of a deposit will be determined by the date stamped on the FTD coupon by the Federal Reserve bank or the authorized financial institution or, if section 7502(e) applies, by the date the deposit is treated as received under section 7502(e).

(6) *Time deemed paid.* In general, amounts deposited under this section will be considered as paid at the time deemed deposited under paragraph (h)(5) of this section, or on the last day prescribed for filing the return (determined without regard to any extension of time for filing the return), whichever is later. For purposes of section 6511 and the regulations hereunder (relating to the period of limitation on credit or refund), if an amount is deposited prior to April 15th of the calendar year immediately succeeding the calendar year that contains the period for which the amount was deposited, the amount will be considered paid on April 15th.

(i) [Reserved].

(j) *Special rules*—(1) *District Director notice exception.* The provisions of this section are not applicable with respect to employment taxes for any month in which the employer receives notice from the district director that a return is required under § 31.6011(a)–5 (or for any subsequent month for which such a return is required), if those taxes are also required to be deposited under the separate accounting procedures provided in § 301.7512–1 of the Regulations on Procedure and Administration (which procedures are applicable if notification is given by the district director of failure to comply with certain employment tax requirements). In cases in which a monthly return is required under § 31.6011(a)–5 but the taxes are not required to be deposited under the separate accounting procedures provided in § 301.7512–1, the provisions of this section shall apply except those provisions shall not authorize the deferral of any deposit to a date after the date on which the return is required to be filed.

(2) *Wages paid in nonconvertible foreign currency.* The provisions of this section are not applicable with respect to wages paid in nonconvertible foreign currency pursuant to § 301.6316–7.

(k) *Cross references*—(1) *Failure to deposit penalty.* For provisions relating to the penalty for failure to make a deposit within the prescribed time, see section 6656 and the provisions of § 301.6656–1.

(2) *Saturday, Sunday, or legal holiday.* For provisions relating to the time for performance of acts where the last day falls on Saturday, Sunday, or a legal holiday, see the provisions of § 301.7503–1.

(l) [Reserved].

(m) *Effective date.* Sections 31.6302–1 through 31.6302–3 apply with respect to the deposit of employment taxes attributable to payments made after December 31, 1992. To the extent that the provisions of §§ 31.6302–1 through 31.6302–3 are inconsistent with the provisions of §§ 31.6302(c)–1 and 31.6302(c)–2, a taxpayer will be considered to be in compliance with §§ 31.6301–1 through 31.6302–3 if the taxpayer makes timely deposits during 1993 in accordance with §§ 31.6302(c)–1 and 31.6302(c)–2.

§ 31.6302–2 Federal Tax Deposit Rules for amounts withheld under the Railroad Retirement Tax Act (R.R.T.A.) attributable to payments made after December 31, 1992.

(a) *General rule.* Except as otherwise provided in this section, the rules of § 31.6302–1 determine the time and manner of making deposits of employee tax withheld under section 3202 and employer tax imposed under sections 3221 (a) and (b) attributable to payments made after December 31, 1992. Railroad retirement taxes described in section 3221(c) arising during the month must be deposited on or before the first date after the 15th day of the following month on which taxes are otherwise required to be deposited under § 31.6302–1.

(b) *Separate application of deposit rules.* A person who accumulates tax under sections 3202 or 3221 shall not take that tax into account for purposes of determining when taxes described in paragraph (e) of § 31.6302–1 must otherwise be deposited.

(c) *Modification of Monthly rule determination*—(1) *General rule.* Except as otherwise provided in this section, any person is allowed to use the Monthly rule of § 31.6302–1(c)(1) for an entire calendar year unless the amount of R.R.T.A. taxes required to be deposited under this section during the lookback period was more than $50,000. The lookback period is defined as the calendar year preceding the calendar year just ended. Thus, for purposes of determining if an R.R.T.A. employer qualifies to use the Monthly rule for calendar year 1993, a lookback must be made to calendar year 1991. New employers shall be treated as having employment tax liabilities of zero for any calendar year during which the employer did not exist.

(2) *Exception.* An employer shall immediately cease to be allowed to use the Monthly rule after any day on which that employer is subject to the One-Day rule set forth in § 31.6302–1(c)(3). Such employer immediately becomes subject to the Semi-Weekly rule of § 31.6302–1(c)(2) for the remainder of the calendar year and the following calendar year.

(d) *Wire-transfer exception.* If, for the calendar year prior to the calendar year preceding the current calendar year, the aggregate amount of taxes imposed under sections 3202 and 3221 with respect to an employer equalled or exceeded $1 million, the employer must deposit the aggregate amount of railroad retirement taxes required to be

deposited for the current calendar year in accordance with § 31.6302(c)–2(a)(1).

§ 31.6302–3 Federal tax deposit rules for amounts withheld under the backup withholding requirements of section 3406 for payments made after December 31, 1992.

(a) *General rule.* The rules of § 31.6302–1 shall apply to determine the time and manner of making deposits of amounts withheld under the backup withholding requirements of section 3406.

(b) *Treatment of backup withholding amounts separately.* A payor who withholds income tax with respect to reportable payments under section 3406 may, in accordance with the instructions provided with Form 941, deposit such taxes under the rules of § 31.6302–1 without taking into account the other taxes described in paragraph (e) of § 31.6302–1 for purposes of determining when taxes withheld under section 3406 must be deposited. A person who treats backup withholding amounts separately shall not take tax withheld under section 3406 into account for purposes of determining when the other taxes described in paragraph (e) of § 31.6302–1 must otherwise be deposited under that section.

(c) *Example.* The following example illustrates the provisions of this section.

Example. For the last two calendar quarters of 1991 and the first two calendar quarters of 1992, Bank *A* reports employment taxes with respect to wages paid totalling in excess of $50,000. For the same four quarters, pursuant to section 3406, *A* withholds income tax with respect to dividend payments in an amount aggregating less than $50,000. For deposit and reporting purposes, *A* treated the backup withholding amounts separately from the employment taxes with respect to wages paid. Accordingly, for calendar year 1993, if *A* chooses to treat the items separately, *A* must use the Semi-Weekly rule of § 31.6302–1(c)(2) to deposit taxes with respect to wages paid but may use the Monthly rule of § 31.6302–1(c)(1) for the deposit of backup withholding amounts. If *A* chooses not to treat the items separately, the Semi-Weekly rule would apply to the combined amount of both the taxes with respect to wages paid and the backup withholding amounts.

Par. 3. Section 31.6302(c)–1 is amended as follows:

1. The section heading is revised.
2. The heading for paragraph (a) is revised.
3. In paragraph (a)(1)(ii), the introductory language is revised.
4. The revisions read as set forth below.

§ 31.6302(c)–1 Use of Government depositories in connection with taxes under Federal Insurance Contributions Act and income tax withheld for amounts attributable to payments made before January 1, 1993.

(a) *Requirement for calendar months beginning after December 31, 1980, but before January 1, 1993*—(1) *In general.*

* * *

* * * * *

(ii) In the case of a calendar month which begins after March 31, 1991, but before January 1, 1993—

* * * * *

Par. 4. Section 31.6302(c)–2 is amended as follows:

1. The section heading is revised.
2. The heading for paragraph (a)(2) is revised.
3. The revisions read as set forth below.

§ 31.6302(c)–2 Use of Government depositories in connection with employee and employer taxes under Railroad Retirement Tax Act for amounts attributable to payments made before January 1, 1993.

(a) * * *

(2) *In general: After March 31, 1991 and before January 1, 1993.*

* * * * *

Shirley D. Peterson,

Commissioner of Internal Revenue.

Approved: September 14, 1992.

Fred T. Goldberg, Jr.,

Assistant Secretary of the Treasury.

[FR Doc. 92–23233 Filed 9–22–92; 8:45 am]

BILLING CODE 4830–01–M

DEPARTMENT OF JUSTICE

28 CFR Part 11

[AG Order No. 1625–92]

Debt Collection; Salary and Administrative Offset

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: The Department of Justice is issuing regulations that govern the collection of debts owed to the United States. This rule implements the debt collection procedures provided under 5 U.S.C. 5514 and 31 U.S.C. 3716, which authorize agencies of the federal government to collect debts by means of salary and administrative offset provided that the agencies have accorded debtors certain procedural protections.

EFFECTIVE DATE: October 26, 1992.

FOR FURTHER INFORMATION CONTACT: James E. Williams, Director, Finance Staff, Justice Management Division, Department of Justice, Patrick Henry Building, room 7430, 601 D Street, NW., Washington, DC 20530; telephone (202) 501–6984.

SUPPLEMENTARY INFORMATION:

Salary Offset

Under 5 U.S.C. 5514, when the head of an agency determines that an employee of the agency is indebted to the United States, or when he is notified by the head of another agency that an agency employee is indebted to the United States, the employee's debt may be offset against his or her pay. The amount deducted in each pay period may not exceed 15 percent of the employee's disposable pay unless the employee gives written consent to a greater deduction.

The employee must be afforded certain procedural protections before salary offset deductions can begin. Under section 5514(a)(2), an employee-debtor must be provided with notice of the debt, an opportunity to review the record, an opportunity to enter into a written repayment agreement, and an opportunity for a hearing before the government may collect the debt by salary offset. The employee must notify the agency of his or her intent to exercise these rights within the time period prescribed in the regulations.

The Office of Personnel Management (OPM) has issued regulations, codified at 5 CFR part 550, subpart K, prescribing guidelines for the preparation by agencies of salary offset regulations. The salary offset provisions of this rule comply with the prescribed guidelines and have been approved by OPM.

Administrative Offset

Under 31 U.S.C. 3716, an agency may collect a debt owed it by an employee, organization, or entity by withholding payment or offsetting monies owed by the agency to the debtor, pending resolution of the government's claim. The procedural protections afforded the debtor with respect to administrative offset are largely the same as those afforded under the salary offset provisions.

The Department published a Notice of Proposed Rulemaking on October 1, 1991 (56 FR 49729). No substantive comments were received. No substantive changes have been made to the proposed rule.

In accordance with 5 U.S.C. 605(b), the Attorney General certifies that this rule does not have a significant adverse economic impact on a substantial number of small entities. This rule is not a major rule within the meaning of section 1(b) of E.O. 12291, nor does it

have Federalism implications warranting the preparation of a Federalism Assessment pursuant to section 6 of E.O. 12612.

List of Subjects in 28 CFR Part 11

Administrative practice and procedure, Claims, Debt collection, Government contracts, Government employees, Income taxes, Lawyers, Wages.

Accordingly, part 11 of chapter I of title 28 of the Code of Federal Regulations is amended as follows:

PART 11—DEBT COLLECTION

1. The authority citation for part 11 is revised to read as follows:

Authority: 5 U.S.C. 301, 5514; 28 U.S.C. 509, 510; 31 U.S.C. 3716, 3718, 3720A; 4 CFR part 102; 5 CFR part 550, subpart K.

2. A new subpart B, consisting of §§ 11.4 through 11.9 is added to read as follows:

Subpart B—Administration of Debt Collection

Sec.
11.4 Purpose and scope.
11.5 Delegation of authority.
11.6 Definitions.
11.7 Salary adjustments.
11.8 Salary offset.
11.9 Administrative offset.

Subpart B—Administration of Debt Collection

§ 11.4 Purpose and scope.

(a) *Purpose.* The purpose of this subpart is to implement 5 U.S.C. 5514 and 31 U.S.C. 3716, which authorize the collection by salary or administrative offset of debts owed by persons, organizations, or entities to the federal government. Generally, however, a debt may not be collected by such means if it has been outstanding for more than ten years after the agency's right to collect the debt first accrued. This subpart is consistent with the Office of Personnel Management (OPM) regulations on salary offset, codified at 5 CFR part 550, subpart K, and with regulations on administrative offset published jointly by the General Accounting Office (GAO) and the Department of Justice (Department), codified at 4 CFR part 102.

(b) *Scope.* (1) This subpart establishes Departmental procedures for the collection of certain debts owed the government.

(2) This subpart applies to collections by the Department from:

(i) Federal employees who are indebted to the Department;

(ii) Employees of the Department who are indebted to other agencies; and

(iii) Other persons, organizations, or entities that are indebted to the Department.

(3) This subpart does not apply:

(i) To debts or claims arising under the Internal Revenue Code of 1986 (26 U.S.C. *et seq.*), the Social Security Act (42 U.S.C. 301 *et seq.*), or the tariff laws of the United States;

(ii) To a situation to which the Contract Disputes Act (41 U.S.C. 601 *et seq.*) applies; or

(iii) In any case where collection of a debt is explicitly provided for or prohibited by another statute (*e.g.*, travel advances in 5 U.S.C. 5705 and employee training expenses in 5 U.S.C. 4108).

(4) Nothing in this subpart precludes the compromise, suspension, or termination of collection actions where appropriate under the standards implementing the Federal Claims Collection Act (31 U.S.C. 3711 *et seq.*), namely, 4 CFR chapter II and 38 CFR 1.900–1.954).

(5) This subpart does not govern debt collection procedures implemented by other agencies.

§ 11.5 Delegation of authority.

Authority to conduct the following activities is hereby delegated to heads of Department organizations with respect to debts arising in their respective organizations:

(a) Initiate and effectuate the administrative collection process.

(b) Accept or reject compromise offers and suspend or terminate collection actions where the claim does not exceed $100,000 or such higher amount as the Attorney General may from time to time prescribe, exclusive of interest, administrative costs, and penalties as provided herein, as set forth in 311 U.S.C. 3711(a)(2).

(c) Report to consumer reporting agencies certain data pertaining to delinquent debts.

(d) Use offset procedures to effectuate collection.

(e) Take any other action necessary to facilitate and augment collection in accordance with the policies contained herein and as otherwise provided by law.

§ 11.6 Definitions.

Except where the context clearly indicates otherwise or where the term is otherwise defined elsewhere in this subpart, the following definitions shall apply to this subpart.

(a) *Agency* means:

(1) An executive agency as defined by 5 U.S.C. 105;

(2) A military department as defined by 5 U.S.C. 102;

(3) The United States Postal Service and the Postal Rate Commission;

(4) An agency of the judicial branch, including a court as defined by 28 U.S.C. 610, the District Court for the Northern Mariana Islands, and the Judicial Panel on Multidistrict Litigation;

(5) An agency of the legislative branch, including the U.S. Senate and the U.S. House of Representatives; and

(6) Other entities that are establishments of the federal government.

(b) *Bureau* means the Bureau of Prisons, the Drug Enforcement Administration, the Federal Bureau of Investigation (FBI), Federal Prison Industries, the Immigration and Naturalization Service, the Office of Justice Programs, and the United States Marshals Service (USMS).

(c) *Certification* means a written statement received by a paying agency from a creditor agency that requests the paying agency to offset the salary of an employee and specifies that appropriate procedural protections have been afforded the employee.

(d) *Components* means the bureaus, offices, boards, and divisions of the Department.

(e) *Compromise* means the forgiveness of a debt in accordance with 31 U.S.C. 3711(a)(2) and DOJ Order No. 2120.4E. (Copies of this order are available in accordance with 28 CFR part 16, subpart A.)

(f) *Creditor agency* means an agency of the federal government to which the debt is owed.

(g) *Department* or *Justice Department* means the Department of Justice and its components.

(h) *Disposable pay* means that part of current basic pay, special pay, incentive pay, retired pay, retainer pay, and, in the case of an employee not entitled to basic pay, other authorized pay, remaining after the deduction of any amount required by law to be withheld. The Department shall allow the following deductions in determining the amount of disposable pay that is subject to salary offset:

(1) Amounts withheld from benefits payable under title II of the Social Security Act where the withholding is required the law;

(2) Federal employment taxes;

(3) Amounts mandatorily withheld for the United States Soldiers' and Airmen's Home;

(4) Fines and forfeiture ordered by a court-martial or by a commanding officer;

(5) Amounts deducted for Medicare;

(6) Federal, state, or local income taxes to the extent authorized or

required by law, but no greater than would be the case if the employee claimed all dependents to which he or she is entitled and such additional amounts for which the employee presents evidence of a tax obligation supporting the additional withholding;

(7) Health insurance premiums;

(8) Normal retirement contributions (e.g., Civil Service Retirement deductions, Survivor Benefit Plan payments, or Retired Servicemen's Family Protection Plan payments), not including amounts deducted for supplementary coverage; and

(9) Normal life insurance premiums (*e.g.*, Serviceman's Group Life Insurance and "Basic Life" Federal Employee's Group Life Insurance premiums), not including amounts deducted for supplementary coverage.

(i) *Employee* means a current employee of the Justice Department or other agency, including a current member of the Armed Forces or a Reserve of the Armed Forces of the United States.

(j) *Federal Claims Collection Standards (FCCS)* means standards jointly published by the Department and the General Accounting Office in 4 CFR chapter II.

(k) *Hearing official* means an individual responsible for conducting any hearing with respect to the existence or amount of a debt claimed and for rendering a decision on the basis of such hearing. A hearing official may not be under the supervision or control of the Attorney General when the Department is the creditor agency but may be an administrative law judge.

(l) *Notice of Intent to Offset* or *Notice of Intent* means a written notice from a creditor agency to an employee, organization, or entity stating that the debtor is indebted to the creditor agency and apprising the debtor of certain procedural rights.

(m) *Notice of Salary Offset* means a written notice from the paying agency to an employee after a certification has been issued by a creditor agency, informing the employee that salary offset will begin at the next officially established pay interval.

(n) *Organization* means the bureaus individually and the offices, boards, and divisions collectively.

(o) *Organization head* means any Director, Administrator, or Commissioner of the respective Department bureaus, the Director of the United States Trustee System, the Director of the Executive Office for United States Attorneys, and the Assistant Attorney General for Administration, who shall serve as the organization head for the offices, boards, and divisions.

(p) *Paying agency* means the agency of the federal government that employs the individual who owes a debt to an agency of the federal government. In some cases, the Department may be both the creditor agency and the paying agency.

(q)(1) *Payroll office* means the payroll office in the paying agency that is primarily responsible for the payroll records and the coordination of pay matters with the appropriate personnel office with respect to an employee.

(2) *Applicable payroll office* means the Federal Bureau of Investigation voucher and Payroll Section with respect to FBI employees and the Justice Employee Data Service for all other employees of the Department.

(r) *Salary offset coordination officer* means an official designated by an organization head who is responsible for coordinating the debt collection activities of that organization.

§ 11.7 Salary adjustments.

Any negative adjustment to pay arising out of an employee's election of coverage, or a change in coverage, under a Federal benefits program requiring periodic deductions from pay shall not be considered collection of a "debt" for the purposes of this subpart if the amount to be recovered was accumulated over four pay periods or less. In such cases, the Department need not comply with § 11.8, but it will endeavor to provide a clear and concise statement in the employee's earnings statement advising the employee of the previous overpayment at the time the adjustment is made.

§ 11.8 Salary offset.

(a) *Notice requirements before offset.* Deductions under the authority of 5 U.S.C. 5514 will not be made unless the creditor agency provides the employee with a written Notice of Intent to Offset a minimum of 30 calendar days before salary offset is initiated. When the Department is the creditor agency, this Notice of Intent shall be hand-delivered or sent by certified mail to the Assistant Director, Justice Employee Data Service, or to the Section Chief, Voucher and Payroll Section, Administrative Services Division, FBI, who shall then transmit the Notice of Intent to the debtor-employee. The Notice of Intent shall state:

(1) That the organization head has reviewed the records relating to the claim and has determined that a debt is owed, including the amount of the debt and the facts giving rise to the debt;

(2) The organization head's intention to collect the debt by means of deduction from the employee's current disposable pay account until the debt and all accumulated interest is paid in full;

(3) A repayment schedule that includes the amount, frequency, proposed beginning date, and duration of the intended deductions;

(4) The opportunity for the employee to propose an alternative written schedule for the voluntary repayment of the debt, in lieu of offset, on terms acceptable to the Department. The employee shall include a justification in the request for the alternative schedule. The schedule shall be agreed to and signed by both the employee and the organization head;

(5) An explanation of the Department's policy concerning interest, penalties, and administrative costs, including a statement that such assessments must be made unless excused in accordance with the Federal Claims Collection Standards;

(6) The employee's right to inspect and copy all records of the Department pertaining to the debt claimed or to receive copies of such records if the debtor is unable personally to inspect the records, due to geographical or other constraints;

(7) The name, address, and telephone number of an officer or employee of the Department to whom requests for access to Department records relating to the debt must be sent;

(8) The employee's right to a hearing conducted by an impartial hearing official (an administrative law judge or other hearing official not under the supervision or control of the Attorney General) with respect to the existence and amount of the debt claimed or the repayment schedule (*i.e.*, the percentage of disposable pay to be deducted each pay period), so long as a petition is filed by the employee as prescribed in paragraph (c)(1) of this section.

(9) The name, address, and telephone number of the officer or employee of the Department to whom a proposal for voluntary repayment must be sent; and the name, address, and telephone number of an officer or employee of the Department who may be contacted concerning procedures for requesting a hearing;

(10) The method and deadline for requesting a hearing;

(11) That the timely filing of a petition for a hearing on or before the 15th calendar day following receipt of the Notice of Intent will stay the commencement of collection proceedings;

(12) The name and address of the office to which the petition should be sent;

(13) That the Department will initiate certification procedures to implement a salary offset not less than 30 days from the date of receipt of the Notice of Intent to Offset, unless the employee files a timely petition for a hearing;

(14) That a final decision on whether a hearing will be held (if one is requested) will be issued at the earliest practical date, but not later than 60 days after the filing of the petition requesting the hearing;

(15) That any knowingly false or frivolous statements, representations, or evidence may subject the employee to:

(i) Disciplinary procedures appropriate under 5 U.S.C. chapter 75, 5 CFR part 752, or any other applicable statutes or regulations;

(ii) Penalties under the False Claims Act, 31 U.S.C. 3729–3731, or under any other applicable statutory authority; or

(iii) Criminal penalties under 18 U.S.C. 286, 287, 1001, and 1002 or under any other applicable statutory authority;

(16) Any other rights and remedies available to the employee under statutes or regulations governing the program for which the collection is being made;

(17) That unless there are applicable contractual or statutory provisions to the contrary, amounts paid on or deducted from debts that are later waived or found not to be owed to the United States will be promptly refunded to the employee, and

(i) Interest shall be paid on any amount paid on or deducted from a debt that is found not to be owed to the United States; and

(ii) Interest shall not be paid on any amount paid on or deducted from a debt that is later waived; and

(18) That proceedings with respect to such debt are governed by 5 U.S.C. 5514.

(b) *Review of Departmental records related to the debt.*

(1) An employee who desires to inspect or copy Department records related to the debt must send a letter to the official designated in the Notice of Intent requesting access to the relevant records. The letter must be received in the office of the salary offset coordination official within 15 days after the employee's receipt of the Notice of Intent.

(2) In response to a timely request submitted by the debtor, the designated salary offset coordination official will notify the employee of the location and time when the employee may inspect and copy records related to the debt.

(3) If the employee is unable personally to inspect the records, due to geographical or other constraints, the salary offset coordination official shall arrange to send copies of such records to the employee.

(c) *Opportunity for a hearing where the Department is the creditor agency.*

(1) *Request for a hearing.*

(i) An employee who requests a hearing on the existence or amount of the debt held by the Department or on the offset schedule proposed by the Department must send such request to the office designated in the Notice of Intent. The request or petition for a hearing must be received by the designated office on or before the 15th calendar day following receipt by the employer of the notice.

(ii) The employee must specify whether an oral hearing is requested. If an oral hearing is desired, the request should explain why the matter cannot be resolved by review of the documentary evidence alone. The request must be signed by the employee and must fully identify and explain with reasonable specificity all the facts, evidence, and witnesses, if any, that the employee believes support his or her position.

(2) *Failure to timely submit.* If the employee files a request or petition for hearing after the expiration of the 15-calendar-day period provided for in paragraph (c)(1) of this section, the organization head may accept the request if the employee can show that the delay was the result of circumstances beyond his or her confrol or that he or she failed to receive actual notice of the filing deadline.

(3) *Obtaining the services of hearing official.*

(i) When the debtor is not a Department employee and the Department cannot provide a prompt and appropriate hearing before an administrative law judge or other hearing official, the Department may request a hearing official from an agent of the paying agency, as designated in 5 CFR part 581, appendix A, or as otherwise designated by the paying agency.

(ii) When the debtor is a Department employee, the Department may contact any agent of another agency, as designated in 5 CFR part 581, appendix A, or as otherwise designated by the agency, to request a hearing official.

(4) *Procedure.*

(i) *Notice.* After the employee requests a hearing, the hearing official shall notify the employee of the form of the hearing to be provided. If the hearing will be oral, the notice shall set forth the date, time, and location of the hearing, which must occur no more than 30 days after the request is received. If the hearing will be conducted by examination of documents, the employee shall be notified within 30 days that he or she should submit evidence and arguments in writing to the hearing official.

(ii) *Oral hearing.* An employee who requests an oral hearing shall be provided an oral hearing if the hearing official determines that the matter cannot be resolved by review of documentary evidence alone (e.g., when an issue of credibility or veracity is involved). The hearing need not be an adversarial adjudication, and rules of evidence need not apply. Oral hearings may take the form of, but are not limited to:

(A) Informal conferences with the hearing official in which the employee and agency representative are given full opportunity to present evidence, witnesses, and argument;

(B) Informal meetings in which the hearing examiner interviews the employee; or

(C) Formal written submissions followed by an opportunity for oral presentation.

Witnesses who testify in oral hearings shall do so under oath or affirmation.

(iii) *Documentary hearing.* If the hearing official determines that an oral hearing is not necessary, he or she shall make the determination based upon a review of the written record.

(iv) *Record.* The hearing official shall maintain a summary record of any hearing conducted under this section.

(5) *Date of decision.* The hearing official shall issue a written opinion stating his or her decision, based upon all evidence and information developed at the hearing, as soon as practicable after the hearing, but not later than 60 days after the date on which the petition was received by the Department, unless the hearing was delayed at the request of the employee, in which case the 60 day decision period shall be extended by the number of days by which the hearing was postponed. Decisions not timely rendered shall result in the waiver of penalty and interest costs. The decision of the hearing official shall be final.

(6) *Content of decision.* The written decision shall include:

(i) A summary of the facts concerning the origin, nature, and amount of the debt;

(ii) The hearing official's findings, analysis, and conclusions; and

(iii) The terms of any repayment schedules, if applicable.

(7) *Failure to appear.* If, in the absence of good cause shown (*e.g.*, illness), the employee or the representative of the Department fails to

appear, the hearing official shall proceed with the hearing as scheduled, and make his or her determination based upon the oral testimony presented and the documentation submitted by both parties. At the request of both parties, the hearing official may schedule a new hearing date. Both parties shall be given reasonable notice of the time and place of this new hearing.

(d) *Certification where the Department is the creditor agency.*

(1) The salary offset coordination officer shall provide a certification to the appropriate payroll office in all cases where:

(i) The hearing official determines that a debt exists; or

(ii) The employee admits the existence and amount of the debt by failing to request a hearing.

(2) The certification must be in writing and must state:

(i) That the employee owes the debt;

(ii) The amount and basis of the debt;

(iii) The date the government's right to collect the debt first accrued;

(iv) That the Department's regulations have been approved by OPM pursuant to 5 CFR part 550, subpart K;

(v) If the collection is to be made by lump-sum payment, the amount and data such payment will be collected;

(vi) If the collection is to be made in installments, the number of installments to be collected, the amount of each installment, and the commencing date of the first installment, if a date other than the next officially established pay period; and

(vii) The date the employee was notified of the debt, the action(s) taken under 5 U.S.C. 5514(a), and the dates such actions were taken.

(e) *Voluntary repayment agreements as alternative to salary offset where the Department is the creditor agency.*

(1) In response to a Notice of Intent, an employee may propose to repay the debt in accordance with scheduled installment payments. Any employee who wishes to repay a debt without salary offset shall submit in writing a proposed agreement to repay the debt. The proposal shall set forth a proposed repayment schedule. Any proposal under this subsection must be received by the office of the official designated in the notice within 15 calendar days after receipt of the Notice of Intent.

(2) In response to a timely proposal by the debtor, the organization head shall notify the employee whether the employee's proposed written agreement for repayment is acceptable. It is within the organization head's discretion to accept or reject a repayment agreement.

(3) If the organization head decides that the proposed repayment agreement is unacceptable, the employee shall have 15 days from the date he or she received notice of the decision in which to file a petition for a hearing.

(4) If the organization head decides that the proposed repayment agreement is acceptable, the arrangement shall be put in writing and signed by both the employee and the organization head.

(f) *Special review where the Department is the creditor agency.*

(1) An employee subject to salary offset or a voluntary repayment agreement may, at any time, request a special review by the Department of the amount of the salary offset or voluntary payment, based on materially changed circumstances, including but not limited to catastrophic illness, divorce, death, or disability.

(2) In determining whether, as a result of materially changed circumstances, an offset would prevent the employee from meeting essential subsistence expenses (costs incurred for food, housing, clothing, transportation, and medical care), the employee shall submit a detailed statement and supporting documents for the employee, his or her spouse, and dependents indicating:

(i) Income for all sources;

(ii) Assets;

(iii) Liabilities;

(iv) Number of dependents;

(v) Expenses for food, housing, clothing, and transportation;

(vi) Medical expenses; and

(vii) Exceptional expenses, if any.

(3) If the employee requests a special review under this paragraph, the employee shall file an alternative proposed offset or payment schedule and a statement, with supporting documents, showing why the current salary offset or payments result in an extreme financial hardship to the employee.

(4) The organization head shall evaluate the statement and supporting documents and determine whether the original offset or repayment schedule imposes an extreme financial hardship on the employee. The organization head shall notify the employee in writing within 30 days of such determination, including, if appropriate, his or her acceptance of a revised offset or payment schedule.

(5) If the special review results in a revised offset or repayment schedule, the salary offset coordination officer shall provide a new certification to the paying agency.

(g) *Notice of salary offset where the Department is the paying agency.*

(1) Upon receipt of proper certification from the creditor agency, the applicable payroll office shall send the employee a written notice of salary offset. Such notice shall advise the employee that:

(i) The certification has been received from the creditor agency; and

(ii) Salary offset will be initiated at the next officially established pay interval.

(2) The applicable payroll office shall provide a copy of the notice to the creditor agency and advise such agency of the dollar amount to be offset and the pay period when the offset will begin.

(h) *Procedures for salary offset where the Department is the paying agency.*

(1) *Generally.*

(i) The salary offset coordination officer shall coordinate salary deductions under this section.

(ii) The applicable payroll office shall determine the amount of an employee's disposable pay and offset salary.

(iii) Deductions shall begin the pay period following receipt by the applicable payroll office of the certification or as soon thereafter as possible.

(2) *Types of collection.*

(i) *Lump-sum payment.* If the amount of the debt is equal to or less than 15 percent of the employee's disposable pay, such debt ordinarily will be collected in one lump-sum payment.

(ii) *Installment deductions.* Installment deductions will be made over a period not greater than the anticipated period of employment. The size and frequency of installment deductions will bear a reasonable relation to the size of the debt and the employee's ability to pay. However, the amount deducted from any period will not exceed 15 percent of the disposable pay from which the deduction is made unless the employee has agreed in writing to the deduction of a greater amount. The installment payment should normally be sufficient in size and frequency to liquidate the debt in no more than three years. Installment payments of less than $50 should be accepted only in the most unusual circumstances.

(iii) *Lump-sum deductions from final check.* A lump-sum deduction exceeding 15 percent of disposable pay may be made pursuant to 31 U.S.C. 3716 from any final salary payment due a former employee in order to liquidate a debt, whether the former employee was separated voluntarily or involuntarily.

(iv) *Lump-sum deductions from other sources.* Whenever an employee subject to salary offset is separated from the Department, and the balance of the debt cannot be liquidated by offset of the final salary check, the Department, pursuant to 31 U.S.C. 3716, may offset

any later payments of any kind against the balance of the debt.

(3) *Multiple debts.* Where two or more creditor agencies are seeking salary offset, or where two or more debts are owed to a single creditor agency, the applicable payroll office may, at its discretion, determine whether one or more debts should be offset simultaneously within the 15 percent limitation. The best interests of the government shall be the primary consideration in the determination by the payroll office of the order of the debt collection.

(4) *Precedence of salary deductions by the Department.*

(i) For Department employees, debts owed shall be paid out of disposable pay in the following order of precedence:

(A) Indebtedness due the Department.

(B) Indebtedness due other agencies.

(C) Garnishments for alimony and child support payments.

(D) Court-ordered bankruptcy payments under the Bankruptcy Code.

(E) Optional life insurance premiums.

(F) Other voluntary deductions including allotments and assignments, in the order determined by the paying agency.

(ii) In the event that a debt to the Department is certified while an employee is subject to salary offset to repay another agency, the applicable payroll office may decide whether the debt to the other agency should be repaid in full before collecting the Department's claim or whether changes should be made in the salary deduction being sent to the other agency. If debts owed to the Department can be collected in one pay period, the payroll office may suspend the salary offset to the other agency for that pay period in order to liquidate the Department's debt.

(i) *Coordinating salary offset with other agencies.*

(1) *Responsibility of the Department as the creditor agency.*

(i) The salary offset coordination officer shall be responsible for:

(A) Arranging for hearing upon proper petition by a federal employee;

(B) Preparing the Notice of Intent to Offset consistent with the requirements of paragraph (a) of this section;

(C) Obtaining hearing officials from other agencies pursuant to paragraph (c)(3) of this section; and

(D) Ensuring that each certification of debt is sent to a paying agency pursuant to paragraph (d)(2) of this section.

(ii) Upon completion of the procedures established in paragraphs (a) through (f) of this section, the salary offset coordination officer shall submit a debt claim and an installment agreement or other instruction on the payment schedule, if applicable, to the employee's paying agency.

(iii) If the employee is in the process of separating from government employment, the Department shall submit its debt claim to the employee's paying agency for collection by lump-sum deductions from the employee's final check. The paying agency shall certify the total amount of its collection and furnish a copy of the certification to the Department and to the employee.

(iv) If the employee is already separated and all payments due from his or her former paying agency have been paid, the Department may, unless otherwise prohibited, request that money due and payable to the employee from the federal government be administratively offset to collect the debt.

(v) When an employee transfers to another paying agency, the Department shall not repeat the procedures described in paragraphs (a) through (f) of this section in order to resume collecting the debt. Instead, the Department shall review the debt upon receiving the former paying agency's notice of the employee's transfer and shall ensure the collection is resumed by the new paying agency.

(2) *Responsibility of the Department as the paying agency.*

(i) *Complete claim.* When the Department receives a certified claim from a creditor agency, the employee shall be given written notice of the certification, the date salary offset will begin, and the amount of the periodic deductions. Deductions shall be scheduled to begin at the next officially established pay interval or as soon thereafter as possible.

(ii) *Incomplete claim.* When the Department receives an incomplete certification of debt from a creditor agency, the Department shall return the debt claim with notice that procedures under 5 U.S.C. 5514 and 5 CFR 550.1104 must be followed and that a properly certified debt claim must be received before action will be taken to collect from the employee's current pay account.

(iii) *Review.* The Department is not authorized to review the merits of the creditor agency's determination with respect to the amount or validity of the debt certified by the creditor agency.

(iv) *Employees who transfer from one paying agency to another.* If, after the creditor agency has submitted the debt claim to the Department, the employee transfers to an agency outside the Department before the debt is collected in full, the Department must certify the total amount collected on the debt. One copy of the certification shall be furnished to the employee and one copy shall be sent to the creditor agency along with notice of the employee's transfer.

(j) *Interest, Penalties, and Administrative Costs.* Where the Department is the creditor agency, it shall assess interest, penalties, and administrative costs pursuant to 31 U.S.C. 3717 and 4 CFR 102.13.

(k) *Refunds.*

(1) Where the Department is the creditor agency, it shall promptly refund any amount deducted under the authority of 5 U.S.C. 5514 when:

(i) The debt is compromised or otherwise found not to be owing to the United States; or

(ii) An administrative or judicial order directs the Department to make a refund.

(2) Unless required by law or contract, refunds under this paragraph (k) shall not bear interest.

(l) *Request from a creditor agency for the services of a hearing official.*

(1) The Department may provide a hearing official upon request of the creditor agency when the debtor is employed by the Department and the creditor agency cannot provide a prompt and appropriate hearing before a hearing official furnished pursuant to another lawful arrangement.

(2) The Department may provide a hearing offical upon request of a creditor agency when the debtor works for the creditor agency and that agency cannot arrange for a hearing official.

(3) The salary offset coordination officer shall arrange for qualified personnel to serve as hearing officials.

(4) Services rendered under this paragraph (l) shall be provided on a fully reimbursable basis pursuant to 31 U.S.C. 1535.

(m) *Non-Waiver of rights by payments.* A debtor's payment, whether voluntary or involuntary, of all or any portion of a debt being collected pursuant to this section shall not be construed as a waiver of any rights that the debtor may have under any statute, regulation or contract except as otherwise provided by law or contract.

§ 11.9 Administrative offset.

(a) *Collection.* The organization head may collect a claim pursuant to 31 U.S.C. 3716 from a person, organization, or entity other than an agency of the United States Government by administrative offset of monies other than salaries payable by the government. Collection by administrative offset shall be undertaken where the claim is certain in

amount, where offset is feasible and desirable and not otherwise prohibited, where the applicable statute of limitations has not expired, and where the offset is in the best interest of the United States.

(b) *Withholding of payment.* Prior to the completion of the procedures described in paragraph (c) of this section, the Department may withhold a payment to be made to a debtor, if:

(1) Failure to withhold payment would substantially prejudice the Department's ability to collect the debt; and

(2) The time before the payment is to be made does not reasonably permit completion of the procedures described in paragraph (c) of this section. Such prior withholding shall be followed promptly by the completion of the procedures described in paragraph (c) of this section.

(c) *Debtor's rights.* Unless the procedures described in paragraph (b) of this section are used, prior to collecting any claim by administrative offset, the organization head shall provide the debtor with the following:

(1) Written notification of the nature and amount of the claim, the intention of the organization head to collect the claim through administrative offset, and a statement of the rights of the debtor under this paragraph;

(2) An opportunity to inspect and copy the records of the Department with respect to the claim;

(3) An opportunity to have the Department's determination of indebtedness reviewed by the organization head. Any request for review by the debtor shall be in writing and be submitted to the Department within 30 days of the date of the notice of the offset. The organization head may waive the time limit for requesting review for good cause shown by the debtor; and

(4) An opportunity to enter into a written agreement for the repayment of the amount of the claim at the discretion of the Department.

If the procedures described in paragraph (b) of this section are employed, the procedures described in this paragraph shall be effected after offset.

(d) *Interest.* The Department is authorized to assess interest and related charges on debts that are not subject to 31 U.S.C. 3717 to the extent authorized under the common law or other applicable statutory authority.

Dated: September 14, 1992.

William P. Barr,

Attorney General.

[FR Doc. 92-23009 Filed 9-23-92; 8:45 am]

BILLING CODE 4410-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 920

Maryland Regulatory Program; Prime Farmlands, Water Control Measures for Coal Mine Waste Disposal Facilities; Designation of Areas as Unsuitable for Mining

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is announcing the approval of a proposed amendment to the Maryland regulatory program (hereinafter referred to as the Maryland program) approved under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed amendment concerns changes to the Code of Maryland Regulations (COMAR) required by OSM in Federal rulemaking on January 11, 1991 (56 FR 1097) and a revision concerning petition for designation of an area as unsuitable for mining.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Robert Biggi, Director, Harrisburg Field Office, Harrisburg Transportation Center, 4th and Market Streets, Suite 3C, Harrisburg, PA 17101; Telephone: (717) 782-4036.

SUPPLEMENTARY INFORMATION:

I. Background on the Maryland Program.
II. Submission of Amendments.
III. Director's Findings.
IV. Summary and Disposition of Comments.
V. Director's Decision.
VI. Procedural Determinations.

I. Background on the Maryland Program

On February 18, 1982, the Secretary of the Interior approved the Maryland program. Information regarding the general background on the Maryland program, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Maryland program can be found in the February 18, 1982, **Federal Register** (47 FR 7214). Actions taken subsequent to the approval of the Maryland program are identified at 30 CFR 920.12, 30 CFR 920.15, and 30 CFR 920.16.

II. Submission of Amendments

By letter dated January 23, 1992, the Maryland Bureau of Mines (Maryland) submitted a program amendment to OSM (Administrative Record No. MD-550.00). The amendment was submitted in response to the Director's Decision identified in the **Federal Register** notice dated January 11, 1991 (56 FR 1097) requiring Maryland to make certain changes to COMAR 08.13.09.03D—Prime Farmlands, and COMAR 08.13.09.33C(1)—Water Control Measures for Coal Mine Waste Disposal Facilities. Maryland is also proposing a change to COMAR 08.13.09.11G(7)—Designation of Areas as Unsuitable for Mining. This Federal rule is OSM's final action on a program amendment Maryland submitted in response to OSM's July 8, 1986, 30 CFR 732.17 letter (Administrative Record No. MD-351). The letter required Maryland to revise certain rules determined to be less effective than their Federal counterparts.

OSM announced receipt of the proposed amendment in the April 23, 1992 **Federal Register** (57 FR 14820) and in the same notice opened the public comment period and provided opportunity for a public hearing on the adequacy of the proposed amendment. The comment period closed on May 26, 1992.

III. Director's Findings

Set forth below, pursuant to SMCRA and the Federal Regulations at 30 CFR 732.17, are the Director's findings concerning the proposed amendment submitted on January 23, 1992. Any revisions not specifically addressed below are found to be no less stringent than SMCRA and no less effective than the Federal regulations. Revisions that are not discussed below contain language similar to the corresponding Federal rules, concern nonsubstantive wording changes, or revise cross-references and paragraph notations to reflect organizational changes resulting from this amendment.

Revisions to Maryland's Regulations That Are Substantively Identical to the Corresponding Federal Regulations

State regulation	Subject	Federal counterpart
COMAR 08.13.09.03D(7)	Permit Applications	30 CFR 785.17(c)(1).
COMAR 08.13.09.33C(1)	Waste Handling	30 CFR 816.83(a). 30 CFR 817.83(a). 30 CFR 816.71(f). 30 CFR 817.71(f).
COMAR 08.13.09.11G(7)	Designation of Areas as Unsuitable for Mining	30 CFR 764.15(a)(b).

Because the above proposed revisions are identical in meaning to the corresponding Federal regulations, the Director finds that Maryland's proposed rule is no less effective than the Federal rule.

IV. Summary and Disposition of Comments

Public Comments

The public comment period announced in the April 23, 1992, **Federal Register** (57 FR 14820) ended on May 26, 1992. No public comments were received and a public hearing was not held as no one requested an opportunity to provide testimony.

Agency Comments

Pursuant to section 503(b) of SMCRA and the implementing regulations at 30 CFR 732.17(h)(11)(i), comments were solicited from various Federal agencies with an actual or potential interest in the Maryland program. The Maryland Historical Trust and the U.S. Department of Agriculture, Soil Conservation Service concurred with the provisions of the proposed amendment.

V. Director's Decision

Based on the above findings, the Director is approving the program amendment submitted by Maryland on January 23, 1992.

The Federal regulations at 30 CFR part 920 codifying decisions concerning the Maryland program are being amended to implement this decision. The final rule is being made effective immediately to expedite the State program amendment process and to encourage states to bring their programs in conformity with the Federal standards without undue delay. Consistency of State and Federal standards is required by SMCRA.

EPA Concurrence

Under 30 CFR 731.17(h)(11)(ii), the Director is required to obtain the written concurrence of the Administrator of the Environmental Protection Agency with respect to any provisions of a State program amendment which relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*). The Director has determined that this amendment contains no such provisions.

VI. Procedural Determinations

Executive Order 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.13 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the requirements of 30 CFR parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(c) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 *et seq.*

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

List of Subjects in 30 CFR Part 920

Intergovernmental relations, Surface mining, Underground mining.

Dated: August 20, 1992.

Jeffrey D. Jarrett,

Acting Assistant Director, Eastern Support Center.

For the reasons set out in the preamble, title 30, chapter VII, subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 920—MARYLAND

1. The authority citation for part 920 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. In section 920.15 a new paragraph (q) is added to read as follows:

§ 920.15 Approval of amendments to State regulatory program.

* * * * *

(q) The following amendment submitted to OSM on January 23, 1992, is approved effective September 24, 1992. The amendment consists of the following modifications to the Maryland program:

(1) Revision of the following rules of the Code of Maryland Administrative Regulations:

08.13.09.03D(7)—Permit Applications
08.13.09.33C(1)—Waste Handling
08.13.09.11G(7)—Designation of Areas as Unsuitable for Mining

[FR Doc. 92-23188 Filed 9-23-92; 8:45 am]
BILLING CODE 4310-05-M

30 CFR Part 925

Missouri Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is announcing approval of a proposed amendment, with certain exceptions, submitted by the State of Missouri as a modification to its permanent regulatory program (hereinafter, the "Missouri program") approved under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendment was submitted to OSM on November 8, 1991, and addresses State statutes concerning penalties. The amendment was initiated by the State to make the Program consistent with other programs within the Missouri Department of Natural Resources.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Jerry R. Ennis, Telephone: (816) 374-6405.

SUPPLEMENTARY INFORMATION:

I. Background on the Missouri Program

On November 21, 1980, the Secretary of Interior conditionally approved the Missouri program. General background information on the Missouri program, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Missouri program can be found in the November 21, 1980, **Federal Register** (45 FR 77017). Subsequent actions concerning Missouri's program and program amendments can be found at 30 CFR 925.12, 925.15, and 925.16.

II. Submission of Proposed Amendment

By letter dated November 8, 1991 (Administrative Record No. MO-541), Missouri submitted a proposed amendment to its program pursuant to SMCRA. Missouri submitted the proposed amendment on its own initiative to improve its program. Missouri proposes to amend the Revised Statutes of Missouri (RSMo) at sections: 444.870.1 through 444.870.8, Penalties.

The Director announced receipt of the proposed amendment in the November 27, 1991, **Federal Register** (56 FR 60077) and in the same notice opened the public comment period and provided opportunity for a public hearing on its substantive adequacy (Administrative Record No. MO-547). The public comment period closed on December 27, 1991. No public hearing was held since none was requested. Following a review of the Missouri amendment, OSM notified the State, by phone conversation, on January 21, 1992, of several deficiencies in the proposed amendment (Administrative Record No. MO-544). During that same phone conversation, Missouri responded by requesting that OSM not send an issue letter to the State and to proceed with a final rulemaking.

III. Director's Findings

Set forth below, pursuant to SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17, are the Director's findings for the proposed amendment submitted by Missouri on November 8, 1991.

1. Provisions Not Discussed

Missouri proposes revisions to its statute at RSMo 444.870.3, 444.873.1, .2, .3, and .4 that involve minor editorial changes and recodification. The Director finds that these proposed revisions are no less stringent than SMCRA and is approving them. The Director is requesting that Missouri review its rules and other applicable areas of its program (for example, inspection-related forms) to ensure that any references to the recodified statute are correct.

2. RSMo 444.870.1, .2, and .4, Administrative Penalty Amounts and Procedures

At RSMo 444.870.1, .2, and .4 Missouri provides the requirements for civil penalties, and procedures for determining the amount, how they are to be assessed, and hearings and civil actions. Missouri proposes to replace the term "civil penalty" with the term "administrative penalty" throughout these three sections. Since Missouri proposes at RSMo 444.870.8 to allow courts to assess civil penalties as well as the regulatory authority, OSM assumes that the purposes of this change is to distinguish between administratively assessed penalties and those assessed by the courts. Therefore, under this assumption, the Director finds that the statutory changes at RSMo 444.870.1, .2, and .4 are no less stringent than sections 518, 526, and 503 of SMCRA and is approving them. However, Missouri's rules at 10 Code of State Regulations (CSR) 40 chapter 8, that address civil penalty amounts and processes, continue to use the term "civil penalty" and not "administrative penalty." In order to provide consistency between its Statutes and rules, OSM recommends that Missouri revise the terminology in its regulatory provisions at 10 CSR 40 chapter 8 and throughout its program to be the same as used in its statutory language.

3. RSMo 444.870.6, Assessment of Administrative Penalty

Missouri proposes to add new section RSMo 444.870.6 that would require:

> An administrative penalty shall not be increased in those instances where department action, or failure to act, has caused a continuation of the violation that was a basis for the penalty. Any administrative penalty must be assessed within 2 years following the department's initial discovery of such alleged violation, or from the date the department in the exercise of ordinary diligence should have discovered such alleged violation.

a. Adjustment of Penalty Amount

The Missouri proposal would not allow an administrative penalty to be increased "where department action, or failure to act, has caused a continuation of the violation that was a basis for the penalty."

Section 518(a) of SMCRA states that the amount of penalty is based on the permittee's history of previous violations; the seriousness of the violation; whether the permittee was negligent; and demonstration of good faith of the permittee is attempting to achieve compliance. When establishing the seriousness of the violation, SMCRA does not grant an allowance to the permittee for situations where department action, or failure to act, has caused a continuation of the violation that was a basis for the penalty.

Therefore, the Director finds Missouri's proposal to not allow an administrative penalty to be increased where department action, or failure to act, has caused continuation of the violation that was the basis for the penalty to be less stringent than section 518(a) of SMCRA and is not approving it.

b. Penalty Assessment

The Missouri proposal continues with the requirement that any administrative penalty must be assessed within 2 years following the Departments initial discovery of such alleged violation or from the date the department in the

exercise of ordinary diligence should have discovered such alleged violation.

The State proposes, in effect, a statute of limitations on the time in which the State regulatory authority may assess a civil penalty. Given Missouri's proposal, any assessments or re-assessed penalties resulting from an administrative review would have to be dismissed without a showing of prejudice if they exceeded the 2 year limit. In neither of these cases would the penalties be dismissed under the Federal regulations. In this respect, the proposal is less effective than the Federal regulation in achieving the enforcement goals of SMCRA.

Missouri's proposal further provides that penalties must be assessed not only within 2 years of the violation notice, but more restrictively within 2 years "from the date the department in the exercise of ordinary diligence should have discovered such alleged violation." The time limitation requirements of SMCRA section 518 and 30 CFR part 845 are all based on the date of issuance of the violation notice. If an alleged violation were not cited in a violation notice until 3 years later, it would still have to be assessed for potential penalty under the Federal requirements. Under the Missouri proposal, no penalty could be assessed. Further, Missouri has not informed OSM how the phrase "in the exercise of ordinary diligence" is to be interpreted.

The Director therefore finds that Missouri's proposed statutory change at RSMo 444.870.6 is less stringent than section 518 of SMCRA and is not approving it.

4. RSMo 444.870.7, Final Orders

a. Persons Empowered To Request Judicial Review

Missouri's proposed new RSMo 444.870.7 would subject final orders to judicial review upon petition "by any person subject to the administrative penalty."

Section 526(a)(2) of SMCRA states that any order or decision in a civil penalty proceeding shall be subject to judicial review; it does not explicitly limit the right of review to the person charged with the penalty. Furthermore, section 102(i) of SMCRA states that one purpose of the Act is to assure provision for public participation in the enforcement of programs under the Act.

The Federal regulations at 30 CFR 845.20(b) specify that "any party" may request judicial review of the final order. This Federal term, "any party," is more inclusive than the proposed State term, "any person subject to the administrative penalty." Therefore, the Director finds the proposed provision at RSMo 444.870.7, by allowing fewer persons to file for judicial review, less stringent than SMCRA and less effective than the Federal regulation and is not approving the provision.

b. Judicial Review de novo

Missouri proposes to add new section RSMo 444.870.7 that would allow either party to request that judicial review of a final order be *de novo*. *Black's* law dictionary defines *de novo* trials as "trying a matter anew; the same as if it had not been heard before and as if no decision had been previously rendered." Section 526(b) of SMCRA requires that judicial review of Federally assessed penalties be based on the record, that is, it prohibits trials *de novo* for those penalties.

The preamble to OSM's 1979 rules strongly discourages states from providing for trials *de novo* (44 FR 14902, 15296; March 13, 1979). The concern expressed by OSM at that time was that trials *de novo* might be advantageous to violators since trials *de novo* would usually occur long after the violation and loss of evidence, loss of witnesses and/or witness memory might lead to a reduced ability of regulatory authorities to prove the fact of violations and/or to defend penalty amounts assessed.

This position was challenged in *In re: Permanent Surface Mining Regulation Litigation*, 14 ERC 1083, 1109 (D.D.C. February 26, 1980). In briefs filed for that case, the Secretary said that trials *de novo* can be allowed in State programs *if* the State can demonstrate that such allowance would not lead to subversion of the enforcement program. Missouri has not provided such demonstration. As OSM noted in the preamble to the October 28, 1981, (46 FR 53376, 53377) rulemaking which relaxed the provisions for State submission of alternative approaches to the Federal regulations, it remains the responsibility of the State seeking approval of an alternative to establish the necessary record to support the conclusion that the State's proposal is as effective in meeting the requirements of the Act as are the Federal regulations.

Therefore, the Director finds that since Missouri failed to demonstrate how trials *de novo* would not lead to subversion of the enforcement program, its proposed provision at RSMO 444.870.7 is less stringent than the section 526(b) of SMCRA and is not approving the proposed change.

c. Judicial Review of Final Orders—Requirement for Escrow Payment

Missouri proposes at RSMo 444.870.7 that "[a]ny final order imposing an administrative penalty is subject to judicial review upon the filing of a petition pursuant to section 536.100, RSMo * * *"

Existing and proposed RSMo 444.870.3 require an escrow payment in order to obtain administrative review; while the procedures are not specified, it is implied that the payment remains in escrow through the completion of judicial review. Existing RSMo 444.900 states that final orders are subject to judicial review only if all administrative remedies are exhausted; thus, there must always have been an escrow payment to remain in escrow during any judicial review. The proposed new provision at RSMo 444.870.7 does not specify that an escrow payment is required. It is unclear whether the proposed provision would create a different avenue for obtaining judicial review than that specified in RSMo 444.870.3.

SMCRA section 518(c) requires the person charged with the penalty to place the penalty amount in escrow in order to contest the amount of the penalty; this is implied for both administrative or judicial review. The Federal regulations at 30 CFR 845.19(a) requires that a request for an administrative hearing be accompanied by an escrow payment of the amount assessed and 30 CFR 845.20(b) requires that the amount paid into escrow for the administrative hearing remain in escrow for the judicial hearing.

The Director finds that the proposed provision at RSMo 444.870.7, by not clarifying its interpretation regarding whether an escrow payment is required in order to obtain judicial review, is less stringent than section 518(c) of SMCRA and is not approving it.

5. RSMo 444.870.8, Assessment of Penalty

a. Provision for Judicially Assessed Penalties

Missouri proposes new section RSMo 444.870.8 that would provide three alternatives for the assessment of penalties. First, the State may assess an administrative penalty. Second, the Attorney General may file legal action seeking a civil penalty in a circuit court. Third, the State may request a judicially assessed civil penalty.

Section 518(i) of SMCRA requires State programs to have similar procedural requirements as section 518. Section 518 (a) and (b) require penalties to be assessed at the administrative level (i.e., by the Secretary), not at the judicial level. Therefore, section 518(i) can be interpreted to require that State

programs assess penalties administratively, rather than allowing the proposed option for judicial assessment. OSM's implementing regulations at 30 CFR 732.15(b)(7) also require State programs to include the same or similar procedural requirements as 30 CFR part 845, which requires penalties to be assessed by OSM (i.e., the regulatory authority). Further, 30 CFR 840.13(c) requires State programs to include procedural requirements for civil penalty assessment consistent with those in 30 CFR part 845.

The possibility of judicially assessed penalties was addressed in the preamble to OSM's 1979 regulations (44 FR 14902, 15296; March 13, 1979). OSM's conclusion was that judicially-assessed penalties would not satisfy the requirements of SMCRA and OSM's rules. The reasons were: (1) Courts are not as knowledgeable about the subject matter of coal mining as is the administrative agency; (2) court dockets may mean long delays in assessing penalties [30 CFR 845.17(b) generally requires an assessment within 30 days of the violation notice]; (3) State court systems/procedures may not provide for citizen participation in penalty assessment; (4) an administrative system is more efficient; and (5) administratively-assessed penalties are more likely to be uniform and reflect the criteria of the Act.

As stated in finding 4b, it is the State's responsibility, when seeking approval of an alternative approach to the Federal regulations, to establish the necessary record to support the conclusion that the State's proposal is as effective in meeting the requirements of the Act as are the Federal regulations. Missouri does not provide evidence substantiating the position that none of the five problems noted in the preamble discussion, or any other potential subversions of or weakening of "enforcement values," would occur under the alternative for judicial assessment. In addition, SMCRA and the Federal regulations cited above require that civil penalties be assessed based on four criteria (history, seriousness, negligence, good faith in abating). Missouri currently does not have in place statutory provisions that would require circuit courts to utilize these criteria in assessing civil penalties.

Therefore, the Director finds Missouri's proposal at RSMo 444.870.8 to be less stringent than SMCRA and less effective than the Federal regulations and is not approving it.

b. Assessment Criteria

Missouri's proposed statute states that "[t]he assessment of an administrative penalty shall preclude the assessment of a monetary penalty for the same violation by the attorney general and the judicial assessment of a civil penalty for the same violation *except* (emphasis added) that this limitation shall not apply to persons whom the department has determined to have habitually violated the requirements of the Missouri surface coal mining law, * * *" There is no similar counterpart provision in the Federal program.

There are two problems with this language. First, it is unclear what Missouri intends to achieve with this proposed revision. On one hand, it appears that Missouri proposes to put in effect a statute that could allow two separately assessed penalties for habitual offenders. This would seem to be unnecessary since Missouri already has an avenue for "penalizing" "habitual offense" under the program provisions for permit suspension/revocation for patterns of violations (30 CFR 843.13; RSMo 444.885.3 & 444.895.4).

On the other hand, this proposed statute could be interpreted to mean that, if the State is dealing with a "habitual offender," the assessment of the attorney general and the judicial assessment would preclude the administrative assessment.

Second, OSM has a concern regarding Missouri's use of the terms "administrative penalty" and "monetary penalty." As discussed in finding 2, Missouri's substitution of the term "administrative penalty" for the term "civil penalty" was thought to be proposed as a way to distinguish between administratively-assessed penalties and those assessed by the courts and therefore, no less stringent than SMCRA. However, the phrase "[t]he assessment of an administrative penalty shall preclude the assessment of a monetary penalty for the same violation * * *" implies that an administrative penalty does not include a "monetary" component, which is inconsistent with SMCRA.

Given the uncertainty of the intent of this proposed statutory revision, the Director cannot determine if Missouri's proposed changes are in accordance with SMCRA and therefore is not approving it.

c. Attorney General Assessment of Monetary Penalty

The second proposed option discussed in finding 5a is: "the assessment of a monetary penalty * * * by the attorney general." There is no Federal counterpart provision in the Federal program.

As stated in finding 5a, Missouri currently does not have in place statutory provisions that would require the attorney general to use the four required assessment criteria (history, seriousness, negligence, good faith in abating) when assessing penalties.

The Director therefore finds that Missouri's proposed provision is inconsistent with the requirements of SMCRA at section 518 and is not approving the proposed change.

6. RSMo 444.873.2 (Previously RSMo 444.870.6), Corporate Permittee Violation

a. Individual Civil Penalties

The existing provision, at RSMo 444.870.6, applies when a corporate permittee "fails or refuses to comply with any order issued under section RSMo 444.885, or any order incorporated in a final decision issued by the commission *except* an order [under subsection 2]" (emphasis added). That is, individual civil penalties (ICP's) are authorized for failing to obey orders under RSMo 444.885 or any final order *except* those under subsection 2 that require payment of civil penalties. Orders issued under RSMo 444.885 are cessation orders and show cause orders.

The proposed revision has omitted the "except" clause, so that it reads: "* * * fails or refuses to comply with an order issued under section RSMo 444.885, or any order incorporated in a decision issued under subsection 2 * * *" Thus, in the proposed revision, only orders under RSMo 444.885 and final decision orders which do require payment of administrative penalties would be included.

Section 518(f) of SMCRA authorizes ICP's for failure to obey orders under section 521 (counterpart to RSMo 444.885) of SMCRA or any order incorporated in a final decision except an order requiring payment of civil penalties (or an order under section 703 of SMCRA to abate violations of employee protection).

In summary, while Missouri's existing provision closely parallels the requirements of SMCRA, the proposed revision would be less stringent because it would include fewer orders incorporated in final decisions: The proposed revision would include only those final decision orders requiring payment of civil penalties, which are precisely the ones SMCRA excludes. The proposed revision would also conflict with and be less inclusive than Missouri's approved regulatory

definition of "violation, failure, or refusal" at 10 CSR 40-8.045(2)(B)(2) and the regulatory provision allowing assessment of ICP's at subsection (3)(a) of that rule. Therefore, the Director finds the proposed change at RSMo 444.873.2 to be less stringent than the Federal requirements at section 518(f) of SMCRA and is not approving it.

b. Editorial Errors

It appears as though the legislature intended to add a provision allowing access to a hearing for any director, officer, or agent who is assessed proposed ICP's (i.e., to add a provision equivalent to section 518(c) of SMCRA). However, this new provision was inserted into the middle of the sentence that authorizes ICP's rendering both provisions meaningless.

This revision initially says that "any director, officer, or agent * * * shall be subject to hearings * * *" This is an editorial error. Persons are not subject to hearings, rather, decisions, penalties, judgements, etc., are subject to hearings. The revision then states that "* * * any hearing * * * shall be of record *and shall be the same civil penalties* [sic] * * * that may be imposed * * *" (emphasis added). This says that hearings shall be penalties, which is erroneous. This revised provision has eliminated the requirement that directors, officers, and agents of corporate permittees are subject to civil penalties, fines, and imprisonment.

This provision as revised would no longer be comparable to SMCRA 518(f), and the Missouri program would no longer contain any authorization for the imposition of civil penalties on directors, etc., of corporate permittees. While the Missouri program would still contain regulatory provisions for the imposition of ICP's, at 10 CSR 40-8.045, these provisions would have no statutory basis. Therefore, the Director finds this proposed revision to be less stringent than section 518(f) of SMCRA and is not approving it.

c. Editorial Errors, cont.

Also, the last sentence of this proposed revision refers to "civil penalties, fines, and imprisonment * * * under *this section*" (emphasis added). Under the proposal, "this section" means RSMo 444.873. "Administrative" (civil) penalties are authorized in section 444.870. Therefore, there are neither civil nor administrative penalties authorized under "this section." In order to be no less stringent than section 518(f) of SMCRA, this phrase would have to be revised to specifically state or incorporate fines and imprisonment under this section and administrative penalties under section 444.870.

IV. Summary and Disposition of Comments

Public Comments

The Director solicited public comment on the proposed amendment and provided opportunity for a public hearing. No comments were received, and the scheduled public hearing was not held because no one requested an opportunity to provide testimony.

Agency Comments

Pursuant to section 503(b) of SMCRA and the implementing regulations at 30 CFR 732.17(h)(11), OSM solicited comments from various Federal agencies with an actual or potential interest in the Missouri program.

State Historic Preservation Officer (SHPO) and the Advisory Council on Historic Preservation (ACHP) Comments

As required by 30 CFR 732.17(h)(4), OSM provided the proposed amendment to the SHPO and the ACHP for comment. The SHPO responded that it had no objection to the implementation of the proposed amendment. No response was received from ACHP.

Environmental Protection Agency (EPA) Concurrence

Under 30 CFR 732.17(h)(11), the Director is required to obtain the written concurrence of the Administrator of the EPA with respect to any provisions of a State program amendment that relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*).

Missouri did not propose in this amendment any revisions to its program that relate to air or water quality standards. However, EPA's Regional and Headquarters offices were afforded opportunity to comment on this amendment. EPA's Region VII office responded that it had no comments. The Headquarters office concurred without comment.

V. Director's Decision

Based on the above findings, the Director is approving the proposed amendment submitted by Missouri on November 8, 1991, with the exception of those provisions found to be inconsistent with SMCRA or the Federal regulations, and identified in the codified portion of this notice under 30 CFR 925.15.

The Director is not approving Missouri's proposed revisions to its statute as discussed at finding: 3, RSMo 444.870.6, concerning assessment of administrative penalty; 4, RSMo 444.870.7, concerning judicial review of administrative penalty; 5, RSMo 444.870.8, concerning assessments of penalty; and 6, RSMo 444.873.2, concerning corporate permittee violation because they are less stringent than SMCRA and less effective than the implementing Federal regulations.

The Federal regulations at 30 CFR part 925 codifying decisions concerning the Missouri program are amended to implement this decision. This final rule is being made effective immediately to expedite the State program amendment process and to encourage States to bring their programs into conformity with the Federal standards without undue delay. Consistency between State and Federal standards is required by SMCRA.

VI. Effect of Director's Decision

Section 503 of SMCRA establishes that a State may not exercise jurisdiction under SMCRA unless the State program is approved by the Secretary of the Interior. The Federal regulations at 30 CFR 732.17(a) require that any alteration of an approved State program must be submitted to the Director as a program amendment. Thus, any changes to the program are not enforceable by the State until approved by the Director. The Federal regulations at 30 CFR 732.17(g) prohibit any unilateral changes to approved State programs.

In the oversight of the Missouri program, the Director will recognize only statutes, regulations, and other materials approved by OSM, together with any consistent implementing policies, directives, and other materials, and will require the enforcement by Missouri of only such provisions.

VII. Procedural Determinations

Compliance With Executive Order No. 12291

On July 12, 1984, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7, and 8 of Executive Order 12291 for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Accordingly, preparation of a Regulatory Impact Analysis is not necessary and OMB regulatory review is not required.

Compliance With Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the requirements of 30 CFR parts 730, 731, and 732 have been met.

Compliance With the National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA [30 U.S.C. 1292(d)] provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 *et seq.*

Compliance With the Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

List of Subjects in 30 CFR 934

Intergovernmental relations, Surface mining, Underground mining.

Dated: August 30, 1992.

Raymond L. Lowrie,

Assistant Director, Western Support Center.

For the reasons set out in the preamble, title 30, chapter VII, subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 925—MISSOURI

1. The authority citation for part 925 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. Section 925.15 is amended by adding paragraph (o) to read as follows:

§ 925.15 Approval of regulatory program amendments.

* * * * *

(o) With the exception of RSMo 444.870.6, concerning assessment of administrative penalty, RSMo 444.870.7 concerning judicial review of administrative penalty, RSMo 444.870.8 concerning assessments of penalty, and RSMo 444.873.2 concerning corporate permittee violation, the following provisions of the Missouri statute as submitted to OSM on November 8, 1991, are approved effective September 24, 1992: RSMo 444.870.1 through .5 concerning civil penalty amount and procedure; RSMo 444.873.1 concerning willful and knowing violations; RSMo 444.873.3 concerning knowing false representation; and RSMo 444.873.4 concerning failure to correct a violation.

3. Section 925.16 is amended by adding paragraph (i), to read as follows:

§ 925.16 Required program amendments.

* * * * *

(i) By November 23, 1992, Missouri shall amend its program at RSMo 444.870.6, RSMo 444.870.7, RSMo 444.870.8, and RSMo 444.873.2 by removing these sections.

BILLING CODE 4310-05-M

30 CFR Part 935

Ohio Abandoned Mine Land Reclamation Plan Amendment

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule.

SUMMARY: OSM is announcing the approval of proposed amendments to the Ohio Abandoned Mine Land Reclamation Plan (hereinafter referred to as the Ohio Plan) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The amendments concern the proposed policies and procedures with which Ohio would conduct the Abandoned Mine Land Reclamation (AMLR) emergency program on behalf of OSM. The amendments would also make eligible for Federal AMLR funding, certain sites in Ohio affected by mining activities after the passage of SMCRA and would revise the definition of what constitutes a small operator under the small operator assistance program to be consistent with the approved Ohio program.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Mr. Richard J. Seibel, Director, Columbus Field Office, Office of Surface Mining Reclamation and Enforcement, 2242 South Hamilton Road, room 202, Columbus, Ohio 43232; (614) 866-0578.

SUPPLEMENTARY INFORMATION:

I. Background on the Ohio Program.
II. Submission of the Amendment.
III. Director's Findings.
IV. Summary and Disposition of Comments.
V. Director's Decision.
VI. Procedural Determinations.

I. Background on the Ohio Program

The Secretary of the Interior approved the Ohio Plan on August 10, 1982. Information on the background of the Ohio Plan, including the Secretary's findings, the disposition of comments, and a detailed explanation of the conditions of approval of the Ohio plan, can be found in the August 10, 1982, **Federal Register** (47 FR 34688). Subsequent actions concerning conditions of approval and program amendments are identified at 30 CFR 935.20 and 935.25.

II. Submission of the Amendment

By letter dated July 14, 1988 (Ohio Administrative Record No. OH-1071), Ohio submitted Program Amendment Number AML-3. This amendment proposed changes to the Ohio Plan to authorize Ohio to conduct the AMLR emergency program on behalf of OSM. OSM announced receipt of proposed Program Amendment Number AML-3 in the October 20, 1988, **Federal Register** (53 FR 41208), and, in the same notice, opened the public comment period and provided opportunity for a public hearing on the adequacy of the proposed amendment. The public comment period ended on November 21, 1988. The public

hearing scheduled for November 14, 1988, was not held because no one requested an opportunity to testify.

Because of concerns over the allocation of funds to support the AMLR emergency program, Ohio withdrew its July 14, 1988, submission of proposed Program Amendment Number AML–3 on February 15, 1989 (Ohio Administrative Record No. OH–1159). Between 1989 and 1992, OSM and Ohio continued discussions about Ohio's possible assumption of the AMLR emergency program on behalf of OSM. OSM was able to resolve Ohio's concerns about the AMLR emergency program funding, and, in early 1992, Ohio again initiated the process to assume the AMLR emergency program.

By letter dated February 19, 1992 (Administrative Record No. OH–1650), the Ohio Department of Natural Resources, Division of Reclamation (Ohio), submitted proposed Program Amendment Number AML–5 to the Ohio Plan. This amendment is intended to demonstrate Ohio's capability to effectively perform the AMLR emergency program on behalf of OSM. In support of the proposed amendment, Ohio also submitted responses to OSM's September 29, 1982, guidelines for State proposals to assume the emergency program (47 FR 42729).

By letter dated March 2, 1992 (Ohio Administrative Record No. OH–1657), Ohio modified AML–5 to include new statutory provisions at Ohio Revised Code (ORC) 1513.37(L)(1) and (L)(2). These provisions were originally included in Program Amendment Number 54, submitted to OSM on February 7, 1992 (Administrative Record No. OH–1645). Because these provisions provide clarification of the statutory authority in emergency situations, OSM requested that ORC 1537.37(L)(1) and (L)(2) to be moved to this amendment package.

In response to the May 29, 1992, issue letter prepared by OSM (Administrative Record No. OH–1705), Ohio submitted on July 29, 1992, additional minor revisions to the program amendment (Administrative Record No. OH–1759). The revisions further modify and clarify the policy and procedures of the Ohio AML Emergency Program.

OSM announced receipt of the proposed amendment in the April 13, 1992 **Federal Register** (57 FR 12782), and, in the same notice, opened the public comment period and provided opportunity for a public hearing on the adequacy of the proposed amendment. The public comment period ended on May 13, 1992. The public hearing scheduled for May 8, 1992, was not held because no one requested an opportunity to testify.

III. Director's Findings

Set forth below, pursuant to SMCRA and the Federal regulations at 30 CFR part 884, are the Director's findings concerning the proposed amendment to the Ohio Program. Any minor revisions not specifically discussed are found to be no less stringent than SMCRA and no less effective than the Federal regulations. Revisions which are not discussed below contain language similar to the corresponding Federal rules, concern nonsubstantive wording changes, or revise cross-references and paragraph notation to reflect organizational changes resulting from this amendment.

1. State Emergency Reclamation Policies and Procedures

Ohio proposes to revise the Ohio Plan to assume the authority to conduct the emergency program on behalf of OSM as set forth in section 410 of SMCRA. The guidelines for State Reclamation Plan provisions pertaining to the assumption of emergency response authority were published in the **Federal Register** on September 29, 1982, (47 FR 42729). Under this rule, for a State to undertake an emergency reclamation program as part of its AMLR Program, the State must amend its Reclamation Plan to demonstrate that is has the statutory authority to undertake emergency reclamation projects, the technical capability to design and supervise the emergency work, and the administrative machinery to quickly respond to emergencies either directly or through contractors.

OSM noted in its May 29, 1992, issue letter to Ohio that the Reclamation Plan must clarify that the action taken to abate an emergency be limited to that necessary to stabilize the life-threatening situation and should allow remaining reclamation work to be undertaken as a lower priority project. Ohio responded that they would defer to the OSM Field Office Director's specific authority to declare each emergency and to approve the scope of work. The Director agrees with Ohio that sufficient procedures, consistent with OSM guidelines, are in place to ensure that the scope of work for emergency projects is limited to that necessary to eliminate the life threatening situation.

On March 2, 1992, in response to a request by OSM, Ohio agreed to move to this amendment package new statutory provisions at ORC 1513.37(L)(1) and (L)(2) which clarify Ohio's statutory authority to expeditiously contract and enter upon any land where an emergency exists to abate the emergency conditions. OSM requested that these provisions be included with this amendment for consistency and clarity. Although the revisions to the ORC have not yet been enacted into law by Ohio, Appendix U of Ohio's original submittal, containing a letter from the Ohio Attorney General, dated June 28, 1988, stipulated that Ohio does have the authority to conduct an emergency reclamation program.

The program amendment package submitted by Ohio on February 19, 1992, including the revisions made in response to the OSM issue letter, constitutes a comprehensive package that demonstrates that Ohio has the necessary statutory authority, technical capabilities, and procurement procedures to satisfy the conditions stated in the September 29, 1982, **Federal Register** notice (47 FR 42729). Therefore, based upon the Agency's substantive review and in consideration of the declaration of the Ohio Attorney General, the Director finds that Ohio has complied with the emergency program guidelines and qualifies for assumption of the emergency response program.

2. Eligibility

Ohio proposes to revise its Reclamation Plan at Subsection 2.3, paragraph (c), pages 2–5 to include post-1977 abandoned mine lands and waters made eligible for reclamation by the AML Reclamation Act of 1990. Section 402(g)(4) of SMCRA, as revised, extends the original eligibility criteria for emergency and priority 1 and 2 sites to surface coal mining operations that had been mined and abandoned between August 4, 1977, and either:

(i) The date on which the Secretary of the Interior's approval of the State program under section 503 of SMCRA became effective, or

(ii) November 5, 1990 (the date of enactment of the AML Reclamation Act of 1990), where the surety of the mining operator became insolvent,

and for which funds available are insufficient to provide for adequate reclamation or abatement at the site.

The Director finds Ohio's proposed revision to the eligibility criteria for emergency sites in its Reclamation Plan to be substantively identical and not inconsistent with the requirements of section 402(g)(4).

Concurrent with the revisions to their Reclamation Plan, Ohio has proposed to amend the ORC paragraph 1513.37(C)(1) to provide the authority for the increased eligibility criteria. Therefore, upon the approval of the proposed revisions to ORC 1513.37(C)(1) by the

Director, Ohio will have the authority to and may, therefore, apply the expanded eligibility criteria to AML emergency and priority (1) and (2) sites.

3. Small Operator Assistance Program

In response to a comment made by OSM in its issue letter dated May 29, 1992 (Administrative Record No. OH–1705), Ohio is proposing to amend Section 3 of its Reclamation Plan to substitute a 300,000 ton, 12 month coal production limit, under which a mine operator is eligible for participation in the Small Operator Assistance Program (SOAP), for the existing 100,000 ton limit. On June 6, 1991, OSM approved Ohio's revision to the Ohio Revised Code at 1513.07 paragraph (B)(4) and the Ohio Administrative Code at 1501:13–6–03 paragraphs (C)(1)(b),(I)(1)(d) and (I)(1)(e) which increased the SOAP eligibility limit to 300,000 tons (56 FR 26032). Therefore, the Director is approving the revision to the Reclamation Plan as it merely reflects the existing approved State program.

IV. Summary and Disposition of Comments

Public Comments

The public comment period and opportunity to request a public hearing announced in the April 13, 1992, **Federal Register** (57 FR 12782) ended on May 13, 1992. By letter dated March 19, 1992, the Ohio Historical Society provided comments on ORC Sections 1513.37 (C–L) contained in Ohio Program Amendment Number 54. On March 2, 1992, Ohio moved the proposed provisions at 1513.37(L) from Program Amendment Number 54 to this amendment package, and the comment pertaining to ORC 1513.37(L) will be discussed here.

The Ohio Historical Society expressed a desire that the Ohio Historical Preservation Officer be notified as soon as possible in emergency reclamation situation. The Director agrees with the commenter that sections 106 and 110 of the National Historic Preservation Act (NHPA) require Federal agencies with jurisdiction over federally assisted undertakings, to take into account, to the maximum extent possible, the effects of the agency's projects on properties included in or eligible for the National Register of Historic Places and, prior to approval of such undertakings, to afford the State Historic Preservation Officer a reasonable opportunity to comment on the undertaking. On July 23, 1992, the Ohio Division of Reclamation (OHDR), the State Historic Preservation Officer (SHPO) and OSM met to begin drafting a Memorandum of Agreement between the OHDR and the SHPO concerning compliance with the NHPA. The Director finds that the concerns of the Ohio Historic Society are being resolved through this process.

Agency Comments

Pursuant to section 503(b) of SMCRA and the implementing regulations at 30 CFR 732.17(h)(11)(i), comments were solicited from various Federal agencies with an actual or potential interest in the Ohio program. The U.S. Environmental Protection Agency; the U.S. Department of Agriculture, Soil Conservation Service; the U.S. Army Corps of Engineers; the U.S. Department of Labor, Mine Safety and Health Administration; and the U.S. Department of the Interior, Fish and Wildlife Service, responded without comment.

V. Director's Decision

Based on the above findings, the Director is approving the program amendment to the Ohio Abandoned Mine Land Reclamation Plan submitted by Ohio on February 19, 1992.

The Federal regulations at 30 CFR part 935 codifying decisions concerning the Ohio Program are being amended to implement this decision.

EPA Concurrence

Under 30 CFR 732.17(h)(11)(ii), the Director is required to obtain the written concurrence of the Administrator of the Environmental Protection Agency (EPA) with respect to any provisions of a state program amendment which relate to air or water quality standards promulgated under the authority of the Clean Water Act (33 U.S.C. 1251 *et seq.*) or the Clean Air Act (42 U.S.C. 7401 *et seq.*). The Director has determined that this amendment contains no such provisions and that EPA concurrence is therefore unnecessary.

VI. Procedural Determinations

Executive Order 12291

On March 30, 1992, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions related to approval or disapproval of State and Tribal abandoned mine land reclamation plans and revisions thereof. Therefore, preparation of a regulatory impact analysis is not necessary and OMB regulatory review is not required.

Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State and Tribal abandoned mine land reclamation plans and revisions thereof since each such plan is drafted and adopted by a specific State or Tribe, not by OSM. Decisions on proposed State and Tribal abandoned mine land reclamation plans and revisions thereof submitted by a State or Tribe are based on a determination of whether the submittal meets the requirements of Title IV of SMCRA (30 U.S.C. 1231–1243) and the Federal regulations at 30 CFR part 884.

National Environmental Policy Act

No environmental impact statement is required for this rule since agency decisions on proposed State and Tribal abandoned mine land reclamation plans and revisions thereof are categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department of the Interior (516 DM 6, appendix 8, paragraph 8.4B(29)).

Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 *et seq.*

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State (or Tribal) submittal which is the subject of this rule is based upon Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Hence, this rule will ensure that existing requirements established by SMCRA or previously promulgated by OSM will be implemented by the State [or Tribe]. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions in the analyses for the corresponding Federal regulations.

List of Subjects in 30 CFR Part 935

Abandoned mine land reclamation plans, Intergovernmental relations, Surface mining, Underground mining.

Dated: September 1, 1992.

W. Hord Tipton,

Deputy Director, Operations and Technical Services.

For the reasons set out in the preamble, title 30, chapter VII, subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 935—OHIO

1. The authority citation for part 935 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. In § 935.25 a new paragraph (e) is added to read as follows:

§ 935.25 Approval of Abandoned Mine Land Reclamation (AMLR) plan amendments.

* * * * *

(e) The AMLR amendment as originally submitted on February 19, 1992, is approved.

BILLING CODE 4310-05-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[CGD1 92-117]

Safety Zone; South Street Seaport Columbus Day Fireworks, Lower East River, New York

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard plans to establish a temporary safety zone for a fireworks display within all waters of the Lower East River south of the Brooklyn Bridge and north of a line drawn between slip 7 Manhattan and pier 5 Brooklyn. The fireworks display will take place on Monday, October 12, 1992 from 8 p.m. to 10 p.m. with a rain date of October 13. Temporary closure of the waters surrounding the launching barges is needed to protect the boating public from the safety hazards associated with a pyrotechnic fireworks display in these waters.

EFFECTIVE DATES: This regulation will be effective from 8 p.m. through 10 p.m. on October 12, 1992. (Rain date of October 13, 1992).

FOR FURTHER INFORMATION CONTACT: Lieutenant (junior grade) J.E. Peschel, Waterways Management Officer, Coast Guard Group, New York (212) 668-7933.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this notice are LTJG J.E. Peschel, Captain of the Port, New York and LCDR J. Stieb, Project Attorney, First Coast Guard District, Legal Office.

Regulatory History

Pursuant to 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to public interest since the event takes place on a public holiday where immediate action is needed to respond to any potential hazards and sufficiently protect the boating public. Due to the date that this application was received, there was not sufficient time to publish proposed rules in advance of the event or to provide for a delayed effective date.

Background and Purpose

The circumstances requiring this regulation result from the desire to protect the maritime public from possible dangers and hazards from falling debris or unexploded pyrotechnics associated with a pyrotechnic fireworks display in the waters of the Lower East River. The safety zone will surround a barge based program directed over the waters of the Lower East River. This two hour zone allows time for Coast Guard personnel to clear vessels from the area both before and during the display, and ensure all pyrotechnics have been extinguished prior to reopening the area to maritime traffic. No vessel will be permitted to enter or move within the safety zone unless permitted to do so by Captain of the Port, New York.

Regulatory Evaluation

This regulation is not major under Executive Order 12291 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979). Due to the limited duration of the display within this two hour window, the extensive advisories made to the affected maritime community, and the fact that the event is taking place at night on a holiday weekend which typically experiences minimal commercial marine traffic, the impact of this regulation is expected to be minimal. The Coast Guard expects the economic impact of this regulation to be so minimal that a Regulatory Evaluation is unnecessary.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), the Coast Guard must consider whether this regulation will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

For reasons set forth in the above Regulatory Evaluation, the Coast Guard certifies under 5 U.S.C. 605(b) this regulation will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This regulation contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501).

Federalism

The Coast Guard has analyzed this action in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this regulation does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this regulation and concluded that under section 2.B.2.c. of Commandant Instruction M16475.1B, it is an action under the Coast Guard's statutory authority to protect public safety, and thus is categorically excluded from further environmental documentation.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For reasons set out in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5; 49 CFR 1.46.

2. A temporary section, 165.T01-117 is added to read as follows:

§ 165.T01-117 South Street Seaport Columbus Day fireworks, Lower East River, New York.

(a) *Location.* The safety zone will include all waters bank to bank of the Lower East River south of the Brooklyn Bridge and north of a line drawn from Slip 7, Manhattan to Pier 5, Brooklyn.

(b) *Effective period.* This regulation will be effective from 8 p.m. through 10 p.m. on October 12, 1992. (Rain date of October 13, 1992).

(c) *Regulations.*

(1) No person or vessel may enter, transit, or remain in the safety zone during the effective period of regulation unless participating in the event as authorized by the U.S. Coast Guard Captain of the Port (COTP), New York. The COTP will attempt to minimize any delays for commercial vessels transiting the area and will monitor channel 16 VHF-FM.

(2) All persons and vessels shall comply with the instructions of the COTP NY or the designated on scene personnel. U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard. Upon hearing five or more blasts from a U.S. Coast Guard vessel, the operator of a vessel shall stop immediately and proceed as directed.

Dated: September 11, 1992.

R.M. Larrabee,

Captain, U.S. Coast Guard, Captain of the Port, New York.

[FR Doc. 92-23217 Filed 9-23-92; 8:45 am]

BILLING CODE 4910-14-M

---

33 CFR Part 165

[CGD1 92-102]

Safety Zone; AAPRCO Convention Fireworks, Upper Bay, New York, New Jersey

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard plans to establish a temporary safety zone for a fireworks display sponsored by AAPRCO. The event, will take place on Saturday, October 10, 1992. Temporary closure of a portion of Federal Anchorage 20C in the vicinity of Liberty Island is needed to protect the boating public from the hazards associated with a pyrotechnic fireworks display in confined waters.

EFFECTIVE DATES: This regulation will be effective from 9 p.m. through 10:30 p.m. on October 10, 1992.

FOR FURTHER INFORMATION CONTACT: Lieutenant (junior grade) J.E. Peschel, Waterways Management Officer, Coast Guard Group New York (212) 668-7933.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of this notice are LTJG J.E. Peschel, Captain of the Port, New York and LCDR J. Steib, Project Attorney, First Coast Guard District, Legal Office.

Regulatory History

Pursuant to 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after **Federal Register** publication. Publishing an NPRM and delaying its effective date would be contrary to public interest since immediate action is needed to respond to any potential hazards. Due to the date that this application was received, there was not sufficient time to publish proposed rules in advance of the event or to provide for a delayed effective date.

Background and Purpose

The circumstances requiring this safety zone result from the desire to protect the maritime public from possible dangers and hazards from falling debris or unexploded pyrotechnics associated with a fireworks display in the waters of Upper Bay NY/NJ. The safety zone will surround a tug and barge anchored in Federal Anchorage 20C in the vicinity of Liberty Island. The zone will be in effect for 1½ hours, allowing time for Coast Guard personnel to clear vessels from the area both before and during the display, and ensure all pyrotechnics have been extinguished prior to reopening the area to maritime traffic. No vessel will be permitted to enter or move within this safety zone unless permitted to do so by the Captain of the Port, New York (COTP NY).

Regulatory Evaluation

This safety zone is not major under Executive Order 12291 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979). The entire safety zone lies within federal anchorage 20C, and thus should not affect any shipping channel nor hinder commercial traffic transiting that area. Due to the limited duration of the display, the extensive advisories that will be made to the affected maritime community, and the fact that the event is taking place on a Saturday night, which normally experiences only a light volume of commercial marine traffic, the impact of this regulation is expected to be minimal. The Coast Guard expects the economic impact of this regulation to be so minimal that a Regulatory Evaluation is unnecessary.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), the Coast Guard must consider whether this regulation will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

For reasons set forth in the above Regulatory Evaluation, the Coast Guard certifies under 5 U.S.C. 605(b) that this regulation will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This regulation contains no collection of information requirements under the Paperwork Reduction Act (44 U.S C. 3501).

Federalism

The Coast Guard has analyzed this action in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this regulation does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard considered the environmental impact of this regulation and concluded that under section 2.B.2.c. of Commandant Instruction M16475.1B, it is an action under the Coast Guard's statutory authority to protect public safety, and thus is categorically excluded from further environmental documentation.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For reasons set out in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5, 49 CFR 1.46.

2. A temporary section, 165.T01-114 is added to read as follows:

§ 165.T01-114 APPRCO convention fireworks, Upper Bay, New York, New Jersey.

(a) *Location.* The safety zone will include all waters within a 300 yard radius of the fireworks barge anchored in position at 40°41'17" N latitude 074°02'26" W longitude of Federal Anchorage 20C in the vicinity of Liberty Island in NY Harbor.

(b) *Regulations.*

(1) No person or vessel may enter, transit, or remain in the safety zone during the effective period of regulation unless participating in the event as authorized by the U.S. Coast Guard Captain of the Port NY (COTP NY). The COTP NY will attempt to minimize any delays for commercial vessels transiting the area and will monitor channel 16 VHF-FM.

(2) All persons and vessels shall comply with the instructions of the COTP or the designated on scene personnel. U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard. Upon hearing five or more blasts from a U.S. Coast Guard vessel, the operator of a vessel shall stop immediately and proceed as directed.

(c) *Effective period.* This regulation will be effective from 9 p.m. through 10:30 p.m. on October 10, 1992.

Dated: September 11, 1992.

R.M. Larrabee,

Captain, U.S. Coast Guard, Captain of the Port, New York.

[FR Doc. 92-23219 Filed 9-23-92; 8:45 am]

BILLING CODE 4910-14-M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 1

RIN 2900-AE13

Group Memorial Monuments

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: The Department of Veterans Affairs (VA) is amending its regulations to provide group memorial monuments. VA currently provides memorial headstones and markers for individual deceased veterans and eligible dependents, but not for groups of two or more individuals whose remains have not been recovered or identified. The effect of this amendment is to provide memorial monuments for such groups when members of the group have perished in a common military event, if requested by next of kin. Documentary evidence must be forwarded from the respective branch of service (Departments of Air Force, Army, and Navy, the Coast Guard, and the Marine Corps) historical center to support the request for group memorial monuments.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Mr. George Vogel, Director, Program Analysis and Planning Service (403C), Office of Memorial Programs, National Cemetery System, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 275-1206.

SUPPLEMENTARY INFORMATION: On pages 1440 through 1442 of the **Federal Register** of January 14, 1992, there was published a notice of intent to amend 38 CFR part 1 to provide for group memorial monuments in national cemeteries.

Interested people were given 30 days in which to submit comments. The Department of Veterans Affairs received one comment. The writer suggested that the proposal be changed so VA would honor a request for a group memorial monument made by the respective military service historical center rather than by the next of kin. The writer is concerned that for events occurring in the early years of our Nation's history next of kin may not exist.

We believe that the definition of next of kin for group memorial monuments to include lineal descendants is sufficient (see § 1.633(a)(3)). While the request must come from a next of kin, only one next of kin need make the request. By their nature, group events include two or more people and we believe that a next of kin under our definition will, in all likelihood, exist.

The writer also suggests that by use of the term "non-recoverable and non-identified" the concept of a next of kin is precluded. The group memorial monument is to memorialize specific persons. While the remains of those who lost their lives in a common event may not be recovered or identified, the military services historical centers will have the names of those who took part in the common event.

VA appreciates the comments offered, and is publishing the regulations as final. Between the date of publication of the proposed rule and this final rule, VA has begun to use the term "headstone or marker" when referring to individual memorials and the term "monuments" when referring to group memorials.

Executive Order 12291

This final rule is considered nonmajor under the criteria of Executive Order 12291, Federal Regulation. It will not have an annual effect on the economy of $100 million or more; will not result in major increases in costs for consumers, individual industries, Federal, State or local government agencies, or geographic regions; will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The Secretary certifies that this final rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612. The final rule will concern only a small group of veterans who will be honored by the placement of group memorial monuments in selected national cemeteries. This regulation imposes no regulatory, administrative, or paperwork burdens on any type of small entity.

Catalog of Federal Domestic Assistance Number for programs affected by this regulation are 64.200, 64.201 and 64.202.

List of Subjects in 38 CFR Part 1

Administrative practice and procedures, Cemeteries, Claims, Privacy, Security measures.

Approved: August 21, 1992.

Edward J. Derwinski,

Secretary of Veterans Affairs.

For the reasons set out in the preamble, 38 CFR part 1, General, is amended as follows:

PART 1—GENERAL PROVISIONS

1. The authority citation for chapter 1, §§ 1.600 to 1.632 continues to read as follows:

Authority: 38 U.S.C. 501, unless otherwise noted.

2. In § 1.630, paragraph (c) is revised and an authority citation is added to read as follows:

§ 1.630 Headstones and markers.

* * * * *

"(c) A memorial headstone or marker furnished for a deceased veteran by the Government may be erected in a private cemetery or in a national cemetery section established for this purpose. The headstones or markers for national cemeteries will be of the standard design authorized for the cemetery in which they are to be erected. In addition to the authorized inscription, the words "In Memory Of" are mandatory.

(Authority: 38 U.S.C. 501)

3. In § 1.631, an authority citation is added at the end of the section to read as follows:

§ 1.631 Eligibility for headstone or marker.

* * * * *

(Authority: 38 U.S.C. 2306)

4. Section 1.633 and its authority citation are added to read as follows:

§ 1.633 Group memorial monuments.

(a) *Definitions of terms.* For the purpose of this section, the following definitions apply:

(1) Group—all the known and unknown dead who perished in a common military event.

(2) Memorial Monument—a monument commemorating veterans, whose remains have not been recovered or identified. Monuments will be selected in accordance with policies established under 38 CFR 1.630.

(3) Next of kin—recognized in order: Surviving spouse; children, according to age; parents, including adoptive, stepparents, and foster parents; brothers or sisters, including half or stepbrothers and stepsisters; grandparents; grandchildren; uncles or aunts; nephews or nieces; cousins; and/or other lineal descendent.

(4) Documentary evidence—Official documents, records, or correspondence signed by an Armed Services branch historical center representative attesting to the accuracy of the evidence.

(b) The Secretary may furnish at government expense a group memorial monument upon request of next of kin. The group memorial monument will commemorate two or more identified members of the Armed Forces, including their reserve components, who died in a sanctioned common military event, (e.g., battle or other hostile action, bombing or other explosion, disappearance of aircraft, vessel or other vehicle) while in active military, naval or air service, and whose remains were not recovered or identified, were buried at sea, or are otherwise unavailable for interment.

(c) A group memorial monument furnished by VA may be placed only in a national cemetery in an area reserved for such purpose. If a group memorial monument has already been provided under this regulation or by any governmental body, e.g., the American Battle Monuments Commission, to commemorate the dead from a common military event, an additional group memorial monument will not be provided by VA for the same purpose.

(d) Application for a group memorial monument shall be submitted in a manner specified by the Secretary. Evidence used to establish and determine eligibility for a group memorial monument will conform to paragraph (a)(4) of this section.

(Authority: 38 U.S.C. 501, 2403)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[TX-11-1-5532; FRL-4506-9]

Approval and Promulgation of Air Quality Implementation Plans; Texas; Revisions to Volatile Organic Compound Reasonably Available Control Technology Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: Today's notice approves revisions to the Texas State Implementation Plan (SIP) as submitted by the Governor on the following days: March 5, 1990; July 16, 1990; May 10, 1991; and September 30, 1991. These revisions consist of changes to the Texas Air Control Board (TACB), Regulation V (31 TAC Chapter 115), "Control of Air Pollutants from Volatile Organic Compounds". This rulemaking is necessary because EPA found that the Texas SIP was substantially inadequate to achieve compliance with the National Ambient Air Quality Standard (NAAQS) for ozone in the following eight counties: Brazoria, Dallas, El Paso, Galveston, Harris, Jefferson, Orange, and Tarrant. On May 26, 1988, EPA advised the State of Texas that its ozone SIP was inadequate and that certain regulations identifying reasonably available control technology (RACT) for volatile organic compounds (VOC) were deficient (SIP call). EPA notified the State that it must correct those deficiencies as part of its effort to develop an adequate SIP. On November 15, 1990, the Clean Air Act was amended to require correction of the deficiencies as identified by EPA (section 182(a)(2)(A)). The intended effect of this action is to approve the revised VOC RACT rules for the Texas SIP as it applies to the above counties because these rules are consistent with the requirements of the SIP call and section 182(a)(2)(A) of the amended Act. This action is being taken under section 110 and Part D of the Clean Air Act.

EFFECTIVE DATE: This rule will become effective on October 26, 1992.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the following locations:

U.S. Environmental Protection Agency, Region 6 (6T-AP), 1445 Ross Avenue, Dallas, Texas 75202-2733.

Texas Air Control Board, 12124 Park 35 Circle, Austin, Texas 78753.

Public Information Reference Unit, Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Robin M. Moran, EPA Region 6, Air Programs Branch, telephone (214) 655-7254.

SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** on November 24, 1987, EPA's Proposed Post-1987 Policy for Ozone and Carbon Monoxide stated that air quality monitors revealed continued exceedances of the ozone standard in certain Texas areas and that a "SIP call" would be issued (See 52 FR 45044). A SIP call is a finding by EPA that the SIP does not provide for attainment by the required date.[1] On May 26, 1988, EPA sent a letter to William P. Clements, Jr., Governor of Texas, pursuant to section 110(a)(2)(H) of the pre-amended Clean Air Act, notifying the State that the Texas SIP was substantially inadequate to achieve the National Ambient Air Quality Standard (NAAQS) for ozone in certain areas of the State. EPA requested the State to respond to the SIP call in two phases. Pursuant to the first phase, the State was to: (1) Correct identified deficiencies in the existing SIP's VOC regulations; (2) adopt VOC regulations previously required or committed to but never adopted; and (3) update the areas' base year emissions inventory. These requirements were clarified in a June 9, 1988, letter from William B. Hathaway, Director of the EPA Region 6 Air, Pesticides and Toxics Division, to Allen Eli Bell, Executive Director of the Texas Air Control Board (TACB).

On November 15, 1990, the Clean Air Act Amendments of 1990 were enacted Public Law 101-549, 104 Stat. 2399, codified at 42 U.S.C. 7401-7671q. Under the amended Act, those areas that were designated nonattainment before enactment of the Amendments, and which retained that designation and were classified as marginal or above as

[1] Under the pre-amended Act, section 110(a)(2)(H) provided for a finding by the Administrator that a "plan is substantially inadequate to achieve the [NAAQS]." This provision was carried forth under the amended Act. In addition, section 110(k)(5) of the amended Act reinforces the Agency's authority to make such a finding.

of enactment, were required to meet the section 182(a)(2)(A) RACT fix-up requirement by May 15, 1991.[2] Under section 182(a)(2)(A), those areas were required to correct RACT as it was required under pre-amended section 172(b) as that requirement was interpreted in pre-amendment guidance.[3] As part of the SIP call, EPA identified deficiencies in the existing VOC RACT regulations and indicated corrections necessary for specific nonattainment areas. In response to the Post-1987 SIP call requirement to correct VOC RACT rule deficiencies, the Governor submitted revisions to TACB Regulation V on the following dates: March 5, 1990; July 16, 1990; May 10, 1991; and September 30, 1991.

The TACB adopted revisions to the VOC RACT rules in a series of actions. On March 29, 1988, the Governor of Texas submitted revisions to TACB Regulation V intending to satisfy a commitment in the 1982 Harris County SIP to adopt Set III CTGs, as published by EPA.[4] However, EPA is not taking action on the March 29, 1988, submittal because the revisions contained therein have been substantially revised and recodified in subsequent submittals that revised Regulation V for the following eight counties: Brazoria, Dallas, El Paso, Galveston, Harris, Jefferson, Orange, and Tarrant.

In a letter dated March 5, 1990, the Governor of Texas noted the repeal of TACB Regulation V (31 TAC Chapter 115) as it existed and submitted for incorporation into the SIP the new Regulation V, adopted by TACB on December 8, 1989.[5] The second submittal, dated July 16, 1990, contained subsequent revisions to Regulation V as adopted June 22, 1990. All but one portion of the July 16, 1990, submittal was already approved by EPA on October 12, 1990 (55 FR 41523).[6] The third submittal, dated May 10, 1991, contained corrections to Regulation V as adopted on that day. The fourth submittal, dated September 30, 1991, contained revisions to TACB Regulation V, which the State adopted on September 20, 1991, including capture efficiency test methods.

On April 14, 1992 (57 FR 12903), EPA published a notice of proposed rulemaking in the **Federal Register** to approve the above rules into the Texas State Implementation Plan because they corrected the specified deficiencies identified under the SIP call and satisfied the requirements of section 182(a)(2)(A) of the Clean Air Act. For a complete discussion of EPA's evaluation of the submitted rules, the reader is directed to the **Federal Register** notice referenced above. It should be noted that the notice of proposed rulemaking incorrectly listed the fourth Governor's submittal date as September 10, 1991; the correct submittal date is September 30, 1991. EPA provided a 30-day comment period on the notice of proposed rulemaking. No adverse public comments were received.

ACTION: EPA approves revisions to the Texas State Implementation Plan as submitted by the Governor on March 5, 1990, July 16, 1990, May 10, 1991 and September 30, 1991. These revisions to the VOC RACT rules satisfy the requirements of the May 26, 1988, SIP call and the RACT fix-up requirements of section 182(a)(2)(A) of the amended Act. The recodification meets the requirements of section 110 and part D of the Clean Air Act, as amended.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

SIP approvals under section 110 and subchapter I, part D of the CAA do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the federal SIP-approval does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the federal-state relationship under the Clean Air Act, preparation of a regulatory flexibility analysis would constitute federal inquiry into the economic reasonableness of the state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co.* v. *U.S. E.P.A.*, 427 U.S. 246, 256–66 (S. Ct. 1976); 42 U.S.C. § 7410(a)(2).

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any State Implementation Plan. Each request for revision to the State Implementation Plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Today's action makes final the action proposed on April 14, 1992, at 57 FR 12903. As noted elsewhere in this notice, EPA received no adverse public comment on the proposed action. As a direct result, the Regional Administrator has reclassified this action from Table 1 to Table 2 under the processing procedures established at 54 FR 2214, January 19, 1989.

This action has been classified as a Table 2 action by the Regional Administrator under the procedures established in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). On January 6, 1989, the Office of Management and Budget waived Table 2 and 3 SIP revisions from the requirements of Section 3 of Executive Order 12291 for a period of two years (54 FR 2222). EPA has submitted a request for a permanent waiver for Table 2 and Table 3 SIP revisions. OMB has agreed to continue the temporary waiver until such time as it rules on EPA's request.

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 23, 1992. Filing a petition for reconsideration of this final rule by the Administrator does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to

---

[2] The classification of areas in Texas is as follows: Dallas-Fort Worth area—moderate; Beaumont-Port Arthur area—serious; El Paso area—serious; Houston-Galveston-Brazoria area—severe.

[3] Among other things, the pre-amendment guidance consists of those portions of the Post-1987 ozone and carbon monoxide policy that concern RACT, 52 FR 45044 (November 24, 1987); the Bluebook, "Issues Relating to VOC Regulation Cutpoints, Deficiencies and Deviations, Clarification to Appendix D of November 24, 1987 **Federal Register** Notice" (for which notice of availability was published in the **Federal Register** on May 25, 1988); and the existing CTGs.

[4] See August 3, 1984, **Federal Register** notice (49 FR 31066).

[5] EPA has already taken action on a portion of the March 5, 1990, submittal. That portion, Subchapter C: Volatile Organic Compound Marketing Operations, Control of Reid Vapor Pressure of Gasoline, was approved on August 3, 1990 (55 FR 31584).

[6] The July 16, 1990, submittal included revisions to Regulation V, Subchapter E: Solvent Using Processes, Surface Coating Processes, section 115.421, 115.425, and 115.429. For additional information see the October 12, 1990, **Federal Register** (55 FR 41523).

enforce its requirements (see section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Air pollution control, Hydrocarbons, Incorporation by reference, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: September 9, 1992.

Joe D. Winkle,

Acting Regional Administrator.

40 CFR part 52 is amended as follows:

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q.

PART 52—[AMENDED]

Subpart SS—Texas

2. Section 52.2270 is amended by adding paragraph (c)(77) to read as follows:

§ 52.2270 Identification of plan.

* * * * *

(c) * * *

(77) Revisions to Texas Air Control Board Regulation V (31 TAC Chapter 115), Control of Air Pollution from Volatile Organic Compounds, were submitted by the Governor on March 5, 1990, July 16, 1990, May 10, 1991, and September 30, 1991.

(i) Incorporation by reference.

(A) Revisions to Texas Air Control Board Regulation V (31 TAC Chapter 115), Control of Air Pollution from Volatile Organic Compounds, as adopted by the Texas Air Control Board on December 8, 1989.

(B) Revisions to Texas Air Control Board Regulation V (31 TAC Chapter 115), Control of Air Pollution from Volatile Organic Compounds, as adopted by the Texas Air Control Board on June 22, 1990: 115.425(1)(D) and 115.425(1)(E).

(C) Revisions to Texas Air Control Board Regulation V (31 TAC Chapter 115), Control of Air Pollution from Volatile Organic Compounds, as adopted by the Texas Air Control Board on May 10, 1991: 115.010—Definitions for coating, coating line, leak, pounds of volatile organic compounds (VOC) per gallon of coating (minus water and exempt solvents), pounds of volatile organic compounds (VOC) per gallon of solids, printing line, volatile organic compound (VOC), 115.112(c), 115.114 introductory paragraph, 115.114(3), 115.116(1), 115.116(3)(B) through 115.116(3)(D), 115.119(a)(1), 115.119(a)(2), 115.122(a)(3), 115.126(1)(B) through 115.126(1)(E), 115.129(a)(1), 115.129(a)(2), 115.132(a)(4), 115.136, 115.139(a)(1), 115.139(a)(2), 115.212(a)(4), 115.212(a)(5), 115.212(a)(6), 115.215(5), 115.216(2)(B) through 115.216(2)(D), 115.219(a)(1) through 115.219(a)(3), 115.222(7) through 115.222(9), 115.229(1), 115.229(2), 115.239, 115.315(2), 115.316(1)(A) through 115.316(1)(D), the repeal of 115.317, 115.319(1), 115.319(2), 115.322(4), 115.324(1)(A), 115.324(1)(B), 115.324(2)(A) through 115.324(2)(E), 115.325(2), 115.327(1) through 115.327(5), 115.329 introductory paragraph, 115.329(1), 115.329(2) 115.332 introductory paragraph, 115.332(4), 115.334(1)(D), 115.334(1)(E), 115.334(2), 115.335 introductory paragraph, 115.335(2), 115.336 introductory paragraph, 115.337(1) through 115.337(5), 115.339, 115.342(4), 115.344(1)(D), 115.344(1)(E), 115.344(2), 115.345(2), 115.347(1) through 115.347(6), 115.349, 115.417(3) through 115.417(6), 115.419(1) through 115.419(3), 115.421 introductory paragraph, 115.421(1) through 115.421(8)(B) introductory paragraph, 115.421(8)(C) through 115.421(9)(A)(v), 115.421(9)(C), 115.422 introductory paragraph, 115.422(1), 115.422(1)(A) through 115.422(1)(C), 115.422(2), 115.423(2) through 115.423(4), 115.424 introductory paragraph, 115.424(1) through 115.424(3), 115.425(2), 115.425(3)(B)(i), 115.425(3)(B)(iii), 115.426 introductory paragraph, 115.426(2), 115.426(2)(A)(ii) through 115.426(2)(A)(iv), 115.426(3), 115.427(6), 115.427(6)(A), 115.427(6)(B), 115.427(7), 115.429(1), 115.429(2)(A), 115.429(2)(B), 115.432 introductory paragraph, 115.432(1), 115.432(1)(A) through 115.432(1)(C)(iii), 115.432(2), 115.432(3), 115.435(5) through 115.435(7), 115.436(3)(B) through 115.436(3)(D), 115.437(1), 115.437(2), 115.439(1), 115.439(2), 115.512(3), 115.519, 115.532(5), 115.536(2)(A)(ii) through 115.536(2)(A)(iv), 115.537(5), 115.537(6), 115.539(1), 115.539(2).

(D) Revisions to Texas Air Control Board Regulation V (31 TAC Chapter 115), Control of Air Pollution from Volatile Organic Compounds, as adopted by the Texas Air Control Board on September 20, 1991: 115.010—Definitions for capture efficiency, capture system, carbon adsorber, carbon adsorption system, control device and control system, 115.126(1), 115.129(a)(3), 115.136, 115.139(a)(2), 115.224(2), 115.229(2), 115.422(2), 115.423(3), 115.425(4) through 115.425(4)(C)(iii), 115.426(3), 115.426(4), 115.429(2)(C), 115.435 introductory paragraph, 115.435(7) through 115.435(7)(C)(iii), 115.435(8), 115.436(6), 115.439(2).

BILLING CODE 6560–50–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

46 CFR Part 67

[CGD 89–007b]

RIN 2115–AD60

Documentation of Vessels; Recording of Instruments; Citizenship Declarations

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is issuing this final rule to amend its regulations requiring the filing of a Declaration of Citizenship (MA–899) in connection with the filing and recording of certain instruments affecting the title to documented vessels. The purpose of this change is to conform Coast Guard regulations to those of the Maritime Administration, to reduce uncertainty as to the validity of those instruments, and to reduce the paperwork burden upon the public.

DATES: This final rule is effective September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas L. Willis, Chief, Vessel Documentation and Tonnage Survey Branch, Merchant Vessel Inspection and Documentation Division, Office of Marine Safety, Security and Environmental Protection, (202) 267–1492.

Normal office hours are between 7 a.m. and 3:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

A notice of proposed rulemaking was published March 26, 1992 [57 FR 15044], with a 90 day comment period that closed June 24, 1992. That notice included, among other things, a proposal to amend the specific regulation which is the subject of this final rule. This rulemaking conforms the Coast Guard's rules concerning the submission of Declarations of Citizenship (MA–899) to the final rule published by the Maritime Administration on June 3, 1992 (57 FR 23470). Because this final rule conforms otherwise conflicting procedure between two federal agencies, and relieves the public of a significant paperwork burden, the Coast Guard has determined that good cause exists under 5 U.S.C. 553(d), for making this rulemaking effective in less than 30 days after publication.

Drafting Information

The principal authors of this regulation are Thomas L. Willis, Project Manager, and Lieutenant Commander

Don M. Wrye, Project Counsel, Office of Chief Counsel.

Background

On November 28, 1988, Congress enacted Public Law 100–710 (the "Codification Act") which, among other things, amended and codified the Ship Mortgage Act, 1920 into 46 U.S.C. chapter 313 and amended the Shipping Act, 1916 (46 app. U.S.C. 808). The Codification Act was the subject of technical corrections ("Corrections") when Congress enacted Public Law 101–225. Both the Codification Act and the Corrections introduced significant changes which are at variance with the former law and with existing Coast Guard regulations.

Most of the provisions of the Codification Act which require changes to the Coast Guard's regulations became effective on January 1, 1989. Certain of the changes were unequivocal and were implemented by an interim final rule published October 12, 1989 (54 FR 41835). The interim final rule was adopted as final in a rulemaking published January 10, 1991 (56 FR 960).

Other statutory revisions, some of which became effective on January 1, 1989, and others which became effective on January 1, 1990, require a more considered approach, including the opportunity for public comment. These latter changes were the subject of a notice of proposed rulemaking published March 26, 1992 (57 FR 10544).

In addition to requiring changes in the Coast Guard's regulations, the Codification Act also required changes in rules administered by the Maritime Administration affecting the transfer of documented vessels. Those rule, which are set forth in 46 CFR part 221 were the subject of an interim final rule published on February 2, 1989 (54 FR 5382, amended at 54 FR 8195). In addition, the Maritime Administration published a notice of proposed rulemaking on April 13, 1990 (55 FR 14040), and a second interim final rule on July 3, 1991 (56 FR 30656). Following a comment period, the Maritime Administration published a final rule on June 3, 1992 (57 FR 23470). That rule is at variance with current Coast Guard requirements with regard to the requirement to file Declarations of Citizenship with certain instruments affecting the title of documented vessels.

The purposes of this final rule are to conform the Coast Guard's regulations to those of the Maritime Administration, to reduce uncertainty regarding the validity of certain instruments, and to allow the Coast Guard to immediately eliminate a needless paperwork burden on the public estimated at 19,600 hours per year.

The changes implemented by this rulemaking parallel changes proposed by the Coast Guard in its notice of proposed rulemaking published March 26, 1992 (57 FR 10544). Many of the changes proposed in that notice were the subject of comments which must be considered before a final rule may be issued.

Discussion of Comments

Four comments were received concerning the proposal to significantly reduce the requirement for filing of citizenship declarations. All were from commercial services which file applications for documentation related services on behalf of vessel owners. Three absolutely opposed the lessened requirement for submitting declarations of citizenship. One stated that when evidence of citizenship cannot be presented the vessel should be registered under a state system which is "better equipped to handle such vessels." Another noted that while the Coast Guard might "prefer not having to keep declarations of citizenship on file * * * [that] most services will continue to obtain them * * * in the event [that] a [c]oastwise or Great Lakes endorsement was (sic) to be obtained." The third objection stated that the lack of the requirement for a form "proving citizenship might open up opportunities for fraudulent applications to be made by [non-citizens]."

The only other comment on this section supported elimination of the requirement for a formal declaration of citizenship, but noted that as long as the Jones Act is in effect, evidence of citizenship for all persons in the chain of title should be collected.

The Coast Guard disagrees with all four comments. The sole statutory basis for requiring the filing of a declaration of citizenship is to demonstrate that there has been no violation of section 9 of the Shipping Act, 1916 (46 U.S.C. app. 808), which requires approval of the Maritime Administrator for certain vessel transfers. Where approval is not required by statute, or has been granted by regulation, there is no statutory basis to require such filings.

The only other purpose which might be remotely served by the filing of a declaration of citizenship would be to demonstrate coastwise eligibility of the vessel in those cases where some person who has not applied for documentation has owned the vessel. Although some evidence that such persons were U.S. citizens at the time of vessel ownership would be required in the event that application was made for a coastwise endorsement, declarations of citizenship are not the sole means for making that determination. Moreover, there is simply no justification for routinely requiring such filings on the premise that there is a possibility that some future vessel owner might decide to apply for a coastwise endorsement, especially where failure to make such filings has the potential to invalidate a bill of sale, mortgage, or other instrument of conveyance of a documented vessel.

The suggestion that filing a declaration of citizenship *proves* that an applicant for documentation is a citizen is fallacious. All applicants for documentation must provide citizenship data on form CG–1258. There is no reason to believe that anyone who falsifies one form would not also file a false declaration of citizenship.

In the interest of avoiding needless delay, this final rule amends 47 CFR 67.29–11 of the Coast Guard's current regulations. When the Coast Guard has completed its analysis of comments and promulgated a complete final rule implementing the revision of 46 CFR part 67, it is anticipated that the section will be renumbered in accordance with the numbering scheme proposed in the notice of proposed rulemaking.

Discussion of the Regulation

Section 67.29–11 is amended to provide that it is not necessary to file a citizenship declaration for transactions involving a vessel operated solely as a fishing, fish processing, or fish tender vessel, or as a recreational vessel, or both. The filing requirement is waived for all transactions for which the Maritime Administration has given general approval in 46 CFR part 221. A new paragraph (e) in § 67.29–11 requires that when an instrument which effects a transfer of interest in a documented vessel requiring written approval of the Maritime Administrator is presented for filing; evidence of that written approval must also be presented. The requirement to present such evidence is not new and merely codifies existing practice.

In addition to eliminating needless paperwork, this amendment to 46 CFR 67.29–11 is required to eliminate an uncertainty which may arise with regard to the validity of an instrument transferring title to a documented vessel. Paragraph (c) of 46 U.S.C. 31306 states that, "*Except as provided by the Secretary,* an instrument transferring an interest in a vessel is not valid against any person until the declaration [of citizenship] required by this section has been filed." (emphasis added) Both the Coast Guard and the Maritime Administration are agencies of the Department of Transportation to which the Secretary has delegated certain

responsibilities having to do with documented vessels. The effect of the words "Except as provided by the Secretary" is ambiguous at best if each agency has a different requirement for filing of citizenship declarations. An instrument for which no citizenship declaration is filed might be deemed valid under the new Maritime Administration rule, but deemed not to be valid under the Coast Guard's current regulations. If, for example two mortgages were filed on successive days, and only the second was accompanied by a citizenship declaration, it might be argued that under the Coast Guard's regulation, only the second mortgage was actually valid; on the other hand, if the rules of the Maritime Administration are followed, both mortgages are valid, and the second mortgage would normally be subsidiary to the first. Such uncertainty obviously poses potential problems for persons seeking to finance vessels and invites litigation.

Regulatory Evaluation

This rulemaking has been determined not to be a major rule under Executive Order 12291, but it is significant under the DOT regulatory policies and procedures (44 FR 11034; February 26, 1979). The Coast Guard expects the costs of this rulemaking to be minimal since it is procedural and administrative in nature and eliminates a paperwork burden on the public.

Small Entities

In accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard has considered whether this rulemaking will have a significant economic impact on a substantial number of small entities. "Small entities" include independently owned and operated small businesses that are not dominant in their field and otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632).

Although the rulemaking will apply to a substantial number of small entities, the rule is procedural and administrative in nature. By eliminating certain recordkeeping and reporting requirements this rulemaking reduces the requirements imposed on the affected small entities. Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this rulemaking will not have a substantial economic impact on a number of small entities.

Collection of Information

This rulemaking contains information collection requirements that were approved by the Office of Management and Budget (OMB) (Approval NO. 2133–0006), in the course of the Maritime Administration's rulemaking to revise 46 CFR part 221. In addition, the information collection requirements contained in this rulemaking were approved by OMB (Approval NO. 2115–0110) on April 14, 1992, in connection with the Coast Guard's proposed revision of 46 CFR part 67 (57 FR 10544).

This rulemaking significantly reduces the paperwork burden on the public. In 1991, more than 60,000 submissions of form MA–899 were required; under this final rule, the Coast Guard estimates that fewer than 1,000 submissions will be required each year. Since the average time to complete an MA–899 is estimated at 15 minutes, this will result in a savings of at least 19,600 burden hours each year.

Federalism

The Coast Guard has analyzed this rulemaking in accordance with the principles and criteria contained in Executive Order 12612 and has determined that this proposal does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. Since this final rule affects only a federal paperwork requirement, it has no preemptive effect.

Environment

The Coast Guard has considered the environmental impact of this rulemaking and has concluded that under § 2.B.2 of Commandant Instruction M16475.1B, this proposal is categorically excluded from further environmental documentation. This proposal deals with procedural regulations including reporting and recordkeeping requirements to record title and encumbrance instruments on vessels. This regulation is administrative in nature and clearly has no environmental impact. A Categorical Exclusion Determination is available in the docket for inspection of copying where indicated under "**ADDRESSES.**"

List of Subjects in 46 CFR Part 67

Fees, Incorporation by reference, Vessels.

In consideration of the foregoing, 46 CFR part 67 is amended to read as follows:

PART 67—DOCUMENTATION OF VESSELS

1. The authority citation for part 67 is revised to read as follows:

Authority: 14 U.S.C. 664; 42 U.S.C. 9118; 31 U.S.C. 9701, 46 U.S.C. 2103, 2107, 2710; 46 U.S.C. App. 802, 808, 876, 841a, 883; 49 U.S.C. 322, 49 CFR 1.46.

2. Section 67.29–11 is revised to read as follows:

§ 67.29–11 Requirement for citizenship declaration.

(a) Instruments in the nature of a bill of sale or deed of gift, mortgages, and assignments of mortgages conveying an interest in a documented vessel are ineligible for filing and recording unless accompanied by a declaration of citizenship, except as provided in paragraphs (c) and (d) of this section.

(b) Citizenship declarations must be executed on the form prescribed by the Maritime Administration in 46 CFR part 221. These forms are available from all Coast Guard documentation offices and from the Vessel Transfer and Disposal Officer (MAR–745.1), Maritime Administration, United States Department of Transportation, Washington, DC 20590.

(c) The requirement for presentation of a citizenship declaration does not apply to a transaction conveying an interest in a vessel:

(1) Described in 46 CFR 221.11(b)(1) (i) through (iv);

(2) To a person making application for documentation; or

(3) To a government of the United States or a political subdivision thereof or a corporate entity which is an agency of any such government or political subdivision.

(d) The requirement for presentation of a citizenship declaration is waived when the instrument(s) presented for filing effects a transfer for which:

(1) The Maritime Administration has given general approval in 46 CFR part 221; or

(2) Written approval of the Maritime Administrator is required in accordance with 46 CFR part 221.

(e) If the transfer of interest is one which requires written approval of the Maritime Administrator in accordance with rules in 46 CFR part 221, evidence of that approval must be presented for filing with the instrument effecting the transfer of interest.

Note: If the grantee(s) of an ownership interest in a vessel described in paragraph (c)(1) or (d) of this section do(es) not make application for documentation, a declaration of citizenship may be required in order to ensure that the vessel so conveyed retains any coastwise or Great Lakes privileges to which it may be entitled.

Dated: September 16, 1992.

J.W. Kime,

Admiral, U.S. Coast Guard, Commandant.

46 CFR Part 298

[Docket No. R-145]

RIN 2133-AA97

Obligation Guarantees

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Correction of final rule.

SUMMARY: The Maritime Administration (MARAD) is issuing this notice of correction of a final rule which appeared in the **Federal Register** on August 6, 1992 (57 FR 34690) concerning the calculation of Internal Rate of Return now required with all applications for obligation guarantees.

EFFECTIVE DATE: August 6, 1992.

SUPPLEMENTARY INFORMATION: The August 6, 1992 final rule removed paragraph (b)(4) of 46 CFR 298.14 without regard to the existence of paragraph (b)(5). This correction redesignates paragraph (b)(5) as new paragraph (b)(4).

§ 298.14—[CORRECTED]

Accordingly, on page 34691 in the **Federal Register** of August 6, 1992, Column 3, the final rulemaking notice for 46 CFR § 298.14 is corrected by adding at the end paragraph (c), to read as follows:

(c) Paragraph (b)(5) is redesignated as new paragraph (b)(4).

Dated: September 18, 1992.

James E. Saari,

Secretary, Maritime Administration.

[FR Doc. 92-23111 Filed 9-23-92; 8:45 am]

DEPARTMENT OF VETERANS AFFAIRS

48 CFR Part 817

RIN 2900-AG06

VA Acquisition Regulation: Special Contracting Methods

AGENCY: Department of Veterans Affairs.

ACTION: Final Rule.

SUMMARY: The Department of Veterans Affairs (VA) is amending the VA Acquisition Regulation (VAAR) to eliminate a restriction on multiyear contracting. This amendment will permit multiyear contracting for other than supplies and services for use in VA health care facilities.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Sherry Patton, Acquisition Policy Division (95A), Office of Acquisition and Materiel Management, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 233-5001.

SUPPLEMENTARY INFORMATION:

I. Background

Multiyear contracting authority was granted to the Department of Veterans Affairs by Public Law 100-322. The authority was limited to the acquisition of supplies and services for use in VA medical facilities.

Public Law 101-237 has further amended Title 38 to eliminate this restriction. These changes are internal VA management policies, therefore, public comment is unnecessary (5 U.S.C. 553(d)(3)). Technical changes are also being made to reflect the correct titles of VA officials.

II. Executive Order 12291

Pursuant to the memorandum from the Director, Office of Management and Budget, to the Administrator, Office of Information and Regulatory Affairs, dated December 13, 1984, this rule is exempt from sections 3 and 4 of Executive Order 12291.

III. Regulatory Flexibility Act (RFA)

Since a notice of proposed rulemaking is unnecessary and will not be published, these amendments do not come within the term "rule" as defined in the Regulatory Flexibility Act, 5 U.S.C. 601(2) and are, therefore, not subject to the requirements of the Act. Nevertheless, these amendments will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612.

IV. Paperwork Reduction Act

The Paperwork Reduction Act does not apply to these final regulations.

List of Subjects in 48 CFR Part 817

Government procurement.

Approved: September 15, 1992.

Edward J. Derwinski,

Secretary of Veterans Affairs.

For the reasons set forth in the preamble, 48 CFR chapter 8, part 817 is amended as set forth below:

PART 817—[AMENDED]

1. The authority citation for part 817 is revised to read as follows:

Authority: 38 U.S.C. 501 and 40 U.S.C. 486(c).

PART 817—SPECIAL CONTRACTING METHODS

Subpart 817.1—[Amended]

2. In subpart 817.1, section 817.102-1(a), remove the notation "Pub. L. 100-322" and add in its place "Pub. L. 101-237," remove the words "for use in Department of Veterans Affairs health care facilities."

Subpart 817.2—[Amended]

3. In subpart 817.2, section 817.202, remove the words "Director, Office of Acquisition and Materiel Management" and add in their place the words, "Deputy Assistant Secretary for Acquisition and Materiel Management."

[FR Doc. 92-23261 Filed 9-23-92; 8:45 am]

BILLING CODE 8320-01-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

49 CFR Part 397

RIN 2125-AD00

Transportation of Hazardous Materials; Routing of Class 7 (Radioactive) Materials; Preemption Determinations

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Interim final rule.

SUMMARY: The FHWA is publishing an interim final rule to incorporate, without substantive change, the preemption determination and waiver of preemption procedures, currently contained in the Research and Special Programs Administration's (RSPA) regulations at 49 CFR 107.201 to 107.227, into the FHWA's regulations at subpart E of 49 CFR part 397. This final rule will also incorporate, without substantive change, the routing requirements for Class 7 (radioactive) materials, currently contained in the RSPA regulations at 49 CFR 177.825, into the FHWA's regulations at subpart D of 49 CFR part 397. This final rule is necessary because the responsibility for highway routing of hazardous materials, including Class 7 (radioactive) materials and the related preemption determination and waiver of preemption procedures, has been delegated by the Secretary of Transportation to the FHWA. Since these regulations, which currently apply to highway routing issues, are being replicated without substantive change under the FHWA chapter of the CFR, there is no need for notice and comment.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Mr. Eric A. Kuwana or Mr. Raymond W. Cuprill, Office of Chief Counsel (HCC–20), (202) 366–0834, Federal Highway Administration, 400 Seventh Street, SW., Washington, DC. 20590. Office hours are 8:30 a.m. to 5:30 p.m., Monday through Friday, except for legal Federal holidays.

SUPPLEMENTARY INFORMATION:

Standards for the Highway Routing of Hazardous Materials

The Hazardous Materials Transportation Uniform Safety Act of 1990 (HMTUSA) (Pub. L. 101–615, 104 Stat. 3244) amended the Hazardous Materials Transportation Act (HMTA) (49 U.S.C. app. 1801 *et seq.*), *inter alia*, to require the Secretary of Transportation to "establish by regulation standards for State and Indian tribes to use in establishing, maintaining, and enforcing: (A) Specific highway routes over which hazardous materials may and may not be transported by motor vehicles, and (B) limitations and requirements with respect to highway routing."

The FHWA was delegated the authority and responsibility for highway routing of hazardous materials at 49 CFR 1.48 on July 10, 1991 (56 FR 31343). In accordance with the HMTUSA, the FHWA is directed to promulgate Federal standards which States or Indian tribes must follow if they establish, maintain, or enforce any highway routing designations, limitations, or requirements. The FHWA will accomplish the requirement in two stages: (1) This interim final rule will replicate and reorganize (a) the current RSPA standards for the routing of radioactive hazardous materials (RAM), now designated as Class 7 (radioactive) materials, contained in 49 CFR 177.825 (originally published on January 19, 1981, at 46 FR 5316) and (b) the RSPA preemption procedures contained in 49 CFR 107.201 to 107.227; and (2) a notice of proposed rulemaking (NPRM) sets forth new standards applicable to the routing of nonradioactive hazardous materials (NRHM) to be incorporated in subpart C of this section. The FHWA is using this two-step method because section 105(b)(8) of the HMTA, as amended by the HMTUSA, does not require the Secretary to "amend, modify, or reissue" the current standards for the highway routing of radioactive hazardous materials. The NPRM referenced in (2) was published in the Federal Register on August 31, 1992 (57 FR 39522).

Preemption Determinations and Waivers of Preemption

Section 13 of the HMTUSA, amending section 112 of the HMTA, established preemption determinations and waivers of preemption because Congress recognized the need for a strong mechanism to deal with the many preemption issues which would arise from the HMTUSA framework. The new preemption determinations were a much needed substitute for the old inconsistency rulings, which did not provide an adequate mechanism to resolve preemption issues.

The standards for preemption are now found in section 112(a) of the HMTA, 49 App. U.S.C. 1811(a). Generally, any requirement of a State, political subdivision thereof, or Indian tribe is preempted if: (1) Compliance with it and the HMTA or any regulation issued under the HMTA is not possible; (2) as applied or enforced, it creates an obstacle to the accomplishment and execution of the HMTA or the regulations issued under the HMTA; or (3) it is preempted under section 105(a)(4) or section 105(b). Section 112 of the HMTA requires the Secretary of Transportation to issue regulations which set forth procedures for carrying out preemption determinations and waivers of preemption. This statutory requirement was met by RSPA when it replaced its former inconsistency rulings with preemption determination and waiver of preemption procedures in the Federal Register on February 28, 1991 (56 FR 8616), with correction on April 17, 1991 (56 FR 15510). However, subsequent to those regulatory changes by RSPA, the FHWA was delegated the authority and responsibility to administer preemption determinations and waivers of preemption for all highway routing of hazardous materials, including Class 7 (radioactive) materials. Although some changes may be necessary after comments are received on the NPRM for the routing of nonradioactive hazardous materials, the preemption determination and waiver of preemption procedures in this interim final rule is intended to be applied to the routing of both Class 7 (radioactive) and nonradioactive hazardous materials.

Rulemaking Analyses and Notices

Administrative Procedure Act

Since this interim final rule merely replicates current hazardous material regulations contained in RSPA's chapter of the CFR, notice and comment procedures are "impracticable, unnecessary, or contrary to the public interest" within the meaning of section 4(b)(3)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(3)(B). Public comment is unnecessary because in replicating these sections to meet a statutory mandate, the FHWA is not exercising discretion in a way that could be affected by public comment. As a consequence, the FHWA is proceeding directly to an interim final rule. The FHWA is acting through an interim final rule because the preemption determination and waiver of preemption procedures might be changed slightly in the future as a result of the NPRM on nonradioactive hazardous materials. For the reasons listed above, and to immediately implement congressional mandates, there is good cause for publishing this rule less than 30 days before its effective date, as is ordinarily required by 5 U.S.C. 553(d).

Executive Order 12291 and DOT Regulatory Policies and Procedures

The FHWA has determined that this interim final rule is not major under Executive Order 12291 and is not significant under DOT's regulatory policies and procedures. (44 FR 11034; Feb. 26, 1979.) This rule will have little, if any, direct or indirect economic impact because it does not alter any existing substantive regulations in such a way as to impose additional burdens. The minimal cost of complying with existing substantive regulations is not being increased. Therefore, preparation of a regulatory evaluation is not warranted. Under DOT's regulatory policies and procedures, notice is not necessary because the FHWA does not believe it would receive any meaningful comment.

Executive Order 12612

This interim final rule implements specific statutory mandates that affect the relationship between the Federal government and the States, and the FHWA has no discretion in implementing these changes. Therefore, preparation of a Federalism assessment pursuant to Executive Order 12612 is not warranted.

Executive Order 12372 (Intergovernmental Review)

Catalog of Federal Domestic Assistance Program Number 20.217, Motor Carrier Safety. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this program.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 605(b)), the FWHA has evaluated the

effects of this rule on Small entities. Based upon this evaluation, the FHWA certifies that this interim final rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

There are no new information collection requirements contained in this interim final rule.

National Environmental Policy Act

The FHWA has concluded that this final rule will not have any significant impact on the quality of the environment, and therefore, an environmental impact statement under the National Environmental Policy Act is not required.

Regulatory Identification Number

A regulation identification number (RIN) is assigned to each regulatory action listed in the Unified Agenda of Federal Regulations. The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. The RIN contained in the heading of this document can be used to cross reference this action with the Unified Agenda.

List of Subjects in 49 CFR part 397

Hazardous materials transportation, Highways and roads.

In consideration of the foregoing, the Federal Highway Administration amend part 397 of title 49, Code of Federal Regulations, as set forth below.

PART 397—TRANSPORTATION OF HAZARDOUS MATERIALS [AMENDED]

1. The authority citation for part 397 is revised to read as follows:

Authority: 49 App. U.S.C. 1801 *et seq.*; 49 CFR 1.48.

2. Part 397 is amended by adding new subparts D and E to read as follows:

Subpart D—Routing of Class 7 (Radioactive) Materials

Sec.

397.101 Requirements for motor carriers and drivers.
397.103 Requirements for State routing designations.

Subpart E—Preemption Procedures

Sec.

397.201 Purpose and scope of the procedures.
397.203 Standards for determining preemption.
397.205 Preemption application.
397.207 Preemption notice.
397.209 Preemption processing.
397.211 Preemption determination.
397.213 Waiver of preemption application.
397.215 Waiver notice.
397.217 Waiver processing.
397.219 Waiver determination and order.
397.221 Timeliness.
397.223 Petition for reconsideration.
397.225 Judicial review.

Subpart D—Routing of Class 7 (Radioactive) Materials

§ 397.101 Requirements for motor carriers and drivers.

(a) Except as provided in paragraph (b) of this section or in circumstances when there is only one practicable highway route available, considering operating necessity and safety, a carrier or any person operating a motor vehicle that contains a Class 7 (radioactive) material, as defined in 49 CFR 172.403, for which placarding is required under 49 CFR part 172 shall:

(1) Ensure that the motor vehicle is operated on routes that minimize radiological risk;

(2) Consider available information on accident rates, transit time, population density and activities, and the time of day and the day of week during which transportation will occur to determine the level of radiological risk; and

(3) Tell the driver which route to take and that the motor vehicle contains Class 7 (radioactive) materials.

(b) Except as otherwise permitted in this paragraph and in paragraph (f) of this section, a carrier or any person operating a motor vehicle containing a highway route controlled quantity of Class 7 (radioactive) materials, as defined in 49 CFR 173.403(l), shall operate the motor vehicle only over preferred routes.

(1) For purposes of this subpart, a preferred route is an Interstate System highway for which an alternative route is not designated by a State routing agency; a State-designated route selected by a State routing agency pursuant to § 397.103; or both of the above.

(2) The motor carrier or the person operating a motor vehicle containing a highway route controlled quantity of Class 7 (radioactive) materials, as defined in 49 CFR 173.403(l) and (y), shall select routes to reduce time in transit over the preferred route segment of the trip. An Interstate System bypass or Interstate System beltway around a city, when available, shall be used in place of a preferred route through a city, unless a State routing agency has designated an alternative route.

(c) A motor vehicle may be operated over a route, other than a preferred route, only under the following conditions:

(1) The deviation from the preferred route is necessary to pick up or deliver a highway route controlled quantity of Class 7 (radioactive) materials, to make necessary rest, fuel or motor vehicle repair stops, or because emergency conditions make continued use of the preferred route unsafe or impossible;

(2) For pickup and delivery not over preferred routes, the route selected must be the shortest-distance route from the pickup location to the nearest preferred route entry location, and the shortest-distance route to the delivery location from the nearest preferred route exit location. Deviation from the shortest-distance pickup or delivery route is authorized if such deviation:

(i) Is based upon the criteria in paragraph (a) of this section to minimize the radiological risk; and

(ii) Does not exceed the shortest-distance pickup or delivery route by more than 25 miles and does not exceed 5 times the length of the shortest-distance pickup or delivery route.

(iii) Deviations from preferred routes, or pickup or delivery routes other than preferred routes, which are necessary for rest, fuel, or motor vehicle repair stops or because of emergency conditions, shall be made in accordance with the criteria in paragraph (a) of this section to minimize radiological risk, unless due to emergency conditions, time does not permit use of those criteria.

(d) A carrier (or a designated agent) who operates a motor vehicle which contains a package of highway route controlled quantity of Class 7 (radioactive) materials, as defined in 49 CFR 173.403(l), shall prepared a written route plan and supply a copy before departure to the motor vehicle driver and a copy to the shipper (before departure for exclusive use shipments, as defined in 49 CFR 173.403(i), or within fifteen working days following departure for all other shipments). Any variation between the route plan and routes actually used, and the reason for it, shall be reported in an amendment to the route plan delivered to the shipper as soon as practicable but within 30 days following the deviation. The route plan shall contain:

(1) A statement of the origin and destination points, a route selected in compliance with this section, all planned stops, and estimated departure and arrival times; and

(2) Telephone numbers which will access emergency assistance in each State to be entered.

(e) No person may transport a package of highway route controlled

quantity of Class 7 (radioactive) materials on a public highway unless:

(1) The driver has received within the two preceding years, written training on:

(i) Requirements in 49 CFR parts 172, 173, and 177 pertaining to the Class 7 (radioactive) materials transported;

(ii) The properties and hazards of the Class 7 (radioactive) materials being transported; and

(iii) Procedures to be followed in case of an accident or other emergency.

(2) The driver has in his or her immediate possession a certificate of training as evidence of training required by this section, and a copy is placed in his or her qualification file (see § 391.51 of this subchapter), showing:

(i) The driver's name and operator's license number;

(ii) The dates training was provided;

(iii) The name and address of the person providing the training;

(iv) That the driver has been trained in the hazards and characteristics of highway route controlled quantity of Class 7 (radioactive) materials; and

(v) A statement by the person providing the training that information on the certificate is accurate.

(3) The driver has in his or her immediate possession the route plan required by paragraph (d) of this section and operates the motor vehicle in accordance with the route plan.

(f) A person may transport irradiated reactor fuel only in compliance with a plan if required under 49 CFR 173.22(c) that will ensure the physical security of the material. Variation for security purposes from the requirements of this section is permitted so far as necessary to meet the requirements imposed under such a plan, or otherwise imposed by the U.S. Nuclear Regulatory Commission in 10 CFR part 73.

(g) Except for packages shipped in compliance with the physical security requirements of the U.S. Nuclear Regulatory Commission in 10 CFR part 73, each carrier who accepts for transportation a highway route controlled quantity of Class 7 (radioactive) material (see 49 CFR 173.401(l)), shall, within 90 days following the acceptance of the package, file the following information concerning the transportation of each such package with the Associate Administrator for Safety and System Applications, Federal Highway Administration, Attn: Traffic Control Division, HHS–32, room 3419, 400 Seventh Street, SW., Washington, DC 20590–0001:

(1) The route plan required under paragraph (d) of this section, including all required amendments reflecting the routes actually used;

(2) A statement identifying the names and addresses of the shipper, carrier and consignee; and

(3) A copy of the shipping paper or the description of the Class 7 (radioactive) material in the shipment required by 49 CFR 172.202 and 172.203.

§ 397.103 Requirements for State routing designations.

(a) The State routing agency, as defined in § 397.201(c), shall select routes to minimize radiological risk using "Guidelines for Selecting Preferred Highway Routes for Highway Route Controlled Quantity Shipments of Radioactive Materials," or an equivalent routing analysis which adequately considers overall risk to the public. Designations must be preceded by substantive consultation with affected local jurisdictions and with any other affected States to ensure consideration of all impacts and continuity of designated routes.

(b) State routing agencies may designate preferred routes as an alternative to, or in addition to, one or more Interstate System highways, including interstate system bypasses, or Interstate System beltways.

(c) A State-designated route is effective when—

(1) The State gives written notice by certified mail, return receipt requested, to the Associate Administrator for Safety and System Applications, Federal Highway Administration, Attn: Traffic Control Division, HHS–32, Room 3419, Registry of State-designated routes, at the address above; and

(2) Receipt thereof is acknowledged in writing by the Associate Administrator.

(d) Upon request, the Office of Highway Safety, Traffic Control Division, HHS–32, room 3419, at the address above, will provide a list of State-designated preferred routes and a copy of the "Guidelines for Selecting Preferred Highway Routes for Highway Route Controlled Quantity Shipments of Radioactive Materials."

Subpart E—Preemption Procedures

§ 397.201 Purpose and scope of the procedures.

(a) This subpart prescribes procedures by which:

(1) Any person, including a State, political subdivision thereof, or Indian Tribe, directly affected by any highway routing designation for hazardous materials may apply to the Federal Highway Administration (FHWA) for a determination as to whether that highway routing designation is preempted under section 105(b) or section 112(a)(1) or (a)(2) of the Act (49 App. U.S.C. 1804 and 1811) or regulations issued thereunder; and

(2) A State, political subdivision thereof, or Indian tribe may apply for a waiver of preemption with respect to any highway routing designation that the State, political subdivision thereof, or Indian Tribe acknowledges to be preempted by section 105(b) or section 112 (a)(1) or (a)(2) of the Act or regulations issued thereunder, or that has been determined by a court of competent jurisdiction to be so preempted.

(b) Unless otherwise ordered by the Administrator, an application for a preemption determination which includes an application for a waiver of preemption will be treated and processed solely as an application for a preemption determination.

(c) For purposes of this part:

Act means the Hazardous Materials Transportation Act, 49 U.S.C. App. 1801 *et seq.*, as amended by the Hazardous Materials Transportation Uniform Safety Act of 1990, Pub. L. 101–615.

Administrator means the Administrator of the Federal Highway Administration, a modal agency of the United States Department of Transportation.

Person means an individual, firm, copartnership, corporation, company, association, joint-stock association, including any trustee, receiver, assignee, or similar representative thereof, or government, Indian tribe, or agency or instrumentality of any government or Indian tribe when it offers hazardous materials for transportation in commerce or transports hazardous materials in furtherance of a commercial enterprise, but such term does not include the United States Postal Service.

Political subdivision includes a municipality; a public agency or other instrumentality of one or more States, or a public corporation, board, or commission established under the laws of one or more States.

Routing agency means the State highway agency or other State agency designated by an Indian tribe, to supervise, coordinate, and approve the highway routing designations for that State or Indian tribe. Any highway routing designation made by a political subdivision of a State shall be considered a designation made by that State.

Routing designation includes any regulation, limitation, or restriction which would have the effect of restricting or prohibiting the transportation of hazardous materials over a highway route, a specific portion

of a route, or during a specific time period.

State means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, American Samoa, Guam, or any other territory or possession of the United States designated by the Secretary.

§ 397.203 Standards for determining preemption.

(a) Any highway routing designation established, maintained, or enforced by a State, political subdivision thereof, or Indian tribe is preempted if—

(1) Compliance with both the highway routing designation and any requirement under the Act or of a regulation issued under the Act is not possible;

(2) The highway routing designation as applied or enforced creates an obstacle to the accomplishment and execution of the Act or the regulations issued under the Act; or

(3) It is preempted under the Act.

(b) [Reserved]

§ 397.205 Preemption application.

(a) Any person, including a State, political subdivision thereof, or Indian tribe directly affected by any highway routing designation of another State, political subdivision, or Indian tribe, may apply to the Administrator for a determination of whether that highway routing designation is preempted by the Act or § 397.203 of this subpart. The Administrator shall publish notice of the application in the **Federal Register**.

(b) Each application filed under this section for a determination must:

(1) Be submitted to the Administrator, Federal Highway Administration, U.S. Department of Transportation, Washington, DC 20590–0001. Attention: HCC–10 Docket Room, Hazardous Materials Preemption;

(2) Set forth a detailed description of the highway routing designation of the State, political subdivision thereof, or Indian tribe for which the determination is sought;

(3) If applicable, specify the provisions of the Act or the regulations issued under the Act under which the applicant seeks preemption of the highway routing designation of the State, political subdivision thereof, or Indian tribe;

(4) Explain why the applicant believes the highway routing designation of the State, political subdivision thereof, or Indian tribe should or should not be preempted under the standards of § 397.203; and

(5) State how the applicant is affected by the highway routing designation of the State, political subdivision thereof, or Indian tribe.

(c) The filing of an application for a determination under this section does not constitute grounds for noncompliance with any requirement of the Act or any regulation issued under the Act.

(d) Once the Administrator has published notice in the **Federal Register** of an application received under paragraph (a) of this section, no applicant for such determination may seek relief with respect to the same or substantially the same issue in any court until final action has been taken on the application or until 180 days after filing of the application, whichever occurs first. Nothing in this section shall be construed as prohibiting any person, including a State, political subdivision thereof, or Indian tribe, directly affected by any highway routing designation from seeking a determination of preemption in any court of competent jurisdiction in lieu of applying to the Administrator under paragraph (a) of this section.

§ 397.207 Preemption notice.

(a) If the applicant is other than a State, political subdivision thereof, or Indian tribe, the applicant shall mail a copy of the application to the State, political subdivision thereof, or Indian tribe concerned, accompanied by a statement that comments may be submitted regarding the application to the Administrator within 45 days. The application filed with the Administrator must include a certification that the applicant has complied with this paragraph and must include the names and addresses of each official to whom a copy of the application was sent.

(b) The Administrator may afford interested persons an opportunity to file written comments on the application by serving notice on any persons readily identifiable by the Administrator as persons who will be affected by the ruling sought or by publication in the **Federal Register**.

(c) Each person submitting written comments to the Administrator with respect to an application filed under this section shall send a copy of the comments to the applicant and certify to the Administrator that he or she has complied with this requirement. The Administrator may notify other persons participating in the proceeding of the comments and provide an opportunity for those other persons to respond.

§ 397.209 Preemption processing.

(a) The Administrator may initiate an investigation of any statement in an application and utilize in his or her evaluation any relevant facts obtained by that investigation. The Administrator may solicit and accept submissions from third persons relevant to an application and will provide the applicant an opportunity to respond to all third person submissions. In evaluating an application, the Administrator may consider any other source of information. The Administrator may convene a hearing or conference, if a hearing or conference will advance the evaluation of the application.

(b) The Administrator may dismiss the application without prejudice if:

(1) He or she determines that there is insufficient information upon which to base a determination; or

(2) He or she requests additional information from the applicant and it is not submitted.

§ 397.211 Preemption determination.

(a) Upon consideration of the application and other relevant information received, the Administrator issues a determination.

(b) Notwithstanding that an application for a determination has not been filed under § 397.205, the Administrator, on his or her own initiative, may issue a determination as to whether a particular highway routing designation of a State, political subdivision thereof, or Indian tribe is preempted under the Act or the regulations issued under the Act.

(c) The determination includes a written statement setting forth the relevant facts and the legal basis for the determination, and provides that any person aggrieved thereby may file a petition for reconsideration within 20 days in accordance with § 397.223.

(d) Unless the determination is issued pursuant to paragraph (b) of this section, the Administrator serves a copy of the determination upon the applicant. In all preemption determinations, the Administrator serves a copy of the determination upon any other person who participated in the proceeding or who is readily identifiable by the Administrator as affected by the determination. A copy of each determination is placed on file in the public docket. The Administrator may publish the determination or notice of the determination in the **Federal Register**.

(e) If no petition for reconsideration is filed within 20 days in accordance with § 397.223, a determination issued under this section constitutes the final agency decision as to whether a particular highway routing designation of a State, political subdivision thereof, or Indian tribe is preempted under the Act or

regulations issued thereunder. The fact that a determination has not been issued under this section with respect to a particular highway routing designation of a State, political subdivision thereof, or Indian tribe carries no implication as to whether the requirement is preempted under the Act or regulations issued thereunder.

§ 397.213 Waiver of preemption application.

(a) Any State, political subdivision thereof, or Indian tribe may apply to the Administrator for a waiver of preemption with respect to any highway routing designation that the State, political subdivision thereof, or Indian tribe acknowledges to be preempted by the Act, § 397.203 of this subpart, or a court of competent jurisdiction. The Administrator may waive preemption with respect to such requirement upon a determination that such requirement—

(1) Affords an equal or greater level of protection to the public than is afforded by the requirements of the Act or regulations issued under the Act, and

(2) Does not unreasonably burden commerce.

(b) Each application filed under this section for a waiver of preemption determination must:

(1) Be submitted to the Administrator, Federal Highway Administration, U.S. Department of Transportation, Washington, DC 20590–0001. Attention: HCC–10 Docket Room, Hazardous Materials Preemption Docket;

(2) Set forth a detailed description of the highway routing designation of the State, political subdivision thereof, or Indian tribe for which the determination is being sought;

(3) Include a copy of any relevant court order or determination issued pursuant to § 397.211;

(4) Contain an express acknowledgment by the applicant that the highway routing designation of the State, political subdivision thereof, our Indian tribe is preempted under the Act or the regulations issued under the Act, unless it has been so determined by a court of competent jurisdiction or in a determination issued under this subpart;

(5) Specify each provision of the Act or the regulations issued under the Act that preempts the highway routing designation of the State, political subdivision thereof, or Indian tribe;

(6) State why the applicant believes that the highway routing designation of the State, political subdivision thereof, or Indian tribe affords an equal or greater level of protection to the public than is afforded by the requirements of the Act or the regulations issued under the Act;

(7) State why the applicant believes that the highway routing designation of the State, political subdivision thereof, or Indian tribe does not unreasonably burden commerce; and

(8) Specify what steps the State, political subdivision thereof, or Indian tribe is taking to administer and enforce effectively the preempted requirement.

§ 397.215 Waiver notice.

(a) The applicant State, political subdivision thereof, or Indian tribe shall mail a copy of the application and any subsequent amendments or other documents relating to the application to each person whom the applicant reasonably ascertains will be affected by the determination sought. The copy of the application must be accompanied by a statement that the person may submit comments regarding the application to the Administrator within 45 days. The application filed with the Administrator must include a certification with the application has complied with this paragraph and must include the names and addresses of each person to whom the application was sent.

(b) Notwithstanding the provisions of paragraph (a) of this section, if the State, political subdivision thereof, or Indian tribe determines that compliance with paragraph (a) of this section would be impracticable, the applicant shall:

(1) Comply with the requirements of paragraph (a) of this section with regard to those persons whom it is reasonable and practicable to notify; and

(2) Include with the application filed with the Administrator a description of the persons or class or classes of persons to whom notice was not sent.

(c) The Administrator may require the applicant to provide notice in addition to that required by paragraphs (a) and (b) of this section, or may determine that the notice required by paragraph (a) of this section is not impracticable, or that notice should be published in the **Federal Register.**

(d) The Administrator may serve notice on any other persons readily identifiable by the Administrator as persons who will be affected by the determination sought and may afford those persons an opportunity to file written comments on the application.

(e) Any person submitting written comments to the Administrator with respect to an application filed under this section shall send a copy of the comments to the applicant. The person shall certify to the Administrator that he or she has complied with the requirements of this paragraph. The Administrator may notify other persons participating in the proceeding of the comments and provide an opportunity for those other persons to respond.

§ 397.217 Waiver processing.

(a) The Administrator may initiate an investigation of any statement in an application and utilize any relevant facts obtained by that investigation. The Administrator may solicit and accept submissions from third persons relevant to an application and will provide the applicant an opportunity to respond to all third person submissions. In evaluating an application, the Administrator may convene a hearing or conference, if a hearing or conference will advance the evaluation of the application.

(b) The Administrator may dismiss the application without prejudice if:

(1) he or she determines that there is insufficient information upon which to base a determination;

(2) upon his or her request, additional information is not submitted by the applicant; or

(3) the applicant fails to provide the notice required by this subpart.

(c) Except as provided in this subpart, the Administrator will only consider an application for a waiver of preemption determination if:

(1) the applicant expressly acknowledges in its application that the highway routing designation of the State, political subdivision thereof, or Indian tribe for which the determination is sought is preempted by the Act or the regulations thereunder; or

(2) the highway routing designation of the State, political subdivision thereof, or Indian tribe has been determined by a court of competent jurisdiction or in a determination issued pursuant to § 397.211 to be preempted by the Act or the regulations issued thereunder.

(d) When the Administrator has received all substantive information necessary to process an application for a waiver of preemption determination, notice of that fact will be served upon the applicant. Additional notice to all other persons who received notice of the proceeding may be served by publishing a notice in the **Federal Register.**

§ 397.219 Waiver determination and order.

(a) Upon consideration of the application and other relevant information received or obtained during the proceeding, the Administrator issues an order setting forth his or her determination.

(b) The Administrator may issue a waiver of preemption order only if he or she finds that the requirement of the State, political subdivision thereof, or Indian tribe affords the public a level of

safety at least equal to that afforded by the requirements of the Act and the regulations issued under the Act and does not unreasonably burden commerce. In determining whether the requirement of the State, political subdivision thereof, or Indian tribe unreasonably burdens commerce, the Administrator may consider the following factors:

(1) The extent to which increased costs and impairment of efficiency result from the highway routing designation of the State, political subdivision thereof, or Indian tribe;

(2) Whether the highway routing designation of the State, political subdivision thereof, or Indian tribe has a rational basis;

(3) Whether the highway routing designation of the State, political subdivision thereof, or Indian tribe achieves its stated purpose; and

(4) Whether there is need for uniformity with regard to the subject concerned and if so, whether the highway routing designation of the State, political subdivision thereof, or Indian tribe competes or conflicts with those of other States, political subdivisions thereof, or Indian tribes.

(c) The order includes a written statement setting forth the relevant facts and the legal basis for the determination, and provides that any person aggrieved by the order may file a petition for reconsideration in accordance with § 397.223.

(d) The Administrator serves a copy of the order upon the applicant, any other person who participated in the proceeding and upon any other person readily identifiable by the Administrator as one who may be affected by the order. A copy of each order is placed on file in the public docket. The Administrator may publish the order or notice of the order in the **Federal Register**.

(e) If no petition for reconsideration is filed within 20 days in accordance with § 397.223, an order issued under this section constitutes the final agency decision regarding whether a particular requirement of a State, political subdivision thereof, or Indian tribe is preempted under the Act or any regulations issued thereunder, or whether preemption is waived.

§ 397.221 Timeliness.

If the Administrator fails to take action on the application within 90 days of serving the notice required by § 397.217(d), the applicant may treat the application as having been denied in all respects.

§ 397.223 Petition for reconsideration.

(a) Any person aggrieved by an order issued under § 397.211 or § 397.219 may file a petition for reconsideration with the Administrator. The petition must be filed within 20 days of service of the determination or order issued under the above sections.

(b) The petition must contain a concise statement of the basis for seeking reconsideration, including any specific factual or legal errors, or material information not previously available.

(c) The petitioner shall mail a copy of the petition to each person who participated, either as an applicant or routing, in the waiver of preemption proceeding, accompanied by a statement that the person may submit comments concerning the petition to the Administrator within 20 days. The petition filed with the Administrator must contain a certification that the petitioner has complied with this paragraph and include the names and addresses of all persons to whom a copy of the petition was sent.

(d) The Administrator's decision under this section constitutes the final agency decision. If no petition for reconsideration is filed under this section, then the determination issued under § 397.211 or § 397.219 becomes the final agency decision at the end of the 20 day period.

§ 397.225 Judicial review.

A party to a proceeding under § 397.205(a), § 397.213(a), or § 397.223(a) may seek review by the appropriate district court of the United States of the decision of the Administrator under such proceeding only by filing a petition with such court within 60 days after the final agency decision.

Issued on: September 11, 1992.

T.D. Larson,

Administrator.

BILLING CODE 4910-22-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1012

Meetings of the Commission; Technical Amendment

AGENCY: Interstate Commerce Commission.

ACTION: Final rule; technical amendment.

SUMMARY: In order to correctly state the Interstate Commerce Commission's regulations, as set forth in title 49, chapter X, of the Code of Federal Regulations, a technical amendment is necessary to correct an error in a citation in the Commission's regulations on public participation in oral arguments. This technical amendment is set forth below.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Kathleen Gass (202) 927-5654.

List of Subjects in 49 CFR Part 1012

Sunshine Act.

For the reasons set forth in the preamble, title 49, chapter X, part 1012 is amended as set forth below.

PART 1012—MEETINGS OF THE COMMISSION

1. The authority citation for part 1012 continues to read as follows:

Authority: 5 U.S.C. 552b(g), as amended by Pub. L. 94-409, 90 Stat. 1241; 49 U.S.C. 17(3), 24 Stat. 385, as amended.

§ 1012.4 [Amended]

2. In § 1012.4, paragraph (b) is amended by removing the words "the 49 CFR part 1115" and adding in their place the words "49 CFR part 1116".

By the Commission.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 661

[Docket No. 920412-2112]

Ocean Salmon Fisheries Off the Coasts of Washington, Oregon, and California

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Inseason adjustment and closure.

SUMMARY: NMFS announces the closure of the recreational salmon fishery in the exclusive economic zone (EEZ) from Leadbetter Point, Washington, to Cape Falcon, Oregon, at midnight, September 17, 1992, under a modified subarea quota of 5,700 coho salmon. The Director, Northwest Region, NMFS (Regional Director), determined that the subarea coho salmon quota for this fishery, as adjusted to account for the 2,700 fish not harvested by the earlier recreational fishery in this subarea, has been

reached. This action is necessary to conform to the preseason announcement of the 1992 management measures. This action is intended to maximize the harvest of coho salmon without exceeding the ocean share allocated to the recreational fishery in this subarea, and ensure conservation of coho salmon.

DATES: Effective at 2400 hours local time, September 17, 1992. Comments will be accepted through October 8, 1992.

ADDRESSES: Comments may be mailed to Rolland A. Schmitten, Director, Northwest Region, National Marine Fisheries Service, NOAA, 7600 Sand Point Way NE., BIN C15700–Bldg. 1, Seattle, WA 98115–0070. Information relevant to this notice has been compiled in aggregate form and is available for public review during business hours at the office of the NMFS Northwest Regional Director.

FOR FURTHER INFORMATION CONTACT: William L. Robinson at (206) 526–6140.

SUPPLEMENTARY INFORMATION: In its emergency interim rule and notice of 1992 management measures (57 FR 19388, May 6, 1992) NMFS announced that the recreational fishery from Leadbetter Point, Washington, to Cape Falcon, Oregon, would have 2 seasons: (1) June 29 through the earliest of September 13 or attainment of either the overall chinook salmon quota north of Cape Falcon or the subarea coho salmon quota of 67,500 fish; and (2) no earlier than September 14 through the earliest of October 1 or attainment of either the overall chinook salmon quota or the subarea coho salmon quota of 3,000 fish. The first season closed at midnight, August 6, upon the projected attainment of the subarea coho salmon quota (57 FR 36607, August 14, 1992). Based on the best available information, the catch during the first season totaled about 64,800 coho salmon, leaving 2,700 fish of the subarea quota of 67,500 coho salmon unharvested. Therefore, these fish were transferred to the second season which opened September 14 as described above, resulting in a modified subarea quota of 5,700 coho salmon. This modification does not affect the overall recreational coho salmon quota north of Cape Falcon of 141,000 fish. Inseason modification of quotas is authorized by regulations governing the ocean salmon fisheries at 50 CFR 661.21(b)(1)(i).

The ocean salmon regulations at 50 CFR 661.21(a)(1) state that "When a quota for the commercial or the recreational fishery, or both, for any salmon species in any portion of the fishery management area is projected by the Regional Director to be reached on or by a certain date, the Secretary will, by notice issued under § 661.23, close the commercial or recreational fishery, or both, for all salmon species in the portion of the fishery management area to which the quota applies as of the date the quota is projected to be reached."

Based on the best available information on September 16, 1992, the recreational fishery catch in the subarea from Leadbetter Point to Cape Falcon was projected to reach the revised subarea quota of 5,700 coho salmon by midnight, September 17, 1992.

The Regional Director consulted with representatives of the Pacific Fishery Management Council, the Washington Department of Fisheries, and the Oregon Department of Fish and Wildlife regarding this closure. The States of Washington and Oregon will manage the recreational fishery in State waters adjacent to this area of the EEZ in accordance with this Federal action. Actual notice to affected fishermen was given prior to 2400 hours local time, September 17, 1992, through a special telephone hotline and U.S. Coast Guard Notice to Mariners broadcasts as provided by 50 CFR 662.23. Because of the need for immediate action, the Secretary of Commerce has determined that good cause exists for this notice to be issued without affording a prior opportunity for public comment. This notice does not apply to other fisheries that may be operating in other areas.

Classification

This action is authorized by 50 CFR 661.23 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR Part 661

Proposed Rules

Federal Register
Vol. 57, No. 186
Thursday, September 24, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FEDERAL ELECTION COMMISSION

11 CFR Part 104

[Notice No. 1992-15]

Recordkeeping and Reporting by Political Committees: Best Efforts

AGENCY: Federal Election Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Election Commission is considering revising its regulations, which implement the requirement of the Federal Election Campaign Act ("FECA") that treasurers of political committees to exercise best efforts to obtain, maintain and report the complete identification of each contributor whose contributions aggregate more than $200 per calendar year. The proposed revisions would indicate that requests for the contributor information must state that federal law requires the committee to report the information. The proposed changes would also specify that committees must report contributor identifications received either before or after the end of the applicable reporting period. Further information is provided in the supplementary information which follows.

DATES: Comments must be received on or before December 18, 1992.

ADDRESSES: Comments must be made in writing and addressed to: Ms. Susan E. Propper, Assistant General Counsel, 999 E Street, NW., Washington, DC 20463.

FOR FURTHER INFORMATION CONTACT: Ms. Susan E. Propper, Assistant General Counsel, (202) 219-3690 or (800) 424-9530.

SUPPLEMENTARY INFORMATION: The Federal Election Campaign Act of 1971, as amended, specifies that reports filed by political committees disclose "the identification of each * * * person (other than a political committee) who makes a contribution to the reporting committee * * * whose contribution or contributions (aggregate over $200 per calendar year) * * * together with the date and amount of any such contribution." 2 U.S.C. 434(b)(3)(A). For an individual, identification means his or her full name, mailing address, occupation and employer. 2 U.S.C. 431(13) and 11 CFR 100.12. The FECA and the Commission's regulations require treasurers of political committees to exercise best efforts to obtain and report the identification of such contributors. 2 U.S.C. 432(i) and 11 CFR 104.7(b). To satisfy the best efforts requirement, the treasurer must make at least one written or oral request per solicitation.

Under the present regulations, if the solicitation corresponding to a contribution requests the information and notifies the solicitee that the committee is required by law to report such information, no further action need be taken. But experience shows that the request for the information and the notice about reporting requirements often appear in small type and in a way that does not adequately convey their importance. Moreover, current regulations do not clarify what responsibilities a committee has if the contribution does not correspond to a particular solicitation and it is impossible to know if the proper request and notice were provided. These weaknesses in the current "best efforts" regulations appear to have led to a significant percentage of incomplete itemizeable contributions for some committees.

Accordingly, the Commission is seeking comment on a proposal requiring that a committee request the information and provide proper notice that reporting is required regarding any contribution received for which the information is lacking. This would ensure that a committee send out a written request with a proper notice, or make a telephone contact documented in writing with such request and notice, even if the solicitation associated with the contribution asked for the information. Requiring a separate and distinct request, with an accompanying notice of the reporting requirement, will emphasize the importance of providing the information and will be more in line with the true meaning of "best efforts." It also will clarify a committee's responsibilities regarding unsolicited contributions lacking the proper itemization information.

The Commission is also considering adding new language to 11 CFR 104.7(b) to address the reporting of contributor identifications. The new language would clarify that when political committees do not have complete contributor identifications at the time they file reports, they must include whatever information is available. Political committees have an obligation to file amended reports if additional contributor information is obtained after the applicable reporting period. The FECA and the Commission's regulations require that committee treasurers use best efforts not only to obtain and maintain, but also to submit the information required. Accordingly, the proposed new language would indicate that an amended Schedule A should be filed listing the full name of each contributor, his or her mailing address, occupation, and employer, together with the amount and date of the contribution. These changes are intended to promote more timely and complete reporting of contributor information.

The Commission also is considering adding new language that would make it clear that a committee treasurer is required to report all contributor information which is not provided by the contributor but which is, in fact, known by the committee treasurer or the treasurer's agents. For example, if a contributor fails to disclose his or her employer and address to the committee but the treasurer knows the contributor's employer and address, the treasurer would be obligated to report the information in the committee's reports. The treasurer is responsible for exercising "*best* efforts . . . to obtain, maintain and submit the information required by the Act." 2 U.S.C. 432(i) (emphasis added).

The Commission welcomes comments on the foregoing proposed amendment to 11 CFR 104.7 and the issues raised in this notice.

List of Subjects In 11 CFR Part 104

Campaign funds, Political candidates, Political committees and parties, Reporting requirements.

Certification of No Effect Pursuant To 5 U.S.C. 605(B) (Regulatory Flexibility Act)

These proposed rules will not, if promulgated, have a significant economic impact on a substantial

number of small entities. The basis for this certification is that any small entities affected are already required to comply with the requirements of the Act in these areas.

For the reasons set out in the preamble, it is proposed to amend subchapter A, chapter I of title 11 of the Code of Federal Regulations as follows:

PART 104—REPORTS BY POLITICAL COMMITTEES

1. The authority citation for Part 104 would continue to read as follows:

Authority: 2 U.S.C. 431(1), 431(8), 431(9), 432(i), 434, 438(a)(8), 438(b).

2. Section 104.7 would be amended by revising paragraph (b) to read as follows:

§ 104.7 Best efforts (2 U.S.C. 432(i)).

* * * * *

(b) With regard to reporting the identification as defined at 11 CFR 100.12 of each person whose contribution(s) to the committee and its affiliated committees aggregate in excess of $200 in a calendar year (pursuant to 11 CFR 104.3(a)(4)), the treasurer will not be deemed to have exercised best efforts to obtain the required information unless each solicitation requests the information, and for each contribution received that lacks the required information, the treasurer has made at least one effort after the receipt of the contribution to obtain the missing information. Such effort shall be made by a written request sent to the contributor or by oral contract with the contributor documented in writing. The request must clearly ask for the missing information and inform the contributor that the committee is required by law to report the name, mailing address, occupation, and name of employer of each individual whose contributions aggregate over $200 in a calendar year. Notwithstanding the foregoing, a treasurer will not be deemed to have exercised best efforts unless he or she has reported all contributor information not provided by the contributor but, in fact, known by the treasurer or the treasurer's agents. All information in the committee's possession regarding contributor identifications must be reported in accordance with 11 CFR 104.3. If any of this information is received after the contribution has been disclosed on a regularly scheduled report, the identification shall be reported on an amended Schedule A together with the date and amount of the contribution.

Dated: September 18, 1992.

Joan D. Aikens,

Chairman, Federal Election Commission.

BILLING CODE 6715-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 92-NM-147-AD]

Airworthiness Directives; Aerospatiale Model ATR-42 and ATR-72 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to all Aerospatiale Model ATR-42 and ATR-72 series airplanes. This proposal would require a one-time general visual inspection of certain door linings and door posts to determine the date of manufacture, and replacement, if necessary. This proposal is prompted by results of inspections, which have revealed that the fire resistance of certain painted door linings may be inadequate. The actions specified by the proposed AD are intended to prevent increased risk of injury to the passengers and crew members in the event of a fire within the airplane cabin.

DATES: Comments must be received by October 28, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-147-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Aerospatiale, 316 Route de Bayonne, 31060 Toulouse, Cedex 03, France. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Lium, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone (206) 227-1112; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92-NM-147-AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM-103, Attention: Rules Docket No. 92-NM-147-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

Discussion

The Direction Générale de l'Aviation Civile (DGAC), which is the airworthiness authority for France, recently notified the FAA that an unsafe condition may exist on all Aerospatiale Model ATR-42 and ATR-72 series airplanes. The DGAC advises that results of inspections performed by the manufacturer have revealed that the fire resistance of certain painted door linings may be inadequate. In addition, subsequent applications of additional finish paint could aggravate this situation. This condition, if not corrected, could result in increased risk of injury to the passengers and crew members in the event of a fire within the airplane cabin.

Aerospatiale has issued Service Bulletins ATR42-25-0084, dated April 10, 1992, and ATR72-25-1025, Revision 1, dated May 18, 1992, which describe procedures to perform a one-time general visual inspection of certain door linings and door posts to determine the date of manufacture. Aerospatiale has also issued Service Bulletin ATR42-25-0075 and ATR72-25-1020, both dated September 4, 1991, which describe procedures for replacement of certain door lining elements with new upgraded elements. The DGAC classified these service bulletins as mandatory and issued French Airworthiness Directives 92-045-011(B) and 92-043-045(B) in order to assure the continued airworthiness of these airplanes in France.

This airplane model is manufactured in France and is type certificated for operation in the United States under the provisions of Section 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the DGAC has kept the FAA informed of the situation described above. The FAA has examined the findings of the DGAC, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, the proposed AD would require a one-time general visual inspection of certain door linings and door posts to determine the date of manufacture, and replacement of certain door lining elements with new upgraded elements. The actions would be required to be accomplished in accordance with the service bulletins described previously.

The FAA estimates that 99 airplanes of U.S. registry would be affected by this proposed AD, that it would take approximately 1 work hour per airplane to accomplish the proposed actions, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $5,445. This total cost figure assumes that no operator has yet accomplished the proposed requirements of this AD action.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES.**

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Aerospatiale: Docket 92-NM-147-AD.

Applicability: All Model ATR-42 and ATR-72 series airplanes, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent increased risk of injury to the passengers and crew members in the event of a fire within the airplane cabin, accomplish the following:

(a) Within 2 years after the effective date of this AD, remove the door linings and door posts, and perform a general visual inspection to determine the date of manufacture, in accordance with Aerospatiale Service Bulletin ATR42-25-0084, dated April 10, 1992, or ATR72-25-1025, Revision 1, dated May 18, 1992, as applicable.

(1) If the door linings or door posts were manufactured prior to January 15, 1990, prior to further flight, replace with linings or posts manufactured after January 15, 1990, in accordance with Aerospatiale Service Bulletin ATR42-25-0075, dated September 4, 1991, or ATR72-25-1020, dated September 4, 1991, as applicable.

(2) If the door linings or door posts were manufactured on or after January 15, 1990, reinstall the linings and posts. No further action is required by this AD.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on August 24, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 92-23180 Filed 9-23-92; 8:45 am]

14 CFR Part 39

[Docket No. 92-NM-150-AD]

Airworthiness Directives; Airbus Industrie Model A300 B2, A300 B4, A310, and A300-600 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Airbus Industrie Model A300 B2, A300 B4, A310, and A300-600 series airplanes. This proposal would require revising the Airplane Flight Manual (AFM) to change the data concerning maximum V_1 speed and accelerate stop distance to be used to determine takeoff performance. This proposal is prompted by results of certification test flights. The actions specified by the proposed AD are intended to prevent the airplane from overrunning the available runway length in the event of a rejected takeoff (RTO).

DATES: Comments must be received by October 20, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-103,

Attention: Rules Docket No. 92–NM–150–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056. Comments may be inspected at this location between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700, Blagnac, France. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Holt, Aerospace Engineer, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055–4056; telephone (206) 227–2140; fax (206) 227–1320.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92–NM–150–AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM–103, Attention: Rules Docket No. 92–NM–150–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056.

Discussion

The Direction Générale de l'Aviation Civile (DGAC), which is the airworthiness authority for France, recently notified the FAA that an unsafe condition may exist on certain Airbus Industrie Model A300 B2, A300 B4, A310, and A300–600 series airplanes. The DGAC advises that certification test flights of the affected airplanes determined that the braking distance necessary for maximum energy rejected takeoffs (RTO's) was found to be about 20% longer than the distance initially certificated. The increased braking distance is attributed to changes in the manufacturing process of the brakes installed on these airplanes. This condition, if not corrected, could cause the airplane to overrun the available runway length and any stopway available in the event of an RTO.

Airbus Industrie has issued Model A300 Airplane Flight Manual (AFM) Temporary Revision 5.02.00/1, dated December 4, 1991; Model A310 AFM Temporary Revision 5.04.00/3, dated February 13, 1992; Model A310 AFM Temporary Revision 5.04.00/1, dated October 22, 1991; Model A310 AFM Temporary Revision 5.04.00/4, dated March 6, 1992; Model A300–600 AFM Temporary Revision 5.04.00/1, dated November 4, 1991; and Model A300–600 AFM Temporary Revision 5.04.00/2, dated December 4, 1991. These documents describe procedures for revising the AFM to change the data concerning the maximum V_1 accelerate stop distance to be used during a high energy RTO. The DGAC classified these AFM temporary revisions as mandatory and has issued French Airworthiness Directive 92–156–133(B), dated July 22, 1992, in order to assure the continued airworthiness of these airplanes in France.

These airplane models are manufactured in France and are type certificated for operation in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the DGAC has kept the FAA informed of the situation described above. The FAA has examined the findings of the DGAC, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, the proposed AD would revise the FAA-approved AFM to change the data concerning the maximum braking to be used distance during a high energy RTO. The actions would be required to be accomplished in accordance with the AFM temporary revisions described previously.

The FAA estimates that 127 airplanes of U.S. registry would be affected by this proposed AD, that it would take approximately 0.5 work hour per airplane to accomplish the proposed actions, and that the average labor rate is $55 per work hour. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $3,492. This total cost figure assumes that no operator has yet accomplished the proposed requirements of this AD action.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Airbus Industrie: Docket 92–NM–150–AD.

Applicability: **Model A300 B2, A300 B4, A310, and A300–600 series airplanes;** equipped with **Messier Bugatti carbon brakes;** certificated in any category.

Compliance: Required as indicated, unless accomplished previously. To prevent overrunning the available runway length during a rejected takeoff (RTO), accomplish the following:

(a) Within 30 days after the effective date of this AD, revise the Limitations Section of the FAA-approved Airplane Flight Manual (AFM) to change the data concerning the accelerate stop distance to be used during a RTO, in accordance with either Model A300 AFM Temporary Revision 5.02.00/1, dated December 4, 1991; Model A310 AFM Temporary Revision 5.04.00/3, dated February 13, 1992; Model A310 AFM Temporary Revision 5.04.00/1, dated October 22, 1991; Model A310 AFM Temporary Revision 5.04.00/4, dated March 6, 1992; Model A300–600 AFM Temporary Revision 5.04.00/1, dated November 4, 1991; and Model A300–600 AFM Temporary Revision 5.04.00/2, dated December 4, 1991; as applicable.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standardization Branch, ANM–113.

Note: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on August 19, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

14 CFR Part 39

[Docket No. 92–NM–90–AD]

Airworthiness Directives; British Aerospace Model DH/HS/BAe 125 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain British Aerospace Model DH/HS/BAe 125 series airplanes. This proposal would require modification of the Generator Control Unit (GCU) circuitry. This proposal is prompted by a report of damaged, loose, or disconnected GCU ground (earth) wires, resulting in excessive voltage output, and subsequent overheating of the battery and/or damage to voltage-sensitive avionics equipment. The actions specified by the proposed AD are intended to prevent uncontrolled excessive voltage, which could result in overheating of the battery and/or damage to voltage-sensitive avionics equipment.

DATES: Comments must be received by November 23, 1992.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM–103, Attention: Rules Docket No. 92–NM–90–AD, 1601 Lind Avenue SW., Renton, Washington 98055–4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

The service information referenced in the proposed rule may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041–0414. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington.

FOR FURTHER INFORMATION CONTACT: Hank Jenkins, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055–4056; telephone (206) 227–2141; fax (206) 227–1320.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications shall identify the Rules Docket number and be submitted in triplicate to the address specified above. All communications received on or before the closing date for comments, specified above, will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 92–NM–90–AD." The postcard will be date stamped and returned to the commenter.

Availability of NPRMs

Any person may obtain a copy of this NPRM by submitting a request to the FAA, Transport Airplane Directorate, ANM–103, Attention: Rules Docket No. 92–NM–90–AD, 1601 Lind Avenue SW., Renton, Washington 98055–4056.

Discussion

The Civil Aviation Authority (CAA), which is the airworthiness authority for the United Kingdom, recently notified the FAA that an unsafe condition may exist on certain British Aerospace Model DH/HS/BAe 125 series airplanes. The CAA advises that a case has been reported of damaged, loose, or disconnected GCU ground (earth) wires that resulted in excessive voltage output, subsequent overheating of the battery, and damage to voltage-sensitive avionics equipment. The following damaged avionics equipment was repaired or replaced following the incident: three autopilot units, No. 1 distance measuring equipment (DME), the angle of attack system, one pitot heater, the left-hand attitude director indicator, the left-hand audio panel, and the left-hand taxi lights. Loss of the function of such equipment could comprise the safe operation of the airplane.

British Aerospace has issued Service Bulletin SB.24–289–3267A,B,C,D,E,F, & G, Revision 1, dated April 10, 1992, which describes procedures for modification of the GCU circuitry. The modification improves the generator ground (earth) circuitry, reducing the probability of loose and/or damaged wiring. It also involves the addition of latching relays to prevent uncontrolled overvoltage damage in the future if the ground circuitry should inadvertently become damaged again. The CAA classified this service bulletin as mandatory.

This airplane model is manufactured in the United Kingdom and is type

certificated for operation in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable bilateral airworthiness agreement. Pursuant to this bilateral airworthiness agreement, the CAA has kept the FAA informed of the situation described above. The FAA has examined the findings of the CAA, reviewed all available information, and determined that AD action is necessary for products of this type design that are certificated for operation in the United States.

Since an unsafe condition has been identified that is likely to exist or develop on other airplanes of the same type design registered in the United States, the proposed AD would require modification of the GCU circuitry. The actions would be required to be accomplished in accordance with the service bulletin described previously.

The FAA estimates that 360 airplanes of U.S. registry would be affected by this proposed AD. It would take approximately 20 work hours per airplane to accomplish the modification on 351 airplanes, and 30 work hours per airplane to accomplish the modification on the other 9 airplanes. The average labor rate is $55 per work hour. Required parts would costs approximately $1,250 per airplane. Based on these figures, the total cost impact of the proposed AD on U.S. operators is estimated to be $850,950. This total cost figure assumes that no operator has yet accomplished the proposed requirements of this AD action.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft regulatory evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption "**ADDRESSES.**"

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. App. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

British Aerospace: Docket 92–NM–90–AD.

Applicability: Model DH/HS/BAe 125 series airplanes equipped with Garrett engines; as listed in British Aerospace Service Bulletin SB.24–289–3267A,B,C,D,E,F &G, Revision 1, dated April 10, 1992; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent battery overheating and/or damage of voltage sensitive avionics equipment, accomplish the following:

(a) Within 180 days after the effective date of this AD, modify the Generator Control Circuit (GCU) circuitry in accordance with British Aerospace Service Bulletin SB.24–289–3267A,B,C,D,E,F & G, Revision 1, dated April 10, 1992.

(b) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM–113, FAA, Transport Airplane Directorate. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Standardization Branch, ANM–113.

Note: Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Standardization Branch, ANM–113.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

Issued in Renton, Washington, on July 10, 1992.

Bill R. Boxwell,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Part 142

Exportation Following Special Permit for Immediate Delivery

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Customs Regulations by allowing a direct exportation entry to be filed, instead of an entry summary for consumption, on merchandise released under a special permit for immediate delivery which is exported prior to the expiration of the time-period for filing entry documentation. Presently, only fresh fruits and vegetables for human consumption, absolute quota, and prohibited merchandise may be exported upon the filing of a transportation and exportation entry or direct exportation entry. However, all other eligible merchandise released under an immediate delivery permit, when exported prior to the expiration of the prescribed time-period for filing entry documentation, still requires the filing of an entry summary followed by a same condition drawback entry for the duty refund. It is proposed that when the released goods are exported before the expiration of the time-period for filing entry documentation, an importer will no longer be required to file an entry summary, pay the duties and then file a same condition drawback claim for the duty refund. By implementing this proposed change, there would be a savings in time and money for both the trade and the Customs Service.

DATES: Comments must be received on or before November 23, 1992.

ADDRESSES: Comments (preferably in triplicate) must be submitted to and may be inspected at the Regulations and Disclosure Law Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., room 2119, Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: Kevin Weeks, Entry Operations Branch,

Office of Trade Operations (202–927–1083).

SUPPLEMENTARY INFORMATION:

Background

Section 448(b), Tariff Act of 1930, as amended (19 U.S.C. 1448(b)), provides that the Secretary of the Treasury is authorized to provide by regulations for the issuing of special permits for delivery, prior to formal entry thereof, of perishable articles and other articles, the immediate delivery of which is necessary. Such a permit may be issued for such articles for which delivery can be permitted with safety to the revenue in order to avoid unusual loss or inconvenience to an importer or to the carrier bringing the merchandise to the port.

Customs has interpreted the term "formal entry" in 19 U.S.C. 1448(b) to mean the process of making entry and does not specify a kind of entry. Presently, only fresh fruits and vegetables for human consumption, absolute quota, and prohibited merchandise may be exported upon the filing of a transportation and exportation entry or direct exportation entry. However, all other eligible merchandise released under an immediate delivery permit (19 CFR 142.21) when exported prior to the expiration of the prescribed time-period for filing entry documentation (19 CFR 142.23) still requires the filing of an entry summary followed by a same condition drawback entry under 19 U.S.C. 1313(j)(1) for the refund of duties.

After reviewing the present regulatory language of section 142.22(b)(3) of the Customs Regulations, Customs believes that it may be appropriate to expand paragraph (b)(3)'s coverage regarding direct exportation to all goods eligible for special permit for immediate delivery when these goods, which are conditionally released, are exported before entry is required to be made pursuant to 19 CFR 141.68(c). See 19 CFR 142.23. Customs believes that this action is not inconsistent with 19 U.S.C. 1448(b). It is proposed that when the released goods are exported before the expiration of the time-period for filing entry documentation, an importer will no longer be required to file an entry summary and pay the duties. Filing a direct exportation entry, in lieu of an entry summary, eliminates the need for the importer to also file a same condition drawback claim under 19 U.S.C. 1313(j)(1) and receive a refund of only 99% of the duties paid. Please note, however, that since estimated duties are not required to be filed until 10-working days after the merchandise was released (19 CFR 142.23) under an application for special permit for immediate delivery, when a direct export entry is utilized instead of an entry summary, no refund of duties is necessary since no duties were paid. See 19 U.S.C. 1557; 19 CFR part 191, subpart M. By implementing this proposed change, there would be a savings in time and money for both the trade and the Customs Service. This change is being made to facilitate trade by reducing the paperwork burden and associated costs in human and financial resources for both importers and the Customs field offices.

Comments

Before adopting this proposal, consideration will be given to any written comments (preferably in triplicate) that are timely submitted to Customs. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 1.4), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), during regular business days between the hours of 9:00 a.m. and 4:30 p.m., at the Regulations and Disclosure Law Branch, room 2119, Customs Headquarters, 1301 Constitution Avenue, NW., Washington, DC.

Regulatory Flexibility Act

Based on the discussion above, and pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), it is hereby certified that the proposed amendments set forth in this document, if adopted, will not have a significant economic impact on a substantial number of small entities. Accordingly, they are not subject to the regulatory analysis or other requirements of 5 U.S.C. 603 and 604.

Executive Order 12291

This document does not meet the criteria for a "major rule" as specified in § 1(b) of E.O 12291. Accordingly, a regulatory impact analysis is not required.

Drafting Information

The principal author of this document was Joanne Stump, Entry Rulings Branch, U.S. Customs Service. However, personnel from other offices participated in its development.

List of Subjects in Part 142

Customs duties and inspection, Imports.

Proposed Amendment

It is proposed to amend part 142, Customs Regulations (19 CFR part 142), as set forth below.

PART 142—ENTRY PROCESS

1. The general authority citation for part 142 would continue to read as follows:

Authority: 19 U.S.C. 66, 1448, 1484, 1624.

2. It is proposed to revise paragraph (b)(3) of section 142.22 to read as follows:

§ 142.22 Application for special permit for immediate delivery.

* * * * *

(b) * * *

(3) An entry for transportation and exportation, immediate transportation without appraisement, or direct exportation, which shall be filed in those circumstances under § 142.21(b) and (e)(2) of this part; or entry for transportation and exportation, or direct exportation, which shall be filed in the circumstances under § 142.28 of this part; or an entry for direct exportation for those released articles which are exported before the expiration of the prescribed time-period of § 142.23 or

19 CFR Parts 151 and 152

Electronic Transmission of Customs Forms 28 and 29

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Customs Regulations to provide that entry filers who have access to the Automated Broker Interface (ABI) may elect to receive Customs Form 28, Request for Information, and Customs Form 29, Notice of Action, electronically through ABI. This proposal, if adopted, will eliminate the expense of preparing and handling certain paper documents.

DATES: Comments must be received on or before November 23, 1992.

ADDRESSES: Written comments (preferably in triplicate) may be addressed to and inspected at the

Regulations and Disclosure Law Branch, room 2119, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: Richard J. Bonner, Office of Automated Commercial Systems, (202) 927-1081.

SUPPLEMENTARY INFORMATION:

Background

The Automated Commercial System (ACS) of Customs is a public-private computerized data processing telecommunications system, linking customhouses, members of the import trade community, and other government agencies with the Customs computer. Trade users file import data required by Customs and other agencies electronically, receive needed information on cargo status electronically, and may query Customs electronic files in preparing their submissions. Duties, taxes, and fees may be paid by electronic statement, through a Treasury-approved clearinghouse bank.

The Automated Broker Interface (ABI), a module of ACS, is used by entry filers to transmit electronic entry declarations and associated transactions to Customs, and to receive entry processing results from Customs. The system currently can be used by customs brokers and importers and software vendors having ABI capabilities. All of the trade users participate voluntarily.

Customs uses the data received from the trade in many ways: to control and release cargo, develop and verify foreign trade statistics, value and classify merchandise, verify visas and administrative quotas, collect $18 billion in duty, taxes, fees and other revenue, and enforce trade laws and regulations (some 400 laws for 40 agencies). Information about the disposition of cargo for Customs and other agencies is communicated to both trade and other agency users through ACS electronically.

Automation of Customs Forms 28 and 29 would be another step in the elimination of paperwork, resulting in the further streamlining of Customs and trade community procedures.

Current Procedures

To determine the correct classification and valuation of imported merchandise, it is sometimes necessary for the district director to obtain samples of merchandise or other information necessary for the classification or appraisement of the merchandise. Section 151.11, Customs Regulations (19 CFR 151.11), requires that the district director send Customs Form 28, Request for Information, to the importer in order to request samples or additional examination packages of merchandise which have been released from Customs custody. Current procedures provide that a copy of the Customs Form 28 be provided to the importer's customs broker. The appropriate Customs officer prepares the form manually.

After Customs determines the classification of merchandise and appraises it, if the district director believes the entered rate or value of any merchandise is too low, or if he finds that the quantity imported exceeds the entered quantity, § 152.2, Customs Regulations (19 CFR 152.2) provides that the district director shall send Customs Form 29, Notice of Action, to the importer if the estimated aggregate of the increase in duties on that entry exceeds a certain amount of money. A copy of Customs Form 29 is also provided to the importer's customs broker. The form is prepared by the appropriate Customs officer manually.

Proposed Procedures

This document proposes that in lieu of preparing Customs Forms 28 and 29 manually, the Customs officer will prepare the forms on an ACS computer system terminal. If the referenced entry was filed electronically via ABI, and the entry filer elects to receive Customs Forms 28 and 29 electronically, the information will be transmitted to the entry filer electronically via ABI and no documents will be mailed by Customs. If the ABI entry filer is a Customs broker, as agent for the importer, it will be the responsibility of the customs broker ABI entry filer to provide this information to the importer.

If the entry filer does not elect to receive Customs Forms 28 and 29 electronically, the ACS system will automatically generate the printed forms and Customs will mail the forms to the importer and/or customs broker according to current procedures.

Comments

Before adopting this proposal, consideration will be given to any written comments (preferably in triplicate) that are timely submitted to Customs. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 1.4), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), on regular business days between the hours of 9 a.m. and 4:30 p.m. at the Regulations and Disclosure Law Branch, room 2119, Customs Headquarters, 1301 Constitution Avenue, NW., Washington, DC 20229.

Executive Order 12291

Because this document merely provides for an alternative means of communicating information to trade users, the document does not meet the criteria for a "major rule" as defined in section 1(b) of E.O. 12291. Accordingly, no regulatory impact analysis has been prepared.

Regulatory Flexibility Act

For the same reason stated in the above paragraph, pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), it is certified that, if adopted, the proposed amendments will not have a significant economic impact on a substantial number of small entities. Accordingly, the proposed amendments are not subject to the regulatory analysis requirements of 5 U.S.C. 603 and 604.

Drafting Information

The principal author of this document was Harold M. Singer, Regulations and Disclosure Law Branch, U.S. Customs Service, however, personnel from other offices participated in its development.

List of Subjects

19 CFR Part 151

Cigars and cigarettes, Cotton, Customs duties and inspection, Fruit juices, Laboratories, Metals, Oil Imports, Reporting and recordkeeping requirements, Sugar, Wool.

19 CFR Part 152

Customs duties and inspection.

Proposed Amendments

It is proposed to amend parts 151 and 152 of the Customs Regulations (19 CFR parts 151,152) as set forth below:

PART 151—EXAMINATION, SAMPLING, AND TESTING OF MERCHANDISE

1. The general authority citation for part 151, Customs Regulations, and specific authority citation for Subpart A would continue to read as follows:

Authority: 19 U.S.C. 66, 1202 (General Notes 8 and 9, Harmonized Tariff Schedule of the United States), 1624. Subpart A also issued under 19 U.S.C. 1499. * * *

2. it is proposed to revise § 151.11 to read as follows:

§ 151.11 Request for samples or additional examination packages after release of merchandise.

If the district director requires samples or additional examination packages of merchandise which have been released from Customs custody or needs other information for the classification or appraisement of the merchandise, he shall send the importer a written request, on Customs Form 28, Request for Information, or other appropriate form, to submit the necessary information, samples or packages. Alternatively, if the entry filer elects to receive the Customs Form 28 electronically through ABI, the district director will transmit the form electronically to the ABI entry filer. If the entry filer is a Customs broker, he is responsible for providing this information to the importer. If the request is not promptly complied with, the district director may make a demand under the bond for return of the necessary merchandise to Customs custody in accordance with § 141.113 of this chapter.

PART 152—CLASSIFICATION AND APPRAISEMENT OF MERCHANDISE

1. The general authority citation for part 152 would continue to read as follows:

Authority: 19 U.S.C. 66, 1401a, 1500, 1502, 1624; * * *

2. It is proposed to amend § 152.2 by adding a new second and third sentence to read as follows:

§ 152.2 Notification to importer of increased duties.

* * * Alternatively, if the entry filer elects to receive Customs Form 29 electronically through ABI, the district director will transmit the form electronically to the ABI entry filer. If the entry filer is a Customs broker, he is responsible for providing this information to the importer. * * *

Approved: September 17, 1992.

Peter K. Nunez,

Assistant Secretary of the Treasury.

Carol Hallett,

Commissioner of Customs.

19 CFR Part 191

Appeal to Headquarters of Denial of Exporter's Summary Procedure to a Drawback Claimant

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Customs Regulations to provide an appeal to Customs Headquarters for drawback claimants that are denied the use of the Exporter's Summary Procedure (ESP), or whose ESP privileges are revoked. Currently, appeals are reviewed by the same regional office that made the original decision to deny or revoke the privilege. This amendment will provide a regulatory right for having an impartial review.

DATES: Comments must be received on or before November 23, 1992.

ADDRESSES: Written comments (preferably in triplicate) may be addressed to and inspected at the Regulations and Disclosure Law Branch, room 2119, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: Bruce Friedman, Office of Trade Operations, Entry Division, 202–927–0916.

SUPPLEMENTARY INFORMATION:

Background

Drawback is defined in § 191.2(a) of the Customs Regulations (19 CFR 191.2(a)), as a refund or remission, in whole or part, of a customs duty, internal revenue tax, or fee lawfully assessed or collected, because of a particular use made of the merchandise on which the duty, tax, or fee was assessed or collected. To obtain drawback, a claimant must show that the eligible merchandise was exported. In order to improve administrative efficiency in providing proof of exportation, under procedures set forth in § 191.53, Customs Regulations (19 CFR 191.53), an exporter-claimant may use a procedure called the Exporter Summary Procedure (ESP). This procedure allows claimants to provide Customs with a chronological summary of exports in lieu of actual documentary evidence of exportation. To use ESP a drawback claimant must receive approval from the regional commissioner where the drawback claim will be filed. Permission to use this procedure will be granted if the regional commissioner concludes that its use would contribute to administrative efficiency, and the exporter claimant is not delinquent or otherwise remiss in his transactions with Customs.

If it is decided to deny a request for ESP or to revoke ESP privileges, a letter to that effect will be sent to the claimant explaining what corrective action must be taken. This letter will also include a time frame in which the applicant/claimant may reapply for the privilege.

Currently, if a drawback claimant is denied the use of ESP, the only recourse available is to appeal to the same Customs regional office that made the original decision to deny or revoke the ESP privileges. This proposal will provide claimants with a regulatory right to have decisions to revoke or deny ESP impartially reviewed by the Office of Trade Operations of the Office of Commercial Operations at Customs Headquarters.

Comments

Before making a determination in this matter, Customs will consider any written comments timely submitted. Comments will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 1.4), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), on regular business days between the hours of 9 a.m. and 4:30 p.m. at the Regulations and Disclosure Law Branch, room 2119, Customs Headquarters, 1301 Constitution Avenue, NW., Washington, DC.

Regulatory Flexibility Act

Pursuant to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), it is certified, for the reasons stated in this preamble, that the proposed amendments set forth in this document, if adopted, will not have a significant economic impact on a substantial number of small entities. Accordingly, the amendments are not subject to the regulatory analysis requirements of 5 U.S.C. 603 and 604.

Executive Order 12291

This document does not meet the criteria for a "major rule" as specified in 1(b) E.O. 12291. Accordingly, a regulatory impact analysis is not required.

Drafting Information

The principal author of this document was Sheryl Rosenow, Entry Rulings Branch, U.S. Customs Service. However, personnel from other Customs offices participated in its development.

List of Subjects in 19 CFR Part 191

Claims, Customs duties and inspection, Exports, Reporting and recordkeeping requirements.

Proposed Amendments

It is proposed to amend part 191 of the Customs Regulations (19 CFR part 191), as set forth below:

PART 191—DRAWBACK

1. The general authority citation for part 191 continues to read as follows:

Authority: 5 U.S.C. 301, 19 U.S.C. 66, 1202 (General Note 8, Harmonized Tariff Schedule of the United States), 1313, 1624.

* * * * *

2. It is proposed to amend § 191.53, by adding a paragraph (f) to read as follows:

§ 191.53 Exporter's summary.

* * * * *

(f) *Appeals.*

Permission to use this procedure may be denied or revoked by the regional commissioner based on the claimant's prior and continuing record of transactions with Customs. Reasons for denial or revocation may include evidence of inadequate or misrepresented export documentation, export violations, unpaid bills, or lack of adequate documentation to support fungibility or possession requirements (if request for ESP is linked to a specific claim). Upon receipt of a written notice of denial or revocation, the claimant may appeal within 60 days from the date of the notice. Appeals alleging discrepancies in the documentary or evidentiary bases of the revocation or denial shall be made within 60 days to the regional commissioner. All other appeals, including that of denial of an appeal by the regional commissioner, shall be made in writing to the Director, Office of Trade Operations, at Customs Headquarters, within 60 days of the date of notice of the denial or revocation, or denial of an appeal to the regional commissioner. Claimants must include all appropriate documentation with their appeal. Claimants will be notified by Customs of decisions on appeals within 60 days of receipt of the appeal.

Michael H. Lane,

Acting Commissioner of Customs.

Approved: August 28, 1992.

Social Security Administration

20 CFR Part 416

[Regulation No. 16]

RIN 0960-AC97

Exclusion From Income of Gifts of Commercial Transportation Tickets Under the Supplemental Security Income Program

AGENCY: Social Security Administration, HHS.

ACTION: Proposed rule.

SUMMARY: This proposed rule implements section 8011 of Public Law (Pub. L.) 101-239 which amended title XVI of the Social Security Act to provide that effective March 1, 1990, for purposes of determining eligibility or benefit amount under the supplemental security income (SSI) program, the countable income of an individual shall not include the value of any commercial transportation ticket for travel by such individual (or spouse) among the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands, which is received as a gift by such individual (or such spouse) and is not converted to cash. Under this rule the income exclusion will apply to tickets received by eligible individuals or their eligible spouses as well as the ineligible parents and ineligible spouses from whom income may be deemed to the eligible individuals.

DATES: To be sure that your comments are considered, we must receive them no later than November 23, 1992.

ADDRESSES: Comments should be submitted in writing to the Commissioner of Social Security, Department of Health and Human Services, P.O.Box 1585, Baltimore, Maryland 21235, or delivered to the Office of Regulations, 6401 Security Boulevard, Baltimore, Maryland 21235, between 8 a.m. and 4:30 p.m. on regular business days. Comments received may be inspected during these same hours by making arrangements with the contact person shown below.

FOR FURTHER INFORMATION CONTACT: Irving Darrow, Esq., Legal Assistant, Office of Regulations, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235, (410) 966-0512.

SUPPLEMENTARY INFORMATION: For purposes of the SSI program, income is defined at § 416.1102 to mean anything that is received in cash or in kind which can be used to meet an individual's needs for food, clothing, or shelter. Prior to the enactment of section 8011 of Public Law 101-239, if an eligible individual received a transportation ticket for domestic travel as a gift and could convert that ticket to cash to be used to meet food, clothing, or shelter needs, we would consider the surrender value as unearned income to the individual and reduce his or her SSI benefit accordingly.

Section 8011 of Public Law 101-239, effective March 1, 1990, amended section 1612(b) of the Social Security Act by adding paragraph (15). This paragraph provides for the exclusion from income of the value of any commercial transportation ticket for travel by an eligible individual (or spouse) among the 50 States the District of Colombia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands. The exclusion applies if the ticket is received as a gift by the individual (or spouse) and is not converted to cash. The rule being proposed to implement section 8011 of Public Law 101-239 will apply the income exclusion when the gift of transportation tickets is received by the eligible individual or his or her eligible spouse (§ 416.1124(c)(15)). It will also apply when such tickets are received by the ineligible spouse of an eligible individual or the ineligible parent of an eligible individual who is a child, in order that the deeming rules not reduce the SSI payment of, or render ineligible, the individual or child (§ 416.1161(a)(19)). Not to apply the income exclusion in such cases could negate the beneficial effect of section 8011 for certain individuals living with their ineligible spouses and children living with their ineligible parents.

The rule being proposed to implement section 8011 will also provide that when a commercial transportation ticket excluded under section 8011 of Public Law 101-239 is cashed, the cash received is income in the month of receipt. This policy is consistent with the express terms of section 8011 that the value of such a ticket be excluded from income if "not converted to cash." Thus, when a commercial transportation ticket is converted to cash, the exclusion ceases to apply and the cash is counted as income in the month of conversion.

We are also amending § 416.1140(a)(1) to correct a regulatory reference contained therein.

Regulatory Procedures

Executive Order No. 12291

The Secretary has determined that this is not a major rule under Executive Order 12291, since the costs are expected to be less than $100 million and the threshold criteria for a major rule are not otherwise met. Therefore, a regulatory impact analysis is not required.

Regulatory Flexibility Act

We certify that this regulation will not have a significant economic impact on a substantial number of small entities because it will affect only individuals and States. Therefore, a regulatory flexibility analysis as provided in the Regulatory Flexibility Act, 5 U.S.C. 601 through 612, is not required.

Paperwork Reduction Act

This regulation does not impose reporting and recordkeeping requirements necessitating clearance by the Office of Management and Budget.

Dated: March 9, 1992.

Gwendolyn S. King,

Commissioner of Social Security.

Approved: April 10, 1992.

Louis W. Sullivan,

Secretary of Health and Human Services.

Part 416 of title 20 of the Code of Federal Regulations is amended as follows:

1. The authority citation for subpart K of part 416 is revised to read as follows:

Authority: Secs. 1102 and 1602, 1611, 1612, 1613, 1614(f), 1621 and 1631 of the Social Security Act; 42 U.S.C. 1302, 1381a, 1382, 1382a, 1382b, 1382c(f), 1382j, and 1383; sec. 211 of Pub. L. 93–66, 87 Stat. 154.

2. In § 416.1124, the word "and" at the end of paragraph (c)(13) is removed, the period at the end of paragraph (c)(14) is removed and replaced by "; and", and a new paragraph (c)(15) is added to read as follows:

§ 416.1124 Unearned income we do not count.

* * * * *

(c) *Other unearned income we do not count.* We do not count as unearned income—

* * * * *

(15) The value of any commercial transportation ticket, for travel by you or your spouse among the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, The Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands, which is received as a gift by you or your spouse and is not converted to cash. If such a ticket is converted to cash, the cash you receive is income in the month you receive the cash.

§ 416.1140 [Amended]

3. In § 416.1140(a)(1), the reference to "§ 416.1124(c)(10)" is revised to read "§ 416.1124(c)(12)".

4. In § 416.1161, the word "or" at the end of paragraph (a)(14) is removed, the periods at the end of paragraphs (a)(17) and (a)(18) are replaced by semicolons, and a new paragraph (a)(19) is added to read as follows:

§ 416.1161 Income of an ineligible spouse, ineligible parent, and essential person for deeming purposes.

* * * * *

(a) *For an ineligible spouse or parent.*

* * *

* * * * *

(19) The value of a commercial transportation ticket as described in § 416.1124(c)(15). However, if such a ticket is converted to cash, the cash is income in the month your spouse or parent receives the cash.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Chapter I

[FRL–4509–9]

Hazardous Waste Manifest Rulemaking Committee

AGENCY: Environmental Protection Agency.

ACTION: Public meeting.

SUMMARY: We are giving notice of a public meeting of the Hazardous Waste Manifest Rulemaking Committee. The meeting is open to the public without advance registration.

The purpose of the meeting is to discuss organizational matters with regard to the negotiation of a uniform national hazardous waste manifest rule.

DATES: The meeting will be held on October 8 from 2:30 p.m. to 5 p.m. and October 9, 1992 from 9 a.m. to 5 p.m.

ADDRESSES: Location of the meeting will be Hall of States, room 283, 444 North Capitol street, Washington, DC 20001.

FOR FURTHER INFORMATION CONTACT: Persons needing further information on the substantive matters of the rule should contact Rick Westlund, Regulatory Management Division, Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 260–2745. Persons needing further information on procedural matters should call Deborah Dalton, Consensus and Dispute Resolution Program, Environmental Protection Agency, 401 M Street, SW., Washingotn, DC 20460, (202) 260–5495, or Committee's facilitator, Suzanne Orenstein, Resolve, 1250 24th Street, NW., suite 500, Washington, DC 20037, (202) 778–9533.

Dated: September 17, 1992.

Deborah Dalton,

Deputy Director, EPA Consensus and Dispute Resolution Program, Office of Regulatory Management and Evaluation.

National Emission Standards for Hazardous Air Pollutants; Availability: Draft Schedule for the Promulgation of Emission Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability for comment on a draft schedule for the promulgation of emission standards as required under section 112(e) of the Clean Air Act (CAA), as amended in 1990. Section 112(e) requires that EPA publish a schedule for promulgating emission standards for those categories of sources emitting hazardous air pollutants (HAP's) listed under section 112(c). The CAA directs the EPA to publish the final schedule by November 15, 1992, after opportunity for public comment. This notice provides the public with an opportunity to comment on the draft schedule prior to publication of the final schedule. Sources within the listed categories of sources will be subject to emission standards developed in accordance with the final schedule. In the event an applicable standard is not promulgated on schedule for a listed category of sources, the owner or operator of a source in such category may be subject

to emission limitations determined on a case-by-case basis, pursuant to section 112(j). Emission limitations established pursuant to Section 112(j) are required to be equivalent to the limitations that would apply if emission standards had been promulgated according to the schedule.

DATES: *Comments:* Written comments must be received on or before October 26, 1992.

ADDRESSES: Two copies of comments should be sent, one to EPA's Air Docket Section, Room M1500, U.S. EPA, 401 M Street SW., Washington, D.C. 20460, and the other copy should be sent to Mr. Charles French, Pollutant Assessment Branch (MD-13), Emission Standards Division, U.S. EPA, Research Triangle Park, North Carolina 27711.

Relevant information: Relevant information can be found in the **Federal Register** (57 FR 31576; July 16, 1992) notice entitled "Initial List of Categories of Sources Under Section 112(c)(1) of the Clean Air Act Amendments of 1990" and from the document entitled Methodology for the Source Category Ranking System (Docket No. A-91-14, Item II-B-1, located in the Air Docket Section listed below).

Docket: A docket, No. A-91-14, containing information considered by the EPA in development of the preliminary schedule for standards, is available for public inspection and copying between 8:30 a.m. and 3:30 p.m., Monday through Friday, at the EPA's Air Docket Section, Room M1500, U.S. EPA, 401 M Street, S.W. Washington, D.C. 20460. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: For general information and information concerning categories of sources involving the production, handling, refining or use of chemicals or petroleum, or products thereof, contact Mr. David Svendsgaard, Chemicals and Petroleum Branch (MD-13), Emission Standards Division, U.S. EPA, Research Triangle Park, North Carolina 27711, (919) 541-2380. For information concerning categories of sources involving fuel combustion, incineration, metals and minerals processing, contact Mr. William Maxwell, Industrial Studies Branch (MD-13), (919) 541-5430, at the above address. For information concerning pollutant health effects and the Source Category Ranking System, contact Mr. Charles French, Pollutant Assessment Branch (MD-13), (919) 541-0467 at the above address.

SUPPLEMENTARY INFORMATION: The following outline is provided to aid in reading today's notice.

I. Background

A. Initial List of Categories of Sources

A preliminary draft list of over 700 categories and subcategories of sources emitting any of the HAP's listed in section 112(b)(1) of the CAA was developed and published for public comment on June 21, 1991 (56 FR 28548). After consideration of public comment and further EPA review, the preliminary draft list has been revised and now contains 174 categories of sources. This initial list was published in the **Federal Register** (57 FR 31576; July 16, 1992). The reader is referred to that notice for an explanation of the basis for the list of categories of sources.

B. Clean Air Act Requirements for Development of the Schedule for Standards

Section 112(e) of the CAA requires the publication of a schedule for the promulgation of emission standards for listed source categories and subcategories (hereafter referred to as categories), that will result in the promulgation of regulations for all listed categories within 10 years of the date of enactment of the CAA amendments (i.e., by November 15, 2000). The CAA, as amended, requires EPA to promulgate regulations for 40 source categories within 2 years (i.e., by November, 15, 2000); for coke oven batteries by December 31, 1992; for 25 percent of all initially listed categories within 4 years (i.e., by November 15, 1994); for 50 percent of all initially listed categories within 7 years (i.e., by November 15, 1997); and to complete the promulgation of regulations for all initially listed categories within 10 years (i.e., by November 15, 2000).

In determining priorities for promulgating emission standards, section 112(e)(2) specifies three criteria that shall be considered by the EPA. These three criteria are: (1) The known or anticipated adverse effects of HAP's on public health and the environment; (2) the quantity and location of emissions or reasonably anticipated emissions of HAP's that a listed category would emit; and (3) the efficiency of grouping categories according to the pollutants emitted, or the processes or technologies used.

The emission standards promulgation schedule is required to be published by November 15, 1992, after consideration of public comments pursuant to section 112(e)(3) of the CAA. The schedule will establish the time frames for the promulgation of emission standards for each listed category of sources.

Section 112(e)(3) explicitly states that "the determination of priorities for the promulgation of standards * * * is not a rulemaking and shall not be subject to judicial review, except that, failure to promulgate any standard pursuant to the schedule * * * shall be subject to review under section 304 of this Act". Therefore, based on this language, the EPA has determined that the schedule for standards is not considered an EPA rulemaking and is not subject to judicial review, except that action under section 304 is authorized when a deadline is missed.

Section 112(j) provides for additional actions in the event the Administrator fails to meet the schedule for establishing regulations for any listed category of sources. The owner or operator of any major source, in a category for which emissions standards are delayed by more than 18 months from the scheduled date for promulgation of standards, must submit a permit application to the applicable permit authority in compliance with title V of the CAA. This permitting requirement is not applicable until after the effective date of a permit system in a State and not sooner than 42 months after enactment of the CAA amendments (i.e., May 15, 1994). The permit must specify emissions limitations that, on a case-by-case basis, are determined by the Administrator (or the State) to be equivalent to the level of control that would have been required by emission standards established under section 112(d). These permits will be reviewed and approved by the permitting authority on a case-by-case basis.

Section 112(e)(1) requires EPA to develop today's schedule for emission standards based on categories of sources "* * * initially listed for regulation pursuant to Subsection (c)(1) * * *" The EPA has interpreted this to mean that the categories of sources grouped in today's draft schedule for emissions standards must be the same categories as listed in the FEDERAL REGISTER notice entitled "Initial List of Categories of Sources Under section 112(c)(1) of the Clean Air Act Amendments of 1990" Federal Register (57 FR 31576; July 16, 1992). In addition, section 112(d)(1) does not allow the EPA to distinguish between classes, types, and sizes of sources within a category if such action would result in a delay of the compliance date for any source within a category. Hence, once a category is initially defined under the section 112(c)(1) list, the EPA is obligated to establish standards for the entire category according to the schedule published under Section 112(e). Today's draft schedule for emissions standards recognizes this requirement and is consistent with the Section 112(c)(1) list.

While section 112(e)(3) requires EPA, within 24 months after enactment, to set a schedule for promulgating standards for categories listed under section 112(c)(1), it is silent concerning the permissibility of amending that schedule. The EPA has no desire to defer regulation in any way that would compromise reaching the numerical goals established in section 112(e)(1). However, because data on many categories of sources are still very limited, the Agency anticipates that there may be circumstances where revision of the schedule would serve the risk reduction purposes of the Act. For example, the Agency might obtain new information, after publication of the initial schedule, that emissions from some categories scheduled for early regulation pose much less public health and/or environmental concerns then those emissions from categories scheduled to be regulated in a later time frame. Because of resource constraints, it is unlikely that the more hazardous categories could be regulated earlier than planned unless regulation of the less hazardous categories could be deferred. In such case, EPA would wish to comply with the directive in the Conference Report that "[t]he conferees wish to emphasize that in promulgating standards, the EPA should devote its resources first to those pollutants which present the greatest risk to the public health and the environment." (Conference Rept. on S. 1630, H.R. Rept. 101-952, 101st Cong., 2d Sess. at 338, 1990.)

If EPA could (for example) shift five categories from the 10-year time frame to the 4-year time frame, and shift five others from the 4-year-time frame to the 10-year time frame, it might be able to reduce more HAP emissions earlier than it could through a literal adherence to its initial schedule. Accordingly, EPA solicits comment on whether and how the statute might permit EPA the flexibility to adjust the regulatory schedule after publication of the initial schedule.

In addition, the EPA may, at its discretion, establish standards for listed categories or subsequently defined subcategories sooner than scheduled under section 112(e). This option gives the EPA scheduling flexibility in a manner consistent with section 112(d)(1) and enables the EPA to consider broader categories for establishing standards and determining compliance. In this regard, the EPA may aggregate, into a single category on any revised list, categories or subcategories which have been disaggregated on the initial list. This may be done for the purpose of setting a single emission standard for the aggregated category. This would not result in the delay of the compliance date of any listed category.

C. Schedule for Coke Oven Batteries

The CAA establishes a specific time frame for the regulation of coke oven batteries (charging, topside, and door leaks) independent of the draft schedule published today. As specified in section 112(d)(8), EPA is required to promulgate emission standards for this category of sources by December 31, 1992. The CAA requires that the compliance date for emission standards for existing coke oven batteries be December 31, 1995, unless the specific coke oven battery elects to apply, and qualifies for, an extension as provided for in section 112(d)(8).

II. The Draft Schedule for Standards

A. Criteria for Establishing the Schedule

Section 112(e)(2) of the CAA specifies three criteria to be considered in establishing the regulatory schedule for emission standards. These criteria are: the quantity and location of emissions for each category, adverse effects to public health and the environment, and the efficiency of grouping categories. The first two criteria are addressed by the Source Category Ranking System (SCRS) which is discussed later in this notice. The efficiency of grouping criterion considers the potential for maximizing regulatory efficiency by considering the current status of regulatory efforts; and similarities among categories of sources, including emission mechanisms, and emission control technologies. In addition to these criteria, other factors such as the availability of data for standard development and the ability to meet the CAA mandated regulatory deadlines were considered in establishing today's schedule.

The EPA interprets the regulatory schedule mandated by the CAA amendments as the placement of categories into groups to be regulated within the required deadlines for each group. For this reason, the draft schedule published for comment in this notice only shows whether the regulatory effort for a given category of sources is scheduled for completion by November 15, 1992, November 15, 1994, November 15, 1997, or November 15, 2000. This schedule does not establish a strict order in which all the rules for the listed categories of sources will be proposed or promulgated. Rather, it requires that regulations covering a given category of sources be completed by the end of the specified time period. Meeting these deadlines will require the staggering of regulatory development activities. For this reason, and other considerations such as being associated with higher risk to public health, EPA may complete rulemaking procedures for some categories of sources well before the deadlines.

B. Framework of the Source Category Ranking System

1. Introduction

To assist in its effort to meet the statutory requirements for schedule prioritization, EPA developed the Source Category Ranking System (SCRS). The SCRS combines emission estimates, health effects data, and limited population data to rank categories of sources. The result is a scoring system by which a category of sources is ranked in relation to all other listed categories, based on the associated emission estimates, pollutant health effects, and limited population data.

By using information on emissions, toxicity (i.e., health effects) and population the SCRS addresses some of the statutory criteria in section 112(e)(2) for establishing priorities for the development of today's draft schedule for promulgation of emission standards. The SCRS addresses the "* * * quantity and location * * *" criteria under section 112(e)(2)(B). The SCRS also considers a broad range of toxicological effects which address "* * * the known

or anticipated adverse effects * * * on public health * * *" criterion under section 112(e)(2)(A).

The SCRS generates a score for each listed source category based on emissions estimates, estimates of the toxicity of the HAP's, and to a lesser degree, the location of the emitting facilities within a listed source category. Details of the scoring methodology and data input are discussed in subsequent chapters of this notice and in Methodology for the Source Category Ranking System (Docket No. A–91–14, Item No. II–B–1).

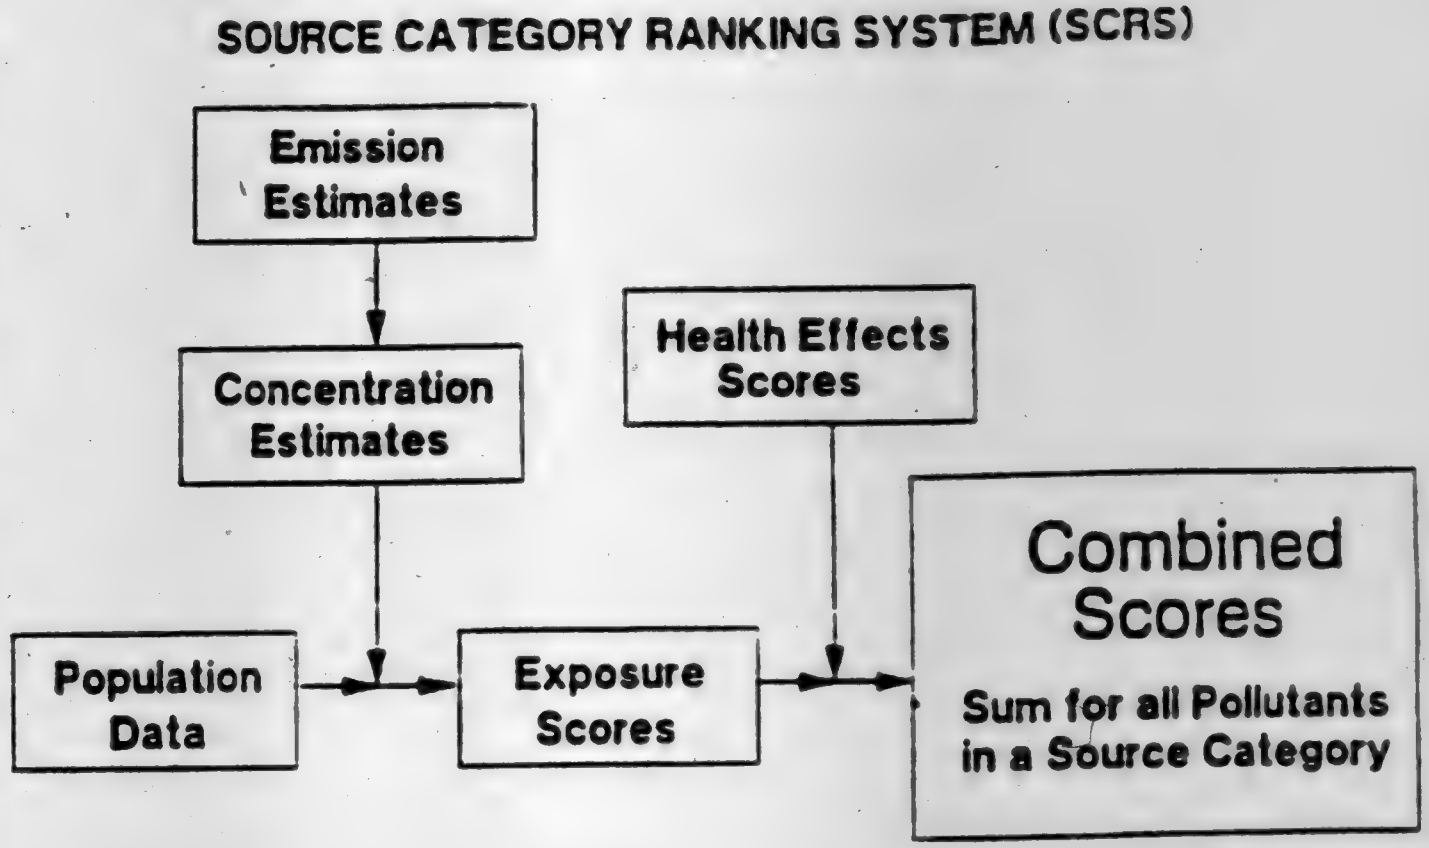
The SCRS does not generate absolute or relative risk, or population exposure estimates. The data incorporated into the SCRS are of greatly varying quality and significance, and the algorithms contain many default assumptions. Therefore, the results of the SCRS should not be misinterpreted. The SCRS was designed as a tool to aid in prioritizing the source categories listed under section 112(c) only, and the results from this system have no other known applications. If a source category has a higher SCRS source than another source category, this does not necessarily mean it presents a greater risk than the lower scoring source category.

The SCRS does not specifically consider adverse environmental effects criterion mentioned under section 112(e)(2)(A). However, the EPA believes that, for the intended purpose of ranking categories of sources, the SCRS results provide an indication of potential adverse environmental effects. Later in today's notice, the EPA solicits comments on this position and on potential methods for the consideration of adverse environmental effects for the ranking of source categories.

A diagram showing the general methodology used in the SCRS is shown in Figure 1. For each HAP within a category of sources, the SCRS developed an exposure score and a health effects score. Together these scores produced a combined score for each HAP; the combined scores were then summed to produce an overall source category score. The categories of sources were then ranked according to their source category scores. The development of these scores will be discussed in the following sections.

BILLING CODE 6560–50–M

Figure 1. Schematic Diagram of the Source Category Ranking System Methodology



BILLING CODE 6560-50-M

2. Exposure Score

The exposure score is derived by processing emissions estimates through simplified dispersion algorithms. However, because of greatly varying quality of data and many assumptions, this exposure score does not represent actual population exposure and is not considered an exposure assessment. The exposure score for each category of sources in the SCRS is a function of the estimated HAP emissions from the category, simplified dispersion algorithms, and limited population information which is either national average population density, county average population density, or an assumed maximally exposed individual. Emission estimates were an integral part, and by far the most significant variable, of the exposure score calculations. Emissions data were processed through simplified atmospheric dispersion algorithms to estimate ambient pollutant concentrations. Dispersion parameters were assumed to be constant for all pollutants and sources in the SCRS scoring. The resultant ambient concentrations were then multiplied by population data to obtain exposure scores.

For each category of sources, the emissions estimation technique depended on whether or not emissions data for the category of sources was composed of individual point source data. If individual point source data were available, the SCRS modeled emissions from each point source in a category. For these categories, emissions were estimated by gathering data from individual point source. For categories for which individual point source data were not available, emissions were estimated in aggregate for the entire category of sources and modeled as area sources. For this reason, the term "area source," as used in the SCRS, does not have the same meaning as defined in section 112(a) of the CAA. Rather, "area sources" is the SCRS means a source whose emissions are not considered to be released from specific points. In order to improve clarity, these sources will be called "model area sources" within this notice. In the SCRS, model area sources are categories for which individual facilities data were not available, and, therefore, emissions had to be modeled in aggregate. Emissions from the model area sources were modeled on a nationwide basis. Exposure scores were obtained by entering nationally aggregated emissions into model area source processing algorithms as described below.

Three general approaches were used to develop emission estimates: the Emission Standards Division (ESD) approach, the National Emission Data System (NEDS) approach, and the use of data from existing EPA studies obtained through literature searches. A hierarchy was established in order to apply the most appropriate technique for each category of sources. The ESD approach was used for certain categories of sources of organic chemical manufacturing processes. For other categories, the NEDS approach was applied. For categories for which neither the NEDS nor ESD approach could be applied, a review was conducted of existing EPA studies, including, but not limited to: source assessments of pollutants, documents on locating and estimating emission sources, and data developed in support of previous section 111 and section 112 regulatory decisions. The ESD and NEDS approaches are explained briefly in the following paragraphs.

The ESD emissions estimate approach was used for categories of sources in the organic chemical manufacturing and consumption industries for which published organic chemical production and consumption data was available. Categories of sources were identified according to their production and use of organic chemicals. The collected data included all emission points (i.e., raw material storage, process vents, leaks, wastewater missions, and product storage or loading). Categories of sources with available facility lists were treated as categories of point sources. If a list of facilities was not available, emissions could not be assigned to a specific geographic location, and, therefore, the category was treated as a category of model area sources. For point sources, emission estimates were priced by multiplying a series of emission factors by the chemical production/consumption rate at individual facilities. Release parameters were then assigned to each emission estimate for modeling as discussed below.

Emission factors were based on pollutant-specific data collected from organic chemical manufacturing and consumption facilities during the development of a number of environmental regulations (i.e., new source performance standards (NSPS) and national emission standards for hazardous air pollutants (NESHAP). The emission factors cover all emission from process vents, equipment leaks, storage tanks, liquid transfer operations, and wastewater treatment operations.

The primary sources of production and consumption data for the ESD approach were Stanford Research Institute's Directory of Chemical Producers, Mannsville's Chemical Production Synopsis, and the Chemical Marketing Reporter. The NEDS approach was used to develop emission estimates for additional categories of sources. The NEDS is an EPA database of reported emissions from each State for sources emitting more than 90 megagrams per year (Mg/yr) (100 tons per year (typ)) of any criteria pollutant (U.S. EPA, 1988). Pollutant speciation profiles developed by EPA within the National Acid Precipitation Assessment Program (NAPAP) are available for each category of sources in NEDS. These speciation profiles apportion specific volatile organic compound (VOC) or particulate matter (PM) emission streams into individual pollutant components.

Point emission sources are classified within NEDS by source classification codes (SCC's). An SCC is an 8-digit identifier that signifies the production processes, major industry, major product, and different operations at the point source. A list of the approximately 4,000 defined SCC's, along with descriptions, can be found in *Criteria Pollutant Emission Factors for the 1985 NAPAP Emissions Inventory (U.S. EPA, 1987b).*

The first step in estimating emissions using the NEDS approach was to identify all SCC's associated with emitting one or more of the listed HAP's. Next, categories of sources were defined based on SCC descriptions. The NAPAP pollutant speciation profiles were then applied to PM and VOC emissions data available in NEDS. In the NEDS approach, the selected speciation profiles were applied to total VOC and PM emissions in order to estimate emissions of CAA listed HAP's for each NEDS-identified category of sources.

The EDS and NEDS approaches were also used to estimate emissions from model area sources. In the EDS approach, each pollutant for each model area source was classified as a solvent or non-solvent. Solvents were assumed to be 100 percent emitted (i.e., solvent emissions assumed equal to solvent use of consumption), while non-solvent emissions were estimated using a model area source emission factor based on the ratio of total point source emissions to total chemical consumption for the source categories for which data were available.

After establishing the emission data base, simplified dispersion algorithms were developed to estimate the potential

ground-level HAP concentration from fugitive and point sources for individual plants. Categories of sources for which plant lists could not be generated were handled as model area sources with a separate simplified dispersion algorithm. These dispersion algorithms provided a concentration factor that when multiplied by the pollutant emission rate yields an approximate pollutant concentration. A detailed discussion of the dispersion algorithms used can be found in Methodology for the Source Category Ranking System (Docket No. A–91–14, Item No. II–B–1).

The SCRS calculates four exposure scores for each category of sources: Short-term maximum, short-term aggregate, long-term maximum, and long-term aggregate. Both short-term and long-term exposure scores are calculated in order to match emissions data to acute and chronic health effects, which are discussed in the next section.

The four exposure scores are calculated for each pollutant in a source category and then summed to give the four exposure scores for the source category. The short-term maximum exposure score is generated using a simplified algorithm that calculates a modeled highest concentration for a particular chemical being emitted by a category of sources to which an individual might be exposed. The long-term maximum exposure score is generated using a simplified algorithm that calculates a modeled highest annual concentration for each pollutant emitted by a category of sources to which an individual might be exposed. The short-term aggregate exposure score is derived by summing the short-term maximum exposure scores for each source in the category. The long-term aggregate exposure score is generated using a simplified algorithm that incorporates annual emissions, and either national average or county average population density. If the location of the facilities are known then county average population density is used and the scores for each facility are summed to get the score for the category of sources. If facility locations are not known then national aggregate emissions and national average population density is used in a simplified algorithm to generate an exposure score.

Population data from the 1980 U.S. Census Bureau were used in calculating long-term and short-term aggregate exposure scores for both point and model area sources. For example, in determining the aggregate exposure score for a point source, the county population density where a facility is located was multiplied by the area within a 50-km radius around the facility. The resulting population number was multiplied by the estimates of short-term and long-term pollutant concentrations to develop the aggregate exposure scores for each pollutant associated with a category of sources.

Although similar algorithms and methods of calculating population exposure have been commonly used in public health risk assessment for air toxics, comments are solicited later in today's notice regarding the appropriateness of the simplified exposure score algorithms, assumptions, methodology, and data input used in the SCRS. One possible alternative approach would be to use population density information alone to calculate exposure scores rather than attempting to assign average county population density to a 50 kilometer radius around a facility. The estimation of the total population within a 50-km radius may or may not be supportable given the other uncertainties in the system.

3. Health Effects Score

To rank categories of sources, the SCRS contains a health effects data base with health effects information for each of the HAP's listed in section 112(b)(1) of the CAA. Four general types of health effects, or health endpoints, were evaluated for each HAP: carcinogenicity, reproductive toxicity, acute lethality, and other toxicity, each of which is explained below. These four endpoints of toxicity were considered separately in the SCRS, with health scores based on the estimated potency of a chemical to produce the particular effect.

The carcinogenic potential of hazardous air pollutants was evaluated using unit risk estimates (URE's). The URE for an air pollutant is defined as the estimated increased lifetime cancer risk occurring in a hypothetical population in which all individuals are exposed continuously from birth throughout their lifetimes (defined as 70 years) to a concentration of one microgram per cubic meter ($\mu g/m_3$) of the agent in the air they breathe. Inhalation URE's were generally obtained using the EPA "Guidelines for Carcinogen Risk Assessment," **Federal Register** (51 FR 33992; September 24, 1986) for chemicals classified as possible, probable, or known human carcinogens. Additional URE's were developed using the International Agency for Research on Cancer Guidelines for HAP's which are classified in the Gene-Tox program (Mutation Research 185(1,2); 1987) as having limited or sufficient positive evidence of carcinogenicity.

Reproductive toxicity (including paternal and maternal effects, effects on fertility, embryo and fetal effects, certain developmental abnormalities, tumorigenic effects related to the reproductive system, and effects on newborns) was estimated for each chemical using the lowest observed effect level (LOEL) reported to produce these effects in humans or animals. The primary source of information for noncancer health effects was the Registry of Toxic Effects of Chemical Substances (RTECS), developed and maintained by the National Institute of Occupational Safety and Health. The RTECS data base is widely used by both industry and regulatory agencies as a source of toxicity data. Although RTECS is not formally peer-reviewed, the data are from the scientific literature. The EPA recognizes the limitations associated with the lack of peer review, but believes that, for the initial step of compiling health effects information, RTECS represents one of the most readily available and comprehensive sources of information on noncancer toxicological endpoints. Data extracted for the SCRS consisted of oral, dermal, and inhalation doses, which are the routes of exposure responsible for human exposure to toxic air pollutants. The Hazardous Substance Data Base (HSDB), an on-line data base produced by the Specialized Information Services of the National Library of Medicine in Bethesda, Maryland, was used for chemicals where RTECS data were missing or inadequate.

The acute lethality score was based on oral, dermal, and inhalation exposure data in which chemicals produced lethal effects in 24 hours or less. Data for acute lethality were assembled from a search of the RTECS. Acute lethality was selected as a health endpoint because data were readily available for evaluation. The values for lethal dose or lethal concentration for 50 percent of the exposed population (LD_{50} or LC_{50}) were assigned to each chemical.

The endpoint identified as "other toxicity" was included to address health effects other than carcinogenicity that result from long-term exposure to toxic air pollutants. Many health effects, including neurological, gastrointestinal, and respiratory, were considered in the "other" toxicity score. The RTECS and HSDB were again the sources of data for this type of health effect. The lowest LOEL reported to produce nonlethal effects other than cancer or reproductive effects in human or animals was used to determine the "other" toxicity score.

Health effects scores were developed for each of the four general health endpoints for each pollutant. Potency estimations for each endpoint (i.e., URE's, LOEL's and LC_{50}'s) were normalized to obtain a score between 0.0 and 1.0 for each endpoint. A chemical that causes an adverse effect at the lowest concentration would be considered the most potent and would get the highest score of 1.0. These four health effects scores were then aggregated into a long-term and short-term health effects score. The long-term health effects score represents those effects associated with carcinogenicity and nonlethal health effects. The short-term health effects score represents those effects associated with acute lethality and reproductive toxicity.

4. Source Category Score

Health effects and exposure scores were combined in the SCRS to produce the combined scores used to rank the categories of sources. A long-term combined score was developed for each pollutant as a product of its long-term exposure score and its long-term health effects score. A short-term combined score was developed for each pollutant as a product of its short-term exposure score and its short-term health effects score. The short- and long-term combined scores were added together to create a single combined score for each pollutant. Exposure scores appeared to have the most influence on the source category score due to the wide range of estimated HAP emission quantities released from the various categories of sources. The scores for each pollutant emitted by a category of sources were then summed to produce a source category score. Once the source category scores were determined, the categories of sources then were ranked by a simple sorting of the scores.

The final source category scores in the SCRS do not represent a quantitative risk assessment and are not intended to estimate risks to a population. The source category scores provide a reasonable method for ranking the categories of sources.

5. Limitations of SCRS Ranking Results

In determining priorities for promulgating standards under Section 112(d), EPA used the SCRS ranking results in conjunction with the consideration of the efficiency of grouping categories of sources according to the pollutants emitted, or the processes or technologies used. Other considerations for developing the schedule included status of present regulatory efforts, time and resources required to develop emission standards, and the percent of listed categories required to be regulated in each time frame.

The SCRS is designed to rank categories of sources based on the quantity and location of emissions of HAP's, and estimates of toxicity of those HAP's. Consistent with this purpose, EPA used readily available sources of information to develop the SCRS. Like most ranking systems, there are many sources of uncertainty associated with the ranking results from the SCRS. The techniques described above to estimate the HAP emissions, population, and health effects, when combined in the SCRS, provide some indication of the potential health concerns. The exposure scores for many of the categories (i.e., model area sources) were based on nationwide estimated aggregate emissions and national average population density. Clearly, this method does not accurately reflect the location of individual facilities and their proximity to population centers, which would have a large influence on resultant exposure scores. The SCRS uses nationwide and county average population data (i.e., assuming equal exposure to the modelled concentrations). Also, there can be a great deal of variability in the HAP emissions from different facilities which is not reflected by these estimates. Although these methods obviously incorporate a large degree of uncertainty, they may provide a relative measure of quantity and location of emissions, and toxicity, as required under section 112(e), for comparison of different categories.

The emissions estimation techniques also contain uncertainties. The emission factors used for both the NEDS and ESD approaches are only approximations of the amount of HAP's generally associated with various emission streams. Additionally, the emissions data available for some sources is more current than others. Changes in processes, reactants, or level of control that may affect the type, quantity, or location of pollutant emissions may have occurred, but current data reflecting these changes may not be available. The likelihood of such a change occurring may vary considerably from category to category. Additionally, the use of simplified dispersion algorithms assumes constants for source specific and chemical specific dispersion characteristics.

The health effects score also contains some uncertainty since the quality and quantity of available toxicological data for each chemical varies. Another limitation of the SCRS ranking results is that they do not adequately address severity of health effects or weight of evidence. Also, adverse environmental effects were not explicitly considered.

Finally, the population data inputs are based on the 1980 U.S. census and the assumption of uniform population density within each county, or in the case of model area sources, the assumption of uniform emissions and population density nationwide. Obviously, uncertainty is added to the ranking because population growth rates may have varied among counties, and population density and emission rates are not uniform.

In developing the Schedule for Standards, EPA gathered as much information as was reasonably practical to prioritize the listed categories of sources. The EPA recognizes that the SCRS could not duplicate the level of analysis performed in a regulatory source assessment effort or site specific risk assessment. Given that the SCRS was designed to aid in prioritizing nationwide categories of sources for developing the schedule based on varying levels of information available for the subject categories of sources, the SCRS provides a useful ranking tool that assists in the grouping of source categories into the four time frames specified as regulatory deadlines in the CAA. As such, the SCRS was not the sole determining factor in establishing the schedule for promulgating standards, but was the basis of EPA's consideration of the quantity and location of emissions, and health effects criteria in setting the schedule. The third criterion for establishing priorities, efficiency of grouping, is discussed in the following section.

C. Application of Efficiency of Grouping

As set forth in section 112(e)(2) of the CAA, three criteria were considered for prioritizing the emission standards promulgation schedule. The first two criteria, quantity and location of emissions and health effects, were incorporated into the SCRS. The third criterion, "efficiency of grouping," considers similarities in the physical or chemical properties of the pollutant emitted, or the industrial processes or technologies used by the various categories of sources.

In developing the schedule for standards, the EPA sought to group separate categories of sources into single regulatory development efforts due to similar processes, emission characteristics, and applicable control technologies. There are categories of sources that have similarities to higher priority categories of sources or active

projects. Through application of the efficiency of grouping criterion, a standard may be completed for several similar categories of sources at one time. By using the SCRS scores in combination with the efficiency of grouping criterion, EPA has sought to avoid duplication of effort and optimize the regulatory development process. As a result, some categories of sources that might have been scheduled for regulatory development at a later date based solely on the SCRS ranking are scheduled earlier due to the efficiency of grouping. An example of this type of efficiency is the polymers and resins group. In this industrial group, regulatory efforts initiated for a few relatively higher-risk categories of sources are also applicable to additional categories of sources that ranked lower in the SCRS.

The efficiency of grouping criterion was also applied to combine lower ranked categories with other similar categories where regulatory development activities have been initiated or are planned. Section 183 of the CAA requires development of 13 control technology guidelines (CTG's) for VOC emissions by November of 1993. Many of the categories of sources for which CTG's are being developed emit HAP's. Grouping efficiency may be achieved by evaluating HAP's concurrently with VOC's. This allows EPA to consider the requirements of both the nonattainment and HAP's programs of the CAA at the same time, and to make them consistent and compatible. Also, this strategy provides the affected industries with greater certainty about both sets of requirements at about the same time, so that they can be considered in developing an overall control strategy.

D. Other Considerations for Scheduling

In addition to the three priority setting criteria specified in Section 112(e)(2), the CAA also requires that EPA regulate certain percentages of the list of categories by certain dates. For example, EPA is required to regulate 25 percent of the listed categories within 4 years after enactment. When establishing the schedule for promulgation of emission standards, in order to meet these deadlines, the EPA also considered the level of technical knowledge along with the time and resources required for development of emissions standards. Several categories of sources, such as the Synthetic Organic Chemical Manufacturing Industry (SOCMI), have been studied previously by EPA and a good understanding of the technical basis for a technology-based standard is available. All the 2-year, and a substantial portion of the 4-year, projects were under development at the time the CAA amendments were passed.

For other categories of sources, however, where little information is currently available, considerable time and effort will be necessary to adequately study the category, analyze the processes, identify emission points, establish the baseline, evaluate potential control strategies, and determine the appropriate regulatory strategy. Therefore, the amount of available information was another factor in the prioritization of categories for development of emissions standards.

E. Schedule for the Promulgation of Emission Standards

The draft schedule in Table 1 establishes the deadlines for the promulgation of emission standards for the categories of sources initially listed pursuant to section 112(c)(1) and 112(c)(3). Each of the listed categories of sources was prioritized considering the three criteria identified in section 112(e) as well as the amount of available data and the need to meet the percentages provided in the statute. The draft schedule for the promulgation of emission standards has been designed such that each of the listed source categories will be regulated within 2, 4, 7, or 10 years of the enactment of the CAA amendments of 1990 as required by section 112(e).

The schedule for the first two years (i.e., requiring promulgation of standards by November 15, 1992) includes: five categories of dry cleaners and the SOCMI category. The SOCMI category, along with equipment leaks from 20 other non-SOCMI categories or subsets of categories, will be subject to a standard that is commonly known as the Hazardous Organic NESHAP (HON). The HON includes a negotiated standard for equipment leaks in SOCMI and 20 non-SOCMI categories or subsets of categories (see Table 1 with footnotes). These other non-SOCMI categories, or subsets of categories, are consistent with the seven manufacturing processes listed in the notice of agreement on negotiated regulation for equipment leaks, **Federal Register** (56 FR 9318; March 6, 1991). The negotiated standard will be proposed as part of the HON. Only the equipment leak emissions in these non-SOCMI categories or subsets of categories, will be regulated within 2 years of enactment (i.e., November 15, 1992). Regulations covering other emission sources in these non-SOCMI categories are scheduled for later years because the other emission sources have not yet been fully assessed for regulatory purposes. As such, these non-SOCMI categories cannot be fully regulated within 2 years because of insufficient time and information. Until these categories are fully regulated they will not be credited toward the numerical requirements of the CAA.

The CAA amendments of 1990 require that EPA promulgate emissions standards for 40 categories of sources emitting HAP's with 2 years of its enactment and regulate coke ovens by December 31, 1992. In the Conference Report accompanying the final bill (Conference Report, 101–952, 101st Cong. 2d Sess. at 338, 1990), as enacted, Congress indicated that EPA should fulfill the 2 year deadline of section 112(e) by regulating the priority elements of the SOCMI category. At the time the amendments were drafted, the SOCMI category was disaggregated into many (several hundred) individual categories. At the present time, the SOCMI category is considered to be one category. Therefore, since the SOCMI category is listed today for regulation within 2 years of enactment of the CAA amendments of 1990, the Administrator believes that the draft schedule for the promulgation of emission standards published today complies with Congressional intent.

To fulfill the requirement to regulate 25 percent of the listed categories, another 39 categories of sources are scheduled for regulation within 4 years of enactment of the CAA amendments. This 4-year group includes several active projects previously identified as high priority through earlier prioritization efforts; categories of sources already under investigation as part of active CTG projects; and other categories of sources selected because of efficiency of grouping, level of knowledge, potential for project completion within the 4 year time frame, and the need to meet the CAA required 25 percent of listed categories.

The remaining categories of sources are scheduled for regulation within either 7 or 10 years after enactment. The SCRS ranking, along with efficiency of grouping and the other considerations discussed in Section C above, were the primary criteria used for assigning remaining categories to either the 7- or 10-year schedules.

In addition, as stated in section 112(c), categories of sources that are added to the source category list after publication of the Initial List shall be regulated within 10 years after the date of enactment of the 1990 CAA or within 2 years after the date on which such category is listed, which ever is later.

III. Request for Comments

The EPA requests comment on today's notice. Comments are requested on the prioritization criteria used to develop the schedule for standards. Specifically, EPA is soliciting comment on the

consideration of the exposure score assumptions, simplified dispersion algorithms, health effects data, environmental effects data, and other aspects of the source category prioritization process. Comments solicited through today's notice pertain only to the scheduling of categories of sources for the promulgation of emission standards, and not to the definition of categories.

The EPA also solicits comments on whether the statute affords EPA the flexibility to adjust the regulatory schedule after publication of the initial schedule.

IV. Administrative Requirements

A. Docket

The docket for this regulatory action is No. A–91–14. The docket is an organized and complete file for all the information submitted to or otherwise considered by EPA in the development of this draft schedule. The principal purpose of the docket is to allow interested parties a means to identify and locate documents so that they can effectively comment on the draft schedule for standards. The docket is available for public inspection at the EPA's Air Docket Section, which is listed under the **ADDRESSES** section of this notice.

B. Regulatory Requirements

Because today's notice is not a rule, the EPA has not prepared a regulatory impact analysis (RIA) pursuant to Executive Order 12291, nor an economic impact analysis pursuant to Section 317, nor a regulatory flexibility analysis pursuant to Regulatory Flexibility Act (Pub. L. 96–354, September 19, 1980). Also, this notice is not subject to the Paperwork Reduction Act of 1990, 44 U.S.C. 3501 et seq.

C. Organization of the Schedule for Standards

The following pages present the Schedule for Standards in tabular form. Table 1 presents the schedule organized by industry group. Within each industry group are several related categories of sources and the scheduled deadline for promulgation of emissions standards. In Table 1, categories of area sources have been listed separately because they are subject to a health effects finding under section 112(c)(3) of the CAA. Table 2 presents the schedule organized by groups of categories to be regulated in each of the time frames established by the CAA.

Dated: September 16, 1992.

William G. Rosenberg,

Assistant Administrator for Air and Radiation.

TABLE 1.—CATEGORIES OF SOURCES OF HAZARDOUS AIR POLLUTANTS AND REGULATION PROMULGATION SCHEDULE BY INDUSTRY GROUP

	Schedule date
Industry Group: Source Category [a]	
Fuel Combustion:	
Engine Test Facilities	11/15/00
Industrial Boilers [b]	11/15/00
Institutional/Commercial Boilers [b]	11/15/00
Process Heaters	11/15/00
Stationary Internal Combustion Engines [b]	11/15/97
Stationary Turbines [b]	11/15/97
Non-Ferrous Metals Processing:	
Primary Aluminum Production	11/15/97
Secondary Aluminum Production	11/15/97
Primary Copper Smelting	11/15/97
Primary Lead Smelting	11/15/97
Secondary Lead Smelting	11/15/94
Lead Acid Battery Manufacturing	11/15/00
Primary Magnesium Refining	11/15/00
Ferrous Metals Processing:	
Coke By-Product Plants	11/15/00
Coke Ovens: Charging, Top Side, and Door Leaks	12/31/92
Coke Ovens: Pushing, Quenching, and Battery Stacks	11/15/00
Ferroalloys Production	11/15/97
Integrated Iron and Steel Manufacturing	11/15/97
Non-Stainless Steel Manufacturing—Electric Arc Furnace (EAF) Operation	11/15/97
Stainless Steel Manufacturing—Electric Arc Furnace (EAF) Operation	11/15/97
Iron Foundries	11/15/97
Steel Foundries	11/15/97
Steel Pickling—HCl Process	11/15/97
Mineral Products Processing:	
Alumina Processing	11/15/00
Asphalt/Coal Tar Application—Metal Pipes	11/15/00
Asphalt Concrete Manufacturing	11/15/00
Asphalt Processing	11/15/00
Asphalt Roofing Manufacturing	11/15/00
Chromium Refractories Production	11/15/97
Clay Products Manufacturing	11/15/00
Lime Manufacturing	11/15/00
Mineral Wool Production	11/15/97
Portland Cement Manufacturing	11/15/97
Taconite Iron Ore Processing	11/15/00
Wool Fiberglass Manufacturing	11/15/97
Petroleum and Natural Gas Production and Refining:	
Oil and Natural Gas Production	11/15/97
Petroleum Refineries—Catalytic Cracking (Fluid and other) Units, Catalytic Reforming Units, and Sulfur Plant Units	11/15/97
Petroleum Refineries—Other Sources Not Distinctly Listed	11/15/94
Liquids Distribution:	
Gasoline Distribution (Stage 1)	11/15/94
Organic Liquids Distribution (Non-Gasoline)	11/15/00
Surface Coating Processes:	
Aerospace Industries	11/15/94
Auto and Light Duty Truck (Surface Coating)	11/15/97
Flat Wood Paneling (Surface Coating)	11/15/00
Large Appliance (Surface Coating)	11/15/00
Magnetic Tapes (Surface Coating)	11/15/94
Manufacture of Paints, Coatings, and Adhesives	11/15/00
Metal Can (Surface Coating)	11/15/00
Metal Coil (Surface Coating)	11/15/00
Metal Furniture (Surface Coating)	11/15/00
Miscellaneous Metal Parts and Products (Surface Coating)	11/15/00

TABLE 1.—CATEGORIES OF SOURCES OF HAZARDOUS AIR POLLUTANTS AND REGULATION PROMULGATION SCHEDULE BY INDUSTRY GROUP—Continued

	Schedule date
Paper and Other Webs (Surface Coating)	11/15/97
Plastic Parts and Products (Surface Coating)	11/15/00
Printing, Coating, and Dyeing of Fabrics	11/15/00
Printing/Publishing (Surface Coating)	11/15/94
Shipbuilding and Ship Repair (Surface Coating)	11/15/94
Wood Furniture (Surface Coating)	11/15/94
Waste Treatment and Disposal:	
Hazardous Waste Incineration	11/15/00
Municipal Landfills	11/15/97
Publicly Owned Treatment Works (POTW) Emissions	11/15/95
Sewage Sludge Incineration	11/15/97
Site Remediation	11/15/00
Solid Waste Treatment, Storage and Disposal Facilities (TSDF)	11/15/94
Agricultural Chemicals Production:	
2,4-D Salts and Esters Production	11/15/00
4-Chloro-2-Methylphenoxyacetic Acid Production	11/15/00
4,6-Dinitro-o-Cresol Production	11/15/00
Captafol Production [d]	11/15/00
Captan Production [d]	11/15/00
Chloroneb Production	11/15/97
Chlorothalonil Production [d]	11/15/00
Dacthal (tm) Production [d]	11/15/00
Sodium Pentachlorophenate Production	11/15/00
Tordon (tm) Acid Production [d]	11/15/00
Fibers Production Processes:	
Acrylic Fibers/Modacrylic Fibers Production	11/15/97
Rayon Production	11/15/97
Spandex Production	11/15/00
Food and Agriculture Processes:	
Baker's Yeast Manufacturing	11/15/00
Cellulose Food Casing Manufacturing	11/15/00
Vegetable Oil Production	11/15/00
Pharmaceutical Production Processes:	
Pharmaceuticals Production [d]	11/15/97
Polymers and Resins Production:	
Acetal Resins Production	11/15/97
Acrylonitrile-Butadiene-Styrene Production	11/15/94
Alkyd Resins Production	11/15/00
Amino Resins Production	11/15/97
Boat Manufacturing	11/15/00
Butadiene-Furfural Cotrimer (R-11) [d]	11/15/00
Butyl Rubber Production	11/15/94
Carboxymethylcellulose Production	11/15/97
Cellophane Production	11/15/97
Cellulose Ethers Production	11/15/00
Epichlorohydrin Elastomers Production	11/15/94
Epoxy Resins Production	11/15/94
Ethylene-Propylene Rubber Production	11/15/94
Flexible Polyurethane Foam Production	11/15/97
Hypalon (tm) Production [d]	11/15/94
Maleic Anhydride Copolymers Production	11/15/00
Methylcellulose Production	11/15/00
Methyl Methacrylate-Acrylonitrile-Butadiene-Styrene Production [d]	11/15/94
Methyl Methacrylate-Butadiene-Styrene Terpolymers Production [d]	11/15/94
Neoprene Production	11/15/94
Nitrile Butadiene Rubber Production	11/15/94
Non-Nylon Polyamides Production	11/15/94
Nylon 6 Production	11/15/97
Phenolic Resins Production	11/15/97

TABLE 1.—CATEGORIES OF SOURCES OF HAZARDOUS AIR POLLUTANTS AND REGULATION PROMULGATION SCHEDULE BY INDUSTRY GROUP—Continued

	Schedule date
Polybutadiene Rubber Production [d]	11/15/94
Polycarbonates Production [d]	11/15/97
Polyester Resins Production	11/15/97
Polyethylene Terephthalate Production	11/15/94
Polymerized Vinylidene Chloride Production	11/15/00
Polymethyl Methacrylate Resins Production	11/15/97
Polystyrene Production	11/15/94
Polysulfide Rubber Production [d]	11/15/94
Polyvinyl Acetate Emulsions Production	11/15/97
Polyvinyl Alcohol Production	11/15/97
Polyvinyl Butyral Production	11/15/97
Polyvinyl Chloride and Copolymers Production	11/15/00
Reinforced Plastic Composites Production	11/15/97
Styrene-Acrylonitrile Production	11/15/94
Styrene-Butadiene Rubber and Latex Production [d]	11/15/94
Production of Inorganic Chemicals:	
Ammonium Sulfate Production—Caprolactam By-Product Plants	11/15/00
Antimony Oxides Manufacturing	11/15/00
Chlorine Production [d]	11/15/97
Chromium Chemicals Manufacturing	11/15/97
Cyanuric Chloride Production	11/15/97
Fume Silica Production	11/15/00
Hydrochloric Acid Production	11/15/97
Hydrogen Cyanide Production	11/15/97
Hydrogen Fluoride Production	11/15/97
Phosphate Fertilizers Production	11/15/97
Phosphoric Acid Manufacturing	11/15/97
Quaternary Ammonium Compounds Production	11/15/00
Sodium Cyanide Production	11/15/97
Uranium Hexafluoride Production	11/15/00
Production of Organic Chemicals:	
Synthetic Organic Chemical Manufacturing	11/15/92
Miscellaneous Processes:	
Aerosol Can-Filling Facilities	11/15/97
Benzyltrimethylammonium Chloride Production	11/15/97
Butadiene Dimers Production	11/15/97
Carbonyl Sulfide Production	11/15/00
Chelating Agents Production	11/15/97
Chlorinated Paraffins Production [d]	11/15/00
Chromic Acid Anodizing	11/15/94
Commercial Dry Cleaning (Perchloroethylene)—Transfer Machines	11/15/92
Commercial Sterilization Facilities	11/15/94
Decorative Chromium Electroplating	11/15/94
Dodecanedioic Acid Production [d]	11/15/00
Dry Cleaners (Petroleum Solvent)	11/15/00
Ethylidene Norbornene Production [d]	11/15/00
Explosives Production	11/15/00
Halogenated Solvent Cleaners	11/15/94
Hard Chromium Electroplating	11/15/94
Hydrazine Production	11/15/97
Industrial Cleaning (Perchloroethylene)—Dry-to-dry machines	11/15/92
Industrial Dry Cleaning (Perchloroethylene)—Transfer Machines	11/15/92
Industrial Process Cooling Towers	11/15/94
OBPA/1,3-Diisocyanate Production [d]	11/15/00
Paint Stripper Users	11/15/00
Photographic Chemicals Production	11/15/97
Phthalate Plasticizers Production	11/15/00
Plywood/Particle Board Manufacturing	11/15/00
Polyether Polyols Production	11/15/97
Pulp and Paper Production	11/15/97
Rocket Engine Test Firing	11/15/00

Hard Chromium Electroplating	11/15/94

[a] Only major sources within any category shall be subject to emission standards under Section 112 unless a finding is made of a threat of adverse effects to human health or the environment for the area sources in a category. All listed categories are exclusive of any specific operations or processes included under other categories that are listed separately.

[b] Sources defined as electric utility steam generating units under Section 112(a)(8) shall not be subject to emission standards pending the findings of the study required under Section 112(n)(1).

[c] A finding of threat of adverse effects to human health or the environment was made for each category of area sources listed above.

[d] The HON, which is scheduled for promulgation by November 15, 1992, includes a negotiated standard for equipment leaks from the SOCMI category and 20 non-SOCMI categories (or subsets of these categories). The notice of agreement on negotiated regulation for equipment leaks (56 FR 9315; March 6, 1991) would apply to equipment handling specific chemicals for these categories or subsets of these categories. The specific processes affected within the categories are listed in section XX.X0(c) of the March 6, 1991 notice.

Table 2. Categories of Sources of Hazardous Air Pollutants and Regulation Promulgation Schedule By Regulatory Deadlines

Source Categories with Emission Standards Due by November 15, 1992

Synthetic Organic Chemical Manufacturing
Commercial Drycleaning (Perchloroethylene)—Transfer Machines*
Commercial Drycleaning (Perchloroethylene)—Dry-To-Dry Machines*
Commercial Drycleaning (Perchloroethylene)—Transfer Machines
Industrial Drycleaning (Perchloroethylene)—Transfer Machines
Industrial Drycleaning (Perchloroethylene)—Dry-to-Dry Machines

Source Categories With Emission Standards Due by November 15, 1994

Acrylonitrile-Butadiene-Styrene Production
Aerospace Industries
Asbestos Processing*
Butyl Rubber Production
Chromic Acid Anodizing
Chromic Acid Anodizing*
Coke Ovens: Charging, Topside and Door Leaks (CAA Mandated Promulgation by December 31, 1992)
Commercial Sterilization Facilities
Commercial Sterilization Facilities*
Decorative Chromium Electroplating
Decorative Chromium Electroplating*
Epichlorohydrin Elastomers Production
Epoxy Resins Production
Ethylene-Propylene Rubber Production
Gasoline Distribution—Stage 1
Halogenated Solvent Cleaners
Halogenated Solvent Cleaners*
Hard Chromium Electroplating
Hard Chromium Electroplating*
Hypalon (TM) Production
Industrial Process Cooling Towers
Magnetic Tapes (Surface Coating)
Methyl Methacrylate-Acrylonitrile-Butadiene-Styrene Production
Methyl Methacrylate-Butadiene-Styrene Terpolymers Production
Neoprene Production
Nitrile Butadiene Rubber Production
Non-Nylon Polyamides Production
Petroleum Refineries—Other Sources Not Distinctly Listed
Polyethylene Terephthalate Production
Polybutadiene Rubber Production
Polysulfide Rubber Production
Polystyrene Production
Printing/Publishing (Surface Coating)
Secondary Lead Smelting
Shipbuilding and Ship Repair (Surface Coatings)
Solid Waste Treatment, Storage, and Disposal Facilities (TSDF)
Styrene-Acrylonitrile Production
Styrene-Butadiene Rubber and Latex Production
Wood Furniture (Surface Coating)

Source Categories With Emission Standards Due by November 15, 1997

Acetal Resins Production
Acrylic Fibers/Modacrylic Fibers Production
Aerosol Can-Filling Facilities
Amino Resins Production
Auto and Light Duty Truck (Surface Coating)
Benzyltrimethylammonium Chloride Production
Butadiene Dimers Production
Carboxymethylcellulose Production
Cellophane Production
Chelating Agents Production
Chloroneb Production
Chlorine Production
Chromium Chemicals Manufacturing
Chromium Refractories Production
Cyanuric Chloride Production
Ferroalloys Production
Flexible Polyurethane Foam Production
Hydrazine Production
Hydrochloric Acid Production
Hydrogen Cyanide Production
Hydrogen Fluoride Production
Integrated Iron and Steel Manufacturing
Iron Foundries

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Extention of comment period.

SUMMARY: The FHWA announces its decision to extend the time it will accept comments to the docket from October 5, 1992, to November 4, 1992. This action will allow additional time for organizations and individuals to prepare comments concerning the notice of proposed rulemaking.

DATES: Comments must be received on or before November 4, 1992.

ADDRESSES: Submit written, signed comments to FHWA Docket No. MC-92-30, Room 4232, HCC-10, Office of Chief Counsel, Federal Highway Administration, 400 Seventh Street, SW., Washington DC 20590. All answers to questions should refer to the appropriate question number and all comments addressing specific provisions should refer to the appropriate section and paragraph number. All comments received will be available for examination at the above address from 8:30 a.m. to 3:30 p.m., e.t., Monday through Friday, except legal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped, postcard.

FOR FURTHER INFORMATION CONTACT: Mr. James E. Scapellato, Office of Motor Carrier Standards, (202) 366-2981, or Mrs. Allison M. Smith, Office of the Chief Counsel, (202) 366-0834, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except legal holidays.

SUPPLEMENTARY INFORMATION: On August 19, 1992, the FHWA published a notice of proposed rulemaking (NPRM) which, if promulgated, would amend a portion of the Federal Motor Carrier Safety Regulations (FMCSRs) concerning hours of service of commercial motor vehicle drivers. See 57 FR 37504. The public was notified that the FHWA would accept comments until October 5, 1992.

Counsel for the Commercial Vehicle Safety Alliance (CVSA), an organization of State and local law enforcement officials, has requested that the FHWA extend the comment period until January 21, 1993. The CVSA stated that it cannot express a policy position until an issue is considered and the position approved by a majority of its members. The CVSA planned to submit the proposal for review at its annual meeting in mid-November. Following that meeting, written comments would be prepared and submitted to the organization's Executive Committee for approval.

The FHWA is mindful of the need for organizations like the CVSA to obtain a consensus from its membership so that the organization may respond as a whole. However, in this age of reliable electronic communications and overnight mail services, and the CVSA's excellent history of membership response, the FHWA believes that it would be reasonable to achieve a group consensus in a shorter period of time than the CVSA has requested. Individual members always have the option of providing comments to the docket representing their own organizations' viewpoints. The FHWA believes that extending the deadline for comments an additional 30 days will provide ample opportunity for the CVSA and other organizations or individuals to submit comments.

In addition, the FHWA referenced two ongoing studies in the NPRM. The FHWA has placed in the docket a collection of abstracts of research papers reviewed as part of one of the studies, "Literature Review and Critique of Past Research on Rest and Recovery Cycles of Commercial Motor Vehicle Drivers," conducted by Work Systems Research, Inc. By extending the comment period, interested parties will be given an opportunity to review these abstracts.

Authority: 49 U.S.C. app. 2505; 49 U.S.C. 3102 and 3102; and 49 CFR 1.48.

Issued on: September 18, 1992.

T. D. Larson,

Administrator.

Notices

Federal Register
Vol. 57, No. 186
Thursday, September 24, 1992

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forms Under Review by Office of Management and Budget

September 18, 1992.

The Department of Agriculture has submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C Chapter 35) since the last list was published. This list is grouped into new proposals, revisions, extension, or reinstatements. Each entry contains the following information:

(1) Agency proposing the information collection; (2) Title of the information collection; (3) Form number(s), if applicable; (4) How often the information is requested; (5) Who will be required or asked to report; (6) An estimate of the number of responses; (7) An estimate of the total number of hours needed to provide the information; (8) Name and telephone number of the agency contact person.

Questions about the items in the listing should be directed to the agency person named at the end of each entry. Copies of the proposed forms and supporting documents may be obtained from: Department Clearance officer USDA, OIRM, room 404–W Admin. Bldg. Washington, DC 20250 (202) 690–2118.

Extension

- Foreign Agricultural Service

FAS/Cooperator Market Development Program
Monthly; Annually
State or local governments; Non-profit institutions; 3,562 responses; 77,422 hours

BILLING CODE 3410–01–M

Forest Service

Exemption of Queen Firaday Timber Salvage Project From Appeal

AGENCY: Forest Service, Northern Region USDA.

ACTION: Notification that a timber salvage project designed to recover windstorm damaged timber is exempted from appeals under provisions of 36 CFR part 217.

SUMMARY: In October 1991, 250 acres of timber in the Queen Mountain area were blown down during a severe windstorm. In 1992, the Bonners Ferry District Ranger proposed a salvage timber sale project to recover damaged sawtimber in the affected area. The District Ranger has determined, through an environmental analysis documented in the Queen Firaday Timber Salvage Environmental Assessment (EA), that there is good cause to expedite these actions in order to rehabilitate National Forest System lands and recover damaged resources. Salvage of commercial sawtimber within the affected area must be accomplished quickly to avoid further deterioration of sawtimber and to reduce the risk of catastrophic wild fire and spruce bark beetle infestation that could damage adjacent timbers stands.

EFFECTIVE DATE: Effective on September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Debbie Henderson-Norton, District Ranger, Bonners Ferry Ranger District, Idaho Panhandle National Forest, Route 4, Box 4860, Bonners Ferry, ID 83805.

SUPPLEMENTARY INFORMATION: Severe windstorms in the fall of 1991 damaged approximately 250 acres of timber in the Queen Mountain area. In July 1992, the Bonners Ferry District Ranger, Idaho Panhandle National Forest, proposed the salvage harvest of the trees blown down by the windstorms. The windthrown timber is located within lands designated as suitable for timber management and assigned to Management Area 1 (Idaho Panhandle Forest Plan, August 1987). This proposal was designed to meet the following needs, (a) reduce potential for spruce bark beetle infestations in adjacent healthy timber stands by implementing integrated pest management prescriptions, (b) reduce wildfire hazard by reducing fuel loading, (c) rehabilitate timber stands that are understocked through site preparation and planting, and (d) salvage merchantable timber products and contribute to a continuous supply of timber by recovering sawtimber before they deteriorate in value.

An interdisciplinary team was convened, and scoping began in 1992. Three environmental issues were identified and were the basis for the environmental analysis disclosed in the EA. The interdisciplinary team utilized information and analysis disclosed in the West Moyie Final Environmental Impact Statement and Record of Decision (June 14, 1991) as the basis for conducting their review. This information is incorporated by reference. Two alternatives were analyzed; no treatment (no action) and a salvage and rehabilitation proposal (proposed action). The selected alternative would salvage 250 MBF of dead and damaged timber from approximately 250 acres. All salvage areas are accessible from existing roads; no road construction or reconstruction will occur.

The salvage timber sale project is designed to accomplish the objectives as quickly as possible to minimize the risk of a spruce bark beetle epidemic, reduce the potential for catastrophic wild fire and to recover merchantable sawtimber before it deteriorates and removal becomes infeasible. To expedite implementation of this decision, procedures outlined in 36 CFR part 217 are being followed. Under this Regulation the following may be exempt from appeal:

Decisions related to rehabilitation of National Forest Systems lands and recovery of Forest Resources from natural disasters or other natural phenomena, such as * * * severe wind * * * when the Regional Forester * * * determines and gives notice in the **Federal Register** that good causes exists to exempt such decisions from review under this part.

Based on the environmental analysis documented in the Queen Firaday Salvage Timber Sale EA and the District Ranger's Decision Notice for this project, I have determined that good cause exists to exempt this decision from administrative review. Therefore, upon publication of this notice, this project will not be subject to review under 36 CFR part 217.

Dated: September 17, 1992.

John M. Hughes,

Deputy Regional Forester Northern Region.

[FR Doc. 92-23041 Filed 9-23-92; 8:45 am]

BILLING CODE 3410-11-M

Exemption of Uproaring Timber Salvage Project From Appeal

AGENCY: Forest Service, Northern Region, USDA.

ACTION: Notification that a timber salvage project designed to recover windstorm damaged timber is exempted from appeals under provisions of 36 CFR part 217.

SUMMARY: In October 1991, isolated pockets of timber within a 600-acre area in the Hellroaring and Little Hellroaring drainages were blown down during a severe windstorm. In 1992, the Bonners Ferry District Ranger proposed a salvage timber sale project to recover sawtimber in the affected area. The District Ranger has determined, through an environmental analysis documented in the Uproaring Timber Salvage Environmental Assessment (EA), that there is good cause to expedite these actions to rehabilitate National Forest System lands and to recover damaged resources. Salvage of commercial sawtimber within the affected area must be accomplished quickly to avoid further deterioration of sawtimber and reduce the risk of catastrophic wild fire and spruce bark beetle infestation that could damage adjacent timber stands.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Debbie Henderson-Norton, District Ranger, Bonners Ferry Ranger District, Idaho Panhandle National Forest, Route 4, Box 4860, Bonners Ferry, ID 83805.

SUPPLEMENTARY INFORMATION: Severe windstorms in October of 1991 damaged approximately 600 acres of timber within the Hellroaring and Little Hellroaring drainages. In July 1992, the Bonners Ferry District Ranger, Idaho Panhandle National Forest, proposed the salvage harvest of trees blown down by the windstorm. The windthrown timber is within lands designated as suitable for timber production and assigned to Management Area 1 (Idaho Panhandle Forest Plan, August 1987). This proposal was designed to meet the following needs: (a) Reduce potential spruce bark beetle infestations in adjacent healthy timber stands by implementing integrated pest management prescriptions, (b) reduce wild fire hazard by reducing fuel loading, (c) rehabilitate timber stands that are understocked through site preparation and planting, and (d) salvage merchantable timber products and contribute to a continuous supply of timber by recovering sawtimber before they deteriorate in value.

An interdisciplinary team was convened, and scoping began in 1992. Three environmental issues were identified and were the basis for the environmental analysis disclosed in the EA. The interdisciplinary team utilized information and analysis disclosed in the West Moyie Final Environmental Impact Statement and Record of Decision (June 14, 1991) as the basis for conducting their review. This information is incorporated by reference. Two alternatives were analyzed; no treatment (no action) and a salvage and rehabilitation proposal (proposed action). The selected alternative would salvage 500 MBF of dead and damaged timber from approximately 600 acres. All salvage areas are accessible from existing roads; no road construction or reconstruction will occur.

The salvage project is designed to accomplish the objectives as quickly as possible to minimize the risk of a spruce bark beetle epidemic, to reduce potential for catastrophic wild fire and to recover merchantable sawtimber before it deteriorates and removal becomes infeasible. To expedite implementation of this decision, procedures outlined in 36 CFR part 217 are being followed. Under this Regulation the following may be exempt from appeal:

Decisions related to rehabilitation of National Forest System lands and recovery of Forest Resources from natural disasters or other natural phenomena, such as * * * severe wind * * * when the Regional Forester * * * determines and gives notice in the **Federal Register** that good causes exists to exempt such decisions from review under this part.

Based on the environmental analysis documented in the Uproaring Timber Salvage EA and the District Ranger's Decision Notice for this project, I have determined that good cause exists to exempt this decision from administrative review. Therefore, upon publication of this notice, this project will not be subject to review under 36 CFR part 217.

Dated: September 17, 1992.

John M. Hughes,

Deputy Regional Forester, Northern Region.

BILLING CODE 3410-11-M

Exemption of Blew Spruce Blowdown Timber Salvage Project From Appeal

AGENCY: Forest Service, Northern Region, USDA.

ACTION: Notification that a timber salvage project designed to recover windstorm damaged timber is exempted from appeals under provisions of 36 CFR part 217.

SUMMARY: during 1991, severe windstorms blew down or damaged timber in a 700-acre area of the Spruce Creek drainage. In 1992, the Bonners Ferry District Ranger proposed a timber salvage project to recover damaged sawtimber in the affected area. The District Ranger has determined, through an environmental analysis documented in the Blew Spruce Salvage Environmental Assessment (EA), that there is good cause to expedite these actions to rehabilitate National Forest System lands and recover damaged resources. Salvage of commercial sawtimber within the affected area must be accomplished quickly to avoid further deterioration of sawtimber and reduce the risk of catastrophic wild fire and spruce bark beetle infestation that could damage adjacent timber stands.

EFFECTIVE DATE: Effective on September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Debbie Henderson-Norton, District Ranger, Bonners Ferry Ranger District, Idaho Panhandle National Forest, Route 4, Box 4860, Bonners Ferry, ID 83805

SUPPLEMENTARY INFORMATION: Severe windstorms in the spring and fall of 1991 damaged approximately 700 acres of timber within the Spruce Creek drainage. In July 1992, the Bonners Ferry District Ranger, Idaho Panhandle National Forest, proposed the salvage harvest of the trees blown down by the windstorms. The windthrown timber is located within lands designated as suitable for timber production as

assigned to Management Area 1 (Idaho Panhandle Forest Plan, August 1987). This proposal was designed to meet the following needs, (a) reduce potential spruce bark beetle infestations in adjacent healthy timber stands by implementing integrated pest management prescriptions, (b) reduce wild fire hazard by reducing fuel loading, (c) rehabilitate timber stands that are understocked through site preparation and planting, and (d) salvage merchantable timber products and contribute to a continuous supply of timber by recovering saw timber before they deteriorate in value.

An interdisciplinary team was convened, and scoping began in 1992. Three environmental issues were identified and were the basis for the environmental analysis disclosed in the EA. The interdisciplinary team utilized information and analysis disclosed in the East Moyie EA and Decision Notice (February 29, 1992) as the basis for conducting their review. This information is incorporated by reference. Two alternatives were analyzed; not treatment (no action) and a salvage and rehabilitation proposal (proposed action). The selected alternative would salvage 700 MBF of dead and damaged timber from approximately 700 acres. All salvage areas are accessible from existing roads; no road construction or reconstruction will occur.

The salvage project is designed to accomplish the objectives as quickly as possible to minimize the risk of a spruce bark beetle epidemic, to reduce potential for catastrophic wildfire, and to recover merchantable sawtimber before it deteriorates and removal becomes infeasible. To expedite implementation of this decision, procedures outlined in 36 CFR part 217 are being followed. Under this Regulation the following may be exempt from appeal:

> Decisions related to rehabilitation of National Forest System lands and recovery of Forest Resources from natural disasters or other natural phenomena, such as * * * severe wind * * * when the Regional Forester * * * determines and gives notice in the Federal Register that good causes exist to exempt such decisions from review under this part.

Based on the environmental analysis documented in the Blew Spruce Salvage Timber Sale EA and the District Ranger's Decision Notice for this project, I have determined that good cause exists to exempt this decision from administrative review. Therefore, upon publication of this notice, this project will not be subject to review under 36 CFR part 217.

BILLING CODE 3410-11-M

Soil Conservation Service

Second Broad River Watershed North Carolina

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Soil Conservation Service Guidelines (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Second Broad River Watershed, McDowell, Rutherford, and Cleveland Counties, North Carolina.

FOR FURTHER INFORMATION CONTACT: Coy A. Garrett, State Conservationist, Soil Conservation Service, 4405 Bland Road, suite 205, Raleigh, North Carolina 27609, telephone 919/790-2888.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Coy A. Garrett, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for flood control. The planned works of improvement include a single-purpose flood control structure, originally planned as a multiple-purpose (recreation and flood control) structure.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Coy A. Garrett, State Conservationist, 4405 Bland Road, Raleigh, North Carolina 27609.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication of the **Federal Register**.

Dated: September 14, 1992.

Coy A. Garrett,

State Conservationist.

BILLING CODE 3410-16-M

APPALACHIAN STATES LOW-LEVEL RADIOACTIVE WASTE COMMISSION

Appalachian States Low-Level Radioactive Waste Commission; Meeting

AGENCY: Appalachian States Low-Level Radioactive Waste Commission.

ACTION: Open meeting.

SUMMARY: The Appalachian States Low-Level Radioactive Waste Commission will hold a meeting on November 6, 1992. The meeting is open to the public.

DATES: November 6, 1992, 9 a.m.-1 p.m.

ADDRESSES: Harrisburg Hilton and Towers, One North Second Street, Harrisburg, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Marc S. Tenan, Executive Director, 207 State Street, Harrisburg, PA 17101, 717-234-6295.

SUPPLEMENTARY INFORMATION: The Appalachian States Low-Level Radioactive Waste Commission (Commission) was established by the Appalachian States Low-Level Radioactive Waste Compact Consent Act (Pub. L. 100-319, May 19, 1988). The Commission represents the states of Delaware, Maryland and West Virginia, and the Commonwealth of Pennsylvania to assist in the establishment of a regional low-level radioactive waste disposal facility as required by the Low-Level Radioactive Waste Policy Amendments Act (Pub. L. 99-240, January 15, 1986).

The primary purpose of this meeting is to consider a contract with the Southeast Compact Commission to continue access for low-level radioactive waste (LLRW) generators in Delaware, Maryland, Pennsylvania and West Virginia to the LLRW disposal facility in Barnwell, South Carolina. Other issues to be discussed include whether to assist in the development of an inter-regional agreement to ensure access to LLRW processors outside the Appalachian States region, and to decide whether the Commission should

hire a financial consultant to advise on the investment of Commission funds.

Marc S. Tenan,

Executive Director.

DEPARTMENT OF COMMERCE

Bureau of Export Administration

Action Affecting Export Privileges; Frederick Components International Ltd.; Modification of Order Denying Permission To Apply For or Use Export Licenses

In the Matter of: Frederic Components International Ltd. 22020 Clarendon Street Woodland Hills, California 91367.

By an Order entered against Frederick Components International, Ltd. (hereinafter referred to as Frederick Components) on May 20, 1992 and published on May 29, 1992 in the **Federal Register** (57 FR 22709),[1] Frederick Components was denied all U.S. export privileges until July 23, 2001, as more particularly described therein. In that Order, the address for Frederick Components was given as: 20806 Plummer Street, Chatsworth, California 91311.

The purpose of this modification is to note that Frederick Components has relocated, and its current address is:

22020 Clarendon Street
Woodland Hills, California 91367

In all other respects, the Order of May 20, 1992 remains in full force and effect until July 23, 2001.

A copy of this Order shall be delivered to Frederick Components. This Order shall be published in the **Federal Register**

Dated: September 15, 1992.

Iain S. Baird,

Director, Office of Export Licensing.

BILLING CODE 3510-DT-M

International Trade Administration

[A-412-809]

Preliminary Determination of Sales at Less Than Fair Value: Sulfur Dyes, Including Sulfur Vat Dyes, From the United Kingdom

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

[1] The caption of the Order was corrected by an Order dated July 9, 1992 and published on July 22, 1992 in the **Federal Register**, (57 FR 32520).

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Shawn Thompson, Office of Antidumping Investigations, Investigations, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 377-1776.

PRELIMINARY DETERMINATION: We preliminarily determine that sulfur dyes, including sulfur vat dyes, from the United Kingdom are being, or likely to be, sold in the United States at less than fair value, as provided in section 733 of the Tariff Act of 1930, as amended (the Act): The estimated margins are shown in the "Suspension of Liquidation" section of this notice. We also preliminarily determine that critical circumstances do not exist.

Case History

Since the notice of initiation on April 30, 1992 (57 FR 19600, May 7, 1992); the following events have occurred.

On May 26, 1992, the International Trade Commission (ITC) issued an affirmative preliminary determination.

On June 1, 1992 the Department presented its questionnaire to James Robinson Limited (JR), which accounted for at least 60 percent of sales to the United States during the period of investigation (POI), in accordance with 19 CFR 353.42(b).

JR submitted a response to section A of the questionnaire on June 15, 1992, and a response to sections B and C of the questionnaire on July 20, 1992. On August 5 and 28, we issued supplemental questionnaires to JR. We received the responses to these questionnaires on August 19 and September 3, 1992.

On August 31, 1992, JR requested that the Department determine that there are two classes or kinds of merchandise under investigation, solubilized sulfur dyes and conventional sulfur dyes. JR further requested that the Department rescind the investigation with respect to solubilized sulfur dyes, because petitioner has not made a less-than-fair-value allegation regarding this category of merchandise, or, at a minimum, calculate a separate deposit rate for each category. Due to the late date on which these requests were received, however, we were unable to adequately consider them for our preliminary determination. However, we will make a determination on these matters by the time of the final determination.

Scope of Investigation

The merchandise subject to this investigation is sulfur dyes, including sulfur vat dyes. Sulfur dyes are synthetic, organic, coloring matter containing sulfur. Sulfur dyes are obtained by high temperature sulfurization of organic material containing hydroxy, nitro or amino groups, or by reaction of sulfur and/or alkaline sulfide with aromatic hydrocarbons. For purposes of this investigation, sulfur dyes include, but are not limited to, sulfur vat dyes with the following color index numbers: Vat Blue 42, 43, 44, 45, 46, 47, 49, and 50 and Reduced Vat Blue 42 and 43. Sulfur vat dyes also have the properties described above. All forms of sulfur dyes are covered, including the reduced (leuco) or oxidized state, presscake, paste, powder, concentrate, or so-called "pre-reduced, liquid ready-to-dye" forms. The sulfur dyes subject to this investigation of classifiable under subheadings 3204.15.10, 3204,15,20, 3204.15.30, 3204.15.35, 3204.15.40, 3204.15.50, 3204.19.30, 3204.19.40 and 3204.19.50 of the Harmonized Tariff Schedule of the United States (HTS). Although the HTS subheadings are provided for convenience and customs purposes our written description of the scope of this proceeding is dispositive.

Period of Investigation

The POI is November 1, 1991, through April 30, 1992.

Such or Similar Comparisons

We have determined for purposes of the preliminary determination that the product covered by this investigation comprises a single category of "such or similar" merchandise. Where there were no sales of identical merchandise in the home market to compare to U.S. sales, we made similar merchandise comparisons on the basis of: (1) Category (*i.e.*, conventional or vat); (2) color; (3) color index number; (4) type; (5) form; and (6) strength. We made adjustments for differences in the physical characteristics of the merchandise, in accordance with section 773(a)(4)(C) of the Act.

Fair Value Comparisons

To determine whether sales of sulfur dyes, including sulfur vat dyes, from the United Kingdom to the United States were made at less than fair value, we compared the United States price (USP) to the foreign market value (FMV), as specified in the "United States Price" and "Foreign Market Value" sections of this notice.

United States Price

We based USP on purchase price, in accordance with section 772(b) of the

Act, because the subject merchandise was sold to unrelated purchasers in the United States prior to importation and because exporter's sales price methodology was not otherwise indicated.

We reclassified certain sales to a UK-based trading company, reported in the home market sales listing, as U.S. sales because JR had knowledge that the ultimate destination of the merchandise was the United States.

We calculated purchase price based on packed prices to unrelated customers. We made deductions, where appropriate, for foreign inland freight and air freight to the customer's destination. We also made deductions, where appropriate, for rebates.

In accordance with section 772(d)(1)(C) of the Act, we added to the USP the amount of value-added tax (VAT) that would have been collected if the merchandise had not been exported. Regarding the reclassified sales, JR claimed that it did not receive a rebate of the VAT amounts actually collected on those sales. Accordingly, we made no adjustment for VAT in those instances because we determined that no adjustment was called for under section 772(d)(1)(C) of the Act.

Finally, in accordance with section 772(d)(1)(B) of the Act, JR claimed an adjustment to USP for the amount of U.K. customs duty not collected on imports of dinitrochlorobenzene (DNCB), a material used to make sulfur dyes, by reason of exportation of the finished product. However, we find that no duty on imports of DNCB was actually paid, whether used for merchandise sold in the home market or for export. Accordingly, there was no actual liability for the duty. Thus, this was not a duty which was rebated or not collected by reason of exportation, and, accordingly, it does not qualify as an adjustment under section 772(d)(1)(B) of the Act.

Foreign Market Value

In order to determine whether there were sufficient sales of sulfur dyes, including sulfur vat dyes, in the home market to serve as viable basis for calculating FMV, we compared the volume of home market sales of sulfur dyes, including sulfur vat dyes, to the volume of third country sales of the same products, in accordance with section 773(a)(1)(B) of the Act. JR had a viable home market with respect to sales of sulfur dyes, including sulfur vat dyes, during the POI.

In accordance with 19 CFR 353.58, we compared U.S. sales to home market sales made at the same level of trade, where possible.

We calculated FMV based on packed prices charged to unrelated customers in the home market. We made deductions, where appropriate, for inland freight. We deducted home market packaging costs and added U.S. packing costs, in accordance with section 773(a)(1) of the Act.

Pursuant to 19 CFR 353.56, we made circumstance-of-sale adjustments, where appropriate, for differences in credit expenses and credit insurance expenses. We recalculated home market credit expense for those sales for which payment had not been received as of the filing of the August 19 deficiency response using the short-term interest rate reported by JR.

In addition to imputed credit expense on the sale, JR reported an imputed credit expense related to the prepayment of VAT in the United Kingdom. We disallowed an adjustment for this expense because it is not the Department's practice to analyze each opportunity cost involved in maintaining receivables and payables in the ordinary course of a company's business. We also made a circumstance-of-sale adjustment for differences in the amount of VAT, where appropriate. Further, we made an adjustment for physical differences in the merchandise, where appropriate, in accordance with 19 CFR 353.57.

Finally, before submitting its questionnaire response, JR requested that it be allowed to provide abbreviated sales data for home market products which it claimed were too dissimilar to be matched to U.S. sales. Based on this claim, we instructed JR to report only the total quantity and average price of each home market product which would not be matched, as well as the product characteristics coding for each of these products. We requested the product characteristics coding in order to ensure that JR and correctly reported its matches as well as its home market sales of similar merchandise.

After receiving this information, we found that JR had incompletely reported both its product matches and its home market sales. Specifically, we found that for five of the products sold in the U.S. market, there were several home market products which were equally similar with respect to the criteria set forth in Appendix V of the questionnaire; JR had matched in its concordance only one of these home market products to each of the U.S. products in question and had reported only the sales of the products in its concordance in its home market sales listing.

JR submitted a revised product concordance and home market sales listing in September 3, 1992. However, we determined that this information was received too late to use in this preliminary determination. Accordingly, we have used best information available (BIA) to determine the FMV for these home market sales. As BIA, we used the average price reported for each of these products in question, reduced by the lowest amount of each charge or adjustment reported in the home market sales listing. We determined that this amount would represent the minimum amount of selling expenses that JR would have incurred on these sales. Also as BIA, we added to FMV the highest difference in merchandise adjustment for any of the sales reported.

Currency Conversion

We made currency conversions based on the official exchange rates in effect on the dates of the U.S. sales as certified by the Federal Reserve Bank.

Verification

As provided in section 776(b) of the Act, we will verify the information used in making our final determination.

Critical Circumstances

Petitioner alleges that "critical circumstances" exist with respect to imports of sulfur dyes, including sulfur vat dyes, from the United Kingdom. Section 733(e)(1) of the Act provides that critical circumstances exist if we determine that there is a reasonable basis to believe or suspect that:

(A) (i) There is a history of dumping in the United States or elsewhere of the class or kind of merchandise which is the subject of the investigation, or

(ii) The person by whom, or for whose account, the merchandise was imported knew or should have known that the exporter was selling the merchandise which is the subject of the investigation at less than its fair value, and

(B) There have been massive imports of the class or kind of merchandise which is the subject of the investigation over a relatively short period.

We normally consider either an outstanding antidumping order in the United States or elsewhere on the subject merchandise, or margins of 25 percent or more sufficient to impute knowledge of dumping under section 733(e)(1)(A) of the Act. Since there are no outstanding antidumping orders on sulfur dyes, including sulfur vat dyes, from the United Kingdom, and the preliminarily-determined dumping margin for JR and all other exporters is less than 25 percent, we cannot impute knowledge under section 733(e)(1)(A) of the Act. Since the criteria necessary to

find the existence of critical circumstances under section 733(e)(1)(A) are not present, we do not need to determine whether imports of subject merchandise have been massive over a relatively short period.

Therefore, in accordance with section 733(e)(1)(A) of the Act, we preliminarily determine that critical circumstances do not exist with respect to imports of sulfur dyes, including sulfur vat dyes, from the United Kingdom.

Suspension of Liquidation

In accordance with section 733(d)(1) of the Act, we are directing the Customs Service to suspend liquidation of all entries of sulfur dyes, including sulfur vat dyes, from the United Kingdom that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. The Customs Service shall require a cash deposit or posting of a bond equal to the estimated preliminary dumping margins, as shown below. The suspension of liquidation will remain in effect until further notice. The weighted-average dumping margins are as follows:

Manufacturer/producer/exporter	Weighted-average margin percentage
James Robinson Limited	19.93
All others	19.93

ITC Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our determination.

If our final determination is affirmative, the ITC will determine whether these imports are materially injuring, or threaten material injury to, the U.S. industry before the later of 120 days after the date of this preliminary determination or 45 days after our final determination.

Public Comment

In accordance with 19 CFR 353.38, case briefs or other written comments in at least ten copies must be submitted to the Assistant Secretary for Import Administration no later than October 26, 1992, and rebuttal briefs no later than November 2, 1992. In accordance with 19 CFR 353.38(b), we will hold a public hearing, if requested, to give interested parties an opportunity to comment on arguments raised in case or rebuttal briefs. Tentatively, the hearing will be held on November 6, 1992, at 9:30 a.m. at the U.S. Department of Commerce, Room 3708, 14th Street and Constitution Avenue, NW., Washington, DC 20230. Parties should confirm by telephone the time, date, and place of the hearing 48 hours before the scheduled time.

Interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Import Administration, U.S. Department of Commerce, Room B-099, within ten days of the publication of this notice in the **Federal Register**. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. In accordance with 19 CFR 353.38(b), oral presentations will be limited to issues raised in the briefs.

This determination is published pursuant to section 733(f) of the Act (19 U.S.C. 1673b(f)) and 19 CFR 353.15.

Dated: September 17, 1992.

Rolf Th. Lundberg, Jr.,

Acting Assistant Secretary for Import Administration.

[FR Doc. 92-23249 Filed 9-23-92; 8:45 am]

BILLING CODE 3510-DS-M

[A-570-818]

Preliminary Determination of Sales at Less Than Fair Value: Sulfur Dyes, Including Sulfur Vat Dyes, From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: September 24, 1992.

FOR FURTHER INFORMATION CONTACT: Stefanie Amadeo, Office of Antidumping Investigations, Investigations, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 377-1174.

SUPPLEMENTARY INFORMATION: We preliminarily determine that sulfur dyes, including sulfur vat dyes, from the People's Republic of China (PRC) are being, or are likely to be, sold in the United States at less than fair value, as provided in section 733 of the Tariff ACt of 1930, as amended (the Act). The estimated martins are shown in the "Suspension of Liquidation" section of this notice. We have also determined that critical circumstances exist.

Case History

Since the notice of initiation on April 30, 1992 (57 FR 19600, May 7, 1992), the following events have occurred.

On May 22, 1992, we sent letters to the PRC government requesting a list of all known exporters of the subject merchandise.

On May 22, 1992, we sent a letter to the PRC embassy and petitioner requesting that they address the issues of: (1) Whether we should continue to treat the PRC as a non-market economy country (NME), or (2) whether available information would permit the Department to determine foreign market value (FMV) under section 773(a) of the Act.

On May 26, 1992, the International Trade Commission (ITC) issued an affirmative preliminary determination.

On June 23, 1992, the Department presented its questionnaire to the Ministry of Foreign Economic Relations & Trade, in the PRC who, as a responsible representative of the PRC government, was deemed the proper recipient of the questionnaire. The Government of the PRC has not responded to this questionnaire.

On July 2, 1992, Kwong Fat Hong Chemicals, Ltd., (KFC), a Hong Kong company, requested a questionnaire in the above-referenced investigation. On July 7, 1992, Sinochem Shandong Import and Export Corp. (Shandong) and Sinochem International Chemicals Company, Ltd. (SICC), also requested copies of the Department's June 23, 1992, questionnaire and requested an extension for the submission of questionnaire responses. All three companies stated that they qualified for separate antidumping duty margins. Based on these requests, we specified that each company would be considered as an independent respondent only if it could demonstrate that it qualified for separate rates in the test enunciated in the *Final Determination of Sales at Less Than Fair Value: Sparklers from the People's Republic of China*, 56 FR 20588 (May 6, 1991) ("*Sparklers*"). Moreover, we stated that we would consider these three companies as voluntary respondents because the Government of the PRC was the primary respondent to our June 23, 1992, questionnaire. We further stated that as voluntary respondents, we would only consider the responses of the three companies to the extent possible.

On July 8, 1992, the Department extended the due date for KFC's response to August 10, 1992, and for Shandong and SICC to August 17, 1992.

KFC submitted a response to Sections A, B, C, and D, and Attachments I and II of the Department's questionnaire on August 11, 1992. KFC resubmitted a revised Section D and Attachment II of the Department's questionnaire on August 12, 1992. On August 13, 1992, KFC submitted a revised narrative portion to Section A of its August 11, 1992, response. Shandong and SICC

of respondents' assertions, specifically, suppliers' business licenses, pricing information on the factor inputs, documentation on the government's role regarding labor, documentation on the newly-instated export licenses, and information from the PRC government.

As noted above, we continue to find that the PRC is an NME. Therefore, the presumption remains that the inputs used by the sulfur dye producers which are sources in the PRC are not purchased at market prices. A respondent asserting that it purchase inputs at market-oriented prices must provide significant documentary evidence and also show that market prices are at work to overcome this presumption. An absence of government control alone is not sufficient to warrant a conclusion that prices for inputs are market-driven. We must also conclude by application of the criteria outlined above that market forces are at work in determining the prices of these inputs within the PRC. Therefore, respondents' assertions, without sufficient documentary support, are not enough to establish market behavior with respect to input prices.

We do not have any information from the PRC government which would assist us in determining whether or not there is a lack of state control or a presence of market forces with respect to the factories' input costs and their respective supplier prices. We have requested information from the PRC government to determine whether there is any government control in the chemical sector, sulfur dyes industry, or in inputs used to produce sulfur dyes. The information submitted by the PRC government and respondents will be subject to verification, all of which will be taken into account in making our final decision on the PRC input prices issue.

Therefore, in accordance with section 773(c) of the Act, the Department is required to determine FMV on the basis of factors of production utilized in producing the merchandise, as valued in a surrogate country for all companies in the PRC.

Section 773(c) of the act requires the Department to value the factors of production, to the extent possible, in one or more market economy countries that are at a level of economic development comparable to that of the NME and that are significant producers of comparable merchandise. The Department has determined that India and Pakistan are the most comparable to the PRC in terms of overall economic development, based on per capita gross national product (GNP), the national distribution of labor, and growth rate in per capita GNP. (See memorandum from the Office of Policy to David L. Binder, dated August 6, 1992.) Because India fulfills both requirements outlined in the statute, India is the preferred surrogate country for purposes of calculating the factors of production used in producing the subject merchandise. We have resorted to Pakistan for surrogate values only if Indian values were not obtainable.

We have used the values for the factors of production, as appropriate, from both countries. We valued the factors of production in accordance with the a hierarchy for preferred input values set forth in the notice of *Final Determination of Sales at Less Than Fair Value: Certain Carbon Steel Butt-Weld Pipe Fittings From the People's Republic of China*, 57 FR 21058 (May 18, 1992). We first used Indian published material before resorting to unclassified information contained in U.S. government cables or to petitioner's cost information.

We calculated FMV based on factors of production reported by the factories which produced the subject merchandise for respondents. The factors used to produce sulfur dyes include materials, labor, and energy.

To value dinitrocholrobenzene, sodium sulphide, and sulfur, we used published, publicly available information from the Monthly Statistics of the Foreign Trade of India (March 1988). To value sodium hydroxide, we used the average undelivered price obtained from the U.S. consulate in Pakistan, because there were no published material prices for sodium hydroxide and the U.S. embassy in India could not obtain values for this input. We adjusted the factor values to the POI using wholesale price indices published by the International Monetary Fund.

To value labor rates, we used unskilled and skilled labor rates, including benefits, obtained from the U.S. embassy in India. Since we have no indication of the size of the factories in the PRC, we used the unskilled labor rate provided by the U.S. embassy in India that was applicable for a medium size plant operation. We adjusted the unskilled wage rate to account for the number of hours in an Indian work week based on information contained in the published source, Country Reports on Human Rights Practices for 1990, which was submitted to the U.S. Senate Committee on Foreign Relations in February 1991.

To value coal, we used the published source, Monthly Statistics of the Foreign Trade of India (September 1990), and a 1990 Indian coal price as published in the Organization of Economic Cooperations and Development International Energy Agency Statistics (OECD IEA Statistics). We calculated an average undelivered f.o.b. coal price based on the values derived from these two sources. We adjusted the value for the POI by using wholesale price indices published by the International Monetary Fund.

To value electricity, we used the publicly available Indian electricity rate for 1985, published in the OECD IEA Statistics, and adjusted the value for the POI by using wholesale price indices published by the International Monetary Fund.

To value water, we used the water rates obtained from the public December 1989 cable from the U.S. embassy in India, for a producer of comparable merchandise, because there were not published material prices for this material. We adjusted the factor values to the POI using wholesale price indices published by the International Monetary Fund.

We used an average percentage for factory overhead, based on Indian producers' experience, which we obtained from the U.S. embassy in India. Pursuant to section 773(e)(1)(B), we then added an amount higher than the statutory ten percent minimum for selling, general and administrative expenses, and an amount higher than the statutory eight percent minimum for profit, based on Indian chemical producers' experience, which was obtained from the U.S. embassy in India. We also added, where appropriate, an amount for packing labor based on the appropriate Indian skilled and unskilled wage rates, and an amount for packing materials based on Indian prices obtained from the public record of the concurrent investigation of sulfur dyes, including sulfur vat dyes, from India, in order to arrive at a constructed FMV for one metric ton of sulfur dye. We made no adjustments for selling expenses. (For a complete analysis of surrogate values, *see* our *Concurrence Memorandum* dated September 17, 1992.)

For KFC, in accordance with 19 CFR 353.47, concerning exports from an intermediate country, we calculated FMV based on sales in the intermediate country rather than sales in the PRC. We have preliminarily determined that KFC meets the provisions of 19 CFR 353.47 since (1) KFC is a Hong Kong reseller of the subject merchandise; (2) the producer in the PRC who supplied KFC was unaware of the countries to which KFC intended to resell the merchandise; (3) the merchandise entered the commerce of the

intermediate country but was not substantially transformed in that country; and (4) the subject merchandise was subsequently exported to the United States.

In order to determine whether there were sufficient sales of the sulfur dyes, including sulfur vat dyes, in Hong Kong to serve as a basis for calculating FMV, we compared the volume of home market sales of the such or similar category to the aggregate volume of third country sales, in accordance with section 773(a)(1)(B) of the Act. Since the volume of home market sales was greater than five percent of the aggregate volume of third country sales, we determined that home market sales constitute a viable basis for calculating FMV in accordance with 19 CFR 353.48.

In accordance with 19 CFR 353.58, we compared U.S. sales to home market sales made at the same level of trade, where possible.

We calculated FMW based on packed f.o.b. prices charged to unrelated customers in Hong Kong. We deducted home market packing costs and added U.S. packing costs, in accordance with section 773(a)(1) of the Act. Because KFC did not report any packing cost information, as BIA we used the packing materials cost calculated for Shandong and SICC. For packing labor cost, we used an average of SICC's and Shandong's skilled and unskilled packing labor hours from the August 18, 1992, public versions of SICC's and Shandong's questionnaire responses. Since no credit expenses were reported, we imputed credit for both home market and U.S. sales, using an average POI short term borrowings rate obtained from the New York office of the Hong Kong & Shanghai Bank. Because all comparisons involved purchase price sales, we made a circumstance of sale adjustment, where appropriate, for differences in credit expenses, in accordance with 19 CFR 353.56.

Currency Conversion

We made currency conversions based on the official exchange rates in effect on the dates of the U.S. sales as certified by the Federal Reserve Bank.

Verification

As provided in section 776(b) of the Act, we will verify the information used in making our final determination.

Critical Circumstances

Petitioner alleges that "critical circumstances" exist with respect to imports of sulfur dyes, including sulfur vat dyes, from the United Kingdom. Section 773(e)(1) of the Act provides that critical circumstances exist if we determine that there is a reasonable basis to believe or suspect that:

(A)(i) There is a history of dumping in the United States or elsewhere of the class or kind of merchandise which is the subject of the investigation, or

(ii) The person by whom, or for whose account, the merchandise was imported knew or should have know that the exporter was selling the merchandise which is the subject of the investigation at less than its fair value, and

(B) There have been massive imports of the class or kind of merchandise which is the subject of the investigation over a relatively short period.

In determining history or importer knowledge of dumping, we normally consider either an outstanding antidumping order in the United States or elsewhere on the subject merchandise, or margins of 25 percent or more as sufficient to impute knowledge of dumping under section 773(e)(1)(A) of the Act. See, *e.g., Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, from the People's Republic of China*, 56 FR 241 (January 3, 1991.)

Pursuant to 19 CFR 353.16(f), we generally consider the following factors in determining whether imports have been massive over a short period of time: (1) The volume and value of the imports; (2) seasonal trends (if applicable); and (3) the share of domestic consumption accounted for by imports. If imports during the period immediately following the petition increase by at least 15 percent over imports during a comparable period immediately preceding the filing of a petition, we consider them massive.

All three of the respondents failed to provide company-specific information on their exports, as requested in the Department's questionnaire. Consequently, as BIA, we determine that imports have been massive over a relatively short period of time.

For SICC and Shandong, because the dumping margins exceed 25 percent, we determine that importer knowledge of dumping exists for sulfur dyes, including sulfur vat dyes, from the PRC. Because imports have been massive, in accordance with section 773(e) of the Act, we find that critical circumstances exist with respect to exports of sulfur dyes, including sulfur vat dyes, by SICC and Shandong.

However, as regards KFC, since there are no outstanding dumping orders on sulfur dyes, including sulfur vat dyes, from the PRC, and the preliminary-determined dumping margin for KFC is less than 25 percent, we cannot impute knowledge under section 773(e)(1)(A) of the Act for KFC. Therefore, in accordance with section 773(e)(1)(A) of the Act, we preliminarily determine that, for KFC, critical circumstances do not exist with respect to import of the subject merchandise from the PRC.

With respect to firms covered by the "All Other" rate, because the dumping margin is sufficient to impute knowledge of dumping, and because we have determined that imports of sulfur dyes, including sulfur vat dyes, have been massive over a relatively short time, we determine that critical circumstances also exist for those firms.

Suspension of Liquidation

In accordance with section 733(d)(1) of the Act, we are directing the Customs Service to suspend liquidation of all entries of sulfur dyes, including sulfur vat dyes, exported from the PRC by SICC, Shandong, and all other producers/manufacturers/exporters, that are entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days prior to the date of publication of this notice in the **Federal Register**.

In accordance with section 733(d)(1) of the Act, for KFC, we are directing the Customs Service to suspend liquidation of entries of sulfur dyes, including sulfur vat dyes, exported from the PRC by KFC, that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. The Customs Service shall require a cash deposit or posting of a bond equal to the estimated preliminary dumping margins, as shown below. The suspension of liquidation will remain in effect until further notice. The weighted-average dumping margins are as follows:

Manufacturer/producer/exporter	Weighted-average margin percentage
Sinochem Shandong Import and Export Corp./Tianjin Bohai Chemical Dyes Factory	100.91
Sinochem International Chemicals Company, Ltd./Handan Chemical Dyes Factory	210.35
Kwong Fat Hong Chemicals, Ltd./ Wuhan Dyes Factory	4.92
All Others	210.35

ITC Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our determination.

If our final determination is affirmative, the ITC will determine whether these imports are materially injuring, or threaten material injury to, the U.S. industry before the later of 120

days after the date of this preliminary determination or 45 days after our final determination.

Public Comment

In accordance with 19 CFR 353.38, case briefs or other written comments in at least ten copies must be submitted to the Assistant Secretary for Import Administration no later than November 16, 1992, and rebuttal briefs no later than November 23, 1992. In accordance with 19 CFR 353.38(b), we will hold a public hearing, if requested, to give interested parties an opportunity to comment on arguments raised in case or rebuttal briefs. Tentatively, the hearing will be held on November 25, 1992, at 1 p.m. at the U.S. Department of Commerce, room 3708, 14th Street and Constitution Avenue, NW., Washington, DC 20230. Parties should confirm by telephone the time, date, and place of the hearing 48 hours before the scheduled time.

Interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Import Administration, U.S. Department of Commerce, Room B-099, within ten days of the publication of this notice in the Federal Register. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. In accordance with 19 CFR 353.38(b), oral presentations will be limited to issues raised in the briefs.

This determination is published pursuant to section 733(f) of the Act (19 U.S.C. 1673b(f)) and 19 CFR 353.15.

Dated: September 17, 1992.

Rolf Th. Lundberg, Jr.,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

National Telecommunications and Information Administration

Radio Frequencies in the United States, Requirements; Comments

AGENCY: National Telecommunications and Information Administration, DOC.

ACTION: Notice of extension of deadline for comments and reply comments.

SUMMARY: The National Telecommunications and Information Administration (NTIA) issued a Notice of Inquiry (NTIA Docket No. 920532-2132, Current and Future Requirements for the Use of Radio Frequencies in the United States, Federal Register, June 12, 1992, page 25010-25022) requesting comments regarding current and future national radio spectrum requirements. The Department of Defense and the Department of Energy had requested an extension of time in which to reply to the Notice. The NTIA Office of Spectrum Management has therefore granted an extension of the time for comments and reply comments. The deadline for comments has been extended to November 6, 1992, and the deadline for reply comments has been extended to January 8, 1993.

FOR FURTHER INFORMATION CONTACT: Inquires may be addressed to W. Russell Slye, Program Manager, Strategic Spectrum Planning, National Telecommunications and Information Administration, room 4099A, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone 202-377-1850 (202-482-1850 after September 25).

Dated: September 21, 1992.

Richard D. Parlow,

Associate Administrator, Office of Spectrum Management, National Telecommunications and Information Administration.

BILLING CODE 3510-60-M

COUNCIL ON ENVIRONMENTAL QUALITY

Federal Interagency Committee on Noise (FICON); Report and Recommendations

AGENCY: Council on Environmental Quality (CEQ).

ACTION: Notice of availability of FICON report and recommendations.

SUMMARY: At the direction of the Environmental Protection Agency and the Federal Aviation Administration, the FICON was formed in December 1990 with a basic charter to review specific elements of the assessment of airport noise impacts contained in documents prepared pursuant to the National Environmental Policy Act (NEPA); to review the relationship of Federal Aviation Regulation Part 150 to NEPA; and to make recommendations regarding potential improvements. The FICON is composed of representatives of Departments of Transportation (Office of the Secretary and the Federal Aviation Administration), Defense, Justice, Veterans Affairs, Housing and Urban Development; the Environmental Protection Agency; and the Council on Environmental Quality. The FICON has completed its charter and has issued its report, which contains technical findings and conclusions, and policy recommendations. This notice of the availability of the FICON Report is being published separately by all FICON member agencies.

FOR FURTHER INFORMATION CONTACT: Lucinda Low Swartz, Deputy General Counsel, Council on Environmental Quality, 722 Jackson Place, NW., Washington, DC 20503. Telephone (202) 395-5754.

SUPPLEMENTARY INFORMATION:

Availability of FICON Report

Any person may obtain a copy of the FICON Report by submitting a written request to: Spectrum Sciences and Software, Inc., Attn: Mr. Larry McGlothlin (Code DoD), 242 Vicki Leigh Road, Fort Walton Beach, Florida 32548-1314. Telephone: (904) 862-3330/3232.

Background

The FICON was formed to review federal policies which are used in the assessment of airport noise impacts. The FICON review focused primarily on:

- the manner in which noise impacts are determined, including whether aircraft noise impacts are fundamentally different from other transportation noise impacts;
- The manner in which noise impacts are described;
- The extent of impacts outside of Day-Night Average A-Weighted Sound Level (DNL) 65 decibels (dB) that should be reviewed in a National Environmental Policy Act (NEPA) document;
- The range of FAA-controlled mitigation options (e.g., noise abatement and flight track procedures) analyzed; and
- The relationship of the Federal Aviation Regulation (FAR) part 150 process to the NEPA process, including ramifications to the NEPA process if they are separate, and exploration of the means by which the two processes can be handled to maximize benefits.

The FICON was organized into three subgroups to appropriately focus on the technical, legal and policy issues associated with the assessment of airport noise impacts. The Technical Subgroup was tasked to review the body of science associated with methodologies and metrics for assessing airport noise impacts which have evolved since the 1980 meetings of the Federal Interagency Committee on Urban Noise (FICUN). The Policy Subgroup was tasked to review federal policies which are used in the assessment of airport noise impacts. The Legal Subgroup reviewed the legal aspects of current and proposed federal policies for assessing airport noise impacts. The Technical Subgroup's products were used as a basis for the

policy findings, conclusions and recommendations in the Report.

FICON Report Conclusions

General

- There are no new descriptors or metrics of sufficient scientific standing to substitute for the present DNL cumulative noise exposure metric.
- The methodology employing DNL as the noise exposure metric and appropriate dose-relationships (primarily the Schultz curve for Percent Highly Annoyed) to determine noise impact on populations is considered the proper one for civil and military aviation scenarios in the general vicinity of airports.
- Federal agencies generally conduct noise assessments at DNL levels of 65 dB. For a variety of reasons, noise predictions and interpretations are frequently less reliable below DNL 65 dB. DNL prediction models tend to degrade in accuracy at large distances from the airport. Therefore, predictions of noise exposure and impact below DNL 65 dB should take the possibility of such inaccuracy into account.
- DNL is sometimes supplemented by other metrics on a case-by-case basis.
- Noise analysis should address impacts in the following areas: (1) Health and welfare, (2) environmental degradation/impact, and (3) land use planning.
- Complaints are an inadequate indicator of the full extent of noise effects on a population.

Health and Welfare

- The dose-effect relationship, as represented by DNL and "Percent Highly Annoyed" (%HA), remains the best available approach for analyzing overall health and welfare impacts for the vast majority of transportation noise analysis situations.
- the 10 dB nighttime penalty levied against noise during 10 p.m. to 7 a.m. period is specifically designed to account for the intrusiveness of noise during this period, and its potential impact on sleep. There are no new hard data which would justify a change in this penalty.
- If supplemental analysis for sleep disturbance is desired, use may be made of an interim dose-response model developed by the AF Armstrong Laboratories. Although this relationship is described in terms of Sound Exposure Level (SEL), single event metrics are of limited use in predicting and interpreting cumulative noise exposure impacts.
- Annoyance is a summary measure of the general adverse reaction of people to living in noisy environments that cause speech interference and disturbance, and interfere with the desire for a tranquil environment and the ability to use the telephone, radio or television satisfactorily.
- No definitive evidence of nonauditory health effects from aircraft noise exists, particularly below DNL 70 dB.
- For supplemental Analysis Long-Term Equivalent Sound Level or Time Above may be used for analysis of school and communications requirements indoors during specific hours.
- Public health and welfare effects below DNL 60 dB have not been established, but are assumed to decrease according to the decrease in percent of people highly annoyed.

Environmental Degradation/Impact

- Under NEPA, environmental degradation might have to be assessed around airports even if there is no clear effect on public health and welfare. Other criteria might be appropriate.
- A 3 dB increase in the DNL environment represents a doubling of sound energy, and clearly is an indicator of the need for further analysis, although smaller increases may indicate similar need. In other words, the impact of a given incremental amount of change in noise levels depends, in part, upon the existing level of the noise environment.
- Recent technology and software advances in geographic information systems, noise methodology and Census data present an enhanced potential for detailed analysis of sound impacts on population and noise-sensitive areas. These technologies should be considered for use to determine noise impacts of present and proposed actions.

Land Use Planning

- DNL represents the accepted noise metric for input to compatible land use planning.
- For cumulative speech interference, Table 3–2 "Effects of Noise on People" contained in FICON Volume II: Technical Report, provides a rough approximation of both outdoor and indoor predicted speech interference parameters for various levels of noise exposure as measure in DNL for residential land use only.
- There is a need for selective updating (including Standard Land Use Coding Manual (SLUCM) updating) and enhanced public understanding of the land-use compatibility guidelines, its application and interpretation through incentives and other programs.

Education of the Public

Education of the public should concentrate on the following frequently misunderstood issues:

- Environmental noise exposure is measured and described most generally by Day-Night Average A-Weighed Sound Level (DNL). DNL should be defined clearly and its significance and use explained clearly.
- Relation of DNL to Percent Highly Annoyed describes long-term community response to the overall sound environment (indices of health and welfare effects).
- Although the A-Weighed Maximum Sound Level for a single fly-over is easily understood, it is useful only for analyzing short-term responses.
- Every change in the noise environment does not necessarily impact public health and welfare.
- Aircraft noise predictions below DNL 65 dB can be less accurate and should be interpreted with caution.

FICON Report Recommendations

- Continue use of the DNL metric as the principal means for describing long-term noise exposure to civil and military aircraft operations.
- Continue agency discretion in the use of supplemental noise analysis.
- Improve public understanding of the DNL, supplemental methodologies and aircraft noise impacts.
- If screening analysis shows that noise sensitive areas that will be at or above DNL 65 dB would have an increase of DNL 1.5 dB or more, further analysis should be conducted of noise sensitive areas between DNL 60–65 dB having an increase of DNL 3 dB or more due to the proposed airport noise exposure.
- If the DNL 65 dB screening test calls for further analysis between DNL 60-65 dB, agency mitigation options should include noise sensitive areas between DNL 60–65 dB that are projected to have an increase of 3 dB or more as a result of the proposed airport noise exposure.
- If an FAA Far part 150 program is included by the FAA as a NEPA mitigation measure, the FAA and the airport operator are responsible for ensuring that the commitment is carried out and the Part 150 study scope conforms to the NEPA scope of analysis.
- Increase research on methodology development and on the impact of aircraft noise. To foster this, a standing federal interagency committee should be established to assist agencies in providing adequate forums for discussions of public and private sector proposals identifying needed research

and in encouraging the conduct of research in these areas. The following initial research issues are recommended:

- Evaluate potential modifications to the 1980 FICUN land use compatibility table to improve its usefulness for both routine land use planning and planning for noise-sensitive land uses.
- Continue research into community reaction to aircraft noise, including sleep disturbance, speech interference, and non-auditory health effects of noise.
- Investigate differences in perceptions of aircraft noise, ground transportation noise (highways and railroads), and general background noise.
- Continue and expand research on the airport noise impacts of rotary-wing operations.

It is the FICON's belief that these recommendations will provide both immediate and long-term improvements in airport noise analysis. Federal interagency encouragement of a continuing review of airport noise analysis will provide a forum to address related public concerns.

While the FICON is seeking to achieve improved uniformity among federal agencies in airport noise analysis, it must also recognize that agencies have differing legislative mandates and operating environments. These recommendations should be viewed as general guidance. Each federal agency must determine how it can best use this guidance, supplementing it as appropriate to meet agency needs, within the framework of the NEPA requirements. The FICON Report neither addresses the adequacy of compliance with NEPA to date by the participating agencies, attempts to redefine thresholds of significance of impact under NEPA, nor modifies the NEPA regulations or procedures of those agencies.

Public Review and Comment

Any person may express his or her views on the FICON Report by submitting written comments to the Federal Aviation Administration, Office of Environment and Energy, AEE-300, 800 Independence Avenue, Washington, DC 20591. Since the primary impact of the report's recommendations will be on the assessment of civil airport noise impacts for which the FAA is responsible, the FAA is serving as the focal point for the receipt of public comments. Copies of such written responses will be provided to all agencies participating in FICON.

CEQ believes that the recommendation in the FICON report are sound and should be carefully considered by the agencies with substantive jurisdiction over noise issues. CEQ will work with those agencies to ensure that these recommendations are adopted and that noise issues are appropriately analyzed in compliance with NEPA.

Dated: September 17, 1992.

David B. Struhs,

Chief of Staff.

BILLING CODE 3125-01-M

DEPARTMENT OF DEFENSE

Public Information Collection Requirement Submitted to OMB for Review

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Title, Applicable Form, and Applicable OMB Control Number: Defense FAR Supplement (DFARS), Part 245, Government Property; DD Forms 1149, 1149C, 1342, 1419, 1637, 1639, 1640, and 1662; OMB Control Number 0704-0246.

Type of Request: Reinstatement.

Average Burden Hours/Minutes Per Response: 1.11 hours.

Responses Per Respondent: 4.68.

Number of Respondents: 17,396.

Annual Responses: 81,432.

Annual Burden Hours: 90,685.

Needs and Uses: DFARS Part 245 prescribes policies and procedures for providing government property to contractors, contractors' use and management of government property and reporting, and redistributing and disposing of contractor inventory. The information generated by the requirements of DFARS part 245 is used by contractors, property administrators, and contracting officers to maintain government furnished property records.

Affected Public: Business or other for-profit, Non-profit institutions, and Small business or organizations.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: Mr. Peter N. Weiss. Written comments and recommendations on the proposed information collection should be sent to Mr. Weiss at the Office of Management and Budget, Desk Officer for DoD, room 3235, New Executive Office Building, Washington, DC 20503.

DOD Clearance Officer: Mr. William P. Pearce. Written requests for copies of the information collection proposal should be sent to Mr. Pearce, WHS/DIOR, 1215 Jefferson Davis Highway, suite 1204, Arlington, Virginia 22202-4302.

Dated: September 17, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 92-23173 Filed 9-23-92; 8:45 am]

BILLING CODE 3810-01-M

Public Information Collection Requirement Submitted to OMB for Review

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act 944 U.S.C. chapter 35).

Title and Contract Clause: Defense FAR Supplement (DFEARS), part 215, Contracting by negotiation, and the clause at 252.215-7004

Type of Request: Existing collection in use without an OMB control number.

Average Burden Hours/Minutes per Response: 6 hours.

Responses per Respondent: 1.7.

Number of Respondents: 80.

Annual Responses: 136.

Annual Burden Hours: 816.

Needs and uses: DFARS part 215 and the clause at 252.215-7004 prescribe DoD policy and procedures for the recoupment of a fair share of the Government's investment in the nonrecurring costs of major defense equipment when the contractors or subcontractors sells the equipment to a customer other than the U.S. Government.

Affected Public: Businesses or other for-profit, Non-profit institutions, and Small businesses or organizations.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain a benefit.

OMB Desk Officer: Mr. Peter N. Weiss.

Written comments and recommendations on the proposed information collection should be sent to Mr. Weiss of the Office of Management and Budget, Desk Officer for DoD, room 3235, New Executive Office Building, Washington, DC 20503.

DoD Clearance Officer: Mr. William P. Pearce. Written requests for copies of the information collection proposal should be sent to Mr. Pearce, WHS/DIOR, 1215 Jefferson Davis Highway,

suite 1204, Arlington, Virginia 22202-4302.

Dated: September 21, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Office of the Secretary

Environmental Assessment: Midcourse Space Experiment (MSX)

AGENCY: Strategic Defense Initiative Organization (SDIO), DOD.

ACTION: Notice of availability of environmental assessment for Midcourse Space Experiment.

SUMMARY: The Department of Defense has prepared a Finding of No Significant Impact based on an assessment of the potential environmental consequences of conducting the Midcourse Space Experiment (MSX). The proposed operation of the MSX spacecraft is designed to gather information related to the following objectives: demonstration of infrared and visible midcourse sensor functions; collection of multi-spectral midcourse target and background data; integration of critical sensor technologies; and demonstration of space surveillance capabilities.

Background

Pursuant to Council on Environmental Quality Regulations (40 CFR Parts 1500-1508) for implementing the procedural provisions of the National Environmental Policy Act (42 U.S.C. 4321 *et. seq.*), and the U.S. Department of Defense (DOD) Directive 6050.1, the Strategic Defense Initiative Organization (SDIO) has conducted an assessment of the potential environmental consequences of the development and subsequent operation of the MSX spacecraft. The proposed action will be accomplished through the use of the Space Infrared Imaging Telescope (SPIRIT III) and other instrumentation that will be launched on the MSX spacecraft on a Delta II booster from Vandenberg Air Force Base (AFB) into a polar orbit. MSX will observe a variety of targets, both dedicated and nondedicated. In addition to the dedicated targets, the MSX program will involve targets not driven by, or attributable to, MSX.

Fabrication, assembly, and testing activities for the experiments to be contained on the MSX spacecraft will be conducted at Utah State University/Space Dynamics Laboratory (USU/SDL), Johns Hopkins University/Applied Physics Laboratory (JHU/APL), and Massachusetts Institute of Technology/Lincoln Laboratory (MIT/LL). The proposed activities will be conducted in existing facilities and will be within the scope of activities routinely conducted at those facilities.

Integration and testing activities for the spacecraft will occur at JHU/APL and the National Aeronautics and Space Administration (NASA/Goddard Space Flight Center (GSFC). Following these activities the spacecraft will be shipped via C-5A military cargo aircraft to Vandenberg AFB, where it will be launched into a polar orbit on a Delta II rocket. The preflight and flight activities required for the launch will be conducted at Vandenberg AFB in existing facilities developed specifically for such activities.

Alternatives considered include no action, the use of other launch locations, and the use of other launch vehicles. The no action alternative was rejected because the actual flight test data anticipated would be unavailable for the continued development of space-based sensors. The mission requirements for midcourse sensors development would not be met. Vandenberg AFB was selected as the launch location because it is the only United States location with the capability to support medium launch vehicles and deliver payloads directly into polar orbit. MSX mission parameters call for a polar orbit in order to observe atmospheric phenomena at various earth latitudes. The other site considered, Cape Canaveral Air Force Station (CCAFS), is limited to launching vehicles into an easterly azimuth. An inflight change to a polar orbit is possible, but would increase the fuel expenditure, thereby reducing the maximum orbital altitude to below MSX mission requirements. The Delta II booster vehicle was chosen over other launch vehicles in its class (Atlas and Titan II) based on mission performance, reliability, and schedule requirements. The Space Shuttle was also eliminated because it does not launch into a polar orbit from the Eastern Test Range.

Findings

The potential for significant impacts was determined through an analysis of the activities that would be conducted at the proposed locations. The potential impacts of the proposed action were assessed against the following environmental media: physical setting and land use; geology and water resources; air quality; noise; biological resources; threatened and endangered species; cultural resources; infrastructure; hazardous materials and waste; and public health and safety. The methodological approach consisted of identifying potential environmental issues and determining their significance. For issues identified as potentially significant after application of standard engineering practices, planned mitigation measures were incorporated into the program.

The spacecraft prelaunch and launch activities will be conducted at existing Vandenberg AFB facilities developed specifically for such activities. No significant impacts will occur as a result of these activities.

Prelaunch and launch activities of the Delta II booster will be conducted at Vanderberg AFB at existing facilities developed specifically for such activities. These activities were assessed in the Environmental Assessment for the Modification and Operation of SLC-2W, Medium Expendable Launch Vehicle Services (NASA, 1991), which is incorporated by reference into the MSX EA. The analysis concluded that there would be no significant impacts from the construction at the SLC-2W pad and subsequent launches of the Delta II, provided that launches do not occur during the 4½-month nesting season of the California Least Tern, which nests from mid-April to the end of August. The Delta II launch schedule for MSX is consistent with the allowable launch window identified in the SLC-2W EA.

Dedicated targets will be launched on boosters such as Strategic Target System (STARS) and Minuteman I (MMI). Only boosters with completed environmental documentation would be used. Specific targets may include: aeroshells, lightweight replicas, emissive and reflective reference spheres, instrumented balloons, chaff, debris fragments, and hydrazine fuel. Two of the dedicated target payloads will be Operational and Deployment Experiments Simulator (ODES) configuration payloads; one will be a fuel vent experiment payload, and one will be a simulated reentry vehicle. These dedicated targets are covered by existing environmental documentation. No significant impacts are expected to result from use of STARS, MMIs, and ODES for MSX, or from other MSX dedicated target sets.

Cumulative impacts were evaluated at MSX fabrication, assembly, and integration testing locations, the spacecraft launch and range location, and locations and ranges for dedicated targets. Cumulative impacts will be avoided through selection of MSX activities that have been assessed programmatically and through

compliance with applicable regulations at MSX location.

Overall, no significant impact will result from conducting the MSX program. Therefore, no environmental impact statement will be prepared for the proposed action.

FOR FURTHER INFORMATION CONTACT: Mr. Crate J. Spears, SDIO Environmental Coordinator, SDIO/TNE, The Pentagon, room 1E180, Washington, DC. 20301–87100, (703) 693–1575.

Dated: September 18, 1992.

L. M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810–01–M

Federal Agency Review of Selected Airport Noise Analysis Issues; Report and Recommendations

AGENCY: Federal Interagency Committee on Noise (FICON), DoD.

ACTION: Notice of availability of FICON report and recommendations.

SUMMARY: At the direction of the Environmental Protection Agency and the Federal Aviation Administration (FAA), the FICON was formed in December 1990 with a basic charter to review specific elements of the assessment of airport noise impacts contained in documents prepared pursuant to the National Environmental Policy Act (NEPA); to review the relationship of Federal Aviation Regulation (FAR) part 150 to NEPA; and to make recommendations regarding potential improvements. The FICON is composed of representatives from the Departments of Transportation (Office of the Secretary and the FAA), Defense, Justice, Veterans Affairs, Housing and Urban Development; the Environmental Protection Agency; and the Council on Environmental Quality. The FICON has completed its charter and has issued its report, which contains technical findings and conclusions, and policy recommendations. This notice of the availability of the FICON report is being published separately by all FICON member agencies.

ADDRESSES: Availability of FICON Report. Any person may obtain a copy of the FICON report by submitting a written request to the point of contact: Spectrum Sciences and Software Inc., Attn. Mr. Larry McGlothlin (Code DoD), 242 Vicki Leigh Road, Fort Walton Beach, Florida 32548–1314; telephone (904) 862–3330/3232.

FOR FURTHER INFORMATION CONTACT: Lieutenant Colonel James R. Hegland, Chief, Operations Analysis Team, Environmental Planning Division, Directorate of Environmental Quality, Headquarters U.S. Air Force, Washington, DC 20330; telephone (703) 697–2550.

SUPPLEMENTARY INFORMATION:

Background

The FICON was formed to review Federal policies which are used in the assessment of airport noise impacts. The FICON review focused primarily on:

- The manner in which noise impacts are determined, including whether aircraft noise impacts are fundamentally different from other transportation noise impacts;
- The manner in which noise impacts are described;
- The extent of impacts outside of the A-Weighted Day-Night Average Sound level (DNL) 65 decibels (dB) that should be reviewed in a National Environmental Policy Act (NEPA) document;
- The range of FAA-controlled mitigation options (e.g., noise abatement and flight track procedures) analyzed; and,
- The relationship of the FAR Part 150 process to the NEPA process, including ramifications to the NEPA process if they are separate, and exploration of the means by which the two processes can be handled to maximize benefits.

The FICON was organized into three subgroups to appropriately focus on the technical, legal, and policy issues associated with the assessment of airport noise impacts. The Technical Subgroup was tasked to review the body of science associated with methodologies and metrics for assessing airport noise impacts which have evolved since the 1980 meetings of the Federal Interagency Committee on Urban Noise (FICUN). The Policy Subgroup was tasked to review Federal policies which are used in the assessment of airport noise impacts. The Legal subgroup reviewed the legal aspects of current and proposed Federal policies for assessing airport noise impacts. The Technical Subgroup's products were used as a basis for the policy findings, conclusions, and recommendations in the report.

FICON Report Conclusions

General

- There are no new descriptions or metrics of sufficient scientific standing to substitute for the present DNL cumulative noise exposure metric.
- The methodology employing DNL as the noise exposure metric and appropriate dose-relationships (primarily the Schultz Curve for Percent Highly Annoyed, expressed as %HA) to determine noise impact is considered the proper one for civil and military aviation scenarios in the general vicinity of airports.
- Federal agencies generally conduct noise assessments at DNL levels of 65 dB or more. For a variety of reasons, noise predictions and interpretations are frequently less reliable below DNL 65 dB. DNL prediction models tend to degrade in accuracy at large distances from the airport. Therefore, predictions of noise exposure and impacts below DNL 65 dB should take the possibility of such inaccuracy into account.
- DNL is sometimes supplemented by other metrics on a case-by-case basis.
- Noise analysis should address impacts in the following areas: (1) Health and welfare, (2) environmental degradation/impact and (3) land use planning.
- Complaints are an inadequate indicator of the full extent of noise effects on a population.

Health and Welfare

- The dose-effect relationship, as represented by DNL and %HA, remains the best available approach for analyzing overall health and welfare impacts for the vast majority of transportation noise analysis situations.
- The 10 dB nighttime penalty levied against noise during the 10 PM to 7 AM period is specifically designed to account for the intrusiveness of noise during this period and its potential impact on sleep. There are no new hard data which would justify a change in this penalty.
- If supplemental analysis for sleep disturbance is desired, use may be made of an interim dose-response model developed by the Air Force (AF) Armstrong Laboratories (AL) (see Volume II, section 3.2.2.3). Although this relationship is described in terms of Sound Exposure Level (SEL), single event metrics are of limited use in predicting and interpreting cumulative noise exposure impacts.
- Annoyance is a summary measure of the general adverse reaction of people to noise that causes speech interference; sleep disturbance; desire for a tranquil environment; and the inability to use the telephone, radio or television satisfactorily.
- No definitive evidence of non-auditory health effects from aircraft noise exist, particularly below DNL 70 dB.
- For supplemental analysis, Long-Term Equivalent Sound Level (Leq(x)) (where X represents the time period of

concern) or Time Above (TA) may be used for analysis of school and communications requirements indoors during specific hours.

• Public health and welfare effects below DNL 60 dB have not been established, but are assumed to decrease according to the decrease in percent of people highly annoyed.

Environmental Degradation/Impact

• Under NEPA, environmental degradation might have to be assessed around airports even if there is no clear effect on public health and welfare. Other criteria might be appropriate.

• A 3 dB increase in the DNL environment represents a doubling of sound energy and clearly is an indicator of the need for further analysis, although smaller increases may indicate similar need. In other words, the impact of a given incremental amount of change in noise levels depends, in part, upon the existing level of the noise environment.

• Recent technology and software advances in geographic information systems, noise methodology and census data present an enhanced potential for detailed analysis of sound impacts on population and noise-sensitive areas. These technologies should be considered for use to determine noise impacts of present and proposed actions.

Land Use Planning

• DNL represents the accepted noise methodology for input to compatible land use planning.

• For cumulative speech interference, Table 3–2 "Effects of Noise on People" contained in FICON Volume II: Technical Report, provides a rough approximation of both outdoor and indoor predicated speech interference parameters for various levels of noise exposure as measured in DNL for residential land use only.

• There is a need for selective updating (including Standard Land Use Coding Manual (SLUCM) updating) and enhanced public understanding of the land-use compatibility guidelines, its application and interpretation through incentives and other programs.

Education of the Public

Education of the public should concentrate on the following frequently misunderstood issues:

• Environmental noise exposure is measured and described most generally by Day-Night Average A-Weighted Sound Level (DNL). DNL should be defined clearly and its significance and use explained clearly.

• Relation of DNL to Percent Highly Annoyed describes long-term community response to the overall sound environment (indices of health and welfare effects).

• Although the A-Weighted Maximum Sound Level (Lmax) for a single flyover is easily understood, it is useful only for analyzing short-term responses.

• Every change in the noise environment does not necessarily impact public health and welfare.

• Aircraft noise predictions below DNL 65 dB can be less accurate and should be interpreted with caution.

FICON Report Recommendations

• Continue use of the DNL metric as the principal means for describing long-term noise exposure of civil and military aircraft operations.

• Continue agency discretion in the use of supplemental noise analysis.

• Improve public understanding of the DNL, supplemental methodologies and aircraft noise impacts.

• If screening analysis shows that noise-sensitive areas will be at or above DNL 65 dB and will have an increase of DNL 1.5 dB or more, further analysis should be conducted of noise sensitive areas between DNL 60–65 dB having an increase of DNL 3 dB or more due to the proposed airport noise exposure.

• If the DNL 65 dB screening test calls for further analysis between DNL 60–65 dB, agency mitigation options will include noise sensitive areas between DNL 60–65 dB that are projected to have an increase of 3 dB or more as a result of the proposed airport noise exposure.

• If an FAA Part 150 program is included by the FAA as a NEPA mitigation measure, the FAA and the airport operator are responsible for ensuring the commitment is carried out and the Part 150 study scope conforms to the NEPA scope of noise analysis.

• Increase research (R&D) on methodology development and on the impact of aircraft noise. To foster this, a standing Federal interagency committee should be established to assist agencies in providing adequate forums for discussions of public and private sector proposals identifying needed research and in encouraging R&D in these areas. The following initial R&D issues are recommended:

• Evaluate potential modifications to the 1980 FICUN land use compatibility table to improve its usefulness for both routine land use planning and planning for noise-sensitive land uses.

• Continue research into community reaction to aircraft noise, including sleep disturbance, speech interference, and non-auditory health effects of noise.

• Investigative differences in perceptions of aircraft noise, ground transportation noise (highways and railroads), and general background noise.

• Continue and expand research on the airport noise impacts of rotary-wing operations.

It is the FICON's belief that these recommendations will provide both immediate and long-term improvements in airport noise analysis. Federal interagency encouragement of a continuing review of airport noise analysis will provide a forum to address related public concerns.

While the FICON is seeking to achieve improved uniformity among Federal agencies in airport noise analysis, it must also recognize that agencies have differing legislative mandates and operating environments. These recommendations should be viewed as general guidance. Each Federal agency must determine how it can best use this guidance, supplementing it as appropriate to meet agency needs, within the framework of the NEPA requirements.

The FICON report neither addressees the adequacy of compliance with NEPA to date by the participating agencies, attempts to redefine thresholds of significance of impact under NEPA, nor modifies the NEPA regulations or procedures of these agencies.

Public Review and Comment

Any person may express his or her views on the FICON report by submitting written comments to the Federal Aviation Administration, Office of Environment and Energy, AEE–300, 800 Independence Avenue, SW., Washington, DC 20591. Since the primary impact of the report's recommendations will be on the assessment of civil airport noise impacts for which the FAA is responsible, the FAA is serving as the focal point for the receipt of public comments. Copies of such written responses will be provided to all agencies participating in FICON.

Each member agency has advised the FICON that they are reviewing their procedures for evaluating airport noise impacts based on the FICON Report findings, conclusions and recommendations. Any resulting changes in their procedures will follow individual agency rules for public comment.

Dated: September 18, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 92–23175 Filed 9–23–92; 8:45 am]

BILLING CODE 3810–01–M

Department of the Army

Environmental Assessment for Base Realignment at Fort Lewis, Washington

AGENCY: Department of Defense, United States Army.

ACTION: Finding of No Significant Impact.

SUMMARY: In accordance with the legislative requirements of Public Law 101–510 (Title XXIX), the 7th Infantry Division (Light) [71D(L)] and the Communications Systems Test Activity will realign to Fort Lewis, Washington. An environmental assessment (EA) describing impacts to the biological, historical, cultural, and socioeconomic environment of Fort Lewis and its subinstallations, the Yakim Firing Center (YFC) and Vancouver Barracks/ Camp Bonneville, has been prepared in accordance with the National Environmental Policy Act (NEPA), the provisions of Army Regulation 200–2, and the Council on Environmental Quality Regulations 200–2, and the Council on Environmental Quality Regulations of 40 CFR part 1500. The EA is incorporated herein by reference. All environmental requirements, including the Endangered Species Act and the National Historic Preservation Act, have been addressed.

The proposed action will involve the realignment of the 7ID(L), non-divisional support units, and the Communications Systems Test Activity to Fort Lewis between 1993 and 1995. The Army's preferred alternative is to phase the move by Division Ready Brigade. The administrative requirements of the 7ID(L) will be met by a combination of new construction, existing facilities, and diverted barracks space. New construction will involve four new projects on the installation. Four alternatives for providing administrative facilities were considered including: No action, leasing existing off-site commercial facilities, using facilities at nearby military installations, and a combination of using new construction and existing facilities. New construction and use of existing facilities were selected as the most cost effective alternative, as well as the alternative that contributes the most to higher morale and military readiness. Alternative construction sites were evaluated based on cost, land use, logistics, access, troop morale, environmental impact, energy efficiency, and utilities. Sites selected result in minimization of impacts and costs.

New construction sites are located within existing cantonment areas and will not adversely impact air or water quality, ambient noise levels, sensitive biological resources, historical resources, or other resources. Site assessments were conducted to determine whether the properties within the construction project areas are eligible for the National Register of Historic Places. None were identified. Any facility scheduled for demolition will be treated in accordance with the Requirements of the Department of Defense Programmatic Agreement (PA) for World War II Temporary Wooden Buildings.

The amended Base Closure and Realignment PA for Historic Properties outlines required actions to be completed by Fort Lewis for compliance of the proposed action with sections 106 and 110 of the National Historic Preservation Act. Specific remaining actions to be completed include the following:

1. A schedule for completion of inventory survey will be established in consultation with the State Historic Preservation Office and the Advisory Council on Historic Preservation as part of the Historic Preservation Plan (HPP).

a. Priority inventory survey and site evaluation for Fort Lewis historic sites.

b. Priority inventory survey and site evaluation for Selah Creek at the YFC.

2. Completion of 60 cultural site determinations of eligibility for the National Register of Historic Places at Fort Lewis and 71 cultural site determinations at the YFC.

3. Completion of a cultural resources predictive model of the YFC to be developed on the installations's Geographic Information System based on current and past inventory surveys and field experience.

4. Preparation of an installation HPP by September 30, 1994.

5. Completion of Historic American Building Survey assessment for affected WWII historic buildings.

6. Consultation with local Indian tribes concerning use, inventory, and preservation of traditional cultural properties.

The Army will not undertake any new Base Closure and Realignment construction, renovation, land disposal, training exercises, or other activities which could affect historic properties until the actions necessary to inventory, assess and take into account the effects on historic properties have been completed consistent with the terms set forth in the amended PA for Historic Properties.

Relocating the 7ID(L), non-divisional support units, and the Communications systems Test Activity will involve approximately 12,400 military and 330 civilian positions. Installation personnel strength will exceed present levels, but not levels which have been attained in the past at Fort Lewis. No new housing will be constructed. Twenty-seven existing barracks buildings will be renovated. Existing facilities at Fort Lewis can adequately support the increase in population associated with the realignment of the 7ID(L) to Fort Lewis. The construction activities will not significantly alter the availability of energy resources on the installation.

Training impacts on the natural environment will not be significant when compared to past use of training lands by the 9th Infantry Division (Motorized) because of the nature of the 7ID(L) training which involves a reduction in wheeled and tracked vehicles and a chance to a light division. Although training will increase at Fort Lewis, the realignment action will not significantly affect the training land nor will it require the expansion of training facilities. Training will decrease at the YFC and no significant impacts will occur to any federally or state listed threatened or endangered species on Fort Lewis or YFC. No adverse modification will occur to designated critical habitat on Fort Lewis for the northern spotted owl. All training will be conducted in accordance with the installation sensitive area management plans and regulations.

The realignment action will have a positive impact on Pierce and Thurston Counties in terms of employment, population, business volume, and personal income. However, these increases will not alter the socioeconomic characteristics of the Fort Lewis region and are not significant. No socioeconomic impacts will result at the YFC.

Based on the evaluation of the direct, indirect, and cumulative environmental impacts, as presented in the EA, the realignment of the 7ID(L) and the Communications Systems Test Activity to Fort Lewis will not significantly affect the quality of the human environment; therefore, an Environmental Impact Statement need not be prepared.

SUPPLEMENTARY INFORMATION: There is a 30-day waiting period for the public prior to implementation.

ADDRESSES: A request for a copy of the EA and comments may be forwarded to: Dr. David Rice, Seattle District, U.S. Army Corps of Engineers, P.O. Box C–3755, Seattle, Washington 98124–2255.

FOR FURTHER INFORMATION CONTACT: Questions concerning this FNSI may be

directed to Dr. David Rice, (206) 764–3630.

Lewis D. Walker,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health) OASA(I,L&E).

AGENCY: Defense Logistics Agency, DOD.

ACTION: Amend a record system.

SUMMARY: The Defense Logistics Agency (DLA) proposes to amend one existing record system in the DLA inventory of system of records notices subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended.

DATES: The amendment will be effective without further notice on October 26, 1992, unless comments are received that would result in a contrary determination.

ADDRESSES: Send comments to the Privacy Act Officer, Administrative Management Branch, Planning and Resource Management Division, Defense Logistics Agency, Room 5A120, Cameron Station, Alexandria, Virginia 22304–6100.

FOR FURTHER INFORMATION CONTACT: Ms. Susan Salus at (703) 617–7583.

SUPPLEMENTARY INFORMATION: The complete inventory of DLA system of records notices subject to the Privacy Act of 1974 (5 U.S.C 552a), as amended, have been published in the **Federal Register** as follows:

50 FR 22897, May 29, 1985 (DoD Compilation, changes follow)

57 FR 35570, August 10, 1992

The amendment is not within the purview of subsection (r) of the Privacy Act which requires the submission of an altered system report. The specific changes to the record system being amended are set forth below followed by the system notice, as amended, in its entirety.

Dated: September 18, 1992.

L. M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

S835.50 DLA-H

SYSTEM NAME:

Hazardous Materials Exposure History System, (53 FR 26105, July 11, 1988).

CHANGES:

SYSTEM IDENTIFIER:

Delete entry and replace with "S600.10 DLA-W."

SYSTEM NAME:

Delete entry and replace with "Hazardous Materials Occupational Exposure History Files"

SYSTEM LOCATION:

Delete entry and replace with "Records are maintained at the Defense Personnel Support Center; the Defense Distribution Region Central; the Defense Distribution Region West; the Defense Distribution Region East; the Defense Distribution Depot, Ogden; and the Defense National Stockpile Center. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notices.

In addition, records are maintained at the following Defense National Stockpile Center field locations:

Zone Offices: Zone 1 Management Office, 26 Federal Plaza, New York, NY 10278–5000;

Zone 2 Management Office, 3200 Sheffield, Hammond, IN 46327–5000;

Zone 3 Management Office, 819 Taylor Street, Fort Worth, TX 76102–5000.

Stockpile Depots: Binghamton Depot, Hoyt Avenue, Binghamton, NY 13901–1699;

Sommerville Depot, 152 U.S. Highway 206 South, Sommerville, NJ 08876–4135;

Curtis Bay Depot, 710 Ordance Road, Baltimore, MD 21226–1786;

Scotia Depot, Scotia, NY 12302–7463;

Point Pleasant Depot, 2801 Madison Avenue, Point Pleasant, WV 25550–1603;

Hammond Depot, 3200 Sheffield Avenue, Hammond, IN 46327–5000;

Casad Depot, New Haven, IN 46774–9644;

Sharonville Depot, 11935 Enterprise Drive, Cincinnati, OH 45241–1513;

Warren Depot, Pine Street Extension, Warren, OH 44482–9999;

Fort Worth Depot, Fort Worth, TX 76102–5000;

Gadsden Depot, 400 Raines Avenue, Gadsden, AL 35902–5000;

Baton Rouge Depot, 2895 N. Sherwood Forest Drive, Baton Rouge, LA 70814–5397;

Clearfield Federal Depot, Clearfield, UT 84016–5000; and

Stockton Depot, Rough and Ready Island, Building 718, Stockton, CA 95203–5000."

* * * * *

CATEGORIES OF RECORDS IN THE SYSTEM:

Delete entry and replace with "Records consist of the daily dosage of radiation received and hourly exposure to dangerous levels of asbestos along

with medical status data resulting from annual medical examinations."

* * * * *

PURPOSE(S):

Delete entry and replace with "To record and maintain data on hazardous materials exposure levels and medical status data following annual medical examination."

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Delete entry and replace with "Information from the records is disclosed to the U. S. Public Health Service under contract to provide medical examinations of DLA employees.

Information on exposure readings is also provided to the regulatory agencies which regulate the handling of hazardous materials.

The "Blanket Routine Uses" set forth at the beginning of DLA's compilation of systems of records notices apply to this system."

* * * * *

STORAGE:

Delete entry and replace with "Records are stored in paper and computerized form."

* * * * *

SAFEGUARDS:

Delete entry and replace with "Records are maintained in areas accessible only to DLA personnel who must access the records to perform their duties. The computer files are password protected with access restricted to authorized users."

RETENTION AND DISPOSAL:

Delete entry and replace with: "Records are destroyed 75 years after birth date of employee, 60 years after date of the earliest document in the file if the date of birth cannot be ascertained, or 30 years after latest separation, whichever is later."

SYSTEM MANAGER(S) AND ADDRESS:

Delete entry and replace with "Staff Director, Office of Installation Services and Environmental Protection, DLA-W, Cameron Station, Alexandria, VA 22304–6100, and offices of environmental protection at the DLA Primary Level Field Activities. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notices."

NOTIFICATION PROCEDURE:

Delete entry and replace with "Individuals seeking to determine whether this system of records contains information about themselves should address written inquiries to or visit the system manager of the particular DLA activity involved. Official mailing addresses are published as an appendix to DLA's compilation of record system notices or listed under *System location* above."

RECORD ACCESS PROCEDURES:

Delete entry and replace with "Individuals seeking access to records about themselves contained in this system of records should address written inquiries to or visit the system manager of the particular DLA activity involved. Official mailing addresses are published as an appendix to DLA's compilation of record system notices or listed under *System location* above."

CONTESTING RECORD PROCEDURES:

Delete entry and replace with "The DLA rules for contesting contents and appealing initial agency determinations are contained in DLA Regulation 5400.21, "Personal Privacy and Rights of Individuals Regarding Their Personal Records"; 32 CFR part 323; or may be obtained from the system manager."

Clearfield Federal Depot, Clearfield, UT 84016–5000; and

Stockton Depot, Rough and Ready Island, Building 718, Stockton, CA 95203–5000."

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel working in or visiting storage areas containing hazardous materials.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of the daily dosage of radiation received and hourly exposure to dangerous levels of asbestos along with medical status data resulting from annual medical examinations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Occupational Safety and Health Act of 1970, as amended; 5 U.S.C. 5108, 5314, 5315, 7902; 15 U.S.C. 633, 636; 18 U.S.C. 1114; 29 U.S.C. 553, 651–678; 42 U.S.C. 3142–1; 49 U.S.C. App. 1421; and Executive Order 9397.

PURPOSE(S):

To record and maintain data on hazardous materials exposure levels and medical status data following annual medical examination.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information from the records is disclosed to the U. S. Public Health Service under contract to provide medical examinations of DLA employees.

Information on exposure readings is also provided to the regulatory agencies which regulate the handling of hazardous materials.

The "Blanket Routine Uses" set forth at the beginning of DLA's compilation of systems of records notices apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS:

STORAGE:

Records are stored in paper and computerized form.

RETRIEVABILITY:

Filed alphabetically by individual's name.

SAFEGUARDS:

Records are maintained in areas accessible only to DLA personnel who must access the records to perform their duties. The computer files are password protected with access restricted to authorized users.

RETENTION AND DISPOSAL:

Records are destroyed 75 years after birth date of employee, 60 years after date of the earliest document in the file if the date of birth cannot be ascertained, or 30 years after latest separation, whichever is later.

SYSTEM MANAGER(S) AND ADDRESS:

Staff Director, Office of Installation Services and Environmental Protection, DLA-W, Cameron Station, Alexandria, VA 22304–6100, and offices of environmental protection at the DLA Primary Level Field Activities. Official mailing addresses are published as an appendix to DLA's compilation of systems of records notices.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether this system of records contains information about themselves should address written inquiries to or visit the system manager of the particular DLA activity involved. Official mailing addresses are published as an appendix to DLA's compilation of record system notices or listed in the *System location* entry above.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this system of records should address written inquiries to or visit the system manager of the particular DLA activity involved. Official mailing addresses are published as an appendix to DLA's compilation of record system notices or listed in the *System location* entry above.

CONTESTING RECORD PROCEDURES:

The DLA rules for contesting contents and appealing initial agency determinations are contained in DLA Regulation 5400.21, "Personal Privacy and Rights of Individuals Regarding Their Personal Records"; 32 CFR part 323; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in this system of records is obtained from film badges, dosimeters, other instrumentation, work logs, and medical examinations.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

DEPARTMENT OF EDUCATION

[CFDA No.: 84.128A]

Special Projects and Demonstrations for Providing Supported Employment Services to Individuals With Severe Handicaps—Community-Based Projects; Closing Date Extension

Notice extending the closing date for transmittal of applications for new awards for fiscal year (FY) 1993.

Deadline for Transmittal of Applications: The closing date for applications is extended from September 1, 1992 to October 9, 1992.

On June 12, 1992, the Department of Education published in the **Federal Register** (57 FR 25025) a notice inviting applications under Special Projects and Demonstrations for Providing Supported Employment Services to Individuals with Severe Handicaps—Community-Based Projects for fiscal year (FY) 1993. Detailed information concerning this competition was included in that notice. The purpose of this notice is to extend the deadline date for transmittal of applications because potential applicants may not have had sufficient time to complete their proposals due to the disruption caused by the recent hurricane in Florida and Louisiana.

Deadline for Intergovernmental Review: December 8, 1992.

For Applications or Information Contact: Judith Miller Tynes, U.S. Department of Education, 400 Maryland Avenue, SW., room 3222, Switzer Building, Washington, DC 20202–2742. Telephone: (202) 205–9346. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

Program Authority: 29 U.S.C. 777a(d).

Dated: September 18, 1992.

Robert R. Davila,

Assistant Secretary, Office of Special Education and Rehabilitative Services.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. JD92–09498T, Louisiana–15]

State of Louisiana; NGPA Notice of Determination by Jurisdictional Agency Designating Tight Formation

September 18, 1992.

Take notice that on September 17, 1992, the Office of Conservation of the Department of Natural Resources for the State of Louisiana (Louisiana) submitted the above-referenced notice of determination pursuant to § 271.703(c)(3) of the Commission's regulations, that the Smackover C Formation, Reservoir B, underlying parts of the Haynesville Field in Claiborne Parish, Louisiana, qualifies as a tight formation under section 107(b) of the Natural Gas Policy Act of 1978. The area of application covers portions of sections 17–20 of Township 23 North, Range 8 West.

The notice of determination also contains Louisiana's findings that the referenced part of the Smackover C Formation meets the requirements of the Commission's regulations set forth in 18 CFR part 271.

The application for determination is available for inspection, except for material which is confidential under 18 CFR 275.206, at the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. Persons objecting to the determination may file a protest, in accordance with 18 CFR 275.203 and

275.204, within 20 days after the date this notice is issued by the Commission.

Linwood A. Watson, Jr.

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. TM93-3-20-000 TM92-20-20-000]

Proposed Changes in FERC Gas Tariff; Algonquin Gas Transmission Co.

September 16, 1992

Take notice that Algonquin Gas Transmission Company ("Algonquin") on September 16, 1992, tendered for filing proposed changes in its FERC Gas Tariff, Third Revised Volume No. 1, as set forth in the following revised tariff sheets:

Proposed to be effective July 1, 1992
Sub 11 Rev Sheet No. 41
2 Sub 11 Rev Sheet No. 42
Proposed to be effective August 1, 1992
Sub 12 Rev Sheet No. 41
4 Sub 12 Rev Sheet No. 42
Proposed to be effective September 1, 1992
13 Rev Sheet No. 41
13 Rev Sheet No. 42
Proposed to be effective October 1, 1992
14 Rev Sheet No. 41
14 Rev Sheet No. 42

Algonquin states that the revised tariff sheets are being filed to flow through changes in rates in Texas Eastern Transmission Corporation's ("Texas Eastern") Rate Schedules SS-2 and SS-3, which underlie Algonquin's Rate Schedules STB and SS-III, respectively. Pursuant to Section 10 of Rate Schedule STB and Section 9 of Rate Schedule SS-III in Algonquin's FERC Gas Tariff, Third Revised Volume No. 1, Algonquin is hereby filing the above sheets to track the latest changes filed by Texas Eastern on August 28, 1992.

Algonquin also states that in its filing, Texas Eastern states that it is making its filing to flow through changes in CNG Transmission Corporation's ("CNG") Rate Schedule GSS Injection Charge Rate. These changes were reflected in a tariff filing made by CNG on July 1, 1992 in Docket No. TM92-8-22-000, which was subsequently accepted by Commission Order dated July 31, 1992.

Algonquin further states that pursuant to sections 10.3 and 9.3 of Rate Schedules STB and SS-III, respectively, the proposed effective date for the listed revised tariff sheets corresponds with the effective date of Texas Eastern's tariff sheets.

Algonquin notes that copies of this filing were served upon each affected party and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Liwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92-23151 Filed 9-23-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket Nos. TA92-1-63-002, TM92-5-63-001 and TQ92-7-63-001]

Compliance Filing; Carnegie Natural Gas Co.

September 18, 1992.

Take notice that on September 15, 1992, Carnegie Natural Gas Company ("Carnegie") tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1, with a proposed effective date of September 1, 1992:

2 Sub Thirty-Fourth Revised Sheet No. 8
2 Sub Thirty-Fourth Revised Sheet No. 9

Carnegie states that it is filing the above tariff sheets to comply with the Commission's Order issued in the captioned dockets on August 31, 1992. Carnegie states that, as directed by the Commission, the above tariff sheets reflect Carnegie's PGA commodity surcharge computed in accordance with § 154.305(d) of the Commission's regulations and the TCA commodity surcharge computed in accordance with Section 26 of the General Terms and Conditions of Carnegie's tariff. Carnegie states that because each of these calculations are based on a zero projection for firm sales, the resulting PGA commodity surcharge and TCA surcharge rates are zero, as reflected on the above tariff sheets.

Carnegie states that copies of its filing were served on all jurisdictional customers and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before September 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92-23159 Filed 9-23-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP92-425-001]

Amendment; CNG Transmission Corp.

September 18, 1992.

Take notice that on September 11, 1992, CNG Transmission Corporation (CNG), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP92-425-001 an amendment to its application filed in Docket No. CP92-425-000 pursuant to section 7(b) of the Natural Gas Act so as to limit the term of the proposed abandonment to Rochester Gas and Electric Corporation (RG&E), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

CNG states that the application should be treated as a request for authorization for a limited term abandonment of 31,731 dt/day to RG&E from July 1, 1991 to October 31, 1992. It is stated that originally, on March 20, 1992, CNG filed an application for permanent abandonment authorization of this amount to RG&E. CNG states further that RG&E and CNG have mutually agreed to temporarily reduce RG&E's level of service to 297,269 dth per day.

CNG therefore requests the temporary abandonment of service to RG&E, effective July 1, 1991 to effectuate RG&E's reduction from 329,000 dth per day to 297,269 dth per day.

Any person desiring to be heard or any person desiring to make any protest with reference to said amendment should on or before October 9, 1992, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be

considered by it in determining the appropriate action to be taken but w not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Persons who have heretofore filed need not file again.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92-23164 Filed 9-23-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TA92-1-22-001]

Proposed Changes in FERC Gas Tariff; CNG Transmission Corp.

September 18, 1992.

Take notice that CNG Transmission Corporation ("CNG") on September 15, 1992, filed the following revised tariff sheets to First Revised Volume No. 1 of CNG's FERC Gas Tariff:

(A) Substitute Alternate Twenty-Five Revised Sheet No. 31
Substitute Alternate Seventeenth Revised Sheet No. 34
(B) Substitute Alternate Twenty-Second Revised Sheet No. 31
Substitute Alternate Eighteenth Revised Sheet No. 34

The purpose of the filing is to comply with the Commission's August 31, 1992 filing in this docket.

CNG tenders the paragraph (A) and (B) tariff revisions to become effective on September 1, 1992, and October 1, 1992, respectively. The paragraph (B) tariff sheets, in addition to reflecting compliance with the August 31 order, also incorporate the effect of the Annual Charge Adjustment filing that CNG made on August 31, 1992, in Docket No. TM93-1-22-000.

The rate revisions reflect the transfer of Texas Eastern Transmission Corporation's Gas Inventory Charge amounts from the demand surcharge to the commodity surcharge and the implementation of the Tennessee Gas Pipeline Company "Cosmic" Settlement which was implemented in a June 29, 1992, compliance filing in Docket Nos. RP86-119, *et al.*

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before September 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

[Docket No. RS92-62-000]

Conference; Gasdel Pipeline System, Inc.

September 18, 1992.

Take notice that on Thursday, September 24, 1992, beginning at 11 a.m., a prefiling conference will be convened in the above-captioned docket to discuss Gasdel Pipeline System, Inc.'s summary of its proposed plan for implementation of Order No. 636.

The conference will be convened by the Commission Staff as a telephone conference call from room 8308 at the offices of the Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, DC 20426.

All parties are invited to attend. Attendance at the conference, however, will not confer party status. If a party desires to attend the conference by telephone or requires additional information, such party may contact James A. Pederson at (202) 208-2158 or Edith A. Gilmore at (202) 208-1093.

Request Under Blanket Authorization; Northern Natural Gas Co.

September 18, 1992.

Take notice that on September 16, 1992, Northern Natural Gas Company (Northern) P.O. Box 1188, Houston, Texas 77251-1188, filed in Docket No. CP92-708-000 a request pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.212) for authorization to operate and maintain ten existing delivery points and appurtenant facilities for jurisdictional service and add one delivery point under Northern's CD-1 service agreement to Peoples Natural Gas Company, Division of Utilicorp United, Inc. (Peoples) under its blanket certificate issued in Docket No. CP82-401-000, pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northern states that the construction and operation of the ten existing delivery points were authorized pursuant to Section 311 of the Natural Gas Policy Act of 1978 and § 284.3(c) of the Commission's Regulations. It is indicated that, with respect to the new delivery point, the Commission's order issued on July 10, 1991, in Docket No. CP91-2085-000, approved, among other things, Northern's request for authorization to operate and maintain the Enron Gas Liquids/Plattsmouth delivery point for jurisdictional service to another shipper. A schedule listing the location of the delivery points and the volumes to be delivered at these points is attached as an appendix.

It is stated that the end use of the gas would be for residential, commercial and industrial uses. Northern states that no increase in capacity at the existing facilities is proposed. Northern states that the volumes to be delivered to People's at the various delivery points would be within the currently authorized level of firm entitlement's for Peoples as set forth in Northern's currently effective Rate Schedule CD-1 service agreement. It is also indicated that the proposed activity is not prohibited by its existing tariff and that it has sufficient capacity to accommodate the proposed changes without detriment to Northern's other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Linwood A. Watson, Jr,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. GP92-14-000]

Petition of Compliant; Northern Natural Gas Company v. Woods Petroleum Corporation

September 18, 1992.

Take notice that on September 9, 1992, Northern Natural Gas Company (Northern) tendered for filing a petition of complaint against Woods Petroleum Corporation (Woods). Northern asserts that actions taken by Woods with respect to certain gas purchased by Northern resulted in a violation of the Natural Gas Policy Act of 1978, 15 U.S.C. 3301, *et seq.* (NGPA).

Northern states that it entered into Gas Purchase Contracts with Woods on October 13, 1982, and January 26, 1982. Northern asserts that the contracts provided for payment to Woods for amounts due under the contracts. Northern states that in addition to the contracts of January 26, Northern entered into a contract with ENI Exploration Program 1979 II and on September 3, 1992, entered into a contract with Petco Energy Company, a Limited Partnership. Woods executed both of these contracts as seller's representative. Pursuant to Article VII, Section 1 of both contracts, seller authorized Northern to make payments to Woods as seller's representative of all monies due under the contracts.

Northern states that between October of 1983 and March 1, 1987, because of an error in the division of interest Northern overpaid Woods under the contracts $514,445.27. Northern argues that the price of the gas sold pursuant to these contracts was regulated until December 31, 1984.

Northern states that it has notified Woods that an overpayment has been made. Northern asserts that it has made repeated attempts to collect the overpayment with interest as provided in the regulations. Northern states that in not repaying such amounts, Woods has also violated § 270.101(e) which establishes the general refund obligation.

Northern states it has made demand upon Woods for the refund of $514,445.27 with interest at the FERC rate. Woods has denied any liability for repayment of these amounts.

Northern requests that the Commission find Woods in violation of the NGPA and order Woods to make repayment to Northern of all amounts which exceeded the applicable maximum lawful price of the gas under the contracts in question plus the applicable interest.

Any person desiring to be heard or to protest said complaint should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.214, 385.211. All such motions or protests should be filed on or before October 19, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. Answers to this complaint shall be due on or before October 19, 1992.

Linwood A. Watson, Jr.,
Acting Secretary.

[FR Doc. 92-23165 Filed 9-23-92; 8:45 am]
BILLING CODE 6717-01-M

[Docket Nos. TA92-1-86-002, and RP92-180-001]

Compliance Filing; Pacific Gas Transmission Co

September 18, 1992.

Take notice that on August 31, 1992, Pacific Gas Transmission Company (PGT) tendered for filing, pursuant to Part 152 of the Commission's regulations, a compliance filing in response to the Commission's order of July 31, 1992, in Docket Nos. TA92-1-86-000 and RP92-180-000. PGT tenders the following revised tariff sheets in compliance with the July 31 order:

Second revised volume No. 1	Effective date
Substitute Fourteenth Revised Sheet No. 4.	Aug. 1, 1992.
Substitute Fifteenth Revised Sheet No. 4.	Aug. 9, 1992.
Substitute Sixteenth Revised Sheet No. 4.	Oct. 1, 1992.

PGT states that the compliance filing resulted in small changes to PGT's surcharge rates under its Purchased Gas Adjustment (PGA) clause, by eliminating certain out-of-period costs and making other minor adjustments.

PGT states copies of the filing were served upon PGT's jurisdictional sales customers, and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rule of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before September 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,
Acting Secretary.

Conference; Phillip Gas Pipeline Co.

September 18, 1992.

Take notice that on Thursday, October 1, 1992, at 10 a.m., a conference will be convened in the above-captioned docket to discuss Phillip Gas Pipeline Company's (Phillip Gas) summary of its proposed plan for implementation of Order No. 636.

The conference will be held in a hearing or conference room of the Federal Energy Regulatory Commission, 810 First Street, NE., Washington, DC 20426. All interested persons are invited to attend. Attendance at the conference, however, will not confer party status. For additional information, interested persons can call Ingrid Olson, at (202) 208-0691 or William C. Lansinger, Jr., at (202) 208-2082.

BILLING CODE 6717-01-M

[Docket No. RP88-67-058]

Proposed Changes in FERC Gas Tariff; Texas Eastern Transmission Corp.

September 18, 1992.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern), on September 15, 1992, tendered for filing as part of its FERC Gas Tariffs, Fifth Revised Volume No. 1 and Original Volume No. 2, the tariff sheets listed in appendix A to the filing.

Texas Eastern states that the tariff sheets are being filed to reflect the base tariff rates applicable for the period December 1, 1990 through November 30, 1991 (Year 1) and December 1, 1991 through November 30, 1992 (Year 2) pursuant to the terms of the Stipulation and Agreement (Settlement) in Texas Eastern, Docket Nos. RP88-67, *et al.* (Phase II/PCBs).

Texas Eastern states that on December 17, 1991, it filed the Settlement regarding rate recovery of costs associated with environmental assessment and remediation costs related to polychlorinated biphenyl (PCB) contamination of its system and sites adjacent to its system. The Commission approved the Settlement, and it became final and non-appealable on April 17, 1992. Pursuant to the terms of the Settlement and Section 35 of its FERC Gas Tariff Texas Eastern is required to submit on or before September 15, 1992, tariff sheets that set forth the Settlement rates for the period December 1, 1990 through November 30, 1991 (Year 1) and the period December 1, 1991 through November 30, 1992 (Year 2). Texas Eastern states that the proposed tariff sheets have been filed to comply with this requirement. Texas Eastern requests the Commission to waive all necessary rules and regulations to permit the tariff sheets listed in Appendix A to the filing to become effective on the respective proposed effective dates.

Texas Eastern states that copies of the filing were served upon Texas Eastern's jurisdictional customers, interested state commissions, and all parties on the service list in Docket Nos. RP88-67, *et al.* (Phase II/PCBs).

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before September 25, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

Office of Fossil Energy

[FE Docket No. 92-90-NG]

Kamine/Besicorp Syracuse L.P.; Application for Long Term Authorization to Import Natural Gas From Canada

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy of the Department of Energy (DOE) gives notice of receipt of an application filed on July 8, 1992, by Kamine/Besicorp Syracuse L.P. (K/B Syracuse) to import up to 16,300 Mcf per day, and up to a total of 89.2 Bcf, of natural gas from Canada over a period of 15 years. The imported gas will be used to fuel the applicant's proposed 79.9-megawatt combined-cycle cogeneration facility in the Town of Geddes, New York. This facility is scheduled to begin commercial operation by November 1993. K/B Syracuse states that it will purchase the gas from North Canadian Marketing Inc. (NCM) under a gas purchase agreement dated July 30, 1991, the term of which will begin on the date of commercial operation of the cogeneration facility and continue through November 1, 2008.

The application is filed under section 3 of the Natural Gas Act and DOE Delegation Order Nos. 0204-111 and 0204-127. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable.

requests for additional procedures and written comments are to be filed at the address listed below no later than 4:30 p.m., eastern time, October 26, 1992.

ADDRESSES: Office of Fuels Programs, Fossil Energy, U.S. Department of Energy, Forrestal Building, Room 3F–056, FE–50, 1000 Independence Avenue, SW., Washington, DC. 20585.

FOR FURTHER INFORMATION:

Susan K. Gregersen, Office of Fuels Programs, Fossil Energy, U.S. Department of Energy, Forrestal Building, Room 3F–070, 1000 Independence Avenue, SW., Washington, DC. 20585, (202) 586–0063.

Lot Cooke, Office of Assistant General Counsel for Fossil Energy, U.S. Department of Energy, Forrestal Building, Room 6E–042, 1000 Independence Avenue, SW., Washington, DC. 20585, (202) 586–0503.

SUPPLEMENTARY INFORMATION:

1. Background

K/B Syracuse is a Delaware limited partnership whose general partners are Beta Syracuse Inc. (Beta) and Kamine Syracuse Cogen Co., Inc. (Kamine). Beta is a subsidiary of Besicorp Group Inc., a New York corporation with its principal place of business in Kingston, New York. Kamine, a New Jersey corporation with its principal place of business in Union, New Jersey, is an affiliate of Kamine Development Corp. (KDC), also a New Jersey corporation. KDC and Besicorp and their affiliates are energy project developers which own and operate several natural gas cogeneration facilities.

K/B Syracuse has an application pending with the Federal Energy Regulatory Commission (FERC), filed on July 2, 1992, for recertification of the cogeneration facility as a "qualifying facility" under the Public Utility Regulatory Policies Act of 1978, as amended (16 U.S.C. 796 *et seq.*). additionally, on November 6, 1991, K/B Syracuse filed a certification with DOE pursuant to the Powerplant and industrial Fuel Use Act of 1978, as amended (42 U.S.C. 8301, *et seq.*), stating that the cogeneration facility will be capable of using coal or another alternate fuel as a primary energy source. K/B Syracuse has contracted to sell the net electrical output of the cogeneration facility to Niagara Mohawk Power Corporation (Niagara Mohawk). Steam and/or hot water energy will be sold to The New York State Fair, which operates permanent facilities adjacent to the cogeneration facility site.

2. Transportation Arrangements

NCM has arranged firm transportation on the pipeline systems of NOVA Corporation of Alberta (NOVA) and TransGas Limited to transport the gas within Alberta and Saskatchewan to various receipt points on the TransCanada PipeLines Limited (TCPL) system. K/B Syracuse has signed a precedent agreement for firm transportation capacity on TCPL. TCPL plans to transport the gas to its interconnection with Empire State Pipeline (Empire) at Chippawa, Ontario. Empire will then transport the gas to the distribution system of Niagara Mohawk at Syracuse, New York, for delivery to the cogeneration plant. Niagara Mohawk plans to construct a 1000-foot pipeline connecting its system to the K/B Syracuse cogeneration facility.

3. Contract Pricing Provisions

The initial term of the July 30, 1991, gas purchase agreement between K/B Syracuse and NCM is 15 years, with a provision to extend the agreement by mutual consent of the parties. The agreement provides that NCM will be the sole supplier of the cogeneration facility's total gas requirements up to the maximum daily quantity (MDQ) of 16,300 Mcf per day. The agreement contains a provision which seeks to ensure continued firm delivery of gas to K/B Syracuse by requiring NCM to compensate K/B Syracuse for additional costs incurred if it becomes necessary for K/B Syracuse to obtain alternative gas supplies.

The agreement includes a pricing schedule, which specifies a fixed commodity price starting at $1.86 (U.S.) per MMBtu (1992–1995), escalating to $5.54 (U.S.) per MMBtu in 2008, which includes taxes, royalties, fees, and other charges incurred by NCM. The assumed delivery point to K/B Syracuse is Empress, Alberta. The total price for gas delivered to the U.S./Canada border will be the fixed commodity price plus the TCPL transportation charges, currently estimated at $.84 per Mcf. K/B Syracuse asserts that the initial price paid for gas volumes delivered to the United States/Canada border in 1993 will be $2.70 (U.S.) per MMBtu, consisting of the fixed commodity price of $1.86 (U.S.) and the estimated TCPL transportation charge of $.84 (U.S.). In addition to the fixed commodity price and the TCPL transportation charge, K/B Syracuse will be required to pay any pipeline demand charges incurred, but not actually used by NCM in performance of the gas purchase agreement, unless NCM fails to deliver gas to the contractually specified receipt points. The agreement provides terms under which NCM and K/B Syracuse can mitigate these excess demand charges. The agreement also requires K/B Syracuse to pay a gas inventory charge of $.40 per Mcf for deficiency volumes if it takes less than 80 percent of the MDQ.

The decision on this application for import authority will be made consistent with DOE's import policy guidelines, under which the competitiveness of an import arrangement in the market served is the primary consideration in determining whether it is in the public interest (49 FR 6684, February 22, 1984). In a long-term arrangement such as this, other matters that will be considered in making a public interest determination include need for the gas, security of the long-term supply, and any relevant issues that may be unique to cogeneration powerplants. Parties, especially those that may oppose this application, should comment in their responses on the issues of competitiveness, need for the gas, and security of supply as set forth in the policy guidelines and as they relate to the requested import authorization. The applicant asserts that imports made under the proposed arrangement will be competitive and otherwise consistent with DOE import policy. Parties opposing this arrangement bear the burden of overcoming these assertions. All parties should be aware that if the requested import arrangement is approved, the authorization will be conditioned on the filing of quarterly reports indicating volume imported and the purchase price, in order for DOE to monitor its natural gas import program.

NEPA Compliance

The National Environmental Policy Act (NEPA) (42 U.S.C § 4321 *et seq.*) requires DOE to give appropriate consideration to the environmental effects of its proposed actions. FERC issued an environmental assessment (EA) of the Empire pipeline project on May 24, 1991. DOE intends to review the FERC EA and to evaluate the environmental impact of the cogeneration plant and pipeline lateral proposed by K/B Syracuse and Niagara Mohawk. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

Public Comment Procedures

In response to this notice, any person may file a protest, motion to intervene or notice of intervention, as applicable, and written comments. Anyone who wants to become a party to this proceeding and to have their written

comments considered as the basis for the decision on the application must, however, file a motion to intervene or notice of intervention, as applicable. The filing of a protest with respect to this application will not serve to make the protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the application. All protests, motions to intervene, notices of intervention, and written comments must meet the requirements specified by the regulations in 10 CFR part 590. Protests, motions to intervene, notices of intervention, requests for additional procedures, and written comments should be filed with the Office of Fuels Programs at the address listed above.

It is intended that a decisional record on the application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. A party seeking intervention may request that additional procedures be provided, such as additional written comments, an oral presentation, a conference, or trial-type hearing. Any request to file additional written comments should explain why they are necessary. Any request for an oral presentation should identify the substantial question of fact, law, or policy at issue, show that it is material and relevant to a decision in the proceeding, and demonstrate why an oral presentation is needed. Any request for a conference should demonstrate why the conference would materially advance the proceeding. Any request for a trial-type hearing must show that there are factual issues genuinely in dispute that are relevant and material to a decision and that a trial-type hearing is necessary for a full and true disclosure of the facts.

If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final opinion and order may be issued based on the official record, including the application and responses filed by parties pursuant to this notice, in accordance with 10 CFR § 590.316.

A copy of K/B Syracuse's application is available for inspection and copying in the Office of Fuels Programs docket room, 3F–056, at the above address. The docket room is open between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, on September 17, 1992.

Charles F. Vacek,

Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

[FE Docket No. 92–77–NG]

Louis Dreyfus Natural Gas Corps., Order Granting Blanket Authorization to Import and Export Natural Gas to Canada and Mexico

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of Order.

SUMMARY: The Office of Fossil Energy of the Department of Energy gives notice that it has issued an order granting Louis Dreyfus Natural Gas Corp. a blanket authorization to import up to 182.5 Bcf of imported Canadian gas, and to export up to 182.5 Bcf of domestically produced natural gas to Mexico and Canada, over a two-year term beginning on the date of first delivery.

A copy of this order is available for inspection and copying in the Office of Fuels Programs Docket Room, 3F–056, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586–9478. The docket room is open between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC, September 17, 1992

ENVIRONMENTAL PROTECTION AGENCY

[FRL–4510–1]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 26, 1992.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 260–2740.

SUPPLEMENTARY INFORMATION:

Office of Solid Waste and Emergency Response

Title: Notification of Episodic Releases of Oil and Hazardous Substances, EPA ICR No. 1049.05. This ICR requests renewal of a currently approved collection (OMB No. 2050–0046).

Abstract: The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) establishes broad Federal authority to respond to releases of hazardous substances from vessels and facilities. The term "hazardous substance" is defined in section 101(14) of CERCLA by reference to other environmental statutes, including Clean Water Act (CWA) sections 311 and 307; Clean Air Act (CAA) section 112; the Resource Conservation and Recovery Act (RCRA) section 3001; the Toxic Substances Control Act (TSCA) section 7; and CERCLA section 102(a). There are currently 780 CERCLA hazardous substances, approximately 1,500 radionuclides, and an unspecified number of unlisted RCRA hazardous wastes that are also considered CERCLA hazardous substances. The most recent addition to the CERCLA list of hazardous substances is the 51 hazardous air pollutants listed pursuant to CAA section 112.

Each CERCLA hazardous substance is assigned an 'RQ' which is the quantity of hazardous substance that, when released into the environment, triggers CERCLA section 103 reporting requirements. Section 103(a) requires the person in charge of a facility to immediately notify the National Response Center (NRC) of any hazardous substance release that equals or exceeds its RQ. The information that must be provided to the NRC in the notification includes general background information, such as the location of the incident and the name and address of the discharger, as well as more detailed information about the circumstances surrounding the release, including the type of material(s) released, environmental medium(a) affected, and cause(s) and source(s) of the release. Notification under CERCLA section 103(a) is intended to ensure that Federal authorities receive prompt notification of hazardous substance releases for

which a timely response may be necessary to protect public health or welfare or the environment.

Burden Statement: The estimated annual public reporting burden for this collection of information is estimated to average 4.1 hours per release, including time for reviewing regulatory requirements, gathering the required release information, contacting the NRC about the release, and keeping a log.

Respondents: Anyone in charge of a facility or vessel from which a hazardous substance was spilled or released into the environment in quantities greater than its RQ.

Estimated Number of Respondents: 52,100 release reports.

Estimated Total Annual Burden on Respondents: 213,700 hours.

Frequency of Collection: On occasion - when a release above the RQ occurs.

Send comments regarding the burden estimate, or any other aspect of this information collection, including suggestions for reducing the burden, to:

Sandy Farmer, U.S. Environmental Protection Agency,Information Policy Branch (PM-223Y), 401 M Street, SW.,Washington, DC 20460.

and

Tim Hunt, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th Street, NW.,Washington, DC 20530.

Dated: September 18, 1992.

Paul Lapsley,

Director, Regulatory Management Division.

Prevention of Significant Deterioration of Air Quality (PSD) Final Determinations

AGENCY: United States Environmental Protection Agency.

ACTION: Notice of final actions.

SUMMARY: The purpose of this notice is to announce that between January 8, 1992 and July 31, 1992, the United States Environmental Protection Agency (EPA) Region II Office, issued four final determinations, the New York State Department of Environmental Conservation (NYSDEC) issued eight final determinations, and the New Jersey Department of Environmental Protection and Energy (NJDEPE) issued one final determination pursuant to the Prevention of Significant Deterioration of Air Quality (PSD) regulations codified at 40 CFR 52.21.

DATES: The effective dates for the above determinations are delineated in the following chart (See **SUPPLEMENTARY INFORMATION**).

FOR FURTHER INFORMATION CONTACT: Donna M. Giannotti of the Air and Environmental Applications Section, Permits Administration Branch, Office of Policy and Management, U.S. Environmental Protection Agency Region II Office, 26 Federal Plaza, Room 505, New York, New York 10278, (212) 264-4711.

SUPPLEMENTARY INFORMATION: Pursuant to the PSD regulations, the EPA Region II, the NYSDEC, and the NJDEPE have made final determinations relative to the sources listed below:

Name	Location	Project	Agency	Final action	Date
Roche Products	Manati, Puerto Rico	Modification to reflect actual construction of only 1 gas turbine, 1 electrical generator, and 1 waste heat recovery boiler as opposed to the two originally planned. Simultaneous operation of the two existing boilers with the one gas turbine is allowed.	EPA	PSD Permit Modification	Jan. 17, 1992.
Cogen Technologies Linden Limited.	Linden, New Jersey	Six GE 90 MW combustion gas turbines, five duct fired heat recovery steam boilers, three 190 ft. stacks, and three steam turbine generators.	NJDEPE	Permit Modification	Jan. 21, 1992.
Hadson Power Partners	Rensselaer, New Jersey	79 MW combined cycle gas turbine cogeneration project firing natural gas with #2 oil as backup fuel.	NYSDEC	Non-applicability	Jan. 27, 1992.
Virgin Islands Water & Power Authority.	St. Thomas, Virgin Islands	23 MW oil fired gas turbine, Unit 18, (Model PG5371). Relaxed restrictions limiting the fuel consumption of Unit 15, a 23 MW GE Frame 5 oil fired gas turbine (Model PG5341).	EPA	PSD Permit	Feb. 11, 1992.
Hanes Menswear, Inc.	Ponce, Puerto Rico	Addition of a 900 HP Cleaver Brooks boiler.	EPA	Non-applicability	Feb. 28, 1992.
San Juan Resource Recovery.	San Juan, Puerto Rico	Three independent refuse combustion trains. Facility designed to process 1040 tons/day of solid waste.	EPA	PSD Permit Modification	Mar. 18, 1992.
Indeck Olean	Olean, New York	79 MW combined cycle gas turbine cogeneration project firing natural gas with #2 oil as backup fuel.	NYSDEC	Non-applicability	Apr. 30, 1992.
Indeck Yerkes	Tonowanda, New York	53 MW combined cycle gas turbine cogeneration project firing natural gas with #2 oil as backup fuel. Addition of a 20 MMBtu/hr gas only duct burnerf.	NYSDEC	Revised PSD Permit	May 20, 1992.
Indeck Corinth	Corinth, New York	79 MW combined cycle gas turbine cogeneration project firing natural gas with #2 oil as backup fuel.	NYSDEC	Non-applicability	May 25, 1992.
JMC Selkirk Phase I & Phase II.	Selkirk, New York	252 MW combined cycle gas turbine cogeneration project firing natural gas with propane, butane, and #2 oil as backup fuel. Permit two new GE Frame 7 turbines and modified the existing Frame 7.	NYSDEC	PSD Permit	June 3, 1992.
Srthe Ogdensberg / AG Energy	Ogdensburg, New York	79 MW combined cycle gas turbine cogeneration project firing natural gas with #2 oil as backup fuel.	NYSDEC	Non-applicability	June 15, 1992.

Name	Location	Project	Agency	Final action	Date
Indeck Kirkwood	Kirkwood, New York	55 MW combined cycle gas turbine co-generation project firing natural gas with #2 oil as backup fuel.	NYSDEC	Non-applicability	June 17, 1992.
Saranac Cogeneration	Saranac, New York	239.7 MW combined cycle gas turbine cogeneration project firing natural gas with liquid petroleum fuel.	NYSDEC	PSD Permit	July 22, 1992.

This notice lists only the sources that have received final PSD determinations. Anyone who wishes to review these determinations and related materials should contact the following offices:

EPA Actions

United States Environmental Protection Agency, Region II Office, Permits Administration Branch—room 505, 26 Federal Plaza, New York, New York 10278.

NYSDEC Actions

New York State Department of Environmental Conservation, Division of Air Resources, Source Review and Regional Support Section, 50 Wolf Road, Albany, New York 12233–0001.

NJDEPE Actions

New Jersey Department of Environmental Protection and Energy, Division of Environmental Quality, Bureau of Engineering and Technology, 401 East State Street, Trenton, New Jersey 08625.

If available pursuant to the Consolidated Permit Regulations (40 CFR 124), judicial review of these determinations under section 307(b)(1) of the Clean Air Act (the Act) may be sought only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days from the date on which these determinations are published in the **Federal Register**. Under section 307(b)(2) of the Act, these determinations shall not be subject to later judicial review in civil or criminal proceedings for enforcement.

Dated: September 2, 1992.

Constantine Sidamon-Eristoff,

Regional Administrator.

Federal Interagency Committee on Noise (FICON): Report and Recommendations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of FICON report and recommendations.

SUMMARY: At the direction of the Environmental Protection Agency and the Federal Aviation Administration, the FICON was formed in December 1990 with a basic charter to review specific elements of the assessment of airport noise impacts contained in documents prepared pursuant to the National Environmental Policy Act (NEPA); to review the relationship of Federal Aviation Regulation (FAR) Part 150 to NEPA; and to make recommendations regarding potential improvements. The FICON is composed of representatives of Departments of Transportation (Office of the Secretary and the Federal Aviation Administration), Defense, Justice, Veterans Affairs, Housing and Urban Development; the Environmental Protection Agency; and the Council on Environmental Quality. The FICON has completed its charter and has issued its report, which contains technical findings and conclusions, and policy recommendations. This notice of the availability of the FICON Report is being published separately by all FICON member agencies.

FOR FURTHER INFORMATION CONTACT: Mr. Ken Mittelholtz, Office of Federal Activities (A–104), Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460; telephone, 202–260–8788.

SUPPLEMENTARY INFORMATION:

Availability of FICON Report

Any person may obtain a copy of the FICON Report by submitting a written request to the point of contact: Spectrum Sciences and Software, Inc., Attn: Mr. Larry McGlothlin (Code EPA), 242 Vicki Leigh Road, Fort Walton Beach, Florida 32548–1314, telephone (909) 862–3330/3332.

Background

The FICON was formed to review federal policies which are used in the assessment of airport noise impacts. The FICON review focused primarily on:

- The manner in which noise impacts are determined, including whether aircraft noise impacts are fundamentally different from other transportation noise impacts;
- The manner in which noise impacts are described;
- The extent or impacts outside of Day-Night Average A-Weighted Sound Level (DNL) 65 decibels (db) that should be reviewed in a National Environmental Policy Act (NEPA) document;
- The range of FAA-controlled mitigation options (e.g., noise abatement and flight track procedures) analyzed; and
- The relationship of the Federal Aviation Regulation (FAR) Part 150 process to the NEPA process, including ramifications to the NEPA process if they are separate, and exploration of the means by which the two processes can be handled to maximize benefits.

The FICON was organized into three subgroups to appropriately focus on the technical, legal and policy issues associated with the assessment of airport noise impacts. The Technical Subgroup was tasked to review the body of science associated with methodologies and metrics for assessing airport noise impacts which have evolved since the 1980 meetings of the Federal Interagency Committee on Urban Noise (FICUN). The Policy Subgroup was tasked to review federal policies which are used in the assessment of airport noise impacts. The Legal Subgroup reviewed the legal aspects of current and proposed federal policies for assessing airport noise impacts. The Technical Subgroup's products were used as a basis for the policy findings, conclusions and recommendations in the Report.

FICON Report Conclusions

General

- There are no new descriptors or metrics of sufficient scientific standing to substitute for the present DNL cumulative noise exposure metric.
- The methodology employing DNL as the noise exposure metric and appropriate dose-relationships (primarily the Schultz curve for Percent Highly Annoyed) to determine noise impact on populations is considered the proper one for civil and military aviation scenarios in the general vicinity of airports.
- Federal agencies generally conduct noise assessments at DNL levels of 65 dB and higher. For a variety of reasons,

noise predictions and interpretations are frequently less reliable below DNL 65 dB. DNL prediction models tend to degrade in accuracy at large distances from the airport. Therefore, predictions of noise exposure and impact below DNL 65 dB should take the possibility of such inaccuracy into account.

• DNL is sometimes supplemented by other metrics on a case-by-case basis.

• Noise analyses should address impacts in the following areas: (1) health and welfare, (2) environmental degradation/impact, and (3) land use planning.

• Complaints are an inadequate indicator of the full extent of noise effects on a population.

Health and Welfare

• The dose-effect relationship, as represented by DNL and "Percent Highly Annoyed" (%HA), remains the best available approach for analyzing overall health and welfare impacts for the vast majority of transportation noise analysis situations.

• The 10 dB nighttime penalty levied against noise during the 10 PM to 7 AM period is specifically designed to account for the intrusiveness of noise during this period, and its potential impact on sleep. There are no new hard data which would justify a change in this penalty.

• If supplemental analysis for sleep disturbance is desired, use may be made of an interim dose-response model developed by the AF Armstrong Laboratories. Although this relationship is described in terms of Sound Exposure Level (SEL), single event metrics are of limited use in predicting and interpreting cumulative noise exposure impacts.

• Annoyance is a summary measure of the general adverse reaction of people to living in noisy environments that cause speech interference, sleep disturbance, desire for a tranquil environment; and the inability to use the telephone, radio or television satisfactorily.

• No definitive evidence of nonauditory health effects from aircraft noise exists, particularly below DNL 70 Db.

• For supplemental analysis Long-Term Equivalent Sound Level $L_{eq(x)}$ (where X represents the time period of concern) or Time Above (TA) may be used for analysis of school and communications requirements indoors during specific hours.

• Public health and welfare effects below DNL 60 dB have not been established, but are assumed to decrease according to the decrease in percent of people highly annoyed.

Environmental Degradation/Impact

• Under NEPA, environmental degradation might have to be assessed around airports even if there is no clear effect on public health and welfare. Other criteria might be appropriate.

• A 3 dB increase in the DNL environment represents a doubling of sound energy, and clearly is an indicator of the need for further analysis, although smaller increases may indicate similar need. In other words, the impact of a given incremental amount of change in noise levels depends, in part, upon the existing level of the noise environment.

• Recent technology and software advances in geographic information systems (GIS), noise methodology and Census data present an enhanced potential for detailed analysis of sound impacts on population and noise-sensitive areas. These technologies should be considered for use to determine noise impacts of present and proposed actions.

Land Use Planning

• DNL represents the accepted noise metric for input to compatible land use planning.

• For cumulative speech interference, Table 3–2 "Effects of Noise on People" contained in FICON Volume II: Technical Report, provides a rough approximation of both outdoor and indoor predicted speech interference parameters for various levels of noise exposure as measured in DNL for residential land use only.

• There is a need for selective updating [including Standard Land Use Coding Manual (SLUCM) updating] and enhanced public understanding of the land-use compatibility guidelines, its application and interpretation through incentives and other programs.

Education of the Public

Education of the public should concentrate on the following frequently misunderstood issues:

• Environmental noise exposure is measured and described most generally by Day-Night Average A-Weighted Sound Level (DNL). DNL should be defined clearly and its significance and use explained clearly.

• Relation of DNL to Percent Highly Annoyed describes long-term community response to the overall sound environment (indices of health and welfare effects).

• Although the A-Weighted Maximum Sound Level for a single flyover is easily understood, it is useful only for analyzing short-term responses.

• Every change in the noise environment does not necessarily impact public health and welfare.

• Aircraft noise predictions below DNL 65 dB can be less accurate and should be interpreted with caution.

FICON Report Recommendations

• Continue use of the DNL metric as the principal means for describing long-term noise exposure to civil and military aircraft operations.

• Continue agency discretion in the use of supplemental noise analysis.

• Improve public understanding of the DNL, supplemental methodologies and aircraft noise impacts.

• If screening analysis shows that noise sensitive areas will be at or above DNL 65 dB and will have an increase of DNL 1.5 dB or more, further analysis should be conducted of noise sensitive areas between DNL 60–65 dB having an increase of DNL 3 dB or more due to the proposed airport noise exposure.

• If the DNL 65 dB screening test calls for further analysis between DNL 60–65 dB, agency mitigation options should include noise sensitive areas between DNL 60–65 dB that are projected to have an increase of 3 dB or more as a result of the proposed airport noise exposure.

• If an FAA FAR Part 150 program is included by the FAA as a NEPA mitigation measure, the FAA and the airport operator are responsible for ensuring that the commitment is carried out and the Part 150 study scope conforms to the NEPA scope of analysis.

• Increase research (R&D) on methodology development and on the impact of aircraft noise. To foster this, a standing federal interagency committee should be established to assist agencies in providing adequate forums for discussions of public and private sector proposals identifying needed research and in encouraging the conduct of research in these areas.

The following initial R&D issues are recommended:

• Evaluate potential modifications to the 1980 FICUN land use compatibility table to improve its usefulness for both routine land use planning and planning for noise-sensitive land uses.

• Continue research into community reaction to aircraft noise, including sleep disturbance, speech interference, and non-auditory health effects of noise.

• Investigate differences in perceptions of aircraft noise, ground transportation noise (highways and railroads), and general background noise.

• Continue and expand research on the airport noise impacts of rotary-wing operations.

It is the FICON's belief that these recommendations will provide both immediate and long-term improvements in airport noise analysis. Federal interagency encouragement of a continuing review of airport noise analysis will provide a forum to address related public concerns.

While the FICON is seeking to achieve improved uniformity among Federal agencies in airport noise analysis, it must also recognize that agencies have differing legislative mandates and operating environments. These recommendations should be viewed as general guidance. Each Federal agency must determine how it can best use this guidance, supplementing it as appropriate to meet agency needs, within the framework of the NEPA requirements. The FICON Report neither addresses the adequacy of compliance with NEPA to date by the participating agencies, attempts to redefine thresholds of significance of impact under NEPA, nor modifies the NEPA regulations or procedures of the agencies.

Public Review and Comment

Any person may express his or her views on the FICON Report by submitting written comments to the Federal Aviation Administration, Office of Environment and Energy, AEE–300, 800 Independence Avenue, Washington, DC 20591. Since the primary impact of the report's recommendations will be on the assessment of civil airport noise impacts for which the FAA is responsible, the FAA is serving the focal point for the receipt of public comments. Copies of such written responses will be provided to all agencies participating in FICON.

The Environmental Protection Agency is reviewing its procedures for evaluating airport noise impacts based on the report findings, conclusions, and recommendations, and any resulting change in regulations and/or procedures will follow the agency's rules for public review and comment prior to adoption.

Issued in Washington, DC on September 18, 1992.

Ricahrd E. Sanderson,
Director, Office of Federal Activities.

FEDERAL RESERVE SYSTEM

Neil St. John Raymond, et al.; Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than October 8, 1992.

A. Federal Reserve Bank of Boston (Robert M. Brady, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106:

1. Neil St. John Raymond, d/b/a Candlewood Associates, Boston, Massachusetts, and/or Elizabeth W. Raymond, Ipswich, Massachusetts, to acquire 66.0 percent of the voting shares of First Ipswich Bancorp, Ipswich, Massachusetts, for a total of 68.2 percent, and thereby indirectly acquire The First National Bank of Ipswich, Ipswich, Massachusetts.

Board of Governors of the Federal Reserve System, September 18, 1992.

Jennifer J. Johnson,
Associate Secretary of the Board.

[FR Doc. 92–23184 Filed 9–23–92; 8:45 am]
BILLING CODE 6210–01–F

Chisholm Bancshares, Inc., et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than October 16, 1992.

A. Federal Reserve Bank of Minneapolis (James M. Lyon, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. Chisholm Bancshares, Inc., Chisholm, Minnesota; to acquire 100 percent of the voting shares of Farmers & Merchants State Bank, Cook, Minnesota.

2. Frandsen Financial Corporation, Forest Lake, Minnesota; to acquire 100 percent of the voting shares of Citizens State Bank of East Grand Forks, East Grand Forks, Minnesota; First State Bank of Ada, Ada, Minnesota; Nimrod Enterprises, Inc., Foley, Minnesota, and thereby indirectly acquire State Bank of Foley, Foley, Minnesota; and The Gilmanton Co., Foley, Minnesota, and thereby indirectly acquire First State Bank of Gilman, Inc., Gilman, Minnesota.

C. Federal Reserve Bank of Kansas City (John E. Yorke, Senior Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. F.S.B. Properties, Inc. Employee Stock Ownership Plan, Quinton, Oklahoma; to acquire 37.6 percent of the voting shares of F.S.B. Properties, Inc., Quinton, Oklahoma, and thereby indirectly acquire Farmers State Bank, Quinton, Oklahoma.

Board of Governors of the Federal Reserve System, September 18, 1992.

Jennifer J. Johnson,
Associate Secretary of the Board.

BILLING CODE 6210–01–F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Program Announcement for Allied Health Project Grants for Fiscal Year 1993

The Health Resources and Services Administration (HRSA), announces that applications for fiscal year (FY) 1993 Allied Health Project Grants are being accepted under the authority of section 796, title VII, of the Public Health Service Act (the Act), as amended by the Health Professions Reauthorization Act of 1988, Public Law 100–607.

This program announcement is subject to reauthorization of this legislative authority and to the appropriation of funds. The period of Federal support will not exceed three years.

The Administration's budget request for FY 1993 does not include funding for this program. Applicants are advised that this program announcement is a contingency action being taken to assure that should funds become available for this purpose, they can be awarded in a timely fashion consistent with the needs of the program as well as to provide for even distribution of funds throughout the fiscal year. This notice regarding applications does not reflect any change in this policy.

Previous Funding Experience

Previous funding experience is provided to assist potential applicants to make better informed decisions regarding submission of an application of this program. In FY 1992, HRSA reviewed 113 applications for Allied Health Project Grants. Of those applications, 46 percent were approved and 54 percent were not recommended for further consideration. Eleven projects, or 10 percent of the applications received, were funded. In FY 1991, HRSA reviewed 125 applications for Allied Health Project Grants. Of those applications, 20 percent were approved and 80 percent were not recommended for further consideration. Ten projects, or 8 percent of the applications received, were funded.

Purposes

Section 796 authorizes the award of grants for the costs of planning, developing, establishing, operating, and evaluating projects for:

(1) Improving and strengthening the effectiveness of allied health administration, program directors, faculty, and clinical faculty;

(2) Improving and expanding program enrollments in those professions in greatest demand and whose services are most needed by the elderly;

(3) Promoting the effectiveness of allied health practitioners in geriatric assessment and the rehabilitation of the elderly through interdisciplinary training programs;

(4) Emphasizing innovative models to link allied health clinical practice, education and research;

(5) Adding and strengthening curriculum units in allied health programs to include knowledge and practice concerning prevention and health promotion, geriatrics, long-term care, home health and hospice care, and ethics; and

(6) The recruitment of individuals into allied health professions including projects for:

(A) The identification and recruitment of highly qualified individuals, including the provision of educational and work experiences for recruits at the secondary and collegiate levels;

(B) The identification and recruitment of minority and disadvantaged students, including the provision of remedial and tutorial services prior and subsequent to admission, the provision of work-study programs for secondary students, and recruitment activities directed toward primary school students; and

(C) The coordination and improvement of recruitment efforts among official and voluntary agencies and institutions, including official departments of education, at the city, county, and State, or regional level.

National Health Objectives for the Year 2000

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity for setting priority areas. This program, Allied Health Project Grants, is related to the priority area of Educational and Community-Based Programs. Potential applicants may obtain a copy of Healthy People 2000 (Full Report; Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report; Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325 (Telephone 202–783–3238).

Education and Service Linkage

As part of its long-range planning, HRSA will be targeting its efforts to strengthening linkages between U.S. Public Health Service education programs and programs which provide comprehensive primary care services to the underserved.

Eligible Applicants

To be eligible for a grant, an applicant must be a school, university or other public or nonprofit private educational entity which provides for allied health personnel education and training.

Review Criteria

- The review criteria, stated below, which were established in FY 1990 after public comment, will remain unchanged in FY 1993.
- The extent to which the proposed project meets the legislative purpose;
- The background and rationale for the proposed project;
- The extent to which the project contains clearly stated realistic and achievable objectives;
- The extent to which the project contains a methodology which is integrated and compatible with project objectives, including collaborative arrangements and feasible workplans;
- The evaluation plans and procedures for program and trainees, if involved;
- The administrative and management capability of the applicant to carry out the proposed project, including institutional infrastructure and resources;
- The extent to which the budget justification is complete, cost-effective and includes cost-sharing, when applicable; and
- Whether there is an institutional plan and commitment for self-sufficiency when Federal support ends.

Other considerations

In addition, the following funding factor may be applied in determining the funding of approved applications.

Special consideration is defined as the enhancement of priority scores by merit reviewers based on the extent to which applications address special areas of concern.

It is not required that applicants request consideration for a funding factor. Applications which do not request consideration for funding factors will be reviewed and given full consideration for funding.

Established Special Consideration

The following special consideration was established in FY 1991 after public comment and the Administration is extending it in FY 1993.

Applicants demonstrating affiliation agreements for interdisciplinary training experiences in one or more of the following: a nursing home; hospital or

ambulatory care center providing substantial geriatric health care; Migrant Health Center (section 329 of the Act); Community Health Center (section 330 of the Act); Health Professional Shortage Area (section 332 of the Act); Area Health Education Center (section 781(a) of the Act); or a State or local public health or designated clinic or center serving an underserved population, or a rural health clinic or other facility with training opportunities in a rural area.

Section 329 authorizes support for migrant health facilities nationwide and comprises a network of health care services for migrant and seasonal farm workers;

Section 330 authorizes support for community health care services to medically underserved populations;

Section 332 establishes criteria to designate geographic areas, population groups, medical facilities, and other public facilities in the States as Health Professional Shortage Areas; and

Section 781(a) authorizes support for Area Health Education Centers to improve the distribution, supply, quality, utilization, and efficiency of health personnel in the health services delivery system.

Application Requests

Application forms will be sent to FY 1992 applicants and to those who request kits.

Requests for grant application materials and questions regarding grants policy and business management issues should be directed to: Ms. Diane Murray (D37), Grants Management Specialist, Bureau of Health Professions, Health Resources and Services Administration, Parklawn Building, room 8C–26, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone: (301) 443–6857.

Completed applications should be returned to the above address.

Questions regarding programmatic information should be directed to: Dr. Norman Clark, Program Officer, Associated Health Professions Branch, Division of Associated, Dental and Public Health Professions, Bureau of Health Professions, Health Resources and Services Administration, Parklawn Building, room 8C–02, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone: (301) 443–6763.

The deadline date for receipt of applications is January 25, 1993. Applications will be considered as meeting the deadline if they are either:

(1) Received on or before the deadline date, or

(2) Postmarked on or before the deadline and received in time for submission to the independent review group. A legibly dated receipt from a commercial carrier or the U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks shall not be acceptable as proof of timely mailing.

Late applications not accepted for processing will be returned to the applicant.

The standard application form PHS 6025–1, HRSA Competing Training Grant Application, General Instructions and Supplement for this program has been approved by the Office of Management and Budget under the Paperwork Reduction Act. The OMB clearance number is 0915–0060.

The Catalog of Federal Domestic Assistance number for this program is 93.191. This program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: August 27, 1992.

Robert G. Harmon,

Administrator.

BILLING CODE 4160–15–M

Program Announcement and Proposed Funding Priority and Special Consideration for Grants for Interdisciplinary Training for Health Care for Rural Areas for FY 1993

The Health Resources and Services Administration (HRSA) announces that applications are being accepted for fiscal year (FY) 1993, Grants for Interdisciplinary Training for Health Care for Rural Areas, under the authority of section 799A, title VII, of the Public Health Service (PHS) Act, as amended by Public Law 100–607. Comments are invited on the proposed funding priority and special consideration.

This program announcement is subject to reauthorization of this legislative authority and to the appropriation of funds. The Administration's budget request for FY 1993 does not include funding for this program. Applicants are advised that this program announcement is a contingency action being taken to assure that should funds become available for this purpose, they can be awarded in a timely fashion consistent with the needs of the program as well as to provide for even distribution of funds throughout the fiscal year. This notice regarding applications does not reflect any change in this policy.

Funding for this program is designed to test innovative training approaches that may be replicated in similar settings.

Previous Funding Experience

Previous funding experience is provided to assist potential applicants to make better informed decisions regarding submission of an application for this program. There was no competitive cycle for FY 1992. In FY 1991, HRSA reviewed 36 applications for Grants for Interdisciplinary Training for Health Care for Rural Areas. Of those applications, 44 percent were approved and 56 percent were disapproved. Seven projects, or 19 percent of the applications received, were funded in FY 1991. Four of the other approved projects were funded in FY 1992.

Purposes

Section 799A of the Public Health Act, as amended by Public Law 100–607, authorizes the Secretary to award grants for interdisciplinary training projects designed to provide or improve access to health care in rural areas. Specifically, projects funded under this authority shall be designed to:

(a) Use new and innovative methods to train health care practitioners to provide services in rural areas;

(b) Demonstrate and evaluate innovative interdisciplinary methods and models designed to provide access to cost-effective comprehensive health care;

(c) Deliver health care services to individuals residing in rural areas;

(d) Enhance the amount of relevant research conducted concerning health care issues in rural areas; and

(e) Increase the recruitment and retention of health care practitioners in rural areas and make rural practice a more attractive career choice for health care practitioners.

A recipient of funds may use various methods in carrying out the projects described above. The legislation cites the following methods as examples:

(a) The distribution of stipends to students of eligible applicants;

(b) The establishment of a postdoctoral fellowship program;

(c) The training of faculty in the economic and logistical problems confronting rural health care delivery systems; or

(d) The purchase or rental of transportation and telecommunication equipment where the need for such equipment due to unique characteristics of the rural area is demonstrated by the recipient.

Eligibility

To be eligible for a Grant for Interdisciplinary Training for Health Care for Rural Areas, each applicant must be located in a State and be:

1. A local health department, or
2. A nonprofit organization, or
3. A public or nonprofit college, university or school of, or program that specializes in nursing, psychology, social work, optometry, public health, dentistry, osteopathic medicine, physician assistants, pharmacy, podiatric medicine, allopathic medicine, chiropractic, or allied health professions.

For-profit entities are not eligible to obtain funds under section 799A either directly or through subgrants or subcontracts.

Each application must be jointly submitted by at least two eligible applicants. One of the applicants must be an academic institution. Each application must demonstrate the need and demand for health care services, knowledge of available resources and the most significant service and educational gaps within its targeted geographic area. One applicant must be designated the principal organization responsible and accountable for the conduct of the proposed project.

Definitions

"*Clinical Treatment or Training*" means direct, supervised participation in patient care by observation, examination and performance of procedures as are appropriate for the assigned role of the trainee on the rural health care team.

"*Community Health Center*" means an entity as defined in section 330(a) and (b) of the Act and in regulations at 42 CFR 51c.102(c).

"*Community Mental Health Center*" means for purposes of this grant program a multiservice mental health facility which provides essential elements of comprehensive mental health services:

(1) Inpatient services;
(2) Outpatient services;
(3) Partial hospitalization services—must include at least day care services;
(4) Emergency services provided 24 hours per day—must be available within at least one of the first three services listed above; and/or
(5) Consultation and education services available to community agencies and professions personnel.

"*Indian Tribe*" *or* "*Tribal Organization*" means an organization or entity as defined in section 4(e) and 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

"*Interdisciplinary Training*" means a planned and coordinated program of education or training aimed at preparation of functioning teams of two or more health care practitioners from different health disciplines who will coordinate their activities to provide services to a client or group of clients.

"*Long-Term Care Facility*" is a facility which offers services designed to provide diagnostic, preventive, therapeutic, rehabilitative, supportive and maintenance services for individuals who have chronic physical or mental impairments. This facility may have a variety of institutional and non-institutional health settings, including the home, and the goal of the service provided is to promote the optimum level of physical, social and psychological functioning.

"*Migrant Health Center*" means an entity as defined in section 329(a) of the Act and in regulations at 42 CFR 56.102(g)(1).

"*Native Hawaiian Health Center*" means an entity as defined in the Native Hawaiian Health Care Act of 1988 (Pub L. 100–579) (42 U.S.C. 11707(4)).

"*Nonprofit*" as applied to any entity means one, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

"*Postdoctoral Fellowship Program*" means a program of advanced academic or professional work, after the attainment of a doctoral degree, that is sponsored by a school of/or program that specializes in medicine, osteopathic medicine, nursing, dentistry, psychology, social work, optometry, public health, pharmacy, podiatric medicine, or allied health.

"*Rural Area*" means a Non-Metropolitan Statistical Area or an area located outside a Metropolitan Statistical Area as defined by standards followed by the Office of Management and Budget. "Rural Area," as defined in section 799A, includes a "frontier area" in which the population density is less than 7 individuals per square mile.

"*Rural Health Care Agency*" means a hospital, community health center, migrant health center, rural health clinic, community mental health center, long-term care facility, facility operated by the Indian Health Service or an Indian tribe or tribal organization under a contract with the Indian Health Service under the Indian Self-Determination and Education Assistance Acts, or Native Hawaiian health centers.

"*Rural Health Clinic*" means an entity as defined under section 1861(aa)(2) of the Social Security Act and in regulations at 42 CFR 491.2.

"*State*" means, in addition to the 50 States, only the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands (the Republic of Palau), the Republican of the Marshall Islands, and the Federated States of Micronesia.

National Health Objectives for the Year 2000

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS led national activity for setting priority areas. This program, Grants for Interdisciplinary Training for Health Care for Rural Areas, is related to the priority area of Educational and Community-Based Programs. Potential applicants may obtain a copy of Healthy People 2000 (Full Report; Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report; Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325 (telephone 202–783–3238).

Education and Service Linkage

As part of its long-range planning, HRSA will be targeting its efforts to strengthening linkages between U.S. Public Health Service education programs and programs which provide comprehensive primary care services to the undeserved.

Statutory Project Requirements

Interdisciplinary training projects funded under section 799A must:

1. Assist individuals in academic institutions in establishing long-term collaborative relationships with health care facilities and providers in rural areas; and;

2. Designate a rural health care agency or agencies for clinical treatment or training, including hospitals, community health centers, migrant health centers, rural health clinics, community mental health centers, long-term care facilities, facilities operated by the Indian Health Service or an Indian tribe or tribal organization or Indian organization under a contract with the Indian Health Service under the Indian Self-Determination and Education Assistance Acts, or Native Hawaiian health centers.

Not more than 10 percent of the individuals receiving training with section 799A funds shall be trained as doctors of medicine or osteopathic medicine. A grantee may not use more

than 10 percent of the grant funds for administrative costs.

Established Nonstatutory Project Requirements

The following project requirements were established in fiscal year 1990 (55 FR 24321, dated June 15, 1990) and 1991 (56 FR 37713, dated August 8, 1991), after public comment, and are being extended in FY 1993.

A project supported under this grant program must meet the following requirements:

(1) Carry out the following two project purposes, at a minimum, among those authorized by section 799A:

(a) Interdisciplinary training to prepare health care practitioners to provide services in rural areas; and

(b) increase the recruitment and retention of health care practitioners in rural areas.

(2) Collaborate with the resources of an Area Health Education Center (AHEC) or Geriatric Education Center (GEC) if these centers are present in a State or part of a State where the rural interdisciplinary training project is conducted.

(3) Evaluate in a systematic manner, as prescribed by the Secretary, its project activity, including determination of a baseline at the outset of the project and measurement of progress by trainees and faculty.

(4) Provide and clearly define for each level of training (undergraduate, graduate, postgraduate, continuing education and faculty training) the disciplines and numbers of students to receive training as well as the duration of the training. This is to include an outline of basic criteria for the selection of students to participate in the training. These project elements are to be tracked and linked to project outcomes.

(5) Provide specific indicators of the extent and means by which it plans to become self-sufficient.

(6) Implement integrated recruitment and retention strategies.

(7) Establish curriculum elements that address the uniqueness of health conditions and ethnic or cultural characteristics of the populations in the rural areas to be served.

(8) Enroll a significant proportion of individuals from rural areas, particularly rural health professions shortage areas or medically underserved areas.

Review Criteria

The review of applications will take into consideration the following criteria:

(1) The potential effectiveness of the proposed project in carrying out the training purposes of section 799A of the Act;

(2) The extent to which the project explains and documents the need for the project in the rural area to be served;

(3) The degree to which the proposed project adequately provides for the interdisciplinary training of health professionals to practice in the rural area to be addressed by the project;

(4) The degree to which the applicant offers appropriate clinical training experiences in rural health care settings;

(5) The degree to which the applicant demonstrates a commitment to establishing and maintaining long-term collaborative relationships between academic institutions and health care facilities and providers in rural areas;

(6) The effectiveness of the organizational arrangements necessary to carry out the project;

(7) The administrative and management capability of the applicant to carry out the proposed project in a cost-effective manner;

(8) The capability of the proposed staff and faculty to provide the proposed instruction;

(9) The extent to which the trainee recruitment and selection process assures that qualified trainees with significant interest or background in rural health care are involved in the project;

(10) The extent to which the budget justification is reasonable and indicates that institutional and community support to the project are provided to the maximum extent possible; and

(11) The extent to which the financial information provided indicates an effective utilization of grant funds and indicates that the project will continue on a self-sustaining basis.

Other Considerations

In addition, the following funding factors may be applied in determining funding of approved applications.

A funding preference is defined as the funding of a specific category or group of approved applications ahead of other categories or groups of approved applications.

A funding priority is defined as the favorable adjustment of aggregate review scores of individual approved applications when applications meet specified criteria.

Special consideration is defined as the enhancement of priority scores by merit reviewers based on the extent to which applications address special areas of concern.

It is not required that applicants request consideration for a funding factor. Applications which do not request consideration for funding factors will be reviewed and given full consideration for funding.

Established Funding Preference

The following funding preference was established in FY 1990, after public comment (55 FR 24321, dated June 15, 1990), and the Administration is extending it in FY 1993.

A funding preference will be given to interdisciplinary training involving three or more disciplines. This funding preference will be given to applicants that propose and implement training for health care practitioners, faculty or students representing three or more disciplines.

Proposed Funding Priority

In addition, for FY 1993, it is proposed that a funding priority be given to applicant institutions (academic) which demonstrate either substantial progress over the last three years or a significant experience of ten or more years in enrolling and graduating trainees from those minority or low-income populations identified as at risk of poor health outcomes. This priority is consistent with a HRSA strategy to increase the number of health professionals from minority and other at risk populations, to assure equal access to health professions education for all population groups, and ultimately, to provide a greater volume of health care in underserved areas.

Proposed Special Consideration

Special consideration will be given to the extent to which applicants enroll and graduate trainees from underserved areas. This special consideration is intended to recognize applicants that enroll and graduate trainees from underserved areas because health professionals who come from underserved areas are more likely to return there upon completion of training to provide needed health services.

Additional Information

Interested persons are invited to comment on the proposed funding priority and special consideration. The comment period is 30 days. All comments received on or before October 26, 1992, will be considered before the final funding priority and special consideration are established. No funds will be allocated or final selections made until a final notice is published stating when the final funding priority and special consideration will be applied. Written comments should be addressed to: Director, Division of Associated, Dental and Public Health Professions, Bureau of Health Professions, HRSA, Parklawn Building, room 8–101, 5600 Fishers Lane, Rockville, Maryland 20857.

All comments received will be available for public inspection and copying at the Division of Associated, Dental and Public Health Professions, Bureau of Health Professions, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 and 5 p.m.

Application forms will be sent only upon request. Requests for application materials and questions regarding grants policy and business management issues should be directed to: Ms. Mary Allen, Grants Management Specialist (D–36), Bureau of Health Professions, HRSA, Parklawn Building, room 8C–26, 5600 Fishers Lane, Rockville, MD 20857, Telephone: 301–443–6002, FAX: 301–443–4131.

Completed applications should be returned to the Grants Management Branch at the above address.

If additional programmatic information is needed, please contact: Dr. Marcia Brand, Program Officer, Division of Associated, Dental and Public Health Professions, Bureau of Health Professions, HRSA, Parklawn Building, room 8C–15, 5600 Fishers Lane, Rockville, MD 20857, Telephone: 301–443–6837, FAX: 301–443–1164.

The standard application for State and local governments is form PHS 5161. For other applicants, the standard application form PHS 6025–1, HRSA Competing Training Grant Application, General Instructions and supplement for this program have been approved by the Office of Management and Budget under the Paperwork Reduction Act. The OMB clearance number is 0915–0060.

The deadline date for receipt of applications is December 4, 1992. Applications will be considered to be "on time" if they are either:

(1) *Received on or before* the established deadline date, or

(2) *Sent on or before* the established deadline date and received in time for orderly processing. (Applicants should request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

Late applications not accepted for processing will be returned to the applicant.

This program, Grants for Interdisciplinary Training for Health Care for Rural Areas, is listed at 93.192 in the Catalog of Federal Domestic Assistance. It is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: August 20, 1992.

John H. Kelso,

Acting Administrator.

BILLING CODE 4160–15–M

Advisory Council; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following National Advisory body scheduled to meet during the month of October 1992:

Name: Advisory Committee on Infant Mortality.

Date & Time: October 5–6, 1992, 8:30 a.m.

Place: West End Ballroom; Salons D & E, Washington Marriott, 1221 22d Street, NW., Washington, DC 20037.

The meeting is open to the public.

Purpose: The Committee provides advice and recommendations to the Secretary on the following: Department programs which are directed at reducing infant mortality and improving the health status of pregnant women and infants; how best to coordinate the variety of Federal, State, local and private programs and efforts that are designed to deal with the health and social problems impacting on infant mortality; and the implementation of the Healthy Start Initiative and other recommendations of the Domestic Policy Council, and infant mortality objectives from Healthy People: 2000: National Health Promotion and Disease Prevention Objectives.

Agenda: Topics that will be discussed include: Healthy Start Initiative Program, Evaluation and Public Information/Education Campaign; and Health Professions Education/Manpower Initiatives. Subcommittees will also convene.

Anyone requiring information regarding the Committee should contact Mr. Ronald Carlson, Executive Secretary, Advisory Committee on Infant Morality, Health Resources and Services Administration, room 14–33, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, telephone (301) 443–2460.

Persons interested in attending any portion of the meeting should contact Ms. Kyungeun Carol Han, Public Health Analyst, Office of the Planning, Evaluation and Legislation, Health Resources and Services Administration, telephone (301) 443–1900.

Agenda Items are subject to change as priorities dictate.

Dated: September 15, 1992.

Jackie E. Baum,

Advisory Committee Management Officer, HRSA.

[FR Doc. 92–23112 Filed 9–23–92; 8:45 am]

BILLING CODE 4160–15–M

Advisory Council; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following National Advisory body scheduled to meet during the month of October 1992:

Name: Council on Graduate Medical Education.

Time: October 27–29, 1992, 8:30 a.m.

Place: Conference Room G & H, Parklawn Conference Center, 5600 Fishers Lane, Rockville, MD 20857.

Open for entire meeting.

Purpose: Provides advice and recommendations to the Secretary and to the Committees on Labor and Human Resources, and Finance of the Senate and the Committees on Energy and Commerce and Ways and Means of the House of Representatives, with respect to (A) the supply and distribution of physicians in the United States; (B) current and future shortages of physicians in medical and surgical specialties and subspecialties; (C) issues relating to foreign medical graduates; (D) appropriate Federal policies regarding (A), (B), and (C) above; (E) appropriate efforts to be carried out by medical and osteopathic schools, public and private hospitals and accrediting bodies regarding matters in (A), (B), and (C) above; (F) deficiencies in the needs for improvements in, existing data bases concerning supply and distribution of, and training programs for physicians in the United States.

Agenda: There will be a period of public comment on the Third Report of the Council on Graduate Medical Education.

Anyone requiring information regarding the subject Council should contact Marc L. Rivo, M.D., M.P.H., Executive Secretary, telephone (301) 443–6190; or F. Lawrence Clare, M.D., M.P.H., Deputy Executive Secretary, telephone (301) 443–6328, Council on Graduate Medical Education, Division of Medicine, Bureau of Health Professions, Health Resources and Services Administration, room 4C–25, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Agenda Items are subject to change as priorities dictate.

Dated: September 15, 1992.

Jackie E. Baum,

Advisory Committee Management Officer, HRSA.

BILLING CODE 4160–15–M

National Institutes of Health

National Institute on Deafness and Other Communication Disorders; Notice of Meeting of the National Deafness and Other Communication Disorders Advisory Board

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Deafness and Other Communication Disorders Advisory Board on October 5, 1992. The meeting will take place from 8:30 a.m. to 4:30 p.m. in Conference Room 6, Building

31C, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892.

The meeting will be open to the public from 8:30 a.m. to 3:50 p.m. to discuss the Board's activities and to present special reports. Attendance by the public will be limited to the space available.

In accordance with the provisions set forth in section 552b(c)(6), title 5, U.S.C. and section 10(d) of Public Law 92–463, the meeting will be closed to the public from 3:50 p.m. until recess. The closed portion of the meeting will be for the discussion and approval of individuals to serve on scientific panels to update the smell, taste and touch and chemosensory disorders section and the speech and speech disorders section of the Research Plan. These discussions could reveal personal information concerning these individuals, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Summaries of the Board's meeting and a roster of members may be obtained from Ms. Monica Davies, Executive Director, National Deafness and Other Communication Disorders Advisory Board, Building 31, room 3C08, National Institutes of Health, Bethesda, Maryland 20892, 301–402–1129, upon request.

BILLING CODE 4140–01–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N–92–3510]

Privacy Act of 1974; Computer Matching Program

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Notice of a Computer Matching Program—HUD and Department of Education (ED).

SUMMARY: In accordance with the Privacy Act of 1974 (5 U.S.C. 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, as amended, (Public Law 100–503), and the Office of Management and Budget (OMB) Guidelines on the Conduct of Matching Programs (54 FR 25818 (June 19, 1989)), and OMB Bulletin 89–22, "Instructions on Reporting Computer Matching Programs to the Office of Management and Budget (OMB), Congress and the Public," the Department of Housing and Urban Development (HUD) is issuing a public notice of its intent to conduct a computer matching program with the Department of Education (ED) to utilize a computer information system of HUD, the Credit Alert Interactive Voice Response System (CAIVRS), with ED's debtor files. This match will allow prescreening of applicants for loans made or loans guaranteed by the Federal Government to ascertain if the applicant is delinquent in paying a debt owed to or insured by the Federal Government.
